SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Sept. 9) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897, are as follows.

Receipts to Sept. 9.	1898.		1897.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1898.	1897.

ANNUAL COTTON CROP STATEMENT.—In a Supplement accompanying this issue of the CHRONICLE will be found our annual crop statement, with the usual facts and information with regard to consumption, &c.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crop in the Southern States for the week ending Sept. 5:

VIRGINIA.—Weather favorable for maturing crops; cotton poor.

NORTH CAROLINA.—Damp, sultry weather, unfavorable; cotton suffering from rust, shedding, rotting, and sprouting in open bolls; it is opening rapidly; picking progressing slowly.

SOUTH CAROLINA.—Continuous rains have caused opening cotton to rot and sprout in the bolls; cotton picking general but weather unfavorable; from 6 to 12 inches of rain fell in Barnwell, Hampton and Beaufort counties, flooding large areas and destroying much cotton.

GEORGIA.—Another week of almost continuous rain has added greatly to the damage to nearly all crops; cotton is rotting, shedding and sprouting and boll worms are increasing; much cotton already picked is sprouting.

FLORIDA.—Excepting heavy rains over western portion, which caused considerable damage to crops, the week has been favorable for farm work; cotton opened rapidly and picking active.

ALABAMA.—Too much rain, except in north-central and north-west counties, continuing damage to cotton by rust, rot, and shedding; some complaint of boll worms, caterpillars, and bolls sprouting, picking becoming general, but quality poor and prospective yield below average.

MISSISSIPPI.—Cotton deteriorated considerably since last report; many complaints of shedding, rust, rot, worms, and weedy growth seriously damaging cotton; picking progressing rapidly where not impeded by heavy rainfall; some few favorable reports of cotton received.

LOUISIANA.—Warm days, cool nights, rainfall light in northern but heavier in southern portions; cotton opening rapidly and less damage from worms, shedding and caterpillars, except some southern parishes where caterpillars are very injurious; picking progressing with yields generally below average.

TEXAS.—Except local showers, weather favorable for cotton picking, which progressed rapidly in all sections; boll worms, caterpillars and sharpshooters continue to damage cotton, but not so much as in previous week; rain needed for late cotton and top crop, which is shedding fruit on account of hot, dry weather.

ARKANSAS.—Hot, dry weather has caused cotton to open rapidly in all sections, picking not general on account of extreme heat, but is progressing as weather permits; few isolated reports of damage by worms, rust and shedding.

TENNESSEE.—Good rains 1st and 2d over large portion of eastern and middle sections, heavy in eastern, light showers in portion of western section, elsewhere dry, and late crops suffering; cotton opening rapidly, picking in full progress.

OKLAHOMA.—Cotton-picking general; yield not up to expectations.

MISSOURI.—Cotton opening rapidly; picking begun.

These reports on cotton are summarized by the Department as follows:

Cotton has suffered seriously from rust, shedding, and insects over the eastern portion of the cotton belt, from which sections numerous reports of rotting and sprouting are also received, especially in Georgia and the Carolinas, where the rainfall has been exceptionally heavy. In Louisiana and Texas reports of shedding and damage by insects are less numerous than in the preceding week. In the last-named State rain is needed for late cotton and the top crop. Cotton is opening rapidly in all districts, and picking is progressing favorably over the central and western portions, but has been retarded by rains in portions of the eastern section.

NEW ENGLAND COTTON MILL SITUATION.—Curtailment of production at Fall River has been further extended the past week, nearly three-quarters of a million spindles having been idle. The cotton mills of Lowell, Mass., are threatened with an enforced shut-down for a few days, the back boys in each mill having started a movement for a general strike for the restoration of the old schedule of wages. The Namquitt Cotton Mills of Bristol, R. I., started up on September 8 after having been idle since August 3.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 22,671 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool, per steamers Aurania, 532.....	
Taurio, 101.....	633
To Hull, per steamer Francisco, 100.....	100
To Havre, per steamer La Touraine, 15 Sea Island.....	15

BREADSTUFFS.

FRIDAY, Sept. 9, 1898.

Only a very moderate volume of business has been transacted in the market for wheat flour. It would seem that the prices now ruling were on a sufficiently low basis to appear active to buyers and stimulate some buying for investment account. Jobbers as a rule, however, showed no especial confidence in the situation and with few exceptions have confined their purchases to such supplies as have been needed to meet current wants. The export business has also been on a limited scale only. Rye flour has been quiet but prices have been unchanged and steady. Corn meal has sold slowly and prices have ruled slightly in favor of buyers.

Speculation in the market for wheat futures has been quiet, and the tendency of prices has been towards a lower basis. The crop movement in the Northwest has continued large, foreign advices have been weaker, and early in the week a much larger increase in the visible supply than was generally expected had a weakening influence. At the lower prices exporters have been fairly large buyers, and this gave a steadier tone to the situation during the latter part of the week. Saturday and Monday were observed as holidays in the local grain trade. Tuesday the market was easier; prices declined ¾@⅞c. The principal depressing features were an exceptionally heavy movement of the crop in the Northwest, a larger increase in the visible supply than was generally expected and easier foreign advices. Wednesday there continued a quiet market and prices showed a slight further loss for the distant deliveries. Early in the day shorts bought to cover contracts, and for September delivery prices advanced 1c. from Tuesday's final price. Subsequently, however, the full-crop movement and quiet and easier foreign advices prompted freer offerings, and prices declined. Thursday there was a steadier market. The free export purchases the past few days stimulated a demand from shorts to cover contracts, and the close showed prices ¼@⅝c. higher for the day. To-day the market was fairly active and higher in response to stronger foreign advices, expected less favorable Government report, continued buying by exporters, and a demand from shorts to cover contracts. The close showed prices 1⅛@1⅜c. higher for the day. The spot market was fairly active. Exporters were buyers, the purchases here and at outports amounting to 384,000 bushels.

May delivery.....c.			67	66¾	67⅛	68¼

Indian corn futures have continued to receive only a limited amount of speculative interest. Tuesday there was a firmer tone to the market and prices advanced slightly on predictions of frosts in the corn belt, following the appearance of a cold wave in the Northwest. Wednesday the market was weaker; prices declined ⅝c. under moderate offerings, prompted by favorable crop prospects. The predicted frosts fail to materialize, and sympathy with the decline in wheat also had a weakening influence. Thursday the market was steadier. The export business has been fairly active. To-day prices advanced ⅝@¾c. on reports of severe weather in the corn belt. The spot market was firmer. The sales for export here and at outports were 425,000 bushels.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

May delivery.....c.			37 7/8	37¼	37⅛	37¾

Oats for future delivery have been dull. Early in the week, in sympathy with weaker advices from the West, due to a large crop movement, and following the decline in wheat values, prices eased off a fraction. Subsequently, however, the loss was recovered, a fairly good cash trade being the strengthening feature. Exporters were moderate buyers. To-day the market was firmer, in sympathy with the advance in wheat and corn. The spot market was firmer. Sales for export were 50,000 bushels.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

* Last week's stocks; this week's not received.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Sept. 9, 1898.

Business during the first half of the week was slow, Monday being a holiday and the heat seriously checking spot buying the next two days. With a much lower temperature since Wednesday buyers have been present in large numbers, and store trade has picked up considerably. Reports from out-of-town markets show that trade has been checked since the beginning of the month by the hot spell, and that a return to normal weather was needed to help the balance of fall business at second hands, so that the change must be regarded as a favorable market factor. There have not been any developments of importance in either the cotton or woolen goods division. In the former buying for export has expanded somewhat and there has been greater curtailment in production at Fall River, but both may prove transient, whilst the low level of prices for raw cotton will, it is believed, prove a more lasting influence. Print cloths have continued firm, but in heavy staple cottons there is still a sagging tendency. Print cloth stocks have of late been considerably reduced, but in the other lines referred to there are signs of goods accumulating. The woolen goods division closes the week in as unsatisfactory condition as before in both men's-wear fabrics and dress goods.

WOOLEN GOODS.—There has been a poor attendance of wholesale clothiers and cloth jobbers in the market this week and spot business has been slow. Salesmen on the road have also had poor success and the situation continues very unsatisfactory. The total orders taken for light-weight woolens and worsteds for men's wear for spring up to date are much below normal, and generally estimated to be not over fifty per cent of the volume of business secured up to corresponding date last year. A good supplementary demand is looked for, and this helps to keep sellers steady, but there is nevertheless some irregularity in prices of both low and higher-grade fabrics. Cotton-warp and cotton-mixed lines are dull. Overcoatings and cloakings inactive. Dress goods irregular in price, with moderate sales. Blankets dull but prices maintained. Flannels steady with moderate demand.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 5 were 4,853 packages, valued at $174,570, their destination being to the points specified in the tables below:

NEW YORK TO SEPT. 5.	1898. Week.	1898. Since Jan. 1.	1897. Week.	1897. Since Jan. 1

Total	8,778	250,639	2,048	210,898

* From New England mill points direct.

The value of the New York exports for the year to date has been $8,137,777 in 1898 against $7,654,734 in 1897.

Sales of heavy sheetings and drills this week for export have been larger than for some time past, but business on home account continues indifferent. Prices are easy and occasional makes of 4 yard sheetings reduced ⅛c. Lightweights steady but demand quieter. Duck in better request but prices barely so firm as of late. Business in bleached cottons quiet; medium and fine grades tend in favor of buyers; low grades firm. Denims dull and demand readily met; other coarse, colored cottons quiet, with ready sellers. Wide sheetings slow and unchanged. Cotton flannels and blankets firm. White goods in fair demand for spring but prices irregular. Kid-finished cambrics steady. Fancy prints quieter, with pressure to sell in some quarters. More staple lines in steady request and prices generally maintained. Staple and dress style ginghams quiet but well situated and prices steady. The demand for print cloths has fallen off considerably, but prices firmly maintained on the basis of 2 1-16c. for extras.

FOREIGN DRY GOODS.—Fall trade has been made up of small, unimportant purchases in various lines at irregular prices. Buyers are still backward in placing orders for spring in both staple and fancy goods, and importers are not pressing for business.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending Sept. 8, 1898, and since January 1, 1898, and for the corresponding periods of last year are as follows:

New York State.—*Equalized Valuations.*—On September 6, 1898, the State Board of Equalization adopted the table of equalization as prepared by the State Tax Commissioners.

The table is based upon the Assessors' returns for the year ending July 1, 1897. The assessed values for the present year are not official until passed upon by the Supervisors in December, and therefore the tax levy will not be based upon this year's figures.

In the following table we give for each county the assessed values of real estate for 1897, the amount added or deducted in adjustment, and the equalized values; also the total of the real estate valuation as equalized and of the personal property.

TABLE OF EQUALIZED VALUATIONS.

Counties—	Assessed Value of Real Estate 1897.	Amounts Added and Deducted this Year.	Equalized Value of Real Estate.	Total of Equalized Value of Real Estate and of Personal Est.

Wyoming	13,109,372	− 64,721	13,035,651	14,827,629
Yates	10,175,392	−466,371	9,709,029	10,732,146
Total	4,349,801,526		4,349,801,526	4,898,611,019

From the above table it will seen that the total value of real estate for the State is $4,349,801,526; the value of personal property is $548,809,493, making a total valuation of $4,898,611,019, an increase of $391,625,325 over that of last year. Of this increase $307,974,940 is in real estate and $83,650,385 in personal property. In the figures for personal property as given above, $100,577,819, which is exempt from taxation for State purposes, is not included.

Evansville, Ill.—*Bond Litigation.*—On May 17, 1898, the city's corporation lines were extended so as to take in a large portion of Pigeon township, including the Blankenburg school building. This building was erected at a cost of $12,000, and bonds for this amount were issued. These bonds are now past due, and the township desires that the city shall pay the debt, which the latter refuses to do. Suit has been entered by the township in the Superior Court asking for the possession of the building and for judgment to the amount of $12,000.

Los Angeles, Cal.—*Proposed Bond Issue Valid.*—Mr. C. H. Hance, City Clerk, writes us under date September 7, 1898, that the State Supreme Court had decided in favor of the validity of the bonds which are offered for sale on September 19, 1898. The point raised was the result of a clerical error. In inserting an amendment in the law authorizing municipal bonds a manifestly wrong number was copied, with the result that the section number intended to be amended was left unchanged. The case was an agreed one, brought to remove all doubts as to the legality of the bonds now offered for sale.

Macon County, Mo.—*Information Relative to County Bonds.*—Having received inquiries relative to the present condition of the defaulted bonds of this county, we have obtained the following statement from an official source setting out the present situation: "The bonds (of this county) have been the subject of litigation for many years. I suppose that all of them that are now outstanding are in judgment. Some of the judgment creditors hold warrants issued against the common fund of the county for the amount of their judgments. Some of the judgments and bonds have been converted into warrants issued against the M. & M. RR. fund—the fund created for the payment of this debt. An annual levy of 1-20 of 1% is made to meet the debt, principal and interest. This levy—amounting to about $5,000 annually—is wholly taken up in the payment of M. & M. warrants. This levy is sufficient to pay only a small part of the annual interest on the debt. No effort is being made, and none is likely to be made, further than the levy mentioned, to meet this debt. About a year ago a large part of the debt was offered the county at 25 cents on the dollar. The debt at present amounts to somewhere from $1,250,000 to $1,500,000."

New York City.—*Mandamus to Compel Payment of Interest.*—On September 7, 1898, Judge Bookstaver, in the Supreme Court, decided that unless Comptroller Coler within five days pays the interest due on the bonds which were issued by the townships of Northfield, Southfield and Westfield, Staten Island, during the year 1897 for improvements, he will issue a peremptory mandamus to compel the payment of the money due at once. These issues, which are now obligations of the city of New York, have been approved as to their legality, it is stated, by special counsel to whom the matter was referred by Corporation Counsel Whalen. With reference to the bonds issued by the township of Whitestone, Judge Bookstaver says that inasmuch as a question has been raised as to their validity he will not pass upon the payment of the interest until that question has been disposed of.

Bond Award Valid.—On September 9, 1898, Justice Cohen of the Supreme Court handed down a decision denying the application of the Vermilye syndicate to restrain the City Comptroller from delivering the $12,688,992 36 3½% bonds awarded to the Produce Exchange Trust Company. The motion of William A. Read, a member of the Vermilye syndicate, for a similar injunction was also denied. These suits have attracted much attention, as the bid of the Vermilye & Co. syndicate, although the highest, was subject to the approval of their counsel. This the Comptroller held was conditional, and he awarded the bonds to the highest unconditional bidder. Justice Cohen, in handing down his decision, sustains the Comptroller, and states that the bidders had thirteen days in which to examine the validity of the bonds. It is stated that the attorneys for the Vermilye syndicate have announced that an appeal would be taken to the Court of Appeals.

A decision was also handed down by Justice Beekman in a suit brought to restrain the Comptroller from awarding the bonds to the Produce Exchange Trust Company on the ground that they were not the highest bidders. The Judge denied the motion for a peremptory writ of mandamus.

Presque Isle County, Mich.—*Bond Litigation.*—Local reports state that the Board of Supervisors has decided to carry to the Supreme Court the case to decide the validity of $100,000 refunding bonds issued in 1885. The county contends that the bonds are not legal.

Santa Cruz, Cal.—*Bond Litigation.*—Upon inquiry, we learn that there has not been any decision reached in the suit to test the validity of the $360,000 refunding bonds, which went to trial on November 1, 1897.

Tacoma, Wash.—*Warrant Litigation.*—Argument in the case of the Quaker City National Bank of Philadelphia against the city of Tacoma, to recover on $95,000 warrants held by the bank was concluded before Judge Carroll in the Superior Court on September 1, 1898.

Judge Pritchard, as attorney for the city, offered a motion to require the plaintiff company to make its complaint more definite and certain by setting forth facts showing how it acquired title to the warrants in the suit from the various payees named in said warrants; and also to require it to give the names of the various holders of said warrants prior to its acquisition of title thereto. The Court granted the first part of the motion and denied the second.

See CHRONICLE September 3, 1898, August 13, 1898, May 14, 1898, March 12, 1898, and February 26, 1898.

United States.—*"Pacific" Railroad Bonds to be Prepaid.*—Hon. L. J. Gage, Secretary of the Treasury, has issued a circular offering to redeem in advance of maturity certain of the Pacific Railroad bonds still outstanding. Further particulars will be found in our Railroad Department.

Bond Calls and Redemptions.

Columbus, Ohio.—*Bond Call.*—The Trustees of the Sinking Fund have called for payment September 15, 1898, various issues of street-improvement bonds to the amount of $18,700.

Des Moines, Iowa.—*Bonds Redeemed.*—On August 31, 1898, City Treasurer A. B. Elliott redeemed $14,000 city bonds.

Maryland.—*Bond Call.*—Thomas J. Shryock has given notice that interest will cease on January 1, 1899, on all 3·65% Maryland Defense Redemption bonds, except those exchanged for the "Consolidated Loan of 1899," as more fully stated in another column. Bonds will be paid at the office of the State's Agent, the Third National Bank of Baltimore.

Washington.—*Warrant Call.*—The State Treasurer has issued a call for State General Fund warrants numbered from 26,651 to 26,930, inclusive, amounting to $26,588 10. Interest will cease after September 7, 1898.

Bond Proposals and Negotiations this week have been as follows:

Albany, N. Y.—*Bond Issue.*—The Trustees of the Sinking Fund have decided to take the $50,000 3½% Broadway widening bonds at par as an investment for the sinking fund. Bonds are dated October 1, 1898.

Alexis (Village), Ill.—*Bond Sale.*—The following bids, of which that of W. J. Hayes & Sons, Cleveland, at 104·833 was the highest, were received on September 1, 1898, for the $3,000 6% water-works bonds:

W. J. Hayes & Sons, Cleve.	$3,143	W. G. Stevenson, Cashier, Alexis.	$3,031
Noel-Young Bond & Stock Co., St. Louis	3,114	Donaldson Bond & Stock Co., St. Louis	3,015
Farmers' State Bk., Geneseo, Ill.	3,105	Geisler & Kronstruck, St. Louis	3,005
Trowbridge, MacDonald & Niver Co., Chicago	3,067	First National Bank, Kirkwood	3,000
		Galesburg Nat. Bank, Galesburg	3,000

Principal will mature $500 yearly on March 1 from 1900 to 1905, inclusive. For description of bonds see CHRONICLE August 27, 1898, p. 442.

Baltimore, Md.—*Bond Election.*—At the coming November election the following bond propositions will be voted upon:

$1,500,000 4% bonds due in 1938 for the following purposes: $1,500,000 for street paving, $1,000,000 for school houses, $1,500,000 for a general sewerage system and $500,000 for surface sewers.
4,500,000 bonds to refund various issues maturing next year.
1,875,000 3½% 5-year bonds to extinguish $37 ,000 third mortgage bonds of the Western Maryland Railroad due Jan. 1, 1900, and $1,000,000 of the same railroad company due Jan. 1, 1902.

See CHRONICLE May 7, 1898.

Bath, Me.—*Offering of Penobscot Shore Line Bonds or Refunding Bonds.*—Mayor Joseph Torrey and the Finance Committee, Geo. E. Thompson Chairman, request bids on each of the block of bonds mentioned below, to be opened by the Finance Committee at 2 P. M. Sept. 15, 1898. The amount to be raised is $133,650, either by the sale of Penobscot Shore Line bonds or by the issue of 4% 20-year refunding bonds. The purpose of this offering is to reimburse the city for the money used to pay the $14,150 Knox & Lincoln RR. 6% aid bonds, which matured July 1, 1898, and to provide the money needed to pay the $119,500 Knox & Lincoln RR. 6% stock bonds, maturing October 15, 1898. The Penobscot Shore Line first mortgage registered bonds bear 4% interest, payable February 1 and August 1, and mature August 1, 1920. The Penobscot Shore Line bonds will be guaranteed, principal and interest, by the city of Bath.

Bellefontaine, Ohio.—*Bonds Defeated.*—At the election held on September 3, 1898, the proposition to issue $10,000 6% fire engine-house bonds failed to carry.

Bergen (N. Y.) Union School District.—*Loan Negotiated.* The Board of Education has negotiated a loan of $2,000 at 3¾% with John H. Ward, Batavia. Loan is secured by four notes of $500 each, dated October 1, 1898, and payable in one, two, three and four years. Interest will be payable annually. On July 8 the district voted $2,500 to pay for an addition to the school house, for which purpose this loan will be used. The remaining $500 will be raised by tax.

Boyle County (P. O. Danville), Ky.—*Bond Election.*—On November 8, 1898, an election will be held to vote on the question of issuing $40,000 turnpike bonds. Interest will not exceed 6%. Principal will mature in 30 years, redeemable at option of the county.

Buffalo, N. Y.—*Bond Sale.*—On September 6, 1898, the $466,003 54 3½% tax loan bonds were awarded to Farson, Leach & Co., New York City, at 101·778. Other bidders were: Jesse C. Dann, Buffalo, for $5,000 bonds at 101·52; Joseph E. Gavin, Buffalo, whole issue at 101·2955, and Erie County Savings Bank, Buffalo, whole issue at 101·15. Principal will mature August 15, 1903. For description of bonds see CHRONICLE August 27, 1898, p. 442.

Bond Sale.—The city has awarded $7,166 68 bonds to the Comptroller as an investment of the Park Bond Redemption Sinking Fund. Bonds are dated September 1, 1898, and bear 3% interest. Principal matures September 1, 1899.

Cattaraugus (Village), N. Y.—*Bond Sale.*—The highest bid received on September 5, 1898, for the $5,000 4% water bonds was that of Peter Depuy, Nunda, at 102·916. Following are the bids:

Peter Depuy, Nunda	$5,175 00	Home Savings Bank, Albany	$5,096 00
Isaac W. Sherrill, Poughkeepsie	5,123 62	W. J. Hayes & Sons, Boston	5,083 00
Geo. M. Hahn, New York	5,115 20	C. H. White & Co., New York	5,072 50
		S. A. Kean, Chicago	5,050 00

Principal will mature $500 yearly on July 1 from 1899 to 1910, inclusive. For description of bonds see CHRONICLE of last week, p. 497.

Chattanooga, Tenn.—*Temporary Loan.*—This city has negotiated a 30-days' loan of $5,000 with local bankers.

Chelmsford (Town), Mass.—*Bonds Defeated.*—At an election recently held the proposition to issue bonds for road improvements was defeated.

Cheney, Wash.—*Warrant Compromise.*—At a recent meeting of the Council the Finance Committee reported that the holders of some old warrants aggregating with interest $1,800 had agreed to accept 25 cents on the dollar for the same. The Treasurer was ordered to take them up at that figure.

Coffeyville, Kan.—*Bond Offering.*—Proposals will be received by the Mayor and City Council until 8 P. M. September 28, 1898, for $17,000 6% 10-year electric-light plant bonds. D. S. Elliott is the City Clerk.

Cohoes, N. Y.—*Bond Sale.*—On September 6, 1898, the $1,938 18 4% public improvement bond was awarded to the Cohoes Savings Institution at 100·517. The only other bid received was from the Mechanics' Savings Bank, Cohoes. Principal will mature January 1, 1905. For description of bond see CHRONICLE of last week, p. 497.

Council Bluffs, Iowa.—*Bond Sale.*—On September 6, 1898, the $30,000 4½% refunding bonds were awarded to the Donaldson Bond & Stock Co., St. Louis, at 102·35. Following are the bids:

Donaldson Bond & Stock Co., St. Louis	102·35	Denison, Prior & Co., Cleveland	102·263
		Geo. M. Brinkerhoff, Springfield	101·11

Bonds mature October 1, 1918, subject to call after October 1, 1903. For further description of bonds see CHRONICLE August 20, 1898, p. 387.

Coventry (Town), R. I.—*Loan Authorized.*—The Town Treasurer has been authorized to borrow $60,000 for the renewal of outstanding notes.

Dayton, Ohio.—*Further Details Regarding Bond Offering.*—As stated in the CHRONICLE of August 27, 1898, proposals will be received until 12 M September 26, 1898, at the office of J. E. Gimperling, City Comptroller, for $150,000 4% levee bonds and $50,000 4% storm water sewer bonds. Further details are now at hand. Securities will be in denomination of $1,000, dated October 1, 1898; interest will be payable semi-annually in the city of New York. The levee bonds will mature annually on October 1 ($10,000) from 1907 to 1912, inclusive, and $15,000 from 1913 to 1918, inclusive. The sewer bonds will mature $10,000 yearly on October 1 from 1908 to 1912, inclusive. Proposals must give the price for the entire $200,000 bonds, as none other will be considered. Each bid must be accompanied by a certified check on a national bank for 5% of the gross amount of said bonds, payable to the order of the City Comptroller.

Duluth, Minn.—*No Election Held.*—The resolution which was introduced in the City Council calling for an election to be held on August 30 to vote on the question of issuing $100,000 electric-light bonds failed to pass, so the election was not held.

East Grand Forks, N. Dak.—*Charter Election.*—At a special election held September 1, 1898, by a majority of 35 the citizens of this place voted in favor of abandoning the special charter under which the city was organized, and to reorganize under the general law. This, it is stated, will enable the city to fund its outstanding debt.

East Liverpool, Ohio.—*Bond Sale.*—On September 5, 1898, $15,000 4% road-improvement bonds were awarded to Seasongood & Mayer at 101·875. Following are the bids:

	Premium.		*Premium.*
Seasongood & Mayer, Cincin.	$281 25	Briggs, Smith & Co., Cincinnati	$87 50
Rudolph Kleybolte & Co., Cin.	150 00	Denison, Prior & Co., Cleveland	55 00
The Lamprecht Bros. Co., Cleve.	139 50	German Nat. Bank, Cincinnati	41 00
Farson, Leach & Co., Chicago	133 00	W. J. Hayes & Sons, Cleveland	30 00
New First Nat. Bk., Columbus	100 00	First Nat. Bank, East Liverpool	25 00

Securities are in denomination of $1,000, dated May 1, 1898, interest will be payable May 1 and November 1 at the office of the City Treasurer. Principal will mature $1,000 yearly on May 1 from 1903 to 1917, inclusive.

Bonds Voted.—On August 29, 1898, the city voted to issue $15,000 5% street and culvert bonds. Interest will be payable at the office of the City Treasurer. Bonds will be dated September 1, 1898, and the principal will mature from September 1, 1899, to September 1, 1913, inclusive. Date of sale has not yet been determined upon.

Eau Claire, Wis.—*Bonds Voted.*—The city has voted in favor of issuing $40,000 bridge bonds.

Ellensburg, Wash.—*Warrants Not Sold.*—This city advertised for bids to be received until August 1, 1898, for 6% warrants, payable within four years, or as fast as the net profits on the Electric Light Fund would permit. No satisfactory bids were received, so the warrants were not awarded.

Elmira, N. Y.—*Bond Offering.*—Proposals will be received until 8 P. M. September 19, 1898, by Edgar Denton, Mayor for $29,000 registered or coupon refunding bonds. Securities will be in denomination of $1,000, dated October 1, 1898. Rate of interest will be made by the bidder. Principal will mature October 1, 1933. Bonds are issued under Section 7 of Chapter 685, Laws of 1892, as amended by Chapter 466, Laws of 1893, and by Chapter 54, Laws of 1897, and are exempt from all taxation. Each bidder must bid the lowest rate of interest at which the bonds bid for will be taken at par value

and may also bid a rate of interest and premium on the bonds bid for.

Everett, Mass.—*Bond Sale.*—A $10,000 3½% one-year note was recently sold to Blake Bros., Boston. The money was borrowed to extend the system of sewers.

Fayette (Village), Ohio.—*Bond Offering.*—Proposals will be received until September 14, 1898, for $5,500 6% village hall bonds. Securities will be in denomination of $500. Principal will mature $500 each six months from February, 1902, to February, 1906, inclusive. Bonds were authorized at an election held last April, when 127 votes were cast for and 29 against the issue. The village has an indebtedness of only $3,000, which is a school debt and will all be paid before the first bond of the above issue falls due. The assessed valuation is $151,000.

Fostoria, Ohio.—*Bond Sale.*—On August 8, 1898, the $9,867 4½% refunding bonds were sold to W. J. Hayes & Sons, Cleveland, at 104·177. It was recently reported that all bids received for these bonds were rejected, but we are advised by the City Clerk that the award was made as above. Principal will mature September 1, 1918. For description of bonds see CHRONICLE July 30, 1898, p. 240.

Gonzales, Texas.—*Bonds Registered.*—On August 29, 1898, the State Comptroller registered $15,000 sewer bonds.

Green Bay, Wis.—*No Bond Issue at Present.*—We are advised that nothing definite has yet been done looking towards the issuance of $15,000 improvement bonds which were recently reported as authorized.

Healdsburg, Cal.—*Bond Sale.*—On August 25, 1898, the $80,000 5% gold water-works and electric-power bonds were awarded to the Oakland Bank of Savings at 103·3125. Bonds mature $2,000 yearly on January 1 from 1899 to 1938, inclusive. For further description of bonds see CHRONICLE August 20, 1898, p. 388.

Horse Creek Union Drainage District No. 1 (P. O. Farmersville), Montgomery County, Ill.—*Bond Sale*—On September 1, 1898, $6,770 6% registered bonds of this district were sold to F. M. McKay at 100·516. Three other bids were received. Securities are in denomination of $500, except one bond, which is for $270, and bears date of August 1, 1898; interest will be payable annually. Principal will mature as follows: $2,000 August 1, 1899; $2,500 August 1, 1900, and $2,270 August 1, 1901.

Jersey City, N. J.—*Bond Sale.*—On September 7, 1898, the $150,000 4% gold coupon free public library bonds were awarded to Benwell & Everitt, New York, at 105·37. One other bid, that of Blair & Co., New York, at 104·36, was received. Bonds mature April 1, 1928. For further description of bonds see CHRONICLE August 27, 1898, p, 444.

Kasota, Minn.—*No New Bonds.*—Mr. Charles A. Johnson, City Recorder, writes us in reply to our inquiry that the statement in some of the papers that $3,500 Village Hall bonds would be issued is incorrect. Mr. Johnson says that the village has decided to build a hall, but that bonds would not be issued unless the Council should change the present plan of payment for the building.

Lancaster, Ohio.—*Bond Offering.*—Proposals will be received until 12 M. to-day (September 10, 1898), by H. T. Mechling, City Clerk, for one $1,800 5% bond, dated September 15, 1898, and maturing September 15, 1900; interest will be payable semi-annually. Said bond is issued for the purpose of constructing a city prison in the basement of the City Hall, in pursuance of sections 2835 and 2836, Revised Statutes of Ohio, and of an ordinance passed the 11th day of July, 1898, authorizing the issuing of said bond. All bidders are notified that this is an emergency bond, haste being necessitated by reason of the unsanitary condition of the room now used as a city prison, and that Section 2837, Revised Statutes of Ohio, has not been complied with. A certified check or New York draft for $100 must accompany each bid.

Lansdowne, Pa.—*Bond Election.*—There will be an election held in this place on September 20, 1898, to vote on the proposition to issue $15,000 road improvement bonds. Interest will probably be at the rate of 4%, payable in Philadelphia. If the bonds are voted they will be offered for sale about October 1, 1898.

Leipsic, Ohio.—*Bond Sale.*—On September 1, 1898, the $13,000 6% street-improvement bonds were awarded to Seasongood & Mayer, Cincinnati, at 115·393 and accrued interest. Following are the bids:

Seasongood & Mayer, Cincin.	$15,001 75	Mason, Lewis & Co., Chicago.	$14,906 60
W. J. Hayes & Sons, Cleve....	*15,038 00	Seltzer & Co., Toledo	14,982 00
		New First Nat. Bk., Columbus.	14,852 50

*Flat.

$10,000 of the above bonds will mature $1,000 yearly on September 1 from 1909 to 1918, inclusive. The remaining $3,000, known as "East Defiance Street Extension Improvement Bonds," will mature $300 yearly on September 1 from 1909 to 1918 inclusive. For description of these two issues see CHRONICLE August 13, 1898, p. 336.

Leonia (Borough) N. J.—*Bond Sale.*—On September 7, 1898, the $3,500 5% coupon fire department bonds were awarded to C. Zabriskie, Jersey City, at 103·08. Following are the bids:

C. Zabriskie, Jersey City	103·08	Walter Stanton & Co., New York	100·10
D. J. Tingley	103·00	Dan'l A. Moran & Co., New York	100·09
Benwell & Everitt, New York	102·55	J. L. Watkins	100·00
H. B. Smith & Co., New York	100·79		

Bonds mature $500 yearly from 1903 to 1909 inclusive. For further description of bonds see CHRONICLE August 27, 1898, p. 444.

Leslie (Town), Mich.—*No Bond Issue.*—It has been reported that this town was considering the issuance of bonds for water-works. We are advised by the Town Clerk that no such bonds will be issued.

Long Beach (Cal.) School District.—*Bonds Defeated.*—At the election held August 24, 1898, the proposition to issue $8,000 school bonds was defeated.

Lorain, Ohio.—*Bond Sale.*—On September 5, 1898, the $35,000 5% Black River improvement bonds were awarded to the New First National Bank of Columbus at 105·07. Following are the bids:

New First Nat. Bk., Columbus.	$36,774 50	Jas. B. Hoge, Lorain	$35,428 00
Briggs, Smith & Co., Cincin...	35,612 50	Seltzer & Co., Toledo	35,375 00
Denison, Prior & Co., Cleve..	35,585 00	W. J. Hayes & Sons, Cleve...	35,150 00

Bonds mature $5,000 yearly on July 15 from 1918 to 1924, inclusive, any or all bonds being subject to call after July 15, 1908. For further description of bonds see CHRONICLE August 20, 1898, p. 388.

Lorain County, Ohio.—*Bids Rejected—Bonds Re-offered for Sale*—The highest bid received on September 1, 1898, for the $175,000 4% bridge bonds was that of Farson, Leach & Co., Chicago, at 102·67, which bid was withdrawn. The County Commissioners then rejected all proposals, and readvertised the bonds for sale on September 22, 1898. A description of the bonds will be found in the CHRONICLE August 20, 1898, p. 388.

Marlborough, Mass.—*Bond Sale.*—On September 9, 1898, $6,000 4% coupon water bonds, maturing July 1, 1926, and $20,000 4% 20-year coupon sewer bonds, dated July 1, 1898, were awarded to Estabrook & Co., Boston, at 110 291. Both of these issues are in denomination of $1,000; interest will be payable semi-annually. According to the official circular there has never been any default of interest or principal by the city.

Martinton Drainage District No. 3, Ill.—*Bond Sale.*—On August 13, 1898, the District sold to A. Goodell & Sons Co., Loda $18,000 5% 14-year (serial) drainage bonds at 101·10.

Maryland—*Proposed Exchange of Bonds.*—Thomas J. Shryock, State Treasurer, has given notice that between October 1 and November 15, at the office of the State agent, at the Third National Bank, Baltimore, he will be ready to exchange the following bonds for the "Consolidated Loan of 1899":

3·65% defense redemption loan, Chapter No. 289 of 1882.
3% exchange loan of 1883, Chapter No. 449 of 1886.
3% exchange loan of 1-84, Chapter No. 201 of 1888.
3% exchange loan of 1891, Chapter No. 305 of 1890.

The consolidated loan of 1899 provides for the issue of bonds to the amount of $5,800,000, coupon or registered, for the redemption and exchange of obligations of the State, except $500,000 3½% penitentiary loan of 1896 and $100,000 3½% insane asylum loan of 1896. The consolidated loan will bear date of January 1, 1899, with interest at the rate of 3%, payable January 1 and July 1. Principal will mature January 1, 1914, subject to call after January 1, 1909. Bonds are exempt from all State, county and municipal taxation and are to be exchanged at par.

Massillon, Ohio.—*Bond Offering.*—Proposals will be received until 12 M. October 4, 1898, by J. C. Haring, City Clerk, for $4,000 6% public library bonds. Securities will be in denomination of $500, dated April 1, 1899; interest will be payable annually at the City Clerk's office. Principal will mature $500 yearly on April 1 from 1900 to 1907, inclusive. Bonds are authorized by an Act of the General Assembly of Ohio passed April 15, 1898. Each bid must be accompanied by a certified check of some solvent national bank for $200, payable to the City Clerk.

Missouri.—*Bonds Registered.*—The State Auditor has registered the following bonds:

$100 8% bond of Ozark Co. School District No. 2, 23, 11, bearing date Aug. 15.
600 8% bonds of Shannon Co. School District No. 1, 29, 4, bearing date Aug. 15.
250 6% bonds of Macon Co. School District No. 8, 57, 17, bearing date Aug. 1.
700 6% bonds of Livingston Co. School District No. 2, 58, 22, bearing date Sept. 1.
500 7% bonds of Nodaway Co. School District No. 6, 66, 35, bearing date Aug. 22.

Moran, Kansas.—*Bonds Not Sold.*—We are advised that the $4,000 gas bonds, which have been advertised for some time past, are not yet disposed of.

Mount Vernon, N. Y.—*Bond Offering.*—Proposals will be received until 8 P. M. September 20, 1898, by the Common Council at the Lucas Building, No. 9 Depot Place, for $50,000 5% tax relief bonds, Nos. 433 to 482, inclusive. Securities are in denomination of $1,000, dated September 1, 1898; interest will be payable March 1 and September 1, at the office of the City Treasurer. Principal will mature September 1, 1901. Bonds are authorized under Section 142 of Chapter 182, Laws of 1892. Each bid must be accompanied by a certified check for $1,000, payable to the city of Mount Vernon. Wm. N. Hoyt is the City Clerk.

New Castle, Pa.—*Bond Offering.*—Proposals will be received until 12 M. September 12, 1898, by W. E. Marshall, City Clerk, for $35,000 4% coupon bonds. Bonds are in denomination of $500, dated August 1, 1898; interest will be payable February and August. Principal will mature Aug. 1, 1918, subject to call after August 1, 1903. Bonds are free from all taxation.

Newport News, Va.—*Bond Sale.*—The highest bid received on September 6, 1898, for the $40,000 4½% bridge bonds was that of R. Kleybolte & Co., Cincinnati, at 103·50. Following are the bids:

R. Kleybolte & Co., Cincinnati.	103 50	Citizens' Marine Bank, Newport News	102·50
The Lamprecht Bros. Co., Cleve.	103·07	First Nat. Bank, Newport News	101·81
Edw. C. Jones Co., Cincinnati...	103·050	Schultz Bros., bankers, Newport News	100·75
W. J. Hayes & Sons, Cleveland.	102·85		
Denison, Prior & Co., Cleveland.	102·59		
E. D. Shepard & Co., New York.	102·52		

Principal will mature 30 years from date of issue, subject to call after 20 years. For description of bonds see CHRONICLE August 27, 1898, p. 445.

New Richmond (Town), Ohio.—*Bond Election.*—On September 12, 1898, this town will vote on the question of issuing $30,000 electric light and water-works bonds. If the bonds are issued they will probably carry 5% interest. We are advised that the town at present has no bonded indebtedness.

Ohio County (P. O. Hartford), Ky.—*Bond Offering.*—Proposals will be received until 12 M. October 1, 1898, by the Commissioners appointed by the Court to issue and sell said bonds (J. H. Barnes, Chairman.) for $30,000 4% refunding bonds. Interest will be payable semi-annually, and the principal will mature in 20 years from date of issue, subject to call after 5 years. Securities will be in denominations of not less than $100, nor more than $1,000. Each proposal must be accompanied by a sum equal to 2% of the amount of bonds bid for, and must state the amount of bonds desired, and the denomination of such bonds. Bonds are issued pursuant to an Act of the Kentucky Legislature approved March 5, 1892.

Oil City (Pa.) School District.—*Further Details of Bond Offering.*—Proposals will be received until 6 P. M. September 15 (not September 16, as originally stated), 1898, by Wilmer I. Rehr, Secretary of Board of Control, for $45,000 4% coupon school bonds. Bonds will bear date of October 1, 1898, and interest will be payable semi-annually. Principal will mature on October 1 as follows: $3,000 yearly from 1903 to 1917, inclusive, and $3,000 yearly from 1918 to 1922, inclusive.

Oswego (N. Y.) School District.—*Possible Bond Election.*—We are advised that an election may be held this fall to vote on the proposition to issue from $7,000 to $10,000 school bonds. Nothing definite in the matter has yet been settled.

Pawtucket, R. I.—*Temporary Loan.*—This city recently negotiated a two months' loan of $125,000 at 3% net discount.

Payette Independent School District No. 32, Canyon County, Idaho.—*Bond Offering.*—The Board of School Trustees will sell at 2 P. M., September 24, 1898, at the banking room of the Payette Valley Bank, $3,000 6% bonds. Securities are in denomination of $1,000, dated September 1, 1898. Interest will be payable March 1 and September 1, and the principal will mature $2,000 September 1, 1908, $2,000 September 1, 1913, and $4,000 September 1, 1918. J. M. Wells is the Clerk of the Board of Trustees.

Philo School District, Champaign County, Ill.—*Bond Sale.*—On September 1, 1898, the $4,000 5% school-house bonds were awarded to Donaldson Bond & Stock Company, St. Louis, at 102·50. Principal will mature $500 yearly on July 1, from 1900 to 1907, inclusive.

Ravenna, Ohio.—*Bond Sale.*—On September 3, 1898, the $14,080 6% coupon street-improvement bonds were sold to the First National Bank, Ravenna, at 101·035. Following are the bids:

	Premium.		Premium.
The First Nat. Bank, Ravenna	$150 00	Rudolph Kleybolte & Co., Cin.	$106 50
Seasongood & Mayer, Cincin.	145 97	The Lamprecht Bros. Co., Cleve.	104 50
First Nat. Bank, Columbus	110 01	Denison, Prior & Co., Cleve.	63 80
S. A. Kean, Chicago	108 50		

Principal will mature $704 on August 20, 1899, and each six months thereafter until August 20, 1909. For description of bonds see CHRONICLE August 20, 1898, p. 389.

Riverhead (L. I.), N. Y.—*Bonds Proposed.*—This town has under consideration the issuing of $25,000 school bonds. We are advised that nothing definite has been done in the matter.

Salem, Ohio.—*Bond Sale.*—On September 6, 1898, the $5,017 6% street-paving bonds were awarded to The Lamprecht Bros. Co., Cleveland, at 108·975. Following are the bids:

	Premium.		Premium.
The Lamprecht Bros. Co., Cleve.	$453 00	New First Nat. Bank, Columbus	$328 00
Seasongood & Mayer, Cincin.	418 75	First National Bank	151 00
W. J. Hayes & Sons, Cleveland	379 00	S. A. Kean, Chicago	108 00
Rudolph Kleybolte & Co., Cincin.	370 00		

Principal will mature $504 71 yearly on September 1 from 1899 to 1908. For description of bonds see CHRONICLE of last week, p. 499.

San Rafael, Cal.—*Bond Sale.*—On August 29, 1898, the $26,000 5% gold sewer-bonds were awarded to the Oakland Bank of Savings at 107·37. Bonds mature $650 yearly on September 1, from 1899 to 1938, inclusive. For further description of bonds see CHRONICLE August 20, 1898, p. 390.

Shelbina, Mo.—*Bonds Voted.*—At a special election held September 6, 1898, the issuance of $5,000 electric light plant bonds was authorized.

Sheraden (Borough) Pa.—*Bond Offering.*—Proposals will be received until 7 P. M. September 13, 1898, by Charles L. Criss, Borough Clerk, Sheridanville P. O., for the $30,000 4% coupon improvement bonds recently authorized. Securities are in denomination of $1,000, dated October 1, 1898; interest will be payable semi-annually at Pittsburg, Pa. Principal

will mature on October 1, as follows: $1,000 in 1902, 1904, 1906, 1908; $1 000 yearly from 1910 to 1921, inclusive; $2,000 yearly from 1922 to 1925, inclusive; and $3,000 yearly in 1926 and 1927. Bonds are free from all taxes. A certified check for $500, payable to W. J. Sheraden, Borough Treasurer, must accompany each bid.

Sidney (Ohio) School District.—*Bond Sale.*—On September 1, 1898, the $14 000 6% bonds were awarded to The Lamprecht Bros. Co., Cleveland, at 106·15. Following are the bids:

Lamprecht Bros. Co., Cleve.	$14,861	Citizens' Bank, Sidney	$14,801
Denison, Prior & Co., Cleve.	14,840	W. J. Hayes & Sons, Cleveland	14,770
Seasongood & Mayer, Cincin.	14,845	German-Amer. Bank, Sidney	14,760

Principal will mature $2,000 September 1, 1899, and $1,000 each six months thereafter, from March 1, 1900, to September 1, 1905. For description of bonds see CHRONICLE August 6, 1898, p. 287.

South Omaha, Neb.—*Bonds Proposed.*—The issuance of $47,000 bonds to refund those maturing October 1, 1898, is under consideration.

Bond Issue.—This city will issue within the next sixty days about $1,000 7% district grading bonds. Principal will mature one-fifth annually. We are advised that the bonds will probably be disposed of at private sale.

Spring Lake and Spring Valley (Wis.) School District No. 1.—*Bond Offering.*—Proposals will be received by W. G. Spence, School Director, for $2,750 6% school-house bonds. Securities are in denomination $50, dated October 1, 1898. Interest will be payable annually on February 1 and the principal will mature yearly on February 1 as follows: $100 from 1900 to 1904, inclusive, $250 in 1905 and $500 from 1906 to 1909, inclusive.

Steubenville, Ohio.—*No Bonds to be Issued.*—Some time since this city had under consideration the issuing of $150,000 of bridge bonds. Upon inquiry we learn that nothing whatever has been done looking towards the issuance of such bonds, and "likely never will be."

Stockton Township, Camden County, N. J.—*Bond Sale.*—Edward C. Jones Co., New York, have purchased the $50,000 5% 10 year sewer bonds recently authorized.

Sycamore (Ill.) School District.—*Bond Sale.*—On September 2, 1898, the $15,000 4½% school building bonds were awarded to Trowbridge, MacDonald & Niver Co., Chicago, at 103·835. Following are the bids received on August 31, 1898:

Trowbridge, MacDonald & Niver Co., Chicago	$15,575 25	Seymour Coman & Co., Chic.	$15,412 50
N. W. Harris & Co., Chicago.	15,510 00	Denison, Prior & Co., Cleve.	15,340 10
E. F. Dutton, Sycamore	15,502 00	S. A. Kean, Chicago	15,300 00
Sycamore Nat. Bk., Sycam're.	15,501 00	W. J. Hayes & Sons, Cleve.	15,291 00
Farson, Leach & Co., Chicago.	15,467 00	Noel-Young Bond & Stock Co., St. Louis	15,291 00
Mason Lewis & Co., Chicago.	15,427 00		

Principal will mature $1,000 yearly from April 1, 1899, to April 1, 1913, inclusive. For description of bonds see CHRONICLE August 13, 1898, p. 338.

Tallahassee, Fla.—*Bonds Proposed.*—This city has under consideration the issuing of bonds for the establishment of a municipal electric light plant, but no action has yet been taken in the matter.

Thurston County (P. O. Olympia), Wash.—*No Bond Issue.*—The County Commissioners were recently approached with a proposition to fund $30,000 of general fund warrants, but the terms offered were not acceptable, and so the bonds will not be issued.

Topeka, Kan.—*Bond Election.*—On August 31, 1898, the City Council passed a resolution providing for an election for the purpose of voting on the question of issuing $140,000 bonds for a water-works system.

Tulare County (Cal.) Linwood School District.—*Bonds Voted.*—The district has voted in favor of issuing $950 8% gold school bonds. Principal will mature $190 yearly on January 1 from 1900 to 1904, inclusive. Date of sale has not yet been determined.

Utica, N. Y.—*Bond Offering.*—Proposals are asked until 12 M. yesterday (September 9), by J. A. Cantwell, City Clerk, for $4,000 4% Washington Street bridge bonds. Principal will mature $1,000 yearly on November 1 from 1899 to 1902, inclusive. Bonds are issued pursuant to Chapter 397, Laws of 1898. At the time of going to press the result of this sale was not known.

Bond Sale.—This city has recently sold $3,500 bonds to be placed to the credit of the street-cleaning fund.

Wadley, Ga.—*Bond Offering.*—Proposals will be received until October 1, 1898, by S. C. Evans, Mayor, for $7,000 6% school-house bonds.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Principal matnres $3,000 yearly on July 1, from 1914 to 1918, inclusive. For description of bonds see CHRONICLE August 20 1898, p. 390.

Washington (Iowa) School District.—*Bond Sale.*—This district recently sold $9,000 4% refunding bonds to the Washington National Bank. Principal will matnre $1,000 yearly. These bonds were not advertised.

Waynesburg, Pa.—*Bonds Defeated.*—At a recent election, the question of issuing $19,000 sewer bonds was defeated.

Westchester County (P. O. White Plains), N. Y.—*Bond Sale.*—On September 8, 1898, the $44,978 4% bridge bonds were awarded to Farson, Leach & Co., New York, at 103·35. Following are the bids:

Bonds matnre $10,000 yearly on June 1, from 1900 to 1904, and $14,978 in 1905. For further description of bonds see CHRONICLE last week, p. 500.

White County (P. O. Carmi), Ill.—*Bond Sale.*—An issue of $232,000 4½% bonds has been sold to the Mississippi Valley Trust Company at 102·775. Securities are in denomination of $1,000. Principal will matnre $14,000 yearly, commencing July 1, 1899. These bonds are issued to refund a like amount of 5% railroad-aid bonds, which, as stated in the CHRONICLE of August 27, have been called for payment October 1, 1898.

Williamsport (Town), Md.—*No Bond Issue at Present.*—There has been talk of issuing $20,000 electric-light and water bonds, but we are advised by the Town Treasurer that nothing definite has been done in the matter.

Winona (Minn.) School District.—*Bond Sale.*—On September 2, 1898, the $15,000 4% school bonds were awarded to U. M. Stoddard, Minneapolis, at 105. Following are the bids:

U. M. Stoddard, Minneapolis	$15,750 00

COTTON CROP—UNITED STATES.

PRODUCTION AND CONSUMPTION

FOR THE YEAR ENDING SEPTEMBER 1, 1898.

CCTTON MOVEMENT AND CROP OF 1897-98.

Our statement of the cotton crop of the United States for the year ending Sept. 1 1898 will be found below. It will be seen that the total crop this year reaches 11,180,960 bales, while the exports are 7,532,615 bales, and the spinners' takings are 3,504,018 bales, leaving a stock on hand at the close of the year of 176,006 bales. The whole movement for the twelve months is given in the following pages, with such suggestions and explanations as the peculiar features of the year appear to require. The first table indicates the stock at each port Sept. 1 1898, the receipts at the ports for each of the past two years, and the export movement for the past year (1897-98) in detail, and the totals for 1896-97 and 1895-96.

☞ * These figures are only the portion of the receipts at these ports which arrived by rail overland from Tennessee, &c.

The foregoing shows that the *total receipts at the Atlantic and Gulf shipping ports* this year have been 8,676,407 bales, against 6,816,525 bales last year and 5,394,875 bales in 1895-96; and that the exports have been 7,532,615 bales, against 5,968,422 bales last season and 4,646,084 bales the previous season, Great Britain getting out of this crop 3,459,864 bales. If now we add the shipments from Tennessee and elsewhere direct to manufacturers, and Southern consumption, we have the following as the crop statement for the three years.

Year Ending September 1.	1897-98.	1896-97.	1895-96.
Receipts at the shipp'g p'rts. bales	8,676,407	6,816,525	5,394,875
Add shipments from Tennessee, &c., direct to manufacturers...	1,276,614	873,004	851,788
Total.....	9,953,021	7,689,529	6,246,663
Manufactured South, not included above.....	1,227,939	1,024,482	915,810
Total Cotton Crop for the Year .....bales.	**11180960**	**8,714,011**	**7,162,473**

The result of these figures is a total of 11,180,960 bales (weighing 5,667,372,051 pounds) as the crop for the year ending August 31 1898, against 8,714,011 bales (weighing 4,388,819,971 pounds) as the crop for the year ending August 31 1897

The distribution of these crops has been as follows:

	1897-98.	1896-97.	1895-96.
Takings for Consumption—	*Bales.*	*Bales.*	*Bales.*
North.....	2,276,079	1,862,565	1,670,744
South.....	1,227,939	1,024,482	915,810
Total takings for consumption.	3,504,018	2,887,047	2,586,554

* Net deduction.

Consumption in the United States and Europe.

United States.—A stage in the cotton-spinning industry of the United States has been reached which—if it be assumed that the demand for goods is to remain as at present, that is, without material increase—makes necessary the admission that the Southern spinner is for the time being in possession of the field. We are not to be understood as asserting that the South is producing cotton goods in sufficient supply to meet the demand the North now satisfies, or that it is in control of every department of the trade. Those statements, all know, are not by any means facts. The consumption of cotton in the North, even during the last season, was 51 per cent larger than the consumption in the South. But there are certain classes of goods, the coarser and medium makes, which the South can manufacture cheaper than the North, and those classes compete with the product of so large a portion of the spindles in the North that the general market the past year has in good part taken its tone from that situation. In other words our Northern markets have during 1897-98 been over-supplied, and, as a result, stocks of goods have continued burdensome and values as a rule unremunerative At the same time, with this as the position of affairs here the mills in the South have enjoyed a fairly profitable twelve months, some of the larger mills running night and day.

Accepting then these statements as correctly representing the situation, and this difference in cost of manufacture between the mills of the two sections as an existing fact, the inquiry naturally arises, must the coming twelve months show in the North like unfortunate results to those of the past twelve months? Many have drawn a very unpromising forecast from these facts. They can see nothing but disaster in store for all spinners whose goods come in competition with Southern mills. Of course it is easy to construct an argument raising some such presumption based on an addition to the spindles year by year in the cotton States and on a concurrent continuation of the pres-

ent relative cost of production in the North and South. On these assumptions, which may prove true but most likely will prove false, a belief in the decadence of Fall River, New Bedford, Providence, and the like, as cotton-manufacturing towns may find support. But as we look at the situation, the present crisis is one in which short views are more useful and timely, and indeed the only ones that those cities or Northern spinners need bother themselves with. The question pressing for answer to-day, the one which concerns every man in any way interested in making cotton goods or in the production of raw cotton, is confined to the near-by future. The problem seeking solution is—what are the signs for the next twelve months? That is to say, admitting the claim that to-day the medium and coarser grades of cotton goods can be manufactured cheaper in the South than in the North, what kind of a year can the Northern spinner anticipate and what kind of a demand from the North for the raw material can the cotton producer look forward to?

Before answering these questions, consider for a moment why it is we deprecate laying so much stress, as is done by some, on these long, lugubrious horoscopes with reference to the Northern spinners' situation; and why it is wiser for the time being to wholly discard those views. The suggestion made is the result of a long observation and study of trade crises. No kernel of truth that experience has left deserves to be prized more highly or trusted more implicitly than the one that all inequalities such as exist in this case work out - if they are given time—a natural cure. Of the advantages claimed, not one is beyond change in that way; and hence when, as a premise for his argument, a writer projects into a long series of coming years the more favorable conditions at present accompanying Southern production of cotton goods, he is assuming as a feature of the future more than the case warrants. For illustration, consider the profit accruing to the Southern manufacturer from the lower wages now ruling in that section. That item of cost is not the only dependence for the existing margin, but it is the chief. So far as that part of the inequality arises from Northern States legislation it will most likely be corrected when the influence of the offending statutes is more generally understood and appreciated; but in addition to that there is another corrective already at work—a movement tending to equalize the value of labor in the two sections. We refer to the multiplication of mills in the South and to the constant growth in the demand for labor such additions produce. This two-fold development must go on progressing rapidly and *pari passu*. So long as the favorable margin for goods exists spinning power will increase, and so long as additional spindles continue to be set up the demand on the market for labor will in turn be enlarged. In other words, an active increase in spinning capacity means an active absorption of labor, a process which, continued, must inevitably end in the labor supply becoming less abundant and wages higher. Presumably the change in this item of cost will be gradual. It has already begun. Colored labor in mills is about to be tried to arrest its progress. The movement will go on in face of that experiment. As the conditions ripen trade unions will take up the issue, and then the advance in wages South will come in a more radical way. It is not unlikely also that the equalizing process may be attended by a decline in the scale of wages at the North. We do not undertake to describe in all respects just how the adjustment will be brought about; our purpose was merely to remind our readers of this tendency at work, which must in time prove effective.

But passing that feature, the claim we make is that, notwithstanding the inequality in the item of wages and of the wider margin which, by means of that and other conditions, the manufacturer of goods in the cotton States is securing, the prospect for the coming twelve months is that Northern as well as Southern mills will obtain a fair profit for their product. Our conclusion is based on the assurance that the spindles of the whole country are needed to supply normal consumption, that the consumption has been below normal for a considerable period, and that there is now good promise of such an increased demand for goods as will soon tax the full productive capacity of the country. That the consumption of goods has been below normal can be proved in more than one way. Indeed the depressed condition of trade is so recent an experience, has so widely affected all our industries, and is so obvious a feature now, as, in our opinion, not to need proof. But fortunately we have other evidence which establishes the truth of our contention—that for a number of years the home consumption of cotton goods has been materially restricted, so restricted as to warrant the presumption that with consumption the coming year full and active all the spindles in the country will find constant and profitable work.

The conclusion that the home demand for cotton goods has not been normal in recent years finds support in the figures which represent the cotton consumption of our mills for a series of years. Thus from Sept. 1 1883 to Sept. 1 1888 (five years) the total consumption by Northern and Southern spinners was 10,031,375 bales of cotton, or an average for those years of 2,006,275 bales. For the five years later than the foregoing, that is from Sept. 1 1888 to Sept. 1 1893, the total consumption was 12,586,259 bales, or an average per year of 2 517,252 bales. Carrying the compilation forward another five years, from Sept. 1 1893 to Sept. 1 1898 the corresponding total was 13,930,912 bales, the average per year being 2,786,182 bales. From the foregoing averages we learn that in the second period named (1888-93), while population increased about 6,500,0 0, the annual average of cotton consumption increased 510,977 bales; but in the third period (1893-98), while population increased about 7,200,000, the annual average consumption of cotton increased only 268,930 bales. Assuming that the increase in annual average consumption in the second period (510,977 bales) was normal, it is obvious that the normal increase in the annual average production for the following five years ending with Sept. 1 1898, instead of reaching only 26[illegible],930 bales, could not be less but must be more than in the previous cycle; how much more may be roughly estimated by the growth in population, which, as given above, increased in the earlier cycle about 6,500,000 and in the latest cycle 7,200,000, an excess in growth during the latest period of a little over 11 per cent.

In other words, the foregoing makes evident the existence of a general industrial depression and of a restricted home consumption of cotton much below the normal the last five years of the record. Indeed we might have gone further and demonstrated that the country has not had since 1879 to 1882, inclusive, but a single twelve months when our industries were so generally prosperous that the call was for a supply of goods equal to the normal wants of the people. The country has in truth rested under the incubus of an enforced silver circulation, increasing year by year ever since gold payments were established, and though there have been times when conditions have prevailed which for a period suspended in a measure the baleful effect of that depressing influence, it has existed all the same, and has in one way and another disturbed our industrial progress and so kept the consuming power of the people more or less restricted all the time.

But we must omit on this occasion any extension of the period reviewed. The above figures and statements do not leave any ground for questioning the assertion made that the consumption of raw cotton by our mills North and South has been much below normal during the five years which ended with the 1st of September. There are, though, other means for enforcing the same truth. No one can doubt that a general increase in stocks of goods is, under the circumstances, an evident indication of a shortened consumption of products; the fact is such a shortened consumption becomes more obvious through that process perhaps than in any other way. What has been the condition in recent years as to stocks of cotton goods? Is it not manifest to the whole trade—indeed has it not been a constant complaint of that trade—that stocks have become extremely troublesome, and increasingly so the last three seasons? This too has been concurrent with movements which must have tended to relieve the situation—a large addition to our exports of cotton goods and a decline in their import. In our remarks below with reference to the print cloth department we have given facts showing the accumulations of that product which not only illustrate but very strikingly enforce what we have said here. Put this condition of stocks of the manufactured article by the side of the fact previously disclosed, that the consumption of raw material has not shown the normal increase, and does not the demonstration stand complete? That is to say, not only

has the use of cotton by the mills been materially restricted but a large addition to the exports and a large decline in the imports of cotton goods have also been in progress, and yet our people have not absorbed the unexported portion of our manufactured cottons. It may be asked then what becomes of the vexed question as to spindles having increased until they are more numerous than the needs of our population can keep running? It is sufficient for us to say on that point that the claim has never been tested, and until it has it cannot be proved. Moreover, the obvious presumption is, from what has been shown in the foregoing, that it is not a fact; and if we had the time and space we believe we could make it clear to any unprejudiced mind, through a separate study of the spindles, their growth and the growth in wealth and population of the country, that they are not too numerous and have not reached the point of excess.

The foregoing leaves the question of profitable consumption the coming twelve months of our Eastern mills with only the business outlook to deal with. We do not need to write at any length of the assurance the country now has of a term of activity and prosperity much more decided than we have had the promise of for a long time. As a severe storm often clears the atmosphere saturated with depressing and enfeebling tendencies and charges it with invigorating and reviving forces, so the war has cleared away many conditions which had become a constant source of irritation to our industries and has substituted others which are giving new life and energy to our entire population. We are having now a timely illustration of the restorative influence which the war has worked. Heretofore at about this period of the year "a tremor of silent fear" has been wont to pass through and through business circles. Every one would be asking his neighbor, we wonder what Congress, when it meets, will do to kill off our incipient trade revival? Sure enough it would be something—perhaps Cuba, or Venezuela, or free coinage, or paper inflation—something would be used as the text to endanger our standard of values and so deaden the hope just springing into life. The war has put all that behind the nation. We need not go into details, but it is obvious to every one that we have risen to a new plane of action. All the old disturbing issues have lost force, and whatever little vitality may have been left in any of them the march of events will work off gradually.

But prosperity to be natural must be slow in its return; and no one should be disappointed if its progress be almost imperceptible for a time. Accumulations of goods where they exist must be absorbed. When consumption has become active enough to take off ful current production and to encroach, be it ever so little on stocks, the term of trial will have passed. Even then, though, progress in manufacture to be lasting must find us able to produce goods at a low cost, so as to be in condition to compete, as our iron furnaces are to-day, with any country which may prove to be our rival in trade. If there is one feature that marks the character of the passing industrial epoch, it is the tendency to cheapen production. Among the first to give conspicuous evidence of the movement were our railroads, forced by the low price of products to make a low cost of freight. They have at length, through this pressure, reached conditions which enable them to accept marvelously low rates and find a profit in them too. The agriculturalist has at the same time been working out the same problem. In our acreage report this year we showed one of the ways in which the average planter had been able to find a profit in the extremely low price for the raw material. This is the tendency the world over and in every department. As already said, revival in trade will surely come, and for a time will put into profitable action every spindle in the land; but to keep up progress all effort will have to focus on a continued study of the problem to cheapen production. The old high price and wide margin of profit are not likely ever to return.

Only a few additional details are needed; they are historical and are required to fill out the record of influences affecting the goods trade during the year closing with the 31st of August. They in some measure help to explain the slack and lifeless character of the demand for goods during the twelve months. The start was a mistake. Emotion and not greater eagerness among buyers was at the bottom of it. Tariff legislation having reached a finish just before the season opened, it was assumed that the long-looked-for good time had come. As a result of this belief cotton mills which had been partially or wholly idle in July and August resumed at a jump operations in full. In fact, before the middle of October all the mills were not only running as usual, but in some cases resort was had to night work. This period of activity was, naturally enough, short-lived, for almost before the close of the month it was found that the product of the mills was not being absorbed, and propositions to curtail the output began to be discussed.

Out of this state of affairs arose a complaint about wages. The special ailment urged for the depression in the goods market was the cheaper cost of production in the South, the claim being (chiefly by corporations engaged on goods with which Southern mills came in competition) that the higher wage scale at the North operated to that section's disadvantage and a readjustment should be arranged. No definite agreement was reached until near the close of 1897, when the continued enlargement of stocks of goods forced action. A reduction in wages ranging from 10 to 11 per cent was finally decided upon, and notices to that effect were about the middle of December posted in the mills signifying that the new scale would go into force in January. Strike talk followed, but the Fall River operatives finally accepted the terms offered; at New Bedford the men stopped work Jan. 15, and returned to work April 11 at the lower wages. Labor troubles occurred at other points, with the same result as at New Bedford. Indeed, before the latter date war with Spain was seen to be an inevitable event, a state of hostilities becoming actual about the close of the third week of April. From that time until the first week of August business conditions have remained quite uniformly unfavorable, and most kinds of manufacture, and among them cotton-spinning, have been greatly depressed and as a rule unremunerative. With August came the certainty of peace, and day by day as the month passed consumption of products increased and our industries assumed a more active condition.

We have referred above to the situation of the print cloth department and to the accumulations of stocks of goods in that department during recent years. It so happens that we have left ourselves but little room to discuss these matters. The figures as to stocks are full of significance bearing upon the conclusions already reached, but we have in the foregoing so fully explained their relation to the subject under review that we shall do but little more here than to state the facts; fortunately they need very little interpretation. We have prepared the following statement from our records. It gives in quite a graphic form the leading features for a series of years in the history of this industry:

	—Average stocks print cloths—			Year's cotton consump-	Population
Year, Sept. 1	First	Second		tion in U. S.	Sept. 1, Gov.
to Aug. 31.	6 months.	6 months.	Year.		estimate.
1897-98.....	1,674,000	*2,000,000	1,837,000	3,083,939	73,199,000

Av'ge 5 years	625,070	647,200	636,135	2,006,275	56,482,000

*Our estimate.

We would recall the circumstance that the reports of print cloth stocks were suspended in March and April 1897, their publication was resumed in May but was finally discontinued on December 25 1897, when the total reported was 2,285,000 pieces. Our investigation leads us to believe that the aggregates of these stocks, though they have fluctuated within narrow limits, were not materially changed from the total given above until about August 1 1898. Since that date they have declined possibly about 300,000 pieces and close the year at say about 1,900,000 pieces. Our table, as will be seen, gives the average of stocks for each six months and year from September 1 1883 to September 1 1898, besides two columns, one of which shows the total

annual consumption of cotton by our mills North and South and the other the population on the first of September 1897 and on the same day of each earlier year.

The financial results from the operations of manufacturers of print cloths have been unsatisfactory, as the remarks already made indicate; indeed they have been less satisfactory than in 1896-97, and probably less satisfactory than any year of the recent unfavorable cycle. Heretofore the lowest price reached for 64 squares was 2·44 cents in June 1897 (with low middling uplands at the same time 7⅜ cents) and in July and August 1895, with same grade of cotton concurrently 7⅛ to 7⅝ cents; this season, in the early part of May, the quotation dropped to 1·94 cents, with cotton at 5⅞ to 6⅛ cents, and from April to August with cotton 5 5 16 to 6⅛ cents, 64 squares were at no time better than 2 cents. The range for the season has been from 1·94 cents to 2·62 cents and the average about 2·20 cents. Below are the highest and lowest quotations for 64x64 print cloths for the past twenty years:

	High. Cts.	Low. Cts.		High. Cts.	Low. Cts.
1897-98	2·62	1·94	1887-88	4·00	3·25
1896-97	2·62	2·44	1886-87	3·50	3·22
1895-96	3·06	2·44	1885-86	3·38	3·04
1894-95	2·88	2·50	1884-85	3·28	2·97
1893-94	3·00	2·61	1883-84	3·69	3·25
1892-93	4·06	2·87	1882-83	3·85	3·48
1891-92	3·50	2·75	1881-82	4·06	3·67
1890-91	3·31	2·88	1880-81	4·38	3·68
1889-90	3·75	3·25	1879-80	5·88	3·50
1888-89	4·06	3·75	1878 79	4·38	3·18

Without attempting to follow the course of the market more in detail, we give our usual statement, which shows at a glance the relative position of the raw material, printing cloths and other standard goods on the first day of each month during the past three years.

First Day of Each Month.	Year Ending with August 31— Low Middl'g Upl'd Cotton.	Standard Sheetings.	Lancaster Ginghams.	Printing Cloths, 64x64	Low Middl'g Upl'd Cotton.	Standard Sheetings. NOTE.—Sheetings—Agents' prices (for Atlantic A) are given. Printing cloths are manufacturers' net prices. Discount on standard sheetings is almost invariably 5 per cent. For Lancaster ginghams the prices in the present season are subject to a discount of 5 per cent.

The foregoing indicates that other staple products of cotton as well as print cloths have reached a lower level of prices the past season than ever before. It is of course a fact that manufacturers were able to secure their supply of the raw material more cheaply than in either of the two preceding seasons, but it will likewise be recalled that both 1896-97 and 1895-96 were very unsatisfactory years, the margin above actual cost being much of the time quite shadowy. Comparison with 1894-95 brings out most clearly the unfavorable outcome of 1897-98. As the mills obtain their supply of the raw material wholly or in great part during the first half of the season—Sept. 1 to Feb. 28—it is only fair to take the average price for that period as giving an approximate idea of its cost to them. Following that plan we find that in the New York market the average price for low middling, Sept. 1 1897 to Feb. 28 1898 was 5¾ cents, against 5¼ cents in 1894-95, or ¼ cent per pound higher this year. On the other hand, they received during the season just closed an average of ⅞ cent less per yard for standard sheetings, ⅜ cent less for ginghams and 55 one-hundredths of a cent less for print cloths than in 1894-95. So far as the raw material is concerned the price has been low throughout the twelve months, a not unnatural result of so phenomenally large a crop. At the same time the lowest quotation in 1897-98 for low middling in the New York market was 5 5-16 cents, or 3-16 cent higher than the bottom price in 1894-95. The average for the year, however, has been only 5 13-16 cents, or the lowest ever recorded.

SOUTHERN cotton mills, as already indicated, have shown more satisfactory results. It is needless to say that the margin of profit has not been so wide this year as in 1896-97, but the mills nevertheless have generally made money, and now that the war is a thing of the past manufacturers consider the outlook for the future highly promising. The production of goods has been quite fully up to the capacity of the establishments, and in many instances operations have been carried on by night as well as by day. A further expansion of spinning capacity is to be recorded. Following our usual custom we have gathered this year the full data obtainable bearing upon the operations and development of Southern factories. Within the past month not only have we procured from each mill returns as to actual consumption of cotton in bales and pounds and the number of spindles and looms added, working and idle, the past year, but have also secured considerable information with regard to new mills now building and contemplated additions to existing plants. The returns made to us have been extremely prompt and complete, so that we can to-day give the actual condition in these particulars of almost every factory in the South. Evidence of the continuation of the tendency at the South to build larger mills or increase the capacity of old ones is not lacking in our returns. The number of spindles per mill in the last season reached 9,143 against 8,526 in 1896-97, 7,870 in 1895-96, 7,889 in 1894-95 and 6,751 in 1893-94. The aggregate of spindles in 1897-98 was 71½ per cent greater than in 1892-93 and 11¾ per cent more than in 1896-97. It is worthy of note that the increase in the consumption of cotton by Southern mills the past season has been 203,457 bales as compared with 1896-97, or almost 20 per cent, whereas in the previous season the gain was only 108,672 bales, or barely 12 per cent. In the seven years since 1890-91 consumption has more than doubled. The aggregates of our detailed returns arranged by States are as follows. It should be remembered that these figures include (1) mills in operation all this year; (2) new mills started up during the course of the year, and (3) also a few mills which have been in operation this year but have now temporarily stopped expecting to start up again in 1898-99.

NOTE.—Much new machinery has been put in operation within the last few months, increasing the number of spindles appreciably without affecting consumption to any extent.

These returns for the last six years include, as heretofore only the spindles in operation and those shortly to start up again. In a subsequent table for the whole country we include those idle for a year or more, omitting only those that are old and useless and permanently out of employ. It further appears from the returns made to us that there have been 5 old mills running 17,200 spindles stopped, and 21 new mills running 146,494 spindles started, making a net addition of 16 new mills running 129,294 spindles during the year. Moreover, the total new spindles added this year is 377,209 net, showing that 247,915 of these spindles have been an increase in the spining capacity of old mills. Aside from the above we have knowledge of 5 new mills containing 61,692 spindles which expect to start up within a short time, and

there are 8 mills in course of construction but which will not be in operation until after the first of January. Extensive additions to old mills, aggregating fully 150,000 spindles, are also contemplated in the near future.

Before passing from this subject of manufacturing in the United States there is one other point that claims attention, and that is the exports of domestic cotton goods This movement the past season has been appreciably less than in 1896-97 and but slightly greater than in 1895-96. The falling off in shipments has been quite general but most decided as regards those to British North America, which record a decline of nearly 50 per cent. Even the shipments to China via Vancouver, B. C., which do not appear in the Government returns, were much less than in any recent year, having been only 20,393 packages containing 12,270.600 yards, against 34,845 packages, or 24,574,600 yards, in 1896-97, 26,720 packages or 18,027,-600 yards in 1895-96, 21,230 packages or 13,398,000 yards in 1894-95 and 30,309 packages or 20,589,000 yards in 1893-94.

In the table below we merely give the aggregate exports as reported by the Bureau of Statistics and they exhibit a loss the past year of $4,013,586. But by referring to the detailed statement published in the CHRONICLE of August 6, p. 280, it will be seen that the exports to British East Indies alone record any great measure of increase. The official record of the last five years is as follows:

Exports of Cotton Manufactures.	Year Ending June 30—				
	1898.	1897.	1896.	1895.	1894.
Colored Goods.....Yds.	79,415,376	83,409,441	58,747,729	58,467,743	61,538,458
Do Value.	$4,133,887	$4,770,231	$3,419,158	$3,444,539	$3,854,935
Uncolored goods.. Yds.	191,092,442	230,123,603	166,391,639	125,790,318	124,349,278
Do Value.	$9,161,936	$12,511,389	$9,539,199	$7,034,678	$7,639,851
Other man'f's of..Value.	$3,733,269	$3,756,058	$3,879,039	$3,310,599	$2,845,897
Total cotton manufactures exported . Value.	$17,029,092	$21,037,678	$16,837,396	$13,789,816	$14,340,683

A similar exhibit covering India's shipments we have also given for a number of years by way of comparison. It should be borne in mind that if we were to go back to 1876 India's total would be very small, the value for that year having been but £663,000, or say less than 3½ million dollars, while that of the United States for the same year was $7,722,978. The record for the last six years has been as follows:

Cotton.	1897-98.	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.
	£	£	£	£	£	£
Twist & yarns	6,955,452	7,173,108	6,730,836	5,672,024	4,974,133	6,773,482
Manufactures	1,184,506	1,323,366	1,613,750	1,466,656	1,268,425	1,327,175
Total.....	8,139,958	8,496,474	8,344,586	7,138,680	6,242,558	8,100,657

☞ The official figures are given in rupees, and we turn them into pounds sterling on the basis of ten rupees to a pound. That of course does not make allowance for the depreciation of the rupee, but under the circumstances it probably makes the comparison as nearly correct as it can be made in values.

As to the number of spindles in the United States, there is not much to be said. There is a moderate number idle now in the North, but the stoppage is only temporary. Apparently there has been no increase in spindles at the North this year. At the South, according to our returns, through new mills and additions to old factories, there has been a gain of 213,753 spindles. With this year's changes the number of spindles in the whole country at the close of 1897-98 and of the previous five years would be as stated in the subjoined table. It should be said in explanation of our compilation of total spindles that *this statement represents all mills whether in operation or not* (except such as have been closed with no present intention of starting up again), whereas the details of Southern mills by States given previously represent only mills in operation in some portion of 1897-98, or about to start up.

Spindles.	1897-98.	1896-97	1895-96.	1894-95.	1893-94.	1892-93.
North.....	13,900,000	13,900,000	13,800,000	13,700,000	13,550,000	13,475,000
South.....	3,670,290	3,456,537	3,011,196	2,433,948	2,291,064	2,166,023
Total....	17,570,290	17,356,537	16,811,196	16,133,948	15,841,064	15,641,023

American spinners close the year with moderate stocks of cotton. The takings through the year of Northern and Southern spinners have been given as below:

Total crop of the United States as before stated.....bales.		11,180,960
Stock on hand commencement of year (sept. 1 1897)—		
At Northern ports.....	42,351	
At Southern ports.....	34,664—	77,015
At Northern interior markets.....	2,989—	80,004
Total supply during the year ending Sept. 1 1898.....		11,260,964
Of this supply there has been exported to foreign ports during the year.....7,532,615		
Less foreign cotton included ....bales.	78,359 -	7,454,256
Sent to Canada direct from West.....		113,470
Burnt North and South.....		2,948
Stock on hand end of year (Sept. 1 1898)—		
At Northern ports.....	61,054	
At Southern ports	114,952 -	176,006
At Northern interior markets.....	--- ..	10,266 - 7,756,946
Tot. tak'gs by spinners in the U.S. for year end. Sept. 1 1898.		3,504,018
Taken by Southern spinners (included in above total).....		1,227,939
Total taken by Northern spinners.....		2,276,079

* Burnt includes not only what has been thus destroyed at the North ern and Southern outports, but also all burnt on Northern railroads and in Northern factories.

These figures show that the total takings by spinners North and South during 1897-98 have reached 3,504,018 bales, of which the Northern mills have taken 2,276,079 bales and the Southern mills 1,227,939 bales. Our summary of takings and consumption on the basis of *no stocks in the hands of Northern spinners on September 1 1875* reaches the following results. The width of our columns compels us to omit the results of the years 1875-76 to and including 1891-92.

Takings and Consumpt'n.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.

Leav'g mill st'ks Sept. 1	108,248	47,217	161,387	52,131	79,696	499,775

The foregoing leaves stocks in spinners' hands at 499,775 bales, and shows that the United States consumed 3,083,939 bales.

Europe.—There is very little to be said about the spinning industry in Europe which has not been quite fully developed in our monthly record with reference to Manchester and Liverpool given below. The chief favorable influences have been the large crop and declining price of cotton in the United States; a good monsoon and the breaking of the drought in India; better conditions for the distribution of goods in Turkey; and as the year has advanced an increased demand for goods from South America and some other countries. The unfavorable influences have been the war between Spain and the United States; the disturbance of the political situation in Europe chiefly growing out of the action against China, first of Germany and subsequently of Russia; and the appearance of the bubonic plague at Calcutta, the last being in its influence quite temporary. As a result of all these happenings the exports of goods from Great Britain have increased; the total reduced to pounds for the twelve months ending with October 1 1898 (the last two months being estimated) was 1,276,109,000 pounds, against 1,211,-897,000 pounds in same months of 1896-97, and 1,298,259,000 pounds in 1895-96. The takings of goods for the home trade are presumed to have aggregated about as last year, when they were fairly satisfactory.

We frequently see it stated that the cotton spinners of Germany or of some other European State are rapidly displacing Lancashire goods in the markets of the world. Such a statement conveys an erroneous impression. Very likely there may be a modicum of truth in the suggestion; that is, it may be true that some one quality or kind of goods has crowded out a similar English make. But that is a special matter. It indicates nothing which can have any general application. On the contrary, it is a fact that Great Britain's consumption of cotton and the world's consumption of the products of its spindles have been all the time on the increase. These are conditions evidently inconsistent with the conclusion that its trade is being rapidly displaced; this increase, too, is the more noteworthy when we remember that during recent years a higher tariff has been adopted by the United States and protective tariffs have been adopted by nearly every European State; tariffs which were devised to operate and have operated to the disadvantage of the markets in those countries for British goods. Moreover, India during the same period has become quite a manufacturing centre, with an annual increase in spindles, while Japan and China have also made a substantial beginning in the same

direction. How this growth in spindles has progressed during recent years is an interesting study. For the purpose of indicating the development, we have prepared the following statement of the world's spindles for five years. The figures for Great Britain and the Continent are Mr. Ellison's; those for the United States are our own; the others are official, except those for China, which are made up chiefly from the Consular reports.

NUMBER OF SPINDLES IN THE WORLD.

	1897.	1896.	1895.	1894.	1893.

* Estimated 350,000 additional in process of erection.
† Besides 125,000 in process of erection.

It should be said with reference to the figures in the above for Great Britain that although as they stand they disclose a small decrease, that decrease is only in number; the capacity of the spindles for making goods and consuming cotton has at the same time been materially growing by the substitution of new spindles for old style. The extent of the added productiveness can be better estimated when the annual consumption of cotton is stated, as it will be directly. It should be noted that a like change in the relation between the number and capacity of spindles has been in progress in other countries as well as in England. In other words the average consumption of cotton per spindle has been all the time on the increase except it may be where there is a reduction by the manufacturer to finer counts of yarn. Consequently when it is stated that there is an enlargement during the last five years of over six millions of spindles in the world, it is to be borne in mind that those figures do not measure the increased capacity to manufacture goods. As already said, we get a better idea of the progress making in spinning through the consumption of cotton the same years, though even that is not an exact measure.

The cotton takings and consumption by the mills of the world are set out in our customary tables which follow. Using the briefest method for illustrating the statement made above as to Great Britain's consumption (that is using the six years' averages), we find the consumption of that country from the six years' average ending with September 1 1872 of 2,117,000 bales (of 500 lbs. each) has increased every six-year period since that date as follows: For the six years ending with September 1 1878 the average yearly increase was 376,000 bales; for the six years ending September 1 1884 the average increase was 283,000 bales; for the six years ending with September 1 1890 the average increase was 210,000 bales; for the six years ending with September 1 1896 it was 212,000 bales, and the average for the two years since to September 1 1898 has been 117,000 bales. A similar conclusion is also reached from an examination of the exports of cotton goods from Great Britain; they may fall off for a single year from some specially severe cause, but on the average there is a constant growth. The statement (reduced to pounds) by quarters for the last two years is as follows. These years end with October 1 and the last two months of the last quarter are estimated on the basis of the July movement. *Three ciphers are omitted.*

*Estimated for the quarter on the July movement.

Our totals of pounds in the foregoing are of course inexact. We prepare them ourselves and believe them to be fairly close approximations. It must be borne in mind also that the current year's figures are *estimated* for the last two months of the last quarter, but the previous year's results are the completed official totals in all respects, except that the aggregates in pounds are prepared as just stated. If our estimate for the last two months of this season is not excessive, the shipments have been greater in 1897-98 than in any one of the last fourteen years (the period during which we have kept the record in this form), only excepting 1895-96 and 1894-95.

Notwithstanding the derangement in trade in portions of India, due to the reappearance of the bubonic plague, the shipments of goods from Great Britain to that quarter this year indicate a quite important increase. The movement to China and Japan has also been greater than in 1896-97, but the exports to those countries have been less than in 1895-96. We give below a statement showing first the shipments of goods and yarns by Great Britain to India, stated separately for two years, and in subsequent columns the similar figures for China and Japan given together. Each movement is presented in three columns; the first column covers yarns in pounds, the second piece-goods in yards and the third the total of both yarns and goods in pounds. *Three ciphers* (000) *omitted.*

It will be observed that the season of 1897-98 opened with manufactured products ruling lower in value than at the same time in either 1896-97 or 1895-96, but the raw material was also much lower. But before the close of January the comparison with last year was more favorable to the current season, for while cloth was quoted slightly higher than a year ago, cotton was appreciably less in price. In fact the season as a whole has been more favorable to the weaver than 1896-97, for we find that the average quotation for middling upland cotton in Liverpool has been only about 3½d. against 4 3-16d. in 1896-97, whereas on the other hand shirtings have averaged about 5s. 4¾d. this year against 5s. 5d. last season.

We now add by months the course of the Manchester goods market during the season closing with August 31 1898 and also the Liverpool cotton market in the same form for the same period. These summaries have been prepared for this occasion with great care, and the details will, we think, prove an interesting and useful record for reference.

SEPTEMBER.—*Manchester.*—In some branches of the cotton goods trade there was a little better demand during September 1897 than in August, but marked depression in other departments affected the general market adversely. As a rule business was unprofitable; this condition led manufacturers to take steps to ascertain whether combined action among employers could not be made effectual in reducing the cost of production. The feasibility of bringing about such a result by a reduction of wages was quite extensively discussed, but while progress was made no settlement had been reached at the close of the month. Pending further consideration of the matter a curtailment of production was encompassed by running on short-time and by partial stoppage of machinery. A highly favorable

feature of the month was the satisfactory progress of the Indian monsoon; on the other hand some uneasiness was felt because of reports of the spread of the bubonic plague. Yarns and goods exported from Great Britain (all reduced to pounds) were only 94,911,000 lbs., against 109,519,000 lbs. in September 1896. Consumption of cotton was estimated by Mr. Ellison at 64,000 bales of 500 lbs. each per week in Great Britain and 84,000 bales of like weight on the Continent. *Liverpool.*—As a result of favorable crop reports from America, accompanied by large estimates of the yield and a disappointing demand from consumers, the general tendency of the market for cotton was downward. Middling uplands opened the month at 4⅛d., and after fluctuating 1-32d. at a time was quoted at 4⅛d. again on the 15th. Subsequently the fall was almost constant, the decline being assisted by the heavy crop movement; the price at the close was 3⅞d.

OCTOBER.—*Manchester.*—Business in cotton goods showed improvement in several respects in October; not only was the aggregate volume of transactions greater than in the preceding month, but the margin for profit was better and quotations were more firmly adhered to. The improvement did not extend to all branches of the trade however, for in a number of departments dealings were of a hand-to-mouth character, orders much of the time being insufficient to keep machinery fully employed. Reports from India were on the whole more encouraging, good crops being promised in the sections where famine so long prevailed; at the same time advices from plague districts as well as news from the frontier war were disquieting influences. In spite of these set-backs the most satisfactory development in the business for export was the demand from India, orders from other quarters having been strictly moderate or small. At home the continued troubles in the engineering industry and the inability to quickly reach a settlement of the wage question in the cotton mills were adverse features. Among manufacturers those spinning their own yarn were most favorably situated, as they were able to take advantage of the decline in the price of the raw material. Much of the business done bore a speculative character, as spinners bought the cotton not when the order was booked but when it was completed. This method proved profitable as the raw material continued to decline. Exports of yarns and goods were somewhat greater than in September, reaching 100,816,000 lbs., but smaller than in October 1896, when the total was 105,291,000 lbs. Consumption was estimated the same as in the preceding month. *Liverpool.*—The market for cotton opened the month in a hesitating mood and fluctuations were within narrow limits. Between the 1st and 8th there were frequent changes in prices up and down, but they counterbalanced each other, middling uplands being quoted at 3 27 32d. on both dates. Subsequently, however, as a result of the heavy crop movement, and notwithstanding the good spot demand, cotton steadily declined, middling up-lands closing the month at 3⅜d., or a loss of 15-32d. from the opening.

NOVEMBER.—*Manchester.*—The improved conditions so manifest during the preceding month continued to be noticeable in a number of branches of the cotton goods trade in November. Transactions were somewhat more extensive in amount and at more satisfactory prices. But in some instances neither the volume of trade nor the financial return therefrom was of a favorable character. On the whole, however, the situation was more encouraging than of late, as at the close of the month manufacturers were better fortified with orders than for some time past. In fact, by the end of the month a few had booked sufficient orders to keep machinery fully employed well into 1898. The course of the market for the raw material was favorable to the manufacturers, the early decline enabling them to accept orders formerly refused, while the temporary check in the downward trend of American cotton about the middle of the month brought out orders which had been held back in the hope that they might be placed on a more advantageous basis. As regards India, a more hopeful feeling was apparent, notwithstanding the fears entertained in some quarters that the plague would be an important feature again this season. The varying aspects of the wage dispute was an element of uncertainty, no settlement having been reached. Yarns and goods exported from Great Britain were during November 112,562,000 lbs., against 99,185,000 lbs. in the month of 1896. No change was made in the estimated weekly rate of consumption. *Liverpool.*—The heavy crop movement in the United States was the controlling factor in the market for the raw material. While it did not bring about any decided decline in prices, the general tendency of quotations was downward. Opening at 3 11-32d., middling dropped 1-32d. at a time until 3 7-32d. was reached on the 9th. A rise of 1-16d. on the 12th was followed by a similar loss on the 14th and a recovery of 1-32d. to 3¼d. on the 16th. At this figure the month closed, after fluctuations of 1-32d., up or down, during intervening days.

DECEMBER.—*Manchester.*—The month opened upon a quiet market for cotton manufactures, but quotations were generally well maintained. The wage question was finally settled December 7 by the employers withdrawing their proposal after the operatives had, by an overwhelming majority, voted against acceding to any reduction. Probably the fact that the trade conditions had improved since the first of September was the influence which led to the abandonment of the effort. About the middle of the month a better demand from India, and more activity in other directions brought transactions up to a fair aggregate, but subsequently a period of quiet supervened which continued to the close of the month. Exports of yarns and goods from Great Britain, while less than in November, were greater than in most other months of the year 1897, reaching 108,451,000 lbs., against 106,274,000 lbs. for the similar period of 1896. Mr. Ellison's estimate of consumption was the same as for preceding months. *Liverpool.*—The market for the raw material presented no features of importance during December. The continued liberal movement of the American crop was of course a source of some uneasiness, but prices were nevertheless quite steadily held. Middling uplands opened the month at 3¼d. and closed at the same figure, after having fluctuated within a narrow range. In fact, not until the 8th was there any change at all, a drop of 1-32d. on that date being followed by a similar loss on the 10th. A rise of 1-32d. on the 13th was lost on the 16th, recovered again on the 21st, and an addition of 1 32d. on the 30th brought the price back to 3¼d.

JANUARY.—*Manchester.*—The outlook at the opening of the new year was more promising. Among the encouraging features were the decline in cotton, which increased the margin. The truth is that all through January there was also a more satisfactory demand for goods and transactions were in larger volume. At the close of the month manufacturers were said to be better supplied with orders than for some time previously. Greatest activity was displayed in dealings for the Far East, but business for India fell off somewhat in the last two weeks on unfavorable news from that quarter, advices indicating an increase of the plague. Yarns and goods exported from Great Britain were during the month 112,341,000 lbs., against 109,198,000 lbs. in January 1897. The estimated consumption of cotton for the month in Great Britain was advanced to 63,000 bales per week by Mr. Ellison and he increased the rate on the Continent to 87,000 bales. *Liverpool.*—Much the same conditions were manifest in January as controlled the December cotton market. Demand was sufficiently active to hold prices fairly steady, notwithstanding the continued free marketing of the American crop. At the same time the heavy movement held in check any tendency to advance quotations. Middling upland was quoted at 3¼d. on the 4th inst. and dropped to 3 7-32d. on the 6th, but recovered the loss on the following day. A decline of 1-32d. occurred on the 11th and a similar falling off on the 18th carried the quotation down to 3 3-16d. No further change took place until the 26th, when 3 7-32d. was again reached, and at that price the market closed after a net loss of 1-32d. from the opening.

FEBRUARY.—*Manchester.*—The developments in the cotton goods industry during February imparted new strength to the situation. This was largely due to the leading incident of the month, which was an upward movement in the price of the raw material after a long interval of unusually narrow fluctuations. The rise in value of cotton stimulated the demand for both yarns and cloth, resulting not only in a very favorable volume of trade but making it possible in some instances for producers to obtain enhanced prices. A degree of uneasiness was occasioned by the increased mortality from the plague in Bombay, but reports from that

quarter indicated that trade was not by any means so badly disorganized as at the same date in 1897. Purchases for China and South America were heavier than for some time previously. At the close of the month many manufacturers were quite well supplied with orders. Exports of yarns and goods from Great Britain in February reached a total of 104,305,000 lbs., against 91,789,000 lbs. for the corresponding period of 1897. No change was made in the estimated weekly rate of consumption. *Liverpool.*—At the opening of the month an increased demand for consumption imparted strength to the market and stimulated an upward turn to values. On the 4th a rise of 1-32d. was established, and a similar gain on the 7th carried middling uplands to 3 5/16d. The 8th witnessed an increase of 1-16d., and the same was true of the 10th. A loss of 1-32d. on the 11th was recovered on the 12th, but the quotation fell back again to 3 11-32d. on the 15th. Prices were marked up 1-16d. on the 23d and 1-32d. on the 24th and 26th, middling upland ruling at 3 15-32d. on the latter date. The market closed at 3 7-16d. or a gain of ¼d. over the opening.

MARCH.—*Manchester.*—The conditions which prevailed in the goods market in March continued in the main favorable. No general activity was manifest, but in a number of lines transactions of considerable volume were effected, while in others the orders booked were sufficient, in conjunction with contracts previously obtained, to enable manufacturers to assume an attitude of firmness in making negotiations. The fluctuations in cotton were an unfavorable feature; the tendency was downward until the closing days of the month, when the loss was recovered. In the dealings for goods for foreign account the chief feature was the demand from India, which was quite satisfactory. The inquiry however was mainly from Calcutta, reports from that point indicating a steady recovery from the effects of the famine. But Bombay merchants also made moderately large purchases, despite the increase of the plague. For some of the South American countries fair sales were recorded. The threatening aspect of affairs in Cuba and the political tension in China were of course unsettling influences. Altogether, however, the month's trade reached an encouraging aggregate and a fair profit was as a rule secured. Yarns and goods exports from Great Britain in March were not only of heavier total than in any preceding month of the season, but exceeded the shipments for any similar period on record. They reached 124,775,000 lbs., against 110,391,000 in March 1897. It is furthermore a fact that the exports for the half-year ended March 31—649,640,000 lbs.—were greater than for the corresponding six months in any previous season. The rate of consumption by the mills was estimated the same as in February. *Liverpool.*—The market for the raw material was a declining one most of the month, in part a natural reaction from the previous advance, but also ascribable in large measure to the situation in Cuba and China and to a lighter spinning demand in America and on the Continent. At the close of the month, however, an advance set it, under which all the earlier loss was recovered. On the 1st day of March middling uplands stood at 3 7-16d. and advanced to 3 15-32d. on the 2d. Losses of 1 32d. were recorded on the 4th, 8th, 11th, 14th and 24th, the quotation on the last-mentioned date being 3 5-16d. Gains of 1-16d on the 29th and 31st carried the price back to 3 7-16d.

APRIL.—*Manchester.*—Business in the cotton goods market during April was characterized by firmness of tone and a hardening tendency of values, resulting from the rise in price of the raw material incident to the trouble between the United States and Spain. The idea entertained in Liverpool was that war would restrict the free movement of the raw material from America. Dealings in goods reached a very satisfactory aggregate at first, but the marking up of yarns and goods which followed the advance in the raw material tended to check the inquiry. An unsettling influence in the market for India was the further spread of the plague. A subsidence of the trouble had been looked for with the advent of warm weather, and consequently the unfavorable reports caused disappointed and derangement of business affairs. On the whole, though, a very fair trade was reported for the month, the demand for South America and Central America having been much better than for a long time previously. Machinery was well employed at the close. Exports of yarns and goods from Great Britain reached 95,650,000 lbs. against 91,079,000 lbs. in April of 1897. The preceding month's rate of consumption was maintained, *Liverpool.*—News from America bearing upon the contention with Spain over Cuba was the controlling factor in the market for the raw material in April. During the first half of the month the quotation for middling uplands was steadily maintained at 3 7-16d., but when it became quite certain that war between the United States and Spain could not be averted, a sharp rise set in, owing to the demand from buyers who feared that hostilities would serve to curtail the supply. An advance of 1-16d. on the 15th was followed by a similar addition on the 18th, and a gain of 1/32d. on the 20th. The succeeding day the quotation rose another 1-16d., to 3 21-32d. Subsequently demand slackened, an easier feeling prevailed and prices receded somewhat, middling uplands closing the month at 3 9-16d.

MAY.—*Manchester.*—The goods market lost tone and activity in May as compared with preceding months of the year. Among the influences which operated to bring about this less satisfactory condition of affairs, the most potent were the outbreak of the plague at Calcutta, which checked business at that point, and the uncertainties introduced by the war between Spain and the United States—not as to the ultimate outcome of hostilities but as to their duration and the resulting complications. While there was a fair inquiry in some departments, buyers generally were not disposed to make purchases beyond what was required to supply the current demand and to maintain assortments. Producers consequently had to depend largely upon previously-booked orders to keep machinery employed and in some instances looms were stopped in order to curtail the output. Manufacturers were less fully under contract at the close of the month than at the opening. Transactions in yarns were smaller than for some time previously. The exports of yarns and goods from Great Britain in May were 99,069,000 lbs., against 98,895,000 lbs. for the same month of 1897. Estimates of consumption of cotton were unchanged. *Liverpool.*—The market for the raw materia ruled quiet pretty much all the month. The decisive American victory at Manila on the first of May encouraged expectations of an early termination of hostilities, and in consequence prices took a downward turn, middling uplands falling off 1-32d. on the 3rd and also on the 4th. On the 6th and 7th the decline was fully recovered, but between the 11th and 17th the quotation receded to the figure reached on the 4th (3 17-32d). An advance of 1-32d on the 19th and 1-16d on the 24th carried middling uplands to 3 5-8d., at which it closed the month.

JUNE.—*Manchester.*—The cotton goods market during June was largely under the control of the influences which operated to restrict transactions in the preceding month. In consequence of the plague the demand for Calcutta was extremely light and the war between Spain and the United States served to curtail the inquiry from other markets. In fact, buyers seemed indisposed to operate at ruling quotations, except to an extent sufficient to meet urgent requirements. As this continued falling off in new business left an increasing number of manufacturers without orders, the position of producers weakened; this led to concessions being made and a fair volume of transactions was recorded in some departments. The difficulty experienced in effecting sales was augmented by the declining tendency developed in cotton under acreage advices for the new crop from the United States. Exports of cotton manufactures from Great Britain for the month reached a total of 103,230,000 lbs., against 90,660,000 lbs. in 1897. Consumption was estimated the same as in the previous month. *Liverpool*—Acreage and condition reports from the United States were an important element in shaping the course of the market for the raw material during June. The tone was weak throughout and the general tendency of prices downward. Opening at 3 19-32d., middling uplands declined to 3 9-16d. on the 3d, and so ruled until the 18th, when a further drop of 1-32d. occurred. The 20th witnessed a loss of 1-16d. and a decline of 1-32d. on the following day carried the quotation down to 3 7-16d., and this price was maintained to the close of the month.

JULY—*Manchester*—The situation in Manchester was a little more satisfactory in some respects than in the two previous months, but there continued to be some dissatisfaction felt at the comparatively restricted volume of trade and the narrow margin of profit. Among the encouraging features the most important was the more active inquiry

for Calcutta, after a considerable period during which there had been almost no transactions for that port on account of the plague scare. Anticipations that the next American crop would be a large one caused buyers to operate only from hand to mouth and to withhold orders of any magnitude except at their own offers, and producers were consequently forced at times to make concessions in order to keep machinery employed. Yarns and goods exported from Great Britain were 107,773,000 lbs. against 103,732,000 lbs. in 1897. Estimates of consumption unchanged. *Liverpool*—Crop news from the United States was the main factor controlling the course of the Liverpool market for the raw material in July. The low level to which prices had already fallen, in view of the statistical position of the staple, precluded the possibility of any further drop except under extraordinarily favorable reports, but the news was sufficiently suggestive of a fine crop outlook to check any material advance. On the 1st of July middling upland was quoted at 3 13-32d. and rose to 3 7-16d. on the 5th. This price was steadily maintained until the 13th, when an advance of 1-32d. was established. Five days later there was a recession to 3 7-16d. and on the 22d another 1-32d. was lost. On the 27th and 28th gains of 1-32d. occurred, carrying middling upland to 3 15-32d., at which it closed.

AUGUST—*Manchester*—The conditions which prevailed in the market for cotton goods were not essentially different from those experienced during July, except in so far as they were effected by the decline in the raw material. An inclination on the part of the manufacturers to accept the prices offered would have resulted in a large volume of business being put through, as plenty of orders were in evidence and largely for Calcutta. But buyers limits were so unremunerative (because they were looking for a large yield of cotton in America and lower prices) that dealings were to a great extent confined to the satisfying of pressing needs, although some fair orders for South American countries were booked. Buying for the home trade was also restricted, and for the same reason, purchases being made only to meet immediate wants; on the Continent the markets ruled quiet. Cable advices from India at the close of the month indicated that the plague was spreading, and it was officially announced that in the Bombay Presidency alone the deaths during the week ended August 27 aggregated 23,000. *Liverpool*—The market for cotton, as during July, was controlled almost wholly by crop reports from the United States. At the opening of business after the holidays middling upland was quoted at 3 15-32d., or the same as at the close of the previous month; but was marked up 1-32d. on the 9th and again on the 10th, upon reports of damage by rain, etc. Following the receipt of the Bureau report, which was more favorable than anticipated, prices weakened, and declining 1-32d. at a time reached 3 5-16d. on the 22d, the aggregate loss having been 7-32d. A recovery of 1-32d. occurred on the 27th, but the price receded again to 3 5-16d. on the 30th, and so closed after a decline of 5-32d. during the month.

We now add our usual tables of consumption and supply of cotton. These figures are not the takings of the mills, but the actual consumption of the mills, *and are in all cases expressed in bales of 500 pounds.*

Consumption. Bales 500 lbs.	Europe.			United States.			Total World.

* Figures of European Consumption for 1896-97 and 1897-98 will probably be changed slightly by Mr. Ellison when he makes up his October Annual.

Another general table which we have compiled of late years is needed in connection with the foregoing to furnish a comprehensive idea of the extent and the expansion of this industry. It discloses Europe and America's cotton supply and the sources of it. The special points we have sought to illustrate by the statements are, first, the relative contribution to the world's raw material by the United States and by other sources, and, second, to follow its distribution.

WORLD'S SUPPLY AND DISTRIBUTION OF COTTON.

	Visible and Invisible Supply beginning of year.	Crops.			Total Actual Consumption.	Balance of year's supply.		
		United States.	Supply of Other Countries	Total Crop.		End of Year. Visible.	End of Year. Invisible.	Burnt, &c.†
1866-67.	1,879,000	1,742,000	1,784,000	3,526,000	4,068,000	1,190,000	175,000	42,000

1894-95.	3,136,000	9,640,000	1,625,000	11,265,000	10023000	2,180,000	1018,000	180,000
1895-96.	3,198,000	6,912,000	1,938,000	8,850,00	10008000	1,231,000	389,000	140,000
Aver'ge	.....	7,817,000	1,972,000	9,789,000	9,531,000	.....	.....	120,000
1896-97.	1,900,000	8,435,000	1,924,000	10,359,000	10330000	1,054,000	685,000	190,000
1-97-98	1,739,000	10890000	1,665,000	12,555,000	10853000	1,641,000	1390,000	410,000

To illustrate the preceding, take the last season, 1897-98, and the results would be as follows:

Supply—Visible and invisible stock beginning of year		1,739,000
Total crop during year		12,555,000
Total supply—bales of 500 lbs		14,294,000
Distribution—Total consumption	10,853,000	
Burnt, &c., during year	410,000	—11,263,000
Leaving visible stock	1,641,000	
Leaving invisible stock	1,390,000	
Total visible and invisible stocks at end of year		3,031,000

† This column covers cotton exported to countries not covered by figures of consumption, and cotton burnt in United States, on sea, and in Europe

The foregoing clearly shows the course of the cotton industry in Europe and the United States. By including India, the actual world's consumption would appear as follows:

World's Consumption.	Great Britain.	Continent	United States.	India.	Total.
1880-81	2,858,000	2,365,000	1,694,000	297,000	7,214,000
1881-82	2,912,000	2,558,000	1,758,000	312,000	7,540,000
1882-83	2,695,000	2,704,000	1,900,000	358,000	7,957,000
1883-84	2,933,000	2,701,000	1,795,000	416,000	7,848,000
1884-85	2,746,000	2,604,000	1,527,000	467,000	7,344,000
1885-86	2,902,000	2,772,000	1,822,000	504,000	8,000,000
1886-87	2,955,000	2,912,000	1,939,000	569,000	8,375,000
1887-88	3,073,000	3,037,000	2,024,000	617,000	8,751,000
1888-89	3,016,000	3,256,000	2,148,000	697,000	9,117,000
1889-90	3,227,000	3,432,000	2,185,000	791,000	9,635,000
1890-91	3,384,000	3,631,000	2,367,000	924,000	10,306,000
1891-92	3,181,000	3,619,000	2,576,000	914,000	10,290,000
1892-93	2,866,000	3,661,000	2,551,000	918,000	9,996,000
1893-94	3,233,000	3,827,000	2,264,000	959,000	10,283,000
1894-95	3,250,000	4,030,000	2,743,000	1,074,000	11,097,000

1896-97	3,224,000	4,368,000	2,739,000	1,004,000	11,334,000
1897-98	3,406,000	4,485,000	3,002,000	1,075,000	11,968,000

NOTE.—The above does not include American cotton consumed in Canada, in Mexico, and burnt.

Overland and Crop Movement.

Overland.—There has been a gain in the volume of cotton carried overland the past year. This is certainly not surprising with so considerable an increase in the aggregate yield of the staple, nor is it strange that the ratio of addition to the rail movement should be greater than in the total crop as the greatest gains in yield have been in those portions of the cotton belt from which the overland traffic is mainly drawn. The actual excess over last year in the all-rail movement is 613,800 bales, or 48 per cent, whereas the crop exceeds that of 1896-97 by but about 28½ per cent. Moreover this year's overland is greater than in any previous year.

While the various routes have quite generally shared in the increased movement this year, they have done so in a widely different degree. Through St. Louis the roads have carried nearly 60 per cent more cotton than in 1896-97 and the rate of gain via Cairo has been about 45 per cent. The route via Cincinnati shows a slight increase and via Parker 36 per cent more cotton has been moved. The Rock Island road, however, shows the heaviest addition—nearly 240 per cent—the amount of cotton passing that way this year having been 46,941 bales, against only 13,951 bales in 1896-97. Louisville roads have collectively carried a little less cotton than last year.

With regard to the proportionate marketings of the crop through the Southern outports, the changes in part reflect the alteration in yield of the different sections. For instance, while in the season just closed about every section produced more cotton than a year ago, the increase was greater in some cases than in others. In the Southwest the gain was heaviest and this is confirmed by the receipts at New Orleans, Galveston, etc. The variations that have occurred in the last ten years are shown in the subjoined statement.

Per cent of Crop Received at—	18-7-98.	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.	1888-89.

In the above we have figured only what is called the *net* overland, as the remainder of the *gross* amount is counted at New York, Boston, Philadelphia, etc., or at the Southern ports where it first appears in the receipts. At the same time the entire *gross* overland reaches a market by some all-rail route; hence in measuring the total overland we can do so correctly only by using the *gross* figures. To indicate therefore the progress made since 1877-78 we give the following:

Crop of	Total Yield.	Gross Overland.	Increase and Decrease— Of Crop.	Of Overland.
	Bales.	Bales.	Per Ct.	Per Ct.
1897-98	11,180,960	1,896,011	Increase 28·31	Increase 47·90

Change from season of '78-79 to '97-98			Incr'se 120·4	Incr'se 112·6

In determining this year the portion of the crop forwarded by each of the different overland routes, we have followed our usual methods:

First—Of counting each bale of cotton at the Southern outport where it first appears

Second—Of deducting from gross overland all cotton shipped by rail from Southern outports to the North.

Third—Of deducting also from overland any amounts taken from Southern outports for Southern consumption.

Fourth—Of deducting likewise arrivals by railroads at New York, Boston, Baltimore and Philadelphia, all of which have been counted in the receipts from week to week during the year.

With these explanations nothing further is needed to make plain the following statement of the movement overland for the year ending September 1, 1898:

	1897-98.	1896-97.	1895-96.
Amount shipped—			
Via St. Louis	893,356	574,035	560,880
Via Cairo	397,916	274,165	245,616
Via Parker	32,681	24,056	19,955
Via Rock Island	46,941	13,951	20,037
Via Louisville	134,111	137,107	138,302
Via Cincinnati	156,015	151,439	123,668
Via other routes	227,784	91,646	69,688
Shipped to mills, not included above	17,207	12,798	11,553
Total gross overland	1,896,011	1,282,211	1,190,299
Deduct shipments—			
Overland to New York, Boston, &c.	509,408	327,845	268,839
Between interior towns	50,953	5,231	5,029
Galveston, inland and local mills	7,375	6,525	7,165
New Orleans, inland and local mills	19,190	22,906	19,340
Mobile, inland and local mills	7,743	7,049	7,892
Savannah, inland and local mills	500	5,140	1,946
Charleston, inland and local mills	3,611	11,382	8,598
N. Carol'a ports, inland and local mills	3,199	3,802	4,518
Virginia ports, inland and local mills	17,416	18,841	15,184
Total to be deducted	619,397	409,207	338,511
Leaving total net overland*	1,276,614	873,004	851,788

* This total includes shipments to Canada, &c., by rail, which during 1897-98 amounted to 113,470 bales, and are deducted in the statement of consumption.

CROP DETAILS.—We now proceed to give the details of the entire crop for two years.

Louisiana.

Exported from N. Orleans:	1897-98.		1896-97.	
To foreign ports	2,384,000		1,984,169	
To coastwise ports	304,369		272,191	
To Northern ports, &c. by river and rail*	3,141		8,018	
Manufactured*	16,049		14,888	
Stock at close of year	50,181	2,823,740	8,141	2,287,407
Deduct:				
Received from Mobile	123,830		118,889	
Received from Galveston and other Texas ports	1,513		1,019	
Stock beginning of year	8,141	133,484	39,184	159,092
Total product of year		2,690,256		2,128,315

* In overland we have deducted these two items.

Alabama.

Exported from Mobile:*				
To foreign ports	227,975		180,532	
To coastwise ports	132,331		120,172	
Burnt	62		.....	
Stock at close of year	5,880	366,248	1,482	308,186
Deduct:				
Receipts from Pensacola	14,316		11,860	
Stock beginning of year	1,482	15,798	4,578	16,438
Total product of year		350,450		291,748

* Under the head of coastwise shipments from Mobile are included 7,743 bales shipped inland by rail north and for Southern consumption, which will be found deducted in the overland movement.

Texas.

Exp'ted from Galveston, &c.:	1897-98.		1896-97.	
To foreign ports (except Mexico)	1,514,288		1,229,981	
To Mexico, from Galveston, Corpus Christi, &c.	35,593		22,801	
To coastwise ports*	456,752		272,739	
Burnt	.....		3,568	
Stock at close of year	30,270	2,036,903	15,242	1,544,331
Deduct:				
Received at Galveston from New Orleans, &c.	174		180	
Stock beginning of year	15,242	15,416	57,043	57,223
Total product of year		2,021,487		1,487,108

* Coastwise exports include 7,375 bales shipped inland and taken for consumption, which are deducted in overland statement.

Florida.

Exported from Pensacola, &c.*				
To foreign ports	113,423		72,320	
To coastwise ports	21,811		18,063	
Stock at close of year	.....	135,234	.....	90,383
Deduct:				
Stock beginning of year	.....		.....	.....
Total product of year		135,234		90,383

* These figures represent this year, as heretofore, only the shipments from the Florida *outports*. Florida cotton has also gone inland to Savannah, &c., but we have followed our usual custom of counting that cotton at the *outports where it first appears.*

Georgia.

Exported from Savannah:				
To foreign ports—Upland	718,507		417,936	
To foreign ports—Sea Is'd	15,439		18,204	
To coastwise ports—				
Upland*	412,507		363,166	
Sea Island	44,128		61,735	
Exp'd from Brunswick, &c.:				
To foreign ports	247,027		125,130	
To coastwise ports	25,895		52,191	
Burnt	55		.....	
Manufactured*	.....		1,088	
Stock at close of year—				
Upland	3,523		1,628	
Sea Island	6,034	1,473,115	6,417	1,047,501
Deduct:

Total product detailed in the foregoing by States for the year ending September 1, 1898	bales. 9,953,021
Consumed in the South, not included	1,227,939
Total crop in the U. S. for year ending Sept. 1 1898	bales. 11,180,960

Below we give the total crop each year since 1869:

Years.	*Bales.*	*Years.*	*Bales.*	*Years.*	*Bales.*
1897-98	11,180,960	1887-88	7,017,707	1877-78	4,811,265
1896-97	8,714,011	1886-87	6,513,623	1876-77	4,485,423
1895-96	7,162,473	1885-86	6,550,215	1875-76	4,669,288
1894-95	9,892,766	1884-85	5,669,021	1874-75	3,832,991
1893-94	7,527,211	1883-84	5,714,052	1873-74	4,170,388
1892-93	6,717,142	1882-83	6,992,234	1872-73	3,930,508
1891-92	9,038,707	1881-82	5,435,845	1871-72	2,974,351
1890-91	8,655,518	1880-81	6,589,329	1870-71	4,352,317
1889-90	7,313,726	1879-80	5,757,397	1869-70	3,154,946
1888-89	6,935,082	1878-79	5,073,531		

Weight of Bales.

The average weight of bales and the gross weight of the crop we have made up as follows for this year, and give last year for comparison:

Crop of—	*Year ending September 1, 1898.*			*Year ending September 1, 1897.*		
	Number of bales.	*Weight in pounds.*	*Av'age weight.*	*Number of bales.*	*Weight in pounds.*	*Average weight.*
Texas	2,021,487	1,069,993,284	529·31	1,487,108	785,758,125	528·38
Louisiana	2,690,256	1,371,304,101	509·78	2,128,315	1,079,460,085	507·19
Alabama	350,450	178,414,095	509·10	291,748	148,018,358	507·35
Georgia*	1,504,946	790,519,035	495·64	1,109,327	540,963,311	487·65
So. Carolina	547,938	269,363,863	491·60	476,285	231,188,976	485·39
Virginia	567,981	277,981,261	489·42	714,716	345,953,280	484·05
No. Carolina	393,946	196,185,108	498·00	281,181	137,542,498	489·18
Tenn'ssee, &c	3,013,931	1,518,611,214	502·20	2,225,331	1,114,935,338	501·02
Total crop	11,180,960	5,667,372,051	506·88	8,714,011	4,383,819,971	503·08

* Including Florida.

According to the foregoing, the average gross weight per bale this season was 506·88 lbs., against 503·08 lbs. in 1896-97, or 3·80 lbs. more than last year. Had, therefore, only as many pounds been put into each bale as during the previous season, the crop would have aggregated fully 11,265,350 bales. The relation of the gross weights this year to previous years may be seen from the following comparison:

Season of—	*Crop.*		*Average Weight. per Bale.*
	Number of Bales.	*Weight, Pounds*	
1897-98	11,180,960	5,667,372,051	506·88
1896-97	8,714,011	4,383,819,971	503·08
1895-96	7,162,473	3,595,775,534	502·03
1894-95	9,892,766	5,019,439,687	507·38
1893-94	7,527,211	3,748,422,352	497·98
1892-93	6,717,142	3,357,588,631	499·85
1891-92	9,038,707	4,508,324,405	498·78
1890-91	8,655,518	4,326,400,045	499·84
1889-90	7,313,726	3,628,520,834	496·13
1888-89	6,935,082	3,437,408,499	495·66

1876-77	4,485,423	2,100,465,086	468·28

New Crop and Its Marketing.

That the cotton crop is on the whole a late one seems to be evident. It will be remembered, too, that our acreage report showed that it started late. Not only have the first bales made their appearance less early than in an average season, but the volume of new cotton brought forward up to the close of August is behind the total for any recent year except 1895. This is true notwithstanding the heated term, which has prevailed over the whole belt for some weeks, has served to force the maturity of the plant, making the receipts from the earlier sections quite free. A late crop this year has not inconvenienced spinners because their stocks of cotton carried over are large. In that particular their con-

dition was quite different in 1897, when Southern mills had before the close of July practically exhausted their supply of the raw material and continuous operations depended upon the quick delivery of cotton by producers. The maturity of the plant is, though, always an incident of more or less consequence, as bearing upon the extent of the yield, for, if late in maturing, a later or more favorable picking season is required for the ingathering.

It is impossible at this date to give definite indication of the extent of the growing crop, as so much depends upon later developments. The known facts up to September 1 are: (1) That the acreage planted was only slightly less than the planting in 1897. (2) That the plant in the Atlantic States had a poor start, but elsewhere about an average; that the development in April and first half of May was hardly up to the average. (3) That subsequent to the first of June reports received with regard to condition, development, etc., were in the main favorable until near the close of July. Since the first of August, and in fact since the closing week in July began, complaints of damage from various causes have arisen. Summing up the results as they appear at this date, we would say that in Texas the prospect at the moment is believed to be good for a pretty full yield in at least four-fifths of the State; in Mississippi the same also appears to be true; in Tennessee the crop is reported as looking well; in Arkansas complaints have recently been numerous and serious enough to make a full yield in the State improbable; in Georgia, Alabama and a part of North Carolina the outlook is no doubt least encouraging.

We bring forward our usual data bearing upon the maturity of the plant, giving first the date of receipt of first bale. This year the earliest arrival was at New Orleans from Texas on July 2. Last year the first bale also came from Texas being received at Houston on June 30, and in 1896 the same State furnished the initial bale, on July 10. There is, however, little to be learned from a *first* arrival, but the *average* of all the first arrivals is a better guide.

As an indication of maturity the arrivals of new crop cotton to the 1st of September usually furnish a much better test. And this is so in the present season, when, as stated above, there have been no circumstances tending to hasten the early movement. It will be observed that New Orleans has received only 4,174 bales, or very much less than last year, and that at Galveston the arrivals have reached 22,600 bales, against 29,122 bales in 1897.

Sea Island Crop and Consumption.

We have continued throughout the season of 1897-98 the compilation of a weekly record of the Sea Island crop, and no effort has been spared to keep our readers well informed as to the movement of this variety of cotton. As in former years, the correctness of our methods in compiling the totals from week to week is pretty well established by the results given below (which agree closely with the figures published in the CHRONICLE of August 19). It will be noticed that the crop shows a decided decrease from 1896-97, the year of heaviest yield on record.

	1897-98.	1896-97.

Boston	†52	.....	52	....	52	3,599	....	3,599
Baltimore	.....	.....	.....	....	.....	2,354	225	2,579
Philadelp'a	.....	.....	.....	....	.....	.....	....	.....
Total	7,414	76,119	83,533	7,263	76,270	33,303	8,827	42,130

† 52 South Carolina.

From the foregoing we see that the total growth of Sea Island this year is 76,119 bales; and with the stock at the beginning of the year (7,414 bales) we have the following as the total supply and distribution:

This year's crop	bales.	76,119
Stock September 1, 1897		7,414
Total year's supply	bales.	83,533
Distributed as follows:		
Exported to foreign ports	bales.	42,130
Stock end of year		7,263—49,393
Leaving for consumption in United States	bales.	34,140

We thus reach the conclusion that our spinners have taken of Sea Island cotton this year 34,140 bales, or 6,530 bales less than in the previous year.

The following useful table shows the crops and movement of Sea Island since the war, the figures for the seasons 1890-91 to 1896-97 being given in detail.

* Receipts and shipments are net figures in both years.
† Last year's figures are for Columbia, S. C.

Shipments in this statement include amounts taken from interior towns for home consumption and amounts burnt.

In the following we present a statement of the year's exports from each port, showing the direction which these shipments have taken. Similar statements have been given in all previous reviews, and a comparison as to the extent of the total movement to each port can be made with back years. Contrasting the current returns with those for last season, we find that there has been an increase in the exports to almost all ports.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, September 17, have been $1,320,920,616, against 1,096,985,592 last week and $1,403,549,816 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending September 17. 1898.	1897.	Per Cent.
New York	$986,328,870	$731,950,223	−1·9
Boston	78,430,848	93,285,258	−14·8
Philadelphia	54,745,058	60,413,115	−9·4
Baltimore	13,476,327	14,789,986	−8·9
Chicago	87,818,503	82,222,739	+6·8
St. Louis	24,780,195	25,357,673	−2·3
New Orleans	4,364,198	5,221,103	−16·3
Seven cities, 5 days	$960,927,803	$1,013,219,943	−5·2
Other cities, 5 days	132,018,411	151,014,297	−12·6
Total all cities, 5 days	$1,093,014,214	$1,164,234,255	−6·1
All cities, 1 day	227,906,402	239,285,561	−4·8
Total all cities for week	$1,320,920,616	$1,403,549,816	−5·9

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 10, and the results for the corresponding week in 1897, 1896 and 1895 are also given. In comparison with the preceding week, there is a decrease in the aggregate exchanges of two hundred and nineteen million dollars, but at New York alone the loss is one hundred and sixty-eight millions. Contrasted with the week of 1897 the total for the whole country shows a decline of 3·6 per cent. Compared with the week of 1896 the current returns record a gain of 38·7 per cent, and the excess over 1895 is 7·7 per cent. Outside of New York the loss from 1897 is 4·2 per cent. The excess over 1896 reaches 21·1 per cent, and making comparison with 1895 the loss is seen to be 3·4 per cent.

Clearings at—	Week ending September 10. 1898.	1897.	1898. P. Cent.	1896	1895.

THE FINANCIAL SITUATION.

Higher prices for wheat based on evidence of an active demand from Europe, a more settled condition of affairs among the railroads, another month's very favorable foreign trade statement, lower foreign exchange accompanied by engagements of gold in Europe for New York, indications that the movement of money into the Treasury by reason of the bond sale is very near its end and that an outflow is about to set in—these have all been stimulating incidents of the past week. The only influence tending to disturb the markets has been increased stringency in money and the fear that condition gave rise to lest rates should go much higher and become generally troublesome to business interests. As the week closes however it has grown apparent to all that these fears were groundless. The latest developments give assurance that the extreme in the absorption of money by the Treasury through the payments incident to the 3 per cent bond sale has been nearly if not quite reached, and that our forecast in this column last Saturday was accurate in asserting that "very high rates are out of the question" and that the general situation "should lead every one to minimize the comparatively unimportant fact that the Treasury had for a brief period deprived our banks of a considerable portion of their surplus reserves." How "brief" the period will be we learn from the words of Secretary Gage published Wednesday morning confirming in all respects our statements. His words were to the effect that only about 15 million dollars of the bond money remained outstanding, and that when those had been paid the Government receipts would fall back to their normal figure and the Treasury "balance will begin to run down under the pressure of expenditures on account of the war and other objects, work on which in many instances has been held in abeyance for a long time."

The contraction in the supplies of cash in bank and their absorption by the Treasury has made prominent, and so drawn attention to, several interesting parts of the combination which forms our complex monetary system. One of these, the Sub-Treasury requirements, we have written with reference to in a subsequent article.* Another, which the occasion has shown needs a few words of explanation, is the office or function of bank reserves. Many apparently think that they are collected and held not to be issued but to be looked at; in other words, that they are in their entirety a sign of solvency, and if trenched upon at all, the signal of danger is to be given the public and a condition of alarm created as if the institutions so doing were in a state of semi-bankruptcy. The truth of the matter is the reserves of the banks, as we have often remarked, are provided for use. They hold much the same relative situation as the reserves of an army hold; any crisis or emergency is likely to bring them into activity, a smaller or larger percentage being required according to the intensity of the strain, the risk being very trifling and often of no account when the reserves are large and the portion withdrawn is only a fraction of the whole. This last remark affords a reply to the inquirer who could not see why, when the surplus reserve was in many cases already below the legal limit, we specified last week among the sources of strength the unusually large gross reserves of our banks.

*This article has been crowded out to-day, but will appear next week.

But no doubt it will be asked, does not the national banking law require each institution in New York City formed under it to keep a reserve of 25 per cent and make it the duty of the Comptroller of the Currency to take proceedings against any one of them that permits its holdings of cash to fall below that limit? That is the view of the law some writers appear to accept as a correct interpretation, but it is not the situation at all. No bank would organize under a statute of that character. Such a provision would make every crisis the occasion for national bankruptcy; it would be ruinous to our merchants for it would force the crisis, and would consequently be ruinous to our banks which hold their obligations. Very many leaders in financial circles think that a banking law to be in best form should have no requirement with regard to reserves. Be that as it may, the United States statute is constructed so as to conform procedure in this particular to about the course of practice any conservative banker would voluntarily adopt. It enacts that each association in a central city formed under it must always have on hand in lawful money 25 per cent of its deposits, and that any one of them which falls below that amount must stop increasing certain of its liabilities until its reserve has been restored. The part of the Act setting out the course to be taken by the Comptroller in this contingency puts a clear statutory interpretation upon the whole provision; it provides that the Comptroller "*may* notify" such bank to make good its reserve; but not until thirty days after that notice has been served can any further action be had against the institution so situated, and then only in case it does not restore its reserve. Such directions clearly recognize occasions for impaired reserves; they permit an impairment for thirty days; beyond that they leave the matter in the discretion of the Comptroller by making it optional with him when he shall serve the notice. Do not these suggestions show that altogether too much importance is often assigned to the mere fact that the surplus reserve is low and that some of the banks are below the limit. That would be a circumstance of weight when other conditions were also adverse. But when every other factor indicated strength as is the case now, it might induce a little closer scrutiny of collaterals and a tendency toward higher rates, but other than that it ought not to occasion concern.

On Wednesday the Bureau of Statistics gave out the foreign trade figures for August. As said above, they add another to the favorable merchandise balances which have now been continued without interruption for fourteen months, and afford likewise a further assurance that we shall not want for money if a real need comes in the course of our industrial revival. The merchandise balance in August was $35,430,000, making for eight months ending with August 31 1898 a total of $352,261,987, which is the largest for that period ever recorded; the next in size for any corresponding eight months was in 1878 when the total was $188,805,224, and the next was in 1879 when it was $140,279,159, and the next was in 1881 when it was $114,394,327. What gives to this condition special importance is the fact that with August begins the period of our largest merchandise exports. It would hardly seem possible that a movement of considerable gold from Europe within the coming two months could be prevented. With such a supply assured, added to an outflow from the Treasury

of accumulations made during recent weeks, there would appear to be little doubt of our having funds enough to supply the interior demand, even if industrial expansion should make the requirement larger than in late years.

The present is to be a year of good, though not of unusual crops. This is plainly the inference to be drawn from the report of the National Agricultural Bureau issued last Saturday. The Bureau finds an impairment in the corn crop during August of only 2·9 points, leaving the condition 84·1, which compares with 79·3 in 1897 and 91·0 in 1896. There was a marked deterioration in three important producing States, condition in Iowa declining 10 points, in Kansas 9 points and in Nebraska 23 points. The average in the last-mentioned State is reported only 62, against 85 a year ago, but in the other two States the loss from last year is comparatively small, Kansas standing at 60 against 69, and Iowa 82 against 92. It should be noted that in what may be termed the corn belt of the Middle West great improvement occurred during August; thus in Ohio there was a gain of 3 points, in Indiana 9 points, in Illinois 8 points and in Missouri 3 points. In this section the crop will be much better than a year ago, and doubtless the best in years. The Bureau report occasions surprise in making the general average for wheat only 86·7—but one point higher than on September 1 1897. The spring-wheat yield will certainly be considerably in excess of that of last year. The condition of the oats crop is reported 79·0, against 84·6 in 1897 and 74·0 in 1896. As regards the cotton prospects the Bureau admits a great decline during August, but after the decline still puts the average somewhat higher than in September last year, making it 79·8, against 78·3. In this case however the comparison is without doubt misleading as an indication of the relative yield in the two years, for there can be no question that the present crop will be smaller than that of last year.

It is reported to us that the deposits in local depository banks have increased this week about $5,000,000; the number of depositories in the interior has been augmented and public money placed therein, secured either by 3 per cent bonds or by allotments for these obligations. High rates for money, likewise, have attracted fairly liberal offerings on call from near-by and on time from distant cities, while foreign exchange being weak at the gold-importing point, announcements were made of $3,120,000 engaged for shipment from London, and other engagements were probably made that were not announced. The amount of the 3 per cent bonds already distributed was reported on Wednesday at $123,870,640; of this amount $101,175,880 has been sent to subscribers, $12,061,200 has been deposited in the Treasury to secure circulation and $10,633,560 to secure public deposits. As these deposits were reported on Thursday at $74,504,416 at all points in the country, against $69,433,860 on Saturday, it is assumed that a considerable amount must be secured by bond allotments for which the bonds will be substituted as rapidly as issued. What amount of the October interest on the 4 per cents has been anticipated we do not know; the amount of this interest is not large, being only $5,596,467; as yet few of the currency 6s, the redemption of which has been ordered, have been forwarded for payment, probably because holders prefer to retain them until maturity instead of cashing them at a rebate of ½ of 1 per cent.

Money on call, representing bankers' balances, has loaned at 2½ and at 5 per cent this week, averaging about 3⅝ per cent. The higher rate was first recorded on Tuesday. The unfavorable bank return of last Saturday induced a quite general marking up of call loans by banks and trust companies on Monday to 4 per cent, and there was a good demand at the Stock Exchange, which caused an advance during the morning to 4 per cent, and the principal borrowing for the day was before noon. Later the inquiry grew lighter and the rate fell to 2¾ per cent, but it was 3 per cent at the close. In some cases lenders discriminated against such collateral as had been most seriously affected by liquidation and by bearish pressure, and on the following day there was some shifting of loans and an urgent demand for money early in the day, which forced the rate to 5 per cent before noon. The loans later in the day were at 3½ and at 4 per cent, and the latter was the closing rate; the bulk of the business was at 4 to 4½ per cent. Rumors of gold engagements had only a temporary influence, for they could not be confirmed, and the maintenance of the 4 per cent rate by the banks and trust companies tended to induce other lenders on the Stock Exchange to seek to obtain the highest rate for their money. On Wednesday the tone was easier. The early loans were made at 4 to 4½ per cent, but later in the day a more abundant supply caused the rate to fall to 2½ per cent and the market closed at 3 per cent. On Thursday and on Friday the range was from 3½ to 5 per cent, closing at 4½. As noted above, banks and trust companies quoted 4 per cent as the minimum and some demanded 4½ for new business over the counter. There was only a moderate demand for time money and offerings were fairly liberal at current rates, with a supply from Chicago and other distant points as one feature. Rates were firm early in the week at 4 per cent for sixty to ninety days and 4½ for four to six months, but later four months' money was offered at 4 per cent and some loans were reported at 4½ for seven and even eight months. Commercial paper is in fair supply and a few of the city institutions are buying, being tempted by the high rates, and some business has been done for country banks. Rates are 4@4½ per cent for sixty to ninety day endorsed bills receivable, 4½@5 per cent for prime and 5@6 per cent for good four to six months' single names.

The most important feature in the European political situation this week has been the crisis in Crete growing out of the recent massacre of Cretans and of British soldiers at Candia by the Turks and Musselmans. The assassination of the Empress of Austria seems to have aroused the foreign governments to the necessity of concerting measures for dealing with Anarchists as criminals instead of political offenders. The Spanish Cortes on Tuesday sanctioned the signing of the peace protocol by a vote of 171 to 43. The Bank of England minimum rate of discount remains unchanged at 2½ per cent. The cable reports discounts of sixty to ninety day bank bills in London 1⅞ per cent. The open market rate at Paris is 1⅝@1¾ per cent and at Berlin and Frankfort it is 3⅝@4 per cent. According to our special cable from London the Bank of England lost £101,243 bullion during the week and held £34,650,808 at the

close of the week. Our correspondent further advises us that the loss was due to the import of £52,000 from the Cape, to the export of £152,000 (of which £131,000 were for Germany and £21,000 for the United States) and to £1,000 *net* sent to the interior of Great Britain.

The foreign exchange market was quite dull and barely steady until Wednesday, when it grew weak not only for sterling but for Continental in consequence of liberal offerings of grain and cotton futures and a light demand. The comparatively dear rates for money doubtless had some influence in deterring purchases, bankers finding it more profitable to loan their funds than to buy bills. The weak tone on Wednesday served to check offerings, holders of bills looking for a slight reaction the following day, but the tendency of the market was downward. The tone was weak on Friday. It was announced on Wednesday that $1,600,000 gold had been engaged in London by Lazard Freres for shipment hither and later engagements of $1,520,000 make the total $3,120,000. The arrivals of gold from Europe during the week have been $389,320; previously reported $3,755,876, making the total arrivals on this movement $4,145,196. The arrivals of gold from Europe in transit for Cuba this week have been $1,652,010; previously reported, $2,796,565, making the total $4,448,575. The range for nominal rates for exchange opened on Monday at from 4 83½ to 4 84 for sixty day and from 4 85½ to 4 86 for sight, and there was no change until Tuesday, when the range was from 4 83 to 4 84 for sixty-day and from 4 85 to 4 86 for sight. On Thursday further reductions made the range from 4 83 to 4 83½ for the former and from 4 85 to 4 85½ for the latter. The market opened dull and fairly steady on Monday with rates for actual business unchanged compared with those at the close on Friday of last week at 4 82¼@4 82½ for long, 4 84¼@4 84½ for short and 4 84¾@4 85 for cable transfers. Though the tone was barely steady on Tuesday, there was no change except in Continental, but on the following day the market grew weak and rates for actual business in sterling were reduced one-quarter of a cent, to 4 82@4 82¼ for long, 4 81@4 84¼ for short and 4 84½@4 84¾ for cable transfers. On Friday the only change was a reduction of one-quarter of a cent in long to 4 81¾@4 82. The following shows daily posted rates for exchange by some of the leading drawers.

The market closed weak on Friday, with rates for actual business 4 81¾@4 82 for long, 4 84@4 84¼ for short and 4 84½@4 84¾ for cable transfers. Prime commercial 4 81¼@4 81½ and documentary 4 80¾@4 81¼. Cotton for payment, 4 80¾@4 81¼; cotton for acceptance, 4 81¼@4 81½, and grain for payment 4 81@4 81¼.

The following statement gives the week's movement of money to and from the interior by New York banks.

Week Ending Sept. 16, 1898.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$4,761,000	$5,650,000	Loss. $889,000
Gold	832,000	1,194,000	Loss 362,000
Total gold and legal tenders	$5,593,000	$6,844,000	Loss. $1,251,000

Result with Sub-Treasury operations and gold imports.

Week Ending Sept. 16, 1898.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,593,000	$6,844,000	Loss. $1,251,000
Sub-Treasury oper. and gold imp'ts	24,800,000	28,800,000	Loss. 4,000,000
Total gold and legal tenders	$30,393,000	$35,644,000	Loss $5,251,000

The following table indicates the amount of bullion in the principal European banks.

NORTHERN PACIFIC RE-ESTABLISHMENT.

The wonderful recuperation which has occurred within the last two years in the traffic and revenues of the Northern Pacific—a recuperation so far in excess of expectations that even those administering the property have thought it a matter of prudence to make provision against a possible set-back—recalls the revival and unexampled period of prosperity which the railroads of this country enjoyed in the years following the resumption of gold payments in 1879. Our readers will remember how in this former era apparently worthless properties were suddenly transformed into dividend-paying concerns, and how many observers found it hard to believe there could be an element of permanency in such a quick recovery. The country had then for a number of years, beginning with the panic of 1873, passed through a long period of depression, under which railroad earnings dropped lower and lower, and defaults and receiverships were a common, every-day occurrence. The change from adversity to prosperity came all at once, and the period will always stand as one of the most noteworthy in American history.

There have been many points of similarity between the revival which set in in 1897 and that which had its origin in 1879. It must be admitted, however, that those who counted on a similar all-around transformation, such as occurred in the earlier year, have been distinctly disappointed. The revival, while general in nature, has worked only moderate instead of very marked improvement in many sections of the country. The explanation is very simple. In 1879 the country had not attained the degree of development to which it subsequently advanced. In the interval between 1879 and 1897—a period of eighteen years—this development reached important proportions in the older parts of the country, so that there was not in those sections this time the same opportunity for new growth and expansion that there was in the earlier part; besides which the railroads have had a very unsatisfactory rate situation to contend against. It was only in the newer and as yet but sparsely settled districts—the Northwest (as it is called), the Southwest and the Pacific Coast—that the chance existed for a repetition of the experience of 1879, and

as has happened the results have proved equally noteworthy and equally gratifying.

On the North Pacific Coast particularly the recovery and revival have been of large dimensions. That territory was the first to feel the recent period of depression, there being indications of a downward reaction even before the panic of 1893. After that crisis the outlook became decidedly discouraging. Real estate values crumbled away, boom towns collapsed, farmers netted only poor returns, and misfortunes piled upon each other in quick succession. But in all this there was laid the foundation for the recovery which has now worked such a wonderful change in the condition of all the railroads in that part of the United States. The depression served to squeeze every particle of inflation out of values, and all enterprises of an unsubstantial character necessarily went to the ground. As a consequence, a better and more enduring condition of things developed. In addition there came last year a striking combination of favoring influences—excellent crops, high prices for farm products, the Klondike gold discoveries, and a number of other stimulating elements.

We refer to all this to show upon what basis the great recovery in the revenues of the Northern Pacific rests. There are no comparisons in the report (the new company having been in possession of the property only a year and ten months), and therefore few persons doubtless realize the extent of the improvement which has occurred. Hence it seems desirable to point out that as compared with only three years ago the addition to gross earnings has been about 6¼ million dollars, the total rising from $17,434,981 to $23,679,718, and the addition to net even more than 6¼ millions, the net revenues advancing from $6,115,298 to $12,584,348. The augmentation in this last instance, it will be observed, has been over 100 per cent—certainly a most marvelous change in the short space of three years.

The effect of the improvement noted upon the company's income statements is already known to our readers. After allowing $811,709 for additions and improvements to the property, and providing for all the year's charges and for the full 4 per cent dividends on the $75,000,000 of preferred stock, there was left a surplus balance of $2,897,874, equal to 3½ per cent on the $80,000,000 of common stock. As stated two weeks since, the Board of Directors have, as an act of extra conservatism, taken this surplus of $2,897,874, together with enough more out of the surplus of the previous year to make an even $3,000,000, and set the amount aside as a reserve to ensure the continuity of dividends upon the preferred shares.

One fact in connection with the company's operations deserves, perhaps, a few moment's consideration, as it has been quite extensively discussed in Wall Street. We refer to the low percentage of operating expenses to earnings shown in the report. It is claimed that the road was operated for less than 50 per cent, that this is very unusual, and hence the broad intimation is thrown out that the property must in some respects have been neglected—that repairs and renewals possibly were not up to the requirements. We might dismiss this insinuation with the simple statement that the accounts of the company have been subjected to an independent audit, that in this examination particular inquiry was made into the correctness of all charges to capital account, and that Messrs. Price, Waterhouse & Co., the auditors, after such examination have appended their certificate endorsing the accuracy of the accounts. But the question being such an important one, we desire to give broader attention to it. In the first place it is somewhat misleading to say that the road was operated for less than 50 per cent. The company reports the ordinary operating expenses at only $11,095,571, which, based on gross earnings of $23,679,718, gives, it is true, a ratio of less than 50 per cent. But the operating expenses as here reported do not include the taxes, amounting to $682,800. Furthermore, as the point at issue is the sufficiency of the charges for renewals and repairs, obviously the $811,709 deducted in a separate item from net income for additions and improvements ($296,000 of the amount representing additions to equipment and $515,709 other additions and improvements) should also be included. Adding these two items, the total of the expenses is raised to $12,589,880, and on this basis the ratio of expenses to earnings is somewhat over 53 per cent.

It will be urged no doubt that even at 53 per cent the ratio is from 10 to 15 per cent less than what it is on many other large systems—say on the trunk lines—and the statement in a general may be admitted to be correct. It is natural to ask, therefore, how the difference in favor of the Northern Pacific is to be explained. In the discussions of the subject it seems to us the most important element in the whole problem is overlooked. We refer to the rate received. If it costs, say 5 mills, to move a ton of freight a mile, and the rate received is 7 mills, the ratio of expenses will be over 70 per cent. If on the other hand it costs 5 mills per unit of work, and the rate is 10 mills, the ratio of expenses, other things being the same, will be only 50 per cent. The Northern Pacific has in recent years, in common with other roads, suffered a steady reduction of its average rate, but this rate is still above one cent (10 mills) per ton mile, having been for the late year 1·06¼ cent. On the trunk lines on the other hand the rate averages only from 5 to 7 mills per ton mile. At the same time, as will presently appear, the Northern Pacific has managed to develop a train-load which approximates closely to that of the trunk lines.

Apart altogether from the question of rate, however, all the energies of the management have been bent to promoting efficiency and economy in operations, which serves to suggest why the ratio of expenses to earnings now is lower than it was in former years. Grades have been revised, weight of engines has been increased, capacity of cars enlarged, tunnels, tracks, bridges, &c., improved, more care given to loading of trains, &c., &c. President Charles S. Mellen states that the favorable winter of 1897-98 and consequent freedom from accident and blockade helped materially to produce the favorable result shown, but that the improvement was due more than all else to "the economies accomplished by grade reductions, by substitution of permanent for temporary structures in the roadway, and by the employment of modern power in place of that previously available." In another place he states that the satisfactory result of the year's work may be attributed largely to the marked increase in train-load and car-load and to the consequent decrease in cost per ton mile. General Manager Kendrick dwells on the same points, saying that "the systematic work of this and previous years has resulted in putting it

[the property] into such excellent condition that it will soon be possible to maintain it with much smaller expenditure than heretofore." And his report abounds in illustrations indicating the numberless ways in which the efficiency and condition of the property have been improved.

The most effective method, however, of showing the great change which has been established in these respects is to compare present train-load statistics, mileage and revenue per train mile with those in the past. In this way we get really striking results. And we need not go back far, either, to discover evidences of the change. The transformation has in the main occurred during the last two years. We find from the report of the receivers for 1894-5 that in that year the road handled 3,781,316 tons; in 1897-8 it appears from the present report it handled 4,951,183 tons, being an increase of somewhat over 30 per cent. The tonnage movement one mile in the same interval rose from 1,177 millions to 1,618 millions, giving about the same ratio of increase. Yet with 30 per cent more tonnage the freight train mileage was actually reduced over a million miles. What does this mean? It means that the road moved 265 tons in each train in 1897-8, against only 164 tons in 1894-5. This in turn means that with a slightly lower average rate received the company's freight trains earned a dollar more per mile in 1897-8 than in 1894-5, the comparison being $2·85 against $1·84. We doubt if so marked a change has ever been effected in so short a time on any other railroad property. The following gives the figures in tabular form. We have added the statistics for 1892-3. This makes the results still more striking, the freight train mileage in that year having been 8,938,543 miles, against only 6,115,784 miles for the late year.

	1897-8.	1894-5.	1892-3.
Tons of revenue freight carried	4,951,183	3,781,316	3,514,404
Tons of revenue freight carried one mile	1,618,170,234	1,177,156,867	1,364,782,652
Miles ran by freight trains	6,115,784	7,189,057	8,938,543
Number tons revenue freight in trains	265	164	153
Rate per ton per mile	1·065 cents	1·11 cents	1·23 cents
Earnings per freight train mile	$2·85	$1·84	$1·90

One other comparison seems desirable. As a result of the increase in train-load and the other economies in operation, we should expect a reduction in the cost of conducting transportation, as the expense of moving a 265 ton train-load would be but little heavier than that of moving a 164 ton train-load. This is just what we do find, and it is to that fact the recent decrease in the ratio of expenses to earnings must be referred. As already stated, gross earnings since 1894-5 have increased from $17,434,981 to $23,679,718. Expenses, however, on the larger earnings of 1897-8 were only $11,095,371, against $11,319,683 in 1894-5. If the expenditures for improvements and additions are included in the 1898 total, the comparison would be $11,907,079, against $11,319,683. Taking this as a basis and analyzing the different accounts, the fact appears that on the larger business of 1898 cost of conducting transportation was only $5,572,645, against $5,948,359 in 1894-5, while at the same time the general expenses were only $663,456, against $1,057,609. Here, then, there is a saving under these two heads (where true economy in operations is certain to be reflected) of $769,867. On the other hand the company actually spent $931,000 more for maintenance of way (including the allowance of $515,709 for improvements separately charged) and $426,000 more (including $296,000 for improvements) upon maintenance of equipment. These figures tell the story so plainly that it is unnecessary to supplement them with further comments. We present the results below in tabular form, adding, as in the other case, the corresponding figures for 1892-3.

	1897-8.	1894-5.	1892-3.
	$	$	$
Total gross earnings	23,679,718	17,434,981	23,920,109
Operating expenses—			
Main. of way & structures	*3,653,213	2,722,424	3,775,519
Maintenance of equip.	*2,017,765	1,591,291	2,278,990
Conducting transportat'n	5,572,645	5,948,359	6,774,345
General expenses	663,456	1,057,609	1,642,013
Total ex. (without taxes)	11,907,079	11,319,683	14,471,772
Net earnings	11,772,639	6,115,298	9,448,337
Ratio of expenses to earnings, not incl. taxes	50·28%	64·92%	60·50%

* Including under maintenance of way $515,709 and under equipment $296,000 spent for additions and improvements, but by the company deducted from earnings as a separate item.

It will be observed that gross earnings in 1897-8 and 1892-3 were closely similar, being over 23 millions in each year. But expenses were only $11,907,079 in 1898, including the charge for improvements, while in 1893 the amount was $14,471,772. The difference is almost entirely due to a saving, roughly, of 1¼ million dollars in cost of conducting transportation and the saving of another million dollars in the general expenses, making 2¼ million dollars together. The maintenance expenses in 1893 included some exceptional items, and cars and everything else cost a great deal more at that time, and yet for 1898 these maintenance expenses were almost as large as those for the earlier year. In view of such results there can be nothing mysterious or incomprehensible about the lower ratio of expenses to earnings now shown.

ILLINOIS CENTRAL'S PROSPERITY.

Among large railroad systems, the Illinois Central holds a distinctive position. Its business has been developed along longitudinal lines, running as the road does north and south. Generally speaking, the large systems in this country, as is well known, run east and west, and have developed their business along parallels of latitude. In the particular mentioned, indeed, the Illinois Central may be said to stand almost alone. From Chicago to New Orleans over the Central is 923 miles. There is no other north and south line of equal length in the country. Moreover the system has long been established on a prosperous basis, and has earned for many years good dividends for its stockholders. At the same time the management have been peculiarly successful in meeting the expectations of the communities which the system serves. With New Orleans at one extreme and Chicago at the other, the interests of both cities are so carefully looked after that the question is never raised whether the system is to be regarded as tributary to the one or to the other. The people of both cities take equal pride in the road.

In recent years the company has enjoyed another distinction. The mileage of the system has been greatly extended, involving of course additions to stock and debt. This policy was pursued even during the years of depression when other large systems were not disposed to enter upon new ventures. The most noteworthy feature about this policy has been that the company has been able to carry it through without impairing, but rather enhancing, its prosperity. No stronger evidence could be furnished to show the success attending the effort and the fact that the managers have acted will skill and discretion in acquiring the new lines. Moreover, even though most of these lines are now operated as part of the Illinois Centra

system and included in its accounts, the results on such lines are also stated separately, so as to show plainly their profitable character and desirability. This is rather unusual, as generally the results on new lines are concealed in those of the parent system, and no attempt is made to enlighten the security holders as to whether the added mileage is proving profitable or the reverse.

These remarks are suggested by the appearance this week of the report of the company for the fiscal year ending last June, in which the affairs of the new lines occupy such a prominent place. During the year the mileage on which operating results were based was increased no less than 678 miles, raising the total to 3,808 miles, not including the 807 miles comprised in the Yazoo & Mississippi Valley Road which is still operated separately. The report enumerates six lines which make up the 678 miles added, the chief pieces being the Louisville Division (formerly the Chesapeake Ohio & Southwestern) and the Ohio Valley. A statement is given showing that the available net earnings on the Louisville Division for the twelve months were $687,517, while the net charges which the Illinois Central had to meet on this division were only $501,885, leaving a surplus from the operation of the division for the twelve months of $185,632.

Another important acquisition in recent years has been the St. Louis Division, comprising the former St. Louis Alton & Terre Haute RR. The net earnings of this division for the year are reported at $548,139, with charges of only $502,399, leaving a balance of $45,740. These lines are all included in the returns of the Illinois Central itself and help explain the very favorable results disclosed for the year, to be noted further below. The Yazoo & Mississippi Valley, which, as already stated, is operated as an independent corporation, shows even better results. The road is the former Louisville New Orleans & Texas Ry. That this property is prospering is evident from the fact that net earnings of the 807 miles covered by it, which in 1892-3 had been $759,139, for 1897-8 were $1,569,028. With net of $1,569,028 the obligatory fixed charges were only $785,202, and the company was able to apply $381,068 in payment of outstanding notes. The Illinois Central owns all of the first mortgage bonds, all of the second mortgage bonds and all but $96,000 of the third mortgage bonds of this road. Practically, therefore, the capitalization of the Central may be said to cover not merely the 3,808 miles directly reported on but also the 807 miles of the Yazoo & Mississippi Valley, making 4,615 miles altogether.

The report gives in detail the history of the various smaller roads acquired during the year, namely the Ohio Valley, the Hodgenville & Elizabethtown, the Troy & Tiptonville and the Stacyville. In each case, also, the charges assumed are stated and the reasons mentioned for the lease or purchase. This is dealing openly and fairly with the security holders. With reference to the St. Louis Division and the Louisville Division and, indeed, with reference to all the new acquisitions, the fact that considered locally by themselves these properties have each earned during the year somewhat in excess of the charges incurred in respect to them, while in itself gratifying, by no means measures their value, as the report points out, to the Illinois Central. This is more clearly reflected, it is well said, in the increased earnings of the property taken as a whole.

Concerning the income results for the year, it is scarcely necessary to state that the showing is highly flattering. Owing to the increase in mileage, comparisons as to traffic and revenues with previous years are largely deprived of their utility. But the true test as to the profitableness of operations is found in the final result—the balance below or above the amount needed for dividends. It is precisely in this particular that the statement is especially encouraging. After allowing for charges and expenses, the balance available for dividends on the operations of the twelve months was $4,388,655. The 5 per cent dividends paid called for only $2,625,000, leaving a surplus of $1,763,655, against only $153,551 in the previous year. There has been some talk on the Stock Exchange of a possible increase in the dividend, but from the report it appears that, following the instincts of conservatism, practically the whole amount of this surplus of 1¾ million dollars has been appropriated to other uses; $501,452 has been added to the Insurance Fund, increasing the same to a million dollars; $829,000 has been paid out for betterments, commonly charged to capital account; and $396,000 has been set apart in a Special Fund to provide, on the basis of contracts already made, for the entire cost of furnishing the equipment with automatic couplers and air brakes.

It has been the settled policy of the company to improve from year to year the standard of maintenance, and in pursuance of that policy the maximum weight of rail has now been increased from 75 lbs. per yard to 85 lbs.; the standard width of embankment for single track increased from 18 feet to 20 feet; the maximum capacity of coal cars raised from 30 tons to 40 tons, and the maximum weight of locomotives from 74 tons to 79 tons. Notwithstanding the large amount of rail used in the preceding year for renewals (30,155 tons), 31,325 tons more were applied in the same way in the late year. Grades between East Cairo and Fulton, in Kentucky, have been reduced to a maximum of 38 feet to the mile, and the company has now undertaken the reduction of the grades between Fulton and Memphis on south-bound traffic from a maximum of 60 feet to one of 26·4 feet, at an estimated cost of $1,200,000.

NEW YORK CENTRAL—NEW METHODS.

It needs only a glance at the annual report of the New York Central to see that a new hand is at the helm. The report has been much altered. In part this is due to the changes incident to the operations connected with the refunding of the company's debt and the acquisition of the stocks of the Lake Shore & Michigan Southern and the Michigan Central, but in part also it reflects the inauguration of new methods. In general the changes have been in the direction of the simplification of the accounts, though the omission of some of the comparative tables extending back many years (if intended to be permanent) is to be regretted.

In our issue of June 25 we commented at length on the favorable character of the results for the year (using as a basis the preliminary estimates then just made public), and in the main the complete report now at hand confirms what was then said. There was a surplus above the amount required for the 4 per cent dividends of $654,471, against a surplus in the previous year of only $51,866. The gross earnings from the operation of the system east of Buffalo, ex-

cluding income from investments, were $45,774,240, exceeding those of any other year, with the exception of 1892-3, the year of the "World's Fair," when the total was $512,127 heavier. As compared with the previous year the increase in gross was $2,159,836, but the increase in net (before deducting taxes) was only $248,733, expenses having been added to in the sum of $1,911,103.

This augmentation in expenses followed in part from the great increase in the volume of traffic (the company having moved 3,000,000 tons more freight and 907,000 more passengers than in the preceding year) but there was a further contributing cause in the inclusion of $1,345,948 representing extraordinary outlays for equipment and miscellaneous additions to the property. In the cost of maintenance of way there was a small decrease, which the report says is due to the fact that the extraordinary replacements of rail from 1891 to 1897 enabled the company to maintain its track superstructure without heavy renewals in the year just closed. In the cost of maintenance of equipment, however, there was an increase of $551,719, which is explained in the way already mentioned, namely by the outlays of an exceptional nature made during the year. President Callaway states that $1,157,338 of the charges for maintenance of equipment were of an extraordinary character. They included the cost of 1,090 new cars, 20 new passenger locomotives, the re-upholstering of 150 passenger coaches, and various other items.

In connection with these equipment outlays Mr. Callaway directs attention to an interesting fact. He points out that as fast as cars of 15-ton and 20-ton capacity have been condemned and destroyed, they have been replaced with others of a capacity of from 40 to 60 tons. The result of this in increasing the aggregate capacity of the equipment is not generally appreciated. Thus while the inventory of the equipment for June 30 1898 shows scarcely any change in number as compared with June 30, 1888, ten years before, the total tonnage capacity now is 658,905 tons, against only 313,957 tons at the earlier date.

The unfavorable feature in the year's affairs was the low rate received. The estimate of the average rate realized given in our article last June proves to have been just right, the figure reached being the lowest point yet recorded in the company's history, namely 6·1 mills. In the previous year the average had been 6·8 mills. The decline was not altogether due to the demoralization in trunk line rates. The fact that the increase in tonnage was largely in low-class freights contributed to the same end. The effect of the lower average on revenues has already been stated in these columns. It is reflected in the much smaller relative addition to revenues than to tonnage. Thus while the tons handled was 13 per cent larger than in the previous year, and the tonnage carried one mile 19 per cent larger, the increase in freight earnings was but six per cent.

It was to meet the new conditions made necessary by this steady drop in rates that the Western part of the Vanderbilt system, composed of the Michigan Central and the Lake Shore, has been absorbed by the New York Central, permitting the simplification of management and the introduction of many economies in operation. It is the same necessity that is dictating the consolidation of the various fast freight lines so as to afford opportunity for further economies. We notice in the last year there was an increase of over 10 per cent in the train load, raising it to 299 tons. This is revenue freight only. Including company freight the average load was 320 tons—a high figure.

For the current fiscal year gross earnings for July show a falling off of $334,033 and for August a falling off of $268,042. For the quarter ending September 30 it is estimated the loss will be nearly a million dollars. But it is known that the saving in expenses will be equally marked, and accordingly it is believed the net result will not be materially changed. The smaller gross receipts are due to the falling off in the grain movement, which last year was of unusual dimensions, and this year, owing to the Leiter operations, has dwindled almost to nothing. The company carried nearly a million tons more of grain in the fiscal year 1897-8 than in the fiscal year preceding, but it was taken at very low rates, and we should think there could have been very little profit in the operation.

Up to June 30 1898 the Central had acquired, roughly, 45 million dollars of the 50 million dollars capital stock of the Lake Shore and 15 million dollars of the 18¾ millions stock of the Michigan Central. The balance sheet shows $11,111,341 of current liabilities, including $457,391 of bills payable, with $10,742,221 of cash and cash assets, including $2,327,972 of fuel and supplies. The books also show $6,347,091 of advances to lessor and other companies. This latter represents an investment which can be capitalized whenever thought desirable.

RAILROAD GROSS EARNINGS FOR AUGUST.

Railroad gross earnings for August make a much better showing than might reasonably have been expected. Last year the increase in this month was of unusual proportions, reaching on the roads reporting almost five million dollars. On top of this we now have a further increase of over 2¼ million dollars the present year. The large number of roads which have fallen behind, however (there are no less than 42, or about one-third the whole number), attests the fact that the conditions were not all favorable. In truth, some of the leading conditions were decidedly adverse.

First and foremost there was a tremendous falling off in the grain movement in the West, the deliveries last year having been of unusual dimensions, while the present year they have hardly been up to the average. Besides this the cotton movement was smaller than in 1897, and decidedly smaller than two years ago, receipts at the Southern ports being only 60,090 bales against 93,195 and 180,825 bales respectively. Then, also, there was a contraction in the live-stock movement in the West, 22,683 car loads having been brought into Chicago in August 1898, against 24,503 car loads in August 1897. Furthermore, the roads running to Buffalo lost the extra passenger traffic which they had last year by reason of the holding of the Grand Army Encampment at that point. The present year the Encampment took place at Cincinnati and was not held until the present month, which will explain the heavy increase now reported for the first week of September by the Baltimore & Ohio Southwestern and the Cleveland Cincinnati Chicago & St. Louis.

Of course there was an advantage this year in August arising from the fact that the month had only four Sundays whereas last year it had five, thus giving an extra business day in 1898. It is obvious, too, from an examination of the returns that a num-

ber of roads derived important benefit from the movement of United States troops. The Southern Railway, the Cincinnati New Orleans & Texas Pacific, the Florida Central & Peninsular and the Long Island manifestly all belong in that category. Yet another influence remains to be mentioned. Last year the bituminous coal strike operated as a drawback. The present year this drawback did not exist; but that, while a favoring element with the roads in the Middle Western States, has operated the other way in the case of roads like the Norfolk & Western and the Chesapeake & Ohio, which in 1897 had their coal traffic greatly enlarged by reason of the strike in Ohio, Indiana and Illinois. We present below a statement of the August totals for a series of years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding.	
August.	*Miles.*	*Miles.*	$	$	$
1891 (132 roads).....	93,764	98,903	42,799,231	42,462,013	*Inc.* 337,243

To indicate the extent of the falling off in the grain movement it is only necesfary to present the following statement in our usual form. It will be observed that the deliveries of wheat, corn, oats, barley and rye combined were only 46,713,405 bushels for the four weeks ending August 27, against 71,612,816 bushels in the corresponding four weeks of 1897:

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING AUGUST 27 AND SINCE JANUARY 1.

The falling off was, as usual, heaviest at Chicago. The following gives the movement for the oven month at that point, showing a loss of over 17 million bushels for August as compared with last year.

RECEIPTS AT CHICAGO DURING AUGUST AND SINCE JANUARY 1.

	August.			Since January 1.

The loss in the grain movement has been an important element with the New York Central and some of the other trunk lines, but the Wabash, the "Big Four" and the Baltimore & Ohio Southwestern all record gains despite that fact.

† Includes the operations of the St. Louis Alton & Terre Haute for all the years but the Chesapeake Ohio & Southwestern and Ohio Valley for 1898 and 1897 and Chicago & Texas for 1895 only. Results on Yazoo Branch are not included for 1898.

a Figures here for 1894 and 1897 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

* August, 1898, not reported; taken same as last year.

Northwestern roads have done remarkably well considering the character of the grain movement.

WALL STREET, FRIDAY, SEPT. 16, 1898.—5 P. M.

The Money Market and Financial Situation.—The reaction in the security markets noted at the close last week continued for several days. Possibilities of a stringent money market were given as the chief cause for this movement and when the Secretary of the United States Treasury stated that no such condition was probable, the sentiment of the Street changed and the markets have again become active and buoyant.

The conditions are now favorable for higher rates in the money market, stimulated by increasing activity in all departments of industry, and just now by needs for marketing the crops, but the probability of a stringency seems more remote than last week. This probability is reduced by the gold imports, which are slowly but steadily increasing, and by the larger supply of funds which came out in response to the higher rates already made.

For several years past, as is well known, the tendency of the foreign interest in American securities has been towards contraction. There are now evidences that the tide has turned, that this interest is beginning to broaden, and therefore the operations in the American Department of the London Stock Exchange are regarded with peculiar interest.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 5 per cent. To-day's rates on call were 3½ to 5 per cent. Prime commercial paper quoted at 4 to 5 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £101,243, and the percentage of reserve to liabilities was 49 31, against 49·10 last week; the discount rate remains unchanged at 2½ per cent. The Bank of France shows a decrease of 7,800,000 francs in gold and 4,400,000 francs in silver.

The New York City Clearing-House banks in their statement of Sept. 10 showed a decrease in the reserve held of $13,036,200 and a surplus over the required reserve of $7,076,775, against $14,091,050 the previous week.

Foreign Exchange.—There is no change to note in the conditions governing the market for foreign exchange. The supply of commercial bills is increasing, and with only a limited demand rates are fractionally lower.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 81¾@4 82; demand, 4 84@4 84¼; cables, 4 84½@4 84¾; prime commercial, sixty days, 4 81¼ @ 4 81½; documentary commercial, sixty days, 4 80¾@4 81¼; grain for payment, 4 81@4 81¼; cotton for payment, 4 80¾ @4 81¼; cotton for acceptance, 4 81¼@4 81½.

Posted rates of leading bankers follow:

Sept. 16.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 83 @4 83½	4 85@4 85¼
Prime commercial	4 81¼@4 81½	.....
Documentary commercial	4 80¾@4 81¼	.....
Paris bankers' (francs)	5 23¾@23 11-16	5 22½@2 13-16
Amsterdam (guilders) bankers	39 15-16@40	40⅜@40 3-16
Frankfort or Bremen (reichmarks) b'kers	94¼@94 5-16	94⅞@94 15-16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 75c. per $1,000 premium; Charleston buying 1-16 discount, selling 1-16 premium; New Orleans, bank, 50c. premium, commercial, $t 25 discount: Chicago, 35c. per $1,000 discount; St. Louis, 35c. per $1,000 discount.

United States Bonds.—Sales of Government bonds at the Board include $35,000 4s reg., 1925, at 127¼ to 127⅜; $1,000 4s coup., 1925, at 127¼; $23,500 4s coup., 1907 at 111½ to 112⅜; $1,000 4s reg., 1907 at 110½ and $1,003,160 3s (when issued), at 104¾ to 105½.

The following are the daily closing quotations; *for yearly range see seventh page following.*

*This is the price bid at the morning board; no sale was made.
† Dealings are in bonds "when issued" and represent transactions in the Unlisted Department of the Exchange.

State and Railroad Bonds.—Sales of State bonds at the Board include $33,000 Virginia fund. debt 2-3s of 1991 at 75⅞ to 76⅜; $50,000 Virginia 6s deferred trust receipts, stamped, at 7½ to 7¾, and $7,000 District of Columbia 3-65s at 116.

The market for railway bonds has been steady to firm on a volume of business averaging nearly $2,500,000 par value per day.

In a few cases the closing quotations to-day are fractionally lower than last week, but the decline is fully offset by advances in other issues. Prominent among the latter were Evansville & Terre Haute 5s, which moved up about 6 points on the announcement of a dividend on the pref. stock, Texas & Pacific seconds, which advanced 3½ points on large transactions, and Wabash debenture series B and New York Ontario & Western refund. 4s, which gained 2 points. Special activity is noted in the Atchison, Chesapeake & Ohio, Baltimore & Ohio (when issued), Erie, Kansas City Pitts. & Gulf, Missouri Kansas & Texas, Northern Pacific, Oregon Short Line, Reading, San Antonio & Aransas Pass, Texas & Pacific, Union Pacific, U. P. Denver & Gulf, Wabash and Wisconsin Central issues.

Stock and Bond Sales.—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Thursday	18,647	16,550	130,900	22,128	4,361	73,600
Friday	12,500	21,000	75,000	18,039	7,617	101,748
Total	100,891	81,074	418,100	99,462	35,514	861,028

Railroad and Miscellaneous Stocks.—The stock market was decidedly heavy during the early part of the week. Speculative sentiment was timid lest the money market should become stringent, lightly margined stocks were freely liquidated, and sales for short account accelerated the downward movement of prices. At the lower quotations that were made there was liberal buying for investment and stocks in considerable volume passed into strong hands. On Thursday there was a decided change and prices rapidly recovered, the movement carrying several prominent issues, including Baltimore & Ohio, Burlington & Quincy, St. Paul, Rock Island, North West., Missouri Pacific, Northern Pacific preferred, Union Pacific preferred, Southern Railway preferred and some of the local traction stocks from 2 to nearly 4 points above the lowest quotation of the week. Baltimore & Ohio was specially strong on progress with the reorganization plan and reports that parties prominent in the management of some Pacific roads will be interested in the future success of Baltimore & Ohio.

Fluctuations were even wider in the miscellaneous list, New York Air Brake, Consolidated Gas, Illinois Steel, Minnesota Iron, American Sugar and American Tobacco covering a range of from 6½ to nearly 13 points.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS	Latest Gross Earnings.			Jan. 1 to Latest Date.

York Southern	July	5,683	5,187	40,969	36,244

a These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Chic. Burlington & Northern in both years. e Includes results on A. T. & S. Fe, Gulf Col. & S. Fe, S. Fe Pacific (old Atlantic & Pacific) and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middlesborough & Aiken branches are included for both years. h Passenger earnings in 1897 were increased by G. A. R. Encampment in Buffalo.

* Results on Kansas City & Independence Air Line are not included for either year.

‖ Includes Chesapeake & Ohio Southwestern for both years, but Ohio Valley and Chicago and Texas for 1898 only. Results on Zazoo Branch excluded after July 1, 1898.

¶ Mexican currency.

†† Covers results of lines directly operated east of Pittsburg.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the first week of September our preliminary statement covers 67 roads, and shows 6·15 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of August 27, 1898. The next will appear in the issue of September 24, 1898.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings or the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of August 27, 1898. The next will appear in the issue of September 24, 1898.

Northern Pacific Railway.

(Report for the year ending June 30, 1898.)

The report of Mr. Charles S. Mellen, President, covering the operations of the company for the first *full year* of its corporate existence, will be found on pages 585 to 590 of to-day's CHRONICLE, together with the income account for the same period and the balance sheet of June 30, 1898.

Statistics of operations, earnings, etc, for the year are as follows:

OPERATIONS, ETC.	
Miles operated June 30, 1898	4,350
Equipment—	
Locomotives	542
Passenger cars	439
Freight cars	18,477
Miscellaneous cars	2,220
Operations—	
Passengers carried	1,583,632
Pass. carried 1 mile	209,614,677
Rate per pas. per mile	2·22 cts.
Freight (tons) carried	4,951,183
Freight (tons) carried 1 mile*	11,618,170
Rate per ton per mile	1·065 cts.

EARNINGS AND EXPENSES.	
Earnings—	
Freight	$17,432,755
Passenger	4,853,799
Mail, express, etc	1,393,164
Total	$23,679,718
Expenses—	
Maint. of way, etc.	3,137,500
Maint. of equip.	1,721,767
Conducting transp.	5,572,641
General expenses	663,450
Total	$11,095,370
Net earnings	$12,584,348
P. c. of exp. to earns.	46·9

*Not including company's freight. 1000's omitted.
—V. 67, p. 527.

Atchison Topeka & Santa Fe Railway.

(Report for the year ending June 30, 1898.)

The third report of this company, covering its operations for the year ending June 30, 1898, with the company's income account and balance sheet in detail, together with other tables, will be published in next week's CHRONICLE. Below we give a comparative statement for three years, the figures of operations in 1895-6 including the six months prior to the reorganization, for the purpose of comparison.

OPERATIONS, EARNINGS, ETC.

	1897-98.	1896-97.	1895-96.
Miles operated June 30	6,946	6,479	6,435

—V, 67, p. 523.

Reading Company.

(For year ending June 30, 1898.)

Results for two years have been as follows:

	1897-8.	1896-7.
Railway Company—		
Receipts	$21,984,834	$20,616,264
Expenses (including renewals, etc.)	12,486,028	11,717,460
Net earnings	$9,600,806	$8,898,804
Coal and Iron Company—		
Receipts	$22,909,553	$21,427,080
Expenses	22,433,315	21,331,713
Net earnings	$476,238	$95,367
Reading Company—		
Net income	343,320	348,753
Net earnings all companies	$10,420,364	$9,342,924
Fixed charges and taxes	9,183,280	
Surplus	$1,237,084	
Deficit 7 mos. Dec. 1, 1898, to June 30, 1897	1,313,917	
Net deficit for 19 months	$76,833	

The new company began operations Dec. 1, 1896, and the early months of the year being the poor ones, the results for the nineteen months embraced in the above figures include fourteen poor months and only five good months.—V. 66, p. 289.

New York New Haven & Hartford Railroad.

(Report for the year ending June 30, 1898.)

In advance of the pamphlet report, the following is published:

EARNINGS, EXPENSES AND CHARGES.

	1897-8.	1896-7.	1895-6
	$	$	$
Gross earnings	30,322,737	29,623,331	30,345,630
Expenses	20,891,685	20,013,256	21,137,226
Net earnings	9,431,052	9,580,074	9,208,403
Other income	601,067	614,070	855,685
Total	10,032,119	10,194,145	10,064,089
Charges	6,112,481	6,315,901	6,397,197
Balance	3,919,638	3,878,242	3,666,892
Dividend (estimated)	3,803,514	3,803,514	3,608,542
Surplus	110,124	74,728	58,350

—V. 67, p. 29.

Erie Railroad Company.

(Report for the year ending June 30, 1898.)

The report for the fiscal year ending June 30, 1898, the second report covering the operations of an entire year, issued by the new company, will be published next week. In the meantime the following is a statement of the earnings, expenses, etc., for the year, covering the entire system (excepting the New Jersey & New York RR. and the coal companies), including the Union Steamboat Line, Union Dry Dock, dining cars and restaurants. For the purpose of comparison the figures for the twelve months ending June 30, 1895, are also given below. This period consists of seven months' operation by this company, as shown in its first annual report, and five months' operation by the receivers of the New York Lake Erie & Western Railroad Company.

OPERATIONS AND EQUIPMENT.

	1897-8.	1896-7.	1895-96.
Miles operated	2,271	2,124	2,098
Equipment—			
Locomotives	979	997	998
Passenger equipment	908	904	900
Freight equipment	43,862	41,954	41,531
Comp'y cars, snowplows, &c.	618	582	540
Operations—			
Passengers carried	15,001,653	14,763,343	15,333,568
Passengers carried 1 mile	383,390,464	370,028,876	385,074,051
Rate per passenger per mile	1·554 cts.	1·552 cts.	1·571 cts.
Freight, tons, carried	23,643,425	20,122,086	21,785,922
Freight (tons) carr'd 1 mile	4,556,349,307	3,949,679,175	4,009,162,138
Rate per ton per mile	0·558 cts.	0·596 cts.	0·584 cts.

EARNINGS AND EXPENSES.

	1897-98.	1896-97.	1895-96.
Earnings from—	$	$	$
Freight	18,081,023	16,609,449	16,766,499
Coal	7,359,881	6,867,135	6,660,447
Passenger	5,957,704	5,742,807	6,049,754
Mail	486,352	464,980	397,059
Express	586,221	574,180	572,214
Rents	119,048	132,478	211,991
Miscellaneous	1,149,732	1,100,002	987,493
Gross earnings	33,740,861	31,497,031	31,645,487
Expenses—			
Maint'ance of way and structures	3,383,499	3,089,609	3,314,922
Maintenance of equipment	5,357,611	4,387,393	4,476,120

*Three ciphers (000) omitted.—V. 67, p. 525, 529, 531.

New York Central & Hudson River RR.

(For the year ending June 30, 1898.)

On pages 591 to 594 will be found this company's report in much detail. The comparative tables were published last week on page 527.

Metropolitan Street Railway, New York City.

(Report for the year ending June 30, 1898.)

This company, which for several years had been the operating company of the Metropolitan Traction System, in October, 1897, took over all the property of the Metropolitan Traction Co., the Traction Co. stockholders then exchanging stock and becoming the stockholders of the Street Railway Company. Through this transaction, also, the Street Railway became the owner of various securities, the income from which is not included in the statement below. On the other hand the Street Railway issued to the Traction stockholders $6,000,000 of debenture certificates that were to draw interest after October 15, 1898, but will be exchanged for an equal amount of the $15,000,000 increase of stock authorized in August last, of which $4,000,000 is to be used in changing the motive power on the lines not already electrically converted, the remaining $5,000,000 to be held, for the present at least, in the treasury. The remaining increase in the funded debt shown in the balance sheet of June 30, 1898, is due to the $12,500,000 general mortgage and collateral trust 5 per cent gold bonds issued in July, 1897.

Results for the late fiscal year compare as follows:

EARNINGS, EXPENSES AND CHARGES.

	1897-8.	1896-7.
Gross earnings	$9,938,505	$8,884,803
Operating expenses	5,300,436	4,810,235

GENERAL INVESTMENT NEWS.

Reorganizations, Etc.—*Defaults, Reorganization Plans, Etc.*—The usual index is omitted this week, but that covering the items published to Sept. 3, inclusive, will be found in last week's issue.

American Telephone & Telegraph—American Bell Telephone.—*Stock Increased.*—A certificate has been filed at Albany of the increase of the capital stock of the American Telephone & Telegraph Co. from $20,000,000 to $25,000,000.—V. 67, p. 426, 481.

Atchison Colorado & Pacific RR.—Atchison Jewell County & Western RR.—*Payments on Account of Bonds.*—Holders of the first mortgage bonds and coupons of the above companies are notified to present the same to Hiram P. Dillon, Special Master, on or before Saturday, September 24, 1898, for payment of the proportionate amounts due thereon out of the proceeds of sale. Those failing to present the same at his office in Topeka, Kan., will not be entitled to any interest in the proceeds after that date.—V. 66, p. 1043, 1139.

Baltimore & Ohio RR.—*J. J. Hill Interest in New Company.*—The reorganized Baltimore & Ohio is to have the benefit of the experience and advice of Mr. James J. Hill, President of the Great Northern, and it is said that the modern methods which have been so successfully applied in the case of the Great Northern, will be carried into effect as far as possible in the operation of the new Baltimore & Ohio. Mr. Hill has personally acquired an interest in the syndicate holding of the new preferred stock. This interest is, however, comparatively small and not at all in the nature of a controlling one, but simply as a personal investment.

Freight Lines Already Consolidated.—Mr. J. H. Maddy, the Press Agent of the Baltimore & Ohio, sends out the following statement:

"A great many rumors are afloat that the Baltimore & Ohio Railroad intends consolidating its fast freight lines, in accordance with the plan recently adopted by another line. It does not seem to be a very generally known fact that the

Baltimore & Ohio Railroad did its fast freight consolidsting over a year ago. There are two fast freight lines operating over the B. & O., one being the Continental and the other the Central States Dispatch. Those lines have a joint manager in the person of T. H Noonan, whose headquarters are in Cincinnati, and there is nothing more to consolidate."

New Securities admitted to Unlisted Department of New York Stock Exchange.—The new securities to be issued under the reorganization plan were, on September 15, when and as issued, admitted to dealings in the unlisted department of the New York Stock Exchange.

Coupon Payments.—The receivers of the B. & O. on September 1 paid the interest then due, amounting to $56,250, on the $2,500,000 Central Ohio bonds.—V. 67, p. 481.

Baltimore & Ohio Southwestern.—*Financial Plan.*—A financial plan has been matured for submission to the foreign interests, the object of which will be to provide new capital for the improvement of the property with a view to the more successful operation of the road as part of the new Baltimore & Ohio system.—V. 66, p. 80.

Brooklyn Elevated RR.—*Quarterly.*—Earnings for the quarter and the 12 months ending June 30 have been :

3 months ending June 30.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, deficit.
1898	$368,002	$104,278	$201,489	$97,211
1897	431,710	163,862	229,816	65,951
12 months—				
1897-8	$1,626,423	$550,365	$941,989	$291,624
1896-7	1,669,581	634,411	891,780	260,369

—V. 67, p. 426.

Chicago & Atchison Bridge—Atchison & Eastern Bridge.—Holders of the receipts of the Central Trust Co. of New York or the Citizens' Savings & Loan Association of Cleveland for deposited bonds of the Chicago & Atchison Bridge are notified that upon presentation of said receipts at the office of either of said depositaries, new securities of the Atchison & Eastern Bridge Co. will be delivered, in accordance with the reorganization plan in the CHRONICLE of August 28, 1897.—V. 65, p. 1336.

Colorado Midland Ry.—*Additional 4 Per Cent Bonds Listed.*—On the New York Stock Exchange have been listed $150,000 additional bonds of the $3,750,000 authorized, bearing full 4 per cent interest, making the total amount listed to date, $1,011,000. The bonds were issued in accordance with the reorganization plan on account of $170,000 equipment bonds redeemed during the current year. This series, as well as the $6,250,000 2-3-4 per cent bonds, all issued and listed, was fully described in V. 66, p. 856.—V. 67, p. 125.

Consolidated Gas Co. of New York—*Additional Stock Listed.*—The New York Stock Exchange has listed $1,000,000 additional capital stock, making total amount listed, $37,730,000. The application states that the proceeds are to be used for the purpose of extensions, improvements and the general purposes of the company.—V. 66, p. 953.

Cumberland & Ohio—Louisville & Nashville.—*Payment of Mortgage.*—The Louisville & Nashville has paid off the $300,000 seven per cent first mortgage on the Southern Division of the Cumberland & Ohio RR which matured September 1, 1898. The mortgage was issued at the time of the construction of the road, extending from Cumberland & Ohio Junction to Greensburg, Ky., 30 9 miles, the principal and interest being guaranteed by the L. & N.—V. 66, p. 616; V. 67, p. 316.

Denver & Rio Grande Ry.—*First Consolidated 4 Per Cent Bonds Listed.*—The New York Stock Exchange has authorized the listing of $4,076,000 of the first mortgage consolidated 4½ per cent bonds issued to refund a like amount of the Denver & Rio Grande first mortgage seven per cent bonds, due November 1, 1900, with power to add to the list from time to time to an aggregate amount of $6,382,000 when issued in exchange for the remaining seven per cent bonds outstanding. The arrangement for the refunding of these bonds was made with Kuhn, Loeb & Co. and Speyer & Co., in January last, and the terms of exchange were given in the CHRONICLE of July 23, on page 176. The total authorized amount of the consolidated issue under the mortgage of 1886 is $12,000,000, of which $28,650,000, bearing 4 per cent interest, have long been issued, and the remaining bonds, about $6,900,000, are reserved "for the acquisition of the former Denver & Rio Grande Railway, or for extending the road to Ogden."—V. 67, p. 422, 429.

Evansville & Terre Haute.—*Dividend on Preferred.*—A dividend of four per cent upon the preferred stock has been declared from the surplus earnings of the year ending June 30, 1898, one-half being payable on October 15, 1898, and one-half on April 15, 1899. The first dividend on the preferred stock, 1 per cent, was paid on October 15, 1896, and 1 per cent was also paid on April 15, 1897, but none since.—V. 67, p. 75.

Galveston & Gulf Shore.—*Sold.*—The franchises, right of way, etc., were on September 6 last sold by United States Deputy Marshall Donogh, under an execution in favor of Frank Adams, receiver of the Denver National Bank, to Judge R. M. Cash, for $35. The railroad, which was a Denver enterprise, capitalized at $100,000, was organized eight years ago to form a means of quick transit between Galveston and a town site started at South Galveston, about twelve miles distant. Neither project, however, was carried through to a successful issue, although considerable money was spent in furtherance of the same.

General Electric.—*Listing of New Common Stock on New York Stock Exchange.*—The certificates for the new common stock for $18,276,000 were listed this week on the New York Stock Exchange and the old common and preferred were stricken off. Dealings in the latter will hereafter be in the unlisted department. The new certificates have the following on the back :

"The shares within mentioned are shares of the reduced capital stock of the General Electric Company as set forth in the certificate of reduction filed in the office of the Secretary of State of New York, August 17, 1898. The assignment or transfer of any of the within-mentioned shares includes all right, title and interest of the holder hereof in respect of the original shares represented by the same."

Notice to Stockholders.—Under date of Sept. 8 the following notice was sent to stockholders :

Pursuant to the notice given by the directors of the General Electric Company, under date of July 11, 1898, a special meeting of the stockholders of the company was held for the purpose of voting upon a proposition to reduce the capital stock of the company, and at such meeting the following resolution was duly adopted by vote of the holders of 213,141 shares in favor of the resolution and 9,800 shares opposed, viz.:

Resolved, That the capital stock of the General Electric Company be reduced from the present amount to $20,827,200, which shall consist of 182,760 shares of common stock of the par value of $100 each and 25,512 shares of preferred stock of the par value of $100 each, the new existing common and preferred stock, and the number of shares of each holder being respectively reduced to three-fifths of the p esent amounts.

The certificate of reduction prescribed by law was filed in the office of the Secretary of State on August 17, 1898, and in the office of the clerk of the county of Schenectady on August 18, 1898, and by such action the capital stock of the company has been reduced as set forth in the resolution above referred to.

As the present outstanding certificates of stock in the company no longer represent the number of shares therein stated, but represent only three-fifths of such number of shares, such certificates should be promptly surrendered to the company in exchange for new certificates for the reduced number of shares. Such new certificates will be ready for issue on the 12th day of September, 1898, when the transfer books will reopen. Upon presentation and surrender of the old certificates at the office of the transfer agents of the company, the Farmers' Loan & Trust Company, No. 16 William Street, New York, being the transfer agent for New York stock, and the American Loan & Trust Company, No. 4 Exchange Building, Boston, Mass., being the transfer agent for Boston stock, new certificates will be issued for the reduced number of shares represented by the certificates surrendered. Convertible certificates will be issued for fractional amounts. Transferees of the present certificates upon surrender thereof will receive new certificates for the reduced number of shares represented thereby.

The company will make application to list the new stock certificates upon the New York and Boston Stock Exchanges in place of the present outstanding certificates.

A prompt exchange of the present outstanding certificates for the new certificates is requested.—V. 67, p. 370.

Illinois Central RR.—Canton Aberdeen & Nashville RR.—*Incorporated.*—The application for a charter for the Canton Aberdeen & Nashville RR. has been granted by the Secretary of State of Alabama, and the new road has been incorporated. Sixty miles, it is said, have been surveyed and will be constructed at once, and it is the intention later to extend the road northeastward to Decatur, Ala., and Nashville, Tenn.

The report of the Illinois Central for the last fiscal year will be found in much detail in this week's CHRONICLE, under "Annual Reports."—V. 67, p. 371, 320.

Indiana Illinois & Iowa RR.—*Redemption of Bonds.*—At a meeting held at Chicago on September 15, the stockholders voted to consolidate with the Indiana Illinois & Iowa RR. of Indiana, and also to authorize a new mortgage to secure $3,000,000 50 year gold bonds, which will retire all the present outstanding indebtedness of the company. The company has given the necessary 30 days' notice of its intention to redeem at par and accrued interest on October 1, at the Metropolitan Trust Co., its first mortgage 4 per cent bonds of 1939 and its first and second mortgage incomes. Of the new bonds, it is stated, $2,500,000 will cover the consolidated system, and $500,000 are to be used for extensions and betterments. It is proposed to extend the line from its present western terminus at Streator, Ill., to Keithsburg, on the Mississippi River.—V. 67, p. 274.

Kansas City Suburban Belt.—*Result for Fiscal Year.*—We are informed that the annual report for the year ending June 30, 1898, shortly to be issued, will show the interest earned above operating expenses, 1½ per cent dividend paid on stock and about $41,000 surplus, most of which was spent for betterments in preparing the property for use of other roads. The statement for the month of July shows a slight deficit below charges, owing to the fact that business on all the roads using the terminals was very light that month. August, it is stated, will make a very different showing.—V. 67, p. 125.

Minnesota Iron—Illinois Steel—Elgin Joliet & Eastern RR.—Federal Steel.—*Terms of Consolidation.*—Official announcement was made on the 10th inst. of the terms for an exchange of shares of the above-named companies for shares of the Federal Steel Co. as follows :

Each share of Minnesota Iron Co., upon payment of $27 10 in cash, is entitled to 1·355-1,000 shares in preferred stock of Federal Steel Co. and 1·84-1,000 shares in common stock of that company.

Each share of Illinois Steel Co., upon payment of $20 in cash, is entitled to one share in preferred stock and 8-10 of a share in common stock of Federal Steel Co.

Each share of Elgin Joliet & Eastern Railway Co., upon payment of $17 50 cash, is entitled to ⅞ of a share in preferred stock and 7 10 of a share in common stock of Federal Steel Co.

Shares of the several companies, to insure participation in this arrangement, must be deposited with the Colonial Trust Company of New York or Old Colony Trust Company of Boston not later than Oct. 1, and the cash payments must be made to the Trust Company not later than Oct. 10. Transferable receipts will be issued for deposited shares, and the cash payment, when made, will be noted on such receipt.

The consummation of the proposed arrangement is dependent upon its acceptance by holders of at least two thirds in amount of the shares of each of the three constituent companies. If, for any reason, the arrangement shall not be carried out, the deposited shares and the cash payments will be returned upon surrender of the receipts.

The shares of the Federal Steel Co. are of the par value of $100 each. Suitable cash settlements will be made at time of delivery of the new stock in respect to fractions of shares of such stock accruing to any depositor.

Rights of Stock.—The preferred stock shall be entitled, out of any and all surplus net profits, whenever declared by the board of directors, to non-cumulative dividends at the rate of, but not exceeding, 6 per cent per annum for the fiscal year beginning on the first day of January, 1899, and for each and every fiscal year thereafter, payable in preference and priority to any payment of any dividend on the common stock for such fiscal year. In addition thereto, in the event of the dissolution of the corporation the holders of the preferred stock shall be entitled to receive the par value of their preferred shares out of the surplus funds of the corporation before anything shall be paid therefrom to the holders of the common stock.

The common stock shall be subject to the prior rights of the holders of the preferred stock, as herein declared. If, after providing for the payment of full dividends for any fiscal year on the preferred stock, there shall remain any surplus net profits for such year, any and all such surplus net profits for such year, and of any other fiscal year for which full dividends shall have been paid on the preferred stock, shall be applicable to dividends upon the common stock, when and as from time to time the same shall be declared by the board of directors, and out of any such surplus net profits after the close of any fiscal year, the board of directors may pay dividends upon the common stock of the corporation for such fiscal year, but not until after the dividends upon the preferred stock for such fiscal year shall be actually paid or provided and set apart.—V. 67, p. 530.

New York Ontario & Western Ry.—*Proposed Refunding of First Mortgage Fives.*—The New York Ontario & Western has sold to Kuhn, Loeb & Co. a sufficient amount of its refunding mortgage 4 per cent bonds to pay off the $5,600,000 first mortgage 5s, which, under the terms of that mortgage, may be called June 1, 1899, at 105. By this operation the company will effect an annual interest saving of about $40,000 and the refunding bonds running until 1992 become an absolute first mortgage. These bonds cover all the property of the company, including equipment. The last car trust payment will be made in February, 1899, and there is now outstanding only $17,500.—V. 67, p. 477, 435.

Northern Pacific.—*Reasons for Dividend Fund.*—We are permitted to make the following extracts from a letter written by one of the directors of the Northern Pacific Company explaining the motives that influenced the management in creating the $3,000,000 reserve fund to ensure the continuity of dividends on the preferred stock. The letter was in reply to a suggestion that the money should have been used in paying dividends on the common shares.

Those most interested in the welfare of the Northern Pacific and who are disposed to proceed with proper prudence have been carefully considering the propriety of some dividend on the common stock at some suitable date in the present fiscal year after providing for the requisite dividend on the preferred stock.

The Northern Pacific is now enjoying great prosperity—so much greater than at any time in the past that we are constrained by prudence to treat it as somewhat exceptional. We have, therefore, had to consider the possibility that if, during this era of prosperity, we were to pay a dividend on the common stock and this era were to be followed by one of adversity, we should have to discontinue dividends not only on the common stock (which would be quite justifiable and reasonable), but might also have to discontinue or reduce preferred stock dividends. This latter result would of course cause much adverse comment and distress. Would not the public feel that we should not have paid on the common stock so long as there was any reasonable doubt about the continuance of dividends on the preferred stock? Therefore it would seem desirable (and this reason which I give you is only one out of many leading to the same conclusion) to adopt such means as may be in our power to insure the continuance of the dividends on the preferred as a step precedent to the consideration of any question of dividends on the common stock. The alternative would be to postpone dividends on the common until their continuance should seem certain, but such a course would seem like subjecting the common stock to unnecessary hardship.

The plan adopted with reference to the three million dollar fund seems to me a happy one. If (as I hope may prove to be the case) it shall not be needed for the purpose of the continuity of dividends on the preferred stock, then after the year 1901 it will again become available for the purposes of the company. On the one hand the preferred does not in any event get more than it is entitled to, while on the other hand the credit of the company and the position of the common stock both seem to be materially strengthened.

It is not to be understood from the foregoing that the Board are committed to an early declaration of dividends on the common stock. The point I wish to make is, that what has been done about the three million dollar fund was necessary as a step preliminary to the consideration of the subject of dividends on the common stock. The subject has not yet been considered by the Board, but the preliminary step has been taken, and the subject now is open to consideration when and if the Board should think proper.—V. 67, p. 527.

Panama Railroad.—*Bonds Called.*—Six per cent sinking fund subsidy bonds, due November 1, 1910, to the amount of $121,000, have been drawn for payment and will be redeemed at par on presentation at the office of the Company on November 1, 1898. The numbers will be found in our advertising columns.—V. 66, p. 1016.

Philadelphia & Reading Coal & Iron—Reading Company.—*Bonds Called.*—Twenty bonds of $1,000 each of the $432,000 loan of January 30, 1883, secured by mortgage of the Little Schuylkill Navigation Railroad & Coal Co., dated August 1, 1838, have been drawn, and will be paid at the office of the Fidelity Insurance, Trust & Safe Deposit Co. of Philadelphia, Trustee, on October 1, 1893.—V. 64, p. 1043; V. 63, p. 289.

Rio Grande Western RR.—*Preferred Stock Listed.*—The $200,000 preferred stock required to pay the 2 per cent dividend on the common stock recently declared payable September 30, 1898, has been listed on the New York Stock Exchange, to take effect on that date. The total amount then listed will be $6,700,000.—V. 67, p. 424, 435.

Seaboard & Roanoke.—*Status of Litigation.*—Much has been said in the newspapers about the recent decision of Judge Simonton in the United States Circuit Court at Richmond, Va., in the action of Thomas F. Ryan, a stockholder of the Seaboard & Roanoke, against that company and others, the main cause of complaint being an alleged pooling agreement which is the chief factor in making possible the control of the subordinate companies constituting the system of the Seaboard Air Line. As a matter of fact, however, no decision was rendered on the merits, but the complainant is merely given leave to make the signers of the pooling agreement or their representatives additional defendants in the suit and the proceedings in the Virginia Circuit, in which Judge Simonton acts, are stayed until a decision is arrived at in an action now pending in the Maryland Circuit said to involve the same question.—V. 67, p. 273.

St. Louis Kansas & Southwestern—*Sale.*—Hiram P. Dillon, Master Commissioner, gives notice that this road will be sold at public auction at Caldwell, Kan., at noon on October 22, under the decree of sale made Sept. 23, 1897. The upset price is $150,000. The line extends from Arkansas City, Kan., to Anthony, 59 miles.—V. 66, p. 811.

Terre Haute Electric Ry.—*87 Per Cent of Bonds of 1893 Deposited—Further Deposits till Oct. 1.*—The first mortgage bondholders' committee gives notice that, more than 87 per cent of the bonds having been deposited, the limit of time for receiving further deposits is extended to October 1, after which date bonds will only be received subject to such penalty as the committee may impose.—V. 67, p. 484.

Union Pacific Denver & Gulf RR.—*Foreclosure Decree Entered.*—The action brought by the American Loan & Trust Company against the Union Pacific Denver & Gulf Railway Company for the foreclosure of its consolidated mortgage, and the two actions brought by the Mercantile Trust Company against the Union Pacific Denver & Gulf Railway Company for the foreclosure of the first mortgage of the Denver Texas & Gulf RR. Co. and the first mortgage of the Denver Texas & Fort Worth Railroad Company, have been consolidated, and a decree has been entered at Denver by Judge Hallett foreclosing the three mortgages and directing a sale of the entire Union Pacific Denver & Gulf Railroad system. The sale will take place at Pueblo, Colorado, probably during November, and it is expected that the reorganized company will begin the operation of the road about January first next.

The plan of reorganization, it is stated, will be ready about October first.—V. 67, p. 435.

Wabash Railroad.—*Extensions Voted.*—At the annual meeting held September 13 the stockholders voted in favor of the extensions from East Hannibal, Ill., to Quincy, 15 miles, and Moulton, Ia., north to Albia, about 27 miles, referred to in the CHRONICLE of July 23 last, on page 170.—V. 67, p. 526, 538.

Western Union Telegraph—*Quarterly.*—Earnings (partly estimated) for the quarter ending Sept. 30 have been reported:

3 months ending Sept. 30.	*Net revenue.*	*Interest charges.*	*Dividends paid.*	*Balance, surplus.*
1898 (estimated).....	$1,550,000	$224,500	$1,216,990	$108,510
1897 (actual).....	1,703,851	224,418	1,216,972	262,461

Total surplus June 30, 1898 (estimated), $8,071,745. The regular 1¼ per cent dividend is payable October 15, 1898.—V. 66, p. 1239.

Wheeling & Lake Erie.—*Third Instalment Called.*—The reorganization committee gives notice that it has called the third instalment of $2 per share of common stock and $3 per share of preferred stock, payable at the Central Trust Co. on or before September 29. This is the third instalment called by the committee, and, including the $1 per share paid to the stockholders' committee, is the fourth payment.—V. 67, p. 540.

—Messrs. F. J. Lisman & Co., 30 Broad Street, have this week issued their quarterly quotation sheet of unlisted and inactive railroad bonds, covering over 750 issues of these and also a number of bridge and coal companies' securities. The list can be had on application.

—Messrs. Rudolph Kleybolte & Co. offer for sale at a price to yield five per cent the balance of the city of Tampa, Fla., gold bonds owned by them. Their advertisement on page vii. gives principal details regarding the issue, and a special circular will be furnished on application at their offices, 1 Nassau St., New York.

—Burdett's Official Intelligence for 1898 completes the seventeeth year of this splendid statistical work. The current volume contains 170 more pages than its predecessor and nearly 1,000 new companies. Though colossal in proportions, the volume containing over 2,500 pages, the matter is so classified and indexed that one can readily find the desired information regarding any of the thousands of corporations embraced in the work. The attempt is made to cover all classes of securities wherever issued in which there is an interest in the London market. The Official Intelligence is published by Spottiswoode & Co., 54 Gracechurch Street, London.

Reports and Documents.

ILLINOIS CENTRAL RAILROAD COMPANY.

FORTY-EIGHTH ANNUAL REPORT OF THE DIRECTORS TO THE STOCKHOLDERS, FOR THE YEAR ENDED JUNE 30, 1898.

As shown in the last Annual Report, the Illinois Central Railroad Company had, throughout the fiscal year ended June 30, 1897, operated 3,130 miles of railroad.

During the year ended June 30, 1898, there were added:

On July 1, 1897, the Hodgenville & Elizabethtown Railway	11 miles
On July 1, 1897, the Troy & Tiptonville Railroad	5 miles
On July 1, 1897, the Louisville Division—exclusive of Ohio Valley Railway	440 miles
On August 1, 1897, the Ohio Valley Railway	129 miles
Total Louisville Division	574 miles
On October 1, 1897, the Chicago & Texas Railroad	75 miles
On November 1, 1897, the Stacyville Railroad	8 miles
Total	678 miles

Exclusive of the 807 miles of railroad owned and operated by the Yazoo & Mississippi Valley Railroad Company, the average number of miles of railroad operated by the Illinois Central Railroad Company during the year has been 3,775, an increase of 645 miles, or 20·61 per cent over the number which had been operated throughout the year preceding.

The following is a summary of the Company's business for the year ended June 30, 1898:

Gross Receipts from Traffic		$27,317,819 07
Expenses of Operation	$17,363,057 11	
Taxes	1,292,413 19	18,655,470 30
Income from Traffic, being the excess of Receipts over Expenses of Operation and Taxes		$8,662,349 37
Net Receipts from Sale of Lands		59,305 53
Income from Investments, including those held in the Surplus Dividend Fund, and Miscellaneous Profits		2,177,063 81
Excess of Income over Operation Expenses and Taxes		$10,898,718 71
Surplus Dividend Fund brought forward June 30, 1897, as shown in last Report		924,461 93
Available for Fixed Charges and Dividends		$11,823,180 61

From this there have been paid:

Interest on Funded Debt and Bonds drawn under Sinking Fund	$3,073,515 00	
Rent of the Chicago St. Louis & New Orleans RR	$2,139,659 89	
Net Rent of the Dubuque & Sioux City RR	793,452 79	
Rent of the St. Louis Division	533,405 05	3,466,518 73
Total Fixed Charges and Rent		6,540,033 73
Leaving Available		$5,313,116 91

This has been disposed of as follows:

Dividends payable March 1 and September 1, 1898, 5 per cent on $52,500,000	$2,625,000 00
Insurance Fund and Betterments, as more fully explained below	1,726,451 73
Carried forward to Surplus Dividend Fund as of June 30, 1898, and set apart as applicable to future Dividends	961,665 18
	$5,313,116 91

The sum taken from the year's Earnings has been used for the following purposes:

There have been added to the Insurance Fund	$501,451 73
There have been paid out for Betterments commonly charged to Capital, including therein an allowance of $132,000 for additional Automatic Couplers and Air Brakes applied during the past six months	829,000 00
There have been set apart as a Fund to provide during the next eighteen months (July 1, 1898, to December 31, 1899), for the entire cost, on the basis of contracts already made, of all the Automatic Couplers and Air Brakes required by law in respect to the Company's equipment, and of attaching them to the cars	396,000 00
	$1,726,451 73

As compared with the preceding year:

Gross Receipts from Traffic have increased	$5,506,832 63 or	23·35 per cent
Expenses of Operation have increased	2,679,113 43 "	18·25 "
Taxes have increased	240,472 48 "	22·86 "
Income from Traffic in excess of Expenses of Operation and Taxes has increased	2,287,298 72 "	35·88 "
Net Receipts from Lands have increased	5,865 44 "	10·97 "
Income from Investments and Miscellaneous Profits, including Income from Investments of Surplus Dividend Fund, have increased	63,307 56 "	3·14 "
Total Income in excess of Expenses of Operation and Taxes has increased	2,349,469 72 "	27·63 "
The sum available for Fixed Charges and Dividends has increased	2,383,020 69 "	24·98 "
Total Fixed Charges and Rent have increased	749,365 71 "	13·01 "
The sum available for Dividends has increased	1,613,651 98 "	43·62 "
The sum appropriated from Earnings for various purposes has increased	1,576,451 73 "	1050·07 "
Surplus Dividend Fund has been augmented by	37,203 25 "	4·02 "

CHARGES TO CAPITAL.

As shown in greater detail in the accompanying tables, the outlay on Capital Account has been as follows:

Illinois Central Railroad		$1,908,889 59	
Chicago & Springfield Railroad		76,438 15	
Kankakee & Southwestern Railroad		1,717 39	
South Chicago Railroad		209 52	
Chicago Havana & Western Railroad		3,450 60	
Chicago Madison & Northern Railroad		55,826 09	
St. Louis Division (St. Louis Alton & Terre Haute Railroad)		11,906 07	
Chicago & Texas Railroad		201,569 33	
Mound City Railway		37 81	
Canton Aberdeen & Nashville Railroad		30,567 18	
Chicago St. Louis & New Orleans Railroad:			
Main Line	$209,606 98		
Memphis Division	63,917 17		
Louisville Division	270,703 99	543,228 14	$2,833,339 87

Of which there was defrayed:

From the Louisville Division Fund		$270,703 99	
From the Fund for Betterments set apart from the Earnings of the year ended June 30, 1897	$150,000 00		
And from the Earnings of the year ended June 30, 1898, as shown above	829,000 00	979,000 00	1,249,703 99
Leaving charged to Capital			$1,583,635 88

INSURANCE AND SINKING FUNDS.

The large additions made to the property, especially to the equipment and buildings subject to fire risks, induced the Directors to increase the monthly charge against Operation Expenses for credit of the Insurance Fund, from $7,000 a month to $7,500, beginning with the month of February, 1898.

The Insurance Fund after the payment therefrom of all losses by fire was augmented during the year by $80,021 55 to	$198,548 27
As stated above, there was taken from the Earnings of the year and added to Insurance Fund	501,451 73
Thus making this Fund amount to	$1,000,000 00

The Trustees of the Cairo Bridge Fund hold $350,654 70, invested in securities authorized by the Mortgage, being $42,871 68 more than they held at this time last year.

The Trustees of the Western Lines Sinking Fund hold $149,306 90, invested in securities authorized by the Mortgage, being $50,830 52 more than they held at this time last year.

TAXES.

The original Charter of the Company reserved to the State of Illinois, in lieu of taxes, seven per cent of the gross receipts of the 706 miles of railroad built thereunder. The sum so paid the State has this year been $658,723, which, if capitalized at 3½ per cent, would give $18,820,657 as representing the proprietary interest of the State of Illinois in the Illinois Central Railroad.

The other portions of the railroad, both in Illinois and elsewhere, are taxed in accordance with the laws of the several States. The taxes paid in respect to them have this year amounted to $633,690 19, as against $448,348 89 in the year preceding, the increase being $185,341 30, or 41 34-100 per cent.

While it is true that the average number of miles of railroad operated, exclusive of the 706 miles specially taxed as above, has this year been 3,069, as against 2,424 in the year preceding, this increase of 645 miles amounts to only 26 61-100 per cent.

SURRENDER OF LEASE OF YAZOO BRANCH

The Yazoo & Mississippi Valley RR. Co. having undertaken and nearly completed the building of a railroad from Philipp to Greenwood, in Mississippi, there connecting with the railroad originally built by that Company, and subsequently leased to the Illinois Central, that lease was, by agreement, canceled, and the property returned to the Yazoo & Mississippi Valley RR. Co. on June 30, 1898. The railway thus surrendered has been known as the Yazoo Branch, and consists of 140 miles, extending from Jackson to Parsons, and from Tchula to Durant, all in the State of Mississippi.

The mileage operated by the Illinois Central RR. Co. from and after July 1, 1898, will thereby be decreased by 140 miles.

The equipment heretofore leased with the Yazoo Branch, consisting of 7 locomotives, 9 passenger cars and 832 freight cars, has been purchased from the Yazoo & Mississippi Valley RR. Co. for $111,540.

The Illinois Central Railroad Company retains the ownership of $2,500,000 of bonds of the Yazoo & Mississippi Valley RR. Co., secured by first mortgage on the Yazoo Branch, but as shown in Abstract "D" this asset, valued at $2,324,538 18, now appears among Bonds Owned, under the heading of Bonds Pledged.

While the surplus regularly earned by the Yazoo & Mississippi Valley RR. Co. for years past, over all its absolutely fixed charges, insures the continued payment of the interest on these bonds, it is to be expected that the earnings of the Yazoo Branch, considered by itself, will, when connected as above outlined, be sufficient to fully meet such interest.

ST. LOUIS DIVISION.

The Gross Receipts of the railways subjected to the lien of the Mortgage securing St. Louis Division Bonds were		$1,454,563 04
The Expenses of Operation and Taxes		906,424 06
And the Excess of Receipts over Operation Expenses and Taxes		$548,138 98
The rent of those railways, the interest on the St. Louis Division Bonds, and on such bonds of the old Companies as had not yet been funded, amounted to	$333,403 03	
But of this sum there was collected for interest on bonds held by the Illinois Central RR. Co.	31,007 50	
Thus making the Net Charges		502,398 55
The Earnings of the St. Louis Division have exceeded the Net Charges by		$45,740 4

Of the entire authorized issue of $15,000,000 of St. Louis Division Bonds, $5,000,000 bear 3 per cent interest and $10,000,000 bear 3½ per cent.

Of the former, $4,939,925 have been sold and delivered, and the remaining $60,075 are reserved to take up outstanding shares of the St. Louis Alton & Terre Haute Company.

Of the 3½ per cent Bonds, $3,321,000 have been sold and delivered; there are reserved to take up outstanding securities of the old Companies $1,942,000, and there remain in the treasury unsold, $1,737,000.

LOUISVILLE DIVISION.

The Gross Receipts of the railways subjected to the lien of the Mortgage securing Louisville Division Bonds, exclusive of the Ohio Valley Railway, have been		$3,009,276 27
The expenses of Operation, including Taxes		2,321,759 13
And the Excess of Receipts over Operation Expenses and Taxes		$687,517 14
There has been paid, in respect to those railways, as Rent of the Cecilia Branch, and for interest on Bonds	$666,570 00	
But of this sum there was collected for interest on bonds held by the Illinois Central Railroad Company	164,684 56	
Thus making the Net Charges		501,885 44
The Earnings of the Louisville Division have exceeded the Net Charges by		$185,631 70

The Gross Receipts, as shown above, were $444,297 27 more than in the preceding year. This large increase made it necessary to improve the standard of Maintenance on that Division more rapidly than would have been required, or justified, by smaller earnings. This in a measure accounts for the high ratio, 77·15 per cent, of the Operation Expenses and Taxes to the Gross Receipts.

There have been laid, on those railways, during the past year, 68·95 miles of new steel rails, weighing 75 pounds and 85 pounds to the yard, in place of old rails weighing less than 62 pounds to the yard. The excess of the weight of the new metal over that of the old rails removed was 2,496 tons.

Not only has this been included in Maintenance, and charged to Operation Expenses, but also the great amount of work incident thereto in the respacing of ties and increasing the amount of ballast as well as the cost of strengthening bridges, widening embankments, etc.

The Ohio Valley Railway, including valuable terminals in the City of Evansville, Indiana, and extending thence, by means of a ferry across the Ohio River, through Kentucky to Princeton; together with a leasehold interest in the line from Princeton to Gracey; the fee of branches from Gracey to Hopkinsville, from Morganfield to Uniontown, and from DeKoven to the Ohio River, making in all 139 miles of railway, having been purchased by the Chicago St. Louis & New Orleans RR. Co., was subjected to the lien of the mortgage of September 15, 1897, securing Louisville Division Bonds, and leased to the Illinois Central as part of that Division. Bonds secured under that mortgage, bearing 3½ per cent interest from and after July 1, 1898, have been executed to the amount of $2,500,000, and are now in the Treasury of the Company unsold.

The gross receipts of the Ohio Valley Railway during the eleven months from August 1, 1897, to June 30, 1898, were	$334,957 00
Expenses of operation and taxes	257,214 51
And the Excess of Receipts over Operation Expenses and Taxes	$77,742 49

While a large amount of the work needed to bring the Ohio Valley up to the standard has been done during the few months since that property passed into our control, further outlays thereon will be required for some time to come.

In 1890 the City of Evansville had a population of 50,756, which has since increased materially.

It was stated in the last Annual Report that:—

Contracts have been made for the issue and sale of not exceeding $20,000,000 of Illinois Central RR. Co.'s Three and one-half Per Cent Louisville Division Bonds, to be secured by a First Mortgage on the Chesapeake Ohio & Southwestern, the Owensboro Falls of Rough & Green River and the Short Route Railway Transfer in Louisville, together with the terminals in Louisville and Memphis, and other lands used in connection with those railways. These bonds form part of an authorized issue of $25,000,000, the remaining $5,000,000 being reserved for future acquisitions, actual additions to and extensions of those properties which will hereafter be known as the Louisville Division of the Illinois Central Railroad.

Of the $20,000,000 of Bonds first mentioned, $1,112,000 were reserved to purchase the Cecilia Branch or to build a line from Cecilia to Louisville, in lieu thereof.

On February 5, 1898, the Chicago St. Louis & New Orleans RR. Co. formally notified the Louisville & Nashville RR. Co. of its election to purchase the Cecilia Branch under the option given in the lease, and offered to pay the agreed price of $1,000,000 upon the execution and delivery of a deed conveying a good title. While the receipt of such notice was acknowledged in writing, by the Louisville & Nashville RR. Co., and possession of the property remains in the hands of the Illinois Central RR. Co., as lessee of the Chicago St. Louis & New Orleans RR., no deed of conveyance has as yet been tendered, nor has the purchase price been paid.

Of the $5,000,000 of bonds reserved for future acquisitions, there have been executed, as above explained, against the acquisition of the Ohio Valley Railroad, $2,500,000, thus making the amount of Louisville Division Bonds issued to date $21,388,000. Of these $14,320,000 have been sold and delivered, $3,448,000 are pledged to secure Illinois Central 2·10 Bonds, and $3,620,000 remain in the treasury.

HODGENVILLE & ELIZABETHTOWN RAILWAY.
TROY & TIPTONVILLE RAILROAD.

Among the assets of the Chesapeake Ohio & Southwestern Railway Company were controlling interests in the Hodgenville & Elizabethtown Railway and the Troy & Tiptonville Railroad.

The securities representing such control:
Of the Hodgenvile & Elizabethtown:

A majority of the entire capital stock of $123,500, to wit	$90,000
And all of the First Mortgage Bonds, with Coupons due August 1, 1889, and after, attached, to wit	150,000

And of the Troy & Tiptonville:

One-half of the entire Capital Stock, to wit	$23,000
And a majority of the entire issue of $46,000 of First Mortgage Bonds, with Coupons due Sept. 1, 1888, and after, attached, to wit	37,000

were sold by the Receiver of the Chesapeake Ohio & Southwestern Railway, separately and apart from the general foreclosure sale, the Hodgenville & Elizabethtown securities for $75,000 and the Troy & Tiptonville for $6,000, and they now stand on the books of the Illinois Central RR. Company at those figures.

Your Company has assumed no obligations with respect to either railroad, but, at the request of the respective Boards of Directors and Stockholders of those Companies, is temporarily operating both for their account.

Each of them is a feeder to the Louisville Division. The former runs from Elizabethtown to Hodgenville, in Kentucky, 11 miles, and earned during the past year $1,178 57 in excess of its operation expenses and taxes. The latter runs from Moffat to Troy, in Tennessee, 5 miles, and during the past year failed by $3,514 28 to earn sufficient to pay its expenses of operation and taxes.

Throughout the past year the gross receipts, expenses and taxes of these railroads have been included in the general statements of the receipts and expenses of the Illinois Central, without taking credit for the long arrears of interest overdue on their bonds. The cost of a foreclosure has deterred the Directors from bringing either of these properties to a sale. Nor has it been deemed advisable to abandon either of them.

CHICAGO & TEXAS RAILROAD.

The St. Louis Southwestern Railway Company, whose lines, over one thousand miles in length, lie west of the Mississippi River, in Missouri, Arkansas and Texas, having decided to transfer its point of crossing the Mississippi River from opposite Cairo, Illinois, to Grays Point, Missouri, the Directors, rather than lose so valuable a connection, assumed, on October 1, 1897, the operation, under lease, of the Chicago & Texas Railroad, and have since caused it to be extended five miles to Gale, a point on the Mississippi River, opposite the one selected by the St. Louis Southwestern. Lands on the river bank have been purchased, yards, an engine house and an incline built. Arrangements have been made with the St. Louis Southwestern Company for a car ferry. The lease requires the Illinois Central to operate the railroad, and to pay, as rent, its net earnings.

The Chicago & Texas Railroad now extends from East Cape Girardeau and from Gale, through Carbondale, to Johnson City. It is 80 miles in length and lies wholly in Illinois.

Changes are being made in the alignment and grades of the Chicago & Texas Railroad and of its point of connection with the St. Louis Division of the Illinois Central, in the neighborhood of Murphysboro, with a view to save distance and to turn the traffic between Grays Point and St. Louis over the line thus formed, through Murphysboro and Pinckneyville.

Nearly all of the Stock and Bonds of the Chicago & Texas RR. Co. have been purchased, and are now held by the Illinois Central RR. Co.

The cost of the securities of the Chicago & Texas RR. Co. of the extension to Gale (which is substantially completed) and of so much of the work in the neighborhood of Murphysboro as appertains to the Chicago & Texas and has been finished, amount in the aggregate to $1,326,185 88. There will be further and considerable charges for additional work in the neighborhood of Murphysboro, and in bringing the old line of the Chicago & Texas RR. up to standard.

This Railroad, besides preserving a valuable connection, runs through a fine farming country, and gives access to one of the richest coal fields in Illinois.

STACYVILLE RAILROAD.

The recently built Stacyville Railroad, running from a point on the Mona Branch of the Dubuque & Sioux City Railroad, near Lyle, to Stacyville, in Iowa, 8 miles, was leased from November 1, 1897, for a rent of the net earnings of the property. All of the outstanding Stock, $50,800, and all of the Bonds, $60,000, of the Stacyville RR. Co. have been purchased at a cost of $61,414 63. This branch brings in a considerable traffic on which there is a long haul to Chicago.

STANDARDS OF MAINTENANCE.

The standard weight of rail for main track, which was formerly 75 pounds per yard north of Water Valley, Mississippi, and 70 pounds per yard south thereof, has been increased to 85 pounds per yard over the entire line from Chicago to Water Valley, and from Louisville to Memphis. The standard of 75 pounds per yard is still retained on the other main lines and on branch lines when renewals become necessary.

The rail laid during the year has been in accordance with these standards, excepting that on the Cairo Bridge and the approaches thereto, about four miles of rail, weighing 100 pounds per yard, have been used.

In repairs and renewals of pile and timber trestles, the strength of the standard floor system has been increased by thirty per cent, and this standard will be maintained in future renewals.

The standard width of embankment for single track has been increased from 18 to 20 feet, and all construction and repairs on the main line are done in accordance therewith.

All of these, and many other, items go to swell Expenses of Operation.

The maximum capacity of coal cars has been increased from 30 tons to 40 tons, and 500 cars of the latter capacity have been bought during the year.

The maximum weight of locomotives has been increased from 74 tons to 79 tons. Contracts have been made for 16 engines of this size, for use on the Louisville Division.

A marked reduction in the price of new steel rails and an enlarged demand for old rails have made it possible this year to use, in renewals, 31,325·40 tons of new steel rails, at a cost of only $290,868 61, although the laying of 30,155·08 tons in the preceding year had cost $492,184 91. A part of the heavy charge for renewals of rails during the year ended June 30, 1897, was due to reducing the value of the new rails on hand to meet the lower existing market price. In all other respects the charges for Maintenance of Way and Structures, which form a part of the Expenses of Operation, will this year be found to have increased with the growth of the property.

SECOND AND SIDE TRACKS.

In addition to 3,807·74 miles of single main track, there are 135·33 miles of additional main track in and near Chicago: 54·25 miles between Carbondale and Bridge Junction; 3·01 on Cairo Bridge; 13·38 miles near Dubuque; 2·33 miles north of Centralia; 1·88 miles at Decatur; 2·07 miles at Waterloo; 11·01 miles at New Orleans; 1·52 miles at Louisville; 0·48 mile at Evansville. Total additional main track, 225·86 miles, and 1,022·71 miles of side tracks on the entire Road, making an aggregate of 5,056·31 miles of track.

Of the foregoing, 17·04 miles of second main track and 37·11 miles of sidings were built during this year to meet the needs of a constantly growing traffic.

All but 9·19 miles of the main tracks and all but 165·91 miles of the side tracks are laid with steel rails.

MOTIVE POWER AND ROLLING STOCK.

The Company has 763 locomotives, 651 passenger cars, 28,719 freight cars, all of which, except 9 locomotives and 212 freight cars, were, at the end of the year, available for service. Nine new locomotives have been purchased, to be delivered in August, and two hundred and twelve freight cars are under construction at the Company's shops, to be finished this autumn, replacing the engines and cars out of service. The cost of these engines and cars has been provided for from charges already made to Maintenance of Equipment.

REDUCTION OF GRADES.

The economies effected through the reduction made last year in the grades against south-bound traffic between East Cairo and Fulton, Kentucky, to a maximum of 38 feet to the mile, and the increase in the tonnage carried between Fulton and Memphis, have led the Directors to undertake the much more serious work of reducing the south-bound grades between the latter points from the present maximum of 60 feet to one of 26 4-10 feet to the mile, which practically conforms to the ruling grades across the prairies of Illinois, between Chicago and Carbondale. This work cannot be completed until toward the close of the calendar year 1899, and is estimated to cost approximately $1,200,000.

The connection of the Yazoo & Mississippi Valley Railroad with what was formerly known as the Yazoo Branch will, when some less expensive work shall have been done at other points, afford—over your line from Chicago to Memphis, that of the Yazoo & Mississippi Valley thence to Jackson, Mississippi, and your line from Jackson to New Orleans—a route approximately 942 miles long, having nowhere, except between Carbondale and Fulton, grades exceeding 26 4-10 feet to the mile against south-bound traffic. The use on these 99 miles between Carbondale and Fulton of heavy locomotives will readily overcome the grades of 38 feet to the mile there prevailing. It will certainly be eighteen months, and perhaps longer, before the advantages of these changes can be fully felt.

LAND OFFICE.

There were sold during the year 4,357·26 acres of donated lands, for $27,635 80. The total sales of donated lands aggregate 2,540,468·89 acres, leaving unsold 53,645·99 acres.

There are on hand land notes and contracts for donated lands amounting to $83,248 88.

Neither the unsold land nor the land notes and contracts appear in the General Balance Sheet.

RESIDENT OWNERSHIP.

The number of officers and employes, other than Directors of the Corporation, registered on the books of the Company as Stockholders, has increased to 733, and their holdings amount to 2,536 shares.

The stock is being gradually purchased by those resident on and near the line. In each of the ten States in which the Company is operating railways there are a number of Stockholders, varying from 4 in Indiana to 732 in Illinois. The total number of Stockholders in these ten States is 1,115, and the number of shares held by them 23,630.

There are resident in the United States 3,365 Stockholders, owning 237,709 shares; in Great Britain 2,896, owning 229,252 shares; elsewhere 120, owning 57,983 shares.

Exclusive of one large block of shares, held for more than thirty years past, in trust by a Dutch Syndicate or Administration Office, against its own certificates, good to bearer, which are widely scattered among hundreds of owners, the average holding of the remaining proprietors registered on the Company's books is less than 75½ shares. In the United States the average is but little over 70½ shares.

All told, the books show 8 holdings of 5,000 shares, or over; 51 of 1,000 shares or over; 80 of 500 shares, or over; 681 of less than 500 but more than 100 shares; 391 of exactly 100 shares each, and 5,170 of less than 100 shares. The number of Stockholders registered on the books is 6,381. Barely one-eighth of them own over 100 shares apiece.

DIVIDENDS TO FOREIGN STOCKHOLDERS.

To meet a growing demand by Foreign Stockholders, especially those in Great Britain, for the payment to them in sterling money of the equivalent, at current rates of exchange, of such dividends as may be declared payable in New York, arrangements have been made with the Bank of England for such payments. Stockholders desiring to receive the equivalent of their dividend in this manner are requested to communicate with the Secretary, at the Company's Office in New York.

THE YAZOO & MISSISSIPPI VALLEY RAILROAD COMPANY.

The following abstract from The Yazoo & Mississippi Valley Railroad Company's Annual Report shows the results of the operation by that Company of its 807 miles of railroad, formerly the Louisville New Orleans & Texas Railway, for the year ended June 30, 1898:

Gross Receipts from Traffic		$4,775,647 53
Operation Expenses	$3,063,975 12	
Taxes	142,644 26	3,206,619 38
Excess of Gross Receipts over Operation Expenses and Taxes		$1,569,028 15
Interest collected on Investments		206 04
Income from the year's business		$1,569,234 19
As the repairs needed to make good damage caused by floods in the spring of 1897 have been made, and the cost included in the above charges to Operation Expenses, the fund brought forward for that purpose, from the earnings of the year ended June 30, 1897, is added to Income		100,000 00
Making the Total Income Available		$1,669,234 19

From this there has been paid for Interest on:

$16,832,000 00 L. N. O. & T. 1st Mtge. Bonds	$673,280 00	
2,367,000 00 Y. & M. V. 4% Improvement Bonds	94,680 00	
381,068 06 Notes	17,242 72	
Total of absolutely Fixed Charges		$785,202 72
All the Notes of the Company were paid in full on June 30, 1898		381,068 06
There was credited, during the six months January 1 to June 30, 1898, to the Fund for Automatic Couplers and Air Brakes		36,000 00
There was set apart, as a Fund to provide, during the next eighteen months (July 1, 1898, to December 31, 1899), for the entire cost, on the basis of contracts already made, of all the Automatic Couplers and Air Brakes required by law in respect to this Company's equipment, and attaching them to the cars, $108,000. This fund was composed of $104,302 29, taken from the proceeds of old equipment sold, to which there was added, from the Income of the year		3,697 71
There has been applied to the payment, on September 1, 1898, of overdue interest on the Second Mortgage Income Bonds of the Louisville New Orleans & Texas Railway Company, all the remainder of the available Income, to wit		463,265 70
Thus disposing of the Total Income		$1,669,234 19

The indebtedness of the Company for advances made to it since 1893, in order to enable it to buy additional terminals in New Orleans and elsewhere, to build wharves and elevators, and to improve and enlarge its property, amounted, on June 30, 1897, exclusive of interest, to $2,367,000. This was funded, as of that date, at par, into an issue of Four Per Cent Gold Improvement Bonds.

For similar advances made during the year a further issue of Four Per Cent Gold improvement Bonds was made on June 30, 1898, to the amount of $218,000.

The five engines out of service on June 30, 1897, have been replaced by new ones, and all of the 105 engines owned by the Company were available for service on June 30, 1898.

Of the 3,278 freight cars owned by the Company twenty-six were out of service on June 30, 1898. These are being rebuilt at the Company's shops at Vicksburg.

The cost of the new engines purchased and of the new freight cars under construction was provided for from charges already made to "Maintenance of Equipment."

The Insurance Fund, amounting at the close of the year to $99,535 68, shows an increase of $28,775 95 during the year.

The following table shows the growth of the Revenue of the Yazoo & Mississippi Valley Railroad from Traffic during the past five years:

YEARS	*Miles Operated.*	*Gross Receipts.*	*Expenses of Operation*	*Taxes.*	*Excess of Gross Receipts over Expenses of Operation and Taxes.*
1892-3	807·27	$3,319,131 04	$2,463,653 47	$96,337 89	$759,139 68
1893-4	807·27	3,338,859 50	2,280,370 20	89,091 40	969,397 90
1894-5	807·27	3,331,334 58	2,290,207 50	90,058 53	951,068 55
1895-6	807·27	3,529,625 10	2,234,625 51	103,708 84	1,191,290 75
1896-7	807·27	3,936,513 20	2,550,633 98	124,982 09	1,260,897 13
1897-8	807·27	4,775,647 53	3,063,975 12	142,644 26	1,569,028 15

GENERAL REMARKS.

The fact that the St. Louis Division and the Louisville Division, considered locally by themselves, have each earned during the year somewhat in excess of the charges incurred in respect to them, while in itself gratifying, by no means measures their value to this Company, which is more clearly reflected in the increased earnings of the property taken as a whole.

Your Directors are more than ever convinced that the profit of the business lies in reaching in the large cities the vast traffic originated in and distributed through them, for which your railway affords the natural outlet to the Gulf of Mexico.

The possibilities of the trade with Cuba and the West Indies are now engaging so much public attention as to call for no comment in this Report.

It will be observed that the form of the Report has been somewhat condensed, and that changes have been made therein. Most of these have been adopted in order to more nearly conform to the methods of accounting required by the Inter-State Commerce Commission.

The attention of the Stockholders is invited to the accompanying Balance Sheet and to the Abstracts explanatory thereof, as well as to the various Tables showing in detail the workings of the Company's business.

By order of the Board of Directors,

ALEXANDER G. HACKSTAFF,
Secretary.

NEW YORK, August 31, 1898.

STATEMENT OF THE NUMBER OF MILES OF RAILROAD OPERATED BY THE ILLINOIS CENTRAL RAILROAD COMPANY AND BY THE YAZOO & MISSISSIPPI VALLEY RAILROAD COMPANY, RESPECTIVELY, IN VARIOUS STATES ON JUNE 30, 1898.

States—	Miles of Railroad in Operation June 30, 1898. By I. C. RR. Co.	By Y. & M. V. RR. Co.	By Both Cos.

NORTHERN PACIFIC RAILWAY COMPANY.

SECOND ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1898.

OFFICE OF THE NORTHERN PACIFIC RAILWAY COMPANY, ST. PAUL, MINNESOTA, September 2, 1898.

To the Stockholders of the Northern Pacific Railway Company:

The following, being the second annual report, shows the result of the operation of your property for the fiscal year ending June 30, 1898:

Gross earnings were		$23,679,718 31
Operating expenses were		11,095,370 91
Net earnings were		$12,584,347 40
Deduct—		
Additions and improvements charged to income	$811,709 35	
Taxes	682,800 00	
		1,494,509 35
Leaving		$11,089,838 05
Add dividends and interest received		887,196 55
Revenue available for interest and dividends		$11,977,034 60
Deduct—		
Interest on Bonds	$6,079,160 00	
Dividends on Preferred Stock (including dividend payable September 6, 1898)	3,000,000 00	
		9,079,160 00
Surplus		$2,897,874 60
Surplus June 30, 1897		489 823 90
Aggregate surplus income to June 30, 1898		$3,387,703 50
From which has been appropriated as a Reserve for the continuity of dividends upon the Preferred Stock		3,000,000 00
Leaving Surplus Income carried forward as balance Profit and Loss to June 30, 1898		$387,703 50

It has not been attempted to make comparison with the results of operation in the fiscal year ending June 30, 1897, for upon that day your Company had been in possession of the property for only ten months.

Of the deductions from income:

$515,709 31 represents amounts expended for additions and improvements.

$296,000 represents additions to equipment.

In the opinion of the Board these are not distinctly new property, and are therefore not charged to capital account.

The property (roadway, structures and equipment) has been improved during the year, and is well adapted for the increased traffic which is expected from existing business conditions and abundant harvests in the territory served by the Company.

Besides the 18 Locomotives and 100 Box cars charged to Equipment account and paid for out of the Betterment and Enlargement Fund as shown herein, the following-described equipment was purchased and built during the year, viz.:

37 Locomotives,
200 Box cars,
50 Flat cars,
100 Coal cars,
12 Furniture cars,
2 Gravel plows,
3 Russell snow plows,
3 Bucyrus steam shovels.

RESERVE FUND.

As above stated, the Board of Directors has directed to be set aside out of Surplus Income $3,000,000 as a reserve to be available, as may be found necessary, until the end of 1901, toward maintaining regular 1 per cent quarterly dividends on the Preferred Stock of the Company, if, at any time prior to that date, the current net earnings shall prove insufficient for that purpose. So far as not so used by that date, the fund may then, by vote of the Directors, be returned to the general funds of the Company.

In view of the comparatively brief period which has elapsed since the organization of your Company, and also in view of the fact that the favorable results of the fiscal year just closed must in prudence be regarded as exceptional, the Board has been led to adopt this conservative policy, which, no doubt, will commend itself to all who are interested in the Company. Of course this reserve fund need not be drawn upon if current available earnings shall continue as at present. It may be added that the business prospects of the Company were never better than now.

BETTERMENT AND ENLARGEMENT FUNDS.

Upon requisition of the Executive Officers, approved by the Board of Directors, expenditures from the Betterment and Enlargement funds have been made during the past fiscal year, for—

Real Estate and Right of Way:		
At Tacoma	$5,458 21	
At other places	1,910 63	
Right of way and land damages	25,156 87	
		$32,525 71
Buildings:		
Engine-houses	$22,479 19	
Other buildings	5,321 15	
		27,800 34
Bridges:		
Excess cost of steel and stone over wooden structures		153,596 31
New tracks and spurs (less old ones taken up)		152,679 40
Changes of grade and alignment		181,929 02
Brought Forward		$551,530 78
Permanent lining of tunnels:		
Excess cost over renewal of wooden linings		52,366 77
Fencing		63,916 32
Docks and wharves (new)		10,746 57
New Branches and Extensions:		
Gaylord & Ruby Valley	$134,558 91	
Clark's Fork Branch	14,508 31	
Extension to Hoquiam	59,233 70	
Lewiston Extension	167,599 53	
Souris River Branch	10,319 96	
		386,218 41
Total		$1,064,778 85
New Equipment:		
18 Class "R" locomotives	$225,209 23	
100 Box cars	52,802 10	
		278,011 33
GRAND TOTAL		$1,342,790 18

The condition of the Betterment and Enlargement Funds and their use since September 1, 1896, are shown below:

Betterment and Enlargement Fund provided by Plan of Reorganization		$5,000,000 00
Proceeds of sale of $1,500,000 Prior Lien Bonds drawn after January 1, 1898, in accordance with provisions of the mortgage		1,421,250 00
Total		$6,421,250 00
Accounted for as follows:		
Betterment and Enlargement September 1, 1896, to June 30, 1897, as per first annual report	$1,051,153 33	
Betterment and Enlargement year ending June 30, 1898, as detailed on preceding page	1,312,790 18	
Paid for Seattle Lake Shore & Eastern Railway securities, viz: Certificates of Deposit..$4,433,713 21 Less proceeds sale of treasury Preferred Stock	2,666,126 25	
	1,767,588 96	4,131,530 47
		$2,289,719 53
Represented in balance sheet by		
Cash	$934,632 73	
$2,210,000 General Lien 3% Bonds	1,325,086 80	
		$2,259,719 53

CONSTRUCTION OF NEW LINES.

The construction of the following branches and extensions has been authorized, of which none had been completed June 30, 1898:

	Miles.	Estimated Cost.	Amount Expended to June 30, 1898.
Belmont to Hartney, Man. (known as Souris River Branch)	51·0	$500,000	$10,319 96
Rockvale to Gebo, Mon. (known as Clark's Fork Branch)	13·0	156,300	14,508 31
Whitehall to Twin Bridges, Mon., (known as Gaylord & Ruby Valley Branch)	22·2	222,030	134,558 91
Juliaetta to Lewiston, Idaho (known as Lewiston Extension)	20·6	300,000	167,599 53
Aberdeen to Hoquiam, Washington	4·2	117,500	59,233 70
Total miles	111·0		$386,218 41

This property is to become part of the Northern Pacific estate, and the cost thereof is embraced in the previous statement of expenditures prior to June 30, 1898, from the Betterment and Enlargement Fund.

All of these lines probably will be completed during the present calendar year, and it is believed they will add materially to the earning power of the System.

NEW LINES PURCHASED.

SEATTLE LAKE SHORE & EASTERN RAILWAY.

Coincidently with this Company's above-mentioned purchase of securities of the Seattle Lake Shore & Eastern Railway Company (formerly a part of the Northern Pacific system of roads), a plan for reorganization of that Company was carried to completion.

Two companies were organized to succeed to the property—the Seattle & International, covering the western division, comprising 164·86 miles, and the Spokane & Seattle (not operated), covering the eastern division, comprising 49·58 miles.

The Northern Pacific owns all of the capital stock and bonds of the Seattle & International Railway, viz., $2,400,000 par value of stock and $1,450,000 of first mortgage four per cent bonds. It also owns $1,112,000 (being all) of the first mortgage four per cent bonds of the Spokane & Seattle Railway. There is no floating debt or other obligation of either of these companies.

The cost of the above securities was $4,433,713 21.

The advantage of this purchase consists in the terminals of the Seattle & International Railway in Seattle, which were valuable to this Company; in the retention of contributive business which could have been diverted had the Company been controlled by a competitor, and in the fact that the Seattle reorganization committee was asserting against the Northern Pacific Railroad Company a claim for a large amount, under which it demanded a share in the distribution of the assets of the Receivership, including that portion of the land grant lying east of the Missouri River.

WASHINGTON & COLUMBIA RIVER RAILWAY.

There has been purchased all of the capital stock and income bonds of the Washington & Columbia River Railway Company, comprising 162·73 miles of road in the States of

Washington and Oregon, tributary to this Company's lines. For many years this road has been operated as a connection of this Company, and as it was about to be sold it was thought advisable, as a protective measure, to acquire the same. The cost of the securities purchased, which comprised $3,000,000 par value of stock and $2,245,000 par value of income bonds, was $592,316 25.

MONTANA UNION, MONTANA RAILWAY, ETC.

An opportunity was availed of to acquire for this Company (1) the balance of the capital stock of the Montana Union Railway Company, of which already this Company owned one-half; (2) all the capital stock of the Montana Railway Company, operated under lease by the Montana Union; (3) a certificate of indebtedness of the Portland & Puget Sound Railroad Company of the par value of $969,245 98; (4) certain claims in suit between the Union Pacific Receivers and the Montana Union Railway and the Northern Pacific Railroad Company, aggregating $764,339 56; all at a cost of $778,434 29.

The total cost of all the foregoing purchases was $5,804,463 75, but since possession has been taken by this Company there has been realized on accounts due these companies the sum of $382,288 11, making the net cost $5,422,175 64.

The following statement of the earnings and expenses of the roads included in the above purchases shows for the year ending June 30, 1898, a net surplus of $239,526 42, or 4·42 per cent upon the investment.

Miles of Road Operated, 399·05.

Gross earnings:	
Freight	$907,314 65
Passenger	275,526 04
Mail, express and miscellaneous	122,437 93
Total	$1,305,279 52
Operating expenses and taxes	835,636 22
Net earnings	$469,643 30
Miscellaneous income	10,936 37
	$480,599 67
Property, improvements and reorganization expenses	46,614 60
Net income	$433,985 07
Interest on funded debt and rentals	194,421 65
Surplus	$239,526 42

These properties have also contributed $1,645,670 09 to the business of the Northern Pacific Railway Company.

WASHINGTON CENTRAL RAILWAY.

Your Directors have agreed with the Washington Central Railway Company (formerly the Central Washington) to take a lease of its road for the period of nine hundred and ninety-nine years from March 1, 1898, and in part consideration of the same have received an assignment of all claims held by the Central Washington and its successors against the Northern Pacific Railroad Company on account of the latter's defaults upon its guaranty of interest and rentals, such claims constituting a cloud upon this Company's interest in the land grant east of the Missouri River.

This Company now owns all of the Capital Stock of the Washington Central Railway Company, and pays an annual rental equal to the interest upon the 4 per cent First Mortgage Bonds issued, which are limited upon the existing road to $1,538,000.

In acquisition of these interests there were delivered out of the treasury assets Voting Trust Certificates for $1,137,500 of Northern Pacific Railway Common Stock.

The fixed charge resulting from this lease is as follows:

Bonds issued	$1,538,000
Less owned by Northern Pacific Railway Company	286,000
Leaving outstanding in the hands of the public	$1,252,000
Annual interest charge at 4% on same is	$50,080

which is believed to be well within the earning capacity of the property.

Possession of the property was taken July 1, 1898.

COMPLETION OF SYSTEM.

With the possession of the Washington Central Railway, referred to above, there was restored to the system of railway west of St. Paul and Lake Superior all of the mileage comprised in the old Northern Pacific System prior to the Receivership of 1893.

INSURANCE FUND.

A fund of $500,000 in cash and securities has been set aside out of the assets of the Company to enable the Company to assume for itself all risk of loss and damage by fire. This fund became available July 1, 1898, since which time the Company has been carrying its own insurance. A report of the condition of this fund, and the results of this policy, will be included in future annual reports of the Company.

AUDIT OF ACCOUNTS.

Following the custom of the previous year the accounts of the Company have been audited by Messrs. Price, Waterhouse & Co., whose certificates are endorsed on the General Balance Sheet and Income Account, and who have particularly examined into the correctness of all charges to Capital Account.

TRANS-CONTINENTAL RATES.

During the greater portion of the fiscal year, in connection with the Pacific Coast passenger business, in which this Company is largely interested, a bitter war of rates was waged which has seriously affected its revenue from this branch of its traffic. In no way can responsibility for this deplorable condition be attributed to the officials of your Company, who have made every effort in their power to bring about an adjustment.

LANDS WEST OF THE MISSOURI RIVER.

In the territory tributary to the lines of the Company prosperity has been evidenced by the increased sales of lands, the Company having disposed of a greater acreage (nearly 50 per cent more) and to a number of individuals greater than in any previous year in the history of the property. The prospects for the coming year are equally promising.

LANDS EAST OF MISSOURI RIVER.

It is hoped that the interest of the Company in the lands of the old Northern Pacific Railroad Company east of the Missouri River, now held by the sequestration receivers of the old Company, may be realized before the end of the calendar year, for upon August 25, 1898, the Special Master reported against the claim of the Preferred Stockholders of the old Company to such lands in preference to creditors. This Company asserts against these lands about 95 per cent of the indebtedness represented by such creditors.

BUSINESS OF PAST YEAR AND PROSPECTS.

In many particulars the year ending June 30, 1898, has been exceptional. While there have been others in which the gross receipts have been larger, there has been none in which the results have been so satisfactory, both as to the condition of the property and the net revenues derived therefrom.

The favorable winter of 1897-98 (and consequent freedom from accident and blockade) has helped materially to produce this result, but more than all else the economies accomplished by grade reductions, by substitution of permanent for temporary structures in the roadway and by the employment of modern power in place of that previously available.

The Balance Sheet and the Profit and Loss statement as of June 30, 1898, will be found in the Comptroller's Report, to which particular attention is invited, as also to the other customary details therein contained concerning the financial condition of the Company, and to the list and valuation of treasury assets, etc. It is believed that all of these figures will prove especially satisfactory to the shareholders.

The report of the General Manager is also annexed. It exhibits with unusual fullness of detail the operation of the property and its physical condition.

The very satisfactory result of the year's work may be attributed largely to the marked increase in train load and car-load, and to the consequent decrease in cost per ton mile. The way in which officials and employes have intelligently co-operated to produce these results is worthy of the highest praise.

By order of the Board of Directors.

CHARLES S. MELLEN,
President.

NEW YORK CENTRAL & HUDSON RIVER RAILROAD CO.

EXTRACTS FROM THE TWENTY-NINTH ANNUAL REPORT—FOR THE YEAR ENDED JUNE 30, 1898.

To the Stockholders of the New York Central & Hudson River Railroad Company:

The Board of Directors herewith submits its report for the year ended June 30, 1898, with statements showing the results for the year and the financial condition of the company.

The report covers the operations of the system east of Buffalo, including the following proprietary and leased lines:

New York Central & Hudson River Railroad.
New York & Harlem Railroad.
Troy & Greenbush Railroad.
Spuyten Duyvil & Port Morris Railroad.
West Shore Railroad.
New Jersey Junction Railroad.
Rome Watertown & Ogdensburg Railroad.
Oswego & Rome Railroad.
Niagara Falls Branch Railroad.
Utica & Black River Railroad.
Carthage Watertown & Sackets Harbor Railroad.
Mohawk & Malone Railway.
Carthage & Adirondack Railway.
Gouverneur & Oswegatchie Railroad.
New York & Putnam Railroad.

The Dunkirk Allegheny Valley & Pittsburg Railroad and the Beech Creek Railroad are also leased by this company, but their mileage and operations are not included in this report, as separate accounts have been kept and independent reports prepared in behalf of those companies.

The gross earnings from the operation of the system east of Buffalo, excluding income from investments, were $45,774,240 43, exceeding those of any previous year with the exception of 1892-3, the "World's Fair" year, when they were $512,127 07 greater.

The net earnings from operation, $16,263,226 45, were, however, $608,591 82 in excess of those of the year 1892-3.

The expenses of operation, all taxes being excluded, were $29,511,013 98, an increase of $1,911,102 71 over those of the previous year. This was caused largely by the greater volume of traffic handled during the year. It was also due to the inclusion of $1,345,948 54, representing extraordinary outlays for equipment and miscellaneous additions to the property, thereby continuing the long-established policy of the company in this regard.

The profit for the past year was $4,654,471 16, and the surplus, after payment of four per cent in dividends, $654,471 16, as against $51,866 80, one year ago.

During the period covered by this report, financial transactions of unusual importance have been undertaken.

At a meeting held April 14, 1897, the Board of Directors adopted resolutions authorizing the execution of a mortgage to be dated July 1, 1897 (the beginning of the fiscal year just closed) to secure an issue of $100,000,000 bonds, the principal to become due and payable in gold on July 1, 1997, and the interest, at 3½% per annum, to be paid semi-annually on the first days of January and July. This action was ratified at the stockholders' meeting held May 26, 1897.

Of the $100,000,000 authorized, $70,377,333 is reserved for the purpose of retiring a like amount of obligations outstanding on June 30, 1897, composed of six different classes of bonds, varying in nature, rates of interest and dates of maturity; $14,622,667 is reserved for the premiums necessary to retire the old bonds before their maturity, and for such other uses as the Board of Directors may approve; and the remaining $15,000,000 is to be held until December 31, 1903, after which time it is to be available for construction, equipment or other purposes.

During the past year $23,499,600 38 of the new bonds have been issued in exchange for $21,480,985 93 of bonds of the old forms, and a saving in interest has been effected amounting to $197,710 51.

New bonds to the amount of $2,019,000 have also been issued and sold for cash; $19,000 in connection with the exchange of old bonds for new, and $2,000,000 for the general purposes of the company.

On February 4, 1898, the Board of Directors authorized the purchase of the capital stock of the Lake Shore & Michigan Southern Railway Company, aggregating $50,000,000, and agreed to issue, in payment therefor, $100,000,000 in gold bonds of the New York Central & Hudson River Railroad Company, maturing February 1, 1998, with interest at 3½% per annum, payable semi-annually on the first days of February and August; and also provided for the deposit with the Guaranty Trust Company of New York, trustee, of all stock thus acquired, as collateral security for the payment of the principal and interest of the bonds; the basis for this purchase being one $1,000 bond for five shares of stock at $100 each.

Up to June 30, 1898, $89,938,625 of Lake Shore collateral bonds had been issued in exchange for $44,969,312 50 in stock.

On April 13, 1898, resolutions were adopted by the Board of Directors, providing for the purchase of the capital stock of the Michigan Central Railroad Company, at present $18,738,000, and agreeing to issue, in payment therefor, gold bonds of the New York Central & Hudson River Railroad Company, to the amount of $21,550,000, maturing February 1, 1998, with interest at 3½% per annum, payable semi-annually on the first days of February and August; and further agreeing to deposit with the Guaranty Trust Company of New York, trustee, all stock thus acquired, as collateral security for the payment of the principal and interest of the bonds; the basis of purchase being $115 in bonds for $100 in stock.

Up to June 30, 1898, $17,137,415 of Michigan Central collateral bonds had been issued in exchange for $14,902,100 in stock.

The action of the Board in obtaining control of these two properties was taken with the view of establishing, on a permanent basis, the unity of interests of the three companies.

The acquisition of these important roads makes a notable increase in the mileage controlled by this company. In 1869 it operated 837·67 miles of single track; in 1878, 1,104·20 miles; in 1888, 1,544·12 miles; and on June 30, 1898, the mileage of single track under its control is 6,309·77 miles.

The Directors announce, with deep regret, the death of two of their associates in the Board—Mr. Erastus Corning, on August 30, 1897, and Mr. George C. Buell, on January 24, 1898.

On February 4, 1898, Messrs. Ashbel Green and George C. Bowdoin were chosen by the Board of Directors to fill the vacancies created by the deaths of Messrs. Corning and Buell.

At the stockholders' annual meeting held April 20, 1898, Mr. Samuel R. Callaway was elected a Director in place of Mr. Ashbel Green, resigned.

The year has also been marked by a number of important changes in the executive force.

Mr. Cornelius Vanderbilt, for fifteen years the Chairman of the Board of Directors, was compelled to retire on account of ill health.

Mr. Chauncey M. Depew, after a service of thirteen years as President, succeeded Mr. Vanderbilt on April 27, 1898.

Mr. Samuel R. Callaway, President of the Lake Shore & Michigan Southern Railway Company, was chosen to succeed Mr. Depew as President, and took office on April 27, 1898.

Mr. H. Walter Webb, for eight years the Third Vice President of the company, also resigned during the year, because of illness; and Mr. John M. Toucey, after a valuable and extended service of forty-three years, retired from the office of General Manager.

For the Board of Directors,

S. R. CALLAWAY, *President.* CHAUNCEY M. DEPEW, *Chairman.*

NEW YORK, August 25, 1898.

*Revision of the figures published in last year's report, made for the purpose of comparison with those of 1898; taxes eliminated.

COMMENT UPON EARNINGS AND EXPENSES.

The increase in freight earnings was $1,645,398 23, or six per cent; the tonnage increase was 2,753,629 tons, or thirteen per cent; and the tonnage carried one mile was 709,958,351 tons greater, or nineteen per cent.

The rate per ton per mile decreased from 6·8 mills in 1897 to 6·1 mills in 1898, the lowest annual average yet reached. This decrease is largely accounted for by the fact that 57% of the tonnage increase occurred in the low-class freights. The average distance each ton was carried was 192 miles, as compared with 184 miles in 1897.

The condition and volume of the way business, which furnishes the greater proportion of the tonnage and earnings, are significant as indicating the improved condition of trade in the communities served by this company's lines.

Passenger traffic has been well maintained during the past year. The earnings have increased $156,181 03 and the number of passengers carried 907,771 over the previous year.

The increases in passengers carried and in passenger mileage were almost in exact proportion to the increase in earnings; hence the rate per passenger per mile decreased but slightly in comparison with that of 1897.

Increases in the local earnings, and especially in the commutation business, are among the notable results of the year. The growth in commutation traffic during the past ten years has been very marked, both on the Hudson and Harlem divisions, and along the line of the West Shore Railroad as well. Since 1888 the number of passengers and the earnings from this source have much more than doubled.

The decrease in the cost of maintenance of way was due to the fact that the extraordinary replacements of rail from 1891-7 enabled the company to maintain its track superstructure without heavy renewals in the year just closed. (During the eight years referred to, 235,000 tons of from 65 lb. to 100 lb. rail had been purchased for re-laying 2,042 miles of track.)

The roadway has received special attention, as the increase of $96,352 80 shows; and improvements of permanent value have been made in many of the company's station and shop buildings.

In the maintenance of its equipment during the past year the company has spent $3,177,612 78 in what are known as "ordinary repairs" and $1,157,338 94 for charges of an extraordinary character. These latter included the cost of 1,090 new cars, 20 new passenger locomotives, the re-upholstering of 150 passenger cars, and also the expense of dynamos and electrical furnishings for the "Lake Shore" and "New York & Chicago Limited" trains.

The 1 090 new cars were constructed at the company's shops at West Albany.

The condition of the rolling stock shows steady improvement from year to year, both in inventory value and as regards tonnage capacity.

As fast as cars of 15-ton and 20-ton capacity have been condemned and destroyed they have been replaced with others with a capacity of from 40 to 60 tons. Hence the inventory on June 30, 1898, when compared with that of June 30, 1888, shows that while the number of cars remains practically the same, the total tonnage capacity has increased from 313,957 tons to 658,905 tons—or it has more than doubled.

The increase in traffic expenses, which include all charges incident to the procuring as well as to the handling of traffic, is the direct result of the much heavier volume of business. For example, the increase in freight tonnage was 8,101,828 tons, and 907,771 more passengers were carried in 1897-98 than in 1896-97. This necessitated an increase of 3,251,968 miles in the engine mileage, of 2,234,420 miles in train mileage and the handling of 657,628 more freight cars. Car service charges increased $104,774 50; the station pay-rolls increased $188,022 67, representing a monthly average of 27, men; and the pay-rolls of engine and train crews, $3144-124 15, a monthly average of 226 men. During the year the New York and Weehawken elevators received 31,411,163 bushels of grain in excess of the quantity received in the year preceding.

SUMMARY OF FIRST CHARGES.

Interest on funded debt	$5,421,200 07

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Sept. 16, 1898.

No noteworthy changes have occurred in the general business situation. There has been a fair movement of supplies in most lines of merchandise, with jobbers generally reporting the retail trade purchasing more liberally, having laid in fair stocks on the favorable prospects for a good fall and winter trade. Prices in the main have held to a steady basis, although in a few instances, particularly cotton and coffee, excessive supplies have had a depressing influence. Reports as to an impending trade war among the various interests in the sugar refining business have had a tendency to create extreme conservatism among buyers of refined sugar. Latterly there has been an increased export business transacted in coal due to a strike of the Welsh coal miners. Now that this strike is settled considerable interest is being shown in the possibility of American coal obtaining a permanent hold in the markets opened to it through the effect of the Welsh miners' strike.

Lard on the spot has been offered at lower prices, and at the decline a moderate volume of business has been transacted, the close being at 5·15c. for prime Western and 5c. for prime City. Refined lard had a fair sale early in the week, but the close was quiet at 5·50c. for refined for the Continent. Speculation in lard for future delivery has been quiet and prices have weakened under full receipts of swine and sympathy with the decline in corn.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	5·20	5·20	5·27	5·27	5·12	5·10

The demand for pork has been limited, but prices have held about steady, closing at $9@9 25 for mess, $11 50@12 00 for family and $11@13 for short clear. Cut meats have sold slowly and prices have weakened slightly, closing at 6@7c. for pickled bellies, 14@10 lbs. average, 4¼@4½c for pickled shoulders and 7⅜@7¾c. for pickled hams. Beef has been in more active demand and steadier, closing at $8 50@9 00 for mess, $9@9 50 for packet, $10@11 for family and $14@15 for extra India mess. Beef hams have declined to $18 50@19 00. Tallow has had a fair sale at steady prices, closing at 3⅜c. Oleo stearine has been in fair demand and steady at 5c. Lard stearine has held steady at 6½c. for prime city; large sales were reported made early in the week Cotton seed oil has been quiet but about steady at 22@22½c. for prime yellow. Butter has been in fairly active demand and firmer, closing at 14½@20c. for creamery. Cheese has had a better sale and at firmer prices, closing at 6@7¾c. for State factory, full cream. Fresh eggs have been in fairly good demand and higher, closing at 16½c. for choice Western.

Brazil grades of coffee have had a slow distributing sale; consequently jobbers have been averse to making purchases, and as there has been increased pressure to sell, prices have declined, closing at 6½c. for Rio No. 7. Sales of Santos No. 4 have been made at 6⅝@6¾c., cost and freight. The speculation in the market for contracts has been quiet, and prices have weakened slightly in response to easier foreign advices and a fairly large movement of the crop. Mild grades have been in increased supply; demand has been quiet and prices have weakened to 9c. for good Cucuta. East India growths have been dull and nominal at 24½c. for standard Java. Following are final asking prices:

Sept	5·00c.	Dec	5·65c.	April	5·95c.
Oct	5·30c.	Jan	5·75c.	May	6·00c.
Nov	5·40c.	Mar	5·85c.	July	6·15c.

Raw sugars have been sparingly offered, but as refiners have not been especially anxious for supplies prices have not changed, closing at 4⅜c. for centrifugals, 96 deg. test, and 3 13-16c. for muscovados, 89-deg. test. Refined sugar has been firm but quiet at 5½c. for granulated. Teas have been dull. Other staple groceries have had a moderate sale at full values.

Kentucky tobacco has been in moderate demand. Offerings have been limited and sales made have been at full values. Seed leaf tobacco has been less active but prices have held steady. Sales for the week were 2,175 cases, as follows: 700 cases 1897 crop, New York State flats, 15 to 30c.; 400 cases 1897 crop, Zimmers, p. t.; 250 cases 1897 crop, Dutch, 18c.; 300 cases 1897 crop, Wisconsin Havana, 9 to 12½c.; 100 cases 1896 crop, New England seed leaf, 30 to 37½c.; 75 cases 1896 crop, New England Havana, 30 to 40c.; 100 cases 1895 crop, Pennsylvania Havana, 13c.; 100 cases 1895 crop, Pennsylvania seed leaf, 13c., and 150 cases sundries, 6 to 16c.; also, 150 bales Sumatra, at 80c. to $1 80 in bond.

Straits tin has continued to meet with a moderate sale and prices have been unchanged and steady, closing at 16·15@16·25c. Ingot copper has had only a limited sale, but there has been no pressure to sell, and values have held fairly steady at 12⅜@12½c. for Lake. Lead has been dull and easier, closing at 4c. for domestic. Spelter has been quiet but fairly steady at 4·80@4·85c. for domestic. Pig iron has continued to meet with a fair demand at steady prices, closing at $9 75@$11 50 for domestic.

Refined petroleum has been firmer, closing at 6·65c. in bbls., 4·15c. in bulk and 7·30c. in cases; naphtha unchanged at 6c. Crude certificates have been higher, closing at $1 02; credit balances have been advanced to $1 02. Spirits turpentine has been quiet, but the close was firm at 31@31½c. Rosin has been dull and unchanged at $1 27½@$1 30 for common to good strained. Wool has been dull and unchanged. Hops have been in moderate demand and firmer.

COTTON.

FRIDAY NIGHT, September 16, 1898.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 112,854 bales, against 54,664 bales last week and 32,250 bales the previous week, making the total receipts since the 1st of Sept., 1898, 178,914 bales, against 295,471 bales for the same period of 1897, showing a decrease since Sept. 1, 1898, of 116,557 bales.

Speculation in cotton for future delivery has been more active, but it has been at the expense of prices. The weakness was most pronounced during the latter part of the week. Weaker foreign advices and selling for foreign account, understood to be largely against low firm offers from the South, together with liquidation by tired longs and the absence of force to the buying power, were the principal depressing features. The monthly report by the Government's Agricultural Bureau, issued on Saturday, was less favorable than expected. Immediately following this report prices advanced rather sharply. Subsequently, however, nearly all of the improvement was lost under selling by local operators who placed but little credence in the report. Monday the market was slightly easier early in the day in response to weaker foreign advices and selling for foreign account. Later in the day reports of heavy rains in Louisiana and Eastern Texas stimulated some buying and the market turned steadier, closing with prices unchanged to 2 points higher for the day. Tuesday there was a quiet market and changes in prices were of an unimportant nature. Wednesday the market turned decidedly easier. Foreign advices were weaker and brought a number of selling orders. There were reports of large crop estimates, and during the latter part of the day there was a moderate amount of selling for local account. The close shows a net loss in prices for the day of 9 to 10 points. Thursday the downward tendency continued. Under the increasing movement of the new crop buyers hesitated about purchasing freely, despite the fact that prices had reached a lower basis than was recorded at any time during the cotton year just closed. The depressing feature for the day was free selling by tired longs to liquidate accounts. The close showed a net loss in prices of 7@8 points. To-day the market was steadier early in the day on buying for foreign account but reacted under renewed selling by longs. Toward the close, however, buying by shorts to cover contracts again turned the market steadier, and the close showed prices 1 to 3 points higher for the day. The spot market declined 1-16c. on Wednesday and on Thursday. To-day the market was quiet and easy at 5 11-16c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	4 9/16	4 9/16	4 9/16	4 1/2	4 5/8	4 5/8

☞ The imports into Continental ports the past week have been 26,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 485,041 bales as compared with the same date of 1897, a loss of 97,431 bales over the corresponding date of 1896 and a decrease of 675,612 bales from 1895.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897—is set out in detail below.

Towns.	Movement to September 16, 1898. Receipts. This week.	Since Sept. 1, '98.	Shipm'ts This week.	Stock Sept. 16.	Movement to September 17, 1897. Receipts. This week.	Since Sept. 1, '97.	Shipm'ts This week.	Stock Sept. 17.

* Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 19,703 bales, and are to-night 1,142 bales *more* than at the same period last year. The receipts at all the towns have been 39,628 bales *less* than the same week last year and since Sept. 1 they are 95,589 bales *less* than for the same time in 1897.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Sept. 16 and since Sept. 1 in the last two years are as follows.

September 16.	1898. Week.	1898. Since Sept. 1.	1897. Week.	1897. Since Sept. 1.
Shipped—				
Via St. Louis.....	3,596	7,189	1,417	2,803
Via Cairo.....	1,572	2,530	2,111	3,496

Columbus, Ga.	4 3/4	Montgomery...	4 7/8	Shreveport.....	4 11/16

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening denote that rain has fallen in most sections of the South during the week, and that in some sections of Alabama, Mississippi, Louisiana and Arkansas the rainfall has been rather heavy. Reports from Texas are quite satisfactory, but damage by rust, worms, shedding, etc., etc., is complained of in Mississippi, Arkansas and Alabama. Along the Atlantic the weather has been dry as a rule. Picking is making rapid progress, and the movement of cotton to market is quite free, but in some localities is said to have been checked by the quarantines established against yellow fever.

Galveston, Texas.—Advices from all parts of the State show that picking has been rushed to the utmost extreme during the past week, the warm, clear weather which prevailed being favorable. Reports of worms continue, though serious apprehension from that quarter is not felt. In some localities prospects are stated to be good for a top crop, even where the worms have done injury. There has been rain on two days of the past week, the rainfall reaching three hundredths of an inch. Average thermometer 78, highest 86 lowest 69.

Palestine, Texas.—There has been rain on two days during the week. The rainfall reached fifty-two hundredths of an inch. The thermometer has averaged 73, the highest being 92 and the lowest 54.

Luling, Texas.—The weather has been dry all the week. The thermometer has averaged 78, ranging from 60 to 96.

Dallas, Texas.—Indications point to a light top crop in this vicinity. Cotton is being marketed very rapidly. Dry all the week. The thermometer has ranged from 51 to 97, averaging 79.

San Antonio, Texas.—There has been no rain during the week; minimum temperature 62.

Huntsville, Texas.—There has been rain on one day of the week, to the extent of twelve hundredths of an inch. The thermometer has averaged 76, the highest being 93 and the lowest 59.

Columbia, Texas.—We have had no rain the past week. The thermometer has averaged 78, ranging from 64 to 91.

Cuero, Texas.—Dry weather has prevailed all the week. The thermometer has ranged from 64 to 91, averaging 78.

Brenham, Texas.—We have had rain on one day during the week, the precipitation being one hundredth of an inch. More rain is needed. Average thermometer 79, highest 99, lowest 59.

Corpus Christi, Texas.—There has been no rain during the week. The thermometer has averaged 78, the highest being 88 and the lowest 68.

Weatherford, Texas.—We have had no rain during the week. The thermometer has ranged from 53 to 99, averaging 76.

New Orleans, Louisiana.—We have had a rainfall of seven inches and ninety-eight hundredths on six days during the week. Average thermometer 76, highest 89 and lowest 58.

Shreveport, Louisiana.—We have had rain on three days of the week, the rainfall being four inches and fifty-six hundredths. The thermometer has averaged 74, the highest being 88 and the lowest 58.

Columbus, Mississippi.—The weather has been fine and favorable for picking, which is progressing satisfactorily. There has been no rain during the week. The thermometer has averaged 83, ranging from 65 to 99.

Meridian, Mississippi.—Crops are reported 40 per cent short in some sections of West Alabama. Rain and rust have injured the crop.

Leland, Mississippi.—Boll worms are still damaging cotton and caterpillars are reported on some plantations. The week's rainfall has been ninety-one hundredths of an inch. The thermometer has ranged from 53 to 85, averaging 72·7.

Vicksburg, Mississippi.—Excessive rains have injured bottoms and wet weather has retarded picking. Worms are doing some damage. Rain has fallen on two days of the week, the precipitation being two inches and fifty hundredths. Average thermometer 76, highest 82 and lowest 64.

Greenville, Mississippi.—The weather has been clear and pleasant the past week.

Little Rock, Arkansas.—Cotton, it is asserted, has been damaged twenty-five per cent by excessive rains and worms. There has been rain on five days of the week, to the extent of seven inches and twenty-five hundredths. The thermometer has averaged 72, the highest being 84 and the lowest 60.

Helena, Arkansas.—Farmers complain of rust, blight, shedding and too much weed, but no worms. It has been cloudy most of the week, with light rain on five days, the rainfall reaching eighty-three hundredths of an inch. The thermometer has averaged 70, ranging from 60 to 81.

Memphis, Tennessee.—Picking is general, but local quarantines hinder wagon receipts. We have had rain on three days during the week, with a precipitation of thirty-nine hundredths of an inch. The thermometer has ranged from 59 to 84, averaging 77·6.

Nashville, Tennessee.—The crop is late. Picking has commenced, but there is complaint of too much weed due to the rains. We have had rain during the week, the precipitation reaching thirty-six hundredths of an inch. The thermometer has averaged 75, the highest being 85 and the lowest 65.

Mobile, Alabama.—Crop reports indicate fair weather the latter part of the week; otherwise conditions have been unfavorable. Cotton picking is active. Rain has fallen on four days of the week, the rainfall being three inches and sixteen hundredths. Average thermometer 75, highest 87, lowest 63.

Montgomery, Alabama.—Picking is progressing well and marketing is on a more liberal scale. The quality is mostly poor and the out-turn much reduced. Rain fell on three days in the early part of the week, the precipitation being forty-one hundredths of an inch, but since then the weather has been dry and warmer. The thermometer has averaged 72, ranging from 64 to 85.

Selma, Alabama.—Cotton is opening rapidly. Condition has not improved and the crop will be short of last year. We have had rain on three days of the week, the rainfall reaching forty six hundredths of an inch. The thermometer has ranged from 61 to 88, averaging 75.

Madison, Florida.—There is general complaint of shedding, rust and plants dying in the fields. We have had rain on two days of the week, the precipitation being eighty hundredths of an inch. Average thermometer 76, highest 88, lowest 66.

Savannah, Georgia.—It has rained on one day during the week, to the extent of one hundredth of an inch. The thermometer has averaged 74, ranging from 64 to 84.

Augusta, Georgia.—Picking is now active. The bottom crop has been seriously damaged by the long-continued rains. There has been no rain during the past week. The thermometer has ranged from 57 to 83, averaging 70.

Greenwood, South Carolina.—We have had no rain during the week. The thermometer has averaged 68, ranging from 59 to 78.

Charleston, South Carolina.—There has been only a trace of rain the past week. Average thermometer 74, highest 85, lowest 64.

Stateburg, South Carolina.—There has been no rain during the week, and the last three days have been bright and clear, but to day the weather is cloudy and threatening. Picking is very active. The thermometer has averaged 70·7, the highest being 83 and the lowest 57.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock Sept 15. 1898, and Sept. 16, 1897.

EUROPEAN COTTON CONSUMPTION TO SEPT. 1.—We have received to-day (Friday) by cable Mr. Ellison's figures brought down to Sept. 1. We have also received the revised total for last year and give them for comparison. The spinners' takings in *actual* bales and pounds have been as follows:

October 1 to Sept. 1.	Great Britain.	Continent.	Total.
For 1897-98.			
Takings by spinners...bales	3,186,000	4,702,000	7,888,000
Average weight of bales lbs	507	484	493·3
Takings in pounds.....	1,615,302,000	2,275,868,000	3,891,170,000
For 1896-97.			
Takings by spinners...bales	3,056,000	4,283,000	7,339,000
Average weight of bales.lbs	493	476	485·5
Takings in pounds.....	1,521,972,000	2,038,822,000	3,560,794,000

According to the above, the average weight of the deliveries in Great Britain is 507 pounds per bale this season, against 493 pounds during the same time last season. The Continental deliveries average 484 pounds, against 476 pounds last year, and for the whole of Europe the deliveries average 493·8 pounds per bale against 485·5 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to Sept. 1. Bales of 500 lbs. each, 000s omitted.	1897-98.			1896-97.

* Average weekly consumption is as given by Mr. Ellison; deduction from month's total being made on account of holidays.

NOTE.—Mr. Ellison has revised his figures of consumption for both Great Britain and the Continent for the period since Jan. 1, 1898.

The foregoing shows that the weekly consumption is now 155,000 bales of 500 pounds each, against 149,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 247,000 bales during the month, and are now 358,000 bales more than at the same date last season.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following report on the crop in the Southern States for the week ending Sept. 12:

There appears to be no material improvement in the condition of the cotton crop in the eastern section of the cotton belt; the bolls are opening rapidly and picking is progressing, but complaints are still general of rust, rotting, shedding and sprouting. In the central section reports are somewhat more favorable, except in Mississippi, where the crop is seriously injured. In Texas the bulk of the crop is open and picking is progressing under favorable conditions; the staple is clean, though injurious insects and rust have destroyed prospects of the late and top crop in many places.

JUTE BUTTS, BAGGING, &C.—There has been a fairly active market for jute bagging during the past week, but quotations are as last reported, viz.: 6⅛c. for 1¾ lbs. and 6½c. for 2 lbs., standard grades. Car-load lots of standard brands are quoted at 6⅛c. for 1¾ lbs. and 6½c. for 2 lbs., f. o. b., at New York. The market for jute butts has been quiet but firmer. Quotations are nominally 1·80c. for paper quality and 1⅛c. for mixing.

NEW ENGLAND COTTON MILL SITUATION.—Most of the mills at Fall River are operating in full, but the Border City Mills are closed as a result of a strike of the weavers against what is claimed to be a virtual reduction of wages.

THE AGRICULTURAL DEPARTMENT'S REPORT FOR SEPTEMBER 1.—The Agricultural Department's report on cotton for September 1 is given below:

The returns for cotton to the Statistician of the Department of Agriculture indicate an average condition of 79·8 on September 1, as compared with 91·2 on August 1, a decline of 11·4 points during the month. The average condition on September 1, 1897, was 78·3; on September 1, 1896, 61·2, and the mean of the September averages for the last ten years is 79·4. The decline during August, by States, was as follows: North Carolina, 6 points; South Carolina, 8; Georgia, 11; Alabama, 15; Mississippi, 10; Louisiana, 14; Texas, 18; Arkansas, 4; Tennessee, 2; Oklahoma, 8; in Indian Territory there was a slight improvement. Complaints of excessive rainfall, resulting in shedding and other unfavorable conditions, are general east of the Mississippi River, while the boll worm and Mexican weevil have been very destructive in Texas.

The average condition in the different States is as follows: Virginia, 91; North Carolina, 84; South Carolina, 81; Georgia, 80; Florida, 73; Alabama 80; Mississippi, 78; Louisiana, 76; Texas, 75; Arkansas, 89; Tennessee, 95; Missouri, 94; Oklahoma, 00; Indian Territory, 98.

That the reader may have for comparison the condition, according to the Agricultural Department, for September 1 for a series of years, we give the following, collated from its reports:

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 32,316 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales
NEW YORK—To Liverpool, per steamer Cevic, 408.....	408
To Manchester, per steamer Mozart, 16 Sea Island.....	16
To Havre, per steamer La Champagne, 100.....	100
To Bremen, per steamer Koenigen Luise, 3,349.....	3,349
To Hamburg, per steamer Algoa 100.....	100
To Oporto, per steamer Vega, 200.....	200
To Genoa, per steamer Aller, 420.....	420
To Naples, per steamer Aller, 100.....	100
NEW ORLEANS—To Hamburg—Sept. 12—Steamer Bishopgate, 250.....	250
To Antwerp—Sept 10—Steamer Portuguese Prince, 100...	100
To Genoa—Sept. 10—Steamer Harmonic, 3,044	3,044
GALVESTON—To Liverpool—Sept. 8—Steamer Navigator, 4,335	4,335
To Havre—Sept. 13—Steamer Beneroy, 7,046.....	7,046
To Bremen—Sept. 10—Steamer Ensby Abbey, 4,100.....	4,100
To Hamburg—Sept. 12—Steamer Hiberuia, 100	100
To Rotterdam—Sept. 10—Steamer Anselma de Larrinaga, 1,312.....	1,312
To Copenhagen—Sept. 12—Steamer Pembridge, 1 817.....	1,750
CORPUS CHRISTI, &c.—To Mexico, per railroad, 103.....	103
NORFOLK—To Hamburg—Sept 10—Steamer Hillcrag, 750.....	750
To Bremen—Sept. 13—Steamer Corcovado, 820	820
BOSTON—To Liverpool—Sept. 8—Steamer Few England, 1,606 ....Sept. 10—Steamer Michigan, 1.....	1,607
To St. John, N. B—Sept. 12—St. Croix, 59.....	59
BALTIMORE—To Liverpool—Sept. 7—Steamer Indore, 1,485.... Sept. 14—Steamer Ikbal, 695.....	2,180
Total.....	32,316

The particulars of the foregoing shipments, arranged in our usual form, are as follows.

BREADSTUFFS.

FRIDAY, Sept. 16, 1898.

A moderate volume of business has been transacted in the market for wheat flour. Owing to a hardening tendency to values for grain, particularly for immediate deliveries, the home trade buyers have shown more of a disposition to anticipate their wants at the low prices recently ruling and they have been better buyers. Exporters also have given increased attention to the market. During the latter part of the week, reflecting the advance in the grain together with the improved demand, higher prices were asked and paid. Rye flour has had a moderate sale and prices have advanced slightly. Corn meal has been in moderate demand from both the home trade and exporters; prices have been unchanged and steady.

Speculation in wheat for future delivery has been fairly active and for the week prices show a moderate advance. There has been considerable buying by shorts to cover contracts, stimulated by the continued high premiums being paid for cash supplies, the continued small visible supply despite the free movement of the crop and an active export demand. Early in the week, however, there was an easier turn to values, prices on Saturday showing a loss of ½@1c. under moderately free offerings, stimulated by a large movement of the crop in the Northwest. Monday there developed a steadier tone. The comparatively small visible supply together with a falling off in the crop movement and a good export demand, were the principal strengthening features, and prices advanced ⅛@½c. Tuesday the market was again higher. The crop movement in the Northwest was large, but this was more than offset by an unusually active call for export, which stimulated a demand from shorts to cover contracts and prices for the day showed an advance of ½c. to 1⅛c. Wednesday the market showed a slightly easier tone, reflecting weaker advices from the United Kingdom. The close, however, was steady, with prices unchanged to ⅛c. lower for the day. Thursday there was a fairly active market and prices advanced rather sharply on shorts becoming somewhat nervous over the situation, due to the continued active export demand. They bought rather freely to cover contracts and prices for the day advanced ⅞c. to 2⅝c. To-day the market was moderately active, but the tone was easier. The short interest had been largely eliminated and under expected larger receipts in the Northwest and realizing sales by longs prices declined, closing ⅝c. to 1¼c. lower for the day. The spot market was fairly active. The sales for export here and at outports were 320,000 bushels.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	68	68½	69⅝	69½	72⅛	70⅞
December delivery.....c.	68⅛	66⅜	66⅞	66⅞	68½	67⅛
May delivery.....c.	67⅝	67¾	68⅜	68⅜	69¼	68⅝

Indian corn futures have received only a limited amount of attention, and despite the upward turn to values for wheat the tendency of prices has been steadily downward, due to increased pressure to sell prompted by more favorable weather conditions in the corn belt for a large yield from the growing crop. Saturday prices showed a decline of ½c. and they have been gradually sagging throughout the week. At the lower prices exporters have been fairly large buyers. To-day the market was quiet but steady. The spot market was steady and exporters were fairly large buyers, their purchases here and at outports amounting to 300,000 bushels.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	34½	34¼	34⅛	33¾	33¾	33⅞
December delivery....c.	35	34¾	34⅝	34⅜	34¼	34⅜
May delivery.....c.	..	..	..	36	35⅞	35⅞

Oats for future delivery have been neglected in the local market. At the West trading has been quiet. Immediately following our last report prices declined in sympathy with the weakness of other grains. Subsequently, however, owing to an active export demand, largely from the Continent, together with only a moderate movement of the crop and sympathy with the advance in wheat, the market turned stronger and the loss was more than recovered. To-day the market was quiet and unchanged. Exporters were fair buyers in the spot market, taking 210,000 bushels.

AGRICULTURAL DEPARTMENT'S SEPTEMBER REPORT.—The report of the Department of Agriculture for September 1 respecting cereal crops was issued September 10, as follows:

The decline in the average condition of corn during August was 2·9 points, and the condition on the 1st inst. was 4·8 points higher than on September 1, 1897, 6·9 points lower than on September 1, 1896, and eight-tenths of one point higher than the mean of the September averages of the last ten years. There was a marked decline during August in several of the principal corn-producing States, the decline amounting to 10 points in Iowa, 9 points in Kansas and 23 points in Nebraska. On the other hand, 21 States, with an average annual production of nearly one thousand million bushels, show a more or less improved condition as compared with August 1. There was an improvement of 3 points in Ohio, 9 in Indiana, 8 in Illinois and 3 in Missouri.

The condition of wheat—96·7—is 1 point higher than on September 1, 1897, 12·1 points higher than on September 1, 1896, and 5·1 points above the mean of the September averages of the last ten years. In accordance with its practice, the Department has not yet made any quantitative estimate of the wheat crop and will not do so until it completes its revision of the wheat acreage, which will show some increase over the preliminary figures.

The average condition of oats was 79·0, against 84·6 on September 1, 1897, 74·0 on September 1, 1896, and a September average of the last ten years of 80·8.

The average condition of barley was 79·2, as compared with 86·4, on September 1, 1897, 83·1 on September 1, 1896, and a September average of the last ten years of 84·8.

The average condition of rye was 89·4, against 90·1 on September 1, 1897, 82·0 on September 1, 1896, and 87·8, the September average of the last ten years.

The average condition of buckwheat was 83·8, as compared with 95·1 on September 1, 1897, 93·2 on September 1, 1896, and 87·7, the September average of the last ten years.

The average condition of Irish potatoes was 77·7. This shows a decline of 6·2 points during August, but the condition is still 11 points above that on September 1, 1897, and only seven-tenths of one point below the mean of the September averages of the last ten years.

Nearly all the important tobacco-growing States report from 89 to 98 per cent of a full normal crop.

The rice crop promises to be much above the average, Louisiana leading off with a condition of 101.

Clover seed reports indicate a reduced acreage and in the main an unfavorable condition.

The sugar cane reports are exceedingly high, that of Louisiana in particular being 2 per cent above a full normal crop.

There has been a further decline during the month in the condition of the apple crop, only four States in the Union reporting the slightest improvement during August.

Taking the country as a whole, there is probably about two-thirds of a full peach crop.

The number of hogs for fattening shows a decrease of 6·5 per cent from that of last year. As regards condition, the reports are in the main very favorable, the general average being 96·1, as compared with 93·5 on September 1, 1897; 94·5 on September 1, 1896, and 94·3, the mean of the September averages of the last ten years.

The condition of the various crops on September 1 for a series of years is as follows:

September 1.	1898.	1897.	1896.	1895.	1894.	1893.	1892.
Corn	84·1	79·3	91·0	96·4	63·4	76·7	79·6
Wheat	86·7	85·7	74·6	75·4	85·7	74·0	85·3

THE DRY GOODS TRADE.

New York, Friday, P. M., Sept. 16, 1898.

There has been an increase in the volume of business doing this week, cooler weather here and elsewhere exercising a stimulating influence over the general demand. The attendance of buyers has been good and mail orders liberal in number, but there has not been any change in the character of buying. That is, the orders for all descriptions of merchandise continue conservative. Positive requirements are, however, widespread and large enough in the aggregate to insure the constant movement of a considerable volume of merchandise. Business conditions are satisfactory except in the primary market. Jobbers and other second-hand distributers have so far had a year of large results with prospects of a better sustained business for the balance of the year than usual, and are not troubled by stocks on hand. Their policy has been to keep but little more than abreast of their needs, and it is the steady adherence to this policy which has been, and is still, troubling first hand sellers, for it leaves to the primary market the trouble and expense of carrying surplus stocks, and that means some difficulty in maintaining values. This week the market has shown no material change in prices of cotton goods, but the tendency is in favor of buyers. Woolens have again ruled dull, with a break of 5c. per yard in a leading line of clay worsteds.

Domestic Cotton Goods.—The export's of cotton goods from this port for the week ending September 12 were 6,558 packages, valued at $217,295, their destination being to the points specified in the tables below:

New York to Sept. 12.	1898. Week.	1898. Since Jan. 1.	1897. Week.	1897. Since Jan. 1
Great Britain	42	2,386	61	2,516
Other European	13	80	14	2,520
China	3,389	121,894	653	98,227
India	55	9,787	1,134	7,421
Arabia	1,456	26,074	915	17,872
Africa	427	9,385	350	14,485
West Indies	163	10,401	246	10,250
Mexico	5	3,069	32	2,440
Central America	33	5,201	55	6,006
South America	678	37,092	246	33,915
Other Countries	302	13,282	219	3,608
Total	6,558	239,381	3,928	209,260
China, via Vancouver*	.....	17,836	1,400	15,966
Total	6,558	257,217	5,328	216,226

* From New England mill points direct.

The value of the New York exports for the year to date has been $8,355,072 in 1898 against $7,800,130 in 1897.

Sellers are easy to deal with in most lines of heavy brown sheetings and drills, but prices are not quotably lower. The domand for light-weights has fallen away and the tone is easier. Ducks occasionally 10 per cent lower. Osnaburgs dull and weak. Medium and fine grade bleached cottons in more general request, but orders still light, prices irregular, low grades steady, but demand indifferent. Wide sheetings quiet and irregular. Cotton flannels and blankets are quiet, but prices are well maintained. Denims weak and occasionally ¼c. lower, with poor demand. Other coarse, colored cottons dull and barely steady. White goods in fair request for spring. Kid-finished cambrics inactive and barely steady. Fancy calicoes steady for best makes, but others weak and irregular. More staple lines in average demand at previous prices. Staple and dark dress ginghams steady, with moderate sales. Fine ginghams for spring doing well. Print cloths have been inactive all week and closed unchanged at 2 1-16c. for extras, but barely steady.

Woolen Goods.—There has been more business doing in clay worsteds than for some time past as the result of the Washington Mills reducing their prices 5c. per yard to the basis of $1 15 for 16-ounce goods and giving sellers protection for the balance of the year. Beyond this there has been no new feature in the market for men's-wear woolen and worsted fabrics. The demand for light-weights for spring has been slow and is still for little better than sample pieces and the outlook is decidedly unsatisfactory. Prices show no quotable change beyond that already noted, but the tendency is in favor of buyers. Satinets and doeskin jeans dull and featureless. Overcoatings show some demand for Kerseys, but are otherwise slow. Cloakings inactive throughout. Dress goods for fall irregular, with moderate demand, and little doing for spring. Flannels and blankets dull but prices are steady.

Foreign Dry Goods.—Importers are opening up new spring lines of dress goods but buyers are slow in placing orders and price situation uncertain. Silks for spring show upward tendency in prices. Business on fall account has been irregular and made up of quite small orders.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars per year within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

STANDING BUSINESS CARDS.		Six months (26 times)	43 00
Two months (8 times)	18 00	Twelve Months (52 times)	58 00

Chicago, Ill.—*New City Charter.*—At a meeting of the City Council held September 12, 1898, a resolution was adopted providing for a commission of nine members to prepare a new form of government for the city of Chicago.

Des Moines, Iowa.—*Proposed Purchase of Water Works Defeated.*—On September 5, 1898, the voters of this place defeated the proposition to purchase the plant of the Des Moines Water-Works Company for $850,000. The vote was 3,760 for to 3,929 against.

Duluth, Minn.—*Bond Litigation.*—We take the following dispatch dated Duluth, September 7, 1898, from the St. Paul "Pioneer Press:"

Judge Ensign has decided in favor of the bond injunction case of Harry T. Moore against the city. This decision does not finally settle the case, however. The case came up on a demurrer by the petitioner to the answer of the city on the ground that it does not constitute a defense. Judge Ensign overrules the demurrer, holding that the answer sets up a good defense, but there are some issues of fact in the case that could not be heard on an argument of a demurrer. The suit was brought to have the city enjoined from issuing $300,000 in bonds for the purpose of extending the water plant recently purchased.

These bonds were authorized at a special election held in 1895, but were not issued at the time.

New York City.—*Bond Suits.*—On September 15, 1898, Justice Gildersleeve, in the Supreme Court, denied the application made by Vermilye & Co. for a writ of certiorari directing the Comptroller to review his action in declining to accept their bid of 105 03 for the $12,698,992 36 3½% gold bonds and awarding the bonds to the Produce Exchange Trust Co. at 104·04. Previous to the institution of the various suits growing out of the award of the bonds to the Produce Exchange Trust Co. the latter had deposited $8,000,000 on account. The Comptroller after the decision of Friday last called upon the company to pay the balance, and we are informed by Mr. Coler that the final payment was made before the close of business yesterday.

On September 13, 1898, Justice Beekman denied an application of The Lambrecht Bros. Co., Cleveland, for a mandamus directing the City Comptroller to issue to them $45,000 corporate stock of the city of New York in place of a like amount of College Point bonds awarded to them December 29, 1897, prior to the annexation of that village to the city of New York.

Oregon.—*Special Session of Legislature.*—A special session of the State Legislature has been called to meet September 26, 1898, when appropriations will probably be made to meet the payment of the outstanding warrants which on September 1, 1898, amounted to $653,000. Funds are in hand for this purpose, but cannot be used until authorized.

Bond Proposals and Negotiations this week have been as follows:

Aberdeen, S. Dak.—*Bond Sale.*—On September 12, 1898, the $23,000 5% refunding bonds were awarded to N. W. Harris & Co., Chicago, at 103·109. Bonds mature October 1, 1918, subject to call $1,000 each year commencing October 1, 1899. For further description of bonds see CHRONICLE August 27, 1898, p. 412.

Aiken, S. C.—*Bonds Voted.*—At an election held on September 1, 1898, the proposition to issue $10,000 sewer bonds was carried by a vote of 93 to 5.

Akron, Ohio.—*Bond Sale.*—On September 10, 1898, $63,700 5% coupon bonds of this city were awarded to R. L. Day & Co., Boston, at 104·067. Proposals were asked for $84,100 of bonds, but at the last moment the Board of City Commissioners decided to issue only $63,700. The bids received for this amount were as follows:

R. L. Day & Co., Boston	$66,291	Lamprecht Bros. Co., Cleve	$65,935
Adams & Co., Boston	66,231	Briggs, Smith & Co., Cincinnati	65,850
Denison, Prior & Co., Cleveland	66,133	Seasongood & Mayer, Cincin.	65,368

The following bids were received by mail on the $84,100 lot:

W. J. Hayes & Sons, Cleveland	$87,664	S. A. Kean, Chicago	$86,729
Blodget, Merritt & Co., Boston	87,531	New First Nat. Bank, Columbus	84,412

Mr. Isbell, the City Clerk, says that considering the fact that the average time for the entire issue, $84,100, was three years and six months, while the $63,700 lot averaged but three years and two months, the bidders on the entire issue were below several bidders on the $63,700 lot. For description of bonds see CHRONICLE of August 20, 1898, p. 386.

Arkansas City, Kan.—*Bond Offering.*—Mayor J. W. Sparks has issued notice that he will sell on September 19, 1898, $95,000 of bonds for the purpose of purchasing the Arkansas City Water-Works. Securities will be in denominations of not less than $10 and not more than $200. Interest, not to exceed 6%, will be payable semi annually at the fiscal agency of the State of Kansas in the city of New York. Principal will mature in 20 years or less. Bonds are issued pursuant to Ordinance No. 475, passed in Council August 23, 1898.

Atchison, Kan.—*Bond Sale.*—The city recently sold $3,490 6% 1-10 year street-improvement bonds at par to the contractors for the work according to their agreement with the city.

Athens, Ga.—*Bonds Proposed.*—The citizens of this city are discussing the question of issuing about $50,000 street-paving bonds.

Atlanta, Ga.—*Bond Election.*—As stated in the CHRONICLE of May 7, 1898, an election will be held on October 5, 1898, to vote on the question of issuing $200,000 water-works bonds. If authorized, bonds will bear 4% interest, payable semi annually, and the principal will mature within 30 years from date of issue. Both principal and interest will be payable in gold.

Attleborough, Mass.—*Bond Sale.*—On September 13, 1898, $13,000 4% gold water supply bonds were awarded to the First National Bank of Attleborough at 114. Following are the bids:

First National Bank of Attleborough	114·00	C. W. Wilbur, Boston	110·79
E. H. Rollins & Sons, Boston	113·81	W. J. Hayes & Sons, Cleveland	110·70
Adams & Co., Boston	113·17	Estabrook & Co., Boston	111·761
Parkinson & Burr, Boston	113·345	R. L. Day & Co., Boston	111·762
Blake Bros. & Co., Boston	112·27	Blodget, Merritt & Co., Boston	112·34
W. Holman Cary, Boston	112·637	N. W. Harris & Co., New York	112·378
Jose, Parker & Co., Boston	112·17	Henry S. Dorr, Boston	111·23
		Third National Bank of Boston	110·72

Bonds are dated July 1, 1898; interest will be payable semi-annually at the Boston Safe Deposit & Trust Co. Principal will mature July 1, 1928.

Bath, Me.—*Bids.*—The New York "News Bureau" yesterday had a dispatch stating that the following bids were received on September 15, 1898, for the city of Bath 4% 20-year new refunding bonds, amounting to $133,650; Parkinson & Burr, 104·04; Adams & Co., 106·18; E. H. Rollins & Son, 104·8377; Blodget, Merritt & Co., 103·07. No award was made.

Bay City, Mich.—*Bond Offering.*—Proposals will be received until 8 P. M. (city time) September 19, 1898, by Geo. F. Ambrose, City Comptroller, for $18,000 4% water works refunding bonds. Securities will be in denomination of $1,000, dated October 15, 1898; interest will be payable annually at the National Bank of Commerce, New York City. Principal will mature Oct. 15, 1928. The city guarantees that bonds are legally issued under authority of the State Legislature. Each bid must be accompanied by an unconditional certified New York draft for $500, made payable to the City Comptroller.

Bayonne, N. J.—*Bond Sale.*—The city has sold $50,000 4% 6-year street-improvement bonds to the Hudson County National Bank, Jersey City, at par.

Beaumont, Texas.—*Bonds Approved and Registered.*—On September 6, 1898, the Attorney-General approved and the Comptroller registered the $15,000 5% street-paving and water-works bonds which were sold on July 28 last to N. W. Harris & Co., Chicago, at 101·383.

Beaverhead County, Mont.—*Bond Sale.*—On September 5, 1898, the $20,000 5% 10-20-year (optional) refunding county bonds were awarded as follows: $13,500 to N. W. Harris & Co. at 103·675, $1,500 to C. H. White & Co., New York, at 105 and $5,000 to local investors at 104·625.

Biloxi, Miss.—*Temporary Loan Authorized.*—The Mayor and Chairman of the Finance Committee have been authorized to borrow $500 for 90 days to meet current expenses.

Binghamton, N. Y.—*Loan Authorized.*—The Mayor and Clerk have been authorized to borrow from the Binghamton Savings Bank $1,230 56, and to issue the notes of the city in payment thereof as follows: Note for $615 28, dated September 1, 1898, due September 10, 1899, and note for same amount under same date due September 10, 1900. Notes to bear 5% interest, payable annually, and are issued to meet deferred assessments on account of the construction of the Vestal Avenue and Genesee Street sewer.

Blakely (Borough), Pa.—*Bond Offering.*—Proposals will be received until 7 P. M. September 26, 1898, by T. E. Williams, Borough Secretary (P. O. Box 134, Olyphant, Pa.), for $15,000 5% coupon electric light bonds. Securities will be in denomination of $500, dated October 1, 1898; interest will be payable April 1 and October 1 at the First National Bank of Scranton. Bonds Nos. 1 to 15, inclusive, will be redeemable October 1, 1903, and bonds Nos. 16 to 30, inclusive, will be redeemable October 1, 1908. Bonds are duly authorized by Acts of Legislature and borough ordinances, and are free from all tax. According to the official circular the borough has never defaulted in payment, and the legality of this issue has not been questioned. Each bid must be accompanied by a certified check for $200, payable to the Borough Secretary. The assessed valuation of the borough is $429,622. Total bonded debt, including this issue, will be $16,000. The population is about 4,500.

Bloomington (Village), Wis.—*Bonds Proposed.*—Local papers state that the Wisconsin Southern Railroad Co. (a proposed road) will petition this village to issue $4 000 of bonds for the purchase of 40 shares of stock in their railroad.

Boston, Mass.—*Temporary Loan.*—Local papers state that the City Treasurer has negotiated a loan of $800,000 at 2¾% interest. This is the first time, according to the report, that the Treasurer has borrowed this year.

Bristol County (P. O. Taunton), Mass.—*Bond Offering.*—Proposals will be received until 10 A. M. September 22, 1898, by Edward Mott, Chairman County Commissioners, for $160,000 4% loan. Notes are issued pursuant with Chapter 368, Acts of 1898; Chapters 239 and 530, Acts of 1894; Chapter 200, Acts of 1897, and Chapter 387, Acts of 1898. Notes are in denomination of $20,000, dated September 23, 1898. Interest will be payable semi-annually, and the principal will mature September 23, 1902.

Brunswick, Md.—*Bonds Authorized.*—This city has recently authorized the issuance of $2,500 5% street improvement bonds. Interest will be payable annually at the Savings Bank of Brunswick, and the principal will mature 25 years from date of issue. Date of sale has not been determined; we are advised that it will probably take place in the spring of 1899.

Bonds Defeated.—At a recent election the issuance of $3,500 municipal bonds was defeated.

Carbondale (Kan.) School District.—*Bond Sale.*—This district has recently sold $1,500 of school bonds.

Carthage, Mo.—*Bond Sale.*—On September 10, 1898, the $25,000 refunding bonds were awarded to Trowbridge, MacDonald & Niver Co., Chicago, at 100·72 for 4 per cents. Following are the bids:

For 4% Bonds.		*For 4½% Bonds.*	
Trowbridge, MacDonald & Niver Co.	$25,180 00	Miss. Val. Tr. Co., St. Louis	$25,476 00
Mason, Lewis & Co., Chicago	25,057 00	N. W. Harris & Co., Chicago	25,364 50
A. G. Newell & Sons, Carthage	25,050 00	S. A. Kean, Chicago	25,312 50
N. W. Harris & Co., Chicago	Par	Rudolph Kleybolte & Co., Cin.	25,201 00
Wernse & Bleckman (less $300)	Par	Seasongood & Mayer, Cincin.	25,152 50
Miss. Val. Tr. Co. (less $375)	Par	Chas. H. Coffin, Chicago	25,124 00
For 4½% Bonds.		F. R. Fulton & Co., Chicago	25,102 00
Lamprecht Bros. Co., Cleve.	$25,631 25	Farson, Leach & Co., Chic.	25,100 00
Donaldson Bond & Stock Co.	25,538 50	*For 5% Bonds.*	
		F. R. Fulton & Co., Chicago	$26,022 00

Bonds mature August 1, 1911, subject to call $3,000 yearly after August 1, 1903, and $10,000 after August 1, 1908. For further description of bonds see CHRONICLE August 27, 1898, p. 442.

Cedar Vale, Kan.—*Bond Offering.*—Proposals will be received at any time for $5,000 6% gold water-works bonds. Interest will be payable semi annually, and the principal will mature in 20 years, subject to call after 5 years. Bonds will be sold to the first bidder at par.

Champaign, Ill.—*Bond Sale.*—On September 6, 1898, $3,000 5% street improvement bonds were sold to Farson, Leach & Co., Chicago, at 100·712. Following are the bids:

Farson, Leach & Co., Chicago	$8,537 00	Denison, Prior & Co., Cleve	$8,516 00
N. W. Harris & Co., Chicago	8,489 00	Rhode Island Title Trust Co.	8,250 40
Mason, Lewis & Co., Chicago	*8,471 00	First Nat. Bank, Champaign	8,200 00
W. J. Hayes & Sons, Cleve.	8,393 00	Duke M. Farson, Chicago	*8,168 00
		S. A. Kean, Chicago	7,810 00

* And blank bonds.

Securities are in denomination of $500, dated August 1, 1898; interest will be payable semi-annually. Principal will mature $3,000 August 1, 1900, and $5,000 August 1, 1903. The total amount of bonds of this issue is $13,000, the remaining $5,000 being held by the city for the present. Frank G. Carnahan is the City Clerk.

Chicago, Ill.—*Bond Sale.*—Following are the bids received September 12, 1898, for the $100,000 3½% gold refunding bonds:

N. W. Harris & Co., Chicago	103·289	S. A. Kean, Chicago	101·25
First National Bank, Chicago	101·258	Mason, Lewis & Co., Chicago	101·475
E. H. Rollins & Co., Boston	103·277	Illinois Trust & Savings Bank, Chicago	101·730
Estabrook & Co., Boston	103·56	Home Savings Bank, Chicago	101·025
R. Kleybolte & Co., Cincinnati	103·899		

Bonds were awarded to N. W. Harris & Co., the highest bidders. Bonds mature October 1, 1918. For further description of bonds see CHRONICLE September 3, 1898, p. 497.

Cleveland, Ohio.—*Bond Offering.*—Proposals will be received until 12 M. October 10, 1898, by H. L. Rossiter, City Auditor, for $250,000 4% river and harbor coupon bonds maturing October 1, 1908. Securities will be coupon bonds of $1,000, dated October 1, 1898, interest payable semi annually, both principal and interest being payable at the American Exchange National Bank, New York City. A certified check drawn on a national bank for $10,000, payable to the "Treasurer of the city of Cleveland," must accompany bids. These bonds are issued under ordinance No. 20,929, the total amount authorized being $500,000.

Coloma (Village), Mich.—*Bonds Defeated.*—At a recent election held in this village the proposition to issue $10,000 of bonds was defeated.

Colton, Cal.—*Bond Offering.*—Proposals will be received until September 30, 1898, for $20,000 6% 1 40-year water-works bonds, according to reports.

Condon, Ore.—*Bonds Voted.*—On September 3, 1898, the issuance of $3,000 water-works bonds was authorized by a vote of 24 to 1.

Coshocton, Ohio.—*Bond Sale.*—On September 13, 1898, the $22,500 6% street-paving bonds were awarded to Denison, Prior & Co., Cleveland, at 112·60. Following are the bids:

Denison, Prior & Co., Cleve.	$25,334 00	Briggs, Smith & Co., Cincin.	$25,015 00
Rudolph Kleybolte & Co., Cin.	25,418 25	New First Nat. Bank, Cincin.	24,765 75
Seasongood & Mayer, Cincin.	25,110 00	Commercial Bank	24,300 00

The bid of Rudolph Kleybolte & Co., Cincinnati, while the highest, demanded an ordinance providing for assessments for the payment of the bonds at maturity. This the Council refused to do, and awarded the bonds to the Cleveland firm. Securities mature $1,500 yearly on September 1 from 1900 to 1914, inclusive. For further description of bonds see CHRONICLE September 3, 1898, p. 497.

Cullom (Ill.), School District.—*Bond Issue.*—It has been reported that the $4,000 6% school bonds which were recently authorized had been sold. We are advised that the bonds are not yet disposed of, but that negotiations are pending whereby the city expects to sell them at private sale to Mason, Lewis & Co., Chicago, at 102 50.

Denver, Col.—*Bonds Approved.*—On September 2, 1898, an issue of $27,500 6% Logan Avenue improvement bonds was approved by the Board of Public Works.

East Lincoln (Town), Logan County, Ill.—*Bonds Registered.*—On September 6, 1898, the Auditor of Public Accounts registered the $72,000 4% refunding bonds of this township, which were sold on July 6 to N. W. Harris & Co., Chicago, at 100·618.

Easton, Pa.—*Bonds Not Authorized.*—It has been reported that the City Council had authorized the issuance of $8,500 in bonds to pay for the purchase of a garbage crematory. We are advised by the City Clerk that no such bonds will be issued. He says: "An ordinance was introduced, but no action on it has been had nor is it likely to be passed."

Goldfield (Town), Col.—*Bond Sale.*—On September 3, 1898, this town sold $25,000 water-works bonds at private sale. These bonds were authorized at a recent election.

Gretna School District No. 37, Sarpy County, Neb.—*Bond Offering.*—Proposals will be received until October 10, 1898, by P. J. Langdon, Secretary Board of Education, for $2,500 5% school building bonds. Interest will be payable April 1 and Oct. 1 and the principal will mature Oct. 1, 1903.

Hagerstown, Md.—*Bond Sale.*—On September 13, 1898, $3,001 4% street paving bonds were awarded to local investors as follows: Sam'l J. Ronsheip $2,801; E. G. Kinsell, $100, and John Stinemetz, $100. The bonds were sold at auction, and brought an average price of 104·233. Bonds are in denominations of $10 and $200, and mature one bond of $200 yearly from 1901 to 1910, inclusive, and $100 yearly from 1911 to 1920, inclusive.

Hasbrouck Heights, N. J.—*Bond Sale.*—The $15,000 1898 year bonds of this borough have been awarded to R. B. Smith & Co., New York, at 101·33, for 4½% bonds. Bids were also received from Benwell & Everitt, New York, and Walter Stanton & Co., New York, at 105·75 and 105·60 respectively, for 5 per cents. For description of bonds see CHRONICLE, August 13, 1898, p. 335.

Houlton (Town), Me.—*Bond Offering.*—Proposals will be received until September 20, 1898, by the Selectmen, for $10,000 (or less) 4% refunding bonds. Securities will be in denomination of $1,000, dated October 1, 1898; interest will be payable semi-annually in Boston or Houlton, as determined by the purchaser. Principal will mature October 1, 1918. A deposit of 5% of the amount of the bonds allotted to the successful bidder or bidders must be made as soon as they are notified. The assessed valuation of the town is $2,244,739 and the population about 6,000.

Houston, Texas.—*Bond Sale.*—On September 13, 1898, $100,000 5% 40-year street-improvement bonds were awarded to Rudolph Kleybolte & Co., New York, at 106·526. These are the bonds, we are informed, that were awarded last month to W. J. Hayes & Sons, Cleveland, but according to local papers the city re advertised the same for sale, claiming that the Cleveland firm had not complied with the terms of the purchase and had forfeited the $2,000 put up with their bid. An injunction was served upon the city before the hour of the sale at the instance of W. J. Hayes & Sons, who have now entered suit in the Eleventh District Court to prevent the city from re selling the bonds. The award to Rudolph Kleybolte & Co. was conditioned upon the outcome of the injunction proceedings, which will be heard September 22, 1898.

Hyde Park, Mass.—*Bonds Not to Be Issued at Present.*—We are advised by the Town Treasurer that the $100,000 sewer bonds which were authorized last June will not be issued this year.

Independence, Mo.—*Proposed Bond Election.*—The matter of holding an election to vote on the question of issuing sewer bonds is still under consideration, but nothing definite has yet been done in the matter.

Iona Lake School District, Murray County, Minn.—*Bond Sale.*—This county recently voted to issue $2,500 bonds for a new school house. We are advised that the money has been loaned by the State. Securities are in denomination of $200; interest will be payable annually at the County Auditor's office. Principal will mature $200 yearly until entire loan is paid.

Jo Daviess County, Ill.—*Bond Election.*—At the fall election the question of issuing $20,000 bonds to improve the court-house will be voted upon.

Laurel, Miss.—*Bond Offering.*—Proposals will be received by the Town Clerk until January 1, 1899, for $5,000 6% school bonds. Securities are in denomination of $500; interest will be payable annually on January 1. Principal will mature $500 yearly. Bonds will be subject to call after five years.

Louisville, Ky.—*Loan Proposed.*—The Finance Committee of the General Council has under consideration the appropriation of $400,000 for the running expenses of the city government. Of this amount $200,000 will be raised by a loan, in anticipation of the collection of taxes.

McComb City, Miss.—*Further Details of Bond Offering.*—As stated in the CHRONICLE of August 20, 1898, proposals will be received until 7 P. M., September 21, 1898, by O. B. Quin, Mayor, for $35,000 water works bonds. We are now advised that the securities will be in denomination of $500, dated October 5, 1898; interest will be at the rate of 6%, payable annually in McComb City. Principal will mature October 5, 1918, subject to call after October 5, 1903. Each bid must be accompanied with a certified check for $500. Bonds are issued under Chapter 93, Annotated Code of State of Mississippi (1892), sections 2948, 3014, 3015 and 3016, and were authorized at the special election held on May 9, 1898.

McKees Rocks, Pa.—*Bond Sale.*—On September 5, 1898, $40,000 5% improvement bonds were awarded to Wm. M. Bell & Co., Pittsburg. Bonds are in denomination of $500, dated September 1, 1898. Interest will be payable semi-annually.

Madison (Town), Fla.—*Loan Authorized.*—According to local papers an election will be held October 4, 1898, to vote on the proposition to borrow $2,000 at not more than 6% interest, the principal to be payable $200 yearly, and the town to be privileged to call in and pay any or all of the instalments after the first year.

Madison, Wis.—*Bond Sale.*—On September 9, 1898, the $37,000 sewer-improvement bonds were awarded to N. W. Harris & Co., Chicago, at 101·891 for a 4% bond. Principal will mature July 1, 1918, subject to call on any July 1 after 1908. For description of bonds see CHRONICLE, August 20, 1898, p. 339.

Mahtowa (Minn.) School District No. 5.—*Bonds Voted.*—This district recently voted to issue $500 in bonds to pay its indebtedness.

Malden, Mass.—*Temporary Loan.*—The city has negotiated a three months' loan of $50,000 with Geo. Mixter, Boston, at 2·97%. Following bids were received:

Geo. Mixter, Boston	2·97%	Wm. O. Gay & Co., Boston	3·37%
Rogers, Newman & Tolman, Bost.	3·244	Bond & Goodwin, Boston	3·87%
Chas. Weil	3·253	Blake Bros. & Co., Boston	3·90%
Blodget, Merritt & Co., Boston	3·33%		

Manchester, Va.—*Loan Negotiated.*—The city has negotiated the loan of $9,000 for the construction of a shirt factory, which we recently reported as authorized.

Marlborough, Mass.—*Bids.*—As stated in the CHRONICLE of last week, page 549, $6,000 4% water bonds and $20,000 4% sewer bonds were awarded to Estabrook & Co., Boston, at 110·291. The following bids were received:

	Entire Issues.	$20,000 Sewer.	$6,000 Water.
Estabrook & Co., Boston	110·291	.....	.....
H. L. Day & Co., Boston	.....	109·539	112·639
Parkinson & Burr, Boston	.....	109·279	110·78
C. B. Wilbur & Co.	.....	108·91	111·21
Rudolph Kleybolte & Co., Cincinnati	.....	108·71	110·81
Blodget, Merritt & Co., Boston	108·906	.....	.....
Adams & Co., Boston	108·773	.....	.....
E. H. Rollins & Sons, Boston	.....	108·337	110·079
Jose, Parker & Co., Boston	.....	108·185	110·196
Blake Bros. & Co., Boston	.....	108·150	109·99

Mendota, Ill.—*Bonds Issued and Partly Sold.*—The City Council has authorized the issuance and sale (as the money is needed) of $11,400 5% sewer bonds. Securities are in denomination of $100, dated August 15, 1898. Principal will mature $1,500 yearly on August 15 from 1900 to 1906 and $900 on August 15, 1907. $4,000 of these bonds were sold on August 23 to local parties at par. The rest of the issue will be sold from time to time as the city needs the money. We are advised that a second issue of $5,800 will be made later on, the date of which has not yet been determined.

The only other debt of the city is $2,000 water bonds. Assessment in 1897 was $453,000.

Mercer County, Ky.—*Bond Sale.*—On September 7, 1898, according to local papers, the $145,000 4% refunding bonds were awarded to John B. Thompson, a local investor, at par. For description of bonds see CHRONICLE Sept. 7, 1898, p. 389.

Millheim (Borough), Pa.—*Bonds Defeated.*—On September 12 the proposition to issue water-works bonds was defeated by a vote of 68 against to 51 in favor of the issue. No further action will be taken by the Council. There is some talk of a private company being formed.

Minnesota.—*Loans Authorized.*—The St. Paul "Pioneer Press" states that the following loans to school districts were approved by the State Board of Investment: District No. 2, Aitkin, $475; No. 25, Aitkin, $178; No. 11, Cottonwood, $500; No. 105, Fillmore, $600; No. 65, Freeborn, $800; No. 36, Hubbard, $500; No. 44, Le Sueur, $600; No. 17, Lincoln, $125; No. 80, McLeod, $500; No. 81, McLeod, $800; No. 12, Mille Lacs, $600; No. 90, Morrison, $500; No. 91, Morrison, $125; No. 33, Morrison, $1,125; No. 63, Meeker, $600; No. 81, Mower, $800; No. 22, Nobles, $500; No. 52, Nobles, $300; No. 94, Nobles, $500; No. 24, Norman, $400; Royalton, Pine County, $200; No. 129, Renville, $500; No. 23, Redwood, $1,920; No. 69, Rice, $200; No. 61, Sibley, $600; No. 189, Stearns, $500; No. 182, Stearns, $900; No. 127, Todd, $257; No. 193, Wright, $500.

Missouri.—*Bonds Registered.*—The State Auditor recently registered the following bonds:

$250 7% School District No. 7, 11 and 10 of Ste. Genevieve County, dated September 1, 1898.
300 7% School District No. 2, 53, 7 and 8 of Monroe County, dated September 10, 1898.
600 7% School District No. 2, 13 and 14 of Cape Girardeau County, issued September 1, 1898.

Mobile, Ala.—*Bond Sale.*—On September 12, 1898, the $750,000 4½% water works and sewer bonds were awarded to Sperry, Jones & Co., Baltimore, at 100·563. Bonds mature November 1, 1938. For further description of bonds see CHRONICLE August 6, 1898, page 286.

Monroe (Mich.) School District.—*Bonds to Be Issued.*—This district will issue $12,000 4% school bonds in denomination of $500. Securities will be dated January 1, 1899. Principal will mature $500 yearly, from 1900 to 1910, and $1,000 yearly thereafter. We are advised by the Secretary that the whole amount will probably be taken by local banks.

Moscow (Idaho), School District.—*Bonds to Be Issued Shortly.*—We are advised that the $12,000 6% 10-20-year (optional) bonds authorized at the election held July 13, 1898, will be shortly offered for sale. These bonds will be dated January 1, 1899, and interest will be payable annually on January 1 at the office of the Treasurer of the district.

Mount Moriah (Village), Mo.—*Bond Sale.*—The $4,000 6% school bonds recently registered were sold on September 7, 1898, to the Bank of Mount Moriah at par.

Mount Pleasant, Iowa.—*Bond Sale.*—This city has recently sold an issue of 5% funding bonds.

Mount Pleasant, Mich.—*Bond Election.*—An election will be held September 21, 1898, to vote on the question of issuing $20,000 water works bonds and $7,500 electric light plant bonds.

Mount Sterling, Ky.—*Bond Election.*—At the election to be held on November 8, 1898, the question of issuing $75,000 5% water works bonds will be voted upon. The assessed valuation is about $2,000,000, and the Mayor writes us that the city does not owe a dollar.

New Bedford, Mass.—*Temporary Loan.*—Local reports state that the city has negotiated a temporary loan of $200,000.

New Britain, Conn.—*Bond Sale.*—On September 10, 1898, the $50,000 4% sewer-construction bonds were awarded to R. L. Day & Co., Boston, at 106 829. Following are the bids:

R. L. Day & Co., Boston	106·829	Adams & Co., Boston	104·94
Estabrook & Co., Boston	105·77	Jose, Parker & Co., Boston	104·0125
E. H. Rollins & Sons, Boston	105·637	Blodget, Merritt & Co., Boston	104·77
C. H. Gay & Co., Boston	105·31	Rudolph Kleybolte & Co., N. Y.	104·39
N. W. Harris & Co., New York	105·079	Farson, Leach & Co., N. Y.	103·77

Interest will be payable February 1 and August 1 at New Britain National Bank. Principal will mature August 1, 1925, subject to call after August 1, 1910.

New Castle, Pa.—*Bond Sale.*—On September 12, 1898, the $35,000 4% coupon bonds were awarded to W. J. Hayes & Sons, Cleveland, at 102·368. Bonds mature August 1, 1918, subject to call after August 1, 1908. For further description of bonds see CHRONICLE September 10, 1898, p. 549.

New Richmond (Town), Ohio.—*Bonds Voted.*—At the election held on September 12, 1898, the proposition to issue $30,000 electric-light and water-works bonds was carried by a vote of 7 to 1. Details of the issue are not yet determined.

Ottawa County (P. O. Port Clinton), Ohio.—*Bond Offering.*—Proposals will be received until 12 M. to-day (September 17, 1898), by E. A. Powers, County Auditor, for the $40,000 5% court-house bonds. Securities are in denomination of $500, dated August 1, 1898; interest will be payable February 1 and August 1 at the office of the County Treasurer, Port Clinton. Principal will mature on each February 1 and August 1 as follows:

$500 from Feb. 1, 1899, to Aug. 1, 1903, inclusive.
1,000 each Feb. 1 and $500 each Aug. 1 from Feb. 1, 1904, to Aug. 1, 1908, inclusive.
1,500 each Feb. 1 and $1,000 each Aug. 1 from Feb. 1, 1909, to Aug. 1, 1913, inclusive.
2,000 each Feb. 1 and $1,000 each Aug. 1 from Feb. 1, 1914, to Aug. 1, 1918, inclusive.

Each bid must be accompanied by a certified check or certificate of deposit for $800 on any banking company of Port Clinton, Elmore, Oak Harbor or Fremont, made payable to the County Auditor. Bonds are issued under sections 871 and 872, Revised Statutes of Ohio, pursuant to authority conferred by the voters of the county at a special election held on June 27, 1898.

Peoria, Ill.—*Bonds Redeemed.*—On September 6, 1898, the City Comptroller paid off $21,000 of street improvement bonds which fell due on September 1.

Perham (Village), Otter Tail County, Minn.—*Bond Offering.*—Proposals will be received by the Village Council until 8 P. M. October 4, 1898, for $8,000 (in two series) 6% village bonds, to be dated October 10, 1898. Interest will be payable semi-annually. The first series ($2,000) will be payable on October 10, $500 in 1900, $750 in 1901 and $750 in 1902. The second series ($4,000) will mature on October 10, $500 in 1903, $500 in 1904 and $750 yearly from 1905 to 1908 inclusive. Bids must be made for each series separately. Peter Schroeder is the village President.

Phillipsburg (Town), N. J.—*Bond Offering.*—Proposals will be received until 7 P. M. September 29, 1898, by the Finance Committee—G. G. Stryker, Chairman—for $60,000 4% coupon street improvement bonds and $9,000 4% coupon sewer bonds. Securities will be in denominations of not less than $100 nor more than $4,000, dated October 1, 1898; interest will be payable semi-annually. The street improvement bonds will mature $4,000 yearly on October 1 from 1903 to 1917. The sewer bonds will mature $4,000 in 1906 and $5,000 in 1914. Bids will be opened at the town attorney's office.

Phœnix, Arizona.—*No Election Ordered.*—It has been reported that an election would soon be held to vote on the question of issuing water-works and sewer bonds. We are advised by the City Recorder that no election has yet been ordered and nothing has been determined in regard to such issue.

Portland, Ore.—*Bonds Authorized.*—The issuance of $3,314 47 bonds has been authorized by the City Council.

Powers (Mich.) School District.—*Bond Offering.*—Proposals will be received until 2 P. M. September 21, 1898, for $3,500 6% school bonds. Interest will be payable annually and the principal will mature in ten years from date of issue. Bonds are authorized under General School Laws of Michigan of 1897, Chapter 6, Section 1. Ralph Prince may be addressed on the subject.

Richwood (Village), Ohio.—*Bonds Authorized.*—This village will issue $6,000 6% coupon sidewalk bonds, under ordinance No. 175. Securities will be in denomination of $1,000. Interest will be payable semi annually and the principal will mature $1,000 yearly from date of issue. Date of sale has not yet been decided upon. Stephen D. Evans is the Village Clerk.

Rock Island, Ill.—*Bond Sale.*—According to local papers, the city has sold $18,000 of an authorized issue of $30,000 6%

water-works bonds to the People's National Bank at 102. The remaining $12,000 bonds were held for a few days and offered to local investors at the same rate, those remaining unsold after the stipulated time going also to the People's National Bank.

Rosenberg (Texas) School District.—*Bonds to Be Issued.*—This district will issue $8,000, or less, 6% 20 year (optional) school bonds in denomination of $500. Interest will be payable at Rosenberg. Date of sale has not yet been determined. The assessed valuation of the district is $400,000, about 25% actual value.

Rothsay, Minn.—*Bond Sale.*—This village sold last month an issue of $1,000 6% fire protection bonds to F. R. Fulton & Co., Grand Forks, North Dakota.

Saginaw, Mich.—*Bond Offering.*—Proposals will be received until 2 P. M. September 20, 1898, by Arthur F. Lewis, Comptroller, for $10,000 4% street-improvement bonds. Securities are issued under authority of the city charter and authorized by a resolution of the Common Council passed August 29, 1898. Bonds are in denomination of $1,000, dated September 1, 1898. Interest will be payable semi-annually at the office of the City Treasurer or at the current official bank in New York City. Principal will mature one tenth annually on September 1 from 1899 to 1908, inclusive.

Proposals will likewise be received at the same time and place for $5,000 4% sewer bonds. These bonds are also issued under authority of the city charter, as per resolution passed by the Common Council August 22, 1898. Securities are in denominations of $200 and $200, dated September 1, 1898. Interest will be payable semi-annually at the office of the City Treasurer or at the current official bank in New York City. Principal will mature $500 yearly on September 1 from 1899 to 1908, inclusive. A certified check for 2% of the par value of the bonds bid for and payable to the Treasurer of the city of Saginaw must accompany proposals for each issue.

St. Louis, Mich.—*No Bond Sale.*—We are advised that the contemplated sale of $20,000 4% electric-light bonds, advertised to take place on September 26, has been abandoned, as the "regularity and sufficiency of the Board of Public Works of the city has been questioned." All proceedings for the sale of said bonds and the construction of said electric-light plant will therefore cease, and no bids will be opened for same. New proceedings will be commenced as soon as possible.

Sandusky, Ohio.—*Bond Sale.*—On September 10, 1898, the $17,000 4½% refunding sewer and paving bonds were awarded to the Third National Bank, Sandusky, at 106·25. Following are the bids:

Third Nat. Bank, Sandusky	$18,062 50	Lamprecht Bros. Co., Cleve.	$17,827 90
Rudolph Kleybolte & Co., Cin.	17,938 50	W. J. Hayes & Sons, Cleve.	17,817 00
Denison, Prior & Co., Cleve.	17,907 75	Seasongood & Mayer, Cincin.	17,731 75
Adams & Co., Boston	17,855 10	Briggs, Smith & Co., Cincin.	17,611 75
Farson, Leach & Co., Chic.	17,853 00	S. A. Kean, Chicago	17,510 00

Securities are in denomination of $500; $12,500 are dated September 1, 1898, and $4,500 October 15, 1898. Interest will be payable semi-annually at the office of the City Treasurer. Principal will mature as follows: $6,000 September 1, 1905; $3,000 October 15, 1905; $6,500 September 1, 1912, and $1,500 October 15, 1912.

San Luis Obispo, Cal.—*Bonds Voted.*—At the election held on September 5, 1898, the proposition to issue $36,000 gold sewer bonds was carried by a vote of 3 to 1. Interest will be at the rate of 5%, payable annually. Principal will mature $900 yearly. Date of sale is not yet determined, but will probably take place in about six weeks.

Sheraden (Borough), Pa.—*Bond Sale.*—On September 13, 1898, the $30,000 4% improvement bonds were awarded to Robinson Brothers, Pittsburg, at 101·81. Principal will mature on October 1, as follows: $1,000 in 1902, 1904, 1906, 1908; $1,000 yearly from 1910 to 1921, inclusive; $2,000 yearly from 1922 to 1925, inclusive, and $3,000 yearly in 1926 and 1927. For description of bonds see CHRONICLE of last week, p. 550.

Sonoma, Cal.—*Probable Bond Election.*—We are advised that another election will probably be held on October 22, 1898, to vote on the question of issuing $15,000 5% 1-40-year gold water-works bonds. The question of issuing these bonds was voted upon last spring, but lacked eight votes of the necessary two-thirds.

South Omaha, Neb.—*Bonds Authorized.*—The City Council has authorized the issuance of $12,000 6% refunding paving bonds and $35,000 6% refunding general indebtedness bonds.

Bonds Proposed.—The City Council has under consideration an ordinance providing for the issuance of $21,000 5-year bonds to fund district improvement bonds about to mature.

TACOMA, - WASHINGTON.

Spokane, Wash.—*Bond Offering.*—Proposals will be received until 1 P. M. October 12, 1898, by George A. Liebes, Secretary of Sinking Fund Commission, at the office of the City Comptroller, for $10,000 5% park bonds. Securities are in denomination of $500, dated August 1, 1898; interest will be payable February 1 and August 1 at the State fiscal agency in New York City. Principal will mature August 1, 1908. Bonds are authorized by Ordinance No. A 775, passed by the City Council July 9, 1898, and approved by the Mayor July 21, 1898.

Taunton, Mass.—*Bond Offering.*—Proposals were asked for until 7:30 P. M. yesterday (September 16, 1898), by Edward H. Temple, City Treasurer, for $16,500 4% sewer bonds. Securities will be registered, sixteen of the denomination of $1,000 or any multiple thereof, and one of the denomination of $500; all the bonds will be dated June 1, 1898, and will mature June 1, 1928; interest will be payable June 1 and December 1. Bonds are issued under authority of Chapter 150, Acts of the Legislature of 1891, and order of the City Council approved August 26, 1898. At the time of going to press the result of this sale was not known.

Throckmorton County, Texas.—*Bond Sale.*—The $17,000 court-house refunding bonds recently registered have been sold to the State School Fund.

Two Harbors (Village), Minn.—*Bonds Not Sold.*—We are advised that at the meeting of the Village Council on September 12, 1898, action in regard to the sale of the $8,000 6% electric-light bonds was deferred indefinitely. Bids for these bonds were asked for until 8 P. M. on that date.

Utica, N. Y.—*Bond Sale.*—On September 9, 1898, the $4,000 4% Washington Street bridge bonds were awarded to John C. Gibson, Utica, at 101·25. Other bidders were: W. J. Cahill as agent for Isaac W. Sherrill of Poughkeepsie $4,043, J. T. A. Doolittle of Utica $4 046, Rudolph Kleybolte & Co. of New York $4,027 and S. A. Kean of Chicago $4,020. Principal will mature $1,000 yearly on November 1 from 1899 to 1902, inclusive. For description of bonds see CHRONICLE of last week, p. 551.

Valparaiso, Ind.—*Bonds Authorized.*—The City Council has authorized the issuance of $8,000 school building bonds.

Virginia, Minn.—*Bond Sale.*—The city has recently sold $15,000 of its general fund 5% bonds to The Trowbridge, MacDonald & Niver Co., Chicago, at par. Bonds are dated September 1, 1898. Principal will mature September 1, 1908, but the city has the privilege of paying $1,000 yearly from 1901 to 1907, inclusive, and $8,000 in 1908.

Walnut Grove (Village), Minn.—*Further Details of Bond Offering.*—As stated in the CHRONICLE of last week, p. 552, this village will receive proposals until 7:30 P. M. September 28, 1898, for $3,500 6% water-works bonds. We have since learned that securities will be in denomination of $700; interest will be payable annually in St. Paul, Chicago or New York. Principal will mature $700 yearly on June 1 from 1899 to 1903, inclusive. Assessed valuation of the village is $14,423, which is about one third actual value. J. F. Hesnault is the Village Recorder.

Waterloo (Village), Wis.—*Bond Offering.*—Proposals will be received until October 4, 1898, for $4,500 5% village hall bonds. Interest will be payable on July 10 at Waterloo, and the principal will mature $500 yearly on July 10, from 1899 to 1907, inclusive. F. Hubel, Jr., is the Village Clerk.

Whittier, Cal.—*Proposed Election.*—We are advised that the details of the proposed issue of about $42,000 water-works bonds are not yet determined upon; they will be settled by the election which will be held some time within the next three months. The City Clerk writes us that the interest will probably be 5%, and the principal will probably mature one-fortieth each year. The city will probably advertise for sealed proposals if the bonds are authorized.

Wooster, Ohio.—*Bond Offering.*—Proposals were asked for until 12 M. yesterday (September 16, 1898), by W. T. Peckinpaugh, City Clerk, for $5,200 4½% 15 year coupon refunding bonds and $6,000 5% coupon refunding bonds. The $6,000 issue will mature as follows: $800 yearly on March 1 from 1900 to 1904, inclusive, and $1,000 on March 1 in the years 1905 and 1906. Interest on both issues will be payable semi-annually at the City Treasurer's office. Bonds are issued under authority of Section 2701, Revised Statutes of Ohio, and an ordinance of the city passed August 15, 1898.

Wymore (Neb.) School District.—*Bond Sale.*—This city sold last month $6,500 school bonds to C. H. Imhoff, Lincoln, at 109·230.

Yonkers, N. Y.—*Bond Offering.*—Proposals will be received until Sept. 27, 1898, for $28,500 3½% registered school bonds.

POST OFFICE BOX 958. **NEW YORK.**

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates hat the total bank clearings of all the clearing houses of the United States for the week ending to-day, September 24, have been $1,315,914,471, against $1,334,721,269 last week and $1,328,800,416 the corresponding week of last year.

CLEARINGS. *Returns by Telegraph.*	*Week Ending September 24.* 1898.	1897.	*Per Cent.*
New York	$380,818,899	$710,364,836	−46·9
Boston	79,928,203	88,067,716	−9·2
Philadelphia	56,163,421	56,296,263	−0·2
Baltimore	14,017,365	13,525,023	+3·6
Chicago	87,715,259	79,990,943	+9·7
St. Louis	22,295,518	22,368,571	−0·3
New Orleans	4,911,529	5,387,624	−8·8
Seven cities, 5 days	$945,879,197	$976,600,936	−3·1
Other cities, 5 days	150,019,363	141,032,416	+6·3
Total all cities, 5 days	$1,095,898,480	$1,117,633,372	−2·0
All cities, 1 day	220,016,011	211,117,044	+4·2
Total all cities for week	$1,315,914,471	$1,328,800,416	−1·0

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 17, and the results for the corresponding week in 1897, 1896 and 1895 are also given. In comparison with the preceding week, there is an increase in the aggregate exchanges of two hundred and fifty-eight million dollars, and at New York alone the gain is one hundred and eighty-one millions. Contrasted with the week of 1897 the total for the whole country shows a decline of 3·5 per cent. Compared with the week of 1896 the current returns record a gain of 53·0 per cent, and the excess over 1895 is 26·7 per cent. Outside of New York the loss from 1897 is 2·4 per cent. The excess over 1896 reaches 27 7 per cent, and making comparison with 1895 the excess is seen to be 11·0 per cent.

Clearings at—	*Week ending September 17.* 1898.	1897.	1896. *P. Cent.*	1896.	1895.

THE FINANCIAL SITUATION.

A strong wheat market led by a good foreign demand, an enlarged consumption of merchandise evidenced by decreasing stocks of most kinds of manufactured products and by an augmented movement of west-bound freight—these are some of the more conspicuous recent indications of the industrial revival now in progress. The favorable reaction was earliest seen in the iron and steel markets and is still most manifest there; from that center its spread has been a slow development, conservative from the start, and is even now without any speculative stimulus. At first the outlook this year for the railroads was only a fair business, the opinion prevailing that earnings would likely be less than the large totals of a year ago, the foreign demand for breadstuffs being much less urgent and prices much lower. But with the activity in trade circles extending, better results on the part of the carriers begin to be apparent—a natural product of the larger distribution of goods; this improvement will no doubt be further added to by passenger traffic as the rising prosperity more and more brings all classes of our population within its influence, there being wide room for growth in that department of railroad revenue. It may be, therefore, not long before the world will have ocular demonstration of what it means for 75 millions of people to get out of an industrial lethargy that has been cramping their energies with varying force for fifteen years or more and into a state of unfettered activity.

President Seth Low has touched the sensitive and decisive point in the industrial and political situation in discountenancing any separate action by the "independents" at the coming election for the reason, among others, that it might endanger the success of a sound money Senator from New York as well as sound money representatives in Congress. The fact is, until our currency has been rehabilitated the currency question must swallow up every other issue at any election which involves membership in our Federal Legislature. This November contest is the most critical one we have ever faced. It is most critical because such a rare opportunity for effective action is presented, which, if lost, means so much of possible harm. To be sure, the financial aspect of the country is for the moment, through a combination of fortuitous circumstances, synonymous with strength. But every business man knows that the currency condition is still vulnerable and that its strength could be speedily sapped were circumstances for a very short period equally *un*fortuitous. In view of this fact and in the interest of continued prosperity, the sole purpose of industrial classes in their political action this year should be to bury the Chicago platform so that it may not rise to plague us again at the next Presidential election. All other issues are as nothing compared with that one. Besides, if the sound money classes act together we now have the opportunity presented to attain that end. It only calls for the united vote of those who favor a gold standard in the States where elections soon occur to secure a majority in the United States Senate and in Congress favorable to such a measure. If such results are attained the currency issue would drop out of politics. Thereafter no prophetic vision would be required to forecast the expansive nature of our industrial development.

A movement of gold from Europe of considerable proportions has set in this week. The state of our foreign trade, present and prospective, has indicated that such a movement could not be long deferred. To be sure, small amounts have been coming in for a month or more, but the larger part of these arrivals was in transit for Cuba. The total arrivals at New York since August 20, when the exports to Cuba began, to the end of last week, September 17, were only $5,326,000, and out of that $2,887,333 during the same period went to Cuba. This statement would show very little accumulation of gold as a result of the import and export movement during recent weeks; in fact we are of the opinion that there has been a considerable loss, though the Custom House figures indicate a small gain. The discrepancy is due to the fact that none of the gold taken from the Sub-Treasury and sent on Government vessels to pay the troops at Cuba, Porto Rico, Manila and elsewhere appears in the Custom House figures. We presume those items will be added hereafter, the earlier ones perhaps in the September statement. They must of course come into the record to keep the Mint Bureau's stock of gold in the country correct. But, as stated, the engagements in Europe for New York are larger this week, over $6,000,000 having been announced. These larger takings have also encouraged the belief that imports of gold will continue through at least October and November of proportions sufficient to satisfy our money market requirements. In consequence of this movement and of the fact that Government accumulations because of the war loan have about ceased, while Treasury disbursements in excess of receipts are to be expected in future weeks, the money market has lost its position as a disturbing influence.

No class of roads is sharing in a more prominent degree in the renewed prosperity of our carrying interests than the Pacific roads, and particularly those lying to the north. We referred last week to the phenomenal record of the Northern Pacific. This week we have had further evidence of the great change for the better which has occurred in the condition of this class of roads. The new Union Pacific Company has declared its first dividend on its preferred stock. The stock is $75,000,000 and the dividend is to be 1½ per cent, calling for $1,125,000. Divorced from Government control, the property is evidently doing well. The dividend is on the basis of the operations for the six months ending June 30 1898. A statement is submitted showing that in these six months the company earned a surplus above charges of $1,796,685, not including the operations of the branch lines which are to form parts of the system and which it is estimated for the same six months netted a surplus of $446,659. The Pacific Coast Company too (successor to the Oregon Improvement Company) is giving its stockholders tangible evidence of the improvement which, in common with other roads in that part of the country, it is enjoying. The old Oregon Improvement Company seemed to present about as hopeless a case as any with which railroad reorganizers have had to deal. Yet the marvelous industrial revival on the North Pacific Coast has turned even this property into a paying concern again. The first dividend distribution on the new securities was made last July, and consisted of 5 per cent on the 1st preferred stock and 1

per cent on the 2d preferred stock. This is now followed by a further dividend of 3 per cent on the 2d preferred stock (making the full 4 per cent to which that stock is entitled) and a dividend of 1 per cent on the common stock. The amounts of the various issues of stock, it is proper to say, are small.

The iron trade, which constitutes such an important element in the country's activities, seems to be just now in a particularly encouraging condition. Prices are slowly advancing and at the same time the demand for all kinds of iron and steel continues active. One important factor bearing on the immediate future of the iron trade has not as yet attracted much attention. We refer to the circumstance that new railroad construction is gradually increasing, thus offering the prospect of an enlarged demand from that quarter. Nearly every railroad report which comes to hand speaks of some new mileage in prospect. To be sure the proposed additions cover only small branches, links, or extensions, but where so many companies are engaged in this work the aggregate must necessarily reach considerable proportions. Besides this, the call from the railroads will be heavy also by reason of the extensive betterment and renewal outlays which rising earnings make possible. Thus far the advance in iron and steel prices has been moderate, and no great expansion in production is yet to be noted. The monthly statement of the "Iron Age" last week showed an increase during August of only 6,266 tons per week in the production of pig iron by the active furnaces, raising the total to 213,043 tons. Last March the weekly product was 234,430 tons, or at the rate of a million tons more per year than at present. The "Age" reports a further decline in stocks of iron, making the amount on the first of September 688,382 tons against 739,288 tons August 1 and 841,534 tons May 1.

Money on call, representing bankers' balances, has loaned at 6 and at 2 per cent during the week, averaging 4½ per cent. The range on Monday was from 3½ to 4½ per cent, with the bulk of the business above 4 per cent. On Tuesday there was some shifting of loans, caused by a marking up of rates by some of the banks, and after 4 to 4½ per cent had been recorded early in the morning there was an advance to 6 per cent, the bulk of the business in the afternoon being at from 5 to 5½ per cent. On Wednesday the early loans were made at 4½ to 5 per cent, but in the afternoon the rate fell off to 2 per cent, the late business being from 2½ to 3 per cent. On Thursday and also on Friday the range was from 4½ to 2½ per cent, the rate closing on the last-named day at 3. Banks and trust companies quote 4 per cent as the minimum, though on Tuesday some of the banks marked up their standing loans to 5 per cent, and in a few cases 6 per cent was obtained for new business. On Friday the majority of the banks reduced rates to 4 per cent. Time money is more freely offered and it is reported that one of the large trust companies sought on Tuesday to place $2,500,000 at 3½ per cent for sixty to ninety days. Quotations are 3½@4 per cent for the above-named periods; 4 per cent for four and 4½ per cent for five to eight months on good Stock Exchange collateral. Commercial paper is in good demand, especially from out of town, while the supply continues only fair. Quotations are 4@4½ per cent for sixty to ninety day endorsed bills receivable, 4½@5 per cent for prime, and 5@6 per cent for good four to six month's single names. Some of the large banks report quite a general demand for New York paper from their correspondents in the West, and it is said that fairly large amounts of such paper have been bought here recently for Chicago and other institutions in the Northwest.

There has been no important feature in the European political situation. The demand of the British Admiral at Candia, Crete, for the surrender of the ringleaders of the recent massacre and the disarmament of the Mussulmans has been complied with. The Bank of England minimum rate of discount was advanced on Thursday to 3 from 2½ per cent, at which it had stood since June 30. The cable reports discounts of sixty to ninety day bank bills in London at 2½@2⅝ per cent. The open market rate at Paris is 1¾@1⅞ per cent and at Berlin and Frankfort it is 3⅞ per cent. According to our special cable from London the Bank of England lost £345,925 bullion during the week and held £33,804,883 at the close of the week. Our correspondent further advises us that the loss was due to the import of £30,000 from Australia, to receipts of £135,000 *net* from the interior of Great Britain, and to exports of £1,011,000, of which £866,000 were for the United States, £100,000 for Egypt, £25,000 for South America and £20,000 to Batavia.

The foreign exchange market has been quiet and the tone easy this week. Rates are now at the gold-importing point and the market is chiefly influenced by operations in connection with the movement of gold hither from Europe. The rise in the price of gold at London and Paris has been one factor in the market, while another has been the demand for exchange to cover gold imports. Offerings of cotton and grain futures continue liberal. A feature of the engagements of gold in London for shipment hither has been importations by Brown Bros. and other bankers who rarely bring gold out. The amount announced as engaged on Tuesday was $2,250,000, on Wednesday $1,800,000, on Thursday $1,300,000 and on Friday $800,000, making a total of $6,200,000. The arrivals of gold from Europe during the week, other than those in transit to Cuba, have been $1,442,301; previously reported, $4,145,196, making a total of $5,587,497. The arrivals of gold in transit to Cuba, for the purchase of sugar and other products, have been $1,405,907; previously reported $4,448,575, making a total of $5,854,482.

The range for nominal rates for exchange was from 4 83 to 4 83½ for sixty day and from 4 85 to 4 85½ for sight, until Wednesday, when the range was from 4 82½ to 4 83 for the former and from 4 84½ to 4 85 for the latter. The market opened easy on Monday, and while rates for actual business in long sterling remained unchanged, compared with those at the close on Friday of last week, rates for short sterling and for cable transfers were reduced one-quarter of a cent, to 4 83¾@4 84 for the former and to 4 84¼@4 84½ for the latter. Though the tone continued easy, there was no change in rates for actual business until Thursday, when long sterling fell off to 4 81¼@4 81¾, in consequence of the advance in the Bank of England rate of discount, but no change was made in short sterling or cable transfers and the tone for them was steady to firm. The market was irregular on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

		Fri., Sept. 16.	Mon., Sept. 19.	Tues., Sept. 20.	Wed., Sept. 21.	Thurs., Sept. 22.	Fri., Sept. 23.

	Sight.	85¼	85¼	85¼	85	85	85

The market closed irregular on Friday. Rates for actual business were 4 81@4 81½ for long, 4 83¾@4 84 for short and 4 84¼@4 84½ for cable transfers. Prime commercial 4 80½@4 81 and documentary 4 80¼@4 81. Cotton for payment, 4 80@4 80¼, cotton for acceptance 4 80½@4 81⅛ and grain for payment 4 80¾@4 81¼.

The following statement gives the week's movement of money to and from the interior by the New York banks.

Week Ending Sept. 23, 1898.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$4,348,000	$5,582,000	Loss. $1,234,000
Gold	694,000	1,122,000	Loss. 428,000
Total gold and legal tenders	$5,042,000	$6,704,000	Loss. $1,662,000

Result with Sub-Treasury operations and gold imports.

Week Ending Sept. 21, 1898.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$5,042,000	$6,704,000	Loss. $1,662,000
Sub-Treasury oper. and gold imp'ts	25,700,000	25,200,000	Gain. 500,000
Total gold and legal tenders	$30,742,000	$31,904,000	Loss. $1,162,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	Sept. 22, 1898.			Sept. 23, 1897.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.

Tot. prev. w'k	311,576,762	96,719,279	408,295,941	308,916,549	101385332	405,301,881

NOTE—Large increase in aggregate gold holdings for week of last year is due to the heavy addition to the total holdings as reported by the Bank of Russia.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while in all of the date given at the head of the column, they are the returns issued nearest to that date—that is the latest reported figures.

TREASURY AND MONEY MARKET.

The country has witnessed during the past three weeks, and is witnessing at present, one of the serious inconveniences and dangers of our present Sub-Treasury system. It is hardly necessary to explain that, except for the operations of the Government, apprehension as to the future of our money market could hardly have arisen. The markets had been supplied with extra cash reserves, through import of foreign gold, as fast as expanding trade showed the need of such increase. Our summary of clearing-house returns at the country's leading centres, published at the opening of July, showed that these bank exchanges had increased over 1897 during the first six months of the current year no less than 31 per cent. But along with this very remarkable increase in the commercial use of money, the actual amount of money circulating in the United States outside the Treasury showed by the Treasury's July estimate an increase over the previous July of $197,000,000. That this huge increase in cash reserves was well distributed has been further shown by the Comptroller's summary of the July national bank returns, published a week ago. This compilation shows that while the cash fund in the reserve cities, where the bulk of it is always kept, had increased $45,663,000 over that of July 1897, the cash reserves of "country banks" had also increased $11,796,000. In fact, although the deposits of these interior institutions had expanded during the twelve months by the remarkable sum of $130,461,000, the Comptroller computes that their percentage of reserve to liabilities on July 14 1898 was exactly what it had been on July 23 1897. At both dates this proportion of reserves was reckoned at 31·92 per cent.

The position of these Western and Southern banks, so far as concerned resources, being precisely what it was a year before, it was fair to suppose that there would still be a considerable drain of currency, during the harvest season, from New York to the interior. But for such a drain the Eastern banks were amply prepared; on Saturday, July 2, the Associated Banks of this city reported a surplus cash reserve of $62,013,550, which was twenty-one million dollars larger than the surplus returned at the corresponding date in 1897, and nearly forty-two millions greater than in 1896.

We have gone into these details in order to show that there was every reason, two or three months ago, to expect that the country's autumn trade needs would be provided for without any strain on the general money market. Our readers are of course aware of the means by which the Treasury became a factor in the situation. It was argued, very properly, that conditions being what we have already shown, the markets were well able to contribute to the immediate necessities of the Government. Legislation had authorized both largely increased taxes and a $200,000,000 loan. The internal taxes at once largely increased the monthly revenue. But in the meantime war disbursements were enlarging the monthly expenditure very materially over 1897; July's outlay for army and navy purposes was $29,552,000 greater than it had been in the July preceding. On ordinary revenue, therefore, there was a heavy deficit, and it was estimated that with expenditure maintained on the same or a larger scale, the entire proceeds of the Government loan would be exhausted before the close of the year, and hence it was believed that no serious contraction could occur in the money market.

The one event not contemplated in this calculation was an early conclusion of the war, and this is precisely what has happened. It has also happened that payment of subscriptions to the Government loan have been made in full at once to a much larger extent than was perhaps expected. The Treasury had granted the option of payment in five instalments, spread over a period of five months or more; but as might be supposed, where so large a part of the allotments was in small amounts, the great bulk of subscriptions were paid off before the time limit had expired. Since the current Treasury deficit has at the same time been decreasing rapidly, it may be imagined what was the outcome. Since July 1 the Treasury's available cash balance had increased up to the middle of last week, by $107,567,745 Most of this increased surplus has been drawn

from the New York banks, and these banks, in turn, have drawn heavily during the summer on the reserves of other Eastern and Western institutions. But in spite of such relief, and in spite also of an increase in Government bank deposits since July 1 from $42,046,022 to $76,854,498, the actual specie and legal tender holdings at New York have decreased $67,274,900. It has so happened that this shrinkage of cash reserves has been coincident with a rapid expansion of Eastern loans and liabilities—a natural result of improving trade and increasing stock market activity. But the result of this double process has been a decrease of the New York surplus bank reserves to a trifle over four million dollars, notwithstanding a decided recall of loans and contraction of liabilities already begun by the banks.

We pointed out two weeks ago some qualifying facts in this situation, showing how far any possible inconvenience would be modified by the great strength of the New York banks, in the matter of their actual reserves, and by the large credit balance in our favor on international exchange. The recent gold import engagements have illustrated this phase of the situation. Moreover, the Treasury was still able to extend its bank deposits temporarily and thus lessen the strain upon the markets, and it has used the privilege liberally this week. The occurrence of any exorbitant rates for money in the face of such conditions we showed to be wholly improbable. This conviction has gained ground in the financial community during the present week. Nevertheless, it seems to us that the occasion is proper for drawing attention again to the very anomalous fiscal system which has made even these slight misgivings possible. It might have been necessary to borrow heavily and to raise a surplus revenue when outside conditions were not thus favorable. The war, with its incidental burdens on the money market, might have occurred when reserves were low and sterling exchange against us; it might have occurred when interior demand for currency was very urgent. That the war coincided with favorable financial conditions in this country was certainly an accident; but the absorption of money by the Government must have followed, whatever the general situation.

Nor, indeed, does such a supposition show the whole danger of the system of locking up a public cash surplus out of reach of the money market. During nearly six years this country has been living under a Treasury deficit. The Government has been almost constantly emptying money into the market, in amounts ranging from one to ten million dollars monthly. The proceeds of its loans, issued to protect the gold reserve, rushed out of this open spigot along with the rest of the Treasury cash. The result was that the market came to look on the Sub-Treasury as a constant source of supply for cash reserves. In 1894 particularly, the Treasury deficit of $69,800,000 flooded the banks with specie and legal tenders, at a time when there was not a sign of need of additional reserves. This piling up of an already heavily expanded currency in the market, at a time of extremely inactive trade, had much to do with the large export of gold that year, which in its turn depleted the Government's gold reserve. On the other hand, the experience of 1887 and 1888 is fresh in the minds of most people, when a rapid and unexpected increase of Customs receipts caused an excess of revenue over expenditure of $103,471,000 in the one year and of $111,341,000 in the other. The half-desperate expedients then adopted by the Administration to stop the absorption of money into the Treasury, the extravagant bond purchases, with the resultant destruction of nearly half the national bank currency, and the periodical convulsions in the money market, notwithstanding these efforts at relief, go to show how the system may work mischief as readily in one direction as in another.

The truth is that the evil of the system lies beyond any mere question of deficit or surplus. It is inseparable from the practice of hoarding money on an extensive scale whenever the Government earns more than it spends. And yet it is not easy to say how this mischievous system is to be corrected. Theoretically the remedy is plain. Let the Government, after adjusting as near as may be its expenses to its income, use the banks as depositories for all of its temporary surplus, or as sources from which to draw, on Treasury bills, the funds needed to meet a temporary deficit. No process could be simpler, and that it is feasible we know from the fact that the British Government has practiced it without the least friction during several generations.

Unfortunately, it is true of this expedient, as of most remedial plans in our sorely-tried government finances, that theoretical perfection does not involve possibility of practical execution. We have never yet been able to induce our legislators to take serious account of income when planning expenditure, or vice versa; therefore our surpluses and our deficits are alike of portentous magnitude. It is still possible, even so, to use the banks as the Bank of England is habitually used by the British Exchequer. But here is at once encountered the popular prejudice against so-called "favors" to the banks—a prejudice deeply marked throughout our political history, which has been fatal, on occasions, to more than one aspiring politician, and which seriously embarrassed even the cautious fiscal operations of Secretaries Sherman and Fairchild. Nor is this feeling wholly groundless when the nature of our present bank system is considered, and the possibilities of mistakes in the geographical distribution of such deposits. We are inclined to doubt whether a perfect system of bank deposits by a public exchequer is possible except through the use of a single Government bank, the Government's accredited agent and depository. How remote such an expedient would seem to be to us the reader will imagine.

Despite such obstacles, however, we are convinced that a remedy for the absurd Sub-Treasury system now in vogue must be found. The system was contrived at a time when Government revenue and expenditure were about one-seventh of their present magnitude; when our population was barely one-sixth what it is to-day, and our trade and banking system probably not a hundredth part of their existing volume. The system worked awkwardly enough even when first introduced; but nothing could be imagined more ill-fitted to the present complex machinery of finance. We hear much in these days of the fact that our country, in the phrase of a distinguished statesman, has "burst its swaddling clothes." If it be true that in diplomacy and political strength we have outgrown the traditions and systems of a former generation, is it not reasonable to ask whether our fiscal arrangements are to be left on a par with the contrivances of infant States?

ATCHISON'S RENEWED PROSPERITY.

As one after another the reports of our leading railroads come to hand and the story is reiterated of a great improvement in affairs—so marked and decided as to have worked a complete transformation in conditions and prospects—the reader might be excused if he should pause to reassure himself that the accounts were not being exaggerated. Yet it is the exact truth to say that there has been a great improvement, a wonderful transformation. And the improvement simply affords renewed evidence of the country's latent strength and marvelous recuperative powers. The result is that a period of depression, however painful and pronounced, is certain to be followed by a quick recovery and a new display of energy when some favoring circumstance serves to dispel gloomy forebodings and make apparent upon what a broad, enduring basis the nation's activities rest.

In the late depression the railroad industry suffered beyond all other industries. So prolific and overwhelming were the railroad receiverships and foreclosures that it almost seemed as if profitable conditions had forever departed from this great field of human activity. Yet in the brief period of two years —nay more, in a single period of twelve months—what a wonderful change we have witnessed. Of course the fact that the previous depression was so pronounced makes the contrast particularly striking, and yet who could have thought in reason that the transition would come so soon or the recovery be so extensive. There is only one parallel in American railroad history, and that is the era of prosperity which was opened to our railroads with the resumption of gold payments in 1879. The discouragement two years ago was so great that all railroad values were exceedingly depreciated, and many holders of railroad securities did not deem it worth while to make the sacrifices which the occasion called for in the way of the payment of assessments, &c. To-day railroad values are rising, and the revenue statements of the roads as they are received furnish evidence that the improvement in prices has been amply justified.

It seems peculiarly fitting that the Atchison Topeka & Santa Fe Company should share in a marked degree in the present recovery. In the 1879-81 period it was distinguished beyond other roads for its record of growth and prosperity. The pioneers in the enterprise were then, after a long wait and many trials and misfortunes, enabled to carry out their plans. They were amply rewarded. Most of them reaped large fortunes as the result of their skill and foresight. The Atchison system, too, became a powerful factor in the railroad world, a credit to its promoters, and a new agent in the growth and development of the country. The subsequent reverses were unexpected, but they and their causes are well known to our readers. While other roads likewise suffered severely during the late period of depression, the Atchison was peculiarly hard hit. It had entered upon a policy of expansion, and conditions were proving very unfavorable; crops in its territory were poor, prices for farm products low, and there had been reckless building of new mileage by many other large systems in the same territory. Lastly, reprehensible methods of book-keeping had served to undermine confidence in the value of the securities. Through it all the faith of many of the earliest investors in the property never wavered, and they held on to their securities, making the sacrifices and exchanges which the situation demanded, and it is pleasing now to find that the faith of these parties in the certainty of the later revival was as well justified as that in the earlier revival.

The Atchison system as now rehabilitated is certainly a different kind of property from what it was before the late reorganization. In the first place the value of the securities is enhanced by the fact that they cover the entire system, from Lake Michigan to the Gulf of Mexico and from the Lake to the Pacific Ocean, instead of only parts of the system. For instance, the general mortgage 4s cover the whole of the 6,946 miles of road, subject only (now that the Guarantee Fund Notes are all being retired) to about three million dollars of equipment bonds and prior lien loans. In the second place the physical condition of the property has been greatly improved as well as the financial condition. In the third place the reorganization has been on a sound basis in the new relations it has established between interest charges and earnings. Indeed, the latter is a particularly strong feature in the condition of the reorganized property. This will appear when we say that the report now before us shows that with fixed interest charges of only $4,992,148, the net income available in payment of the same on the operations of the twelve months amounted to $8,882,573. In other words, there was a surplus above the sum required for the obligatory charges of $3,890,425. As previously noted in these columns, out of this surplus the management have declared 4 per cent on the adjustment mortgage bonds, the interest on which is dependent upon earnings (being the full rate to which these bonds are entitled); even then there is left a balance of $1,836,585, equal to over 1⅓ per cent on the 131½ millions of preferred stock.

How great the improvement was over the year before may be judged from the fact that on the same basis of mileage—that is, including the Santa Fe Pacific (old Atlantic & Pacific) in both years and eliminating the Sonora & New Mexico and Arizona roads, which have been transferred to the Southern Pacific—the addition to gross earnings over the year preceding is found to have been $5,580,459 (more than 16 per cent) and the addition to net $2,311,335—the latter over 27 per cent. While the larger agricultural tonnage undoubtedly played an important part in the recovery which occurred, it is significant as showing the general character of the improvement that $1,180,598 of the $5,580,459 increase in gross earnings was contributed by the passenger department, the ratio of gain in this instance being over 19 per cent. In the respect mentioned the record of the Atchison is quite exceptional, for in the case of most of the roads in other sections the recovery in passenger revenues has been very small. As bearing upon the part played by last year's excellent harvests in the favorable showing made, we observe that the report says that the wheat crop of Kansas, the cotton crop of Texas and the fruit crop of California were all larger than for several years past, and the last was larger than ever before. But the report also notes that there was development of mining interests and general improvement in business conditions throughout the West.

It deserves to be noted that the net result for the year would have been even better than it is except for the large expenditures made upon road and equip-

ment and charged to expenses. Chairman Aldace F Walker says it was deemed wise by the directors "to take advantage of this year of large gross income to prepare for the possibility of less favorable conditions in the future, by continuing the work of putting the property into condition to be operated with the maximum of economy." The extra expenditures were chiefly for betterments under the accounts "Maintenance of Road and Structures', and "Maintenance of Equipment." The work included 489 miles of track ballasted, new and renewed; 531 miles of new steel laid, including rails re-rolled; 236 miles second-hand steel laid; 11¼ miles of wooden bridges replaced with permanent structures, besides a large amount of other outlays. In the case of the equipment, the Rolling Stock Replacement Fund, (covering in part contributions from the previous year's earnings), provided an aggregate of 930 new cars, against only 556 cars withdrawn from service during the fiscal year.

The most gratifying fact in connection with these heavy betterment outlays is that they seem likely to diminish materially hereafter. Mr. Walker thinks it will doubtless be found desirable to continue the replacement of wooden bridges with permanent work; "but in other respects the extraordinary betterment expenses paid out of earnings may be expected to largely decline after the present calendar year." With reference to the Santa Fé Pacific, now forming part of the system, Mr. Walker says the enormous expenses involved in its reconstruction have necessarily reduced the net returns. With the completion of the improvement work, operating expenses, he asserts, will be reduced to a reasonable basis—in all of which there is great hope for the future.

ST. LOUIS & SAN FRANCISCO'S SHOWING.

The St. Louis & San Francisco is situated in the same part of the country as the Atchison (though the latter covers a wider expanse of territory), and therefore was subject to much the same conditions as that system. Like that property, too, it makes an exceedingly good exhibit in its annual report, showing wonderful recuperation as compared with the poor situation of only a short time ago. The outcome for the twelve months, too—so satisfactory in every way—is evidence that the reorganization was on a sound and conservative basis, and that the position of the property has been improved in every way.

Before the reorganization the San Francisco formed part of the Atchison system, and when the union between the two was dissevered there were many misgivings as to the effect of the change upon the fortunes of the San Francisco company. But during the two years of its separate existence the San Francisco has done exceedingly well, and has shown that it can be operated with success as a separate system. Moreover, arrangements have lately been entered into which will serve to round out and complete the system, and fortify and strengthen its position. Through the contract made with the Kansas City Osceola & Southern, by which the road of the latter has been extended forty miles to a connection with the Bolivar Branch of the San Francisco, the latter is given a direct entrance into Kansas City, and will have that city and St. Louis as northern termini, instead of St. Louis alone. The system is also to have the benefit of an extension in the opposite direction, the contract with the St. Louis & Oklahoma being equivalent to an extension of the Southwestern Division for 103 miles to Oklahoma City, in Oklahoma Territory. The terms upon which these arrangements have been made appear to be quite advantageous. We shall not, however, attempt to go into the details, as they are set out at length in the report itself, printed on another page.

The income exhibit for the year affords an idea of the strength of the company's position under the reorganization and the great improvement in its traffic and revenues which has occurred during the last twelve months. The report shows net income for the year of $2,926,119, while the call for interest, rentals and charges was only $2,239,673. Thus there was a surplus for the twelve months of $686,446. The corresponding surplus in the previous year (the first year of the new company's operation) was only $331,067. Out of this latter amount, the company had paid 2 per cent on the 1st preferred stock, calling for $100,000. Out of the $686,446 surplus for the late year, the full 4 per cent was paid on the $5,000,000 1st preferred stock and 1 per cent declared on the $16,000,000 of 2d preferred stock, calling together for $360,000. Even then there is left a balance of $326,446, which would pay two per cent more on the $16,000,000 of second preferred stock. In other words, the income account shows 3 per cent earned on the 2d preferred stock besides the 4 per cent on the 1st preferred stock. It should be understood, of course, that though renewal expenditures have evidently been liberal, not all outlays for improvements and additions have been included in expenses. A few of the Eastern roads have reached the happy position where it is found possible or feasible to dispense with additions to capital account (everything being charged against earnings), but Western roads as a rule can claim no such distinction. The San Francisco spent $527,207 during the year for new equipment and improvements, all but a small portion of which was met out of the fund provided for this purpose by the Reorganization Committee. The company was able to engage the services of Mr. Stephen Little in an audit and examination of the accounts, and he certifies to the accuracy of all the items in the accounts.

With reference to the improvement in revenues, we observe a feature noticeable also in the Atchison case, namely a decided recovery in passenger revenues. This furnishes quite a contrast with the situation on the roads here in the East, where the gains in passenger earnings have as yet been very small, indicating the absence of a full revival in trade. In the Southwest, evidently, the conditions have been more favorable in that respect. At all events, out of $893,131 total gain in gross earnings on the San Francisco, $221,888 was contributed by the passenger department. In ratio the increase is 21 per cent, whereas the increase in the freight earnings was not quite 15 per cent. In number the increase in passengers was 38 per cent and in the number one mile 31 per cent. In the freight traffic the improvement both in the number of tons and in the number one mile was only about 20 per cent. The extent of road operated was somewhat larger in 1897-8 than in 1896-7 (the company having, on January 1, 1898, acquired the Central Division of the Atlantic & Pacific under foreclosure sale); but this applies equally to the freight and the passenger statistics.

Another point with reference to the traffic is worth bringing out. No doubt it will be supposed that the

gain in tonnage was mainly or very largely in agricultural products. As a matter of fact, the increase from that source was only 19,281 tons out of a total increase in commercial freight of 427,173 tons. The road carried more wheat than in the preceding year, but moved only 37,646 tons of corn, against 107,332 tons. Even under the head of "products of animals" there was comparatively little growth, this item rising only from 160,141 tons to 192,283 tons. On the other hand, in "Products of Mines" there was an increase from 852,500 tons to 1,004,350 tons, in "Forest Products" an increase from 249,555 to 315,482 tons, in "Manufactures" from 246,186 to 311,687 tons, and in "Merchandise" and "Miscellaneous" from 219,532 to 312,004 tons. Obviously, the increases here reflect the revival of trade and the general growth and development of the Western country.

THE ERIE REPORT.

The report of the Erie Railroad Company (the third annual statement of the reorganized company) is useful in serving to show the difference between the railroad conditions which have ruled here in the East and those controlling the operations of roads in the West. The report makes on the whole a very satisfactory exhibit. But the fact will not escape notice that the improvement is of much more moderate proportions than that to which we have become accustomed in the case of Western roads. In other words, the road has not failed to share in the revival and recovery which have been such marked features of railroad affairs during the last fifteen months, but the change has been less general and less marked.

No one who has watched the course of events during the period covered by the report can be surprised at the slower pace of growth. In the first place the revival in trade, though perhaps equally distinct, did not reach the same dimensions in the eastern part of the United States as further west. In the second place, with the country here already so largely settled and developed there was less room for new development than in the remoter districts. In the third place, railroad mileage, being more extensive in the East, competition was intensified. Rates were, as a result, greatly demoralized—as frequently pointed out in these columns more so than ever before except at a time of actual war in rates. Besides this, the Erie is also a large carrier of anthracite, and there the situation was peculiarly discouraging. On the whole, the managers of the Erie had trying conditions to meet, and that the result has been so satisfactory offers much occasion for congratulation.

President E. B. Thomas in his remarks refers at length to the difficulty regarding rates, pointing out that "the unsatisfactory feature of the year's work is the rate received for the service performed." From year to year, he well says, the unit of revenue grows less, while the character of the service, forced by competition and the modern requirements of trade, grows more and more expensive. Apparently neither of these conditions, he argues, can be improved under the circumstances (legislative and otherwise) surrounding the transportation industry. The only remaining endeavor therefore that can be made to stop the diminishing margin between revenue and cost is in the direction of reducing the latter. This necessarily requires heavy work, large expenditures and long time, and the results obtained appear slowly. To the efforts of the management towards the accomplishment of this object, Mr. Thomas states, are due the large cost of operation for the year. Heavy expenditures, with which capital account could not legitimately be charged, were necessary upon locomotives, cars, tracks, etc., in order to meet the requirements needed to enable the company to do a business on a parity with its competitors.

In this last statement we have a clue to the year's results. Average rates, already low, were still further reduced. On general merchandise the company received only 5·80 mills per ton per mile, against 6·25 mills the year before, and on coal it received but 5·12 mills, against 5·36 mills, while on the two combined the average is 5·58 mills, against 5·96 mills. The importance of this decrease of thirty-eight hundredths of a mill per ton mile will be seen when it is said that applied to the entire tonnage of the year it is equal to a net loss of revenue of $1,714,938. Taking this in connection with the further fact that heavy expenditures were necessary upon the property, and it becomes evident that the situation was not free from difficulties, notwithstanding the revival in trade and the growth in traffic. The report shows that, as compared with the year preceding, gross earnings increased $2,243,829 and net earnings increased only $138,033. The ratio of gain in the one case is 7·12 per cent, in the other but 1·69 per cent. Analyzing the expense accounts, it is found that out of the $2,105,795 augmentation in expenses, as compared with the year preceding, $1,264,108 was under the heads of "Maintenance of Way and Structures" and "Maintenance of Equipment." It appears that for air-brakes and automatic couplers alone $526,286 was spent during the year, all of which was charged to operating expenses. Numerous evidences of economy and efficiency in operations are observable. For instance, while the number of tons of freight increased 17·50 per cent and the number one mile 15·65 per cent, the additional work was done with an increase in freight train mileage of only 6·46 per cent; and notwithstanding the smaller rate received, the freight trains, through increased loading, were made to earn slightly more per mile.

Despite the adverse circumstances with which the road had to contend, there are many satisfactory features to be noted. Thus the road earned $633,916 in excess of the charges required for the twelve months. This may not seem very large for a system of the size of the Erie, but its significance arises from the fact that this surplus remains, as we have seen, after only a very trifling improvement in the net. In the current year interest on the $31,032,000 of General Lien bonds will be 4 per cent per annum, instead of only 3 per cent, as in the late year; the surplus of $633,916, however, would meet the additional one per cent twice over. President Thomas dwells on the large expenditures required upon the property, but at least it is pleasing to note that the road has been brought to a high state of efficiency, as is evident from the fact that the train load in the late year, counting only revenue freight, was 300 tons, and including company freight was 312 tons. On the Central the corresponding figures for the same year were 299 and 320 tons, so that in this respect the Erie is doing as good work as the Central. We notice, too, that the present freight equipment of the Erie system numbers 43,862 cars, with a capacity in excess of a million tons—1,030,544. President Cal-

laway in his report gave the tonnage capacity of the Central at 658,905 tons, though this covers only the Central itself and not the Lake Shore and the othe Vanderbilt lines west of Chicago.

RAILROAD NET EARNINGS FOR JULY.

Very naturally our statement of railroad gross and net earnings for July does not make a favorable comparison with a year ago. The month had an extra Sunday and therefore one business day less than last year, there was a heavy contraction in the grain movement, attended also by a falling off in the live stock movement in the West, while a number of roads which had special advantages last year, by reason the Christian Endeavor Convention in San Francisco and the holding of the Mormon Fifty-Year Jubilee, did not experience a repetition of these advantages the present year. At the same time comparison is with very good returns in 1897.

In the aggregate of the gross earnings our statement shows only $201,774 increase, or but a fraction of one per cent. In the net earnings there is a loss approaching a million dollars—in exact figures $947,991, or 4·40 per cent. The following is a summary of the totals.

	July. (129 roads.)			January 1 to July 31 (121 roads.)		
	1898.	1897.	Inc. or Dec.	1898.	1897.	Increase.
	$	$	$	$	$	$
Gross earn's	67,870,961	67,669,187	+201,774	446,811,049	404,301,432	42,539,617
Oper. exp...	47,291,043	46,144,278	+1,149,765	315,113,425	288,150,233	26,963,192
Net earn's	20,576,918	21,524,909	−947,991	131,727,624	116,151,199	15,576,425

On the separate roads there have been some heavy losses, the anthracite coal roads being the chief sufferers, though a number of the grain-carrying roads have kept them company. As to the latter, however, the results have been rather irregular, and some roads record quite noteworthy gains. The best showing as a whole is made by Southern roads, which have gained so largely through the transportation of United States troops and supplies. We subjoin our usual statement showing all changes in excess of $30,000.

PRINCIPAL CHANGES IN GROSS EARNINGS IN JULY.

† Covers lines directly operated east and west of Pittsburg and Erie. The net on the Eastern lines decreased $110,300 and the net on the Western lines decreased $63,200.

We have stated that last year in July earnings were quite good. In the gross the increase then was 4¼ million dollars, and in the net nearly 2⅝ million dollars. Moreover, as it happens, July had been a good month in the years immediately preceding too, as will appear from the following.

Year and number of roads.	Gross Earnings. Year Given.	Year Preceding.	Increase or Decrease.	Net Earnings. Year Given.	Year Preceding.	Increase or Decrease.
July.	$	$	$	$	$	$
1898 (129)	66,524,847	59,720,176	−2,895,329	16,260,647	17,541,083	−1,280,436
1894 (125)	42,865,827	51,324,344	−8,460,517	12,367,609	14,991,055	−2,563,446

* Correction.

WALL STREET, FRIDAY, SEPT. 23, 1898.—5 P. M.

The Money Market and Financial Situation.—Legitimate business at the Stock Exchange this week has been greatly overshadowed by the enormously heavy transactions in American Sugar Refining stock, which on Monday and Tuesday aggregated nearly 190,000 shares. This movement, during which a decline of over 7 points was recorded, would be of comparatively little importance to any but those directly interested in the transaction, except that its magnitude and the extent of the decline had a tendency to unsettle the entire market for securities and keep investors aloof.

The money market was unsettled during the early part of the week, and rates for call loans reached the maximum of the season, but the market is now more settled and rates are lower.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 6 per cent. To-day's rates on call were 2½ to 4 per cent. Prime commercial paper quoted at 4 to 5 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £345 025, and the percentage of reserve to liabilities was 50·92, against 49·31 last week; the discount rate was advanced from 2½ to 3 per cent. The Bank of France shows a decrease of 200,000 francs in gold and an increase of 3,800,000 francs in silver.

The New York City Clearing-House banks in their statement of Sept. 17 showed a decrease in the reserve held of $7,795 000 and a surplus over the required reserve of $4,240,400, against $7,076,775 the previous week.

	1898. Sept. 17.	Differen's fr'm Prev. week.	1897. Sept. 18	1896. Sept. 19.

Foreign Exchange.—The market for foreign exchange has been continuously weak and rates are quoted lower. A considerable part of the total sales was absorbed by gold importing houses. Offerings were chiefly commercial bills.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 81@4 81¼; demand, 4 83¾@4 84; cables, 4 84¼@4 84½; prime commercial, sixty days, 4 80½@4 81; documentary commercial, sixty days, 4 80¼@4 81; grain for payment, 4 80¾@4 81¼; cotton for payment, 4 80@4 80¼; cotton for acceptance, 4 80½@4 81.

Posted rates of leading bankers follow:

Sept. 23.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 82½@4 83	4 84½@4 85
Prime commercial	4 80½@4 81	.....
Documentary commercial	4 80¼@4 81	.....
Paris bankers' (francs)	5 23 11/16@23¾	5 22½@21 13/16
Amsterdam (guilders) bankers	39⅞@39 15/16	40 1/16@40⅛
Frankfort or Bremen (reichmarks) b'kers	94 3/16@94¼	94 13/16@94⅞

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1 16 discount, selling 75c. per $1,000 premium; Charleston buying 1-16 discount, selling 1-16 premium; New Orleans, bank, 50c. premium, commercial, $1 25 discount; Chicago, 10c. per $1,000 premium; St. Louis, 35c. per $1,000 discount.

United States Bonds.—Sales of Government bonds at the Board include $35,000 5s reg., at 112½ to 112⅝; $20,000 5s coup., at 112¼; $50,000 4s reg., 1907, at 110½; $2,000 4s coup., 1907, at 111½, and $624,000 3s (when issued), at 105 to 105½.

The following are the daily closing quotations; *for yearly range see seventh page following.*

	Interest Periods.	Sept. 17.	Sept. 19	Sept. 20.	Sept. 21	Sept. 22	Sept. 23.

*This is the price bid at the morning board; no sale was made.

(Dealings are in bonds "when issued" and represent transactions in the Unlisted Department of the Exchange.

State and Railroad Bonds.—Sales of State bonds at the Board include $2 000 Tennessee settlement 3s at 93, $24.000 Virginia fund. debt 2-3s of 1991 at 76½ to 77 and $10,000 Virginia 6s deferred trust receipts at 7½.

The market for railway bonds has been dull, transactions at the Exchange averaging only a little more than $1,500,000 par value per day. Small fractional declines are general in the active lists, but changes in quotations are in no case important, and the conditions mentioned seem to indicate nothing more than a lack of investment demand pending a more settled condition of the stock and money markets.

Stock and Bond Sales.—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales N. Y. Stock Exch.	Week ending Sept. 23— 1898.	1897.	Jan. 1 to Sept. 23— 1898.	1897.
Government bonds	$711,000	$152,300	$14,981,510	$8,909,900
State bonds	80,000	16,500	9,903,700	1,177,300
RR. & misc. bonds.	9,539,000	14,509,500	590,787,010	389,730,990
Total	$10,330,000	$14,678,300	$608,061,220	$399,817,390
Stocks—No. shares	2,115,474	3,331,778	78,735,445	54,071,043
Par value	$203,414,500	$317,623,600	$7,419,764,825	$5,203,580,450
Bank shares, par val.	$5,900	$7,700	$136,960	$242,710

We add the following record of the transactions for each day of the week.

Week ending Sept. 23, 1898.	Stocks— Shares.	Par value.	Railroad, &c. Bonds.	State Bonds.	U. S. Bonds.
Saturday	197,813	$18,701,750	$1,530,500	.....	$208,300
Monday	494,664	38,035,500	1,937,500	.....	104,740
Tuesday	489,279	47,204,900	1,715,000	$14,000	101,700
Wednesday	307,116	28,726,450	1,039,500	11,000	108,300
Thursday	340,184	35,457,200	1,142,500	11,000	88,300
Friday	254,883	24,368,700	1,574,500	.....	169,660
Total	3,115,474	$203,414,500	$9,530,500	$36,000	$731,000

The sales on the Boston and Philadelphia Exchanges for the week ending Sept. 23, 1898, have been as follows:

	Boston. Listed shares.	Unlisted shares.	Bond sales.	Philadelphia. Listed shares.	Unlisted shares.	Bond sales.
Saturday	5,496	11,200	$81,400	11,508	3,842	$38,600
Monday	10,378	30,635	41,750	19,583	4,794	68,400
Tuesday	13,501	34,514	233,650	16,989	8,823	120,350

Railroad and Miscellaneous Stocks.—The volume of business in the stock market was about up to the average for several weeks past, but a large proportion of it was speculative in character. Transactions in the better class of railway shares were generally on a limited scale; the quotations for such stocks moved within a comparatively narrow range, and net changes are in most cases limited to fractions. The grangers were neglected, as were Illinois Central and New York Central, and the tendency of these shares was to lower prices. Baltimore & Ohio continued the advance noted during the previous two weeks and the anthracite coal stocks were relatively strong. Union Pacific was weak on disappointment in speculative circles because the dividend on the preferred shares was not made larger.

The miscellaneous list received unusual attention and American Sugar was by far the most conspicuous for activity and rapidly changing quotations. There are no new developments known to the public in regard to this property, but the possibility of active competition in the near future accompanied the decline of over 7 points which took place early in the week. A part of this decline has since been recovered.

New York Stock Exchange—A Daily, Weekly and Yearly Record.

STOCKS—HIGHEST AND LOWEST SALE PRICES.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

a These figures include results on leased lines. *b* Includes earnings from ferries, etc., not given separately. *c* Includes Des Moines & Kansas City for all periods. *d* Includes operations of the Chic. Burlington & Northern in both years. *e* Includes results on A. T. & S. Fe, Gulf Col. & S. Fe, S. Fe Pacific (old Atlantic & Pacific) and So. Cal. Ry. *f* Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. *g* Beginning July, earnings of Memphis Division and Middleborough & Aiken branches are included for both years.

* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So'western for both years, but Ohio Valley and Chicago and Texas for 1898 only. Results on Yazoo Branch excluded after July 1, 1898.

‡ Mexican currency.

§ Covers results of 11 directly operated east of Pittsburg.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of September our preliminary statement covers 78 roads, and shows 2·93 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations —see page 630.

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in July was $93,425, against $109,231 last year, and for January 1 to July 31 $647,232, against $374,802. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.
d Includes the operation of seven miles of Susquehanna Connecting road.
f Thirty per cent of gross earnings.
g After allowing for other income received, total net for July 1898 was $17,725 against $31,586.
h Includes results on Des Moines & Kansas City for all periods.
i Includes besides the entire Pacific System and the Atlantic properties, the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.
m Figures for 1897 include results on Kansas City and Independence Air Line, but those for 1898 do not.
n Embraces only earnings of reorganized lines; earnings of Central Branch not included.
* Figures beginning with July, 1897, include At. T. & S. Fe, Gulf Col. & Santa Fe, Santa Fe Pacific (old Atlantic & Pacific) and So. California Ry., but not Sonora Ry. and N. M. & Arizona, which previous to July had been included.
† For July, 1898, taxes and rentals amounted to $147,335, against $136,282, after deducting which, net for July, 1898, was $332,357, against $328 475.
‡ Includes Chesapeake Ohio & Southwestern from July 1, 1897, Ohio Valley from August 1, 1897, and Chicago & Texas from October 1, 1897, but does not include the Yazoo Branch after July 1, 1898.
§ Includes Chicago Burlington & Northern for both years.
‖ Including income from ferries, &c.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings or the calendar year from January 1 to and including such latest week or month.

* Includes Baltimore Traction and City & Suburban for both years.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

Roads.	Gross Earnings. 1898.	1897.	Net Earnings. 1898.	1897.

ANNUAL REPORTS.

Annual Reports.—The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which have been published since the last editions of the INVESTORS' AND STREET RAILWAY SUPPLEMENTS.

This index does *not* include reports in to-day's CHRONICLE.

RAILROAD AND MISCEL. Co's

Volume 67—	Page.
American Cereal Co.	368
Atchison Top. & Santa Fe.	271, 576
Boston & Albany	316, 478
Boston & Maine	367
Boston Electric Light	272
Buff. Roches. & Pitts.	316, 423, 432
Calumet & Hecla	240
Central Coal & Coke	369
Central of Ga. Ry.	527
Chesapeake & Ohio	315, 324
Chicago Burlington & Quincy	271
Chic. & East. Ill.	421
Chicago Great West.	219, 423, 443
Chic. Mil. & St. P.	525, 531, 577
Chic. & North West.	219, 264, 315
Chic. Peoria & St. Louis	367
Cleve. Cin. Chic. & St. L.	424, 529, 533
Col. Fuel & Iron	527
Denver & Rio Grande	271, 428, 429
Erie RR.	477, 576
Fall Brook Ry.	479
Fitchburg RR.	368
Georgia & Alabama	272
Glucose Sugar Refining (10½ mos.)	272
Illinois Central	575, 580
Iowa Central Ry.	367
Jacksonville Tampa & Key West.	479
K. C. Ft. S. & Mem.	424
Kansas City (Mo.) Gas	528
K. C. Mem. & Birm.	424
Long Island	272
Louisville & Nashville	316
Manhattan Ry.	368
Mexican Central Ry. (six months)	478
Mobile & Ohio	272
N. Y. Cent. & H. R. RR.	577, 581
N. Y. N. Hav. & Hart. RR.	576
N. Y. Ont. & Western	367, 477, 480

RAILROADS & MIS. Co's—(*Con.*)

Volume 67—	Page.
New England	425
N. Y. Cen. & H. R. RR.	527
Norfolk & Western	272, 526, 530
Northern Pac.	477, 527, 576, 588
Ohio Falls Car Mfg.	480
Oregon RR. & Navigation	316
Oregon Short Line	368
Pacific Mail SS. Co.	219
Peoria & Eastern	425
Railway Equipment Co. of Minn.	368
Reading Co.	576
Rio Grande Southern	425
Rio Grand Western	424
St. Louis & San Francisco	272
San Francisco Breweries (Limited)	369
Staten Island Rapid Transit	368
Southern Railway	366
Ulster & Delaware	478
United Electric Securities	480
United States Glass	480
Wabash Rlt	316, 526, 538
Wagner Palace Car Co.	369
Welsbach Light	220
Western N. Y. & Penn.	316
West Va. Cent. & Pittsburg	478
Wisconsin Central Co.	424

STREET RAILWAYS.

Volumes 67—	Page.
Bridgeport Traction	428
Buffalo Railway	368
Brooklyn Rapid Transit	425
Metropol. St. Ry. of Kansas City	479
Metropol. St. Ry. (N. Y. City)	527
Middletown-Goshen Traction	480
Muscatine Electric	480
Third Avenue RR.	480

Union Pacific Railroad Company.

(Statement for six months ending June 30, 1898.)

Accompanying the announcement of the first dividend, 1½ per cent on the preferred stock, was issued the following:

CAPITALIZATION:

Common stock	$61,000,000 00	
Preferred stock	75,000,000 00	
		$136,000,000
First mortgage bonds outstanding		90,000,000

INCOME AND EXPENDITURES, JANUARY 1 TO JUNE 30, 1898.

Gross receipts from operations, main line		$7,670,579
Operating expenses and taxes		4,534,418
Net receipts from operations		$3,136,161
Miscellaneous income		606,442
Available income		$3,742,603
Fixed charges	$1,800,000 00	
Adjustment of taxes	145,918 24	
		1,945,918
Balance, surplus (exclusive of branch lines)		$1,796,685
Additional Net Income.		
Net results from operation of branch lines to be included in the system, six months, approximately		*$446,659

"There has been authorized for new equipment, out of available cash resources other than current earnings, and in a great part already expended, $3,065,024."—V. 67, p. 435.

Atchison Topeka & Santa Fe Railway.

(For year ending June 30, 1898.)

The report signed by President Ripley and Chairman Walker is printed in full on pages 641 to 644. And in addition several tables are also given. On page 576 of the CHRONICLE of Sept. 17 will be found a comparative statement of results for several years.

Erie Railroad.

(For the year ending June 30, 1898.)

The report of President Thomas will be found in full on pages 636 to 640. In the CHRONICLE of Sept. 17, on page 576, were published comparative figures for several years of the operations, earnings, charges and the balance sheets.

St. Louis & San Francisco Railroad.

(Report for the fiscal year ending June 30, 1898.)

The remarks of President Robinson, together with a detailed statement of earnings, income account, balance sheet, etc., will be found on pages 644 to 647 of to day's CHRONICLE.

Below we give a comparative statement for several years:

Missouri Kansas & Texas Railway.

(Report for the year ending June 30, 1898.)

President Henry C. Rouse says in part:

Operations.—The business of the past year was subject to two sources of interruption, the first being yellow fever in the summer of 1897 and the second an unprecedented flood in the Indian Territory, resulting in the total interruption for nine days of the handling of freight over the main line. The tonnage of the year, however, was 3,563,825, an increase of 331,919 tons over the preceding year. The passengers carried were 1,457,548, an increase of 110,025. This very considerable increase of business was conducted with a decrease in freight-train mileage of 449,964 miles and a decrease in passenger-train mileage of 544,026 miles. The average rate per ton per mile received for freight was 0·918 cents, as against 0·895 cents the previous year.

The increase in business has been well distributed over all the principal sources of traffic, without any signal increase of any particular movement. The reduction in expenses has been effected without any impairment of the condition of the property and simply reflects the improved condition of the plant and organization.

The general traffic conditions are much brighter for th current year, and it is expected that some demoralization in rates existing in the past will be corrected. The crop outlook is of the most encouraging character and, if realized, will afford a volume of traffic that will tax the facilities of the railway to their utmost.

The permanent way has been steadily improved by ballasting and re-laying of steel; 38 miles were completely ballasted and 57 miles additional were partially completed during the year; 117 miles were re-laid with heavier steel.

Financial.—The company is free from floating debt and there has been no increase in its outstanding stocks or bonds.

Land Grant in Indian Territory.—On June 23, 1898, the Congress of the United States passed an Act providing for the division and allotment of the lands of the Indian nations in the Indian Territory to the individual Indian citizens. This Act marks an era in the history of the Territory and will lead to its early opening to settlement and a consequent development of commerce which will be highly beneficial to the company. This Act of Congress contains no affirmative recognition of the land grant of the company, but expressly provides that it shall not in any way affect any vested legal rights heretofore granted.

Statistics.—The comparative figures of operations, earnings, etc., have been as follows:

Santa Fe Prescott & Phœnix Railway.

(Report for the year ending June 30, 1898.)

President and General Manager F. M. Murphy says

General Results.—The gross earnings in 1898 increased over 1897 17·42 per cent; net earnings in 1898 increased over 1897 24·13 per cent. Business for the year has been good and prospects are bright for the future.

Prescott & Eastern R'y.—Bonds Guaranteed.—The Prescott & Eastern RR. now being constructed to Mayer, a distance of 26½ miles, will be completed early in October, and we have a right to expect considerable additional traffic from the rich mining districts tributary thereto. The Executive Committee, by order of the board of directors, has entered into an agreement whereby the [$500,000] bonds of the Prescott & Eastern RR. are guaranteed by this company, which also agrees to furnish financial aid during construction, taking stock and

bonds of the Prescott & Eastern Railroad in settlement. When completed the road will be operated by this company, under favorable lease already entered into.

There are other districts that are entitled to consideration having in view the construction of branch lines that will not only prove profitable in themselves but contribute much additional business to the main line. The main line should be extended to Tempe and Mesa, a distance of about 17 miles.

Prospects, etc.—There is a steady and substantial improvement in all branches of business throughout the Territory; especially is this true in the mining districts. Water storage enterprises, however, have not received the serious consideration they deserve. The road has been operated for several years, with every prediction verified, and it hardly appears necessary that I should enlarge, to any considerable extent, on the bright future that I believe is guaranteed to it.

The rate of interest on the $2,964,000 second mortgage bonds, theretofore 4 per cent per annum, is 5 per cent beginning July 1, 1898; $48,500 second mortgage bond coupons No. 9, purchased by the company subject to an agreement dated the 26th day of May, 1897, covering pooling of said second mortgage bonds will be paid and canceled September, 1898.

Earnings.—The earnings and balance sheet have been:

American Spirits Manufacturing Co.—Standard Distilling & Distributing Co.—*New Directors.*—At an adjourned meeting of the stockholders of the American Spirits Manufacturing Co. on Wednesday it was voted to reduce the number of directors from eleven to seven. A new board was then elected, the only representatives of the old directorate to continue in office being S. M. Rice and Nathan Bijur, whose terms expire in 1899. The board is now as follows:

Marsden J. Perry, President of the Globe National Bank, Providence, R. I.
Almeric H. Paget, recently Treasurer and Director Metropol. Traction Co.
Pembroke Jones, President Standard Rice Co.
H. J. M. Cardeza, of Cardeza, Williams & Co., wholesale whiskey dealers.
T. H. Wentworth, Secretary and Treasurer of the Am. Spirits Co.
S. M. Rice, President of the company, and Nathan Bijur.

This change of directors is in accordance with the policy for bringing the American Company into close relations with the new Standard Distilling & Distributing Co., Messrs. Perry, Paget and Jones being directors of both corporations. The Standard Company, it is stated, will begin operations on Oct. 1.—V. 67, p. 323.

American Steel & Wire Co.—*On "Unlisted" List.*—The company's $12,000,000 preferred stock and $12,000,000 common stock were admitted to quotation in the Unlisted Department of the New York Stock Exchange on July 7, 1898. The official statement to the Exchange says in substance:

CAPITAL STOCK.—The American Steel & Wire Co. was incorporated under the laws of the State of Illinois in March, 1898, and commenced active business as of April 1, 1898. General office, "The Rookery," Chicago, Ill. Capital, $12,000,000 preferred stock and $12,000,000 common stock. Preferred stock, 7 per cent cumulative. Par value of all shares, $100 each. Entire amount, both preferred and common, has been issued and is widely distributed.

Stock consists of both Chicago and New York certificates. New York transfer agents, Messrs. Cuyler, Morgan & Co., No. 44 Pine Street; registrars, Metropolitan Trust Co., No. 37 Wall Street. Chicago transfer agents, Illinois Trust & Savings Bank; registrar, The Northern Trust Co.

DIRECTORS AND OFFICERS.—Directors—J. W. Gates, Isaac L. Ellwood, William Edenborn, Jno. Lambert, Alfred Clifford, Charles Douglass, H. B. Schuler, Elbert H. Gary, Frank Baackes, Eugene J. Buffington, Stewart H. Chisholm. Officers—J. W. Gates, Chairman; Jno. Lambert, President; William Edenborn, First Vice-President; Isaac L. Ellwood, Second Vice-President; Stewart H. Chisholm, Third Vice-President; E. T. Schuler, Treasurer; Eugene J. Buffington, Secretary; F. E. Patterson, Assistant Secretary; Frank Baackes, General Manager; E. Shearson, Auditor; Elbert H. Gary, General Counsel.

LOCATION OF PLANTS.—Mills and property of Allentown, Pa. (one mill), formerly Consolidated Steel & Wire Co.; Rankin, Pa. (one mill), formerly Consolidated Steel & Wire Co.; Beaver Falls, Pa. (one mill), formerly Consolidated Steel & Wire Co.; Salem, Ohio (one mill), formerly Salem Wire Nail Co; Cleveland, Ohio (three mills), formerly H. P. Nail Co., American Wire Co., Consol'dated Steel & Wire Co.; Findlay, Ohio (one mill), formerly Salem Wire Nail Co.; Anderson, Ind. (one mill), formerly American Wire Nail Co.; Joliet, Ill. (one mill), formerly Consolidated Steel & Wire Co.; Rockdale, Ill. (one mill), formerly Consolidated Steel & Wire Co.; De Kalb, Ill. (two mills), formerly I. L. Ellwood Manufacturing Co., Ellwood Wire & Nail Co.; St. Louis, Mo. (one mill), formerly Consolidated Steel & Wire Co. —V. 67, p. 72.

American Sugar Refining.—*Competition.*—The company is now in active competition with the new refinery of Arbuckle Brothers in Brooklyn. This refinery, as planned, was to have a capacity of between 3,000 and 4,000 barrels daily. The Dorscher refinery, adjoining the East River south of the Long Island Railroad station in Long Island City, will probably begin operations with a daily capacity of about 3,500 barrels before the end of October. The outside refineries, it is estimated, are now handling about one-third as much business as the American Company. It is believed the Mollenhauer and National refineries will resume the arrangement with the American Company which was terminated last week, and if not they will act in harmony with the American Company as will the Revere Refinery, Boston, leaving only the two refineries—Arbuckle and Dorscher—and the beet sugar refineries as free and active competitors. A tabulated statement showing the capacities of the various refineries in and out of the trust was given in the CHRONICLE of December 4, 1897, in V. 65, p. 1069.—V. 66, p. 1187.

Avoyelles RR.—St. Louis Avoyelles & Southwestern RR.—*Reorganized Company.*—The Avoyelles RR. Co. has been incorporated in Louisiana, with a capital stock of $150,000, as successor of the St. Louis Avoyelles & Southwestern, which was sold under foreclosure Aug. 20.—V. 67, p. 435.

Baltimore & Ohio RR.—*Foreclosure.*—The foreclosure suit under the consolidated 5 per cent mortgage of 1887 was brought before the United States Circuit Court in Baltimore on Sept. 19. This suit is preparatory to carrying out the reorganization plan.

Redemption of Car Notes.—The car rental notes dated July 18, 1897, for cars held under lease from the Michigan Peninsular Car Co. will be redeemed, principal and interest, at the office of the railroad company in Baltimore on Oct. 18 next, on which date interest on the notes will cease.

Receiver Cowen's Statement as to Recent Purchase of Stock.—Receiver John K. Cowen arrived this week in Baltimore and confirmed the reported sale of preferred stock held by the reorganization committee to a

syndicate of capitalists, among whom are included, Philip D. Armour, Mr. Ream, the executor of the Pullman estate; Marshall Field and James J. Hill, the President of the Great Northern Railroad. The "Baltimore American" quotes Mr. Cowen as follows: "Who the other gentlemen are in addition to those already known I am not at liberty to state. I may say, however, that the syndicate is a strong one, being composed of men of large means, who will spare no expense to place the property in a physical condition unexceled by any other road in the United States As President Hill has already pointed out, he has no intention of linking the Baltimore & Ohio and the Great Northern by means of another line between Chicago and St. Paul. The idea of such a connection was entirely foreign to the minds of the gentlemen who have acquired this interest in the property. Mr. Hill's connection with the Baltimore & Ohio will be in an advisory capacity, in which his long experience will be welcomed. Nothing revolutionary is proposed by the new owners. They bought the stock through Speyer & Co., believing that it would prove a profitable enterprise."

Great improvements will be made west of the Ohio River. The road from Chicago to the mountains will be reduced to an eighteen-food grade. East of the river betterments will also be made. We shall construct a tunnel at Mount Airy, to obviate the grade at that point. Other improvements will be made—gradually, of course, and with every regard to economy.

The foreclosure proceedings for the sale of the road will be pushed rapidly, and the time is not far distant when the property will be taken out of the hands of the receivers.

The headquarters and the shops will continue in Baltimore. The road will be reorganized under the new charter granted by the last Maryland legislature.

Noticeas to 5s of 1885.—Speyer & Co., pursuant to their notice of June 22, 1898, have deposited the 5s of 1885 assenting to their agreement, and thereby made them subject to the reorganization plan of June 22. The firm is now prepared at its office, 30 Broad Street, to exchange the Mercantile Trust Co. certificates of deposit received therefor against the trust receipts issued under the original agreement.—V 67, p. 577.

Bell Telephone Co. of Philadelphia.—*Increase of Stock Authorized.*—The stockholders this week voted to increase the capital stock from $2,000,000 to $1,000,000.—V. 67, p 475.

Brooklyn Rapid Transit.—Nassau Electric RR.—*Purchase of Stock.*—The sale was announced this week of the large holdings of R. T. Wilson in the stock of the Nassau Electric RR. Company to the Brooklyn Rapid Transit Co., or to parties acting in its interest. Later it was stated, on the highest authority, that an agreement had been executed whereby Albert L Johnson and Tom L. Johnson would turn over sufficient of their holdings to give the Rapid Transit people absolute control of the Nassau property. We were officially informed yesterday that the deal was still pending but was expected to go through. The new securities of the Nassau Company are about to be issued.—V. 67, p 425, 427, 318.

Buffalo North Main Street & Tonawanda Electric Railway.—*Line Abandoned.*—A Tonawanda special to the Buffalo "Commercial" under date of September 9 states that the road would not be operated after September 11 and that the franchise would be forfeited and the tracks torn up at once. The company was incorporated in 1895 and operated 5¾ miles of road, extending from North Main Street, Buffalo, to Tonawanda, but never earned its operating expenses.—V. 61, p 558.

Cambria Iron Co.—*Lease Ratified.*—The directors yesterday ratified the proposed lease to the Cambria Steel Co The new company will have $16,000,000 capital, and the iron company stockholders will have 4 per cent dividends guaranteed and may subscribe for Steel Company stock, two shares for each share now held. Cambria Iron stock, it is stated, will receive also a scrip dividend of 6 per cent convertible into stock. A meeting of the stockholders will be called at an early date to act upon the directors' action.—V. 67, p. 427.

Canadian Pacific Ry.—*Bonds Called.*—Of the Canada Central RR 5 per cent first mortgage bonds there have been drawn and will be paid off at the rate of £105 per £100 bond on Oct. 1 at the office of Speyer Brothers, 7 Lothbury, London, E C., 21 bonds of £500 each and 64 bonds of £100 each, in all £16,900.

Plans for New Steamer Lines.—The directors, it is stated, are planning to establish a new line of steamers on the Atlantic Ocean, provided a subsidy can be obtained from the Dominion Government; also a fleet of grain boats on the upper Great Lakes.—V. 67, p. 529.

Chicago Great Western Ry.—*Offer to Purchase.*—As to rumors touching this company, the following is given as from "good authority:" "It is true that an offer has been made by a prominent banking house to purchase control of Chicago Great Western. That is all that can be said on the subject at this time."—V. 67, p 481.

City & Suburban Ry. of Washington.—*Bonds Over Subscribed.*—The $1,500,000 first mortgage bonds have been oversubscribed at 102½ – V. 67, p. 370.

Cleveland Lorain & Wheeling Ry.—*Refunding.*—The company has sold to Kean, Van Cortlandt & Co $700,000 first consolidated 5 per cent gold bonds of 1933, to retire a like amount of Cleveland Tuscarawas Valley & Wheeling first mortgage 7 per cent bonds falling due October 1 next. The first consolidated mortgage 5 per cent bonds now become an absolute first mortgage on the entire road, the entire issue of $3,000 000 being outstanding. The fixed charges are also reduced $14,000 a year.

The Cleveland Tuscarawas Valley & Wheeling bonds may be exchanged for the first mortgage 5 per cent gold bonds upon terms which will be furnished on application by Kean, Van Cortlandt & Co., 33 Wall Street, N. Y. See advertisement on page vii.—V. 61, p. 566.

Cuyahoga Telephone Co. of Cleveland, O.—*Incorporated.* This company has been incorporated in Ohio with authorized capital stock of $3 000,000 to construct and operate a line in opposition to the Bell Company. The incorporators of the company were: E. W Moore, J. B Hanna, James B. Hoge, H. Clark Ford John Sherwin, H. A. Everett and H. B. McGraw. The Union Suburban Telephone & Telegraph Co., with authorized capital of $1,000,000 was recently incorporated in the same interests; see V. 67, p. 484.

Denver Leadville & Gunnison Ry.—*Sale Nov. 11.*—The foreclosure sale is set for Nov. 11.—V. 67, p. 319.

Des Moines Water Power.—*Proposed Sale of Water Works Defeated.*—On September 5, 1898, the voters of Des Moines defeated the proposition to purchase the plant of the Des Moines Water Works Co. for $850,000. The vote was 3,760 for to 3,529 against.—V. 66. p. 1237.

Edison Electric Illuminating of Brooklyn.—*Two-thirds of Stock Deposited—Further Deposits Till Sept. 30* —More than two-thirds of the capital stock has been deposited, or secured to be deposited, with the Central Trust Co. of New York, pursuant to the agreement of Aug. 25, 1898, providing for the sale of the same to the Kings County Electric Light & Power Co. The time for further deposits is extended to and including 30th September next at 3 P. M. Rights to subscribe for the new issue of stock of the Edison Company will be received to 5th October, 1898, at 3 P. M.—V. 67, p. 482.

Erie RR.—*Quarterly.*—Earnings for the quarter ending June 30 have been reported:

3 mos. ending June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance.
1898	$7,415,072	$1,863,041	$237,906	$2,055,679	$45,271
1897	7,483,503	2,339,126	165,457	2,250,458	254,425

The figures for the fiscal year ending June 30 will be found on a preceding page under "Annual Reports."—V. 67, p 477.

Federal Steel Co.—*Terms of Consolidation.*—The official terms of exchange were given last week. In tabular form they are as follows, each stockholder being required to subscribe to his allotment of new common stock at the rate of $25 per share if he desires to participate:

Terms of Exchange.	Each $100 old share paying cash	—Receives new stock— Pref'd.	Common.
Illinois Steel	$20 00	$100 00	$80 00
Minnesota Iron	27 10	135 50	108 40
Elgin Joliet & Eastern	17 50	87 50	70 00

A syndicate has been formed to underwrite the cash payments to the amount of $14,075,000. From this sum $3 875,000 will be paid for a two thirds interest in the Lorain Steel Co., and after paying expenses there will be left about $10,000,000 cash for working capital, for purchase of other properties, if desired, and for improvements.

It is expected that about $52,000,000 of Federal Steel preferred and $46,000,000 of the common will be issued at present. The exchanges on the terms above indicated require the issue of $46,258,135 preferred and $37.006,518 common, while the remainder of the present issue ($5,741,865 preferred and $12,993,402 common) will go to the syndicate for $1,823,373 in cash. The contributions from stockholders aggregate $9,251,627, making, with the $4 823,373 from sale of stock to the syndicate, the $14,075,000 available cash underwritten as above stated.

Gov. Flower said yesterday:

The consolidation ought to prove a great success. The Minnesota Iron Co. owns a practically inexhaustible supply of the best iron ore in the United States The company also owns the Duluth & Iron Range RR, which connects with the mines, and is capable of transporting 4,000,000 tons of ore per annum. It is now, however, transporting only about 2,500,000 tons per annum. The company owns the property about Two Harbors, on Lake Superior, together with five great ore docks, each containing 1,000 feet of ore pockets, with an aggregate capacity of 138 760 tons of ore. These docks are furnished with electric lights and are operated day and night. The company also owns more than one half the steamers and barges on the lakes used for the transportation of ores to Chicago, Cleveland, Buffalo, etc.

It also owns the railroad that transports the ores from the docks at Chicago to the several steel and iron mills in that city. When the consolidation is completed the Federal Steel Co. will own all the steel mills in Chicago, capable of turning out 5,000 tons of steel a day, together with the mills at Lorain and Johnstown, which are capable of turning out structural iron and trolley rails.

The earnings of the Minnesota Iron Co. last year were 10 per cent on its capital stock, and the Illinois Steel Co. earned over 12 per cent. In my judgment the Federal Steel Co.'s preferred stock at 70 is a cheap property, and I have little doubt of its paying a regular 6 per cent annual dividend.—V. 67, p. 578.

Fitchburg RR.—*Sale of Stock.*—The company has sold to Kidder, Peabody & Co. 16,000 shares of preferred stock at a price said to be at or above par. The proceeds, it is stated, will pay off $750,000 5 per cent bonds, which mature in March, 1899, and $500,000 5 per cent bonds which mature June 1, 1900. The company has been holding in its treasury as an investment over two millions of its authorized issue of $17,360,000 preferred.—V. 67, p. 368.

Florida Central & Peninsular RR.—South Bound RR.—*Sale of Bonds.*—The Mercantile Trust & Safe Deposit Co. of Baltimore and the Baltimore Trust & Guarantee Co. have

taken $1,550,000 first mortgage bonds issued by the South Bound Ry. in 1891. The bonds, which are guaranteed by the Florida Central & Peninsular, have been held by the construction company. The total outstanding issue is $3,033,000. As the Southern situation is constantly improving financially, and as this road forms an important link in the Southern System to Florida, the bonds as now taken were purchased more as an investment than to offer to the public. They will not be put upon the market at present.—V. 65, p. 1170.

Fourth Street & Arsenal Street Ry. of St. Louis.—*Sold.*—This property was sold under foreclosure Tuesday for $191,000 to John H. Overall.—V. 65, p. 111.

General Electric.—*Settlement of Preferred Stock Matter.*—T. L. Livermore and Edwin F. Atkins, the preferred stockholders' committee, issued this week a circular announcing a proposition for the sale of the 9,800 shares of preferred stock on deposit with the American Loan & Trust Co. of Boston, (the committee's depositary) on a basis of $100 per share, with interest at the rate of 6 per cent in cash, payable when the stock is delivered. The circular follows:

"Your committee have been in negotiation throughout the pendency of the litigation with the General Electric Co., but have been unable to adjust the controversy with the company to their satisfaction. They have now received from individuals a proposition which they have decided to recommend you to accept. It is that we sell our shares and rights in respect thereof, at $100 a share cash, on or before October 1, 1898, with interest from July 1, 1898, at 6 per cent.

"This is not an favorable a result as we have hoped for. It amounts to five years' back dividends and $65 per share for the unreduced stock. In view, however, of the doubtful character of the questions raised, the protracted and expensive litigation involved and the comparatively small number of shareholders—say one-fourth of the preferred stock—taking part in it, we have accepted the offer for ourselves and recommend it to you. The price above named will be paid without any deduction for the expenses of the proceedings to date.

"Those who elect not to accept this offer either may acquiesce in the reduction of their shares pursuant to the recent action of the company and accept new stock certificates for the reduced amount of stock, or, at their election, may take up and pursue the pending litigation at their own risk and expense. We have instructed the American Loan & Trust Co. to dismiss the pending suit unless, prior to Oct. 1, 1898, some depositors shall take suitable action to continue the litigation."

We are officially informed that this offer was made on behalf of the General Electric Co. and that the bulk of the 9,800 shares has accepted the proposition, thus settling the litigation regarding the reduction of the issue.—V. 67, p. 578.

Great Southern Oil & Gas.—*Mortgage.*—A mortgage for $600,000 has been filed at Zanesville, O., by the Great Southern Oil & Gas Company in favor of the Manhattan Trust Co.

Hudson (N. Y.) Street Railway—Hudson Electric Light & Power.—*Purchased.*—A press dispatch says that Charles J. Cooper, of Brooklyn, who recently purchased the Hudson Street Railway, has become sole owner of the Hudson Electric Light & Power Co.

Indiana Illinois & Iowa RR.—*Sale of New Bonds.*—The company has sold to Redmond, Kerr & Co. and Lee, Higginson & Co. $2,500,000 of the $3,000,000 new 5 per cent gold bonds authorized last week. Of the amount sold, $500,000 were offered this week for public subscription at 102½ and were largely over subscribed. The remainder of the bonds purchased had previously been marketed.

President Shonts says in substance:

The mortgage securing these bonds is the first and only obligation and covers the entire property at about $16,000 per mile. The $2,500,000 bonds sold were issued to retire the former bonded debt of the company ($1,757,000) and for expenditures made out of the surplus earnings for construction and improvements upon the property during the past four years. The $500,000 unissued bonds are to be held in the company's treasury, to be issued only for new construction at not exceeding $16,000 per mile. It is now proposed to build about 35 miles of railroad from Streator to Bureau Junction via Lostant, at which latter place connection will be made with the Illinois Central RR. and at Bureau Junction with the Chicago Rock Island & Pacific Railway Co. Upon completion of this extension the lease of trackage to Seneca will be discontinued. The bonds may be called upon 30 days' notice at 110 and accrued interest. The mortgage likewise provides that the bondholders shall have the right to elect two members of the board of directors. The Continental Trust Co. and Joseph D. Oliver are the mortgage trustees.—V. 67, p. 578.

Jasper Town & Lands.—*Litigation.*—Press dispatch says Judge Bruce, in the Federal Court at Birmingham, Ala., on Sept. 20 refused to grant the petition of John A. James of New York for a receiver for the Jasper Co., this receiver also to have jurisdiction over the Corona Co., of which J. H. Bartlett had been previously appointed receiver by the State courts. Judge Bruce held that the Federal Court had no right to interfere in a matter already in the hands of a State court. Bartlett represents the English interests and James the American interests. This leaves the Corona Co., the property really in dispute, in the control of English stockholders.—V. 67, p. 428.

Kansas City Fort Scott & Memphis Ry.—*Called Bonds.*—First mortgage 7 per cent $1,000 bonds of the Fort Scott Southeastern & Memphis R. R., 33 in number, and of the Short Creek & Joplin R. R., seven in number, have been drawn and will be paid Sept. 26, 1898, at 105 flat, on presentation (with coupons of and from March 1, 1899, attached), to the Trustees, at 50 State St., Boston.—V. 67, p. 424.

Kentucky & Indiana Bridge.—*Coupons.*—The three coupons due on the $1,000,000 first mortgage bonds on Sept. 11, 1897, and on March 11 and Sept. 11, 1898, $75,000 in all, remain unpaid. This interest, it is stated, will be paid whenever the property is sold. Holders of some of the junior securities have delayed matters, but it is hoped the sale will take place this fall. The upset price is $740,000 (or $700,000?), subject to the first mortgage for $1,000,000.—V. 67, p. 483.

Lewiston Brunswick & Bath Street Ry.—*Completed.*—This new line has been completed, and regular trips are now being made over the entire route from Lewiston to Brunswick, via Lisbon, Topsham and Bath, a distance of 36 miles, with a branch from Lewiston to Sabattus, about six miles. A. L. Shaw of Bath, Me., is President.—V. 67, p. 481.

Los Angeles (Cal.) Railway.—*Negotiations for Control.*—A syndicate, composed, it is stated, of C. P. Huntington, H. E. Huntington, I. W. Hellman, Christian de Guigne and Antoine Borel, is negotiating for the control of the Los Angeles Railway Co. and of the other street railways of the city except the Los Angeles Traction Co. and two lines of comparatively small importance. The plan is to form a new company, cancel all the old bonds, issue new bonds, reorganize the properties on a paying basis, make all needed improvements and feasible extensions, and give Los Angeles a better service than it has ever enjoyed.—V. 66, p. 930.

Los Angeles City (Cal.) Water—*Receiver.*—Frank A. Gibson, cashier of the First National Bank of Los Angeles was on Sept. 8 agreed upon as receiver for the Los Angeles City Water Co. by the attorneys for both sides. Judge Oster was expected to make the appointment Sept. 12.—V. 67, p. 222.

Metropolitan Street Ry. of Kansas City.—*Stock Changes Hands.*—The Kansas City "Star" says Norman B. Ream, the Chicago capitalist, has since September 1 purchased a large share of the stock and will be a director; also that Mr. P. D. Armour has purchased a block of the stock controlled by Mr. Robert Fleming, the English capitalist.—V. 67, p. 479.

Mexican Central Ry.—*Extensions.*—As to the reports of proposed extensions, the company writes us as follows:

"No arrangements have been made by this company for the building of a branch line to Tequila. The line from Jimenez to Parral known as our "Parral Extension" has already been alluded to in our annual report for 1897. It is about 55 miles in length, and shown by dotted line on your map in the INVESTORS' SUPPLEMENT. It is expected that the construction will be finished next month. We have acquired the Michoacan & Pacific concession for a line south from Yurecuaro, and about 28 miles has been authorized by the Board and is now under construction. The line will run in a southerly direction from Yurecuaro, which is on our Guadalajara Extension between Patti and La Baron."—V. 67, p. 478.

National Linseed Oil.—*Reorganization.*—Regarding the call of the Olcott Committee for deposits of stock, the directors of the company have sent to the shareholders a circular saying in substance:

For the purpose of putting the affairs of this company upon a solid basis so that in the future it can conduct its business with its own capital instead of relying upon its ability to borrow from banks, your board of directors have requested Frederic P. Olcott, President of the Central Trust Co. of New York, to formulate a plan of reorganization. It is our desire to secure as quickly as possible several million dollars of fresh capital, thus enabling us to pay off every dollar of indebtedness secured or unsecured, and leave sufficient moneys in hand to carry on our great and growing business. Mr. Olcott has acceded to our request, and has associated with himself Gen. Samuel Thomas and Henry W. Poor.

The support of the holders of our stocks should be shown by depositing the stock with the Central Trust Co. As soon as a majority of the stock is deposited, the committee will formulate a plan and submit it to you for your approval. If you do not approve the plan submitted, then, regardless of the action of other stockholders, your stock will be returned to you upon your surrender of the receipt of the trust co'y.

A press dispatch quotes President Euston as saying that the plan contemplates the reduction of the present common stock from $18,000,000 to $9,000,000, the latter to represent the present assets and a small allowance for good will, and the creation of $6,000,000 preferred stock, this to be offered to stockholders and to be underwritten by a syndicate. In the reorganization the $1,500,000 outstanding bonds, it is understood, will be taken up. The amount borrowed outside of the bonded debt is stated as $3,500,000, which amount is nearly equaled by the book accounts, cash, material and finished products. Mr. Euston, Director Slocke, of Buffalo, and J. H. Eckels, of the Commercial National Bank, are a committee to assist in the reorganization.

At a meeting in St. Louis of stockholders representing, it is claimed, about 56,000 shares, George L. Edwards, J. H. Maxon and E. H. Lurdley were appointed a committee to examine thoroughly the company's books. The opposition of the company to the mandamus requiring it to permit an examination has been withdrawn.

At Chicago, Sept. 16, application for a receiver for the company was filed in the United States Circuit Court by Meyer Bernhard of Lacrosse, Wis., owner of 25 shares of stock.—V. 67, p. 530.

New York New Haven & Hartford RR.—*Quarterly.*—Earnings for the quarter ending June 30 have been reported:

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance for div.
1898.....	$7,614,740	$1,034,484	$414,152	$1,484,545	$864,091
1897.	7,012,547	2,464,670	184,397	1,562,633	1,086,434

The earnings, expenses, etc., for the fiscal year ending June 30, 1898, were given last week.—V. 67, p. 29.

Northern Pacific Ry.—*Suit of Old Preferred Stockholders.*—The decision of the Master denying the right of the preferred stock of the old company to a lien on a portion of the land grant has already been mentioned in this column (page 483). The counsel for the preferred shares, Messrs. Van Schaick & Norton, inform us that they will undoubtedly appeal the case, as they feel the Master has neglected to consider some of the peculiar features in the case which distinguish it from other cases in which preferred stock has been given a priority on capital. The mere fact that the mode of payment was not clearly defined should not, they believe, prevent the stock being considered in the light of certificates of indebtedness. Also the matter of notice, they think, was insufficiently treated in the opinion.—V. 67, p. 576, 579, 588.

Pacific Borax & Red Woods Chemical Works (Ltd.)—*Mortgage for $1,250,000 Filed.*—This English corporation has mortgaged its properties on the Pacific coast for $1,250,000

to the Indian & General Investment Trust, Ltd., of London, as trustee to provide for the construction of a large borax plant at Constable Hook, N. J., to which place is to be removed most of the company's Alameda plant. Extensive deposits of borax at Antofagasta, Chili, it is stated, are also to be purchased. The mortgage describes borax mines or factories in San Bernardino, Inyo, and Alameda counties in California: Esmeralda County, Nevada, and in Oregon.

Pacific Coast Co.—*First Dividend on Common Stock.*—The directors have declared a dividend of 3 per cent on the second preferred stock, making the full 4 per cent, and a dividend of 1 per cent on the common, from earnings for the seven months ending June 30. The full dividend on the first preferred has already been paid. The following is for the seven months ending June 30, 1897, after deducting all the dividends declared to date:

Gross earnings	$3,081,502	Int. on bonds (7 mos.)	$129,675
Op. expenses and taxes	2,395,145	Depreciation (7 mos.)	81,666
		Div. on 1st pref. (5%)	76,250
Net earnings	$686,357	Div. on 2d pref. (4%)	160,000
Interest and discount	6,960	Div. on common (1%)	70,000
Total net income	$693,317	Balance surplus	$175,725

—V. 67, p. 29.

Paducah Gas Light.—*Default—Receiver.*—Saunders A. Foster has been appointed receiver of the company on petition of the Farmers' Loan & Trust Co., the mortgage trustee. Interest on the bonds is in default.

Pennsylvania Manufacturing Light & Power.—*First Dividend.*—The company on Thursday declared its first dividend of 50 cents per share, payable on Oct. 15 to holders of record Sept. 30.—V. 67, p. 275.

People's Gas Light & Coke of Chicago.—Indiana Natural Gas.—*Settlement*—Mr. E. C. Benedict, said yesterday: "All contention between the Indiana Natural Gas Co. and the People's Gas Co. of Chicago has been most satisfactorily settled by mutual concessions, which will be lasting and friendly. The settlement in two or three years will largely augment the net earnings of the People's Co. from the use of natural gas alone."—V. 67, p. 483.

Peoria Decatur & Evansville RR.—*Interest Payment.*—The interest on the first mortgage bonds of both divisions will be paid to the certificates of deposit by the first mortgage bondholders' committee.—V. 67, p. 275.

Prescott & Eastern RR.—*New Lines.—Bonds Guaranteed.*—The facts regarding this new company, whose bonds will be guaranteed by the Santa Fe Prescott & Phœnix Ry. Co., are given in the report of the guarantor company, on a preceding page.

San Francisco & San Joaquin Valley Ry.—Bakersfield & Los Angeles Ry.—Atchison Topeka & Santa Fe Ry.—*Extension to Los Angeles and San Francisco.*—The Bakersfield & Los Angeles Ry. Co. has been incorporated by Claus Spreckels and others, directors of the San Francisco & San Joaquin Valley Ry., to extend that road from Bakersfield over the Tejon Pass to or toward Los Angeles. The new line will connect with the Atchison Topeka & Santa Fe, thus giving San Francisco another trans-Continental outlet to the East.

The San Francisco & San Joaquin Valley road as now in operation runs from Stockton southerly to Bakersfield, Cal., 235 miles, and work is in progress on its extension from Stockton towards San Francisco, 90 miles. A 5,700-foot tunnel is being bored for this extension through the Contra Costa hills, and also four other tunnels, aggregating 3,350 feet, at other points. The Northern terminus, we understand, will be at Port Richmond, connection there to be made with San Francisco by ferry. The labor involved in constructing tunnels, trestles and bridges is large, and it is thought a year and a-half will elapse before the road can be operated through to Port Richmond.

Rumors that are not officially denied are to the effect that the Atchison Topeka & Santa Fe Ry. Co. has arranged to acquire, either directly or through its friends, a controlling interest in the San Francisco & San Joaquin Valley Company. Of the stock of the latter company one-half is held by the Union Trust Co. of San Francisco under an agreement made to prevent its acquisition by competitive interests for the purpose of preventing the construction of the road. This agreement, it is understood, provides that either the shares themselves or their par value in cash shall be turned over to the owners on Jan. 1, 1899.—V. 65, p. 621; V. 67, p. 576.

South Carolina & Georgia Extension RR.—*Incorporated.*—This company was incorporated in North Carolina Sept. 14, with a capital stock of $500,000, as successor of the Ohio River & Charleston, recently foreclosed. The incorporators are: Samuel Hunt, of Cincinnati; Simon A. Stearn, John J. Collins, Geo. H. Earle, Jr., and Evans R. Dick, of Philadelphia, and P. J. Sinclair, of Marion, N. C. The South Carolina & Georgia began operating the propery on Sept. 1. The reported lease is denied.—V. 67, p. 530.

South Side Elevated R. R.—Chicago City Ry.—*Control Acquired.*—The Chicago City Ry., it is understood, has arranged to acquire the South Side Elevated Railway. It is said the surface road will assume the $750,000 outstanding bonds, and guarantee 4 per cent on the $10,328,800 capital stock of the elevated. The transfer, according to report, will take place on Jan. 1.—V. 66, p. 285; V. 67, p. 221.

Union Pacific RR.—*First Dividend.*—The directors on Thursday declared a dividend of 1¼ per cent on the preferred shares. A statement of earnings and charges for the six months ending June 30, issued in connection with this announcement, will be found under the heading "Annual Reports."—V. 67, p. 435.

Union Ry.—Southern Boulevard RR.—Westchester Electric.—*Quarterly.*—Earnings for the quarter and the 12 months ending June 30 were:

3 months ending June 30—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, &c.	Balance surplus
1898	$169,980	$61,148	.....	$38,178	$22,970
1897	148,241	62,521	$416	32,611	30,326
12 months—					
1897-8	$612,831	$224,199	$668	$144,709	$80,158
1896-7	541,853	220,488	998	133,431	88,055
SOUTHERN BOULEVARD RR.					
3 mos. end. June 30—					
1898	$11,168	$5,396	$33	$4,018	$1,411
1897	10,759	6,192	.....	4,199	1,993
12 months—					
1897-8	$48,752	$18,183	$33	$16,262	$1,954
1896-7	47,426	26,095	.....	15,932	10,163
WESTCHESTER ELECTRIC.					
3 mos. end. June 30—					
1898	$32,597	$10,185	.....	$7,242	$2,943
1897	34,169	11,489	.....	7,273	4,216
12 months—					
1897-8	$127,231	$35,381	.....	$28,942	$6,439
1896-7	129,482	41,923	.....	28,875	13,048

Union Ry. loans and bills payable June 30, 1898, $473,400, against $264,609 on June 30, 1897; Westchester Electric, $12,500.—V. 66, p. 1142.

Union Traction Co. of Philadelphia.—*Assessment of $5 per Share Payable Nov. 16.*—The directors on Monday called an assessment of $5 per share on the company's 600,000 shares of capital stock. The shares are $50 each, and the present call raises the total amount paid in on each to $17 50. The last previous assessment was $2 50 on March 1, 1897. Of the $3,000,000 cash to be raised $2,400,000 will be used to pay the loan secured for the purchase of the stock of the Hestonville Mantua & Fairmount and the balance to meet the cost of extensions, etc.

Annual Meeting.—At the annual meeting Wednesday the old board of directors, including J. Lowber Welsh, who was persuaded to reconsider his announced intention to retire, was re elected without opposition. The figures from the annual report for the year ending June 30, as presented to the meeting, were the same in effect as those published in the CHRONICLE of July 23, on page 175, there being a surplus from the year's operations of $24,620, contrasting with a deficit of $851,935 the previous year.—V. 67, p. 175.

Westinghouse Electric & Manufacturing Co.—Walker Co.—*Control Purchased.*—Mr. George Westinghouse, President of the Westinghouse Electric & Manufacturing Co. on Wednesday made the following announcement:

"The election this day of Roswell P. Flower and Anthony N. Brady as members of the board of directors of the Westinghouse Electric & Manufacturing Co., to represent the interests of the former stockholders of the Walker Company completes the union of the interests of the Walker Company of Cleveland with those of the Westinghouse Electric & Manufacturing Company. The purchase by the Westinghouse Company includes substantially all of the outstanding stock and all but $850,000 of the $2,500,000 of the twenty-year bonds of the Walker Company, the $850,000 remaining a first lien upon the property. The recent sale by the Westinghouse Company of $3,000,000 of debenture certificates has erroneously been connected with this transaction. The entire proceeds of the sale of these debenture certificates were used in retiring the floating and other debt of the company as previously announced.

"The increase in the total yearly fixed charges of the Westinghouse Company, due to the purchase of the Walker Company, will be but a little more than the sum that the Walker Company has been expending annually in defending patent litigation instituted by the General Electric and Westinghouse companies. The acquisition of the Walker Company will, by reason of the agreement of March 31, 1896, between the General Electric and Westinghouse companies, put an end to this patent litigation and very large annual expenditure on both sides. The business of the Walker Company, as a controlled company of the Westinghouse Company, will be entitled to the protection of the patents of the Westinghouse and General Electric companies, and will in all respects be subject to the agreement between these two companies in relation to patents." The announcement concludes:

"The Westinghouse Company regards the business and good will of the Walker Company as a valuable acquisition, especially as the Walker Company brings with it upward of $1,250,000 unfilled orders. The Walker Company has at Cleveland modern and extensive works, equipped with machinery capable of manufacturing the largest types of railway apparatus, and will, with the works of the Westinghouse Company at East Pittsburg, constitute a manufacturing plant second to none in the country. The capacity and profits of the two companies will be increased by carefully harmonizing the manufacturing and selling operations, and the direct savings thereby effected should exceed the fixed charges incurred by the purchase of the Walker Company. The shipments of both companies, owing to the large orders on hand, have been increasing during the past few months, and exceeded $750,000 for August.

"The total fixed charges of the Westinghouse Company, including those due to the Walker purchase and the dividends on its preferred stock, will be $42,000 per month."—V. 67, p. 324, 435.

Yonkers RR.—Union RY.—Third Av. RR.—*Sold.—Bonds Guaranteed.*—The Yonkers RR. has been sold to the Union Ry. Co., which will guarantee $1,000,000 bonds, this guaranty being accepted by the Third Avenue RR. Co.—V. 65, p. 514; V. 66, p. 1142; V. 67, p. 480, 484.

Reports and Documents.

ERIE RAILROAD COMPANY.

THIRD ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1898.

NEW YORK, September 8, 1898.

To the Bond and Share Holders of Erie Railroad Company:

The Board of Directors respectfully submits the following report of the operations of your property for the year ending June 30th, 1898:

MILEAGE.

The mileage operated on June 30th, 1898, is shown in detail in Table No. 1, in pamphlet report, from which you will note that the Company:

Owns in fee or controls by ownership of entire stock	1,6[illegible]50	Miles.
Controls by ownership of over a majority of stock	194·44	"
Leases	27[illegible]98	"
Operates under agreements	26·04	"
Has trackage rights over	164·06	"
A total mileage operated of	2,27[illegible]41	"

—of which 662·77 miles, or over 29 per cent, have second track, and 3·96 miles each third and fourth track.

The increase of mileage over last year represents the trackage rights over the Fall Brook Road, hereinafter referred to, but not taken into account in the statistics accompanying this report.

EARNINGS AND EXPENSES.

The following statement shows the gross earnings, expenses and net earnings from operations for the fiscal year of the entire system (excepting the New Jersey & New York Railroad and the Coal Companies, for which latter see page 27 in pamphlet report), including the Union Steamboat Line, Union Dry Dock, dining-cars and restaurants, and for comparative purposes similar figures for the fiscal year of 1897 are also given.

EARNINGS.

From—	1897.	1898.	*Inc. or Dec.*	
Freight	$16,600,449 14	$18,081,022 54	*I.*	$1,471,573 40
Coal	6,867,131 88	7,3[illegible]9,881 12	*I.*	49[illegible],749 14
Passenger	5,74[illegible],807 35	5,957,703 80	*I.*	214,896 45
Mail	461,[illegible]80 14	486,351 53	*I.*	21,[illegible]71 39
Express	574,1[illegible]0 20	586,221 [illegible]5	*I.*	12,040 [illegible]5
Rents	13[illegible],477 39	119,918 26	*D.*	12,[illegible]28 13
Miscellaneous	1,1[illegible]6,[illegible]02 02	1,149,7[illegible]1 71	*I.*	43,[illegible]29 74
Total earnings	$31,[illegible]497,040 92	$33,740,860 [illegible]6	*I.*	$2,2[illegible],[illegible]819 24

EXPENSES.

For—	1897.	1898.	*Inc. or dec.*	
Maintenance of Way and structures	$3,0[illegible],608 51	$3,383,498 81	*I.*	$293,890 30
Maintenance of Equip	4[illegible]3 7,3[illegible]2 49	5,317,610 64	*I.*	970,2[illegible] 8 15
Conduct. Transport'n	14,[illegible]91,81[illegible] 40	15,[illegible]085, 20 91	*I.*	790 50[illegible] 4
General Expenses	67[illegible],626 46	7[illegible],686 79	*I.*	57,3[illegible] 0 33
Taxes	8[illegible]4,098 72	87[illegible],020 77	*D.*	6,175 9[illegible]
Total Expenses	$21,332,242 53	$23,438,037 95	*I.*	$2,105,795 [illegible]7
Net earnings from Operation	$8,164,788 34	$8,302,822 21	*I.*	$138,033 87
Ratio of Expenses to earnings	74·08%	75·39%	*I.*	1·[illegible]1%

As will be seen from the above statement, the gross earnings for the year from operations reached the sum of $33,740,861 16, exceeding the gross earnings of the previous twelve months by $2,213,820 24, or 7·12 per cent. To produce this gross revenue required an expenditure of $25,438,037 95, an increase over last year of $2,105,795 37, or 9·03 per cent, leaving net earnings amounting to $8,302,822 21, or $138,033 87 more than last year, an increase of 1·69 per cent.

The expenses equaled 75·39 per cent of the earnings, a greater ratio by 1·31 per cent than for the year 1897.

MERCHANDISE FREIGHT.

This class of traffic produced revenue amounting to $18,081,022 54, being $1,471,572 40 greater than for the year 1897, or 8·86 per cent increase.

The volume of tonnage increased 20·20 per cent, or 2,134,960 tons, the total handled being 12,701,741 tons.

The number of tons carried one mile was 3,117,611,646, being 459,024,152, or 17·27 per cent greater than last year.

The average rate received per ton per mile for this traffic was 5·80 mills, being a decrease of ·45 mills, or 7·20 per cent as compared with 1897, and the average haul was also less than the previous year, being 245·45 miles, as against 251·69 miles, a falling off of 6·15, or 2·44 per cent.

The items transported are shown in detail in Table No. 13, pamphlet report, and consisted principally of—

Grain, flour and mill products,	Petroleum and other oils,
Fruits and vegetables,	Iron and iron products,
Live stock,	Cement, stone, sand, etc.
General merchandise,	Lumber and other products of the forest.

The volume of the merchandise traffic shows an encouraging increase, but the downward tendency in the rate continues. During the last eight years it has fallen from 6·76 mills to 5·80 mills—nearly one mill, or over 14 per cent.

COAL.

The revenue received from the transportation of coal amounted to $7,359,881 12, an increase over the preceding year of $492,746 44, or 7·1[illegible] per cent.

The total tonnage amounted to 10,941,685 tons, an increase of 1,386,379 tons, or 1[illegible]·51 per cent.

The ton mileage equaled 1,438,737,661, an increase of 12·31 per cent, or 157,645,080 ton miles.

The average rate per ton per mile decreased from 5·36 mills to 5·12 mills, being 4·48 per cent, and the average haul of 131·49 miles decreased 2·58 miles, or 1·92 per cent.

The anthracite tonnage amounted to 5,437,618 tons, an increase of 571,184 tons, or 11·74 per cent.

Bituminous coal to the amount of 4,292,301 tons was transported, being 427,678 tons, or 11·07 per cent over last year.

The coke tonnage was 1,211,766 tons, being an increase of 387,517 tons, or 47·01 per cent.

The coal business was in a very unsettled condition during almost the entire year, notwithstanding which the Company was able to hold its tonnage, although the rate was lowered nearly 4½ per cent.

GENERAL FREIGHT TRAFFIC.

The total revenue derived by the Company from its entire freight traffic, both merchandise and coal, was $25,440,903 66, being $1,061,319 84 more than last year, an increase of 8·37 per cent.

The volume of tonnage moved from 20,122,086 tons in 1897 to 23,643,425 tons, an increase of 17·50 per cent, or 3,521,339 tons.

The ton miles increased 616,670,132, or 15·65 per cent, reaching the amount of 4,556,319,307 tons carried one mile.

The general average rate was 5·58 mills, being a decrease of 0·38 mills, or 6·38 per cent, while the average haul fell off 3·08 miles, or 1·57 per cent, being 192·71 miles.

During the last six years the average rate has decreased from 6·25 mills, to 5·58 mills, being 0·67 mills, or over 10 per cent.

In addition to the above tonnage, Company freight amounting to 2,727,656 tons was transported, making the grand total of all the tonnage handled 26,371,081.

In handling this volume of tonnage 15,186,023 freight train miles were run, an increase of 6·46 per cent over last year, while the tonnage increased 17·5 per cent. The average revenue per freight train mile was $1·67 as against $1·64 for 1897, an increase of 1·79 per cent, and the train load increased from 276·10 tons to 300·04 tons, taking the paying freight only; with the Company's freight included it reached 312·69 tons. The loading per car increased to 14·84 tons, or 6·46 per cent.

The volume of the Company's tonnage has been well maintained, but the continual decrease in the rate is not encouraging, and the statistics herewith will give some idea of the large amount of work that has to be done to earn a dollar. The cost of handling a ton one mile, given in Table No. 12 in pamphlet report, shows how close revenue and cost are approaching each other.

PASSENGER TRAFFIC.

The gross revenue obtained from the transportation of passengers was $5,957,703 80, to produce which 15,001,653 passengers were carried 383,390,464 miles. Each passenger traveled an average of 25·6 miles and paid fare amounting to 39·7 cents, or at the rate of 1·55 cents per mile traveled.

While the Company's passenger business was not quite so good as in 1896 there was a very satisfactory improvement in volume over 1897, especially when the general conditions surrounding the traffic are considered, as will be seen from the following statistics:

The revenue increased $214,896 45, or 3·74 per cent.

The number transported increased 238,310, or 1·61 per cent.

The miles traveled increased 13,361,5[illegible]8, or 3·61 per cent.

The average revenue per passenger increased 00·8 cents, or 2·06 per cent.

The average revenue per passenger mile increased 00 003 cents, or 0·13 per cent.

The average distance traveled increased 00·5 miles or 0·20 per cent.

The miles run by passenger trains equaled 8,128,690 miles, an increase of 0·75 per cent.

The earnings per passenger train mile were 87·432 cents, an increase of 4·[illegible]0 per cent.

The average number of passengers in each train was 47·17, an increase of 2·86 per cent.

The average number of passengers in each car was 14·98, an increase of 54·91 per cent.

Of the passengers transported 14,484,288 were local and 517,365 were through, the former being an increase and the latter a decrease as compared with the previous year.

The number of passengers transported over the Pavonia ferry during the year was 12,985,173, being 218,423 greater than last year.

The policy of your officers for some time past has been to encourage and build up the local passenger business, and the

wisdom of this course is clearly demonstrated by the result of the year's work. The falling off in revenue from the through business has not only been made up by the greater local travel but it has in addition produced the increase shown. The demands of the through travel of to-day are so expensive and the revenue is subject to so many attacks that there is very little, if any, profit in the traffic, while the local business, although handled at very low rates, can be well taken care of by less expensive service and made fairly remunerative through its volume.

EXPRESS.

The Company's proportion of the revenue produced by the express business was $586,221 15, an increase of $12,040 95 over the preceding twelve months.

MAIL.

The revenue received for the transportation of the mails increased over last year $21,371 39, giving a gross revenue of $486,351 53.

RENTS AND MISCELLANEOUS EARNINGS.

These two sources of revenue may be very properly considered together.

They show a net increase of $31,200 61.

EXPENSES.

MAINTENANCE OF WAY AND STRUCTURES

The cost of Maintenance of Way and Structures for the year amounted to Three Million Three Hundred and Eighty-three Thousand Four Hundred and Ninety-eight Dollars and Eighty one cents ($3,383,498 81), being an increase of Two Hundred and Ninety-three Thousand, Eight Hundred and Ninety Dollars and Thirty Cents ($293,890 30).

In pursuance of the policy adopted, the work of maintenance, repairs and betterments has been carried on with a view of ultimate economy. The benefits derived from the heavy but unavoidable expenditures made since the reorganization, principally in replacing wooden bridges with steel and iron structures, are now being realized, as is shown by a considerable reduction in that particular account for the year.

The general condition of the roadway and structures has been well maintained, and favorable progress has been made with the usual work on track and roadbed. Much inconvenience and expense were caused by severe washouts in the summer of 1897 and in the spring of 1898; the repairs made necessary thereby amounting to $69,000.

92·18 miles of track have been fully ballasted and 177·59 miles partially ballasted, being an increase of 30·33 miles in the former and 23·53 miles in the latter over last year.

The cost of changing the line between Sharpsville and Ferrona, amounting to $5,000, has been charged to repairs, as well as $3,352 for grading for double track between Buchanan and Meadville.

12,277 tons of ninety-pound steel rail, 3,001·5 tons of eighty-pound steel rail and 709 tons of seventy-four-pound steel, with the necessary frogs, switches, etc., have been put in the track. Cross ties to the number of 1,139,274 have been put in the track, being 41,919 in excess of the previous year.

Heavy renewals have been made to fences and road crossings.

Owing to the generally poor condition of the station and other buildings when the property was received by this Company, extensive repairs have been necessary. The passenger station at Paterson has been remodeled, and new passenger and freight stations have been built at Southfields, North Collins and Eden Centre. Extensive repairs were made to the station buildings at Hammond and Auburn Park.

Creameries have been erected at Turners and Big Island, and a new milk station at Malone, Ind. Two new ice houses have been erected at Hornellsville and one at Port Jervis. The ice house at Chicago has been enlarged. A new coaling station has been erected at Brockwayville and at Spencerville, Huntington and Chicago new water tanks, on steel foundations, were put up. New eighty-ton track scales have been put in at Chicago, and scale renewals have been made at Meadville, Youngstown and Galion. A new turn-table has been put in at Hornellsville, with the necessary pit and retaining wall

The Company's docks at Cleveland, Jersey City and Weehawken have had extensive repairs.

Heavy repairs have been made to the Company's telegraph line.

The following bridges have been replaced by iron or steel structures:

2 highway bridges.

Bridge No. 10, Rochester Division.

Bridges Nos. 9 and 10, Allegany Division (the only two remaining wooden bridges on the main line).

Bridge 17, on the B. & S. W. R.R., and

Bridges 127 and 128, on the Chicago & Erie R.R.

Wooden Trestle at Youngstown.

30-foot bridge at Meadville, replacing a box culvert that was washed out.

Bridge 70, Susquehanna Division, replaced with a heavier steel structure.

During the year 146,000 feet, or 27·7 miles, of Company's sidings have been put in, 8·09 miles of which were built in connection with the second track on the Greenwood Lake Division and cost charged to that Company's construction account, and 19,122 feet, or 3·7 miles, of private sidings. 265,233 feet, or 50·2 miles of drain tile have been put in during the year, making a total of 194 miles of tile drainage to date.

All of which were charged to Operating Expenses, excepting the Greenwood Lake sidings, as above.

New stations were erected at Jamestown, N. Y., and Franklin, Penn., a part of the cost of which was charged to Construction.

Nine single-track iron bridges on the Greenwood Lake Division were replaced with double-track steel structures, and one double-track steel bridge was built over a street in connection with the double-track work, the cost of which was charged to Construction account.

The new station at Rutherford, referred to in last year's report, has been completed. The Passenger Station at Passaic was remodeled and enlarged, new passenger and freight stations were erected at Willson Avenue, Cleveland, and new water tanks were put up at Midvale and Sterling Forest, the entire cost of which was charged to construction.

MAINTENANCE OF EQUIPMENT.

The expenses chargeable to this account amounted to Five Million Three Hundred and Fifty-seven Thousand Six Hundred and Ten Dollars and Sixty-four cents ($5,357,610 64), or an increase of Nine Hundred and Seventy Thousand Two Hundred and Eighteen Dollars and Fifteen Cents ($970,218 15) as compared with the previous year.

The large increase in this item of expense is due to the particularly heavy repairs and renewals that have been made during the year, including large expenditures for air-brakes and automatic couplers required by law. Both the locomotive and car equipment have been fully maintained and greatly improved.

Twenty-one light passenger single locomotives were reconstructed into two and four-cylinder compounds with Wootten boilers, and two passenger engines were equipped with new and larger boilers. Twenty-seven freight engines have been completely rebuilt with larger boilers and cylinders.

Eleven new 4,500-gallon tenders were provided and twenty-five tender frames were enlarged, increasing the cisterns to a capacity of 4,000 gallons.

Tenders and freight cars were equipped with 6,956 M. C. B. couplers and 5,597 air-brakes, at a cost of $526,286 50, all of which was charged to Operating Expenses. Of the total equipment 61·10 per cent of locomotives and 79·01 per cent of freight cars are equipped with M. C. B. couplers and 97·14 per cent of locomotives and 36·39 per cent of freight cars are equipped with air-brakes.

The entire locomotive equipment at the close of the fiscal year amounted to 979 engines, with an average age of twelve years and three months, of which 66·39 per cent was in good condition, 14·30 per cent fair and 4·60 per cent bad, with 14·71 per cent in shop or held for repairs, the larger portion of which consisted of light engines inherited by the Company from its predecessor.

The average mileage made by engines was 44,926 miles in passenger service and 38,995 miles in freight service. The greatest mileage was 83,596 miles in the passenger service and 64,307 miles in the freight service.

The passenger equipment has been fully maintained. Six hundred and sixty six passenger equipment cars were painted and varnished, and the heating system in 273 cars has been changed from hot water to live steam. Four emigrant cars were converted into first class coaches; one baggage-car was changed into a full postal car; one coach was changed into a combined passenger and mail car, and 1 one coach into a combined passenger, baggage and mail car. Five coaches were equipped with vestibules. Twelve coaches were equipped with Pintsch gas. One parlor smoking car for suburban service was purchased and charged to Operating Expenses.

Five hundred box cars have been purchased to replace condemned and destroyed freight equipment and charged to Operating Expenses. During the year two tool cars, nine caboose cars and 1,606 miscellaneous freight cars have been destroyed, the tonnage capacity of which, however has been made good.

Close attention has been paid to the Fuel Consumption, and while the fuel account shows an decrease of only $932 96, yet the total number of tons of coal consumed was 143,294 more than last year, or 9·01 per cent, due to increased tonnage; the total locomotive mileage increased 6·76 per cent and car mileage 11·30 per cent. The consumption of coal per one hundred tons per mile decreased 3·26 per cent; the cost per locomotive mile decreased 6·41 per cent and per car mile 11·76 per cent.

The accompanying statements show the total equipment of the Company in detail.

The expenditures on the Company's equipment have been exceptionally heavy, and were made necessary by the condition and character of the equipment turned over to the Company by the Receivers of its predecessor, and by the demands of the public for modern equipment and expedited service. It has been a necessity for the Company to keep up with the demands of its patrons in this respect, and while, under the circumstances, this policy has involved a considerable cost, yet in the opinion of the Board the ex-

penditure was wise, and beneficial results have been and will continue to be obtained therefrom.

CONDUCTING TRANSPORTATION.

The expenses incurred under this head amounted to Fifteen Million, Eighty-five Thousand, Three Hundred and Twenty Dollars and Ninety-four Cents ($15,085,320 94), being an increase of Seven Hundred and Ninety Thousand, Five Hundred and Two Dollars and Fifty four Cents ($790,502 54).

The ton mileage of the freight traffic increased 15·65 per cent, and the miles traveled by passengers increased 3·61 per cent, while the expenses of conducting transportation increased 5·53 per cent. This fully accounts for the additional expenditures charged to this account.

The Bergen Transfer has proved a valuable adjunct in handling freight at the Eastern Terminal and expediting its delivery, as well as in reducing the large amount of switching heretofore necessary at Jersey City. During the year this transfer saved 3,369 cars, reducing the number of cars passing through the tunnel by 7,938. The cost of handling this freight was reduced from 22·2 cents to 19·2 cents per ton, or 13·51 per cent

Fourteen thousand, three hundred and nine cars were handled over the new float bridge at Weehawken.

The Chicago grain elevator, completed last year, has handled a business of 11,340 cars.

The Jersey City grain elevator handled 29,695 cars, an increase over the previous year of 9,627 cars—over 47 per cent.

The Erie grain elevator at Buffalo has handled 13,282,766 bushels, being 22·57 per cent less than 1897. While the grain shipments handled through the Buffalo elevator decreased, the total grain shipments of the road increased 22 per cent.

The tonnage handled over the Blake Dock at Buffalo was 488,863 tons of coal and 73,043 tons of salt, being an increase of 146,246 and 12,644 tons, respectively.

During the year 341,175 tons of ore were shipped over the Buffalo Dock, an increase of 182,830 tons, or 115·47 per cent.

The tonnage handled at the New York terminal exceeded that of last year by 88,877 tons, the total tonnage being 3,263,545 tons.

During the year 26,692 cars of coal, containing 607,473 tons, were handled by the Cleveland unloader, an increase in tonnage of 15·34 per cent.

The system of rating engines by the tonnage instead of by the number of cars has continued to give satisfactory results. The average per draft increased 44·9 tons, or 6·54 per cent; the average per car per draft increased 0·6 tons, or 2·61 per cent; while the cost of handling 100 tons per mile decreased 6·20 per cent. The average number of freight cars per draft increased 4·07 per cent, while the total cost per locomotive mile decreased from 21·82 to 21·71, or 0·50 per cent, and the cost per car mile decreased from 1·57 to 1·50, or 4·46 per cent.

Good results have been obtained in the efforts to reduce the number of fast freight trains run during the year and the result shows a fair decrease without interfering with the proper despatch of the freight. The fast freight service is expensive and it is difficult to make much saving in this respect and at the same time meet competition,

While the Company has not been entirely free from accidents, yet it has closed the year without causing the death of a single passenger.

GENERAL EXPENSES.

As compared with the previous year this account shows an increase of $57,360 33. This is practically all in the item of insurance, due to less than the full year's insurance premium being charged last year on account of policies turned over by the Receivers and to the difference in the method of keeping the accounts referred to in previous reports.

TAXES.

The tax assessments levied against the Company for the fiscal year and paid amounted to $877,220 77, or 2·60 per cent of the gross revenue, this exclusive of the tax paid on the increase of the Capital Stock.

FLOATING EQUIPMENT.

The Company's floating equipment in the New York harbor at the close of the fiscal year consisted of:

8 Ferry-boats,	3 Steam hoists,	29 Covered barges,
11 Tugs,	23 Car floats,	18 Open barges,
	8 Steam barges.	

The ferry-boat "Erie" is being rebuilt.

The ferry-boat "Delaware" has had her main decks on both ends raised.

One steam barge, the "Suffern," has been built and put in service to replace the "Susan," condemned the previous year.

Two new car floats with steel hulls were built and put in service during the year, and another float is now in course of construction to replace Float No. 10, condemned.

The cost per ton of lightering freight as compared with the preceding year shows a decrease of 7·8 mills, or 2 97 per cent.

The equipment has been well maintained and all renewals paid for out of Operating Expenses.

CONSTRUCTION.

This account has been charged with the net sum of $575,128 89, being the cost of additions and betterments made to the property during the fiscal year, and which consist chiefly as follows:

Completion of third and fourth tracks between Secaucus and Rutherford;
Elevation of tracks at Jersey City;
Enlargement of yard at Bergen;
Removing grade crossings at Buffalo;
Right of way, etc., Penhorn Creek Railroad;
Enlargement of piers 20 and 21, New York;
Enlargement of freight house, Buffalo;
Ore and fuel docks at Buffalo;
New passenger and freight stations (increased cost of new buildings over replacing old).

In addition to the above amount $427,515 00 was expended in completing the second track on the Greenwood Lake Division. This sum was charged against the Special Construction Fund of the New York & Greenwood Lake Ry. Company produced by the sale of bonds in its treasury when its property was leased by this Company. The total cost of this second track was $663,698 62, and exceeded the amount of the fund by $279,427 79, which amount, as you will note from the balance sheet, is charged against the Greenwood Lake Company and is a good property asset.

From December 1st, 1895, the organization of your Company, to the end of this fiscal year, a period of two years and seven months, the sum of $1,415,751 68 has been charged to Construction or Capital Account for additions and improvements to your property exclusive of equipment stated below. A portion of this expenditure has been paid for out of Earnings, and the Company is entitled to bonds therefor under the Consolidated Mortgage as hereinafter shown in detail.

EQUIPMENT.

The following new equipment, costing $1,531,455 06, has been purchased during the year and charged to Capital Account:

6 Milk cars,
1,000 Large box cars,
1,000 Large coal cars,
200 Refrigerator cars.

These cars were badly needed to take care of the Company's business, and while the equipment received from your predecessor has been completely maintained, yet a large part of it consists of small cars, undesirable for much of the traffic of to-day, and further expenditures for additional modern equipment will have to be made as the Company's financial condition justifies in order to keep abreast of its competitors in this respect.

The air-brakes and automatic couplers on old and renewed equipment required by the United States and State laws have been charged to Operating Expenses. During the year $526,286 50 was expended for that purpose. The total of this expense from the beginning of the work to June 30, 1898, amounts to $2,804,805 04.

UNION STEAMBOAT LINE AND UNION DRY DOCK.

No change has been made during the year in the fleet of the Union Steamboat Line, which consists of the following steamers:

"New York," wood	2,000	tons	carrying capacity.
"Rochester," wood	2,400	"	" "
"Chemung," steel	2,550	"	" "
"Owego," steel	2,550	"	" "
"Tioga," steel	2,650	"	" "
"A. J. Jewett," steel	2,650	"	" "
"Ramapo," steel	3,500	"	" "
"Starrucca," steel	3,500	"	" "

This fleet has taken good care of the Company's Lake business and also enabled it to ship its own coal to the West upon favorable terms.

The Union Dry Dock has done a fair business during the year, upon which it has made a satisfactory profit. The concern is self-sustaining and a source of income to your Company, not only through its profits but in repairing the Union Steamboat fleet expeditiously and at a minimum cost.

COAL COMPANIES

The operations of the Coal Companies for the twelve months ending June 30th, 1897, resulted in net earnings amounting to $209,784 91, which sum has been included in the Company's income as shown.

The Coal business for the year ending June 30th, 1898, has not been very satisfactory, and it is doubtful whether the results will be as profitable as the previous year. However, the books have not yet been closed, and the year's business cannot, therefore, be definitely stated or included in the statements herewith.

EQUIPMENT TRUSTS.

Of the equipment trusts assumed by your Company from the New York Lake Erie & Western Railroad Company,

There was a balance on June 30, 1897, of	$2,405,090 00
Upon which payments have been made to June 30, 1898, of	459,750 00
Leaving a balance on that date of	$1,945,340 00

Brought forward		$3,534,310 17
Of the trusts assumed from the New York Pennsylvania & Ohio Railroad Company,		
There was a balance on June 30, 1897, of	$1,695,864 89	
Upon which payments have been made to June 30, 1898, of	106,894 72	
Leaving a balance on that date of		1,588,970 17
Or a grand total of		$3,534,310 17
Upon the balance due June 30, 1897, on the equipment trusts created by this Company,		
Amounting to	$1,170,000 00	
There has been paid during the year	180,000 00	
Leaving a balance of		990,000 00
Making the total equipm't trusts as of June 30, '98.		$4,524,310 17

which amount will be paid off as it matures.

The current resources of the Company were used for a portion of the payments made on these equipment trusts, and, under the terms of the Consolidated Mortgage, it is entitled to bonds for such payments, as shown in detail elsewhere.

CAPITAL STOCK AND FUNDED DEBT.

In accordance with the action taken at your special meeting held March 11, 1898, the Company's Capital Stock has been increased by 130,000 shares of First Preferred stock and 130,000 shares of Common stock, for the purpose of acquiring the ownership of the New York Susquehanna & Western Railroad Company. The greater portion of the authorized increase of the Capital Stock has been issued and used for the purpose stated, and the total issue now stands as follows:

Non-cumulative four per cent. First Preferred	$42,844,000 00
Non-cumulative four per cent Second Preferred	16,000,000 00
Common	112,246,300 00
Total	$171,090,300 00

There has been no change in the status of the Company's First Consolidated Mortgage bonds, the total issue thereof being:

Prior Lien bonds	$30,000,000 00
General Lien bonds	31,032,000 00

The period during which the Company paid interest upon the General Lien bonds at the rate of three per cent expired with the close of this fiscal year, and from July 1, 1898, interest at the rate of four per cent per annum will be paid upon this issue of bonds. It may be well to note that the year's result shows ample surplus to take care of this additional interest charge.

The accompanying statements show in detail the Company's entire funded debt, rentals of leased lines and their fixed obligations as they stood on June 30, 1898.

INCOME ACCOUNT.

The details of the Company's Income account for the year are shown in the statement of that account published herewith, from which it will be seen that the

Gross Revenue from operations amounted to	$33,740,860 16
Operating Expenses and Taxes	25,438,037 95
Net income from operations	$8,302,822 21
Income from securities owned, etc	413,367 59
Total income	$8,716,189 80
Interest and rentals	8,082,273 04
Leaving a balance—Credit to Profit and Loss—of	$633,916 76

The Company has therefore earned its fixed charges and a surplus of the above amount.

FINANCIAL.

The financial condition of the Company at the close of the year is clearly shown by the general balance sheet published herewith.

The Company has no floating debt, and has had none since its organization.

None of the $5,000,000 Prior Liens nor the $17,000,000 General Lien bonds reserved for construction requirements under the plan of reorganization have been issued.

The charge to "Cost of Road and Equipment" has been reduced by the sum of $526,378 53, as follows:

Amounts credited to account:

Cash received from National Transit Co.	$500,000 00	
Cash received from Reorganization Committee for taxes—not required	300,000 00	
Profits on General Lien and other bonds sold, etc	49,284 27	
		$849,284 27

Amounts debited to account:

Difference between estimated and actual value of E. & W. V. RR. Co. stock, herein after referred to	$240,000 00	
Tax on increase of capital stock	32,500 00	
Purchase money mortgages on real estate acquired	22,800 00	
Sundry charges liquidating receivership accounts, etc	27,605 74	
		322,905 74
Net credit		$526,378 53

"Miscellaneous Securities in Treasury" show a decrease as compared with June 30th, 1897, of $912,145 06, explained as follows:

Deductions:

Car Trust Certificates, etc., redeemed	$147,365 60	
Capital Stock, E. & W. V. R R. Co., sold	740,000 00	
N. Y. & G. L bonds and scrip, sold	19,355 22	
B. & S. W. Second Lien bonds, sold	115,200 00	
Erie Prior Lien bonds, sold	405,000 00	
Erie General Lien bonds, sold	93,000 00	$1,519,920 82

Additions:

Capital Stock, Northern RR. Co. of N. J	$457,867 50	
Lockport & Buffalo RR. bonds, redeemed October, 1897	140,000 00	
Stocks and bonds of sundry companies acquired under traffic contracts, etc	9,908 26	607,775 76
Net decrease		$912,145 06

The stock of the Erie & Wyoming Valley RR. Co. was taken up on the books upon the organization of the Company at an arbitrary valuation. In the negotiations with the E. & W. V. Co. for the trackage contract, hereafter referred to, the Board deemed it advisable to dispose of the stock of that Company, and it was therefore sold for the sum of $500,000 00 in cash, which sum was expended for new equipment, included in the charge to the Equipment Account.

The proceeds of the Buffalo & Southwestern Second Lien, Erie Prior Lien and General Lien, and N. Y. & G. L. Prior Lien bonds were used for construction and equipment purposes, for which they had been previously held.

The bonds of the Lockport & Buffalo R. R. Co. maturing October 1st, 1897, and amounting to $140,000, were redeemed in cash, and the Company is entitled to General Lien bonds to replace them.

The Company owns capital stock of the New York Susquehanna & Western R. R. Co. amounting at par to $25,090,300 00.

The increase in "Chicago & Western Indiana Sinking Fund" consists of the payment required under the mortgage, and proportionately increases the value of the Company's stock in that corporation.

The increase in the Company's capital stock is due to the acquisition of the New York Susquehanna & Western Co., etc., as stated in detail elsewhere.

The decrease in the "Bonded Debt" is the $140,000 of Buffalo & Lockport bonds redeemed, which also explains the increase in "Redeemed bonds held for Exchange."

The increase in "Mortgages on Real Estate" of $3,800 00 is due to net balance of purchase-money mortgages on real estate bought for right of way, etc.

The Company has a credit to its Reserve Funds of $237,831 27, representing cash value of depreciations charged to the expenses of the year and available for operating expenditures hereafter.

The current assets are ample to take care of the current liabilities.

The following securities are still on hand for the Construction Fund, and may be disposed of therefor, at any time, as money is needed:

Erie RR. Co.'s General Lien bonds	$1,569,000 00
Delaware & Hudson Exclusive Car Trust Certificates	450,000 00
Certificates, Car Trust of New York	202,000 00

Under the plan of reorganization and the terms of the General Consolidated Mortgage Deed of December 10th, 1895, the Company is also entitled to the following Prior and General Lien bonds, all of which cover expenditures which the Company has made out of its earnings and for which it must reimburse itself.

For track elevation at Jersey City and Buffalo, and other improvements specified in mortgage	$452,154 80	Prior Lien Bonds.
Redemption of bonds of subsidiary companies	660,000 00	Gen'l Lien Bonds.
Purchase of stock of subsidiary companies	18,400 00	Gen'l Lien Bonds.
Equipment Trust Payments	393,831 31	Gen'l Lien Bonds.

making a total of $452,154 80 Prior Lien bonds and $1,072,231 31 General Lien bonds, all of which will in due course be obtained from the Trustee and deposited in the Company's treasury.

In accordance with the usual practice, the Board has had the Company's accounts for the year examined by Messrs. Haskins & Sells, Certified Public Accountants. The result of this examination is stated in the accountant's certificate, published herewith.

NEW YORK SUSQUEHANNA & WESTERN RAILROAD COMPANY

As the Board of Directors advised you by circular letter in February last, it was considered advisable, with the objects in view and for the reasons stated, to acquire the control of the properties of the New York Susquehanna & Western Railroad Company with its leased and controlled roads, including the Wilkesbarre & Eastern Road. Suitable steps were taken in accordance with the plan proposed to accomplish this object, resulting in the reports made to and action taken thereon by you at your special meeting held in March, 1898.

Your Company is now the owner of, and has in its treasury, 122,463 shares of common and 128,440 shares of preferred stock of the New York Susquehanna & Western

Railroad Company out of a total issue of 180,000 shares each. A portion of the outstanding stock has come in since June 30th, and it is expected that the balance will be presented for exchange in due course. As you are aware, the control of these properties was provided for by an authorized increase of 130,000 shares of First Preferred and 130,000 shares of Common Stock of this Company, as stated heretofore.

A lease of the Susquehanna property was made to the Erie Company in February last, for one year, ending March 1, 1899, as approved at your special meeting in March, 1893, but the lessee operates the line separately from its own property. A report covering the results of the N. Y. S. & W. R. R. Co. for the year ending June 30, 1898, is now in course of preparation and will be duly published.

GENERAL REMARKS.

Piers 20 and 21, at New York, have been extended 100 feet each and covered with fire-proof sheds. This gives additional pier room of nearly 24,000 square feet, which is much needed. The bulkhead between these two piers has been covered by a two-story steel frame structure, fifty feet wide and four hundred feet long, furnishing excellent facilities for the handling of out-bound package freight. The second story is used for offices and for an auction room for the sale of fruit—facilities that were greatly required.

The great need of additional tracks at the Jersey City passenger station and the heavy expense attending the maintenance of the iron train shed made the remodeling of the Jersey City terminal necessary. This has been done by taking down the train shed and erecting wooden sheds over each platform. Two additional tracks have been added, giving ten tracks instead of eight, and one additional platform, giving five platforms in the place of four.

In pursuance of the contract made with Jersey City, the work of elevating the Company's tracks has begun and is now well under way. It is expected that at least three of the seven tracks will be in place upon the new elevation and in use by the end of the calendar year.

The local freight yard and freight house South of Pavonia Avenue, Jersey City, the construction of which was made necessary by the elevation of the tracks, has been completed. The new coaling station, ash pits, turn-table and locomotive yard, in connection with this improvement, are also well advanced. It is expected that a material saving of labor will be made by these improvements.

Considerable property has been purchased for the right of way of the Pen Horn Creek R. R., but no work upon this improvement has yet been done.

The second track on the Greenwood Lake Division from Meadow Junction to Caldwell Junction was put in operation in December last, and has greatly improved the service on that road.

The third and fourth tracks on the main line between Secaucus and Rutherford Junction, which were put in use in September, 1897, have greatly benefited the service and caused much saving in the expense formerly arising from delay of trains, etc.

It is contemplated in the early future to reduce the grades at Mahwah and Goshen from an average of fifty-three feet per mile to twenty nine feet per mile, and a considerable portion of the necessary right of way for this work has been secured. To carry out the work at Goshen it has been necessary to organize a separate corporation, which has been done under the name of the Goshen Railroad Company. When completed this work will effect a material saving in expense by avoiding the use of pusher engines and increasing the train loads.

The work of separating the grades of the streets and tracks at Buffalo has made good progress during the year, and the most important crossings have been completed.

The ore docks at Buffalo have been enlarged, increasing their capacity from 50,000 to 100,000 tons, and providing for the unloading of two vessels at the same time, instead of one.

An addition of four hundred and sixty feet is being made to the Ganson Street Flour House and dock at Buffalo and will shortly be ready for use, giving an increased capacity of 75,000 square feet and dockage space for one more steamer, enabling the company to handle its Lake freight more expeditiously and economically.

The unsatisfactory feature of the year's work is the rate received for the service performed. From year to year the unit of revenue grows less, while the character of the service, forced by competition and the modern requirements of trade, grows more and more expensive. Apparently neither of these conditions can be improved under existing circumstances, legislative and otherwise, surrounding the transportation industry. The only remaining effort, therefore, that can be made to stop the diminishing margin between Revenue and Cost is in the direction of reducing the latter. This necessarily requires heavy work, large expenditures and long time, and the results obtained appear slowly. To the efforts of the management towards the accomplishment of this object is due the large cost of operation for the year. Heavy expenditures, with which Capital Account could not legitimately be charged, were necessary upon locomotives, cars, tracks, etc., etc., in order to meet the requirements needed to enable the Company to do business on a parity with its competitors. These requirements must be met, and while the cost is large and will continue so for the present, yet the ultimate result is certain to be beneficial and materially reduce the cost per unit of service. The results obtained in this direction for the year show as follows: The cost of handling a ton of freight one mile was reduced to 4 mills, a reduction of 6·51 per cent over 1897; the cost per freight train mile increased 1·49 per cent, but the tonnage handled increased 17·5 per cent; the ton miles increased 15·65 per cent; the train load increased 8·61 per cent, and the car loads increased 6·46 per cent.

The decrease from the previous year of 38-100th of a mill in the average freight rate per ton per mile, equaling only 7¼ cents per ton, resulted in a net loss of revenue of $1,714,-938 23.

The large sum of $981,450 52 was paid to the owners of private cars for mileage thereon, the loading of which was controlled by the shipper. Your Company has no remedy against this abuse, which has grown into the transportation system of the country.

The Board again calls attention to the very heavy burden imposed upon the company by taxation. Two and six-tenths per cent of the gross revenue, or the large sum of $877,-920 77, went to the tax gatherers. This forced contribution to the public funds is seriously felt and is out of all proportion to the Company's income.

It was deemed wise by the Board to strengthen the traffic relations of the Company with the Philadelphia & Reading System, and to this end a trackage contract was made with the Fall Brook Railroad Company under the terms of which your Company has the use of that road for freight traffic between Corning, N. Y., and Williamsport, connecting at that point with the Philadelphia & Reading Road, upon advantageous terms, thus giving it a through line under its own control to and from the West to the Reading territory. This arrangement has been in operation for some months and is entirely satisfactory.

In order more efficiently to handle the Company's anthracite coal traffic, the Board considered it necessary that it should have direct access to its own coal collieries as well as those of its shippers, enabling it to transact business without an intermediary. A trackage contract upon satisfactory terms has therefore been made with the Erie & Wyoming Valley RR. Co. from Hawley, on the Honesdale Branch, to the Company's Moosic Mountain Road and several other points from which it draws coal tonnage. A glance at the map of the anthracite coal region and this Company's property therein will at once show the advantage of trackage rights over the above road, and your interests in that locality will, in the opinion of your Board, be materially advanced by this arrangement. The agreement was made late in the year, and these rights were not used during the fiscal year just ended.

The agreement between the Erie Railroad Company and the Delaware & Hudson Canal Company, under which the latter Company uses your tracks between Jefferson Junction, near Susquehanna, and Carbondale, has been renewed upon mutually satisfactory terms.

The lease of the Lockport Branch to the Buffalo & Lockport Railway Company, as approved at your special meeting held in July, 1898, has been executed, and the operation of the Branch by electricity was commenced in August. So far the result has been quite satisfactory and your Board will watch the further operation with much interest.

Heretofore your live stock traffic has been handled by an outside Company under a contract. The general conditions surrounding this class of traffic have materially changed in the last few years, and as a result the arrangement was not working satisfactorily, and the Board has considered that the Company's interests require that it should have a closer control over the business. A corporation known as Weehawken Stock Yard Company has been organized and the Erie live stock traffic is now handled by that Company, the entire capital stock of which is in your treasury.

The Wabash RR. Company having determined to secure an entrance into the City of Buffalo, negotiations were opened with the officials of this Company for the use of its tracks by that Road from the Bridges to Buffalo, including terminal facilities at the latter place. These negotiations have resulted in a satisfactory agreement, and the Wabash Company is now using this Company's tracks and terminals as above stated.

The operation of the New Jersey & New York Railroad Company (not included herein) has resulted in a profit for the year.

The accompanying tables give the details of the Company's operations for the year.

The general conditions surrounding the transportation industry during the year have not been entirely satisfactory, yet the results obtained by the Company are encouraging and give some idea of the inherent strength of the property. The officers and employes have worked heartily and loyally, at times under discouraging circumstances, to promote the Company's interests and to protect and increase its revenues. To them belongs the credit for the showing made, and it gives the Board much pleasure to publicly acknowledge this obligation and to express its appreciation of their faithful work.

Respectfully submitted, by order of the Board,

E. B. THOMAS,
President.

THE ATCHISON TOPEKA & SANTA FE RAILWAY COMPANY.

THIRD ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1898.

OFFICE OF THE ATCHISON TOPEKA & SANTA FE RY. CO.,
No. 59 CEDAR STREET, NEW YORK CITY.
SEPTEMBER 7, 1898.

To the Stockholders of the Atchison Topeka & Santa Fe Railway Company:

Your Directors submit the following report for the fiscal year July 1, 1897, to June 30, 1898, inclusive:

The following lines now compose the Atchison system, the operations of which are set forth in the accompanying statement:

Atchison Topeka & Santa Fe Railway	4,564 73 miles.
Gulf Colorado & Santa Fe Railway	1,083 60 "
Southern California Railway	484 02 "
Santa Fe Pacific Railroad	803 83 "
Total	6,916 21 miles.

(NOTE.—The Rio Grande & El Paso Railroad, 20 15 miles, and the Southern Kansas Railway of Texas, 10 41 miles, are operated directly by the corporations owning said lines. For convenience their statistics are consolidated in this report with the statistics of the Atchison Topeka & Santa Fe Railway Company.

The mileage of the Santa Fe Pacific, as operated, 1 818 55; 12 69 miles, Albuquerque to Isleta, are deducted, being included in A. T. & S. F. mileage.

The mileage employed in the first and second annual reports included the Sonora and New Mexico and Arizona roads, and did not include the Santa Fe Pacific, formerly the Western Division of the Atlantic & Pacific, which was acquired July 1, 1897. Comparisons, therefore, cannot be made between the figures given next below and corresponding figures in previous annual reports.)

OPERATIONS.

The following is a summary of the operations of the system for the fiscal year;

Total earnings from operation	$39,214,099 24
Total operating expenses	28,506,335 12
Net earnings	$10,707,764 12
Receipts from other sources	182,027 17
Total revenue	$10,889,791 29
Taxes, rentals and other charges	2,007,218 05
Balance applicable to fixed charges	8,882,573 24
Fixed interest charges	4,992,148 30
Surplus for fiscal year	$3,890,424 94
Surplus from preceding year after deducting charges shown on Profit and Loss Account, page 644, including three per cent interest paid on Adjustment Bonds.	52,220 62
Total surplus to June 30, 1898	$3,942,645 56

(For details see Income Account, page 644.)

Out of this surplus your Directors, pursuant to the provisions of the Company's Adjustment Mortgage, have declared interest to be payable to the holders of Adjustment Mortgage Bonds at the maximum rate of four per cent; and the same will be paid accordingly on November 1, 1898, at the Company's office in the City of New York, upon presentation and surrender of Adjustment Mortgage coupons No. 2. This payment ($2,053,840) will reduce the above surplus to $1,888,805 56.

The following is a comparison between the Gross Earnings, Operating Expenses and Net Earnings for the years ending June 30, 1897, and June 30, 1898; the figures stated for both years cover the mileage operated since July 1, 1897; figures for the former year furnished by the Receiver of the Atlantic & Pacific are incorporated for purposes of comparison:

	Year ending June 30, 1898.	Year ending June 30, 1897.	Increase or Decrease.
EARNINGS:	$	$	$
Passenger	7,347,361 59	6,166,763 82	I. 1,180,597 77
Freight	28,588,716 76	24,254,545 80	I. 4,334,170 96
Mail	1,088,260 75	1,066,376 58	I. 21,884 17
Express	1,119,627 64	1,018,200 72	I. 101,426 92
Miscellaneous	1,070,132 50	1,129,753 20	D. 59,620 70
Total earnings	39,214,099 24	33,633,640 12	I. 5,580,459 12
OPERATING EXPENSES:			
Maintenance of Road and Structures	8,281,397 83	7,007,345 27	I. 1,274,052 61
Maint. of Equipment	4,659,277 99	3,826,816 39	I. 832,461 60
Transportat'n & Traffic	14,468,014 53	13,212,758 22	I. 1,255,256 36
General Expenses	1,097,644 67	1,190,291 68	D. 92,647 01
Total Oper. Expenses	28,506,335 12	25,237,211 56	I. 3,269,123 56
Net Earns. from Oper's.	10,707,764 12	8,396,428 56	I. 2,311,335 56
Percentage of Operat'g Expenses to Earnings	72·69	75·04	D. 2·35

FINANCIAL TRANSACTIONS.

The accompanying Comparative General Balance Sheet shows the financial condition of the Company June 30, 1898, in comparison with its condition June 30, 1897. Statements are annexed showing details.

Arrangements have been made for the retirement of the Guarantee Fund Notes of the Atchison Topeka & Santa Fe Railroad Company falling due November 1, 1898 (of which the amount outstanding at the beginning of the fiscal year was $8,605,000), through the employment of General Mortgage Bonds reserved for this purpose. The amount of Guarantee Fund Notes which had been exchanged under this arrangement on June 30, 1898, was $5,655,000. The remainder will be retired prior to November 1 next, or will be paid in cash on that date. By this transaction annual interest charges will be reduced approximately, $112,220. When completed no securities will exist prior in lien to the General Mortgage except Chicago & St. Louis Divisional Bonds, $1,500,000, falling due in 1915. Sundry Miscellaneous Divisional Bonds aggregating $693,210, and Equipment Bonds, $1,000,000. The Equipment Bonds are being paid off at the rate of $250,000 per year, and the New York Security & Trust Company, Trustee, holds cash and securities applicable thereto in the amount of $307,669 86.

Various lands and other assets of the Atchison Topeka & Santa Fe Railroad Company, full title to which was not acquired under the foreclosure of the General Mortgage of that Company, have been sold pursuant to orders of the Court, and were purchased by this Company at a net cost to date of $101,068 56. This purchase includes salable property of value equal to the cost.

The securities on hand June 30, 1898, are conservatively estimated as worth $2,423,356 64, all being free Treasury assets except $135,000 General Mortgage Bonds. There was also on hand cash to the amount of $2,587,743 98. On that date, in addition thereto the Company was entitled to issue and sell new General Mortgage Bonds to reimburse itself for expenditures previously made on Capital Account to the amount of $4,435,667.

Since July 1, 1898, the sale of such General Mortgage Bonds, to the amount of $3,500,000, has been accomplished and other adjustments made, leaving the condition of the treasury on July 31, 1898, as follows:

Cash on hand	$3,583,157 79
Securities on hand	2,700,752 56

This Company is still entitled to draw bonds for Capital Expenditures prior to June 30, 1898, to the amount of $836,309 01, in addition to said securities and cash on hand July 31, 1898.

Including the bonds embraced in the sale above mentioned, made since July 1, 1898, bonds to the amount of $3,622,631 85 have been certified since the organization of the company from the $3,000,000 per annum of bonds which the Company is authorized to issue and sell for improvements. The remaining bonds which have been sold were issued for other purposes for which bonds were specially reserved in the General Mortgage.

No General Mortgage Bonds were issued during the fiscal year covered by this report except those issued in exchange for Guarantee Fund Notes (see General Balance Sheet, Exhibit C).

The cost of property has been charged with discount on bonds sold from time to time under the provisions of the General Mortgage, amounting in the aggregate to $1,855,354 86, as detailed in this and previous Annual Reports. It has been decided to charge this discount to income in equal annual instalments extending over the life of the bonds; at the maturity of the bonds the discounts will thus be entirely written off. The amount charged this year in accordance with the above policy is $26,599 13.

No notes or bills payable have been issued by this Company or its auxiliaries.

The liabilities shown upon the balance sheet embrace all known obligations for which this Company and the auxiliary companies of the Atchison System are responsible.

The amount to the credit of Rolling Stock Replacement Fund July 1, 1897, was $513,291 98 Monthly charges have been made to Operating Expenses and credited to this fund in respect to all equipment removed from service during the year, in amounts equal to the present cost of corresponding new equipment. These credits aggregated the sum of $564,662 03, making the total fund available during the year for the acquisition of new equipment $1,077,954 01. The amount expended during the year from this fund was $879,952 03, leaving $198 001 98 carried forward to the next fiscal year, and now in process of expenditure. In arriving at this result 19 engines were destroyed or sold during the year, and were replaced by 23 engines of heavier type, of which 13 were bought of outside makers, and the remainder were built at the Company's shops in Topeka; 253 refrigerator cars and 150 stock cars were purchased; seven postal and baggage cars and 520 freight cars of various classes have been constructed at the Company's shops; making 930 new cars acquired, against a total of 556 cars withdrawn from service during the fiscal year.

The Rail Renewal Fund is chiefly represented by new steel purchased, paid for, charged to operations and distributed along the line; which not having been actually placed in the track on June 30, 1898, was temporarily carried on that date as Material on Hand.

The Traffic Balances stated this year are the total amounts due from and to connecting lines; net balances only were stated last year. Other increases in accounts payable are attributable to real estate acquired and taken up in cost of property, payment for which was not made until after June 30, and to the increased mileage operated since the acquisition of the Santa Fe Pacific road.

The taxes paid by the System lines aggregate the sum of $1,420,123 05, being 3·60 per cent of the total receipts from all sources and 13·04 per cent of the total net revenue.

In other respects the General Balance Sheet will be understood without special explanation. The certificate of the Independent Auditors is annexed thereto.

FIXED CHARGES.

The annual fixed interest charges payable upon bonds outstanding July 1, 1898, excluding treasury assets, are as follows:

Guarantee Fund Notes	$2,950,000	6%	$177,000 00
C. & St. L. Ry. Co. First Mortgage	1,500,000	6%	90,000 00
Miscellaneous Unassented Bonds	693,210	Various	31,450 00
Equipment Trust, Series "A"	706,500	5%	35,325 00
General Mortgage	115,137,750	4%	4,605,510 00
Fixed charges for the year			$1,939,285 00
Fixed charges per month			$411,607 08

The interest charges upon bonds outstanding November 1, 1898, when the retirement of the Guarantee Fund Notes will be completed (including interest on new bonds sold since June 30, 1898, and excluding treasury assets), will be as follows:

C. & St. L. Ry. Co. First Mortgage	$1,500,000	6%	$90,000 00
Miscellaneous Unassented Bonds	693,210	Various	31,450 00
Equipment Trust, Series "A"	703,500	5%	35,325 00
General Mort. (closely estimated)	122,092,750	4%	4,883,710 00
Fixed charges for the year			$5,040,485 00
Fixed charges per month			$420,040 42

SANTA FE PACIFIC RAILROAD.

This property was taken over from the Receiver of the Western Division of the Atlantic & Pacific Railroad on July 1, 1897 (see last report.) The present report covers the first year of its operation by the Santa Fe Pacific Railroad Company, which was organized for the purpose of operating this road, all its stock and bonds being subjected to the lien of the General Mortgage of The Atchison Topeka & Santa Fe Railway Company. The line as operated extends from Albuquerque to Mojave, 818·55 miles, including 240·6 miles (Needles to Mojave) permanently leased from the Southern Pacific Railroad Company of California.

The lease of the Mojave Division in exchange for Mexican and Arizona lines (referred to on page 11 of the last Annual Report) has been executed by the parties in interest, and the transaction has been approved by the Mexican Government.

When the Atlantic & Pacific purchase was made the physical condition of the property was not up to the Atchison standard, and it was fully realized that large expenditures would be necessary in order to rehabilitate it. Passing for the most part through an arid country, with inferior coal and with scarce and bad water supply, it has always been difficult to operate this line with reasonable economy. During the past year much attention has been given to its improvement and necessary betterments have been actively pressed which will be substantially completed during the fall of 1898.

These improvements, among other things, include new rail upon the entire line except short sections which were relaid during the Receivership; also considerable widening of banks and quite a large amount of ballasting and steel bridge work (see page 39 of pamphlet report for expenditures charged to Construction Account). Much of the cost of these betterments has been charged to current operating expenses and is embraced in the statement of operating expenses on pages 28 and 29 of pamphlet report.

Three large dams have been built for the purpose of impounding mountain water. These dams are located, respectively, two, four and eleven miles from the road, and connected with it by direct pipe lines. The water thus obtained will not only be of good quality, but will do away with a considerable part of the large expense incident to hauling water long distances on trains.

The only timber on this line is mountain pine, which, when cut into ties only lasts about five years. A plant for the chemical treatment of this timber has been erected at Bellemont, Arizona. The experience gained at Las Vegas, New Mexico, where The Atchison Topeka & Santa Fe has been treating mountain pine for twelve years, warrants the belief that the introduction of this process on the Santa Fe Pacific will more than double the life of the wood.

Peach Springs and Williams have been abolished as division points, and a new division point has been established at Seligman.

The Randsburg Railway, twenty-seven miles long, from Kramer, California, north to the mining camp of Johannesburg, has been built by Eastern parties not connected with this Company. The same interests have built a smelter at Barstow, California, and a considerable addition to the ore traffic of the Santa Fe Pacific is expected to arise therefrom. Another branch line is under construction by outside interests from Daggett, California, to the borax mines some twelve miles north.

The Territory of Arizona has granted a charter to the Santa Fe & Grand Cañon Railway, which proposes to build a line seventy miles north from Williams, Arizona, to the Grand Cañon of the Colorado. Your Directors have arranged a favorable traffic contract with the projectors of this line.

Traffic interchanged at Ash Fork with the Santa Fe Prescott & Phœnix Ry. Co. has continued to increase, and the earnings therefrom constitute a material part of the revenue of the Atchison System. For the purpose of aiding the Santa Fe Prescott & Phœnix Railway in the construction of a branch twenty-five miles long, from a point near Prescott, Arizona, to the Big Bug mining district, your Directors have agreed to accept the bonds of said branch railroad, guaranteed by the Santa Fe Prescott & Phœnix, in payment for second-hand rails furnished and for freight on material, the estimated amount of both items being about $60,000.

The gross earnings of the Santa Fe Pacific have been considerably larger than were ever before obtained from this property; the enormous expenses involved in its reconstruction have necessarily reduced the net returns. With the completion of the improvement work, operating expenses will be reduced to a reasonable basis, and your Directors regard the purchase of this property as having been advantageous.

IMPROVEMENT OF THE PROPERTY.

The large increase in gross earnings of the Atchison System is chiefly due to bountiful crops in Texas, Kansas and California, to the development of mining interests and to the general improvement in business conditions throughout the West. The wheat crop of Kansas, the cotton crop of Texas and the fruit crop of California were all larger than for several years past, and the last was larger than ever before. It has seemed wise to your Directors to take advantage of this year of large gross income to prepare for the possibility of less favorable conditions in the future by continuing the work of putting the property in condition to be operated with the maximum of economy. It will be noticed that the large expenditure made has been chiefly for betterments under the accounts, "Maintenance of Road and Structures" and "Maintenance of Equipment." It will doubtless be found desirable to continue the replacement of wooden bridges with permanent work, but in other respects the extraordinary betterment expenses paid out of earnings may be expected to largely decline after the present calendar year. Permanent work during the fiscal year has included the following items:

489 miles of track ballasted, new and renewed.
531 miles new steel laid, including rails re-rolled.
236 miles second-hand steel laid.
11¼ miles wooden bridges and trestles dispensed with or replaced with permanent work.

A new machine shop and a new roundhouse at Newton, Kansas, have been completed; a similar plant at Cleburne, Texas, is in progress; large additions to the shops at Albuquerque have been completed, besides additions made to shops and roundhouses at Topeka, Fort Madison and elsewhere. The work of reducing grades on the Texas lines between Fort Worth and Cleburne has been finished: similar work is in active progress between Cleburne and Temple.

A large amount of work has been done in widening cuts and banks and in raising track in low places to prevent damage from overflow.

A new depot hotel and eating house has been completed at Dodge City, Kansas; also new depots at Hutchinson and Winfield, Kansas; an eating house and hotel at Temple, Texas; new passenger and freight depots at Dallas, Texas; and various smaller depots at minor points. A new depot hotel is under construction at Las Vegas, New Mexico. Nearly every building on the right of way between Chicago and El Paso on the Atchison Topeka & Santa Fe Railway all buildings on the Southern California Railway and a large number of buildings on the Gulf Colorado & Santa Fe Railway have been painted.

Block signals have been installed between Holliday and Newton, via Topeka, and between Holliday and Emporia, via Ottawa; and block signals are in process of erection between Chicago and Kansas City.

During the year a modern transfer elevator has been built at Winfield, Kansas, to replace one which was destroyed by fire in March, 1896. Under the terms of a contract made in 1888, the Atchison Topeka & Santa Fe Railroad Company in Chicago has taken over the property of the Santa Fe Elevator & Dock Company, consisting of an elevator and appurtenances located on the south branch of the Chicago River, at the price stipulated in said contract, and the elevator has been leased for a reasonable interest upon its cost.

The capacity of 920 cars has been raised from 40,000 lbs. to 60,000 lbs., and of 546 from 30,000 lbs. to 50 000 lbs. Automatic couplers have been applied to 7,300 freight cars, making a total of 16,207 cars now equipped. Air brakes have been applied to 1,517 freight cars, making a total of 26,246 so equipped; driver brakes have been applied to 114 engines, making a total of 1,034 so equipped.

The work of double-tracking the line between Emporia and Florence has been continued, 24 miles of second track having been added at an expense of $184,927 63. It is expected to finish this construction next year.

A new method of car accounting between System lines has been adopted; no mileage is now charged on freight cars interchanged and freight car repairs are distributed on a wheelage basis. This accounts for the increase in the latter item on the Gulf Colorado & Santa Fe and Southern California, which is offset by decreased car mileage on those lines.

EXTENSIONS.

The return of prosperous conditions throughout the country at large has revived many railway projects which, if carried through, would be in some instances competitors and in other instances connections and feeders of the Atchison System. Some of these projects have present merit, but most of them are in advance of any real demand, and if built would have a hard struggle for some years, even though ultimately profitable. Your Directors have not felt that it was necessary or desirable at present to assume largely-increased obligations, and with few exceptions have declined to render assistance to the construction of roads which in time might possibly become of considerable value as auxiliaries. It is, of course, true that the policy of inaction in such matters may have to be modified in order to protect your existing property. During the year a few projects of this character have received the sanction of the Board, as follows:

The Pecos Valley & Northeastern Railway is now being built from Amarillo, Texas, to Roswell, New Mexico, approximately 200 miles. Amarillo is distant 31 miles from Panhandle, the former terminus of your Panhandle branch; and in order to connect with the Pecos Valley & Northeastern road your Directors have arranged to buy a branch of the Fort Worth & Denver City Railway from Panhandle to Washburn, 14·72 miles, and to acquire trackage rights from Washburn to Amarillo. The road under construction from Amarillo to Roswell will connect at the latter point with the Pecos Valley road now in operation from Roswell to Pecos, 168 miles, making a total mileage of 368 miles from Amarillo to Pecos. Your Directors have made a traffic contract for the exchange of business with the new line, and have subscribed the sum of $750,000 to a loan, repayable in 1899, secured by a pledge of bonds and stock of the consolidated Pecos Valley & Northeastern Railway Company, upon terms which in the opinion of the Board render the transaction eminently safe. When completed the road will pass through the great cattle-breeding territory of Northeastern Texas and Eastern New Mexico, as well as the rich agricultural valley of the Pecos River, and should add largely to the business of the Atchison System.

Arrangements have been made with the California & Oriental Steamship Company for the establishment at an early date of a steamship line with regular sailings between San Diego and Asiatic ports, via Honolula and Yokohama. It seems reasonable to expect a steady and perhaps a large growth in Trans Pacific trade, in which this Company should share.

In the month of April, 1897, your Directors leased the Silver City & Northern Railway, extending from Whitewater, New Mexico, to San José, New Mexico, a distance of fifteen miles, for $3,040 per year, with option to purchase at $60,000. Copper and iron developments at Santa Rita seemed to make an extension of our line to that point clearly desirable. The directors have therefore expended to date the sum of $53,000 in the purchase of the Silver City & Northern Railway, which is now being extended four and one-half miles to the Santa Rita iron mines, from which considerable shipments of ore are made to smelters at Pueblo, El Paso and Denver.

COAL PROPERTIES.

The plan adopted in 1896 and explained in the last annual report, under which the coal properties of the Atchison System are leased, has proved satisfactory in its workings. All mines except those at Cerrillos are leased to outside parties.

The comparative net earnings of the various coal companies are as follows:

Year ending June 30, 1898	$133,455 49
" " " 30, 1897	59,699 45
Increase	$73,756 04

The above statement shows a material increase in net earnings for the year just closed, and the present outlook is good for further increases during the coming year.

The mines and properties, whether leased or operated by ourselves, are in good condition, and the workings have been carefully examined by disinterested parties. Comparatively little will be needed in the way of construction work during the ensuing year.

The A. T. & S. F. Company now owns all outstanding bonds of both the Cerrillos and Trinidad Companies. The other coal companies have no bonded debt and no obligations to other parties.

There were used by engines on the A. T. & S. F. proper 1,038,943 tons of coal bought at an average cost of $1·208 per ton, against 942,642 tons the year previous at an average cost of $1·23. The average price of coal was somewhat enhanced by a sympathetic strike in the Illinois fields, lasting two months.

The increase of coal used on locomotives was about 10 per cent, while the total number of tons carried one mile in freight trains increased about 20 per cent.

Thanks are due to officers and employes for the faithful and zealous performance of their duties.

E. P. RIPLEY, *President.* ALDACE F. WALKER, *Chairman.*

THE ATCHISON TOPEKA & SANTA FE RAILWAY COMPANY—SYSTEM.

INCLUDING THE ATCHISON TOPEKA & SANTA FE RAILWAY COMPANY, GULF COLORADO & SANTA FE RAILWAY COMPANY, SANTA FE PACIFIC RAILROAD COMPANY AND SOUTHERN CALIFORNIA RAILWAY COMPANY.

ST. LOUIS & SAN FRANCISCO RR. CO.

SECOND ANNUAL REPORT—FOR THE FISCAL YEAR ENDED JUNE 30, 1898.

The annual report of the business of the St. Louis & San Francisco Railroad Company for the year ended June 30, 1898, is herewith submitted:

OPERATED MAIN TRACK MILEAGE JUNE 30, 1898.

			Miles.
St. Louis, Mo.,	to	Seneca, Mo	326·28
Peirce City, Mo.,	"	Wichita, Kan	217·4
Monett, Mo.,	"	Paris, Tex	303 07
Girard, Kan.,	"	Galena, Kan	49·68
Oronogo, Mo.,	"	Joplin, Mo	9·32
Springfield, Mo.,	"	Chadwick, Mo.	34·86
Springfield, Mo.,	"	Bolivar, Mo	38 79
Cuba Junction, Mo,	"	Salem, Mo., and Branches	51·00
Beaumont, Kan.,	"	Cale, Kan	01 86
Fayetteville, Ark.,	"	Pettigrew, Ark	41·32
Jensen, Ark.,	"	Mansfield, Ark	18·34
Pittsburg, Kan.,	"	Weir, Kan., and Mines	10 48
Springfield Connecting Railway			3·18
Granby, Mo.,	to	Granby Mines	1·50
Seneca, Mo.,	"	Sapulpa, Indian Territory	112·05
Total main track mileage			1,282·13

An increase of 120·08 miles as compared with mileage of previous year.

This increase in mileage is due to the completion of an extension of the St. Paul Branch from St. Paul to Pettigrew, Arkansas, a distance of 8 03 miles, and the acquisition of the Atlantic & Pacific Central Division, 112·05 miles. The funds for the completion of the St. Paul extension were furnished by the Reorganization Committee. The Atlantic & Pacific Central Division, extending from Seneca, on the State line of Missouri, to Sapulpa, Indian Territory, was purchased by this Company at the foreclosure sale thereof, and since January 1, 1898, when this Company took possession, has been operated as the Southwestern Division. The aggregate cost of the property, including all expenses of purchase, was $1,819,368 19, and for $1,500,000 of this the Company issued its Southwestern Division 5 per cent gold bonds, secured by purchase money mortgage upon the property, and the residue, $349,368 19, was paid in cash.

FUNDED DEBT.

There was an increase in the funded debt of the company during the year of $1,891,250, consisting of $1,500,000 Southwestern Division 5 per cent gold bonds and $391,250 4 per cent Consolidated Mortgage Bonds; $300,000 of the latter were issued against the cash payment on account of the purchase price of the Southwestern Division and $91,250 were issued in accordance with the provisions of the consolidated mortgage against $73,000 underlying 6 per cent bonds, which had been redeemed and canceled through the operation of sinking funds. The following bonds were so redeemed:

$48,000 Second Mortgage, 6 per cent, "B" Bonds.

$5,000 Missouri & Western Division, First Mortgage, 6 per cent Bonds.

$9,000 Trust Mortgage of 1880, 6 per cent Bonds.

$11,000 Fort Smith & Van Buren Bridge First Mortgage, 6 per cent Bonds.

These changes make a net increase in the bonded indebtedness of the Company during the year of $1,818,250, of which, however, only the $1,500,000 Southwestern Division Bonds have been disposed of. Since the organization of this Company on July 1, 1896, no 4 per cent Consolidated Bonds have been sold, all those issued being held in the Treasury.

PROPERTY ACCOUNT.

The increase in property account for the year was $2,815,788 92. The details of this amount are given in table F in pamphlet report.

THE KANSAS CITY EXTENSION

During the past year this Company has made a traffic and operating contract with the Kansas City Osceola & Southern Railway Company, under which the line of that Company has been extended about forty miles from its present terminus at Osceola, Missouri, to Bolivar, the terminus of

the Bolivar Branch of this Company, thus giving this Company an entrance into Kansas City, and the short line between Kansas City and Springfield, Missouri. The operation of the line will be under the control of this Company on agreed divisions of rates. The only financial obligation assumed by this Company is a guaranty that the minimum net earnings of the Osceola Line will be at least $24,000 a year during the term of the contract. Under the traffic contract this Company has an option to purchase the Osceola Line, which, when completed, will be about 150 miles in length, at any time prior to September 1st, 1899, for $1,600,000, and at any time without four years thereafter for $2,000,000, the purchase price to be payable in 5 per cent divisional mortgage bonds, either of this Company or guaranteed by this Company.

THE OKLAHOMA EXTENSION.

A contract has also been made between this Company and the St. Louis & Oklahoma City Railroad Company (which has been organized by a group of St. Louis capitalists), under which the latter company is now constructing a line of railroad from Sapulpa, the present terminus of the Southwestern Division of this Company, to Oklahoma City, a distance of about 103 miles. Upon completion of the construction, the line will be operated by the St. Louis & San Francisco Railroad Company, under a traffic contract, under the terms of which this Company is to operate the line for 60 per cent of the gross receipts of the line upon agreed divisions of rates. This Company will also acquire, for $200,000 cash, on completion of the line, the entire capital stock of the St. Louis & Oklahoma City Railroad Company, but does not guarantee or assume any financial obligations with respect to the bond issue of that company. The country through which the new road is to pass is an exceedingly fertile one and the line is expected to be a valuable feeder. It will also make our Southwestern Division part of a through line to Oklahoma City. It is expected that the new line will be ready for operation about November 1st, 1898.

Comparative statement of General Income Account for the years ended June 30, 1898, and June 30, 1897, is as follows:

	1898.	1897.	*Increase.*
Gross earnings from operation	$6,886,467 77	$5,993,336 17	$893,131 60

Total	$2,239,672 89	$2,185,706 76	$53,966 13
Surplus	$686,445 99	$331,066 94	$355,379 05
Out of which were declared Dividends of 4% on 1st Pref. and 1% on 2d Pref. Stocks in the year 1898 and 2% on 1st Preferred Stock in the year 1897...	350,000 00	100,000 00	260,000 00
Surplus	$336,445 99	$231,066 94	$105,379 05

In accordance with resolution of the Board of Directors, Mr. Stephen Little has examined the accounts of the Company, and his certificate is herewith submitted:

ST. LOUIS, MO., August 26th, 1898.

D. B. ROBINSON, ESQ.,

President St. Louis & San Francisco R. R. Co., St. Louis, Mo.

DEAR SIR—Complying with your request, I beg to report that I visited this City, and in the Audit Office of your Company here, examined and verified:

I.

The General Profit and Loss Account of your Company at June 30th, 1897 and June 30th, 1898, respectively.

II.

The Earnings and Operating Expenses and Income Account of your Company for the year ended June 30th, 1898.

III.

Its General Balance Sheet at June 30th, 1898.

I therefore certify that the elements constituting such Accounts and Balance Sheet are fully and fairly set forth, and reflect, truthfully, the transactions of the year under review, and the financial condition of the Company at the end thereof.

My thanks are due to your General Auditor, who rendered me every courtesy and facility necessary to my examination.

Yours very truly,

STEPHEN LITTLE.

EQUIPMENT.

Our equipment has been increased during the past year by

52 Ballast and Plow cars,	100 Furniture cars,
100 Fruit cars,	200 Coal cars,

purchased at an aggregated cost of $240,734 47, with funds furnished by the Reorganization Committee, and by

10 Engines,	3 Second-Class Coaches,
1 Baggage and Express car,	27 Box cars,
107 Stock cars,	20 Flat cars,
3 Cabooses,	

acquired in connection with the purchase of the Atlantic & Pacific Central Division, the value of which is $65,146.

Our equipment has been fully maintained, both as to numbers and condition, and all the renewals of equipment have been charged to Operating Expenses.

The balance of the New Equipment and Improvement Fund furnished by the Reorganization Committee amounted at the beginning of the fiscal year to $507,553 93, to which was added the interest accretion during the year of $5,785 49, making an aggregate of $507,339 42. This fund has been exhausted by expenditures on account of improvements and new equipment, and in addition $19,876 35 was charged to Property Account. Expenditures for additional equipment and for improvements will hereafter be made by the use of consolidated mortgage bonds, which, under the Consolidated Mortgage, have been reserved for this purpose, at the rate of not exceeding $300,000 per annum, and which were available after July 1, 1897.

The Company has now in its treasury, among its current assets, $415,000 Consolidated Mortgage Bonds, $391,250 of which were acquired during the current year.

PHYSICAL CONDITION AND IMPROVEMENTS.

The physical condition of the property has been well maintained, and material improvements have been made in the construction of additional side-tracks and spur-tracks to commercial industries. About four miles of side tracks and spurs, long since abandoned, have been taken up, the cost of which has been charged to Operating Expenses, to which have further been charged 47·7 miles of 70 pound steel rails. No rail renewals have been charged to capital. In Operating Expenses have also been included the cost of 107 miles of new ditching; two new iron bridges, with the masonry for same; the masonry for four bridges on the Texas Division to replace wooden supports, and a heavy renewal of our small wooden bridges. About $20,000 has been spent lining Boston Mountain tunnel with brick, 25 per cent of which has been charged to Operating Expenses. A new depot has been built at Fayetteville, Arkansas, which, with additional depot grounds, have cost about $7,000, $4,000 of which has been charged to Operating Expenses.

Among the improvements charged to Improvement Account the following very materially better the condition of the property:

Seventy-three miles of rock and gravel ballast, 20 per cent of the cost of which has been charged to Operating Expenses.
Ten miles of new fencing.
New eating house at Rogers Station.
Turn-table at Carthage.
Track scales at Winfield.
Addition to Phelps Avenue Station, at Springfield.
Addition to depot at Tulsa, Indian Territory.
Fourteen miles of new sidings and spurs to industries located at various points on the line of road.
New freight house at Fort Smith, Arkansas.
New depot at Logan.
New depot at Grants'.

COMPARATIVE BUSINESS AND EARNINGS.

Our gross earnings from operations increased $893,131 60 during the year, of which $644,664 45 was in freight traffic, and $248,467 15 in passenger, mail, express and miscellaneous.

The total number of tons of commercial freight carried increased 427,173 tons, or 20·35 per cent.

The tons carried one mile increased 82,583,434 ton miles, or 20·49 per cent.

The average distance carried was 192·24 miles, against 193 miles for previous year, an increase of ·24 of a mile.

The rate per ton was $2·0270, against $2·1381 the previous year, or a decrease of 10 55 cents per ton carried.

The rate per ton mile was 1·055 cents, against 1·111 the previous year, or a decrease per ton mile of ·056 of a cent. This decrease is due to the unfortunate Texas rate situation which existed during the greater part of the year, and covered not only St. Louis and adjacent territory but extended to the Eastern Seaboard.

There was an increase in the average load per freight car of ·66 of a ton, and an increase in the average loaded freight train of 10·56 tons; this made an increase in the average earnings per freight car of 1·4 mills and per freight train of 4·55 cents.

Our earnings from passenger traffic increased $221,888 27, or, including mail and express, 242,335 14.

The total number of passengers carried increased 376,727, or 38 per cent.

The number of passengers carried one mile increased 13,581,240, or 31 per cent.

The decrease in the distance each passenger was carried—41·72 miles in 1898, as against 43·88 for previous year—is largely accounted for by the increase in our suburban and inter-urban travel, and this also accounts for the decrease in average revenue per passenger, 91·31 cents, as against $1·036 last year.

Our earnings on local passenger traffic increased 11 per cent and on through passenger traffic 32½ per cent.

While the passenger train mileage shows an increase of almost 200,000 miles, the average earnings per train mile increased from 86½ to 90½ cents.

The average number of cars per train was the same as in the previous year—5. The average number of passengers per coach and sleeper increased 1.

The average number of passengers per train increased 4·6. The average earnings per car per mile increased ·71 of one cent.

The average rate per passenger per mile was 2·188 cents, as against 2·362 cents in the previous year. The decrease is explained by the growth of our low rate inter-urban traffic, and by the unfortunate Texas rate situation.

Indebtedness is acknowledged with pleasure to the officers and employes for the harmony and efficiency shown in the performance of their duties during the year.

D. B. ROBINSON,
President.

Due to Companies and Individuals	$17,510 87	
Interest on Bonds matured	727 00	
Taxes accrued (not due)	2,918 00	
Miscellaneous Liabilities of Receiver St. Louis & San Francisco Ry. and prior, and of Atl. & Pac. RR., Cen. Div., prior to purchase, assumed by this Company	260,449 73	
Total Decrease of Liabilities		281,605 60
Decrease of—		
Equipment and Improvement Fund		501,553 93
Land Dep. Funds for red. of A.B.& C.B'ds		25,310 72
Grand Total accounted for		$4,202,591 67

E.

STATEMENT OF CONDITION OF NEW EQUIPMENT AND IMPROVEMENT FUND AS OF JUNE 30TH, 1898.

To New Equipment—		
For cost of new equipment purchased during the year ended June 30th, 1898, as follows:		
50 Ballast Cars and 2 Distributing Cars	$26,591 23	
100 Furniture Cars	66,583 15	
100 Ventilated Fruit Cars	59,615 37	
200 Coal Cars	87,914 72	
Equipping Engines with Air-Brakes	7,472 82	
Equipping Freight Cars with Couplers and Air Brakes	74,002 62	
Difference in price between 5 new Caboose Cars built from 5 Box Cars, viz.:		
Cost of 5 Caboose Cars	$2,629 10	
Cost of 5 Box Cars	1,118 00	
	1,511 10	
	$323,721 01	
Less Equipment Destroyed and not rebuilt during the year ended June 30th, 1898	28,996 26	
		$294,724 75
To New Improvements—		
For Cost of New Improvements made during the year ended June 30th, 1898, as follows:		
Additions to St. Louis Terminals	$5,388 00	
Additions to Ft Smith Terminals	12,117 72	
Lining Boston Mountain Tunnel with Brick	19,926 49	
Additional Right of Way	108 05	
New Sidings	32,712 82	
New Fences	2,655 62	
New Ballast	109,427 14	
Additional Depots	5,655 02	
Additional Eating-Houses	3,114 45	
Additional Water Stations	1,155 75	
Additional Stock Pens	203 01	
Additional Telegraph Wire between Joplin and Pittsburg	213 44	
Additional Turn-table, Carthage	548 46	
Additional Track Scales, Winfield	126 06	
		193,350 03
To St. Paul Extension		39,131 99
		$527,206 77
By Balance from June 30th, 1897		$501,553 93
By Interest, at the rate of 2% per annum, on monthly balances from July 1st, 1897, to June 30th, 1898		5,785 49
By Balance overexpended, carried to the debit of "Franchises and Property"		19,867 35
		$527,206 77

Union Trust Co. of New York	2,831,500
Total	$13,617,825

United States Rubber Co.—*Purchase of Boston Company Pending.*—A Boston paper says:

"The delay in the announcement of the purchase of the Boston Rubber Shoe Co. is not taken as an indication that the sale is off, for it is understood that the United States Rubber people have made a deposit of cash and securities to the value of $1,000,000 as evidence of good faith. It is trade gossip that the purchase price of $10,000,000 (it is slightly in excess of this amount) does not include bills receivable, but only the plant and good will. Figuring that the plant is worth $2,500,000 and the supplies of raw material and manufactured product $1,500,000, fair estimates, this would leave the selling price of the trade mark at $6 000,000. The Boston Rubber Shoe Co. does quite a banking business in connection with the sale of rubber boots and shoes, and is at times a large loaner of money."—V. 67, p. 276.

Wheeling (W. Va.) Ry.—*New Stock and Bonds.*—The stockholders will vote Oct. 1 on the question of increasing the capital stock and issuing bonds to improve and extend the lines. Control of the Bellaire Bridgeport & Martin's Ferry Street Ry. of Bridgeport, O., and the Moundsville Benwood & Wheeling Ry., it is reported, has been or may be acquired.—V. 62, p. 279.

Wisconsin Central.—*Litigation.*—A corrected statement of the prayer of the joint improvement committee as to the first and second mortgage bonds of the Wisconsin Central RR., is as follows:

"That it may be adjudged and decreed that the Wisconsin Central RR. Co.'s first and series bonds *owned* and held by the Wisconsin Central Company, registered in the name of its agents and trustees, Colby, Abbot and Hoyt, and aggregating $2,205,500 first series bonds and $5,685,753 04 second series bonds, so far as the improvement bonds mentioned in schedule "A" hereto annexed are concerned, are to be treated as retired, and that said improvement bonds are superior in equity and entitled to priority of payment over said first and second series bonds above mentioned," etc.

The petition does not, of course, include the small amount of the loans held by the public, but only that part retired and held alive.—V. 67, p. 540.

—Attention is called to the advertisement in our Municipal Department offering Moscow, Idaho. 6 per cent school bonds.

—The statement of the Fourth Street National Bank of Philadelphia on Sept. 20 will be found in our advertising columns.

—The Produce Exchange Trust Co. and Farson, Leach & Co., of New York, offer to investors a limited amount of New York City 3½ per cent gold bonds in either registered or coupon form. The bonds are non-taxable and are by law authorized as a legal investment for trust and savings funds. A circular giving full description of the bonds will be mailed on application by the parties offering the sale.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Sept. 23, 1898.

Reports generally have been of fairly satisfactory conditions existing in mercantile circles. Business in most lines of merchandise has been well up to an average for the season and comparatively few complaints have been made over the prices realized. There has been an active export demand from Europe for breadstuffs, particularly wheat, and it has given an upward tendency to values. The movement of the cotton crop has become quite free, and under the pressure of the actual cotton prices have declined to the lowest point reached in the history of the trade. Pig iron has sold with considerable freedom and has brought firm prices. The hardware trade has been steadily expanding and in some instances a hardening of prices has occurred. At the close of the week conflicting reports relative to the abdication of he Chinese Emperor in favor of the Dowager Empress received considerable attention. New Orleans was reported quarantined against, in the South, owing to the appearance there of yellow fever.

Lard on the spot has had only a moderate sale as neither exporters nor refiners have been extensive buyers; offerings have been fairly free and prices have weakened slightly. The close, however, was steadier at 5·20c. for prime Western and 4·90c. for prime City. Refined lard has met with only a limited demand and prices have weakened slightly. The close, however, was steady at 5·40c. for refined for the Continent. Speculation in lard for future delivery has been moderately active. Early in the week price were lower under selling by packers and the yellow fever reports. Subsequently, however, in sympathy with the advance in grain the market turned firmer and the close was higher.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	5·10	5·02	5·05	5·05	5·07	5·15

Pork has been in moderate demand, but at slightly easier prices, closing at $8 87½@$9 25 for mess, $11 50@$12 for family and $11@$13 for short clear. Cut meats have had a fair sale, particularly in the Western market; prices have been easier for bellies, closing at 5⅞@6⅞c. for pickled bellies, 14 to 10 lbs. average; 4¼@4⅝c. for pickled shoulders and 7⅜@7¾c. for pickled hams. Beef has had a fair sale and at steady prices, closing at $8 50@$9 for mess, $9 for packet, $10 50 for family and $14@$15 for extra India mess. Beef hams have advanced to $19@$19 50. Tallow had only a limited sale but the price has held steady at 3⅜c. Oleo stearine has been quiet and unchanged at 5c. Lard stearine has been quiet at 6c. for prime City. Cotton seed oil has had only a limited sale, but values have held about steady at 22@23c. for prime yellow. Butter has had a fair sale and prices have advanced to 15@21c. for creamery. Cheese has been in fair demand and higher, closing at 7@8½c. for State factory, full cream. Fresh eggs have been in fair demand and prices have advanced slightly, closing at 17c. for choice Western.

Brazil grades of coffee sold slowly early in the week. Subsequently, however, in response to stronger advices from primal points, the market turned firmer and demand improved. The close was steady at 6½c. for Rio No. 7 on the spot. The West India growths have had only a moderate sale, but there has been no pressure to sell and values have held steady at 9c. for good Cucuta. East India growths have been dull and nominal at 24½c for standard Java. Speculation in the market for contracts has been slightly more active and prices have advanced a few points in response to stronger European and Brazilian advices and a falling off in the crop movement. Following are the final asking prices:

Sept	5·35c.	Dec	5·75c.	April	6·05c.
Oct	5·35c.	Jan	5·80c.	May	6·10c.
Nov	5·40c.	Mar	6·00c.	July	6·20c.

Raw sugars have been dull and easier, closing at 4 5-16c. for centrifugals, 96 deg. test, and 3¾c. for muscovado, 89 deg. test. Refined sugar has sold slowly and for the soft grades prices have been barely steady, closing at 5⅛c. for granulated. Teas have been dull. Other groceries have been in moderate demand and steady.

Kentucky tobacco has been in moderate demand and prices have been fairly firm.

Straits tin has been in fairly active demand for both prompt and forward deliveries. Supplies have been only moderate, and values have held steady, closing at 16·20@16·30c. Ingot copper has been moving freely on all orders, but the volume of new business transacted has been limited; prices have held firm at 12⅜@12½c. for Lake. Lead has had only a small sale, but prices have been steady, closing at 4c. for domestic. Spelter has been quiet, and prices have weakened slightly, closing at 4·75@4·80c. for domestic. Pig iron has had a fairly large sale at full values, closing at $9·75@$11·50 for domestic.

Refined petroleum has been advanced, closing at 6 75c. in bbls., 4·25c. in bulk and 7·40c. in cases; naphtha unchanged at 6c. Crude certificates have been firmer, closing at $1 03½; credit balances have been advanced to $1 04. Spirits turpentine has been dull, closing easy at 31¼@31½c. Rosins have been moderately active and steady at $1 80 for common and good strained. Wool has been dull and prices quoted have been largely nominal. Hops have been in fair demand and steady.

COTTON.

FRIDAY NIGHT, September 23, 1898.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 200,265 bales, against 112,854 bales last week and 54,664 bales the previous week, making the total receipts since the 1st of Sept., 1898, 379,179 bales, against 539,188 bales for the same period of 1897, showing a decrease since Sept. 1, 1898, of 160,009 bales.

Speculation in cotton for future delivery has been moderately active, but the tendency of prices has continued downward. Early in the week weather conditions were generally reported as more favorable, and there was fairly free selling by tired longs to liquidate accounts, all of which tended to depress prices. The buying power has continued to lack force, although during the latter part of the week there were indications of some foreign buying for investment account, attracted by the low prices. On Friday a new low record for prices was made, October selling at 5·18c., against 5·23c. the previous low record, at which figures November and December sold on November 12, 1894. Continental spinners have been more active buyers of actual cotton during the week, but the demand for Liverpool and domestic spinners has been quiet. Estimated sales of futures for the week were 535,000 bales. Saturday prices declined 5 to 8 points under selling for local and foreign account, prompted by favorable crop prospects. Monday there was a steadier market early in the day. Subsequently, however, there was a weaker tone, under a free movement of the crop and selling for Southern account, closing unchanged to 2 points lower for the day. Tuesday prices again advanced a few points during early 'Change in response to steadier foreign advices than expected and some buying for investment account. Later in the day, however, selling by longs had a depressing influence and the close showed prices 2 to 4 points lower for the day. Wednesday prices declined 1 to 4 points under weaker foreign advices than expected, a continued full movement of the crop and further selling by tired longs to liquidate accounts. Thursday the market was steadier and prices advanced 1 to 3 points. Foreign advices were better than expected and there was some buying for foreign account. Local and Southern shorts also did some buying to cover contracts. To-day the market was weak and lower under moderate offerings prompted by the large crop movement for the week. The close showed prices 4 to 6 points lower for the day. Cotton on the spot has been quiet and prices declined 1-16c. on Saturday, 1-16c. on Wednesday and 1/8c. to-day, closing at 5 7-16c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	4 9/16	4 9/16	4 9/16	4 1/8	4 1/2	4 3/8

Tinnevelly Good, Liverpool..	3 31/32d.	4 1/16d.	4 7/16d.	4 3/8d.

☞ The imports into Continental ports the past week have been 5,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 519,140 bales as compared with the same date of 1897, a loss of 95,767 bales from the corresponding date of 1896 and a decrease of 528,303 bales from 1895.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897—is set out in detail below.

Towns	Movement to September 23, 1898.				Movement to September 24, 1897.

* Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 32,673 bales, and are to-night 12,191 bales *more* than at the same period last year. The receipts at all the towns have been 1,829 bales *more* than the same week last year and since Sept. 1 they are 97,460 bales *less* than for the same time in 1897.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Sept. 23 and since Sept. 1 in the last two years are as follows.

September 23.	1898.		1897.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	3,761	10,950	4,652	7,455
Via Cairo	2,308	4,838	4,800	7,296
Via Parker	.....	.....	269	658
Via Rock Island	304	304	200	200
Via Louisville	640	1,223	274	248
Via Cincinnati	363	1,880	584	766
Via other routes, &c.	1,069	2,386	548	1,329
Total gross overland	8,505	21,841	11,327	17,992
Deduct shipments—				
Overland to N. Y., Boston, &c.	913	4,960	934	3,195
Between interior towns	42	65	71	82
Inland, &c., from South	938	2,518	1,394	3,091
Total to be deducted	1,893	7,543	2,399	6,368
Leaving total net overland*	6,612	14,098	8,928	11,624

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 6,612 bales, against 8,928 bales for the week in 1897, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 2,474 bales.

Columbus, Ga.	4 3/4	Montgomery	4 3/4	Shreveport	4 1/2

WEATHER REPORTS BY TELEGRAPH.—Advices to us this evening by telegraph from the South indicate that rain has been quite general the past week and that in portions of Alabama, Mississippi and Tennessee as well as at a few points in Arkansas the precipitation has been excessive. Further deterioration of the crop is claimed as a result of too much moisture. Reports from Texas denote that prospects for a top crop have improved. Picking and marketing, except where interrupted by adverse weather conditions, have progressed rapidly.

Galveston, Texas.—Rain has fallen heavily on three days of the week, to the extent of six inches and twenty-five hundredths. The thermometer has averaged 76, the highest being 87 and the lowest 61.

Palestine, Texas.—We have had showers on two days during the week, to the extent of sixty hundredths of an inch. The thermometer has averaged 80, ranging from 66 to 94.

Huntsville, Texas.—It has been showery on one day of the week, the precipitation being twelve hundredths of an inch. The thermometer has ranged from 69 to 93, averaging 81.

Dallas, Texas.—A fair top crop is anticipated. The weather later has been very beneficial. There has been rain on two days during the week, the precipitation reaching forty-eight hundredths of an inch. Average thermometer 82, highest 97 and lowest 61.

San Antonio, Texas.—The week's rainfall has been one inch and twenty-two hundredths, on three days. Minimum temperature 68.

Luling, Texas.—It has rained on two days during the week, to the extent of one inch and thirty-five hundredths. The thermometer has averaged 82, ranging from 67 to 96.

Columbia, Texas.—It has rained on two days of the week, the rainfall reaching one inch and eighty-three hundredths. The thermometer has ranged from 67 to 91, averaging 79.

Cuero, Texas.—Prospects for a top crop are somewhat better. We have had rain on three days of the past week, to the extent of two inches and forty-three hundredths. Average thermometer 81, highest 94, lowest 68.

Brenham, Texas.—We have had rain on four days during the week, to the extent of one inch and thirteen hundredths. The thermometer has averaged 83, the highest being 93 and the lowest 68.

Corpus Christi, Texas.—We have had beneficial rain on two days of the week, the rainfall reaching one inch and ten hundredths. The thermometer has averaged 79, ranging from 70 to 88.

Weatherford, Texas.—There has been rain on three days during the week, to the extent of two inches and ninety-six hundredths. The thermometer has ranged from 64 to 97, averaging 82.

New Orleans, Louisiana.—It has rained on five days of the week, the rainfall reaching eighty hundredths of an inch. Average thermometer 81.

Shreveport, Louisiana.—It has rained on three days of the week, the rainfall being sixteen hundredths of an inch. The thermometer has averaged 78, highest being 91 and lowest 64.

Columbus, Mississippi.—Recent rains have seriously damaged crops. Rain has fallen on three days of the past week, the rainfall reaching four inches and seventy-six hundredths. The thermometer has averaged 81, ranging from 64 to 96.

Leland, Mississippi.—Rainfall for the week two inches and twenty hundredths. The thermometer has ranged from 60 to 90, averaging 73·4.

Greenville, Mississippi.—The weather is now clear and warm, but there were heavy rains early part of the week.

Vicksburg, Mississippi.—The weather is now clear and warm. There has been rain on three days during the week, to the extent of four inches and thirty-three hundredths. Average thermometer 76·5, highest 89 and lowest 68.

Helena, Arkansas.—Crops are deteriorating as a result of too much rain. There has been rain on three days during the week, the precipitation being one inch and eighty-three hundredths. The thermometer has averaged 72·7, ranging from 60 to 84.

Nashville, Tennessee.—Further deterioration in the crop is reported, due to too much moisture. Rain has fallen during

he week to the extent of two inches and fifty hundredths. Average thermometer 77, highest 90, lowest 64.

Memphis, Tennessee.—Rain has interfered with picking and the local quarantine delays wagon receipts from the immediate vicinity. There has been rain on three days during the week to the extent of one inch and thirty-two hundredths. The thermometer has ranged from 64·5 to 89, averaging 76·4.

Mobile, Alabama.—Crop reports continue unfavorable. Excessive rains are causing damage and interrupting picking. There has been rain on four days of the past week, the precipitation being six inches and twenty-six hundredths. Thermometer averaged 78, highest being 88 and lowest 67.

Montgomery, Alabama.—Cotton is being picked and marketed rapidly. The quality is generally poor, but improving since the last few days of sunshine. Rain has fallen on two days of the week, to the extent of six hundredths of an inch. Thermometer ranged from 64 to 91, averaging 78.

Selma, Alabama.—There has been rain on three days during the week, the precipitation being sixty-eight hundredths of an inch. The thermometer has averaged 75, ranging from 62 to 95.

Madison, Florida.—We have had no rain during the week. Average thermometer 82, highest 93, lowest 71.

Savannah, Georgia.—It has rained on three days of the week, the rainfall reaching eleven hundredths of an inch. The thermometer has averaged 79, ranging from 70 to 90.

Augusta, Georgia.—We have had rain on two days during the week. The rainfall reached fifty-four hundredths of an inch. The thermometer has ranged from 65 to 92, averaging 78.

Charleston, South Carolina.—Rain has fallen on four days of the week, to the extent of thirty-eight hundredths of an inch. Average thermometer 78, highest 88, lowest 72.

Stateburg, South Carolina.—Picking is progressing rapidly. There has been rain on one night during the week, the precipitation reaching thirty-three hundredths of an inch. The thermometer has averaged 77·7, the highest being 92 and the lowest 64.

Greenwood, South Carolina.—There has been rain on two days during the week, to the extent of seventy-nine hundredths of an inch. The thermometer has averaged 76, ranging from 66 to 86.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Sept. 22, 1898, and Sept. 23, 1897.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following report on the crop in Southern States for the week ending Sept. 19:

A slight improvement is noted in the cotton crop in the eastern portion of the cotton region; rotting and shedding are decreasing; the bulk of the crop is open and picking is progressing rapidly. In the central portion of the cotton region, where about the same conditions prevail as in the previous week, picking is progressing as the weather permits; but shedding, rust and worms continue in Mississippi and caterpillars and worms are again damaging the crop in Louisiana. Some damage has resulted from heavy rains in Arkansas. In Texas the bulk of the early crop is open and picking well advanced, although pickers are scarce in some localities. The reports indicate that the top crop will be short in South Carolina, Georgia, Oklahoma and Texas.

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been active for the week under review, and the close is steady at 6¼c. for 1¾ lbs. and 6⅝c. for 2 lbs., of standard grades. Car-load lots of standard brands are quoted at 6¼c. for 1¾ lbs. and 6⅝c. for 2 lbs., f. o. b. at New York. The market for jute butts has been brisker for parcels to arrive at 1·90c. for paper quality and 1¾c. for mixing. No spot market.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 100,657 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool, per steamers Georgic, 5,676.... Servia, 995	6,671
To Hull, per steamer Colorado, 88	88
To Havre, per steamers La Navarre, 100...Strathnairn, 50	150
To Bremen, per steamers Trave, 235....Weimar, 3,075	3,310
To Antwerp, per steamer Kensington, 100	100
To Genoa, per steamer Werra, 497	497
NEW ORLEANS—To Liverpool—Sept. 16—Steamer Historian, 7,940.....Sept. 21—Steamer Mira, 5,655.....Sept. 22—Steamer Orion, 7,250	20,845
To Havre—Sept. 17—Steamer Spanish Prince, 962	962
To Bremen—Sept. 20—Steamer Falshaw, 4,028	4,028
To Hamburg—Sept. 17—Steamer Markomannia, 100..... Sept. 20—Steamer Syria, 975	1,075
To Copenhagen—Sept. 22—Steamer Louisiana, 250	250
GALVESTON—To Liverpool—Sept. 15—Steamer Aston Hall, 8,251....Sept. 17—Steamer West Indian, 5,498....Sept. 20—Steamer Holywell, 8,038	21,787
To Manchester—Sept. 17—Steamer Brookfield, 8,930	8,930
To Havre—Sept. 16—Steamer Fulwell, 7,300	7,300
CORPUS CHRISTI, &C.—To Mexico, per railroad, 116	116
MOBILE—To Liverpool—Sept. 23—Steamer Verax, 2,873	2,873
SAVANNAH—To Bremen—Sept. 21—Steamer Horda, 5,156	5,156

BREADSTUFFS.

FRIDAY, Sept. 23, 1898.

Business in the market for wheat flour has been only moderately active, but there has been a stronger tone to values reflecting a firmer market for the grain. Despite the fact that prices have shown a hardening tendency, there has been no material improvement in the demand, as buyers generally have continued to show little disposition to purchase in advance of their immediate wants. The demand from exporters has continued quiet. Rye flour has been in limited supply and prices have been firmer. Corn meal has been in fairly active demand, as both the home trade and exporters have been buyers; prices have been unchanged and steady.

Speculation in wheat for future delivery has been fairly active and the tendency of prices has continued towards a higher basis. The principal strengthening feature of the market has been an active export trade, as both the United Kingdom and the Continent have been buyers, and the clearances from the seaboard have been fairly large. Saturday there was a quiet market and under limited offerings prices declined ¼@⅝c. Monday there was a firmer market early in the day, in response to the firmness of the cash markets. Subsequently, however, owing to a larger increase in the visible supply than expected, and a full movement of the crop in the Northwest, the market turned easier and all of the early improvement was lost. Tuesday the market was firmer, prices advancing ¾@⅞c. The strengthening features were unexpectedly small receipts at the Northwest, large clearances from the seaboard and a more active export trade. Wednesday there was a stronger market for cash wheat and the near-by deliveries, prices showing an advance of 2c. for September delivery, while other months were only ½@¾c. higher. The improvement was based almost entirely on an active export demand, the purchases for the day here and at outports amounting to close to 1,000,000 bushels. Thursday the upward tendency to prices continued, the advance for the day being ¾@1¼c. Foreign advices were stronger, there was less pressure to sell, as the long interest had been largely liquidated by profit-taking on the upward turn to values. The export demand continued active and bear operators were slow to sell the market short. To-day the market opened steady on foreign buying. Subsequently, however, weaker advices from the United Kingdom, larger receipts of winter wheat at St. Louis and large crop estimates from France turned the market, and prices declined, closing ⅜@1½c. lower for the day. The spot market was less active. The sales for export here and at outports were 165,000 bushels.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	70¼	70⅛	71¼	72¼	75	73⅞
December delivery.....c.	67¼	67¼	68⅛	68⅜	69⅛	69⅛
May delivery.....c.	68¼	68¼	68⅞	69	69¾	69⅜

Indian corn futures have been quiet, but prices have advanced slightly in sympathy with the firmness of the wheat market. Foreign advices have been stronger and there has been a fairly active export business, which also have had a favorable influence upon values. The crop movement, however, has been fairly large, and this, together with favorable weather for the crop and free offerings from the country have held the upward tendency to prices in check to a considerable extent. To-day prices weakened ⅛c.@¼c. in sympathy with the easier market for wheat. The spot market was active. The sales for export here and at outports were 690,000 bushels.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	34	..	34¼	34	34⅜	34¼
December delivery....c.	34⅛	34⅛	34⅛	34⅛	34⅞	34⅝
May delivery .....c.	36⅜	36	36¼	36¼	36⅜	36¼

Oats for future delivery in the local market have been neglected. At the West there has been only a moderate amount of activity to the trading, and the tendency of prices has been towards a higher basis in sympathy with the firmer markets for wheat and corn. During the latter part of the week buying by commission houses was a feature of the trading. The spot market has been fairly active, as both the home trade and exporters have been buyers and have paid higher prices. The crop movement has been only moderate. To-day the market for futures in the Western market was easier in sympathy with the decline in other grains. The spot market was fairly active. The sales for export were 150,000 bushels.

Rye has had a fair sale for export and at higher prices. Barley has been in fair demand and firmer.

The following are closing quotations:

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Sept. 23, 1898.

The pronounced weakness in the market for raw cotton is unquestionably a most unfavorable factor in the cotton goods situation. Under its influence buyers stubbornly refuse to extend their operations beyond compulsory purchases and pay no attention to the assertion of sellers that the present prices of cotton goods quite discount the fall in the price of cotton, and in some instances even decline to a still lower level. The average prices of cotton goods are certainly the lowest on record, but at that they present no inducement to buyers to anticipate future requirements. Sellers contend that stocks are by no means excessive, except in one or two directions, print cloths for instance; but there is evidence enough that they are ample to meet such a demand as has come forward for some time past. The print cloth market by its course this week has disclosed the artificial character of the recent advance, as at the close that advance has not only been entirely lost, but the market is clearly further in favor of buyers. The woolen goods division has continued inactive and tone easy. In contrast to these conditions in the primary market are the reports from the majority of out-of-town distributing centres. Business there is well sustained for the time of year and favorable returns for the remainder of the year are confidently counted upon.

WOOLEN GOODS.—Some fair re-orders for plain heavy-weight goods for men's wear reported, chiefly in serges, and heavy-weight market in generally fair condition. Rather more attention has been given also to light-weight woolens and worsteds for spring, but not enough to relieve the market from inactivity. The light-weight situation is decidedly unsatisfactory. Few mills are well supplied with orders, and unless supplementary buying speedily develops to a material extent, a considerable amount of machinery is likely to be thrown out of work in addition to what is already idle. Sellers are anxious to secure business and prices in most directions are therefore somewhat uncertain. Low-grade goods suffer most in this respect. Overcoatings and cloakings continue dull and without special feature. Dress goods are selling more readily but the market is decidedly irregular. Flannels and blankets quietly steady.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 19 were 7,738 packages, valued at $297,799, their destination being to the points specified in the tables below:

NEW YORK TO SEPT. 19.	1898. Week.	1898. Since Jan. 1.	1897. Week.	1897. Since Jan. 1

Total	7,738	264,955	3,645	219,871

* From New England mill points direct.

The value of the New York exports for the year to date has been $8,652,871 in 1898 against $7,950,319 in 1897.

There has been no quotable decline in the price of brown sheetings or drills, but the tone of the market is distinctly easy in both heavy and light weights. The demand is steady, but buyers are only taking limited quantities. Ducks are quiet and easy. Brown osnaburgs dull and irregular. Bleached cottons in steady request for limited quantities and the demand is readily met by sellers, with prices irregular in outside makes of medium and fine grades and tending down in low qualities. Wide sheetings inactive and cotton flannels and blankets quiet at previous prices. Denims continue weak, with light sales, and in other coarse colored cottons buyers have the advantage in trading operations. Kid finished cambrics barely steady. Fancy prints, with few exceptions, weak and irregular. Indigo blues, mournings and other staple lines in fair demand without quotable change. Staple ginghams are steady, and with dark dress styles are in quite moderate supply. There is a fair demand at firm prices for fine ginghams for spring. Print cloths have been inactive for regulars and in moderate demand for odds, closing with sellers of the former at 2c., and in the latter on the basis of 2¾c. for 38½ inch 64 square 5-15 goods.

FOREIGN DRY GOODS.—The demand for dress goods for spring shows some improvement, but is still backward. Silks in quiet request for new season, sellers generally requiring a slight advance in price. Men's-wear woolens and worsteds inactive. Ribbons and laces and linens in quiet demand.

An auction sale of domestic ribbons, the product of the Phœnix Silk Mfg. Co., was held Thursday. About 21,000 cartons, to the value of nearly $30,000, were disposed of. Competition was brisk and average of prices very satisfactory, coming within 10 per cent of regular market quotations.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending Sept. 22, 1898, and since January 1, 1898, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1898 AND 1897.	Week Ending Sept. 22, 1898.		Since Jan. 1, 1898		Week Ending Sept. 23, 1897.		Since Jan. 1, 1897.

Decatur, Ala.—*Bonds Proposed.*—The holders of $50,000 bonds of this city, it is said, are about to submit a proposition to the Council that the city refund the bonds at possibly 50 cents on the dollar and 4% interest, and that the Legislature shall legalize the new issue.

Milwaukee, Wis.—*City Restrained from Issuing Bonds.*—On September 20, 1898, the Supreme Court handed down a decision enjoining the city from issuing $80,000 bridge bonds, $140,000 street improvement bonds and $81,000 garbage bonds, suit against the issuance of which was brought in June, as given in the Chronicle June 9, and July 16, 1898. In delivering the opinion the Court held that the Constitutional limit of indebtedness was "a debt limit and not a bond limit," and that the city had already exceeded its limit by $51,524. The Court also held that money raised in advance of taxation for specific purposes was a trust fund, and ought not to be diverted for other purposes, and that if such money was diverted and used for other purposes that the amount so diverted constitutes indebtedness within the meaning of the Constitution. The Court figures that the net debt of the city is $7,285,605 34, while that allowed by the Constitution is $7,234,171 25.

Mobile, Ala.—*Bond Litigation.*—On September 14, 1898, the Bienville Water Supply Co. and others filed a bill in Chancery, claiming that the $750,000 4½% water and sewer bonds recently awarded are illegal. The complainants state that the Mayor and General Council were not authorized by a majority of the *registered* voters, at the special election called for that purpose, to contract for, build, purchase or otherwise acquire a water-works system. They also claim that the city authorities were not authorized to enter into a contract with Sperry, Jones & Co., Baltimore, for the sale of the bonds, and to secure legislation from the General Assembly legalizing the issue.

On September 15, 1898, the city filed a demurrer to the bill and claimed that a majority of the voters "present and voting" were in favor of the water-works system. The city officials deny that they intend to make any contract for the construction of the water-works that shall bind the city, unless the General Assembly shall authorize the issuance of the bonds, and also deny that it is their intention to issue or deliver the bonds to any person or persons unless the city be specially authorized to issue the bonds in the amount named and for the purpose specified.

New York City.—*Suits Discontinued*—On September 20, 1898, counsel for Vermilye & Co. and Kuhn, Loeb & Co., and for the Produce Exchange Trust Company, reached an agreement whereby all litigation over the award of the $12,688,992 36 city bonds to the Trust Company was ended. The settlement was an amicable one and all litigation as far as the above companies are concerned, it is understood, will cease.

In the suit of Zimmermann & Forshay, Justice Cohen in the Supreme Court on September 17, 1898, refused to issue a peremptory mandamus to compel the Comptroller to award them $1,000,000 of the above bonds. This latter suit was brought by the above firm on the ground that they were the highest bidders for that amount of the twelve million dollar issue.

Philadelphia, Pa.—*Loan Litigation.*—The suit over the validity of the $11,200,000 loan bill came up in the Common Pleas Court, No. 4, on September 21, 1898. The city was ready to go on with the case, but Attorney Simpson, representing the complainants, stated that he would not argue the case at the present time, as it was not ripe for a hearing while the ordinance providing for a tax levy for the payment of the principal and interest of the bonds is still pending before the City Councils. The Court, after some little discussion on the subject, continued the case until next week.

Subsequently, according to the Philadelphia "Public Ledger," after a conference between counsel, Mr. Simpson went to the Prothonotary's office and had the present proceeding discontinued. He stated, however, that as soon as the tax levy ordinance is passed he will file another bill in equity similar to the one just withdrawn, the only difference being that it will contain the new ordinance.

See Chronicle July 16, 1898, and July 30, 1898.]

Bond Proposals and Negotiations this week have been as follows:

Aberdeen, S. Dak.—*Bids.*—As stated in the Chronicle of last week, the $23,000 5% refunding bonds were awarded on September 12 to N. W. Harris & Co., Chicago, at 103·109. Following are the bids:

N. W. Harris & Co., Chicago	$23,715 00	Mason, Lewis & Co., Chicago	$23,177 57
Citizens' Sav. Bank, Flint	23,575 00	C. H. Lading	23,105 00
S. A. Kean, Chicago	23,230 00		

Albany, N. Y.—*Bonds Authorized.*—On September 12, 1898, the Mayor approved an ordinance authorizing the issuance of $22,000 water bonds. Interest will be at not more than 5%, payable semi-annually.

Alden (Village) N. Y.—*Bond Offering.*—Proposals will be received until 8 P. M. September 28, 1898, by Albert Yager, Village Clerk, for $18,000 water-works bonds. Securities are issued pursuant with sections 128, 129 and 221, Chapter 414, Laws of 1897, and were authorized by a resolution of the Board of Trustees adopted September 13, 1898. Bonds are dated September 1, 1898. Interest will be payable March 1 and September 1, and the principal will be payable $900 yearly from 1903 to 1922 inclusive. Proposals must state rate of interest and must be accompanied by a certified check for 2% of the amount of bonds bid for, payable to the Village Treasurer without conditions. The Village has no bonded debt at present and the assessed valuation is $181,000, about 25% actual value.

Annandale (Village) Minn.—*Bond Sale.*—J. D. Cleghorn & Co., Minneapolis, have purchased the $1,000 6% 1-2 year village hall bonds.

Augusta, Wis.—*Bond Sale.*—This city recently sold the $12,000 5% water-works bonds, which were voted last July, to the First National Bank, Portage, Wis., at 104·166. Following are the bids:

First National Bank, Portage	$12,500	N. W. Harris & Co., Chicago	$12,242
Mason, Lewis & Co., Chicago	12,375	Denison, Prior & Co., Cleve.	12,100
Farson, Leach & Co., Chicago	12,250		

Bay City, Mich.—*Bond Sale.*—On September 19, 1898, the $18,000 4% water-works bonds were awarded to W. J. Hayes & Sons, Cleveland, at 108·57. Bonds mature October 15, 1928. For further description of bonds see Chronicle September 17, 1898, p. 601.

Berlin, N. H.—*Temporary Loan.*—The city has negotiated a loan of $8,000 with the Littleton Savings Bank at 4½%. Loan bears date September 6, 1898, and matures January 6, 1899.

Breckenridge, Col.—*Bond Sale.*—On September 13, 1898, the $25,000 6% water-works bonds were awarded to Mitchell Bros., Denver, at 100·50. A bid of 102 was also received from the Breckenridge Mercantile Co. Both the above firms were also bidders for the contract work and bid on the bonds on the condition that they be awarded the contract. "Taking both into consideration," Mr. James K. Daniell, Town Clerk, writes us, "the city will save about $800 by accepting the first bid." Bonds mature September 1, 1913, subject to call after September 1, 1908. Proposals were originally asked for these bonds until September 6, 1898, but those received were rejected. A description of the bonds will be found in the Chronicle September 3, 1898.

Bristol County, Mass.—*Bond Sale.*—On September 22, 1898, the $160,000 4% loan was awarded to the Fall River Savings Bank at 102·71. Following are the bids:

Fall River Savings Bank	102·71	Blake Bros. & Co., Boston	102 342
Jose, Parker & Co., Boston	102·541	D. W. Hewland & Co	102·23
Rogers, Newman & Tolman, Bos.	102·51	Blodget, Merritt & Co., Boston	102·17
Third National Bank, Boston	102·45	R. L. Day & Co., Boston	102·159
Adams & Co., Boston	102·346	Parkinson & Burr, Boston	101·945

Loan matures September 23, 1902. For further description see Chronicle September 17, 1898, p. 602.

Brookfield, Mo.—*Bonds Defeated.*—At the election held on September 13, 1898, the proposition to issue $14,000 sewer bonds was defeated.

Buchanan (Town), Va.—*Bond Offering.*—Proposals will be received until 12 M., September 30, 1898, by the Town Council, at the office of W. T. Zimmerman, Mayor, for $3,000 refunding coupon bonds, dated November 1, 1898. Principal will mature November 1, 1918. Bids are asked on a basis of 5% and on a basis of 6% interest.

Caldwell County, Mo.—*Bond Sale.*—On Sept. 5, 1898, $13,500 of 6% court house bonds were awarded to Altheimer & Rawlings, St. Louis, Mo., at 104·75. Bonds mature $4,500 yearly on November 2 from 1900 to 1902, inclusive. A description of the bonds will be found in the Chronicle of Aug. 27, 1898, page 442.

Canton, Ohio.—*Bond Sale.*—On September 19, 1898, the $15,000 coupon water-works refunding bonds were awarded to W. J. Hayes & Sons, Cleveland, at 103·233 for a 4% bond. Following are the bids:

	For a 4% Bond. Premium.		*For a 4% Bond. Premium.*
W. J. Hayes & Sons, Cleve.	$485 00	Seasongood & Mayer, Cincin.	$396 00
Briggs, Smith & Co., Cincinnati	450 00	New First Nat. Bk., Columbus	270 00
Denison, Prior & Co., Cleve.	427 75	*For a 5% Bond.*	
R. Kleybolte & Co., Cincinnati	417 00	Dime Sav. Bank, Canton	$1,227 00
Central Sav. Bank, Canton	401 50		

Principal matures September 1, 1903. For description of bonds see Chronicle of September 3, 1898, p. 497.

Canyon Creek, Lewis and Clarke County (Mont.) School District No. 36.—*Bond Sale.*—On September 7, 1898, the $800 6% coupon bonds were awarded to T. E. Collins, State Treasurer, at par. Bids were also received from Bell & Co., Spokane; H. B. Palmer, Helena, and from an Eastern house. Principal will mature in 1918, subject to call after 1903.

Cass County (P. O. Cassopolis), Mich.—*Bond Offering.*—On September 26, 1898, at 10 A. M., at the court-room in

Cassopolis, the Finance Committee, Jasper White, Chairman, will offer for sale the $32,000 4% county court-house bonds which were authorized last April. Securities will be in denomination of $100, dated June 15, 1898. Principal will mature $8,000 on January 15 yearly, from 1900 to 1903, inclusive. Bids will be received by mail not later than the opening of the sale. Notice is given that no bid will be received until the bidder shall state to the committee that he is entirely familiar with the proceedings authorizing the issue and sale of the bonds.

Cleveland, Ohio.—*Bond Offering.*—Proposals will be received until 12 M. October 24, 1898, at the office of H. L. Rossiter, Auditor of the Public Library Board, Room No. 213, City Hall, for $250,000 5% public library coupon bonds. Securities will be in denomination of $1,000. Interest will be payable April 1 and October 1 at the American Exchange National Bank, New York City, and the principal will mature October 1, 1918. Each bid must be accompanied by a certified check for $10,000 drawn on a national bank made payable to the order of the Treasurer of the Public Library Board. Bonds will be issued under authority of Section 11 of an Act of the General Assembly of the State of Ohio passed April 22, 1896 (92—O. L., 590).

Corrected Maturity.—Owing to an error in an official advertisement, the maturity of the $250,000 4% river and harbor bonds was given in last week's CHRONICLE as *October 1, 1903.* The maturity should have read *October 1, 1928.* Bonds are dated October 1, 1898.

Columbus, Ohio.—*Bonds Authorized.*—The City Council has authorized the issuance of $18,000 bonds for the improvement of various streets.

Bond Sale.—On September 20, 1898, the following bonds, property of the city sinking fund, were awarded to the New First National Bank, Columbus:

$30,000 4% poor fund deficiency bonds. Securities will be in denomination of $1,000, dated June 1, 1898; interest will be payable semi-annually at the City Treasurer's office. Principal will mature June 1, 1918.
68,000 4% electric-light bonds. Securities will be in denomination of $1,000, dated December 1, 1897; interest will be payable semi annually at the agency of the city of Columbus in the city of New York. Principal will mature December 1, 1927.
10,000 4% Scioto River dam bonds. Securities will be in denomination of $1,000, dated June 1, 1898; interest will be payable semi annually at the office of the City Treasurer. Principal will mature June 1, 1928.

Following are the bids:

	$30,000 Poor Fund Deficiency. Average 19 2-3 Yrs.	$68,000 Electric Light. Average 20 1-6 Yrs.	$10,000 Scioto Riv. Dam. Average 29 2-3 Yrs.

Cumberland County, Tenn.—*Bond Election.*—An election will be held in this county on October 15, 1898, to vote on the question of issuing $50,000 6% 20 year bonds to the Tennessee Central Railway Co. It is said that the company has agreed to commence construction within ten day after the election, provided the bonds are voted.

East Grand Forks, Minn.—*Bonds Proposed.*—We are advised that under the new charter the city expects to issue about $25,000 bonds, but that the description of bonds and other details have not yet been determined upon.

Elmira, N. Y.—*Bond Sale.*—On September 19, 1898, the $29,000 registered or coupon refunding bonds were awarded to the Chemung Canal Bank, Elmira, at 100·68 for 3½% bonds. Following are the bids received:

S. A. Kean, Chicago.....106·00

Bonds mature Oct. 1, 1933. For further description of bonds see CHRONICLE September 10, 1898, p. 548.

Fayette (Village), Ohio.—*Bond Sale.*—On September 14, 1898, the $5,500 6% village hall bonds were awarded to W. J. Hayes & Sons, Cleveland, at 108·13. Following are the bids:

W. J. Hayes & Sons, Cleve....$5,917 15 | Rudgers & Son, Chagrin Falls.$5,789 00
Bank of Fayette, Fayette..... 5,852 00 | Spitzer & Co., Toledo..... 5,737 75
Rudolph Kleybolte & Co., Cin.. 5,839 40 | Lamprecht Bros. Co., Cleve.... 5,726 05
Bank of Morenci, Michigan... 5,830 00 | Seasongood & Mayer, Cincin.. 5,668 75

Principal will mature $500 each six months from February, 1902, to February, 1906, inclusive. For description of bonds see CHRONICLE September 10, 1898, p. 549.

Frazee, Minn.—*Bond Sale.*—J. D. Cleghorn & Co., Minneapolis, were recently awarded $660 1-3 year sewer bonds. Bonds are in denomination of $200.

Fremont, Ohio.—*Bond Sale.*—$5,000 of 4% street improvement bonds were sold on September 5, 1898, to Charles S. Seitz, Tiffin, O., at 101·25. A description of the bonds will be found in the CHRONICLE of August 27, 1898, page 443.

Galveston, Texas.—*No Bond Issue.*—It has been reported that this city had under consideration an issue of $200,000 road bonds. We are advised by Theodore K. Thompson, City Auditor, that no such bond issue is contemplated. Mr. Thompson says: "There is no foundation for such a report; I do not know how it originated. Please contradict it."

Garrard County (P. O. Lancaster), Ky.—*Bond Election.*—At the election to be held November 8, 1898, the question of issuing bonds to free turnpikes will be voted upon.

Gloucester County, Va.—*Bond Election.*—At the November election (Nov. 8) the question of issuing $50,000 railroad-aid bonds will be voted upon. Securities will bear not more than 5½% interest.

Gonzales, Texas.—*Bond Sale.*—The city recently sold at private sale to Miller & Sayers, Gonzales, $15,000 6% 5 20-year (optional) sewer bonds at par. Securities are in denomination of $500.

Hamilton, Ohio.—*Bond Sale.*—The city sold on September 5, 1898, to Seasongood & Mayer, Cincinnati, O., $4,000 of 4½% refunding bonds at 101·98.

Hamilton County (P. O. Cincinnati), Ohio.—*Bond Offering.*—Proposals will be received until 12 M. October 26, 1898, by the Board of County Commissioners for $99,000 4% Miami River bridge bonds. Securities are in denomination of $500, dated October 26, 1898. Interest will be payable semi-annually at the office of the County Treasurer. Principal will mature October 26, 1918. Securities are issued pursuant to sections 871 and 2824, Revised Statutes of Ohio. A certified check for $500, payable to John C. Roth, County Treasurer, must accompany proposals.

Hastings, Neb.—*Bonds Not Sold.*—The $245,000 4½% refunding bonds which were offered for sale on September 12, 1898, were not disposed of, and we are advised that the Council has as yet taken no further action in the matter. The City Clerk says that several private propositions have been received, and the Council will probably act upon some one of them.

Houston, Texas.—*Bids.*—As stated in the CHRONICLE of last week, the $100,000 5% 40-year improvement bonds were awarded to Rudolph Kleybolte & Co., Cincinnati, at 106·526. We are now advised that bids were also received from Spitzer & Co., Toledo, of 106·525, and from Denison, Prior & Co., Cleveland, of 106·050.

Idaho Falls (Village), Idaho.—*Bond Offering.*—Proposals will be received until 12 M. September 30, 1898, by George Chapin, Chairman Board of Trustees, for $20,000 6% 20-year water-works bonds.

Lansdale (Borough), Pa.—*Bond Offering.*—There will be a sale at Hotel Norwood in this borough to-day (September 24, 1898), at 3 P. M., of $20,000 3½% borough bonds and $15,000 3½% school bonds. Securities will be in denomination of $100. Interest will be payable April 1 and October 1, and the principal will mature 30 years from date of issue, subject to call at any time. Bonds are free from State tax.

Lansdowne, Pa.—*Bonds Voted.*—On September 20, 1898, at a special election the issuance of $15,000 road improvement bonds was authorized.

Lehighton, Pa.—*Bond Sale.*—On Sept. 7, 1898, $19,600 of 4% 10 20 year optional electric light bonds were sold to local investors at par.

Lanrlam (Village), Houghton County, Mich.—*Bond Offering.*—Proposals will be received until 8:30 P. M. October 4, 1898, by Joseph R. Murphy, Village Clerk, for $15,000 5% coupon water bonds. Securities are issued pursuant with Chapter 11, Act No. 3 of the Session Laws of 1895. Interest will be payable semi annually and the principal will mature 20 years from date of issue subject to call after 10 years.

Le Roy (N. Y.), School District No. 1.—*Bond Sale.*—On September 21, 1898, the $8,000 4% bonds were awarded to Walter Stanton & Co, New York, at 101·02. Following are the bids:

Walter Stanton & Co., N. Y...$8,081 00 | W. J. Hayes & Sons, Cleveland.$8,028 00
Isaac W. Sherrill, Po'keepsie. 8,053 00 | Bank of Warsaw, ... Pa.

These bonds were advertised for sale on Augnst 26, 1898, but the sale was not completed at that time. For description of bonds see CHRONICLE August 27, 1898, p. 444.

Logan County (P. O. Bellefontaine), Ohio.—*Bond Offering.*—Proposals will be received until 2 P. M. October 5, 1898, by C. D. Campbell, County Auditor, for $25,000 6% ditch bonds. Securities are issued under authority of sections 4479, 4481 and 4482 Revised Statutes of Ohio. They are in denomination of $500, dated October 1, 1898. Interest will be payable semi-annually at the office of the County Treasurer, and the principal will mature $2,509 each January and July from January 1, 1899, to July 1, 1903 inclusive. A deposit of $250 in cash will be required with each bid. The official notice of this bond offering states that the county has never defaulted in payment of principal or interest on its funded debt.

Lorain County, Ohio.—*Bond Sale.*—On September 22, 1898, $175,000 of 4% bridge bonds were awarded to the Lamprecht Bros. Co. of Cleveland at 102·564. These bonds were offered for sale on September 1, but all bids were rejected at that time. A description of the bonds will be found in the CHRONICLE of Aug. 20, 1898, page 388.

Los Angeles, Cal.—*Bond Sale.*—On September 19, 1898, the $150,000 4% Fire Department bonds, $23,000 4% bridge bonds, $10,000 4% park bonds and $160,000 4% tunnel bonds were awarded to E. D. Shepard & Co., New York, at 105·25. For description of bonds see CHRONICLE August 27, 1898, p. 444.

Lynchburg, Va.—*Bond Offering.*—Proposals will be received until 12 M, September 29, 1898, by Camillus Christian, Chairman Finance Committee, for $30,000 3½% non-taxable coupon bonds. Securities are dated July 1, 1898, interest will

be payable Jan. 1 and July 1, and the principal will mature July 1, 1928.

Lynn, Mass.—*Temporary Loan*.—The city has awarded a six months' loan of $107,000 to Rogers, Newman & Tolman, Boston, at 3·02%.

McConnelsville, Ohio.—*Bonds Voted.*—At the election held September 19, 1898, the issuance of $20,000 water-works bonds, was authorized by a vote of 247 to 113:

McLean County (P. O. Washburn), N. Dak.—*No Bonds Sold.*—It has been reported that this county recently sold $15,000 of bonds. We are advised that such a sale was being negotiated, but that after all arrangements had been made for the transfer of the bonds to F. R. Fulton & Co., Grand Forks, it was found that the county could not be legally bonded for more than $13,000. A meeting of the County Commissioners will probably be held on October 3 to decide upon the issuance of bonds to this amount.

Manhattan, Ill.—*Bond Sale.*—On September 20, 1898, $1,185 5% street improvement bonds were awarded to the First National Bank, Joliet, at 101·266. Bonds are in denominations of $500 and $185, dated September 1, 1898. Interest will be payable annually and the principal will mature September 1, 1903.

Mansfield, Ohio.—*Bond Sale.*—On September 12, 1898, $13,600 of 6% 1 to 5-year street improvement bonds were sold to the Mansfield Savings Bank. For description of bonds see CHRONICLE August 27, 1898, p. 445.

Marshall, Mich.—*Bonds Proposed.*—The issuance of $35,000 sewer bonds is under consideration.

Marshfield (Wis.) School District No. 1.—*Bond Offering.*—Proposals will be received until 12 M. October 1, 1898, by E. M. Deming, Treasurer of the district, for $18,500 5% High School bonds. Principal will mature $2,000 on March 1 in the years 1901, 1902 and 1903 and $3,500 on March 1 yearly from 1904 to 1907, inclusive, and $2,500 on February 1, 1908. Interest will be payable annually at the Continental National Bank of Chicago. Bonds bear date Oct. 15, 1898. All bids must be accompanied by a bond of the bidder to School District No. 1 of the city of Marshfield in the penal sum of $1,000, with two good sureties, who shall each justify in double the amount of the bond, conditioned that if the bid of the party be accepted he will accept and pay for such bonds according to his bond, or in lieu of such bonds bids may be accompanied by a certified check in the sum of $500, payable to the District Treasurer. This school district is co extensive with the city of Marshfield, which has a population of about 6,000. Assessed valuation, $450,000; actual value, $2,000,000. Total indebtedness of school district is $4,000, and the city has no indebtedness whatever.

Mason County (Shelton, Wash.), School District No. 1.—*Bond Offering.*—Proposals will be received until October 8, 1898, by W. S. Covill, District Clerk, for $2,000 refunding bonds. Principal will mature $500 yearly from 1901 to 1904, inclusive.

Mauch Chunk (Borough), Pa.—*Bond Election.*—The Borough Council contemplates submitting to a vote of the people in February, 1899, the question of issuing from $30,000 to $35,000 street-improvement bonds.

Minnesota.—*Bond Offering.*—Proposals in duplicate will be received until 11 A. M. October 4, 1898, by the Board of State Capitol Commissioners, Channing Seabury, Vice-President, 512 Endicott Building, St. Paul, for $100,000 4% certificates of indebtedness. Securities will be issued in denominations of $50, $100, $500 and $1,000, or upwards. They will be dated October 1, 1898. Interest will be payable January 1 and July 1 at the office of the State Treasurer, and the principal will mature $50,000 on July 1, 1902, and $50,000 on July 1, 1903. Certificates are issued under Chapter 96 of the General Laws of 1897. Proposals should be for each $50,000 separately.

Moultrie, Ga.—*Bond Sale.*—Water-works and electric-light bonds of this city to the amount of $6,000 were awarded on Sept. 1, 1898, to F. M. Stafford & Co., of Chattanooga, Tenn., at 103·51. Bonds mature in 1918.

Mount Healthy, Ohio.—*Bond Sale.*—On September 12, 1898, the $1,500 6% (village's proportion), and $1,043 10 6% (property owners' proportion), street improvement bonds, were awarded to Briggs, Smith & Co., Cincinnati, at 109·20 and 109·50 respectively. Bonds mature one-tenth of each issue yearly. For further description of bonds see CHRONICLE, August 27, 1898, p. 445.

Mount Oliver School District, Allegheny Co., Pa.—*Bond Offering.*—Proposals will be received until September 30, 1898, by Paul Fallert, 1,207 Carson Street, Pittsburg, for $9,000 4½% school building bonds. Securities are in denomination of $1,000. Interest will be payable semi-annually and the principal will mature $1,000 yearly on October 1, from 1912 to 1920 inclusive.

Mount Vernon, N. Y.—*Bond Sale.*—On September 20, 1898, the $50,000 5% tax relief bonds were awarded to Jose, Parker & Co., Boston, at 105·01. Following are the bids:

Jose, Parker & Co., Boston	105·01	Walter Stanton & Co., N. Y.	101·27
Yonkers Savings Bank	104·56	Benwell & Everitt, New York	101·255
R. H. Smith & Co., New York	104·43	N. W. Harris & Co., New York	104·17
Bertron & Storrs, New York	104·35	D. A. Moran & Co., New York	103·81
Allen & Sands, New York	101·35	Edw. C. Jones Co., New York	103·39

Bonds mature September 1, 1901. For further description of these securities see CHRONICLE September 10, 1898, p. 549.

Negaunee, Mich.—*Bonds Voted.*—At the election held September 12, 1898, the issuance of $10,000 refunding water bonds was authorized by a vote of 52 to 7.

New Brunswick, N. J.—*Bond Offering.*—Proposals will be received until 1:30 P. M., October 20, 1898, by the Finance Committee and J. Bayard Kirkpatrick, City Treasurer, at the office of the latter, 356 George Street, for $62,000 4% sinking fund bonds. Securities will be in denomination of $1,000; interest will be payable May 1 and November 1 at the National Bank of New Jersey, and the principal will mature November 1, 1923. Each proposal must be accompanied by a certified check for 5% of the amount bid. Bonds are authorized by an Act of the Legislature approved February 18, 1879, and by resolution of Common Council dated September 9, 1898, and are free of all tax.

New Iberia, La.—*Bond Election Postponed.*—The election which was to have been held on October 17, 1898, to vote on the proposition to issue $80,000 electric-light bonds has been postponed until a later date not yet named. This action was made necessary on account of an irregularity in the petition of the taxpayers asking for the election.

Newport, Ky.—*Bond Sale.*—The city has awarded to Rudolph Kleybolte & Co., Cincinnati, at 110·69 $2,600 5% improvement bonds.

Newton County, Texas.—*Bond Sale.*—The county recently sold $5,500 5% 5-40-year (optional) jail bonds.

Newton, Mass.—*Temporary Loan*.—The city has negotiated a four months' loan of $75,000 with Estabrook & Co., Boston, at 3%.

Bond Offering.—Proposals will be received until 4 P. M. September 26, 1898, by Seth A. Ranlett, City Treasurer, at the City Hall, *West Newton*, for $50,000 4% sewer bonds. Securities are in denomination of $1,000, dated September 1, 1898. Interest will be payable March 1 and September 1 at the National Revere Bank, Boston, and the principal will mature September 1, 1928.

Norfolk, Conn.—*Loan Authorized.*—At a meeting of the sewer district held September 19, 1898, it was voted to borrow $10,000 for a new sewer system.

North Adams, Mass.—*Temporary Loan.*—This city has recently negotiated a $5,000 Normal School short-time loan at 4% with a local savings bank. The whole amount of this loan will be included in the tax levy of next year.

Norwood, Ohio.—*Bond Offering.*—Proposals will be received until 12 M., October 3, 1898, by W. E. Wichgar, Village Clerk, care of William E. Bundy, room 210, Lincoln Inn Court, Cincinnati, for $24,293 64 5% refunding bonds. Securities will be in denomination of $500, except one bond of $293 64, and dated Sept. 15, 1898, and will mature September 1, 1908. Interest will be payable semi-annually at the Atlas National Bank, Cincinnati. Bids must be accompanied by certified check for 5% of the amount of bonds, payable to order of Village Clerk. Securities are issued pursuant with Section 2,701, Revised Statutes of Ohio, as amended April 27, 1896.

Oil City (Pa.) School District.—*Bond Sale.*—On September 15, 1898, the Board of Control of this district awarded $45,000 of 4% coupon bonds to John K. Bryden, of Franklin, Pa., at 102·701. Bonds mature $2,000 yearly from 1903 to 1917, inclusive, and $3,000 yearly from 1918 to 1922, inclusive. A description of the bonds will be found in the CHRONICLE of Sept. 10, 1898, page 550.

Omaha, Neb.—*Bond Election Proposed.*—The City Council is considering the question of submitting to a vote of the people at the next election a proposition to issue $50,000 paving bonds and $50,000 sewer bonds.

Oneida, N. Y.—*Bonds Authorized.*—The Sewer Board has decided to issue $6,369 92 sewer assessment bonds in anticipation of the collection of the assessments on property improved which remain unpaid at this date.

Onelda County, N. Y.—*Bonds Authorized.*—The Board of Supervisors has authorized the issuance of $8,000 6% road bonds.

Osakis (Village), Minn.—*Bond Offering.*—Proposals will be received until 10 A. M. October 8, 1898, at the office of C. H. Bronson, Village Recorder, for $2,000 6% bonds. Securities will be in denomination of $500. Interest will be payable annually, and the principal will mature three years from date of issue. Bonds were authorized at a special election held on August 27, 1898, under the provisions of Chapter 200 of the General Laws of Minnesota for the year 1893, approved April 10, 1893.

Ottawa County (P. O. Port Clinton), Ohio.—*Bond Sale.*—On September 17, 1898, the $40,000 5% court-house bonds were awarded to N. W. Harris & Co., Chicago, at 111·79. Following are the bids:

N. W. Harris & Co., Chicago	$44,716 00	W. J. Hayes & Sons, Cleve.	$44,483 00
Citizens' Savings & Loan Co., Mansfield	44,080 00	Briggs, Smith & Co., Cincin.	44,399 00
Spitzer & Co., Toledo	44,071 00	Lamprecht Bros. Co., Cleve.	44,361 00
Seasongood & Mayer, Cincin.	44,069 00	Farson, Leach & Co., Chic	44,247 00
Mason, Lewis & Co., Chicago	44,014 87	New First Nat. Bk., Columbus	44,251 50
Denison, Prior & Co., Cleve.	44,009 75	Mansfield Sav. Bk., Mansfield	44,001 00
R. Kleybolte & Co., Cincin.	44,507 50	German-American Bank, Pt. Clinton	44,000 00

For description of bonds see CHRONICLE of last week, p. 603.

Pacific County, Wash.—*Bond Sale.*—The county has awarded to Morris & Whitehead, Portland, $40,000 5% 10-20-year (optional) funding bonds. Securities are in denomination of $1,000.

Pendleton, Ore.—*Bonds Authorized.*—The City Council recently appointed C. S. Jackson financial agent to negotiate the sale of $70,000 refunding water and levee bonds and $65,000 funding bonds at a rate not to exceed 5% interest. The citizens of Umatilla County are to be given the preference in the purchase of these bonds.

Perth Amboy, N. J.—*Bond Offering.*—Proposals will be received until 8 P. M., October 3, 1898, by the Finance Committee and City Treasurer at the City Hall, for $25,000 4% gold coupon school bonds. Securities will be in denomination of $1,000, dated September 1, 1898. Interest will be pay-

able March 1 and September 1 at the Middlesex County Bank, Perth Amboy, and the principal will mature September 1, 1918. Bonds are authorized by an Act of the Legislature, Chapter 288, approved March 22, 1895, and by resolution of the City Council.

Proposals will also be received at the same time and place for $2,000 4% gold paving bonds. Interest will be payable semi-annually, and the principal will mature ten years from date of issue. Bonds are issued under Laws of New Jersey, approved March 2, 1898. The official circular states that the city has never defaulted in payment of principal or interest, and that no litigation affecting its bonds is pending or anticipated. Garret Brodhead is the City Treasurer.

Rockford, Ill.—*Bond Sale.*—On September 12, 1893, this city sold an issue of $11,900 4% 13 year refunding bonds to W. J. Hayes & Sons, Cleveland, at 103·17. Principal and interest to be payable at Rockford.

Saginaw, Mich.—*Bond Sale.*—On September 20, 1898, the $10,000 4% street improvement bonds and $5,000 4% sewer bonds were awarded to W. J. Hayes & Sons, Cleveland, at 101·987. Following are the bids:

W. J. Hayes & Sons, Cleve....	$15,298 00	Estabrook & Co. (for $10,000).	$10,158 00
Bank of Saginaw..	15,255 00	Adams & Co. (for $10,000)....	10,151 50
Blake Bros. & Co., Boston	15,157 50	People's Savings Bank, Saginaw.....	15,100 00
Denison, Prior & Co., Cleve..	15,157 00		

One-tenth of each issue will mature yearly on Sept. 1. For further description of bonds see CHRONICLE last week, p. 604.

Salamanca (Village), N. Y.—*Bond Election.*—A special election has been called to vote on the proposition to issue about $5,000 of paving bonds.

San Mateo County (P. O. Redwood City) Cal.—*Bond Offering.*—Proposals will be received until 1:30 P. M. October 3, 1898, by P. P. Chamberlain, County Treasurer, for $48,000 4½% refunding bonds. Securities are in denomination of $1,000; interest will be payable annually and the principal will mature 10 years from date of issue, "unless made payable at any date earlier at the pleasure of the county." A certified check for $500 must accompany proposals.

Sharon, Mass.—*Bond Sale.*—On September 21, 1898, $8,000 4% highway and school bonds were awarded to Estabrook & Co., Boston, at 102·31. Following are the bids:

Estabrook & Co., Boston	102·31	Blodget, Merritt & Co., Boston	102·03
Jose, Parker & Co., Boston.....	102·201	State Street Trust Co., Boston..	100·890

Bonds are in denomination of $1,000, dated September 1, 1898. Interest will be payable semi-annually at the National Exchange Bank, Boston. Principal will mature $1,000 yearly on September 1, from 1899 to 1906, inclusive.

Shelbina, Mo.—*Bond Offering.*—Proposals will be received at any time within the next 60 days by John J. Bragg, Mayor, for $5,000 6% electric light extension bonds. Securities will be in denomination of $500; interest will be payable semi-annually at the Commercial Bank, St. Louis. Principal will mature ten years from date of issue, subject to call after one year. Assessed valuation, $784,000. We are advised that there is no litigation pending or threatened, and that principal and interest have been promptly paid on previous issue of bonds. The city has no other indebtedness. The city will be assessed $1 per $1,000 of assessed valuation for a sinking fund to meet principal and interest on above bonds.

Shelby County, Ohio.—*Bond Sale*—On September 17, 1898, $6,400 6% bridge bonds were awarded to the Citizens' Bank of Sidney at par and accrued interest. There were no other bidders.

Sioux Falls, S. Dak.—*Bond Election.*—On September 13, 1898, the City Council authorized the submission to a vote of the people at the next general election of the question of issuing $130,000 water-works bonds.

South Brooklyn (Village), Ohio.—*Bond Sale.*—On September 14, 1898, $2,500 6% Town Hall bonds were awarded to Rogers & Sons, Chagrin Falls, at 109 Following are the bids:

Rogers & Son, Chagrin Falls..	$2,725 00	H. M. Farnsworth, Cleveland..	$2,626 00
W. J. Hayes & Sons, Cleveland	2,707 00	Denison, Prior & Co., Cleveland	2,625 00
Briggs, Smith & Co., Cincinnati	2,703 50	A. B. Philips, Ashtabula.....	2,560 00
Seasongood & Mayer, Cincin..	2,676 25		

Securities are in denomination of $500, dated September 15, 1898 Interest will be payable semi-annually, and the principal will mature one bond each in two, four, six, eight and ten years.

Spokane, Wash.—*Bonds Not Sold.*—*Bond Offering.*—All bids were rejected on September 15, 1898, for the $49,865 8% Riverside Avenue paving bonds, and the bonds are re-advertised for sale for 20 days. Bonds are dated November 15, 1898, and are in denomination of $500. Interest will be payable annually and the principal will mature 10 years after date of issue.

Staunton, Va.—*Bond Sale.*—The city has sold at par and accrued interest to local investors $25,000 3½% refunding bonds.

MOSCOW, IDAHO, GOLD 6s
School Bonds, Due 1911.
Moscow is the County Seat of Latah County, one of the best agricultural sections in the State. For price and full particulars address H. B. POWELL, Woodstock, Vermont.

Taunton, Mass.—*Bond Sale.*—On September 16, 1898, the $16,500 4% sewer bonds were awarded to C. B. Wilbar & Co., Boston, at 113·511. Following are the bids:

C. B. Wilbar & Co., Boston	113·511	Adams & Co., Boston	112 09
W. Holman Cary, Boston	113·378	E. H. Rollins & Sons, Boston	112·33
Lee, Higginson & Co., Boston	113·31	Jose, Parker & Co., Boston	112·141
Estabrook & Co., Boston	113·059	Third National Bank, Boston	112 07
R. L. Day & Co., Boston	113·059	Henry L. Dorr, Boston	111·731
N. W. Harris & Co., Boston	113·837	Foster & Bennett, Boston	111·11
Bledge', Merritt & Co., Boston	113·79	Blake Bros. & Co., Boston	110·81

Principal will mature June 1, 1928. For description of bonds see CHRONICLE of last week, p. 605.

Topeka, Kan.—*Bond Election.*—We are advised that the date for the election which will be held to vote on the proposition to issue $440,000 water-works bonds has not yet been determined, but will probably be in November.

Walker, Minn.—*Bond Sale.*—On September 3, 1898, $6,000 of 6% water bonds were awarded to F. R. Fulton & Co., Grand Rapids, N. Dak., at par. Bonds mature in 1908. A description of the issue will be found in the CHRONICLE of August 27, 1898, page 446.

Westerly, R. I.—*Temporary Loan.*—On September 12, 1898, the town negotiated a loan of $25,000 with Curtis & Motley, Boston, at 3·6·%. Notes were issued to renew a note about to mature.

Winnebago City, Faribault County, Minn.—*Bond Offering.*—Proposals will be received until 2 P. M. October 3, 1898, by the Village Council, Andrew C. Dunn, President, for $8,000 electric-light bonds. Securities are in denomination of $500, dated October 1, 1898. Interest will be at not more than 5%, payable semi-annually. Principal will mature $500 yearly on October 1, from 1902 to 1917 inclusive. A certified check for $100, payable to the President of the Village Council, must accompany proposals.

Woodsville (N. H.) Fire District.—*Bonds Authorized.*—At a special meeting of this district held September 16 1898, the issuance of $12,000 bonds was authorized to pay the indebtedness of the district. Interest will be at not more than 4%, payable semi-annually, and will mature 20 years from date of issue.

Wooster, Ohio.—*Bond Sale.*—The highest bid received on September 16, 1898, for $5,200 4½% water-works bonds was from The Lamprecht Bros. Co., Cleveland, at 100·865, and for $6,000 5% sewer bonds from Briggs, Smith & Co., Cincinnati, at 103·33. Following are the bids:

	Water-Works.	Sewer Bonds.
The Lamprecht Bros. Co., Cleveland	$5,245 00	$6,178 00
Sessonsgood & Mayer, Cincinnati	5,241 00	6,178 80
Zercher	5,240 00	6,199 75
Briggs, Smith & Co., Cincinnati	5,239 25	6,200 00
Frick	5,235 00	6,190 00
Ohliger	5,232 50	.....
McClellan	5,216 00	6,065 00

For description of bonds see CHRONICLE Sept. 17, 1898, p. 605.

Yonkers (N. Y.) School District.—*Bond Offering.*—Proposals will be received until September 27, 1898 (bids will be opened in the Board room, High School Building, at 8 P.M. on that date), by Joseph F. Daly, Chairman Committee on Finance, for $28,500 3½% registered school bonds. Interest will be payable April 1 and October 1. Principal will mature on April 1 as follows: $500 in 1913, $1,000 in 1919, $2,000 in 1925, $4,000 in 1979 and $5,000 yearly in 1977, 1978, 1980 and 1981. The $500 bond payable in 1913 and two $1,000 bonds due 1979, will be dated October 1, 1898; all others will be dated July 1, 1898. Each proposal must be accompanied by a certified check for 5% of the amount bid for. Bonds are issued in conformity with the provisions of Section 26, Laws of 1881, and Chapter 49 of the Laws of 1894; also with resolutions passed by the Common Council in 1897 and 1898.

Youngstown, Ohio.—*Bond Sale.*—On September 19, 1898, the $21,000 5% paving and sewer bonds were awarded as follows: $20,000 Scott Street bonds to W. Holman Cary, Boston, at 108·378; $1,500 Seneca Street bonds and $400 sewer bonds to The Dollar Savings & Trust Co., Youngstown, at 104·127 and 103·187, respectively. Following are the bids:

	$20,000 Scott St. Bonds.	$1,500 Seneca St. Bonds.	$400 Sewer Bonds.
W. Holman Cary, Boston	$21,675 60	.....	.....
Dollar Savings & Trust Co.	21,432 00	$1,562 00	$412 75
R. L. Day & Co., Boston	21,568 80	.....	.....
W. J. Hayes & Sons, Cleveland	21,537 00	.....	.....

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, October 1, have been $1,273,186,824, against $1,308,133,415 last week and $1,332,301,905 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending October 1. 1898.	1897.	Per Cent.
New York	$626,800,528	$637,070,363	−1·6
Boston	72,459,101	84,723,542	−14·5
Philadelphia	52,522,632	49,891,725	+5·3
Baltimore	13,167,483	13,435,180	−2·0
Chicago	90,617,886	85,619,703	+5·8
St. Louis	22,123,325	24,018,890	−7·9
New Orleans	4,932,039	5,919,765	−16·7
Seven cities, 5 days	$882,443,011	$900,677,073	−2·0
Other cities, 5 days	160,144,093	155,002,001	+3·3
Total all cities, 5 days	$1,042,585,760	$1,055,679,074	−1·2
All cities, 1 day	230,601,034	276 622,831	−16·6
Total all cities for week	$1,274,186,874	$1,332,301,905	−4·4

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 24, and the results for the corresponding week in 1897, 1896 and 1895 are also given. In comparison with the preceding week, there is a decrease in the aggregate exchanges of forty-six and a-half million dollars, and at New York alone the loss is thirty-six and a-half millions. Contrasted with the week of 1897 the total for the whole country shows a decline of 1·6 per cent. Compared with the week of 1896 the current returns record a gain of 53·4 per cent, and the excess over 1895 is 31·4 per cent. Outside of New York the increase over 1897 is 1·9 per cent. The excess over 1896 reaches 32·6 per cent, and making comparison with 1895 the gain is seen to be 13·2 per cent.

Clearings at—	Week ending September 24. 1898.	1897.	1898. P. Cent	1896.	1895.

THE FINANCIAL SITUATION.

Politics, the Industrials and the Wheat market appear to have occupied chief attention the current week. Perhaps we ought to put, in place of Industrials, American Tobacco stock, though following, as the break in Tobacco has, the decline in Sugar Refining, a tumble such as it has made (about 30 points in a few days) in a measure weakens confidence in the entire class of issues to which it belongs, and has been an unsettling influence to the whole Stock Exchange list. We do not suppose the general public has suffered to any great extent in this latest bout. The reasonable presumption is that it must have been a very small and a very gullible crowd that would have followed the speculation up to the dizzy height the stock was made to climb, and that the week's antics are a result of a struggle between insiders, instead of the usual attempt at bleeding the inexhaustible army of innocents forever vainly groping through Wall Street after a short road to wealth, but as a rule finding that all roads from that center lead to bankruptcy.

The political strife has continued at the boiling point recently not only in this State, but at other centres as well. After it all we can say politics hath its victories as well as war and peace. One way and another we continue to have bosses everywhere, but in times of deepest interest they are brought to do not so much their own will as the bidding of the public. To be sure they are able to direct the force stored up in every community to a certain extent—that is until by some influence it is aroused and becomes irresistible, to be followed not driven. We have had evidences of this subserviency almost everywhere this year and in the conventions of both parties. Neither party has dared to espouse silver and one at least has declared clearly for a gold currency, and that in silver-producing States as well as in all other States. Truly we are not standing still; we are advancing directly toward the consummation of that end needful above all others—unassailable stability in values.

Wheat made a further advance early in the week, though a reaction has set in at the close. An upward movement in the price of that cereal this season is of course a less important event than last year: it is less important because it was evident at the same date in 1897 that it would be a continuing condition, for crops then were very short, whereas this year it is questionable how permanent the rise will be. No doubt a lack of old reserves throughout the world justified higher rates for the early months of the season. At present that period seems to be the limit opinion puts to the advance, if we may accept as an approximate interpretation of traders' views the difference in the ruling market price which has prevailed this week between spot and futures, spot wheat being worth in New York to-day very considerably more than December wheat, after deducting from current rates the cost of carrying the future contract.

But apart from this feature of reserves there is the usual problem bearing upon the question of permanency, and that is whether the world's crops in 1898, though much better than in 1897, are sufficiently large to give buyers the control of the markets; that is, whether they are sufficient to more than cover actual requirements at present prices. That problem is an unsolved one as yet. Russia's prospective supply, as is frequently the case, is to-day more or less of an enigma. The latest French figures are likewise questioned. Besides, as consumption starts with reserves everywhere exhausted, many hold that a supply barely equal to meeting ordinary consumption (the prevailing estimate of the world's production of wheat this year) can be marketed at a profitable price if our crop is not brought into sight too freely: and if Russia's anticipated contribution should later prove to be short, the end of the season may be better than the opening. There is nothing unreasonable in that position so long as an active demand absorbs the larger part of current receipts and the visible supply keeps relatively at a low figure: but excessive accumulations in sight would materially disturb these calculations. A salient point to watch as price rises is the movement from Russia, remembering that India is having a good monsoon and that the burden of our crop should be marketed before the India crop matures.

The money market, which for so long a time was the paramount influence in financial circles, and was made to do duty as an approaching destructive force, has now passed wholly out of consideration. Indeed, at the moment it looks as if very low rates were almost in sight again. This result seems well nigh inevitable. There is only a small portion of the bond money left to be paid into the Treasury; the larger part also of this unsettled portion is so conditioned as not to be subject to immediate call. Thus we find the accumulation on account of the sale of the 3 per cents virtually at an end and the monetary situation left with the Treasury holding an immense available balance. A regard for public interests and the traditional policy of the Government does not allow the retention of these moneys in Government vaults and away from public use, but makes it necessary that they should be disbursed either in the regular way or by bond purchases. At present the ordinary income is less than the outgoes, so that for the time being Treasury operations are taking care of the balance by slowly reducing it. Moreover the Secretary has announced that he will anticipate the payment of the November interest, amounting to $4,373,154, the coupons being paid after October 10th and the registered interest after October 20th. No doubt future months' interest will be similarly anticipated if the need exists. Besides that, gold is coming in in large amounts from Europe and more is being engaged; likewise bank circulation is increasing. It has been reported from Washington that there was an increase the current month in these notes to September 24 of 6¾ million dollars. As the 3 per cents at the present market value net a small profit in taking out national bank notes, the presumption is that the expansion will go on. Finally the movement of currency appears to be now from the interior and towards this center. Altogether, therefore, unless business revival proves to be more rapid than is at present anticipated, very low rates for loans would seem to be in prospect. Should the elections result so as to make the outlook safe for sound money, industrial revival after that ought to go on with a quickened pace. Still, with Congress in session, war questions not yet settled, and winter in prospect, the chances seem to be that enterprise will be kept within conservative limits and easy money be carried into the coming year.

A feature in some of the returns of railway net earnings for the month of August which have come to

hand this week has been a large increase in operating expenses. In at least one prominent instance this augmentation in expenses has been coincident with a considerable falling off in gross receipts, the two together causing a very marked contraction in the net revenues. We have in mind the return of the Atchison Topeka & Santa Fe, showing $210,473 decrease in gross and $228,246 increase in expenses, with the result that the net for August 1898 is only $482,560, against $921,280 for August 1897—a shrinkage of almost 50 per cent. The unfavorable comparison possesses no special significance, however, and should not be accepted as indicative of future results. The smaller gross earnings simply reflect the continued holding back of wheat by the farmers. Last year, we are informed, the movement of wheat over the Atchison lines in August was from 500 to 600 cars a day: this year it was less than 100 cars per day. The wheat crop the present year, however, is larger than that of last year, and hence it is only a question of time when the grain must come forward. With reference to the augmentation in expenses, that also is exceptional. Railroad managers are always governed in their outlays more or less by the probabilities as to traffic and revenues. In this case the managers had not unnaturally counted on very heavy earnings, and as they were anxious to push certain work in track-laying and bridge construction, they had it done in August. Could the situation as to earnings have been foreseen much of this would have been distributed over a number of months. The outlays having now counted in August, there will be correspondingly less in subsequent months. Moreover, Chairman Walker, in his annual report, stated that the extraordinary betterment expenses paid out of earnings might be expected to decline largely after the present *calendar* year in any event.

As to railroad expenses generally it is not surprising that they should at present be running heavier than a year ago. Aside from the fact that in the case of most roads the volume of traffic is larger than in 1897, the policy as to outlays on expense account is now different. Last year at this time the managers still thought it prudent to proceed cautiously. Earnings were improving, but they did not feel entirely sure that the improvement would last. Hence while they had a considerable amount of betterment work in contemplation, they did not enter upon it to a very large extent until the prospect as to increased earnings was assured—in fact in many cases not until a large part of the increase in earnings had actually been realized. An examination of the reports of our railroads for the fiscal year ending June 30 1898 will show that the outlays did not become really free until the later months of the fiscal year. The Wabash report, whose statement for August showing $65,112 increase in gross earnings but $66,311 *decrease* in net earnings has been issued this week, will serve for illustration. In the six months from July to December 1897, with gross increased $679,414, expenses were added to in amount of only $346,744, but in the six months from January to June 1898, with gross enlarged $992,258, the addition to expenses was $978,875. That is, practically the whole gain in the net occurred in the first half of the fiscal year. The present fiscal year we may suppose the outlays for betterments will be more evenly distributed, with the result that while the comparisons for the early months may be unfavorable, for the later months there should be an improvement.

The Pennsylvania Railroad statement for August has been issued this week. It shows only very moderate changes—$135,900 decrease in gross earnings and $23,200 decrease in net on the lines east of Pittsburg and Erie, and $55,300 increase in gross with $225,300 decrease in net on the Western lines. The situation during the month is well known. While there was an extra business day in August the present year, there was a tremendous contraction in the grain movement, and the New York Central for that month reported a falling off in earnings of $268,042. Besides this, comparison is with very good earnings in August of last year, the Pennsylvania then having reported $538,200 gain in gross and $356,000 gain in net on the Eastern lines, and $287,200 gain in gross and $218,400 gain in net on the Western lines. The following gives the results on the Eastern lines for six years.

The feature of the Mobile & Ohio annual report just issued is the detailed account given of the work done during the year in getting the road in shape for handling its growing traffic to the best advantage. Large additions have been made to the equipment both in number, capacity and efficiency. The number of freight cars has been increased 1,450, and 29 new locomotives have been added. A large amount of the old equipment has been supplied with automatic couplers and air-brakes. Much work has been done on the road bed and 12,000 tons of new steel rail have been purchased and are now being put in the track. The completion of the Montgomery extension is an important event of the year. The new road was opened for through traffic in August.

Money on call, representing bankers' balances, has loaned at 6 and at 2½ per cent this week, with the bulk of the business at about 4 per cent and the average 3¾ per cent. The higher rate was recorded on Monday. Then borrowers seemed to be of the opinion, based upon the gain in surplus reserve shown by last week's bank statement, and also upon the indications that the flurry in money was at an end, that lower rates would rule this week, and therefore they neglected on Monday morning to accept the offerings of money at 3 per cent. In the afternoon, when they sought to make their engagements for the day, the demand was so general that rates were bid up to 6 per cent and some few loans were made at that figure. On Tuesday and thereafter borrowers made their engagements early in the day, thus limiting the inquiry in the afternoon. The range was from 3 to 4 per cent until Thursday, when there was a better supply, and the arrival of about $4,000,000 gold from Europe imparted an easier tone to the market and rates fell in the afternoon to 2½ per cent. The range on Friday was from 3 to 4 per cent. Banks and trust companies quote 4 per cent as the minimum, though some loans have been made by them at 3½ per cent. The time loan branch of the market has been easier; the feature has been fairly

iberal offerings of Boston and other Eastern money at 3½ per cent for four months. Quotations are 3½ per cent for sixty to ninety days, 3½@4 for four and 4 per cent for five and six months on good Stock Exchange collateral. The explanation given for the offerings of money from the East is that the demand from the mills is light, and therefore the banks have an accumulation of unemployed money which is attracted to this city by the comparatively high rates. Local commercial paper is only in moderate supply; at the same time some of the large banks report good offerings of Western names. The demand from New York banks and other institutions is somewhat limited, owing to the low bank reserves, but there is a good inquiry from Eastern banks, and some of these institutions in the chief Western cities have orders with their correspondents for the purchase of round amounts of New York paper. Rates are 3¾@4¼ per cent for sixty to ninety-day endorsed bills receivable, 4@4½ per cent for prime and 5@6 per cent for good four to six months' single names. Some very choice paper of this class has been sold to Boston and Chicago banks at 4 per cent. Bankers report business dull and the fall trade disappointing in the dry goods district, but in Western cities business is good. The transfers of currency through the Treasury this week have been chiefly to the South, very little going to the West.

The feature in the European political situation this week has been the decision to review the Dreyfus case, which has relieved the tension at Paris. The *coup d'etat* of the Dowager Empress of China has been the event of the week, but it has had little or no influence upon the European financial situation. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety-day bank bills in London at 2½@2⅝ per cent. The open market rate at Paris is 1⅞ per cent, and at Berlin and Frankfort it is 3⅞@4 per cent. According to our special cable from London the Bank of England lost £627,919 bullion during the week and held £33,176,964 at the close of the week. Our correspondent further advises us that the loss was due to shipments of £294,000 net to the interior of Great Britain and to the export of £334,000, of which £294,000 were for the United States and £40,000 for Roumania.

The foreign exchange market has been dull and generally steady during the week. Higher discounts in London and a demand to cover gold engagements made the tone firm on Monday, and an inquiry for bills in connection with a railroad bond negotiation was the feature on Wednesday. After this the market grew very dull and some bankers reported it almost stagnant. Offerings of grain and cotton futures are liberal, though at full prices, and the spot bills against grain seem to have been already negotiated. Rates for sight sterling, bankers stated, were at figures slightly above the gold-importing point, but nevertheless it was announced on Wednesday that $2,500,000 gold had been engaged in London for shipment hither by the City Bank and $100,000 was taken on the same day from the Bank of England for New York. The arrivals of gold from Europe during the week have been $5,058,681. Previously reported, $11,441,979, making a total on this movement of $16,500,660.

The range for nominal rates of exchange on Monday was from 4 82 to 4 82½ for sixty day and from 4 81½ to 4 85 for sight. On Tuesday Lazard Freres advanced the sight rate, making the range from 4 82 to 4 82½ for long and 4 85 for short. The market was firm on Monday and rates for actual business were advanced one-quarter of a cent, compared with those at the close on Friday of last week, to 4 81¼@4 81½ for long, 4 81@4 81¼ for short and 4 81½@4 81¾ for cable transfers. On Tuesday the tone was again firm and rates for actual business for long sterling were advanced one-quarter of a cent, to 4 81½@4 81¾, while sight sterling and cable transfers remain d unchanged. The tone was a trifle easier on the following day and on Thursday, without any quotable change in rates. The market closed steady on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

		Fri., Sept. 23.	Mon. Sept. 26	Tues Sept. 27	Wed., Sept. 28	Thur., Sept. 29.	Fri., Sept. 30.

	Sight.	85	85	85	85	85	85

The market was steady on Friday, with rates for actual business 4 81½@4 81¾ for long, 4 84@4 84¼ for short and 4 84½@4 84¾ for cable transfers. Prime commercial 4 81@4 81¼ and documentary 4 80½@4 81¼. Cotton for payment, 4 80¼@4 80½, cotton for acceptance 4 81@4 81¼ and grain for payment 4 80¾@4 81.

The following statement gives the week's movement of money to and from the interior by the New York banks.

Week Ending Sept. 30, 1898.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$5,870,000	$3,270,000	Gain. $2,600,000
Gold	1,121,000	832,000	Gain. 289,000
Total gold and legal tenders	$6,991,000	$4,102,000	Gain. $2,889,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week Ending Sept. 30, 1898.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$6,991,000	$4,102,000	Gain $2,889,000
Sub-Treasury oper. and gold imp'ts	29,400,000	23,600,000	Gain. 6,800,000
Total gold and legal tenders	$36,391,000	$27,702,000	Gain $8,689,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	Sept. 29, 1898.			Sept. 30, 1897.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.

Tot. this week	305,271,382	96,376,820	401,648,202	321,581,830	99,611,090	421,142,926
Tot. prev. w'k	311,464,231	96,696,056	407,960,287	314,933,237	101203751	426,201,988

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Note.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is the latest reported figures.

THE DREYFUS RE-HEARING.

It is the opinion of many observers of foreign politics that the French Government has passed, during the last fortnight, through one of the most serious crises in its recent history. It would perhaps be rash to say that the crisis created by the recent revelations in the Dreyfus case has even now been certainly averted. Much depends on the action of the courts in the matter of a re-hearing; much also on the action of the army authorities in the matter of the most important witness, now in the hands of the military. Of these two points we shall speak further. But despite these doubtful elements in the situation, it is absolutely certain that Premier Brisson, in ordering a re-hearing, took the only road to safety. After what has happened in the past thirty days, further secrecy was impossible except through complete surrender of the civil authorities to the army. Such a surrender must virtually, if not actually, have involved a military dictatorship; for it has become too plain to be ignored that the French people were no longer standing unanimously behind the policy of *chose jugee*. A reaction in popular anti Dreyfus sentiment would have involved the fall of every ministry pledged against revision. No ministry, therefore, could in such case have sustained itself in power except through the aid of the military But to invoke this aid under such circumstances would have been revolution. All this M. Brisson undoubtedly understood, and it was his understanding of the situation which encouraged him last Monday, after the "revision committee" had divided equally for and against re-hearing, to insist that his Cabinet authorize the re-opening of the case.

The chain of events which forced this decision on the ministry was most extraordinary. It will be remembered that among the unwilling witnesses in last February's trial of Emile Zola was the French General, Pellieux. This officer refused to answer important questions, but was permitted by the Court to address the audience on the wickedness of Zola's criticism of the staff. The Dreyfus party, he declared, was "destroying confidence in the heads of the army at a time when danger is perhaps nearer than people believe." R called from such declarations by some further searching queries regarding the attitude of the Dreyfus court-martial, this General left the court. Next day he returned and wholly changed his position. "You ask for light," he said. "Then you shall have it. At the time M. Castelin interpolated the Government [in October 1896] the Minister of War had received absolute proof of the guilt of Dreyfus. This proof, which I have seen, is a note containing the words, 'Never say you have had relations with this Jew.'"

The counsel for Zola and Dreyfus at once affirmed that in the Dreyfus court-martial he had never seen or heard of this evidence. The court checked his statement. Gen. Boisdeffre, called to the stand, confirmed Gen. Pellieux's statement regarding this new letter. An attempt was made to cross-examine Gen. Boisdeffre, but was forbidden by the court, and the General left the witness-stand cheered by the people and crying out "Vive l'armée!"

Now when these remarkable facts regarding the origin of this Dreyfus letter are recalled, it may be judged what was involved by the discovery, at the close of last month, that the letter thus referred to, the final rock of appeal for the army staff, was proved indisputably to have been a forgery. Not only was the letter forged, but it was fabricated by a high officer in the army secret service. This officer, Col. Henry, confessed the crime when driven to bay by the Minister of War, and added the extraordinary statement that he committed the forgery "because of the absolute necessity of finding proofs against Dreyfus." The culprit was at once removed to a military prison, where he committed suicide next day. The insinuation that Henry was murdered in his prison, though made in a somewhat surprising quarter since that time, has nothing to confirm it.

The confession of this forger of evidence that the document on which the suppression of a Dreyfus trial had been publicly based was fabricated, could not very well fail to influence profoundly even the opinion of the boulevards. M. Cavaignac, the Minister of War, who in the Chamber of Deputies last July had appealed to the forged letter as conclusive evidence, resigned his post at once and necessarily. Gen. Boisdeffre, who had similarly appealed to it on the witness stand last February, resigned his position on the General Army Staff. But a still more remarkable and sensational move was at hand.

The most damaging witness in Zola's defense against the army had been Col. Picquart, of the Secret Service, who had become convinced of Dreyfus's innocence, or at least of the inadequacy of the evidence on which Dreyfus was convicted, and whose position naturally made him formidable to the adherents of secrecy. This officer was at once made to feel the weight of his superiors' displeasure. He was degraded in rank in the army, accused of slander in a civil court, and sent to a city prison, where he has since remained. The date for his civil trial arrived on Wednesday of last week. But in the meantime Col. Henry's confession and death had intervened; Picquart had become still more formidable to the anti-Dreyfus element. When, therefore, the civil case came up for trial, the court calmly announced that hearing would be postponed because the army authorities had decided to try Col. Picquart for forgery. No such suggestion had been made before; yet, despite the protests of his counsel, this officer was haled off last week Wednesday to the military prison. An element of the sensational was added to his departure by Picquart's own intimation in open court that he believed his transfer to Cherche-Midi to be a prelude to his assassination.

We have reviewed the successive episodes of this remarkable melodrama—no other word can properly describe it—because the incidents have crowded in such swift succession as to make it difficult to retain in mind exactly what has gone before. The reader will now understand, however, the serious nature of the situation between the seizure of Picquart by Gen. Zurlinden, ten days ago, and the Premier's decision on Monday last for a re-hearing of the Dreyfus case. There were not wanting, in this critical interval, predictions of a military *coup d'etat*; in fact, the exiled Duke of Orleans so far recognized the situation last week as to feel himself impelled to placard Paris with a rather absurd manifesto, calling on Frenchmen to rally to the side of the army. But, for the reasons already pointed out, we believe that since M. Brisson's decision the real crisis is averted.

Whether it is averted permanently depends, first, on the action of the courts. In strict accordance

with French law and precedent, a closed case cannot be reopened except because of the production of fresh evidence bearing on the decision. Now the discovery that the incriminating letter containing Dreyfus's name was forged is not such evidence, because the letter itself never came before the Dreyfus court-martial. It is alleged, with apparent show of truth, that the other two incriminating letters ascribed to him, which did come before the court, have been proved not to have been the work of Dreyfus. But testimony to this effect, like the similar expert testimony regarding the famous "bordereau" or memorandum, was in fact submitted to the original court-martial and did not alter their decision. It is not, therefore, new evidence.

We are strongly inclined to believe, however, that the production of the evidence which is believed to exist and to be conclusive will be immensely favored by the mere fact of the Ministry's change of attitude. It is quite plain that so far as concerns this mysterious case, France has been living under a virtual reign of terror. The fate of Col. Picquart, when he had dared to put himself in opposition to the army staff, was undoubtedly what every possible witness for Dreyfus anticipated. When a man of such position as the ex-President, Casimir-Perier, placed on the witness stand last February, in response to the customary administration of the oath could reply: "Pardon me, I cannot swear to tell the whole truth, because it is my duty not to do so"—the feeling of other individuals of less personal prestige may be imagined. And in fact the outlook for such a witness, if he took the chance, was disheartening. The Ministry and the Legislature were ranged against him; the press of Paris would certainly attack him almost unanimously; and the seeming all-powerful army staff would be able to do with him what it chose. Nothing quite parallel to this has been witnessed since Dr. Oates's "Popish plot" held London in terror two centuries ago.

But the publication of Col. Henry's confession, followed by the Ministry's change of attitude, can hardly fail to alter this situation, and to alter it radically, and if it be true that a plot against an innocent man lies at the bottom of all this five-year turmoil, France may safely count on the production of State's evidence. The recent conduct in London of Count Esterhazy, the strangest of all the strange figures in the Dreyfus case, amply confirms this view. The London newspapers were no doubt justified in refusing to take the "confession" which this adventurer offered to them at a price, because they had no assurance that the man would not sell them a series of falsehoods, and then go back to France to laugh at them. But the simple fact that Esterhazy, who was declared by half the experts to have written the "bordereau," who was acquitted only by a secret court-martial, and whose judges were accused by Zola to have acquitted knowingly a guilty man, should so much as intimate willingness to confess, shows that the situation is very different from what it was in October 1894, or even last February.

In one other respect the situation is interesting and significant. The course of events to date has been undoubtedly discreditable to France. It has led many people to doubt the whole system of criminal jurisprudence in that country, and it has led some to doubt the stability and independence of the French Government. The first of these suspicions was unpleasantly emphasized by the extraordinary court proceedings in the Zola trial. The second suspicion would have been confirmed if the Brisson cabinet had surrendered to the army cabal this week. The facts that the Ministry has taken ground in opposition to the army staff's demands and wishes, and that the army is apparently powerless to resist, are not without hopeful significance for the future. It remains of course to be seen whether this assertion of the public rights and of the authority of the civil executive will be allowed to stand without resistance. We think it will; chiefly because the first step having been thus taken, the strange spell which has seemed to be cast over the conscience of the French people will be broken once and for all. Yet it is quite possible that some further unusual incidents may still be witnessed before the episode is closed.

LIEN OF PREFERRED STOCK—THE NORTHERN PACIFIC CASE.

We referred last week in our railroad news columns to the decision of the Master in the Northern Pacific Sequestration Proceedings denying the right of the preferred stock of the old company to a lien on the lands east of the Missouri River. The probability was noted of an appeal of the case by the counsel for the preferred shareholders, Messrs. Van Schaick & Norton. The case possesses many interesting features, making a study of it instructive and profitable. We may say, too, that the intelligence which has come from Milwaukee this week reporting that the Master had found that there was still due the new company as holder of the claims against the old company the sum of 87 million dollars has a bearing on the ruling against the preferred shares. Under these two decisions the great bulk of the lands in dispute, amounting to about 3¾ million acres, will inure to the new company. The first decision, in affirming that the preferred shareholders could assert no claim to the lands, established the right of the creditors to the lands. The second, in declaring that the new company, standing among these creditors, has a claim for over 87 million dollars against the old company, in effect pronounces that all but a small fraction of the lands will ultimately go to the reorganized company, since its claim so far transcends that of all other creditors.

It will be remembered that the new company has acquired all the property of the old company, excepting only this parcel of land east of the Missouri River. President Mellen in his annual report (given in the CHRONICLE of September 17) noted the Master's decision adverse to the preferred stock and in favor of the creditors, and stated that the company held about 95 per cent of the indebtedness represented by such creditors. In other words, as the outcome of the Master's two rulings all but 5 per cent of the lands, or their proceeds, will come into the possession of the new company. The claim for 87 million dollars is of course in the nature of a deficiency judgment. The property under foreclosure of the various mortgages brought a great deal less than the amounts due on the mortgages, and the 87 million dollars represents this difference. We need hardly say that the development is not an unexpected one. The reorganization managers fully counted on securing the lands for the new company.

It is well enough to point out that even if the decision as to the lien of the preferred stock should on

appeal be reversed the lands would still go almost en bloc to the reorganized company. All but about a million dollars of the old preferred stock assented to the reorganization scheme, and thus the new company holds the great bulk of these old preferred shares. In the event, therefore, that the lien of the stock on the lands should be upheld, the company would have a claim upon them as the holder of the greater part of this stock. It follows that as far as the company itself is concerned, the outcome of the litigation must be a matter of indifference. It is simply a question of methods. In either the one way or the other, nearly the entire parcel will come to it.

From what has been said it will be seen that our object in referring to the Master's decision concerning the position of the old preferred stock is not based on considerations as to the effect it is likely to have on the affairs of the new company. Our purpose is rather to consider the general principles involved because of their obvious importance. The old Northern Pacific preferred shares were supposed to have a clear and undisputed claim on the lands east of the Missouri River. It is now held that they had, and could have, no such claim. What are the reasons for this conclusion? Are they based on special or on general grounds? If the latter they may have a bearing on the cases of other preferred stocks. As is known, the rights of preferred shareholders have been at issue in several instances recently. The Baltimore & Ohio preferred stock suit is one that is even now attracting much attention. We shall not undertake to show what points the Northern Pacific shares had in common with other preferred shares which have been the subject of litigation. It will become sufficiently obvious however as we proceed that the Northern Pacific stock had certain distinctive features, differentiating it, in part at least, from the other cases which have excited discussion. Some of the features referred to, though, were such as were supposed to fortify the position of the stock, and this gives peculiar emphasis to the fact that the ruling was adverse nevertheless.

The reasons for the peculiar characteristics with which it was sought to endow the preferred stock of the old Northern Pacific Company are obvious enough. The stock was issued in exchange for the old 7-30 or "Jay Cooke mortgage" bonds, and the claim on the lands was given in consideration of the fact that the holders originally had a mortgage lien on the entire line which they were now to yield up. After the failure of Jay Cooke in 1873 default on the Northern Pacific 7-30 bonds was made January 1 1874, and a receiver for the property was appointed. In 1875 the road was sold at foreclosure and reorganized under a plan previously agreed on by the security holders. The 7-30 bonds were surrendered and canceled, and the holders received therefor $1,400 of preferred stock for every $1,000 of bonds held. It was distinctly provided that this preferred stock "shall be convertible at the par value into any lands belonging to the company, or hereafter to belong to it; east of the Missouri River, in the State of Minnesota and in the Territory of Dakota, until default shall occur in some of the provisions of the new first mortgage bonds hereinafter provided for, and such conversion shall be an extinguishment of such stock. The proceeds of all sales of such lands, until such default, shall be used likewise in extinguishment of such stock.

The provision here quoted appeared in the reorganization scheme, was endorsed on all the certificates of stock issued by the company, and appeared in the new first mortgage bonds. Subsequently the company executed three other mortgages, namely the "General Second Mortgage," the "Third Mortgage" and the "Consolidated Mortgage." In each of these mortgages likewise the lands situated in the States of Minnesota and North Dakota, east of the Missouri River, were expressly excepted from the liens of the mortgages, and references made at greater or less length to the rights and claims of the preferred shares as to these lands. Under the operation of this arrangement $15,790,653 14 of the preferred stock was converted into lands, reducing the outstanding amount of the stock from $51,000,000 to $35,209,346 86. Mr. Eliot Norton, in an able brief on behalf of the petitioner, brings these facts out in a forcible way, and well says that they prove that the rights of the preferred stock to the lands in question were recognized in the most formal way and made matters of public record sufficient to charge all persons subsequently dealing with the railroad company with notice. Accordingly, he contends that whatever indebtedness was incurred subsequent to the creation of the preferred stock had only inferior rights to the land.

Mr. Norton argued that the preferred stock was created with certain rights to lands given to the Northern Pacific Company by the United States. These rights contemplated the sale of the lands and the extinction of the preferred stock by the proceeds of the lands. This furnished the consideration which induced the Jay Cooke mortgage bondholders to give up the property they had acquired. These rights were known to the public and constituted an inducement to buy the preferred stock and by reason of them every purchaser had to pay more than he would otherwise have had to pay. "Now, twenty years after the creation of the preferred stock, in spite of the unbroken carrying out of the rights given to it by the sale of the lands and consequent retirement of almost one-third of the stock, in spite of the notice given by instruments of record and the knowledge all persons have had of the rights of the preferred stock, and notwithstanding the constant dealings in and treatment of the stock on this basis, the contestants here seek to have these rights set aside." Mr. Norton also referred to the inequity of the contestants' position in that they did not attack those holders of the preferred stock who exchanged their stock for lands. They are left in possession, he remarked, while their unluckier brothers, who retained their stock, are to have it made valueless.

What then are the grounds on which the Master rules against the claims of the preferred shareholders? It will be noticed that the privileges accorded these holders were qualified to this extent, that they were to continue until default should occur in some of the provisions of the first mortgage. But this contingency never arose. The Northern Pacific became embarrassed and was again operated by receivers, but interest on this mortgage was not allowed to lapse. Hence that phase of the question did not come up in the consideration of the case. The Master rests his conclusion on the theory that the company had no power to enter into the arrangement giving the preferred stock a claim on the lands; hence the arrangement was unlawful. He states that the Act of

Incorporation fixed the capital at 100 million dollars, and that it conferred no power upon the corporation, its stockholders or directors to increase or diminish such stock, or to vary the number of shares or their par value. Neither was any such power given by Congress after the enactment of the charter. The reorganization plan in terms authorized a reduction of the company's capital stock by providing for the conversion of the preferred stock into lands; also that the proceeds of sales should be used likewise in extinguishment of such stock. This feature of the plan was therefore not only without the sanction of legislative authority, but it was in direct violation of that part of the company's charter which fixed the capital at one million shares of one hundred dollars each. It was consequently ultra vires, absolutely void, and incapable of subsequent ratification or adoption. He cites a long line of authorities in support of this conclusion.

It may be, he says, that if clothed with proper authority by the State, a corporation could issue certificates of stock which would also be certificates of indebtedness, giving to the holders the rights of creditors as well as those of stockholders. There can be no such thing, however, he contends, as preference of stock upon capital in the sense that the stockholder shall be repaid that which he has contributed to the capital of the corporation before its creditors are satisfied. A statute or contract purporting to authorize such a preference would be so repugnant, he contends, to the natural laws governing the acquisition, ownership and enjoyment of property that it would be void as against public policy. As well might the individual be wholly exempted from the payment of his debts, or the members of a partnership be permitted to appropriate to their own use assets of the firm to the exclusion of its creditors, as for the stockholders of a corporation to take its capital in preference to its creditors.

With reference to the question whether the Northern Pacific certificates of stock can be considered to possess similarity to certificates of indebtedness the Master answers in the negative. He says they had none of the characteristics of such certificates. A debt implies something owing from one to another with the obligation to pay or satsfy it at a specified time, or at a time which can be made certain. None of these characteristics are embodied in such certificates or in the plan pursuant to which they were issued. He contends, moreover, that the tenth section of the Act of Incorporation prohibited the company from making a mortgage or lien in any way except by the consent of Congress, and contends that none of the consents for bond issues obtained from that body covered a lien upon the lands in question for the benefit of the preferred stock—therefore, the making of such a lien was expressly prohibited by the charter.

Nor is the Master inclined to see force in the contention that because the Jay Cooke mortgage bondholders took preferred stock in place of the property acquired by them under foreclosure of their mortgage they have rights and equities in the lands superior to those of subsequent creditors of the corporation. To show that such contention is untenable he cites the following from Warren vs. King (108 U. S., 389). "Whatever position the holders of preferred certificates occupied before they accepted preferred stock, whatever special rights or liens they had, they became corporators, proprietors, shareholders, and abandoned the position of creditors, and took up towards existing and future creditors the same position which every stockholder in a corporation occupies towards existing and future creditors." The Master accordingly thinks the creditors of the company are justified in questioning the right of the preferred stockholders to the lands in question. Such lands, he points out, are about the only remaining capital of the company. The capital stock of an incorporated company is a trust fund for its creditors, publicly pledged to them for their security. They have a lien upon it in equity, and if diverted may follow it as far as it can be traced and subject it to the payment of their claims, except as against bona fide holders for value and without notice.

Master Cary goes so far even as to assert that the lands heretofore conveyed by the company in consideration of the conversion and extinguishment of its preferred stock may be within the reach of its present creditors, if the title still remains in the original grantees from the company, or in those who purchased with knowledge that the consideration received by the company was its preferred stock. "If an unpaid stock subscription can be reached by the creditors of a corporation, about which there is no doubt, it is equally clear that the creditors of a corporation can prevent its capital from being distributed to its stockholders to the prejudice of such creditors."

PROSPECTIVE IRON AND STEEL PRICES.

The Annual Statistical Report of the American Iron & Steel Association comes to hand at a time when the condition of the iron and steel trades, by reason of the industrial revival in progress, is commanding more than ordinary attention. In no other industry has there been more noteworthy growth and development in recent years than in the production of iron and steel. Indeed, the marvelous advance which the country has made in this respect during the last one or two decades has raised the United States to a plane where it excels all other countries—even Great Britain, formerly the foremost iron producer in the world. Not only is our output of iron and steel in excess of that of other leading nations, but in the statistics regarding the same we enjoy equal distinction. Nowhere else are the statistics furnished with equal promptitude. Nowhere else are they given in such a comprehensive way. To Mr. James M Swank, the veteran General Manager of the Association, under whose direction the work is carried on, belongs the credit for this.

The report contains not only complete statistics for 1897 but also much data for the first half of 1898. As far as the record of prices is concerned, this is brought down to the end of August. We shall not attempt to-day to deal with the figures showing the great expansion which has occurred in the country's output of iron and steel within recent years, as we have done that so recently. But a review of prices at this moment possesses unusual interest. Mr. Swank says that the course of prices for all iron and steel products from June of last year (when quotations as a rule were lower than ever before known) up to the present time is fairly indicated by the range for steel billets at Pittsburg. In June and July last year the quotation for billets was $14 00 per ton. In August it was $14 00 to $14 90; in September $15 00 to $16 00; in October $16 50 to $16 75; in November

$16 50, dropping to $15 50; in December $15 00. In January 1898 the price was also $15 00; in February $15 00 to $15 25; in March $15 25 to $15 50; in April $15 50, dropping to $15 25; in May $15 00, dropping to $14 75; in June and July $14 75, and in August $14 75 to $ 6 00, the last mentioned figure ($16 00) being the quotation now. The lowest price for billets ever recorded was $13 85 in May 1897. The recovery to $16 00 therefore has been very moderate, and the price is some fifty to seventy-five cents lower than it was in October of last year. We may note that in September 1895, only three years ago, on the revival produced by the Morgan-Belmont gold contract, the price was $25 00. Steel rails were then selling at the pool price of $28 00; now they are $18 00.

Mr. Swank undertakes an analysis of the causes of the continued low prices. He points out that these causes are of much wider operation than the boundaries of our own country. A special cause in the United States in late years, he says, is to be found in the possession of a capacity of production in all lines that is far in excess of the combined home and foreign demand, large as this demand has been. While he is a staunch advocate of a high protective tariff, he frankly admits that foreign competition has had nothing to do with the great reduction that has taken place in our iron and steel prices. These prices have been fixed entirely by home competition, and home competition has been severe, and even merciless, because we have not only adopted the most approved methods of production but have also expanded our capacity beyond our present wants and beyond reasonable limits. Hence the many consolidations and combinations that have taken place or been proposed in the effort to reduce expenses and assure even small profits; hence, too, many of the financial failures of the last few years. It appears to Mr. Swank inevitable that many of our still active iron and steel works that are neither well situated nor equipped with the best appliances for cheap production, or which can make iron only and not steel, must give up the struggle for existence. Except under the most favorable conditions this is no time to build iron or steel works, he asserts. The steel-rail industry suggests a policy of wide application. No new Bessemer steel-rail mills have been built for a number of years because the fact has been made only too plain that we have enough mills of this character, and more than enough.

With reference to pig iron, a special cause of the continued low prices is to be found, Mr. Swank declares, in the accumulation of warrant stocks. As the price of every product is largely determined by the surplus above the wants of consumers that presses upon the market, so the large surplus stocks of pig iron that are in the warrant yards, constituting a known quantity and being constantly advertised, act as a heavy weight upon pig-iron prices. As late as June 30 1896 the stocks in the yards of the American Pig Iron Storage Warrant Company aggregated only 112,000 tons, but at the end of September of that year they were 184,800 tons; on December 31 1897 they amounted to 275,800 tons and on June 30 1898 they still amounted to 258,000 tons. These warrant stocks must be added to the stocks in the hands of manufacturers and on the furnace bank which are for sale and which are semi-annually ascertained by the American Iron & Steel Association. The warrant stocks, however, exercise a particularly depressing influence on pig iron prices because of their speculative character and because the facilities which they offer for obtaining ready money encourage the production of pig iron for which there is no immediate demand.

We notice that the "Iron Age" in its issue this week has a special article dealing with the outlook as to prices, in which it intimates that an improvement in this particular is not unlikely in the early future. The "Age" notes a disposition on the part of iron and steel consumers in some quarters to defer the purchase of needed material in the hope that later in the year prices will recede. While the advances thus far have not been large, consumers have been so thoroughly educated to the prevalence of extremely low prices that they cannot bring themselves to believe that even a possibility exists of the establishment of a higher level of values. The "Age" thinks, however, that those who are looking for a decline to the old rates of the recent past may find that they are hugging a delusion. Such persons insist on believing that the productive capacity is so great that it is more than equal to any demand that can be made on it, and they base their belief on the experience of the last two or three years. But with the heavy foreign demand for almost everything we have to sell, the higher range of prices ruling abroad, and the almost positive assurance that the United States will be a continuously heavy consumer on an unprecedentedly large scale, the conclusion seems irresistible that these persons are leaning on a weak reed when they merely reason from experience and from what has happened in one or two corresponding periods of the year. The combination of circumstances now prevailing in the iron trade of the world is unlike anything ever before known.

This is the view of the "Age," and it is a very hopeful view. For ourselves we are inclined to think that the conditions enumerated by Mr. Swank must tend to prevent any very extensive rise, and indeed we should deplore extreme or sensational advances likely to prove harmful in every way.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO OCTOBER 1.

The following statements of overland movement, receipts, exports, &c., cover the month of September, the opening month of the new crop season. The current crop began to move later than in the preceding season, but the marketing has been quite free since the middle of the month, so that the amount brought into sight through the ports, interior towns and the rail movement up to the first of October is not much below the total for the similar period in the previous year. In fact there has come into sight during the month 982,766 bales, against 1,069,800 bales in 1897 and 1,222,287 bales in 1896. Northern spinners have taken 90,291 bales during the month, or a much smaller amount than in the same time in 1897.

OVERLAND MOVEMENT TO OCTOBER 1.

The *gross* rail shipments in September have been 44,167 bales, against 43,324 bales in 1897 and 69,488 bales in 1896. The *net* for the month also exhibits a slight gain in comparison with the previous year, the aggregate being 34,120 bales, against 34,098 bales in 1897 and 53,801 bales in the preceding season.

Leaving total net overland*	34,120	34,098	53,801

* This total includes shipments to Canada by rail, which since September 1, 1898 amounted to 1,741 bales, in 1897, were 2,247 bales, and in 1896 were 3,543 bales.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

Net receipts at the outports during the month have been less than in September of either 1897 or 1896, but making comparison with 1895 we find that 1898 exhibits a gain of 313,898 bales. Foreign exports have reached a fair aggregate during the month, being 291,268 bales, against 292,456 bales in 1897 and 386,591 bales in 1896. Port stocks, as well as those at interior towns, are greater than at the corresponding date in 1897.

* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, during September this year and the two previous years, is as follows:

	1898.	1897.	1896
Receipts at the ports to Oct. 1.....bales.	697,784	786,702	912,486
Net shipments overland during same time	34,120	34,098	53,801
Total receipts.....bales.	731,904	820,800	966,287
Southern consumption since September 1	114,000	96,000	76,000
Total to Oct. 1.....bales.	845,904	916,800	1,042,287

The amount of cotton marketed since September 1 in 1898 is thus seen to be 70,896 bales smaller than in 1897 and 196,383 bales less than in 1896. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to Sept. 30, 1898, as above.....bales.		845,904
Stock on hand commencement of year (Sept. 1 1898)—		
At Northern ports	61,654	
At Southern ports	114,952—	176,006
At Northern interior markets	10,268—	186,272
Total supply to Sept. 30, 1898		1,032,176
Of this supply there has been exported to foreign ports since Sept. 1, 1898.	291,268	
Less foreign cotton included ....bales.	2,832—	288,436
Sent to Canada direct from West		1,741
Burnt North and South		10
Stock on hand end of month (Sept. 30, 1898)—		
At Northern ports	62,230	
At Southern ports	463,881—	526,111
At Northern interior markets	11,627—	827,925
Total takings by spinners since Sept. 1, 1898		204,251
Taken by Southern spinners		114,000
Taken by Northern spinners since September 1, 1898		90,251
Taken by Northern spinners same time in 1897		149,473
Decrease in takings by Northern spinners this year..bales.		59,222

The above indicates that Northern spinners had up to Sept. 30 taken 90,251 bales, a decrease from the corresponding period of 1897 of 59,222 bales and a loss from the same time of 1896 of 52,292 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on October 1 compared with previous years, and which is shown in the following:

	1898.	1897.	1896
Total marketed, as above....bales.	845,904	916,800	1,042,287
Interior stocks in excess of Sept. 1.	136,862	153,000	180,000
Total in sight..... bales	982,766	1,069,800	1,222,287

This indicates that the movement during September of the present year is 87,034 bales less than in 1897 and 239,521 bales smaller than in 1896.

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to Oct. 1 we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous years.

	One Month Ending Sept. 30, 1898.			*Same period in 1897.*	*Same period in 1896.*
	Number of Bales.	*Weight in Pounds.*	*Average Weight.*	*Average Weight.*	*Average Weight.*
Texas	262,128	143,811,285	548·63	535·00	531·71
Louisiana	162,731	85,433,775	525·00	520·00	515·88
Alabama	22,589	12,017,348	532 00	522·00	516·00
Georgia*	127,386	65,157,939	511·70	506·80	497 52
South Carolina	43,113	22,002,930	510 00	511·58	499 07
Virginia	29,186	14,135,364	484·32	500·00	490 00
North Carolina	43,874	22,020,361	501·90	503·25	505 08
Tennessee, &c.	154,867	77,433,500	500·00	500 00	498·00
Total	845,904	442,012,502	522·53	515·85	510 45

* Including Florida.

It will be noticed that the movement up to Oct. 1 shows an increase in the average weight as compared with the same period of last year, the average this year being 522·53 lbs. per bale, against 515·85 lbs. per bale for the same time in 1897 and 510·45 lbs. in 1896.

COTTON GOODS TRADE IN SEPTEMBER

The aggregate business done in cotton goods during September is considerably in excess of the total for September last year and above the average for the corresponding month for several years past. In spite of this the tone has ruled uniformly easy and outside of a few leading lines staple cottons are ⅛c. lower on the month, print cloths 1-16c. lower and various lines of prints ¼c. lower. The demand has been put forward in conservative fashion and only considerable imperative needs on the part of buyers have assured the volume of business done. Raw cotton has consistently been an impediment in the way of forward operations, buyers under its influence evidently believing in a still lower price level for c tton goods.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

SEPTEMBER.	1898.					1897.				
	Cott'n low middling.	Printing cloths, 64x64	Sheetings, standard.	Lancaster ginghams.	8/4 3-yd. sheetings.	Cott'n low middling.	Printing cloths, 64x64	Sheetings, standard.	Lancaster ginghams	8/4 3-yd. sheetings.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of August, and they are given below, in conjunction with the figures for preceding months, thus completing the results for the eight months of the calendar year 1898. The imports of gold have been a little greater than in July, the amount received reaching $2,267,737, of which $2,167,159 was in coin. Of silver there came in only $57,700, of which $51,138 was bullion. During the eight months there has been received a total of $18,470,483 gold and $939,094 silver, which compares with $2,772,790 gold and $1,399,162 silver in 1897. The shipments of gold during August were unimportant in amount—only $8,003 coin—and the exports of silver have been $109,721 coin and $60,600 bullion. For the eight months the exports of gold have reached $392,486, against $395,451 in 1897, and $3,483,571 silver has been sent out, against $6,021,882 in 1897. The exhibit for August and the eight months is as follows:

IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, Saturday, Sept. 17.

There is still no increase in business upon the Stock Exchange, as everyone who can get away is absent from the city, and the public has not yet recovered from the series of political alarms that have followed one another so rapidly during the past three years. Moreover, there has been somewhat of a check during the week to the rise that had previously been going on in American securities and in mining shares. The attack upon British troops at Candia and the very strong impression that not only the Bashi Bazouks but even the Turkish regulars took part in it caused some apprehension at first that serious political consequences might follow. But apparently the four Powers are acting harmon-

iously together, and in spite of strong declarations by the Sultan there seems no doubt that the demands of the Admirals will be complied with.

Another matter which has somewhat disturbed the public is the report made by a steamer, which was sent by the Khalifa before the battle of Omdurman to Fashoda, that white men had arrived at that place and had fired upon the steamer. It is very generally believed that these white men are members of the Marchand expedition, and if so there is some doubt whether they may not try to retain the position at which they have arrived. Fashoda is unquestionably part of the Egyptian Soudan, and the French consequently have not even a colorable pretext for seizing the place, unless they are prepared to assert that when the Egyptians retired they lost all right to the provinces. It would be a very dangerous position to take up on the part of France, seeing what their position is with regard to Alsace Lorraine. The general impression, therefore, is that the French Government will declare that the expedition is a purely scientific one and that France makes no claim to Fashoda.

The condition of things in France itself, moreover, is rather disquieting. General Zurlinden, it is now said, will resign rather than sanction a revision of the Dreyfus case, although everybody believed that when he consented to succeed M. Cavaignac he had practically given his consent to revision. Naturally, therefore, it is asked both in Paris and here what can have induced the late Military Governor of Paris and present Minister of War to have set his face against what his very acceptance of office seemed to imply that he assented to? There are hints that there is a very dangerous feeling among the higher military officers. Whether that be so or not, there is a general expectation that the Cabinet will very soon fall. And it is by many anticipated that the President himself will have to resign. In any case the excitement and uncertainty in France are such that all business upon the Bourse there is practically suspended. France has suffered heavy losses during the past three or four years from the break-down of the mining boom, the crash in Constantinople and Vienna in consequence of the Armenian massacres, the utter defeat of Spain, and so on. And her present position is rather a drag upon all the Continental bourses.

At one time there was some fear that the murder of the Austrian Empress might perhaps lead to some trouble. Everybody was so horrified by the deed that there was a widespread expectation that proposals might be made for a kind of general campaign against the anarchists which would mean that the countries which give free asylum to political suspects would have to modify their laws. Now, however, there is less apprehension of that, and generally speaking there is a much better feeling concerning politics than there was at the beginning of the week.

Many of the alarmist reports sent to London from Chili seem to have been, if not absolute fabrications, greatly exaggerated. Private telegrams have been received by some of the leading houses in the city to the effect that there is no danger of hostilities between Chili and Argentina, and that if the Commission fails to come to an arrangement respecting the boundary the matter will be referred, as is already provided by treaty, to the arbitration of the Queen. The Argentine Minister in Paris confirms this in an official announcement published in the papers. In consequence there has been a marked recovery both in Argentine and Chilian stocks, which, however, has been somewhat checked by a rise in the gold premium at Buenos Ayres and a fall in Chilian exchange.

The Chilian finances are undoubtedly in a bad way and the fear is general that the attempt to establish a gold standard will have to be abandoned, and that the country will have to fall back again upon inconvertible paper. From Argentina, on the other hand, the reports are favorable, and the impression gains ground here that as soon as the boundary question is settled there will be a considerable increase of activity in Argentina. Indeed, there is a strong feeling here that if political apprehensions abate we shall see next month a very considerable rise in prices upon the Stock Exchange and a large expansion of business.

There is still much uncertainty with regard to the money market. The rates of interest and discount have both risen, but for some days they have remained rather stationary. There is a very active demand for gold in the open market, both for the United States and for Germany. But as yet there has been no actual withdrawals from the Bank of England. Consequently the hope is entertained by many that shipments to New York will not be large. On the other hand the more careful observers think that gold will be sent in considerable amounts, and that in consequence the Bank of England rate of discount will before long have to be put up at least to 4 per cent. In the meantime the supply of loanable capital in the open market is plentiful. That, however, would soon disappear if gold shipments began.

Trade all over the country is good. But there is exceedingly little speculation either in commodities or in securities. Consequently the demand for new loans is comparatively small. And it is well known that under such circumstances the market appears to be well supplied when in fact the surplus is exceedingly small. It may safely be asserted, therefore, that if a strong American demand springs up the value of money here will rise instantly. It will be found, in short, that the market is by no means so well supplied as superficial observers think.

Money will continue to flow from London to the interior, to Scotland and to Ireland for a couple of months. The usual autumnal requirements for Egypt, South America and so on will also have to be met. And if in addition there is a large shipment to New York the Bank rate will certainly go to 4 per cent, and possibly may have to go higher. Meanwhile the demand for Japan has abated. And there is exceedingly little demand for India, where, it will be remembered, the slack season still continues.

But rupees are becoming so scarce that there is still a very strong demand—for this time indeed an unusually strong demand—for India Council drafts. The Council offered for tender on Wednesday 35 lacs. The applications exceeded 160 lacs. And the whole amount offered was sold, the bills fetching 1s. 4d. per rupee and the telegraphic transfers 1s. 4 1-32d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1898. Sept. 14.	1897. Sept. 15.	1896. Sept. 16.	1895. Sept. 18.

Messrs. Pixley and Abell writes as follows under date of Sept. 15:

Gold.—Gold has been in increased demand during the week at advancing prices. Germany took £125,000 from the Bank, but the chief inquiry is for New York. During the week the Bank sold £137,000 in Russian, French and German coin, and received £52,000 in sovereigns from South Africa, making a withdrawal on balance of £85,000. Arrivals: Chili, £12,000; Australia, £196,000; Straits and Japan, £5,000; South Africa, £379,000; Brazil, £12,000; West Indies, £30,000. Total, £581,000. Shipments to India, £37,000.

Silver.—India has been our best buyer during the week, and with New York a very moderate seller, the price has risen to 28d., at which

we close steady. Arrivals: Chili, £31,000; New York, £110,000; West Indies, £8,000. Total, £149,000. Shipments to India, £5,500.

Mexican Dollars.—There has not been much business in dollars during the week, a few parcels changing hands on their silver value. Arrivals: New York, £39,000; Mexico, £74,000. Total, £113,000. Shipments to Columbia, £2,500.

The following shows the imports of cereal produce into the United Kingdom during the first two weeks of the new season compared with previous seasons:

IMPORTS.

	1898.	1897.	1896.	1895.
Imports of wheat, cwt.	2,124,300	1,920,700	2,585,540	3,859,500

Commercial and Miscellaneous News.

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department.

NATIONAL BANKS ORGANIZED.

5,138.—The New England National Bank of Kansas City, Missouri. Capital, $200,000. John F. Downing, President; Albert W. Childs, Cashier.

5,139.—The Medina County National Bank of Medina, Ohio. Capital, $50,000. B. H. Wood, President; B. Hendrickson, Cashier.

5,140.—The First National Bank of Eldora, Iowa. Capital, $50,000, J. H. Bales, President; W. J. Murray, Cashier.

5,141.—The Herkimer National Bank, Herkimer, New York. Capital, $75,000. Chas. S. Millington, President; W. L. Taber, Cashier.

CORPORATE EXISTENCE OF NATIONAL BANK EXTENDED.

2,328.—The First National Bank of Homer, New York, until September 7, 1918.

IN LIQUIDATION.

1,850.—The First National Bank of Mason City, Illinois, has gone into voluntary liquidation by resolution of its stockholders dated September 5, 1898, to take effect September 15, 1898.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods Sept. 22 and for the week ending for general merchandise, Sept. 23 also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For week.	1898.	1897.	1896.	1895.
Dry goods	$1,698,401	$1,187,478	$1,825,084	$2,938,334
Gen'l mer'dise	5,005,613	5,711,214	5,496,694	6,918,570
Total	$6,704,014	6,898,722	$7,322,678	$9,756,904
Since Jan. 1				
Dry goods	$69,605,212	$99,090,352	$85,213,783	$109,912,325
Gen'l mer'dise	243,209,743	273,069,441	247,219,710	270,419,522
Total 38 weeks	$312,814,985	$372,159,793	$332,463,493	$380,331,847

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Sept. 28 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1898.	1897.	1896.	1895.
For the week	$6,955,253	$9,409,755	$8,506,717	$5,912,627
Prev. reported	343,715,031	292,013,004	263,206,127	240,080,355
Total 38 weeks	$350,670,292	$301,422,819	$276,712,844	$245,992,982

The following table shows the exports and imports of specie at the port of New York for the week ending Sept. 24 and since January 1, 1898, and for the corresponding periods in 1897 and 1896.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain		$200	$1,731,631	$38,734,044
France		8,000	358,980	14,949,869
Germany			9,500	22,122,569
West Indies	$213,917	7,728,618	9,239	2,687,574

WALL STREET, FRIDAY, SEPT. 30, 1898.—5 P. M.

The Money and Financial Situation.—The most conspicuous feature of the stock market noted last week has continued prominent this week with simply a change of base from American Sugar Refining to American Tobacco shares. Transactions in the last-named stock averaged over 125,000 shares per day during the first four days of this week, and at the same time a decline of nearly 23 points was recorded.

The Burlington & Quincy traffic report for August, announced on Thursday, and more favorable than had been expected in some quarters, was the chief factor in bringing about a change in tone, and stimulated a better market for railway shares. The investment demand for securities is limited at present and it is possible that after the Government loan has been absorbed and the money market becomes settled investors will still hold off until the fall elections shall determine what the strength of the sound money party will be in the next Congress. Fortunately there are evidences that the country is beginning to take a common sense view of this most vital question.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 6 per cent. To-day's rates on call were 3 to 4 per cent. Prime commercial paper quoted at 3¾ to 4½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £627,919, and the percentage of reserve to liabilities was 47·53, against 50·02 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 3,624,000 francs in gold and 1,500,000 francs in silver.

The New York City Clearing-House banks in their statement of Sept. 24 showed an increase in the reserve held of $1,183,900 and a surplus over the required reserve of $8,252,875, against $4,240,400 the previous week.

Foreign Exchange.—The foreign exchange market has been somewhat steadier this week, with a tendency to firmness at times. Rates are fractionally higher than our last quotations.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 81¼@4 81¾; demand, 4 84@4 84¼; cables, 4 84½@4 84¾; prime commercial, sixty days, 4 81@4 81¼; documentary commercial, sixty days, 4 80¼@4 81¼; grain for payment, 4 80¾@4 81; cotton for payment, 4 80¼@4 80½; cotton for acceptance, 4 81@4 81¼.

Posted rates of leading bankers follow:

Sept. 30.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 82 @4 82½	4 85
Prime commercial	4 81 @4 81¼	.....
Documentary commercial	4 80½@4 81¼	.....
Paris bankers' (francs)	5 23 11/16@23¾	5 22½@21 13/16
Amsterdam (guilders) bankers	39⅞@39 15/16	40 1/16@40⅛
Frankfort or Bremen (reichmarks) b'kers	94 3/16@94¼	94⅞@94 15/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 75c. per $1,000 premium; Charleston buying ⅛ discount, selling par; New Orleans, bank, 50c. premium, commercial, $1 25 discount; Chicago, 5c. per $1,000 discount; St. Louis, 25c. per $1,000 discount.

United States Bonds.—Sales of Government bonds at the Board include $3,000 4s coup., 1925, at 127 to 127⅝; $20,000 4s reg., 1925, at 127 to 127¾; $2,500 4s coup., 1907, at 112 to 112½; $613,000 3s (when issued), at 105⅛ to 105⅜, and $2,340 ditto (small bonds) at 104¾ to 105.

The following are the daily closing quotations; *for yearly range see seventh page following.*

*This is the price bid at the morning board; no sale was made.

† Dealings are in bonds "when issued" and represent transactions in the Unlisted Department of the Exchange.

State and Railroad Bonds.—Sales of State bonds at the Board include $1,000 Alabama Class "B," at 108. $6,000 Tennessee settlement 3s at 92½ to 92⅞ and $1,000 Virginia fund. debt 2-3s of 1991 at 77.

The market for railway bonds has been dull and steady, the volume of business averaging less than $1,600,000 par value per day, a large part of which was confined to a few issues. The investment demand for this class of securities is limited, and doubtless will continue so until the Government war loan is more completely absorbed and the money market settled. There have been no changes of importance for bonds on the active list, which includes Atchison, Chesapeake & Ohio, Chicago Terminal, Kansas City Pittsburg & Gulf, New York Central & Hudson, Lake Shore, Norfolk & Western, Northern Pacific, Oregon Short Line, Texas & Pacific, Union Pacific, U. P. Denver & Gulf, Wabash and Wisconsin Central issues.

Stock and Bond Sales.—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales N. Y. Stock Exch.	Week ending Sept. 30 — 1898.	1897.	Jan. 1 to Sept. 30 — 1898.	1897.

Railroad and Miscellaneous Stocks.—The stock market was irregular and generally weak, under the influence of speculative manipulation, which was most conspicuous in the industrial issues. American Tobacco received most attention, and heavy sales for both long and short account caused a steady decline to 125, a loss of 22⅝ points within the week. At the same time American Sugar Refining declined nearly 7 points, New York Air Brake 5½ points, and the entire miscellaneous list was heavy.

On Thursday Burlington & Quincy's favorable traffic report for August was given out, and the railway list, which had been largely neglected, began to receive more attention. The feature of the market to-day was continued liquidation in the Industrial list, which was especially pronounced in the United States Rubber stocks, the common falling nearly 7 and the preferred 6 per cent. The railway list was adversely affected by the liquidation in the Industrial group.

New York Stock Exchange—A Daily, Weekly and Yearly Record.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.			Jan. 1 to Latest Date.

a These figures include results on leased lines. *b* Includes earnings from ferries, etc., not given separately. *c* Includes Des Moines & Kansas City for all periods. *d* Includes operations of the Ohio, Burlington & Northern in both years. *e* Includes results on A. T. & S. Fe, Gulf Col. & S. Fe, S. Fe Pacific and Atlantic & Pacific and So. Cal. Ry. *f* Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. *g* Beginning July, earnings of Memphis Division and Middlesborough & Aiken branches are included for both years.

* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio Southwestern for both years but Ohio Valley and Chicago & Gulf Texas for 1893 only. Results on Yazoo Branch excluded after July 1 1893.

‖ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the third week of September our preliminary statement covers 71 roads, and shows 7·21 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of his kind will be found in the CHRONICLE of September 24, 1898. The next will appear in the issue of October 22, 1898.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings or the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

Gross Earnings.	Latest Gross Earnings. Week or Mo	1898.	1897.	Jan. 1 to Latest Date 1898.	1897.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of September 24, 1898. The next will appear in the issue of October 22, 1898.

ANNUAL REPORTS.

Annual Reports.—The usual index is omitted this week but that published in last week's CHRONICLE covers all reports published to Sept. 17, inclusive.

Mobile & Ohio Railroad.

(Report for the year ending June 30, 1898.)

The remarks in the annual report of Mr. W. Butler Duncan, Chairman of the Board, will be found at length on pages 694 and 695. A statement of the results for four years has been compiled for the CHRONICLE as follows:

OPERATIONS, EARNINGS AND CHARGES

	1897-98.	1896-97.	1895-96.	1894-95.

Oregon Railroad & Navigation.

(For the year ending June 30, 1898.)

The second report of this company has been published, and on pages 692 to 694 of to-day's CHRONICLE are given the preliminary remarks, which are signed by Mr. A. L. Mohler, President, and Mr. A. S. Heidelbach, Chairman of the Board. In the same place will be found the income account and balance sheet in detail.

The reorganized company's accounts date only from August 18, 1896, but for purposes of comparison the figures below for the *full* years are given, except in the income account:

OPERATIONS.

	1897-98. *Rail lines.*	1896-97. *Rail lines.*
Passengers carried	377,319	249,375
Passengers carried 1 mile	37,852,480	24,788,843
Rate per passenger per mile	2·871 cts.	3·038 cts.
Tons freight carried	1,816,520	862,400
Tons freight carried 1 mile	303,503,117	189,836,475
Rate per ton per mile	1·50 cts.	1·64 cts.

—V. 67, p. 372.

Long Island Railroad Company.

(Report for the fiscal year ending June 30, 1898.)

President W. H. Baldwin, Jr., says:

General Results.—The general results for the past fiscal year have been encouraging. The policy has been to improve the physical condition of the property, and to provide train service even beyond the present needs of the public. With twelve separate branches in operation, each demanding through express service to the terminal, the problem is difficult, but it has been met in a generous spirit and to the general satisfaction of the public. The increased passenger-train mileage has cost fully $150,000, and the indications are that it will be wise to continue the largely-increased service.

Outside of the ordinary maintenance of the property, considerable expenditures have been made in roadway, equipment and ferries. Ballast trains have been operated daily throughout the year. The dust will be entirely eliminated by another year. Hard coal is now used on 33 per cent of passenger-train mileage.

[Detailed statements show that during the year the sum of $163,790 has been charged to operating expenses on account of improvements and additions, such as $29,389 for 7 miles of sidings, $25,550 for 8½ miles of cinder ballast, $44,957 for standard couplers, Pintsch gas equipment and other improvements to rolling stock. Also that $233,845 has been charged to capital account, including $163,015 for new rolling stock and $48,364 for the Brooklyn Elevated RR connection.—ED.]

Contract with Brooklyn Elevated.—The important problem of making closer connection between Jamaica and the lower end of Manhattan Island has been helped materially by a contract with the Brooklyn Elevated RR. This contract, which runs for fifty years, provides for an inclined connection between the tracks of the Elevated and the Long Island at Chestnut Street, Brooklyn, and for through train service via such connection from Broadway Ferry, Brooklyn, to Rockaway Beach and Jamaica; through train service from New York City over the Brooklyn Bridge to Coney Island by the connection with the P. P. & C. I. RR. in South Brooklyn; an inclined connection between the Elevated and the Long Island at Flatbush Avenue Station.

The Rockaway Beach and Coney Island routes are now open and in operation and have proved successful. The Flatbush Avenue connection will be built this fall. Through rapid-transit trains will be run from Jamaica to Brooklyn Bridge without stop, and will save considerable time to passengers to and from Jamaica and points beyond. The ability to collect and distribute passengers, without transfer, over the various routes of the Brooklyn Elevated system in Brooklyn and New York affords a most suitable terminal for Long Island traffic. No additional expense is incurred by the Long Island beyond its proportion of the cost of construction of the necessary physical connections.

Extensions.—The Great Neck & Port Washington RR. from Great Neck to Port Washington, a distance of 4½ miles, was completed and opened for service on June 23, 1898. This road opens up a very beautiful section of country within 18 miles of New York, and will prove a valuable property.

The Huntington Horse RR. was purchased in April and equipped with the trolley electric system. The town of Huntington is located from two to four miles from the railroad station, and has been held back in its development on that account. The efficient service established by the electric-car connection with all trains has met the needs of the public. The same policy of building short electric roads as feeders to the steam roads will be followed wherever such roads are needed.

The surplus of the system for the last fiscal year will be used in betterments to the property.

Earnings, Etc.—The earnings, etc., compare as follows:

OPERATIONS, EARNINGS, ETC.

	1897-8.	1896-7.
Miles of road June 30	379	375

Boston & Maine Railroad.

(Report for the year ending June 30, 1898.)

President Lucius Tuttle says:

General Results.—The recent war affected unfavorably general business with resultant losses in this company's income during the last half of the year that largely offset the gains made in the first six months, and left a final increase in receipts for the year of only $235,082.

Improvements.—The work of permanently improving the physical condition of the property has been actively continued, and the surplus accruing over dividends has been mainly devoted to this purpose. Among the larger items of this expenditure, included in the year's operating expense, were:

New buildings and yards at passenger and freight stations, $132,573; new steel bridges, $43,217; thoroughly ballasting 74 miles of track $65,124; new equipment, $251,814; air signals for passenger trains, $28,103; automatic couplers and air brakes applied to engines and freight cars in compliance with United States statutes, $161,324; total, $678,208.

Nothing has been charged to capital account during the year except expenditures for real estate and separation of highway grade crossings to the amount of $170,572.

Capitalization.—This company has no floating debt. The capital stock remains unchanged. The company owns 13,214 shares of its common stock, upon which no dividends are paid. The Trustees of the Eastern RR. Co. hold 9,452 shares of this stock as collateral security for the payment of its certificates of indebtedness due in 1905, and the balance, 3,762 shares, is in your treasury.

Maintenance.—With much other information the report affords the following:

Seventy three miles of track have been thoroughly ballasted at a cost of $65,122. Eighty miles (9,493) tons of new steel rails have been laid in main tracks; 941,849 cross ties and 3,764 switch ties have been laid and 22,617 rods of fence have been built during the year.

Ten new passenger stations, four new freight houses and the new shops at Concord, N. H., have been completed.

At Newburyport, Mass., the separation of the principal highway grade crossings, etc., has been fully completed. Of the road's equipment, 6,36 freight cars (62 per cent) are now fitted with automatic couplers and 5,068 freight cars (51 per cent) with air-brakes. Of the engines, 521 (78 per cent) are now fully equipped to comply with the law. The additional $200,000 required to bring the equipment into full compliance with the law can be spread over the time to Jan. 1, 1900.

Statistics.—The statistics of operations, financial results, etc., have been compiled for the CHRONICLE as below. The balance sheet was published August 20, on page 367.

Maine Central Railroad Company.

(Report for year ending June 30, 1898.)

President Franklin A. Wilson says in part:

General Results.—The receipts for the past year were less in amount than the previous year by the sum of $128,161. From certain business in this part of New England was in an unsatisfactory condition during the greater portion of the fiscal year. The war with Spain caused all industrial enterprises upon the line of our road to contract operations. Economies in operating expenses, however, while they have not prevented the proper maintenance of the property, resulted in a decrease of operating expenses in comparison with the previous year of $174,241, giving a surplus for the year of $100,181, after payment of dividends. This is an increase in surplus over last year of $11,911, in addition to the sinking fund payments.

Refunding.—The $75 ,000 of seven per cent bonds which matured on July 1, 1898, were refunded prior to that date by an issue of 4s maturing April 1, 912, sold at 103·29.

Maintenance of Way.—Among the principal items of expenditure in this department have been: 7,87 tons new steel rails laid in main track; 2,849 tons re-laying rails laid in main and side tracks; 39 6,812 cross ties laid in main and side tracks; 9,183 switch ties laid; 254 0 miles of rock thoroughly re-ballasted.

Floating Debt.—The floating debt outstanding June 30, 1·97, was $1,188,000; June 30, 1898, was $7 1,000; a reduction of $125,000. At the date of this report the floating indebtedness is $650,000

Earnings, Etc.—The earnings, expenses and charges have been compiled for the CHRONICLE as follows:

EARNINGS AND EXPENSES.

	1897-98.	1896-97.	1895-96.	1894-95.

Fitchburg Railroad.

(Report for the year ending June 30, 1898.)

Vice-President Edmund D. Codman says in part:

General Results.—As compared with the previous year the receipts show an increase of $317,015, almost entirely in the freight traffic. Economical methods have enabled the company to handle this increased business of 12 per cent, with but a trifling addition to the cost of transportation.

Increased Dock Facilities—Grain Elevator.—Efforts to increase the company's export business by securing lines of steamers to run from Constitution Wharf to foreign ports other than London and Liverpool have been successful. The Elder Dempster Line for Bristol, England, and the Johnston Line for Hamburg are now running from the Wharf, two steamers each, monthly. The loss of the grain elevator at Charlestown by fire April 17, 1898, was a severe blow. The new permanent elevator will be of 1,000,000 bushels capacity, double that destroyed; and substantially fire proof.

Grade Crossings.—Grade crossings have been eliminated during the year at Millers Falls, at Parker Street in Gardner, at Main and Park streets in Ayer, at Concord Junction and at Main Street in Concord.

Refunding.—Under authority of the stockholders, 4 per cent 3-year bonds dated Jan. 1, 1898, to the amount of $1,450,000 have been sold at a considerable premium. On June 3, 1898 the mortgage note of the Hoosac Tunnel Dock & Elevator Co. for $500,000 had been paid and the mortgage discharged, all the company's notes payable had been paid, also $82,000 of the Cheshire RR. bonds due July 1, 1898. To pay the balance of the Cheshire RR. bonds a fund amounting to $168,000 is held, and when the transaction is complete the amount of the funded debt shown on the balance sheet will be decreased accordingly, effecting a reduction of interest to the amount of $11,0 0 annually.

Capital Expenditures.—The only expenditures charged to construction account during the year have aggregated $137,671, of which for elimination of crossings $108,839. In par-

tial offset is the premium received on the sale of the last two issues of bonds, leaving net increase of capital $43,626 14.

Earnings, Etc.—The operations, earnings, expenses and charges, and the balance sheets, have been as follows:

Central of Georgia Railway.

(Earnings for the year ending June 30, 1898.)

THE CHRONICLE has been favored with advance sheets of President Comer's report, from which extracts follow. [The earnings, etc., for the year were given on page 527].

General Results.—The passenger traffic, as also, doubtless, in some measure the freight business, was affected by the yellow fever epidemic prevailing in Louisiana and Mississippi during the past summer. The war with Spain for a time affected business quite seriously, but after the first shock was over, this was to some extent if not entirely, recovered by the carrying of troops, munitions and war supplies.

During the war, upon its urgent request, we chartered to the Government two of our steamers, the "Gate City" and the "City of Macon," to be used as transports. The war now being over, the steamers at this date are being returned to us and the line to Boston will soon be resumed.

The fruit crop in this State, the greater portion of which is grown upon the lines of this company, has been the largest ever known, and, it is expected that the industry will grow. It has already become an important one. The general crops of the State are promising. The corn crop, which is now secure, is large. There are at the moment some reports of injury to cotton, but it is hoped that the crop will at least be an average one. Upon the whole the result from operations of the properties during the past year should be satisfactory. The physical condition of the property has been much improved.

With the world at peace and confidence largely restored, it is hoped that the depression which has extended over our section of the country for several years will disappear, and that we shall soon enter upon a period of prosperity which will be shared by all industries, including the railroads.

Extension.—During the year the entire stock, $350,000, of the Bruton & Pineora Railway, a line projected and partially constructed between Bruton on the Wrightsville & Tennille RR., and Pineora on the main line of the Central, about 93 miles, was acquired for $310,127, to be paid in monthly instalments of $8,000, with interest at 5 per cent. Included in the price was an amount which it was estimated it would cost to put the road in operation between Bruton and Stillmore, 38 miles, and which was to be expended upon the property under the supervision and control of this company. Under the terms of the purchase the entire amount will be paid during the year 1901. When the road had been put in condition to operate as far as Stillmore, there was a surplus of cash on hand for construction sufficient to extend about eight miles further, but in order to reach a more desirable temporary terminus, it was determined to extend the road to a point about 20 miles east of Stillmore. The road is now being operated for construction account between Stillmore and Bruton, and the work to the temporary terminus, 58 miles from Bruton, will be finished by about Nov. 1. next. It is the intention to extend the line as soon as practicable to a connection with the main line of the Central. Besides opening up a fairly good agricultural country this line penetrates a good timber region which will be of great benefit and convenience to the company, as there is very little timber, even for cross ties, on the main line between Savannah and Atlanta and on a large portion of the other lines radiating from it.

Improvements.—The large decrease shown from income from investments, including steamships, occurs mainly because a large portion of the earnings of the steamships have been used in improving the ships and other property of the Ocean Steamship Co., especially the terminal facilities at Savannah. The improvements of this character undertaken in January, 1895, are now nearing completion, and will relieve a long felt want, especially in the economical handling of naval stores, lumber and cotton. No dividend was received during the year from the Western Railway of Alabama, a large portion of the earnings having been used to increase and improve its terminal facilities at Montgomery.

Besides the improvement to the steamship properties considerable work has been done upon the rail lines, the cost of which, except that on the Mobile Georgia & Atlantic R R, for which a bond issue of $35,000 was provided in the purchase of that property and referred to in the last annual report, has been charged to operating expenses.

Among the more important of the items are:

Two steel bridges, one at Savannah and the other at Madison, Ga; two steel turn tables; one narrow-gauge locomotive; 5,000 tons of 80 lb. steel rails to replace lighter weight worn rails; 200 box cars of 70,000 lbs. capacity, equipped with automatic couplers, air brakes and pressed steel trucks. These cars have been built in the company's shops; the filling of 5,143 feet of trestling; 11·13 miles of additional side tracks; extension of freight warehouse in Savannah; company's shops at Macon destroyed by fire have been replaced with more extensive and improved structures.

In addition to the 5,000 tons of rails before referred to, 5,500 tons of 80-lb. steel rails have been purchased and a large portion of them put in the track. They will be paid for from this year's earnings.

No Floating Debt.—The company has no floating debt.

Earnings—The operations, earnings, balance sheet, etc., were:

OPERATIONS AND FISCAL RESULTS.

	1897-98.	1896-97.
Miles operated June 30	1,524	1,524
Operations (revenue traffic only)—		
Passengers carried	1,445,348	1,349,468
Passengers carried one mile	47,524,905	44,618,929
Rate per passenger per mile	2·357 cts.	2·348 cts.
Freight (tons) carried	2,230,618	1,875,260
Freight (tons) carried one mile	320,129,615	292,180,403
Rate per ton per mile	1·165 cts.	1·205 cts.
Earnings—

GENERAL INVESTMENT NEWS

Reorganizations, Etc.—*Defaults, Reorganization Plans, Etc.*—The usual index is omitted this week, but that covering the items published to Sept. 17, inclusive, will be found in last week's issue.

American Ladies Company.—*Incorporated.*—This company has filed articles of incorporation at Trenton, N. J. The authorized capital stock is $18,000,000 and the object is to undertake the development of Cuba and Porto Rico in any or all of the leading industries—supplying electricity and gas, mining, smelting, making coke, building reservoirs, sewers and other public improvements, and owning and operating railway and steamship lines. The corporators include:

Thomas Dolan, P. A. B. Widener, W. L. Elkins, Thomas F. Ryan, Frederic P. Olcott, Anthony N. Brady, H. A. C. Smith, Henry D. Macdona, J. N. Caballos, Guillermo de Zaldo, H. P. Booth and H. G. Rankin.

American Tobacco Co.—Continental Tobacco.—*Consolidation of Plug Tobacco Combine.*—Plans, it is understood, are making progress for the consolidation of the plug tobacco business of the American Tobacco Company with those of the leading outside companies, excepting Liggett & Meyers of St. Louis, who seem unwilling to listen to any proposition of merger. The name of the new organization, it is stated, will be the Continental Tobacco, and in it the American Company will be largely interested. The New York "News Bureau" on Wednesday published the following:

"The following table shows the plants which it is proposed to consolidate in the Continental Tobacco Company, the approximate valuations placed on each for the purposes of amalgamation and the net earnings of each:

Plant.	Price.	Net Earnings.
Drummond	$3,500,000	$294,000
Finzer Bros.	1,750,000	259,000
Weisenger	500,000	55,000
Mayo	1,250,000	143,000
Scotten	1,477,000	215,000
Sorg	4,000,000	367,000
Lorillard	3,000,000	280,000
American Tobacco Co.'s plug plant, about.	10,000,000	.....
	$25,477,000	$1,613,000

"The Brown plant of St. Louis has been considered separately and bought outright. [It is said for $1,360,000.] The approximate output of the principal plug manufacturing concerns is as follows:

	Pounds.
Liggett & Myers, St. Louis, Mo.	27,000,000
The P. J. Sorg Co., Middletown, O.	13,000,000
Drummond Tobacco Co., St. Louis, Mo.	13,000,000
P. Lorillard & Co., Jersey City, N. J.	13,000,000
Finzer & Brothers, Louisville, Ky.	9,000,000
National Tobacco Works, Louisville, Ky.	7,000,000
J. G. Butler Co., St. Louis, Mo.	4,000,000
Wilson & McCally, Middletown, O.	3,000,000
Buchanan & Lyall, New York, N. Y.	2,000,000
Weisinger & Bates, Louisville, Ky.	2,000,000
American Tobacco Company	30,000,000
Total	123,000,000

—Regarding the above compilation, it may be said that much uncertainty exists regarding the state of the negotiations and the prices which it is proposed to pay for control of the several plants. For instance, it is asserted by some that the acquisition of the Drummond Company will cost not less than $10,000,000, all in cash, and not $3,500,000 as above suggested. Liggett & Myers last week made a cut of 10 per cent in the prices on all its brands.—V. 66, p. 1235, 810.

American Type Founders' Co.—*First Dividend Since Reorganization.*—The company has declared a dividend of $1 per share on the $3,750,000 capital stock. This is the first dividend paid since the company was reorganized, two years ago, at which time its $5,000,000 common and $1,000,000 preferred stock was retired by the present issue, which is all of one class. As part of the readjustment an issue of $1,000,000 debenture 6s was authorized and in part issued.—V. 65, p. 822.

Atchison Topeka & Santa Fe Ry.—*Explanation as to Earnings.*—Chairman Aldace F. Walker says in relation to the falling off in the August earnings: "The decrease in the gross earnings compared with August, 1897—about $210,000—is stated by the operating department to be fully accounted for by the fact that wheat is not coming forward from points on the Atchison lines. Last year the movement of wheat on our road in August was from 500 to 600 cars a day; this year it was less than 100 cars a day. The wheat is all there, however, and a larger crop even than in 1897. The farmers are simply holding it back for better prices. The increase in operating expenses is attributed to the rushing of track-laying and bridge construction, which is being pushed to completion, as was stated in the annual report. Taking the figures for a single month, they show a sharp falling off in our earnings, but when the figures for the entire year are in, the results will be satisfactory."—V. 67, p. 631, 635, 641.

Baltimore & Ohio RR.—*Final Instalment Called for Payment on or before Oct. 10.*—The reorganization syndicate has called for payment the final instalment payable by the depositing stockholders, viz.; being 25 per cent of the cash payment of $2 per share of first preferred stock and $20 per share of second preferred stock and common stock. This instalment, being $0 50 per share of first preferred and $5 per share of second preferred stock and common stock deposited, must be paid at the Mercantile Trust Co., No. 120 Broadway, New York City or its London agency, the London and Westminster Bank, Limited, 40 Lothbury, London, on or before Oct. 10th, 1898. Failure to pay such instalment on or before such date will subject the deposited stock and any cash paid thereon to forfeiture to the syndicate as provided in the reorganization agreement.

Foreclosure under Mortgages of 1878 and 1874.—Suits to foreclose the mortgages of 1872 and 1874 were instituted last week, Saturday, in the United States Circuit Court. These mortgages have a lien on the railroad prior to that of the consolidated mortgage of 1887, to foreclose which suit was instituted last Monday. All three suits are in furtherance of the plan of reorganization, and are based on the default in interest payments.

Reorganization of Branch Lines.—The plan issued this week for the reorganization of the leading branch lines, aside from the Pittsburg & Western (to be dealt with later), is given under the heading Central Ohio, and with it a tabulated statement showing the position of the Baltimore & Ohio as it will exist upon completion of the readjustment.—V. 67, p. 632.

Brooklyn Rapid Transit.—Nassau Electric RR.—Brooklyn Elevated Roads.—*Mr. Johnson's Statement as to Possible Consolidation.*—Albert L. Johnson, President of the Nassau Railroad Company, was quoted this week as saying:

The consolidation of the Nassau Company with the Brooklyn Heights road will probably be accomplished within two weeks. P. H. Flynn, and my brother and I, own one-third of the stock of the Nassau and the Wilsons own nearly two-thirds. I shall either sell my stock, or I shall retain it and resign as President of the Nassau. I believe the motive behind this deal is the hope to consolidate all the railroad interests, both surface and elevated. If such a deal were carried out, then the surface cars could carry all the short distance riders, while the elevated could run express trains from terminal to terminal, making but one or two intermediate stops. Passengers under such a system could be transferred from the surface to the elevated, or vice versa, and by the increased speed of the elevated trains Brooklyn would have real rapid transit. I believe that eventually we shall come to that, as the interests of the companies and the public both demand it."—V. 67, p. 426, 633.

Bruton & Pineora Ry.—*Construction.*—In the annual report of the Central of Georgia Ry., cited on another page, full particulars are given respecting the Bruton & Pineora Ry. and its extension.

California Eastern RR.—*Bonds for Extension*—The San Francisco "Examiner" says the company has placed $694,000 5 per cent bonds in London for the purpose of extending its line 47 miles to Calivana, Nev. The California Eastern was successor in 1896 of the Nevada Southern and its road runs from Blake, a station on the Santa Fe, near the Needles, north to Manvel, a distance of 27 miles.—V. 63, p. 838.

California Northwestern Ry.—San Francisco & North Pacific.—*Lease.*—The "San Francisco Chronicle" of Sept. 21 said: "The San Francisco & North Pacific Ry. Co. yesterday leased its line for twenty years to the California Northwestern Ry. Co., the consideration being the net profits of the road. The California Northwestern is a new company, the purpose of which is to build a line connecting with the San Francisco & North Pacific at some point not yet decided upon, the object being to tap the timber belt of Mendocino County at a point not yet decided upon. The terminus of the road is still in doubt, four possible routes being under discussion. The officers of the new company are all well-known business men. The directors are: G. Palache, President; George W. Prescott, Vice-President; George A. Pope, F. A. Wickersham and J. H. Isham." It was recently reported the San Francisco company would guarantee $1,500,000 bonds of the new corporation.—V. 67, p. 870.

Cambria Iron Co.—Cambria Steel Co.—*Meeting Oct. 26 to Act on Lease.*—The stockholders of the Cambria Iron Co. will meet Oct. 26 "for the purpose of voting for or against a lease of all the property and franchises of the Cambria Iron Co. to a corporation to be organized under the General Corporation Laws of the State of Pennsylvania, and to be known as the Cambria Steel Co., upon a guaranteed rental of 4 per cent per annum upon the capital stock of the Cambria Iron Co., payable to the stockholders free from all taxes or other deductions."

A circular to the stockholders is quoted as follows:

The company needs an annual expenditure of $1,000,000 for new property, therefore the new corporation, with $16,000,000 capital, has been formed, against the $8,000,000 of the present company. A 6 per cent dividend in scrip convertible into stock of the Cambria Iron Co. prior to March 1, 1899, will be declared so as to participate in the guaranteed dividend of April 1, 1899. Cambria Iron stockholders may buy two shares of the Steel Co. for each share of the Iron Co. by paying $1.50 per share about December 1, 1898; a second instalment of $1.50 will be payable June 1, 1899, and thereafter for five years $3 per annum, payable semi-annually. This will provide the needed capital. An underwriting syndicate has agreed to take the entire share capital of the Steel Co.—V. 67, p. 633.

Central Ohio RR.—Sandusky Mansfield & Newark RR.—Columbus & Cincinnati Midland RR.—Newark Somerset & Straitsville RR.—Pittsburg Junction RR.—Baltimore & Ohio RR.—*Reorganization Plan.*—The advisory committee of the Baltimore & Ohio Railroad Reorganization has formulated a plan for the reorganization or consolidation of the above named railroad companies. This plan provides that the Baltimore & Ohio, as reorganized, shall acquire the properties named, issuing in exchange for their existing securities and to provide new capital for enlargement, betterment and extension of said properties, its bonds, to be known as Baltimore & Ohio, Pittsburg Junction & Middle Division first mortgage 3½ per cent gold bonds, and also the surplus of its new preferred stock, as follows:

B. & O., Pittsburg Junction & Middle Division 3½ per cent gold bonds to be due 1925 and to bear interest from Nov. 1, 1898. The right will be reserved to issue $5,000,000 additional of these bonds at the rate of not exceeding $1,000,000 per year for the first two years and thereafter at the rate of not exceeding $500,000 per year, for the enlargement, betterment or extension of the properties covered by the Pittsburg Junction & Middle Division first mortgage, or for additions thereto. The mortgage is expected to be ultimately a first lien upon the railroads of the Central Ohio system and Pittsburg Junction RR. Co. above named, or the below-mentioned securities representing the same. Total present authorized issue to be $15,000,000

Of which in partial exchange for existing bonds	10,569,000
To be sold to a syndicate for cash requirements	4,000,000

The proceeds to be applied as follows:

Unpaid and accrued interest on Sandusky Mansfield & Newark RR. 7 per cent bonds, about	$250,000
Extensions, improvements, equipment, etc., about	3,000,000
Syndicate compensation and expenses, about	550,000
Total	$3,800,000
Balance for contingencies	431,000

New B. & O. preferred stock, to be issued in exchange for existing bonds and stocks. [The reorganization managers, however, intend to recommend to the B & O. Company to restore the reserve of new preferred stock thus appropriated] 5,888,850

A syndicate has been formed by Messrs. Speyer & Co. and Kuhn, Loeb & Co. of New York, and Messrs. Speyer Brothers of London, to purchase $4,000,000 of the new first mortgage 3½ per cent gold bonds.

Exchange of Securities.—The terms of exchange are:

Each $1,000 Bond and $100 of stock of existing companies will receive:

	Amount Outstand'g.	New 3½ p. c. Bonds.	B. & O. Pref. Stock.
Central Ohio 4½ per cent. bonds	$2,500,000	$1,170	....
" common and pref. stock	2,483,05[illegible]	....	$100
San. Man. & New 7 p. c bonds	2,30[illegible],000	1,140	....
" " stock	842,800	....	100
Col. & Cin. Mid. 4½ p. c. bonds	2,000,000	700	200
" " pref. stock	1,000,000	....	30
Newark Som. & Straits 5 p. c. bonds	800,000	500	600
Pitts. Junc. 1st mort. 6 p c. bonds	1,410,000	1,300	....
" 2d mort. 5 p. c bonds	300,000	1,100	....
" " pref. stock	480,000	100	60
" " common stock	1,4[illegible]0,000	....	75
Pitts. Junc. Ter. Co. 5 p. c. bonds	500,000	1,080	....

NOTE.—Some of the stocks above mentioned are issued in $50 shares but the amount of new securities offered in exchange is here given in every case per $100 stock.

The right is reserved to consolidate the lines included in the Central Ohio system into a new corporation. Deposit of securities under this plan must be made with the Mercantile Trust Company on and after Oct. 7 next.

Coupon Payment.—Upon the completion of the reorganization holders of certificates of deposit for Sandusky Mansfield & Newark RR. first mortgage 7s will be paid in cash the matured and unpaid coupons on said bonds. No cash payment will be made on account of the unpaid coupons on any other bonds deposited, but on completion of the reorganization there will be paid in cash upon all deposited bonds interest at the respective rates provided in the old bonds up to Nov. 1, 1898, from the respective coupon dates last preceding.

Position of B. & O.—The plan permits an approximation of the position of the Baltimore & Ohio as reorganized, including Central Ohio system and Pittsburg Junction Co.:

Net income of system for year ended June 30, 1898, after deducting $251,000 for decrease in miscellaneous income on securities sold	$3,296,433

Fixed Charges.

$70,000,000 prior lien 3½s	$2,450,000	Rentals (est.) including B. & L. Line	$300,000
$15,000,000 Pitts Junc. & Middle div. 3½s	525,000	Taxes	*544,794
$50,000,000 1st Mt. 4s.	2,000,000	Terminal payments	202,000
		Ground rents and int.	75,000
Total charges	$6,290,794		
Surplus after charges	$1,999,639		

*In case foreclosure shall be found necessary, the exemption from taxation under the charter of the old company may be lost and the amount of annual taxes be increased

The combined earnings of Central Ohio and Pittsburg Junction after deducting taxes are estimated at $753,775 and the new interest charges at $525,000.—V. 67, p. 427; V. 66, p. 1236; V. 63, p. 29; V. 67, p. 632.

Central Vermont RR.—*Reorganization Plan Agreed Upon.*—The opposing interests have come to an agreement and the road will be reorganized with the following securities: $12,000,000 first mortgage 4s, due 1919, and $3,000,000 stock. The majority of the latter will be owned by the Grand Trunk, which will guarantee the interest on the bonds under a traffic interchange as proposed in the former plan. The old $7,000,000 first mortgage bonds will receive par in new bonds and cash for interest at 4 per cent from February 1, 1898, and 8 per cent in stock for prior unpaid interest. Under the former plan the old first bonds were to receive 85 per cent in new first 4s and 15 per cent in second mortgage "A" bonds, and for interest to February, 1898, second mortgage "B" bonds at par. There will be $4,000,000 of the bonds used to acquire branch lines and for other purposes, leaving $1,000,000 of the bonds in the treasury.—V. 67, p. 273.

Chicago Indianapolis & Louisville Ry.—Indiana Stone RR.—*Guaranties.*—The annual report of the Chicago Indianapolis & Louisville mentions the company's guaranty of $250,000 bonds of the Perry Mathews Buskirk Stone RR. and the guaranty authorized last week of the bonds of the Indiana Stone RR.—V. 67, p. 319.

Chicago & Milwaukee Electric Ry.—The company has made a mortgage to secure $1,000,000 5 per cent gold bonds, maturing in twenty years. The Illinois Trust & Savings Bank is the trustee. Of the authorized issue, $100,000 are to be certified and delivered at once, while the remaining $300,000 can be issued only to cover 75 per cent of the cost of future extensions and improvements. The line has been in operation from Waukegan to Highland Park, a distance of about eighteen miles, since July 1, and it is on account of this portion of the system, including private right of way, power house and equipment, that the $400,000 bonds are issued. It is stated that over $500,000 has already been expended."—Milwaukee "Evening Wisconsin."—V. 63, p. 900.

Commonwealth Electric.—*Bonds Called.*—The $50,000 bonds issued by the Hyde Park Thomson Houston Co. have been called and will be paid at par and accrued interest Oct. 24 next. These bonds are part of the $150,000 of underlying securities on account of which a like amount of new Commonwealth Electric bonds was reserved. The remaining $100,000 underlying bonds were issued by the Hyde Park Electric Light & Power Co. These latter bonds, it is understood, will soon be retired.—V. 67, p. 482.

Des Moines Water Works—Des Moines Water Power.—*Sale of Water Works Defeated.*—On September 5, 1893, the voters of Des Moines defeated the proposition to purchase the plant of the the Des Moines Water Works Co. for $850,000. The vote was 3,760 for to 3,929 against. By a slip of the pen this item was made to appear last week under the heading "Des Moines Water Power Co.," which is, as everyone knows, and we as well as any, an electric-lighting enterprise quite distinct from the water company.—V. 67, p. 633.

Detroit & Lima Northern Ry.—*Co-Receiver.*—J. S. Bache, of J. S. Bache & Co., the New York bankers, and a director of the road, has been appointed co-receiver of the Detroit & Lima Northern.—V. 67, p. 539.

Edison Electric Illuminating Co. of Brooklyn.—*Extra Dividend.*—The company has declared an extra dividend to the amount of the profit and loss surplus, together with the insurance reserve, less all expenses and liabilities incurred prior to June 30 and all expenses incident to the proposed $10,000,000 bond issue and purchase of the Municipal Company. The additional authorized stock will not participate in the dividend. The circular announcing the proposed sale of control to the Kings County Co. (V. 67, p. 432) stated the extra dividend would be 2½ to 3 per cent.—V. 67, p. 633.

Erie & Pittsburg RR.—*Listed.*—The New York Stock Exchange has listed $1,368,000 general mortgage 3½ per cent gold guaranteed coupon bonds of 1940, embracing Series B, $2,250,000, and Series C, $1,118,000. It has also empowered the Committee to list $390,000 additional bonds when officially notified that said bonds have been issued in exchange for existing bonds of the company. The present issue is made to refund old indebtedness and to cover a payment to lessee on account of betterments as provided in the lease, $138,000. Of the bonds as shown in our INVESTORS' SUPPLEMENT, all the loans, including the $1,000,000 general mortgage 4s, have been refunded to date into 3½ per cent bonds with the exception of $390,000 equipment 7s due Oct. 1, 1900.—V. 66, p. 1089.

Erie Telegraph & Telephone Co.—Western Electric Telephone.—*Purchase of Independent Telephone System.*—The Erie Telephone Co. has purchased, through the medium of a subsidiary company (the Northwestern Telephone Exchange Co.), the Union Electric Co., whose system, embracing about 900 miles of telephone line, parallels to a greater or less extent the system of the Erie Company in the Northwest. The capital stock of the Union Company is $100,000, and the purchase price is said to have been $50,000. In the CHRONICLE July 16, on page 128, was an account of the 3,000 miles of telephone lines controlled by the Western Electric Telephone Co. in Minnesota, Iowa and North and South Dakota. The present purchase is of one of these lines, and the only one, it is said, that parallels the Erie Co. At the same time the Erie is understood to have entered into an operating arrangement with respect to the remainder of the 3,000 miles, all of which are to be equipped with Bell instruments and to become a part of the extensive system controlled by the Erie Telephone Co.—V. 67, p. 28, 128.

Federal Steel.—*Income, Charges and Surplus.*—An estimate of the annual income and charges for the new Federal Steel Co. shows:

Net annual income after deducting taxes, at least		$6,000,000
Fixed Charges.		
Illinois Steel bonds	$660,000	
Elgin Joliet & Eastern bonds	370,000	
Duluth & Iron Range bonds	397,100	
		$1,427,100
Surplus over charges		$4,572,900
Six per cent dividend on $52,000,000 pref. stock		3,120,000
		$1,452,900

An official statement of the financial condition of the new company will be issued in the course of the next few days.

Deposits.—The deposits of Illinois Steel and Minnesota Iron stocks under the plan for consolidation now approach 90 per cent of the total outstanding issues. The time for making deposits closes to-day.—V. 67, p. 633.

Kings County Elevated Ry.—*Quarterly.*—Earnings for the quarter ending June 30 have been reported:

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Bal., sur. or def.
1898	$159,366	$15,395	$538	$9,139	sur. $6,792
1897	188,054	40,015,	5,380	99,978	def. 54,583

Loans and bills payable, $215,500, against $217,500 on June 30, 1897.—V. 67, p. 125.

Knickerbocker Ice Co. of Chicago.—*Purchase.*—Walston H. Brown & Co. of 40 Wall Street has arranged the purchase and recapitalization of this Chicago property, which is a recent consolidation of Chicago ice companies entirely distinct from the Maine companies, of whose union there was lately some talk in the daily papers. The company will henceforth have $1,000,000 of common and $3,000,000 of 6 per cent cumulative preferred capital stock; also $2,000,000 first mortgage 5 per cent thirty year gold bonds of an authorized issue of $2,500,000.

Regarding the company after its absorption of other companies in the spring of 1898, a Chicago publication says:

Stock $3,000,000. Bonds, first mortgage 5 per cent thirty year gold, outstanding $2,000,000, in the treasury $500,000. This company is one of the oldest in Chicago, but its capitalization was raised from $500,000 in the spring of 1898 for the purpose of taking in a number of other ice companies. The combination now consists of 28 companies, including all the important ones except the Consumers Ice Co., which produces artificial ice. The securities of the concern were taken entirely by the parties to the combination. The property consists of about 125 ice plants in Chicago, and at other points, large areas of land, a season's supply of ice and a full equipment of horses, wagons, cars, switch tracks, etc. The company also does a large business in sand.—V. 66, p. 900.

Louisville (Ky.) City Ry.—*Dividend.*—The directors have declared payable the semi annual dividend of 2½ per cent on the preferred stock, but owing, it is said, to tax suits, the dividend on the common stock was passed.—V. 66, p. 857.

Madison Square Garden.—*Coupon Payment.*—The interest due May 1, 1898, on the first mortgage bonds will be paid with interest thereon at the Mercantile Trust Co., Oct. 1, 1898. The equivalent of each coupon will be $27 62½.—V. 66, p. 472.

Metropolitan Street Ry. of New York City.—*Debenture Certificates Called.*—All the $6,000,000 debenture certificates issued last year have been called for redemption, and will be paid at the office of the company, No. 621 Broadway, New York, on or before Oct. 15, 1898.—V. 67, p. 577.

Newburyport (Mass.) & Amesbury RR.—*Receiver.*—Judge Colt of the United States Circuit Court yesterday appointed W. P. Clark of Peabody receiver of the company on application of the Mechanics Savings Bank of Providence, which holds $350,000 bonds. The total issue of bonds is $350,000 and their interest was defaulted September 1.—V. 62, p. 457.

New England Loan & Trust Co.—*Receiver.*—The United States Circuit Court in this city on Monday appointed Otto T. Bannard receiver of the New England Loan & Trust Co. of Des Moines, Ia., upon application of the Real Estate Trust Co., of Philadelphia, and Savillion S. Allen, of St. Albans, Vt. The company was organized in 1882 under the laws of Iowa and issued its debentures upon the deposit of Western and Southern farm mortgages, almost entirely, it is said, on property in Iowa, Missouri, Kansas and Texas. Its assets having become gradually tied up, and many of the mortgages hypothecated being in default, the company was unable to pay its October obligations and a receivership was therefore inevitable.

The company has outstanding debentures as follows:

Trustee—	Issue dated.	Debentures outstand'g.	Mortgages as collateral.
Farmers' Loan & Trust Co.	1881	$1,291,000	$1,935,919
Real Estate Trust Co. of Philadelphia	1891	1,568,900	1,856,310
Farmers' Loan & Trust Co.	1891	154,521	158,757
Real Estate Trust Co. of Philadelphia	1893	171,950	209,813
Farmers' Loan & Trust Co. and Scottish Provident Inst. of Edinburgh	1896	368,750	401,142
Farmers' Loan & Trust Co	1897	550,000	582,450
Atlantic Trust Co.	1897	89,000	90,590
New England Co. and L. I. Cassidy	1897	27,050	32,150
Total at present outstanding		$5,007,471	$5,192,501

Note.—The loans secured from banks amount to $145,000, secured by $187,275 collateral, and of the $145,000 all but $10,000 is due on demand. Other debts, it is asserted, amount to $163,767. It is asserted that the company's equities above its secured loans are $188,500, that it has mortgages in its possession amounting to $36,307 and perhaps $100,000 due from branch offices. Besides these it has overdue interest coupons for $35,000 and certificates for $13,023, which it has paid for taxes on mortgaged property.—New York "Sun."

The statement of June 30, 1898, was as follows:

ASSETS.		LIABILITIES.	
Loans upon real estate	$5,755,191	Capital fully paid	$875,000
Bills receivable	5,713	Undivided profits	109,715
Debentures owned	57,200	Debentures outstanding	5,039,188
Foreclosure account	19,575	Deposits for investment	208,181
Stocks and bonds	1,740	Due to banks and bankers	65,000
Interest due	81,716	Balances due borrowers	31,905
Furniture and fixtures	7,201	Treasurer's checks	1,102
Real estate	211,486		
Due from branch offices	12,670		
Cash	144,581		
Total	$6,316,612	Total	$6,316,612

"The item "accrued interest," now over $50,000, which appeared in the January statement, is here omitted.

The "New York Sun" on Tuesday morning said:

"The real difficulties of the company are concealed in this statement under the items "Loans upon real estate, $5,755,190," and "Real Estate, $211,486." As a matter of fact, according to the papers in court, a large part of the real estate held by the company was also subject to mortgages also held by it, and these amount to not less than $800,000, and a large part of this, $1,110,000 worth of property, has been virtually abandoned by its former owners, and the company has to carry it. The immediate need of a receiver was because, besides the demand loans and open debt accounts, there will fall due on Oct. 1, $86,919 12; Nov. 1, $17,107 15; Dec. 1, $58,240 30, and Jan. 1, $110,541 87 of principal and interest on debenture bonds, and there is not enough money in hand to meet the payments."

Yesterday President Daniel O. Eshbaugh had not been seen at the company's office, No. 34 Nassau Street, since Monday morning, and some anxiety was felt for his safety.

Notice to Debenture Holders.—Holders of debentures issued by the company are requested to communicate with the Farmers' Loan & Trust Co., 16 to 22 William St., New York.

New Orleans Traction Co.—*Reorganization Plan.*—A dispatch from Louisville says that the Louisville committee appointed to arrange for the reorganization of the New Orleans Traction Company announces that all arrangements practically have been completed. The two systems operated will be combined and charges reduced to $100,000 a year. The stockholders will raise $300,000 to pay off the floating debts, getting preferred stock in return.—V. 67, p. 126.

New York & Harlem RR.—*Suit.*—Thomas Hitchcock, holder of $60,000 stock, has brought suit against the directors to restrain them from entering into the proposed supplemental contract reducing from $120,000 to $200,000 the amount payable to the company yearly on account of the money saved through the refunding of the 7 per cent bonds. Mr. Hitchcock issued a circular on Sept. 23 to Harlem stockholders appealing for votes against the proposition to be laid before the meeting on Oct. 5.—V. 67, p. 483.

Northern Pacific Ry.—*Deficiency Judgment.*—At Milwaukee, on Sept. 26, Special Master Carey filed a decision in the United States Court finding that there is still due the company on account of the bonds of the old company, which were only in part satisfied from the proceeds of foreclosure sale, the sum of $86,911 60, with interest from Sept. 1. The only tangible assets not embraced in the foreclosure sale are the lands east of the Missouri River that were supposed to be subject to the lien of the preferred stock. The new company acquired all except about 10,000 of the preferred shares of the old company and sought this deficiency judgment to establish its claim to the land in case the court should decide adversely, as it has, to the claim of the preferred stock to a lien on the same—in other words, to give the company "two strings to its bow" in its measures to procure possession of the land to which it is entitled.

Lien of Old Preferred Stock.—In our editorial columns will be found an article regarding the recent decision holding that the preferred stock of the old company does not possess the lien that has been claimed for it upon the above lands east of the Missouri River.

Notice as to Option to Convert First Mortgage 6s.—The company gives notice to holders of the Northern Pacific general first mortgage 6 per cent gold bonds that they may now convert the same into prior lien 4 per cent bonds on the basis of $1,150 prior lien bonds for each $1,000 general first mortgage bonds. See notice in another column.—V. 67, p. 631.

Oregon RR. & Navigation.—*Bonds Listed.*—An additional $203,000 consol. 4s was listed recently, making the total amount listed $18,733,000. The additional bonds were issued to retire first mortgage 6s, the amount of which has been reduced to $1,427,000.—V. 67, p. 372.

Oshkosh Electric Light & Power Co., Oshkosh, Wis.—*Bonds Called.*—Bonds of 1891, Nos. 20 and 188, have been called, and will be paid at $520 per bond and accrued interest on Oct. 1, 1898, at the office of the Massachusetts Loan & Trust Co., Trustee, Boston.

Pacific Coast Co.—*Circular.*—A circular from T. Jefferson Coolidge, Jr., of the Oregon Improvement Reorganization Committee, in solicitation of proxies to Grant B. Schley, Watson B. Dickerman and T. Jefferson Coolidge, Jr., says:

The business of the company has prospered during the past year, and as this is largely due to friendly relations maintained with the transcontinental lines, it is very desirable that these relations should be maintained and made more close. It will be the effort of your proxies to select a capable management.—V. 67, p. 635.

People's Gas Light & Coke Co. of Chicago—Indiana Natural Gas Co.—Manhattan Oil Co.—*Agreement.*—The substance of the agreement signed in New York last Friday between the People's Gas Co. and the Indiana Natural Gas Co. is reported as follows:

The People's Gas Co. is to live up to the terms of its original contract and during the next three years is to expend $1,500,000 in exploiting natural gas in Chicago. This is the total amount which it is required to expend in the exploitation of natural gas during the remaining twenty years of the contract. The expenditure is to be made in a manner to be agreed upon between the two companies, and in case of disagreement by arbitration; so that the People's Co. is protected from any injury to its business arising from the exploitation of natural gas. The Indiana Natural Gas Co. guarantees that the People's Co. will receive as its share from new business expected to be acquired through the foregoing expenditure not less than 7 per cent upon all moneys expended over and above all additional distribution expenses which may be incurred by the People's Co. This guaranty is well secured and extends over the entire period of the contract. Then, in addition to the foregoing, an important concession, it is said, is made by the Natural Gas Co., the details of which will later on be submitted to stockholders of the People's Co. It is understood there is no purchase of the capital stock of the Indiana Co. The contract was made in 1894 for twenty-five years.

Purchase of Manhattan Oil Co.—The Peoples Company, it is understood, has purchased control of the Manhattan Oil Co., an enterprise in which Messrs. Brady and Benedict were largely interested. The acquisition gives the Peoples Company an independent supply of oil for use in the manufacture of its gas.—V. 67, p. 635.

Rochester Railway.—*Quarterly.*—Earnings for the quarter ending June 30 have been:

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Bal., sur or def.
1898	$189,151	$64,936	$2,380	$67,874	sur. $3,470
1897	184,181	64,154	1,775	64,763	def. 1,834

Loans and bills payable, $255,160, against $234,803 on June 30, 1897.—V. 66, p. 901.

Safety Third Rail & Electric Co.—*Reorganized Company.*—This company has been incorporated under the laws of New York to control the patents formerly owned by the Safety Third Rail Electric Co. The officers and directors are:

Officers—Emerson McMillin, President; William M. Keepers, Vice-President; David F. Halsted, Secretary and Auditor; C. T. Scoville, Treasurer. Directors—Emerson McMillin, David F Halsted, Henry B. Wilson, Louis Steckler, R. H. Beach, J McLeod Murphy, C. T. Scoville, W. F. Douthirt, William M. Keepers.

The capital stock is $1,0 0,000, half of which is preferred and half common. The offices will be at No. 5 Beekman Street, New York City. This reorganization brings the control of the patents of the Safety Third Rail Electric Co. into the hands of Emerson McMillin & Co., the well known Wall Street bankers and capitalists.

Snoqualmie Falls Electric Power.—*Long Distance Power Plant.*—The Westinghouse Electric & Manufacturing Co. of Pittsburg was recently awarded a contract for the complete equipment of the power plant at Snoqualmie Falls, Wash. The plant will be 45 miles from Tacoma and 31 miles from Seattle, and the current is to be transmitted to both of these cities. The contract includes four three-phase rotary armature generators having a normal aggregate capacity of 6,000 k. w., these to be directly connected to water wheels; also, the other necessary accessories both at the Falls and at the sub stations in Seattle and Tacoma. This undertaking is the personal enterprise of Mr. Wm. T. Baker, of Chicago, in whose name the contracts are being made. Mr. Baker is the former President of the Chicago Board of Trade, and it is his intention when the plant is completed to convey it to the Snoqualmie Falls Electric Power Co., a company to be organized with capital stock, but no bonds or debt.

South Side Elevated RR.—Chicago City Ry.—*Negotiations.*—The Chicago "Economist" on September 24 said:

Negotiations looking to the acquisition of the South Side Elevated RR. by the City Railway have been resumed, with a very fair promise of success. The deal, however, is far from being consummated. City Railway directors have not had a meeting for months. They will meet next week, however. The most that can be said with certainty at this time is that some men who are interested in City Railway have talked of a lease of the Elevated Road on a basis of guaranteeing 4 per cent dividends on South Side Elevated stock. This proposition is acceptable to some holders of Elevated shares, but nothing like a majority of the stock has given assent to it. On the other hand, some holders say the basis should be 4½ per cent, while others, among them one or two large holders, even talk of 5 per cent. It may also be said authoritatively that some important interests in City Railway stock will oppose any proposition to pay more than 4 per cent. Some Elevated stockholders think that the shares should be converted into City Railway bonds, believing that a bonded security would have a higher market value than a guaranteed stock.—V. 6 , p. 63).

Staten Island Rapid Transit RR.—*Default on First Mortgage.*—The receiver has determined to default to day on the coupons of the first mortgage loan. In view of this fact Dick Brothers & Co. have written a strong letter to Receiver Josiah Van Smith, remonstrating against default on a loan whose interest is so much more than earned. Their letter follows:

Dear Sir—We beg to confirm our telegram to you as follows:

"Referring to the rumor of default on Staten Island Rapid Transit first 6s, as the official figures show, your net earnings are over three times the interest; if you are not in funds to pay this interest we will be glad to purchase receivers' certificates to the amount of $30,000, to be issued in legal shape satisfactory to our counsel. Representing a considerable interest in the mortgage we will resist in the courts any attempt to divert earnings toward other payments than this first mortgage interest. Kindly wire reply."

According to the accounts submitted to us the Staten Island Rapid Co. for last year, after paying taxes and rentals, earned net $222,531, being a surplus of $162,531 over and above the first mortgage interest. With such a state of affairs it would seem to us as if a default was unnecessary and could only result in demoralization among investors, which we do not suppose you as an officer of the company, acting in the interest of conserving the property, would approve of. We therefore offer you our services to place you in funds, as stated by the above telegram

We write this letter as we have placed a large number of these bonds among our clients, whose interests we propose to protect to the best of our ability. Hoping for a prompt reply, we remain.—(Signed)
—V. 67, p. 484.

State Telephone Co. of New Jersey.—*$1,000,000 Mortgage Filed.*—The company has filed a mortgage for $1,000,000 to the Fidelity Trust Co. of Newark, as trustee, to cover all the lines of the company in the State of New Jersey. The bonds authorized are $500 fifteen-year gold 5 per cents, dated Aug. 1, 1898, interest F. & A. W. I. Taylor is President and W. C. Cox Secretary. The company's office is in Jersey City.

Terre Haute & Logansport RR.—*Foreclosure Sale Oct 20.*—The foreclosure sale under the $1,000,000 mortgage of 1883 is advertised for Oct. 20 at Crawfordsville, Ind. The sale will be subject to the undisturbed lien of the $500,0 0 first mortgage 6s of 1879. The upset price is $750,000.—V. 66, p. 331.

Third Avenue RR. of New York City.—*New Stock.*—The company gives notice that its transfer books will close Oct. 4 for the purpose of ascertaining the stockholders who will be entitled to subscribe to the second issue of the increased capital stock, such issue amounting to 21,000 shares ($2,00 1,00), pursuant to resolution of the board of directors adopted Sept. 19. The company in 1896 authorized an increase of $3,000,000 in the capital stock. Of the new shares the first issue, $1,000 000, was made in Septemb r of that year and now the remainder is to be sold, making the total capital stock $12,0 0,0 0. The work of installing the underground trolley system it is understood will begin shortly. There was published late yesterday afternoon the outline of a plan said to be proposed for the merger of the company and its subsidiary roads into a new corporation with greatly enlarged capital.—V. 67, p. 635

Union Pacific Denver & Gulf Ry.—*Plan Ready Next Week.*—The reorganization plan will be issued on Monday or Tuesday in the coming week. The plan will include the Denver Texas & Fort Worth, the Denver Texas & Gulf and the Denver Leadville & Gunnison. The new securities are to be first mortgage 4s, first and second preferred and common stock. The assessment on the common stock will be ten per cent.—V. 67, p. 579

Union Traction Co. of Philadelphia—*New President.*—On Monday John Lowber Welsh withdrew both from the Presidency and from the board of directors. George W. Elkins, a son of William L. Elkins, was chosen his successor on the board while John B Parsons was made President and George D. Widener Vice-President. Mr. Parsons has been General Manager of the company since 1896, coming from Chicago to assume the position He began his street railroad career in 1870 as a conductor.

Mr. Welsh stated that his resignation was due entirely to the reason that he desired a rest from his responsible duties connected with the Traction Company. He added:

"I have been President of the company since its organization, and as the company is now in excellent condition, with its future prosperity assured, I believe I have earned the privilege of retirement. For three years I have labored in it strikingly in the interests of the company, and now that money is coming into the treasury and everything is in favorable condition, it offers me a good opportunity to retire and take a rest from the duties of the office."—V. 67, p. 635.

United States Rubber.—*Control of Boston Shoe Co.*—According to Boston papers President Converse, of the Boston Shoe Co., has made an official announcement that terms have been arranged whereby the United States Rubber Co. will acquire control of a majority of the $5 000.000 capital stock of the Boston Co. Mr. Converse, it is said, is still a large holder, and will remain at the head of the concern. Some of the current talk regarding the transaction was given last week.—Vol, 66, p. 647.

Washington Contral Ry.—*Listed.*—The New York Stock Exchange has listed the company's $1,538,000 first mortgage 4 per cent gold coupon bonds of 1948, issued under the plan of some months ago. -V. 67, p. 127.

Westchester Gas & Electric—Port Chester Electric Lighting.—*Purchased.*—The Port Chester Electric Lighting Co., it is understood, has purchased the plant and franchises of the Westchester Gas & Electric Co., and will begin in a short time to build a plant to supply the villages of Port Chester, Rye, Harrison and Mamaroneck. The capital stock of the new company is $5 .000, and the officers are William E. Ward, President; J. Aldison Johnston, Vice President; William L. Ward, Treasurer, and W. S. Comby, Secretary.

Westinghouse Electric & Manufacturing Co.—*Listed.*—The New York Stock Exchange has listed $575,000 additional assenting stock, making total amount listed to date $3,813,-05). The additional certificates have been "issued in partial payment for stocks and bonds of the Walker Co." The company further states that of the $3,500,000 debentures authorized last July, about $3,000,000 have been sold to retire indebtedness, and of the remaining $500,000, part have been used in partial payment for stock and bonds of the Walker Co. The balance sheet of July 31, 1898, is given under the heading "Annual Reports."—V. 67, p. 635.

Whitebreast Fuel—Iowa & Illinois Coal Co.—*Foreclosure Suit.*—Foreclosure proceedings were brought against these companies in Chicago on Wednesday by the Atlantic Trust Co. as mortgage trustee. The bonds of the Whitebreast Co. were issued in 1888 and were listed on the New York Stock Exchange, the application to the Exchange being in V. 45, p. 676. In 1896 a plan for funding coupons was proposed, per circular in V. 62, p. 1140. Default, however, has continued, and now foreclosure is instituted.—V. 66, p. 860.

—Reports of condition September 20 of the national banks named below will be found in our advertising columns: City, Market & Fulton, Mercantile, Gallatin, Continental, Am. Exchange, Chase, and Second, of New York; the First, Union, Continental and Commercial national banks, and the Merchants' Loan & Trust Co., of Chicago. The statement of the Fourth Street National Bank of Philadelphia was published on page iii. of last Saturday's CHRONICLE. The statement of the Chemical National of New York will appear on the last page of the QUOTATION SUPPLEMENT for October, to be issued on October 8.

—Speyer & Co. give notice that they are prepared to exchange the Mercantile Trust Co. certificates of deposit for the Baltimore & Ohio RR. 5 per cent bonds of 1885 for the trust receipts issued by Speyer & Co. under the reorganization plan. The latter must be presented, suitably endorsed, at the office of Speyer & Co., 30 Broad Street.

—Messrs. F. J. Lisman & Co., specialists in uncurrent steam railroad bonds, advertise in another column that they are prepared to deal in fractional lots of the different railroad securities which have been issued within the past few years.

—The Farmers' Loan & Trust Co. will pay dividends on a number of securities, list of which will be found in another column.

—Messrs. Redmond, Kerr & Co. offer for October investment a selected list of high-grade bonds. Their advertisement is on page x.

—On page x. will be found advertised a list of "bonds for October investment" for sale by Rudolph Kleybolte & Co., 1 Nassau Street.

Reports and Documents.

THE OREGON RAILROAD & NAVIGATION COMPANY.

SECOND ANNUAL REPORT—FOR THE FISCAL YEAR ENDED JUNE 30, 1898.

NEW YORK, August 20, 1898.

To the Board of Directors of the Oregon RR. & Nav. Co.

GENTLEMEN:

We respectfully submit the following comparative statistical tables in detail of revenues and operations for twelve months, fiscal year ended June 30, 1898.

	1897.	1898.
Earnings from Operation, Rail Lines	$1,130,380 36	$5,997,470 91
Earnings from Operation, Water Lines	547,544 52	902,922 35
Total Operating Earnings	$1,677,924 84	$6,895,391 29
Operating Expenses, Rail Lines	$2,245,694 15	$3,186,877 84
Operating Expenses, Water Lines	533,353 73	766,542 23
Total Operating Expenses	$2,779,047 88	$3,953,420 07
Net Earnings From Operation	$1,898,877 00	$2,941,971 22
Miscellaneous Income	50,580 40	77,-65 93
Total	$1,949,457 40	$3,019,839 15
Charges against net earnings were:		
Improvements and Betterments	$12,317 23	
Depreciation of Water Line Equipment	35,666 67	$89,350 00
Interest on Funded Debt	897,640 00	865,491 73
First Mortgage Sinking Fund	136,650 00	151,230 00
Taxes	163,896 28	156,296 37
Discount and Interest		615 65
Dividend on Preferred Stock	110,000 00	550,000 00
Dividend on Common Stock		240,000 00
	$1,386,000 18	$2,055,983 75
Leaving Surplus of	$563,457 22	$963,855 40

All expenditures for improvements and betterments and new equipment built and purchased are charged to Operating Expenses, per list given in statistical table "J," aggregating $565,027 92, except expenditures for rebuilding and improving our ocean and river steamers, which were charged to Depreciation Fund, as per table "I," aggregating $74,491 13, which resulted in increased facilities and revenues.

The Company has increased the Water Line Depreciation Fund, deeming it insufficient to maintain the water equipment in efficient condition on account of its age. The water lines are a valuable auxiliary to the rail lines, and necessary for its protection.

We have continued the rectification and permanent improvement of its lines by reduction of grades and curvatures, filling of bridges, substituting steel for wooden structures, and the laying of 75-pound rail per yard on its main lines, causing the ultimate removal of features which restrict the speed of its trains, increase its train tonnage rating, permitting the use of heavier equipment, increasing the safety of operation and reducing its cost. The table of details "Q" fully explains what has been accomplished this year, increasing the tons per freight-train mile of 188·37 tons in 1897 to 245·73 in 1898.

In the vicinity of Umatilla and along our La Crosse-Connell Branch, plans, by private enterprise, for irrigation of lands aggregating 40,000 acres are well advanced, and will ultimately add revenue to the Company in what is now a non-productive territory.

The Company has demonstrated by its Experimental Farm the past year what can be accomplished by the growth of Grains, Grasses, Tobacco, Fruit and Vegetables. The experiments are valuable and have met with the hearty support of the State Experimental Stations in Washington and Oregon, as well as the United States Government, and the Company is looking towards the reclamation of large areas of land by adapting suitable grasses, grains, vegetables and fruits.

The mining interest in the Baker City and Coeur d'Alene districts have shown a marked development the last year. New mines are being constantly opened, and new capital interested. The Company is aiding the development of this growing, important industry.

The Company's officers have systematically worked to promote and increase local industries. A number of important new enterprises have been secured, among the most important a Sugar-Beet Plant at La Grande, Ore., with a daily capacity of 700 tons; the first and only one in the Pacific Northwest.

The Company built no new lines, but in the territory where this Company operates its boats there has been completed from Goble to Astoria the Astoria & Columbia River Railroad, while the Northern Pacific Railway have extended their line from Juliaetta to Lewiston, competing with our Snake River boats.

There was outstanding at the beginning of this fiscal year $4,451,000 of 6 per cent First Mortgage Bonds, under a Funding arrangement made with a Syndicate of Bankers; there has been withdrawn and deposited with the Trustees of the Consolidated Mortgage $2,709,000 of the Oregon Railway & Navigation Company's 6 per cent First Mortgage Bonds, against which there has been issued $3,418,080 75 of this Company's Consolidated 4 per cent Bonds. When the funding is completed, the Consolidated Mortgage will be the first lien on the property. The Company will then be relieved from the payment of the Annual Sinking Fund, and lessen its fixed charges annually $42,000.

The increased capitalization has been charged to Profit and Loss, and not to Cost of Property.

Negotiations will be concluded whereby this Company will again become an owner in the Northern Pacific Terminal Company at Portland, furnishing in the future the necessary terminal facilities for the business of this Company. At Spokane the Terminal Co. is still in the hands of the Court.

The Company completed in August last a traffic contract with the Northern Pacific Steamship Company, making sailing every 21 days to China, Japan and the Sandwich Islands. This service has largely increased the exports and imports through Portland. This season the port has been visited by ships of larger tonnage than ever before, and its exports of grain and flour are the largest in its history, fully maintaining its commercial importance.

The application of air-brakes and vertical plane couplers is progressing rapidly, and will be completed in time required by Congressional law.

The officers and employes have actively, intelligently and loyally promoted the Company's interest to an unusual extent, and with due regard to the interests of its patrons, and their efforts in behalf of the Company are hereby acknowledged with pleasure.

The By-Laws of the Company provide for an independent audit of its books. The Stockholders elected the Audit Company, of New York, and, at the request of the Executive Committee, Mr. Stephen Little, in behalf of the Audit Company, has made the examination, and his certificate is appended hereto.

A. L. MOHLER, *President.* A. S. HEIDELBACH, *Chairman of the Board.*

PORTLAND, OREGON, August 17, 1898.

To the Stockholders of the Oregon RR. & Nav. Co.

We beg to report that, pursuant to your resolution of September 2, 1897, we have had Mr. Stephen Little, our Chief Consulting Auditor, visit Portland, Oregon, and in the audit office of your Company there examine and verify:

I.

The General Profit and Loss Account of your Company at June 30, 1897, and June 30, 1898, respectively.

II.

The Earnings and Operating Expenses and Income Account for the fiscal year ended June 30, 1898.

III.

Its General Balance Sheet at June 30, 1898.

We therefore certify that the elements constituting such Accounts and Balance Sheet are fully and fairly set forth and reflect truthfully the transactions of the year under review and the financial condition of the Company at the end thereof, i. e., June 30, 1898.

Our thanks are due to the General Auditor of your Company, who rendered our representative every courtesy and facility necessary to his examination.

THE AUDIT COMPANY OF NEW YORK,
By STEPHEN LITTLE,
Chief Consulting Auditor.

"A"

GENERAL PROFIT AND LOSS ACCOUNT.

(ADJUSTMENTS THEREIN JUNE 30, 1897, TO JUNE 30, 1898.)

By Balance—Surplus June 30, 1897		$563,656 80
" Surplus for year ended June 30, 1898, as per Income Account, Exhibit "B"		963,855 40
To Charges against Income for the period August 18, 1896, to June 30, 1897, audited in current year's Accounts: Northern Pacific Terminal Company of Oregon, additional amount allowed on account of terminal facilities at Portland, Oregon	$35,665 28	
To Discount on Consolidated Mortgage Bonds of this company delivered in exchange for the First Mortgage Bonds of the Oregon Railway & Navigation Co., as provided in the plan for such exchange and refunding: Bonds delivered (par value) $3,418,080 75; Amount received (less interest) 2,979,900 03	438,180 75	
To premium on First Mortgage Bonds retired in accordance with plan for refunding: Bonds retired (par val.) $2,709,000 00; Amount paid (less interest) 2,979,000 00	270,000 00	
To adjustment during the year to the debit of Profit and Loss direct $5,334 06; Loss Adjustments for the same period to credit of Profit and Loss direct 2,437 13	2,896 93	
To Balance	779,869 24	
	$1,527,512 20	$1,527,512 20

	$170,696 9	$203,450 14
Surplus over all	45,149 47	19,418 71

On June 30, 1898, the Funded Debt amounted to $21,556,800, an increase of $3,000,000 as compared with June 30, 1897, it having been increased by the issue of $1,000,000 Montgomery Division First Mortgage Bonds and decreased by $3,100 Second Debentures delivered to the Trustee of the General Mortgage and by $37,000 General Mortgage Bonds canceled by operation of the Sinking Fund, making the total amount of General Mortgage Bonds canceled to that date $153,000.

On June 30, 1898 the First Debentures purchased for account of the Sinking Fund amounted to $1,034,000 (an increase of $37,000 as compared with the preceding year) by the investment therein of the amount received from the Land Department a dividend of one per cent upon the Debentures in the Sinking Fund and of $53,203, being the equivalent of the dividend of one per cent which was paid in February, 1898, by the Railroad Company to its stockholders, conformably to the stipulations of the Agreement of October 1, 1876, that "no dividend shall be declared or paid except an amount equal thereto shall be paid into the Sinking Fund."

On June 30, 1898, the Debentures transferred to and held by the Farmers' Loan & Trust Company in trust for the benefit and security of the General Mortgage Bonds amounted to $4,056,800 (a decrease of $33,900 as compared with the preceding year), $37,000 having been transferred to the Sinking Fund in exchange for a like amount of General Mortgage Bonds, which were thereupon canceled, and $3,100 Second Debentures having been received in exchange for General Mortgage Bonds.

On June 30, 1898, the Car Trust indebtedness amounted to the principal sum of $359,000, of which $12,000 matured during the year 1898-9 (an increase of $111,177 23 as compared with the preceding year), $13,822 72 having been paid off and $150,000 Car Trust Q having been called, the latter being about 85 per cent of the cost of five engines and 1,000 freight cars.

The capital stock of the company remains unchanged (authorized issue under Charter 100,000 shares of $100 each), issued and outstanding June 30, 1898, 53,303 shares, the holders of record of 49,538 shares of which (known as "Assented Stock") have under the "Agreement for the Readjustment, etc., of the securities of the Mobile & Ohio Railroad Company, dated October 1, 1876, granted and given power and authority to the Farmers' Loan & Trust Company in trust for the benefit and security of the Preferred Income and Sinking Fund Debentures to vote in person or by proxy upon said shares of stock at any and all meetings of the stock of the company."

A dividend of one per cent was paid to the stockholders of record on February 28 1898 out of the accumulations credited to profit and loss after meeting all interest charges, including all payments under and by virtue of the agreement of October 1, 1876, all rentals and the cost of such additions and improvements as have been deemed by the company necessary for the maintenance of its business.

The gross revenue and receipts of all kinds and from all sources of the Mobile & Ohio Railroad proper, including the extension to East Cairo and of its branches, and of the leased line from Cairo to East St. Louis and of its branch, for the year ending June 30, 1898, subject to the lease agreement with the St. Louis & Cairo Railroad Company, amounted to $3,842,116 75. Other revenue and receipts, not subject to said lease agreement, amounted to $365,202 37.

The tonnage movement for the year has been as follows:

M. & O. R. R.	Tons.	Ton Miles.	Av. haul.
1897-98	1,846,774	504,174,341	272·18
1896-97	1,558,699	409,603,965	262·81
Increase	288,075	94,570,319	10·37

The average rate per ton per mile for the entire line shows a decrease of 70·100 of a mill per ton per mile.

The following statement shows the locomotive and car equipment of the Mobile & Ohio Railroad Company on June 30, 1898, and the comparison with the previous year:

	1898.		1897.

Construction	108	127	125	113	109

Since June 30, 1897, 29 Locomotives have been purchased (weight 125,000 pounds each, 18x26 cylinders.) and 20 more have been contracted for, while two of small power have been disposed of. The rapid increase in tonnage, especially in low-grade freight, has made it absolutely necessary, not only to add to the present motive power, but to replace as speedily as possible forty of the present engines, most of which have been in the service of the Company for over thirty years, and which, while generally in fair condition, are unsuitable for efficient or economical operation; none weigh over 75,000 pounds, and all will be gradually, as general repairs are required, "scrapped," unless previously disposed of, as their reconstruction is not justified. Twenty of the new locomotives already delivered and paid for were purchased for account of the Montgomery Division, five from funds provided by Car Trust Q, and four have been charged to Income Account.

The freight car equipment has increased 1,450 cars, 450 of which were purchased for account of the Montgomery Division, and 1,000 by means of Car Trust Q. The passenger equipment has been increased 10 passenger cars, 5 baggage and mail, and 5 express cars purchased for account of the Montgomery Division, and 3 express cars charged to income account.

The road and its equipment have not only been fully maintained during the year, but have been materially improved, and large additions have been made to the latter, both in number, capacity and efficiency; 1,015 freight cars have been equipped with automatic couplers and 107 with air brakes; all new cars are fully equipped, and the rest of the present cars are being in like manner equipped as rapidly as it can be done without interfering with the operation of the road, so as to comply with the requirement of the Inter-State Commerce Law. Five passenger coaches have been vestibuled and provided with new steel platforms, and Pintsch Gas Light and safety heating apparatus have been generally applied to the passenger equipment; two new steam shovels have been purchased and charged to income account. The transfer steamer at Cairo has been entirely rebuilt.

The road bed through the lowlands for the first sixteen miles south of East St. Louis has been and is being raised and ballasted, and the levees north of Cairo, Illinois—the latter by requirement of the State and Municipal authorities—have been and are being raised and strengthened, and the embankments between East Cairo and Port Jefferson have been rip-rapped. Three thousand two hundred tons of new 70-pound steel rail have been put in the track. Five new turn tables have been constructed, replacing a like number of old and obsolete ones; this was rendered imperative by the increased size and weight of rolling stock.

All these expenditures, except those mentioned as for account of the Montgomery Division or provided for by means of Car Trust or noted as charged against Income Account, have been charged directly against operating expenses, and have necessarily increased the ratio of expenses to earnings as compared with the preceding year, which has further been increased by the expenditures incident to the Yellow Fever epidemic of 1897, which, for a period of three months, made it necessary to remove the offices of the Company and to duplicate many departments, increasing thereby the general expenses and the expense of operation.

The extension of the Mobile & Ohio Railroad by means of the Montgomery Division, while promising to be self-sustaining, also gives assurance of a material increase in the business of the Mobile & Ohio Railroad proper, and the Company has therefore, while providing for the Extension itself, endeavored to so increase the equipment and improve the general physical condition of the entire property throughout, as to provide for the anticipated increased demand upon its capacity. In furtherance of this policy 12,000 tons of new steel rail have been purchased, part on time and part in cash, and is now being put into the track, and will be charged *pro rata* each month to operating expenses during the next two years.

The first payment on account of the property purchased in Mobile giving the Company control of an entire block, located in the principal business portion of the city, one-half of which is already owned, has been charged to Income Account, and the balance is payable in four annual payments of $10,000 each.

The Company has contributed to and is the owner of one-half of a Pintsch Gas Plant lately constructed at Mobile, the cost of which has been charged to Income Account.

With the view of developing the wharf property at Mobile a company has been organized under the general laws of Alabama to which has been leased the wharves fronting on Mobile River. This corporation, known as the Mobile Docks Company, has already materially improved the property leased to it, and among other things has just completed on one of its piers a two story corrugated iron warehouse 500x100 feet, equipped with electric elevators and all modern facilities for handling package and other freight, and will have two tracks laid on each side connecting it with the terminals of the Mobile & Ohio Railroad. It has also acquired 1,000 feet of additional water front immediately connected with the leased property. The entire revenue derived from the use of the wharves and other properties of the Docks Company has been applied to its maintenance, development and improvement; the expenditures to June 30, 1898, in that direction have been met from the revenue so derived, the intention being to make such charges over this property as will cause the same to be self-sustaining, looking to the advantage to accrue to the Railroad Company from the development of the water front. Any net result, however, will accrue to the Mobile & Ohio Railroad Company, which owns and controls the entire capital stock of the Mobile Docks Company.

The Terminal Elevator Company, also organized under the general laws of Alabama (the bonds and entire capital stock of which were acquired by the Mobile & Ohio Railroad Company in 1897, and now belong to it), has been of material advantage to the business of the Railroad, and has paid a direct return upon its cost.

The Montgomery Division, now in operation, consists of 167·2 miles of main line between Columbus, Miss., and Montgomery, Ala.; the Warrior Branch, 9·5 miles from Tuscaloosa, Ala., to the Warrior coal fields, and the Bloxton Branch, 11·8 miles from Edline, Ala., to the Cahaba coal fields; total, 183·5 miles. Owing to a controversy with the Contractor the Extension was taken over from him on March 22, 1893, and the work continued by the Mobile & Ohio Railroad Company. As the construction of the line progressed, serious difficulties and requirements developed themselves, which it was not possible to have anticipated or foreseen, and these have made the cost of this Division somewhat exceed the original estimates. The amount expended to June 30, 1898, in excess of the proceeds of $3,500,000 Bonds issued for its construction (no stock was created or issued), including final settlement with the Contractor, the purchase of his construction plant, and among other items the changes imposed by the United States authorities in the location and detail of construction of the bridges over the Alabama and Warrior rivers, and the cost of additional terminal facilities at Montgomery, amounted to $103,400 30, which, added to the total amount of said bonds issued for its construction, is less than $20,000 per mile of road, and this through a most difficult country, the ridges of which run north and south, a feature peculiar to that section, and crossing all its water courses. Among the latter are three important rivers, the Cahaba, Warrior and Alabama, the two latter of which are rivers which at certain seasons rise over fifty feet above low water, requiring massive, important and costly sub and super structures. The Warrior River has a high, level bridge, with two stationary spans of 275 and 175 feet, on stone piers, 100 feet above low water; the Alabama River bridge being still more important, with a draw of 3 8 feet feet in length and three stationary spans, one of which is 325 feet in length; both bridges with long and high trestle approaches. The total amount of work done to June 30, 1898, in constructing the Montgomery Division, was far in excess of the original estimates; but when all expenditures necessary to its final completion have been made, it will be found that in the aggregate the cost of this Division, its Roadway, Structures and Equipment will compare favorably with that of any similar piece of railroad property in that part of the United States, more especially in view of the physical difficulties encountered, the additions to and increase of the original estimates, and the rapidity with which the work has progressed—nearly two hundred miles of road having been opened to traffic in little over one year after work upon it was begun. This Division was opened with a mixed local service on July 1, 1898, and since August has, with its Branches, been operated throughout, making regular through connections for passengers and freight; it will, however, for some months require further expenditure in the extra maintenance incident to a new roadbed and somewhat in construction, the cost of which has not and will not be a charge upon earnings, but will be provided from the surplus bonds in the Treasury of the Company for that and similar purposes

The freight terminals at Montgomery are in the very heart of the City, and in addition thereto the Company owns twenty acres immediately outside the City limits (through which its main line passes) with ample tracks and other facilities for the economical distribution and handling of trains. These outside yards are also connected with the City by the Suburban Street Railway (4½ m.), the property of the M. & O. RR. Co., by which, through an arrangement with the Belt Line Railway, the M. & O. RR. is enabled to connect with all other lines and to reach the most important manufacturing industries of Montgomery. Arrangements have been made by which the passenger trains of the M. & O RR. Co. enter the Union Depot of the Louisville & Nashville Railroad Company in common with the trains of other Roads reaching that point, affording every facility for an interchange of passenger traffic with all other lines.

The Directors renew their thanks to the officers and employes for their zeal and faithful performance of duty during the year.

By order of the Board.

W. BUTLER DUNCAN,
Chairman.

NEW YORK, September 15, 1898.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Sept. 30, 1898.

Healthy conditions have continued to be noted generally in both commercial and financial circles. The volume of merchandise moving through the various channels of trade has been apparently of extensive proportions, and prices in the main have been on a fairly remunerative basis. Weather conditions have been favorable in practically all quarters of the country. The export demand for breadstuffs has been checked to some extent, owing to the comparative scarcity of ocean freight room and the higher ocean freight rates now ruling, the result of the large engagements latterly made. The meetings of the N. Y. State conventions of the two political parties and nominations by them of their respective tickets for the coming fall election have been matters of interest the past week.

Lard on the spot has had only a limited sale as neither exporters nor refiners have been extensive buyers. At the West, however, there has been a fair export business transacted. Early in the week prices advanced but the close was easier; prime Western was quoted at 5·15c. and prime City at 4·80@4·85c. Refined lard has been in only moderate demand, closing at 5 35c. for refined for the Continent. Speculation in lard for future delivery has been quiet. Early in the week prices advanced on reports of the poor lard-making qualities of the hogs received. Subsequently, however, under selling by packers and sympathy with the decline in grain, prices weakened. The close was steady.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	5·12	5·22	5·17	5·10	5·07	....
October delivery.....c.	....	....	....	....	....	5·12

Pork has been in fair demand for West India trade; prices have held fairly steady, closing at $8 50@9 for mess, $11@12 for family and $10 75@13 for short clear. Cut meats have had only a limited sale, and prices have been barely maintained, closing at 5¾@6¾c. for pickled bellies, 12@10 lbs. average, 7¾@7¾c. for pickled hams and 4½@4¾c. for pickled shoulders. Beef has continued in fairly active demand and firm, closing at $8 50@9 00 for mess, $9 00@9 50 for packet, $10 50@11 00 for family and $14 00@15 00 for extra India mess. Beef hams have been in moderate demand and steady at $19@$19 50. Tallow has advanced slightly, closing steady at 3½c. Oleo stearine has been quiet and easy at 5c. Lard stearine has been unchanged at 6c. Cotton seed oil has been in better demand for export, but at lower prices, closing at 21½@22c. for prime yellow and 17½@18½c. for crude. Butter has been in limited supply for choice creamery and firm, closing at 15@21c. for creamery. Cheese has advanced slightly for choice, closing steady at 7@9c. for State factory, full cream. Fresh eggs have advanced slightly for desirable stock, closing at 17½c. for choice Western.

Brazil grades of coffee have had a slightly better distributing sale and there has been more activity to the trading in invoices. Offerings have not been excessive and prices have advanced slightly, closing at 6¼c. for Rio No. 7 on the spot. Primal markets have held steady, naming prices relatively higher than those ruling locally. West India growths have been quiet but steady at 9c. for good Cucuta. East India growths have been dull and nominal at 24½c. for standard Java. The speculative dealings in the market for contracts has been quiet, as neither buyers nor sellers have been aggressive, and changes in prices have been unimportant. Following are the final asking prices:

Oct.....	5·10c.	Jan.....	5·85c.	May.....	6·01c.
Nov.....	5·45c.	Mar.....	6·00c.	June.....	6·2·c.
Dec.....	5·60c.	April.....	6·05c.	July.....	6·25c.

Raw sugars have been dull. At the close sales were made at slightly lower prices at 4¼c. for centrifugals, 96 deg. test and 3¾c. for muscovado, 89 deg. test. Refined sugar has been quiet and prices were lowered ⅛@3 16c., closing easy for soft grades; granulated was quoted at 5¾c. Molasses, syrups and rice have been steady. Spices have been in more active demand. Teas sold well at auction.

Kentucky tobacco has been in moderate demand and steady. Seed leaf tobacco has been in fair demand at full values. Sales for the week were 3,050 cases including: 450 cases 1897 crop, flats, 6@35c.; 200 cases 1897 crop, Onondaga, 10@13c.; 600 cases 1897 crop, Zimmers, 16@18c.; 400 cases 1897 crop, New England Havana, 8@22½c., &c.; also 150 bales Sumatra at85c.@$1 75 in bond.

Straits tin has continued to meet with a fair sale and prices have been unchanged and steady at 16·20@16·30c. Ingot copper has been sparingly offered for prompt shipment; prices have been unchanged and firm at 12½c. for Lake. Lead has had a moderate sale at slightly lower prices, closing at 3 95c. for domestic. Spelter has been quiet but steady at 4·75@4·85c. for domestic. Pig iron has had a moderate sale at full values, closing at $9 75@$11 50 for domestic.

Refined petroleum has been higher, closing at 6·85c. in bbls., 4·35c. in bulk and 7·50c. in cases; naphtha higher at 6·75c. Crude certificates have been firmer, closing at $1 05½, credit balances have been advanced to $1 05. Spirits turpentine has been quiet and easier, closing at 30½@31c. Rosin has sold slowly and low grades have been weak at $1 27½@$1 30 for common and good strained. Hops have been in fairly active demand and higher. Wool has been dull and easy.

COTTON.

FRIDAY NIGHT, September 30, 1898.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 318,605 bales, against 200,265 bales last week and 112,854 bales the previous week, making the total receipts since the 1st of Sept., 1898, 697,784 bales, against 822,661 bales for the same period of 1897, showing a decrease since Sept. 1, 1898, of 124,880 bales.

Speculation in the market for contracts has been moderately active, but prices have been somewhat unsettled. The sales for the week were estimated at 550,000 bales. Early in the week the tendency of prices was downward, October selling down to 5·09c., the lowest figure yet reached. A continued large movement of the crop, favorable weather conditions at the South for the growing crop and selling by the South against the actual cotton, were the principal depressing features. Subsequently, however, there developed a demand from shorts to cover contracts, both here and in foreign markets, stimulated by the low prices ruling. The demand for actual cotton was reported as improving, exporters being larger buyers, and there was an increased demand for investment account. Saturday the market was steadier during early 'Change, but toward the close turned easier under increased offerings, prompted by an expected large movement of the crop for the week. Monday there was a weaker tone in the market, prices touching the low price of 5·09c. for October. The continued large movement of the crop and favorable crop prospects were the principal depressing features. They prompted further selling by tired longs to liquidate account. The close showed prices 3 to 5 points lower for the day. Tuesday prices declined slightly during early 'Change, under the free movement of the crop, which held buyers in check. Subsequently, however, there developed a demand from shorts to cover contracts, stimulated by a less favorable report by the Government's Weather Bureau, a statement as to the poor prospects for the top crop attracting special attention. The close showed prices 4 to 6 points higher for the day. Wednesday the market was unsettled. At the opening there was an advance in prices in response to stronger foreign advices and buying for investment account by a prominent local operator; then came a reaction, the early improvement being more than lost under selling by the South against the large supplies coming in sight. Toward the close, however, the pressure to sell subsided, and as there was demand from shorts to cover contracts, prices advanced and closed 3 to 4 points higher for the day. Thursday the market was again unsettled. Foreign buying early in the day advanceds prices a few points; then came a reaction under selling, prompted by the continued large crop movement, but towards the close shorts bought rather freely to cover contracts, and prices advanced, closing unchanged to 1 point higher for the day. To-day the unsettled tone of the market continued. During early 'Change prices declined under weaker foreign advices and a larger interior movement of the crop during the week; then advanced on apprehensions of damage to crop in the Mississippi Valley by heavy rains; reacted under selling for New Orleans and closed barely steady 1 to 2 points lower for the day. Cotton on the spot has been quiet. Prices declined 1/16c. on Monday, advanced 1-16c. on Tuesday and to day were 1-16c. higher, closing at 5 7-16c. for middling uplands.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Sept. 30), we add the item of exports from the United States including in it the exports of Friday only.

	1898.	1897.	1896.	1895.
Stock at Liverpool.....bales.	635,000	297,000	412,000	984,000
Stock at London.....	4,000	3,000	6,000	7,000
Total Great Britain stock.	639,000	300,000	418,000	991,000
Stock at Hamburg.....	20,000	19,000	32,000	32,000
Stock at Bremen.....	50,000	23,000	45,000	113,000
Stock at Amsterdam.....	1,000	1,000	4,000	11,000
Stock at Rotterdam.....	300	200	200	200
Stock at Antwerp.....	9,000	2,000	9,000	16,000
Stock at Havre.....	96,000	55,000	103,000	288,000
Stock at Marseilles.....	4,000	4,000	5,000	4,000
Stock at Barcelona.....	31,000	49,000	46,000	44,000
Stock at Genoa.....	24,000	17,000	11,000	27,000

☞ The imports into Continental ports the past week have been 27,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 489,617 bales as compared with the same date of 1897, a loss of 141,073 bales from the corresponding date of 1896 and a decrease of 481,647 bales from 1895.

At the Interior Towns the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897—is set out in detail below.

Towns.	Movement to September 30, 1898.				Movement to October 1, 1897.

* Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 37,172 bales, and are to-night 38,475 bales *more* than at the same period last year. The receipts at all the towns have been 74,723 bales *more* than the same week last year and since Sept. 1 they are 22,734 bales *less* than for the same time in 1897.

Overland Movement for the Week and Since Sept. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Sept. 30 and since Sept. 1 in the last two years are as follows.

September 30.	1898.		1897.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	9,246	20,186	14,184	21,620
Via Cairo	8,019	10,957	9,020	16,316
Via Parker	.....	.....	343	741
Via Rock Island	1,260	1,624	500	700
Via Louisville	1,693	2,016	1,243	1,521
Via Cincinnati	996	4,713	1,230	1,998
Via other routes, &c.	3,312	3,601	1,317	2,369
Total gross overland	22,526	44,167	27,811	45,803
Deduct shipments—				
Overland to N. Y., Boston, &c.	1,787	6,767	3,114	6,309
Between interior towns	76	141	141	223
Inland, &c., from South	641	3,159	685	3,776
Total to be deducted	2,504	10,047	3,940	10,309
Leaving total net overland*	20,022	34,120	23,871	35,495

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 20,022 bales, against 23,871 bales for the week in 1897, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 1,375 bales.

In Sight and Spinners' Takings.	1898.		1897.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

Columbus, Ga.	4 3/4	Montgomery	4 11/16	Shreveport	4 7/8

Weather Reports by Telegraph.—Our telegraph reports this evening from the South indicate that with generally favorable weather during the week the gathering of the crop has progressed rapidly. Marketing has also been on a liberal scale. At one or two points rather heavy precipitation is reported but as a rule there has been little or no rain. Our Galveston correspondent advises us that the bulk of the Texas crop has been picked and that the top crop will be a good one on the whole but not so large as hoped for.

Galveston, Texas.—On the whole the weather during the week past was favorable. There was delay in picking the first day or two, occasioned by rain, which also did some damage to open bolls. But the warm, clear weather which followed more than counterbalanced the damage, and picking was rushed. The great bulk of the crop is gathered, though some localities in North Texas report cotton still making. From reliable reports it appears that the top crop will be a good one in many favored localities, though not so large as was hoped for. We have had showers on three days during the week, the rainfall reaching thirty-seven hundredths of an inch. The thermometer has averaged 81, ranging from 74 to 88.

Palestine, Texas.—There has been rain on one day during the week, to the extent of four hundredths of an inch. The thermometer has ranged from 62 to 91, averaging 83.

Huntsville, Texas.—It has rained lightly on one day of the week, the rainfall being eleven hundredths of an inch. Average thermometer 78, highest 92 and lowest 63.

Dallas, Texas.—There has been no rain during the week. The thermometer has averaged 79, the highest being 93 and the lowest 60.

San Antonio, Texas.—The weather has been dry all the week. Minimum temperature 61.

Luling, Texas.—It has been dry the past week. The thermometer has ranged from 65 to 95, averaging 80.

Columbia, Texas.—It has been showery on one day during the week, but to an inappreciable extent. The thermometer has averaged 79, ranging from 68 to 89.

Cuero, Texas.—We have had no rain during the week. Average thermometer 80, highest 93, lowest 67.

Brenham, Texas.—There has been no rain during the week. The thermometer has averaged 82, ranging from 66 to 97.

Corpus Christi, Texas.—We have had rain on one day the past week, but the rainfall was too small to measure. Average thermometer 80, highest 88, lowest 72.

Weatherford, Texas.—There has been no rain during the week. The thermometer has averaged 77, the highest being 93 and the lowest 60.

New Orleans, Louisiana.—The week's rainfall has been two inches and eighty-four hundredths, on two days. The thermometer has averaged 77.

Shreveport, Louisiana.—We have had light rain on one day of the week, the rainfall being one hundredth of an inch. The thermometer has ranged from 66 to 91, averaging 78.

Columbus, Mississippi.—There has been rain on one day of the week, to the extent of seventy-two hundredths of an inch. Average thermometer 81, highest 96, lowest 60.

Leland, Mississippi.—It has been dry here all the week. The thermometer has averaged 76 4, the highest being 91 and the lowest 63.

Vicksburg, Mississippi.—It has rained on two days of the past week, the rainfall being two inches and ten hundredths. Thermometer averaged 78, ranging from 68 to 89.

Meridian, Mississippi.—It has rained heavily on three days of the week, damaging cotton. Picking has been retarded and crop estimates reduced.

Greenville, Mississippi.—The weather has been warmer the past week with rain.

Little Rock, Arkansas.—There has been rain on one day of the week, the rainfall reaching thirty hundredths of an inch. Cotton has been damaged by rain. The thermometer has ranged from 67 to 90, averaging 78.

Helena, Arkansas.—Cotton is spotted. Some crops are reported all open, while others are rank and not much open. It has rained slowly on one day of the week, the rainfall be-

ing fifty-one hundredths of an inch. The weather is cloudy to-day, and there are indications of more rain. Average thermometer 78, highest 95 and lowest 62.

Memphis, Tennessee.—Wet weather has interfered with picking, but marketing is progressing well, except that local quarantine hinders wagon receipts from the immediate vicinity. We have had rain on one day during the week, to the extent of thirty-five hundredths of an inch, and rain is falling now. The thermometer has averaged 73·3, the highest being 90·5 and the lowest 67 4.

Nashville, Tennessee.—We have had no rain during the week. The thermometer has averaged 78, ranging from 65 to 91.

Mobile, Alabama.—Rain has fallen on three days during the latter part of the week, to the extent of four inches and seventy hundredths. The thermometer has ranged from 63 to 90, averaging 78.

Montgomery, Alabama.—The Alabama Agricultural Bureau reports the general average condition of cotton in the State on October 1 at 75 and corn at 115. We have had rain on one day of the past week, but to an inappreciable extent. Average thermometer 78, highest 91, lowest 66.

Selma, Alabama.—The crop is being marketed rapidly, but will fall short of last year. We have had rain on three days of the week, the rainfall being forty-eight hundredths of an inch. The thermometer has averaged 80, the highest being 94 and the lowest 63.

Savannah, Georgia.—It has rained on three days of the week, the precipitation reaching sixteen hundredths of an inch. Average thermometer 79, highest 90 and lowest 68.

Augusta, Georgia.—Picking is progressing rapidly and the grade of cotton is improving. There has been no rain during the week. The thermometer has averaged 76, the highest being 91, and the lowest 62.

Charleston, South Carolina.—We have had rain on one day during the week, the rainfall reaching twelve hundredths of an inch. The thermometer has averaged 78, ranging from 70 to 88

Stateburg, South Carolina.—It has rained on one day the past week, the rainfall reaching seven hundredths of an inch. The thermometer has ranged from 63 to 91, averaging 77·1.

Greenwood, South Carolina.—It has been dry all the week. Average thermometer 74, highest 85 and lowest 64.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock Sept. 29, 1898, and Sept. 30, 1897.

1897.....	.....	.....	.....	4,000	12,000	16,000
1896.....	.....	12,000	12,000	8,000	43,000	51,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 2,000 bales. Exports from all India ports record a gain of 1,000 bales during the week and since September 1 show an *increase* of 11,000 bales.

EGYPTIAN COTTON CROP.—Mr. F. Jac. Andres of Boston has received the following from the Cotton Department of the Anglo-Egyptian Bank, Alexandria, under date of Aug. 27: The arrivals of Upper Egypt show very good quality. In about a fortnight the first arrivals of Delta cotton will appear. It is feared that owing to current low prices, planters will retard picking and hold their cotton off the market. The crop is considered out of danger and is expected to be equal to last year's yield, viz., 6,500,000 cantars. The damage caused by lack of water is calculated at 10 per cent, about 100,000 bales, and cannot be recovered.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements we made with Messrs. Davis, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, September 28	1898.		1897.		1896.	
Receipts (cantars*).....						
This week.....		55,000		85,000		110,000
Since Sept. 1.....		99,000		156,000		211,000
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool.....	.....	6,000	4,000	7,000	7,000	13,000
To Continent†.....	2,000	19,000	3,000	14,000	3,000	7,000
Total Europe.....	2,000	25,000	7,000	21,000	10,000	20,000

* A cantar is 98 pounds.

† Of which to America in 1898, 1,431 bales; in 1897, 1,205 bales; in 1896, 591 bales.

This statement shows that the receipts for the week ending Sept. 28 were 55,000 cantars and the shipments to all Europe 2,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for both yarns and shirtings. Manufacturers are working at a loss. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Sept. 30) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897, are as follows.

Receipts to Sept. 30.	1898.		1897.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1898.	1897.

NEW ENGLAND COTTON MILL SITUATION.—The Border City Mills at Fall River remain closed as a result of a strike of the weavers against what is claimed to be a virtual reduction of wages. Conferences between the agent of the corporation and a committee from the textile unions have been held, but without tangible result as yet. The trouble between some of the operatives and the management of the Sanford Spinning Co. was satisfactorily adjusted on Monday last, Sept. 26, and the hands returned to work on the following day.

JUTE BUTTS, BAGGING, &C.—An active market for jute bagging has been experienced during the week, but the close is unchanged and steady at 6¼c. for 1¾ lbs. and 6⅝c. for 2 lbs., of standard grade. Car-load lots of standard brands are quoted at 6⅛c. for 1¾ lbs. and 6½c. for 2 lbs., f. o. b, at New York. There has been a good demand for jute butts to arrive at 1·00c. for paper quality and 1¾c. for mixing. No spot market.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crop in the Southern States for the week ending Sept. 26.

VIRGINIA.—Week favorable for fall work and maturing of crops.

NORTH CAROLINA.—Cotton three-fourths open and picking progressing rapidly; top crop short.

SOUTH CAROLINA.—Farm work interrupted two days by rain; no top crop on cotton and yield below average, excepting Western counties, where average crop assured; picking progressing favorably.

GEORGIA.—Cotton nearly all open and picking progressing rapidly, yield and quality below average.

FLORIDA.—The week was generally favorable for harvesting cotton. A few reports state that cotton is better than expected.

ALABAMA.—Cotton crop about half open, half of which is picked; quality inferior, yield low; cotton again beginning to rust and sprout in bolls in southern counties.

MISSISSIPPI.—Rains during first days of week damaged open cotton and interfered with picking.

LOUISIANA.—Heavy rain beginning of week damaged cotton, but balance of week very favorable; cotton picking progressing rapidly; ginning general; top crop much injured by worms.

TEXAS.—Cotton picking progressed rapidly and staple clean, except some stained by rain; yield irregular, good in places and poor in others; caterpillars, boll worms, and weevil damaging late cotton and top crop, which are already ruined in places.

ARKANSAS.—Heavy rain of 20th did further damage to cotton by beating it out, some cotton rotting in bolls; picking commenced latter part of week under favorable weather conditions.

TENNESSEE.—Good rains middle of week revived late crops. Cotton opening rapidly; picking in full progress.

OKLAHOMA.—Cotton shows improvement with favorable October weather; crop will be fair.

These reports on cotton are summarized by the Department as follows:

Heavy rains in the lower Mississippi Valley have damaged open cotton and interfered with picking. Over the eastern portion of the cotton region the weather has been more favorable, and picking is progressing rapidly. Picking has also progressed rapidly in Texas, where the crop is reported as irregular, being good in places and poor in others. Reports throughout the cotton belt generally indicate that the top crop will be very inferior and in some places a total failure.

HAND BOOK FOR DAILY CABLE RECORDS OF AMERICAN, EAST INDIAN, EGYPTIAN AND BRAZILIAN COTTON STATISTICS, &c.—Mr. John Jones, of Liverpool and London, has furnished us this week with a copy of the twenty eighth annual issue of the daily cable records of the principal cotton crops of the world, which has just been published. All the features of previous years, embracing very full statistics of the American, East Indian, Egyptian and Brazilian crops, have been retained, and the pages are so arranged that the daily and weekly figures for this year as received can be inserted side by side with those for the previous year. In this issue space has been allowed for daily receipts of cotton at Alexandria. More extensive details with regard to American cotton are also given, as well as full statistics of Russian cotton. The book will be found on sale at the office of the Commercial Telegram Bureau, 19 Beaver Street.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 122,856 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales
NEW YORK—To Liverpool, per steamers Bovic, 2,596 upland and 23 Sea Island....Cufic, 1,419	4,038
To Manchester, per steamer Newton, 185	185
To Hull, per steamer Ontario, 763	763
To Bremen, per steamer Bremen, 2,876	2,876
To Hamburg, per steamer Palatia, 50	50
To Genoa, per steamer Ema, 620	620
NEW ORLEANS—To Liverpool—Sept. 23—Steamer Louisianian, 3,535....Sept. 26—Steamer Cuban, 9,096	12,631
To Bremen—Sept. 26—Steamer Akaba, 6,000	6,000
To Rotterdam—Sept. 27—Steamers Maria Larrinaga, 150	150
To Genoa—Sept. 24—Steamer Moorish Prince, 4,579	4,579
GALVESTON—To Liverpool—Sept. 24—Steamer Vivina, 8,011 Sept. 28—Steamers Bernard Hall, 5,560; Polycarp, 8,103.	21,974
To Bremen—Sept. 26—Steamer Ellen Rickmers, 13,101	13,301
To Hamburg—Sept. 22—Steamer Lady Lewis, 200..... Sept. 24—Steamer Hazel Branch, 500	700
To Rotterdam—Sept. 22—Steamer Volage, 1,000	1,000
CORPUS CHRISTI, &c.—To Mexico, per railroad, 107	107
SAVANNAH—To Bremen—Sept. 27—Steamer Loughrigg Holme, 4,900....Sept. 28—Steamer Strathcarron, 4,900....Sept. 30—Steamer Bawtry, 7,092; City of Worcester, 4,798	21,690
To Hamburg—Sept. 30—Steamer City of Worcester, 200	200

LIVERPOOL.—By cable from Liverpool we have the following statement of the week's sales, stocks, &c., at that port.

	Sept 9	Sept. 16	Sept. 23.	Sept. 30.
Sales of the week.....bales.	50,000	84,000	61,000	65,000
Of which exporters took...	2,200	1,800	2,500	2,300
Of which speculators took.	1,300	1,800	600	200
Sales American	53,000	59,000	57,000	59,000
Actual export.....	3,000	5,000	5,000	5,000
Forwarded.....	50,000	54,000	56,000	58,000
Total stock—Estimated.....	750,000	707,000	687,000	635,000
Of which American—Estim'd	672,000	629,000	592,000	563,000
Total import of the week....	12,000	16,000	22,000	31,000
Of which American.....	10,000	10,000	17,000	27,000
Amount afloat.....	51,000	49,000	89,000	100,000
Of which American.....	48,000	46,000	81,000	96,000

The tone of the Liverpool market for spots and futures each day of the week ending Sept. 30 and the daily closing prices of spot cotton, have been as follows.

Spot.	Sat'day.	Monday.	Tuesday.	Wed'day.	Thurad'y	Friday.
Market, 12:45 P. M.	Fair business doing.	Easier.	Quiet.	Increased request.	Harden'g.	In buyers' favor.
Mid. Upl'ds.	3 3/32	3 1/8	3 1/8	3 1/8	3 1/8	3 1/8
Sales.....	8,000	10,000	8,000	12,000	12,000	12,000
Spec. & exp.	500	500	500	1,000	500	1,000
Futures. Market, 1.45 P. M.	Steady at 1-64 decline.	Steady at 1-64 decline.	Steady at 1-64 decline.	Steady at 1-64 advance.	Steady at 1-64 advance.	Steady.
Market, 4. P. M.	Steady.	Quiet but steady.	Steady.	Quiet but steady.	Quiet.	Barely steady.

The prices of futures at Liverpool for each day are given below. Prices are on the basis of Uplands, Low Middling clause, unless otherwise stated.

☞ *The prices are given in pence and 64ths. Thus:* 2 63 *means* 2 63-64*d., and* 3 01 *means* 3 1-64*d.*

BREADSTUFFS.

FRIDAY, Sept. 30, 1898.

Only a very moderate volume of business has been transacted in the market for wheat flour and no radical changes have occurred in values, although slight concessions were obtained by buyers during the latter part of the week in spring patents to arrive. Low grades, however, which have been in limited supply, have been firmly maintained. The demand from the home trade buyers has continued largely of a hand-to-mouth character, and exporters have been only limited buyers, as their offers have been too low. Rye flour has been sparingly offered owing to small supplies, and prices have been firmer. Buckwheat flour has had a limited sale at steady prices. Corn meal has continued to meet with a fair sale and at full values.

Speculation in wheat for future delivery has been moderately active but the tone of the market has been somewhat unsettled. During the first half of the week the tendency of prices was towards a higher basis, the principal strengthening features being a continued active export demand and an unexpected decrease in the visible supply. Subsequently, however, reflecting an easier turn to foreign advices, and owing to a falling off in the export demand, there developed an easier tone, and all of the improvement was lost. Saturday prices advanced ½c. for September on shorts covering, but other months declined ½@⅝c. under moderate offerings, prompted by easier foreign advices. Monday the market was firmer, the advance in prices amounting to ¼@¾c. on moderate buying, stimulated by an unexpected decrease in the visible supply. Tuesday there was considerable activity

to the trading and prices advanced 2⅞c. for September and ⅜@1c. for other months. An active export demand was the principal strengthening feature, although a comparatively light crop movement also had a toning-up influence. Wednesday the market turned easier, the decline in prices for the day amounting to ⅞c.@1⅛c. Cable advices were disappointing and there was a falling off in the export demand, owing to the scarcity of ocean freight room and high ocean freight rates. Thursday the market was again easier, the decline being most pronounced for September, which showed a loss of 4c.; other months were ⅝@1c. lower. The decline in September was due to free deliveries on contracts, which practically liquidated all outstanding trades. A free movement of the crop in the Northwest and reports that Russia was offering wheat more freely were the principal depressing features. To-day the market was easier under limited selling, prompted by a free movement of the crop and weaker foreign advices, prices for the day showing a loss of ⅜@½c. The spot market was easier but the export business was only moderately active. The sales to-day here and at outports were 240,000 bushels.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	74¾	75½	78⅜	76½	72½	....
December delivery....c.	68⅝	69⅜	70⅜	69½	68½	68
May delivery....c.	68¾	69½	70⅜	69	68⅜	68

There has been only a limited amount of speculative interest shown in the market for Indian corn futures. During the first half of the week the tendency of prices was towards a higher basis, stronger foreign advices, a fairly brisk export demand, together with sympathy with an advance in wheat being the principal strengthening features. Subsequently, however, in sympathy with a weaker market for wheat and under a larger movement of the crop, prices declined, more than losing the advance made early in the week. To-day the market was dull but steady. The spot market was unchanged. The sales to day for export here and at outports were 300,000 bushels.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	31⅜	34¾	35¼	35	34⅜	....
December delivery....c.	34⅜	35	35⅜	35⅛	34½	34½
May delivery....c.	36¼	36½	36⅜	36⅜	36	36⅛

Oats for future delivery in the local market have been neglected. At the West there was only a limited amount of activity to the speculative dealings. Early in the week on buying by shorts, particularly of September contracts, and sympathy with an advance in other grains, prices advanced slightly. Subsequently, however, following the easier turn to values for other grains and under a moderate crop movement, prices lost the advance. To day the market was quiet and without decided change, closing steady. The spot market was quiet but steady.

Rye and barley have been in limited supply and prices have advanced. Business has been checked by the higher prices asked.

The following are closing quotations:

FLOUR.

THE DRY GOODS TRADE

NEW YORK, FRIDAY, P. M., Sept. 30, 1898.

There has been no change in the character of business doing in the primary market. Buyers persist almost uniformly in adhering to a hand-to-mouth policy, and the orders placed are for, at the best, but moderate quantities. In spite of this the week's aggregate transactions have reached a very fair total, and shows that positive requirements on the part of jobbers and others are fuller than are usually seen at this time of the year. Reports from Western markets state that business with them continues excellent, but to some extent yellow fever has interfered with trade in the South. Conditions in the East are less satisfactory than in the West, but, even so, business is better than a year ago. Supplies in the primary market are still ample, and the course of raw cotton continues an adverse influence in the cotton goods situation. There has been no quotable change in prices, but the tendency favors buyers. The woolen-goods division shows a moderate improvement in demand, but the general condition is still unsatisfactory. Few complaints are heard on the score of collections.

WOOLEN GOODS.—The recent reduction in the price of Clay worsteds has led to an improved demand, good sales on the lower basis being reported. Heavy serges have also been in relatively good reorder demand and firm in prices. In other directions business in men's-wear fabrics has shown little change from preceding weeks. Orders for light-weights have been more numerous, it is true, but not sufficiently so to relieve the market from previous quietude, and general conditions for the light-weight season are still unsatisfactory. Some woolen mills have resumed work this week in order to get out their sample pieces. In the overcoating division the demand has been dull and readily met. Cloakings are inactive throughout. Sales of dress goods show some increase but there has been no improvement in prices. Flannels quiet and blankets in moderate request at previous prices.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 26 were 2,200 packages, valued at $79,731, their destination being to the points specified in the tables below:

NEW YORK TO SEPT. 26.	1898. Week.	1898. Since Jan. 1.	1897. Week.	1897. Since Jan. 1
Great Britain	20	2,593	174	3,732

China, via Vancouver*	3,787	21,623	.....	15,966
Total	5,987	270,942	3,670	223,541

* From New England mill points direct.

The value of the New York exports for the year to date has been $8,732,602 in 1898 against $3,111,235 in 1897.

The leading makes of heavy-weight sheetings and drills show no change in price, but the market outside of them is decidedly irregular. The demand is moderate. Light-weights are quiet and in favor of buyers. Sales of duck limited at previous prices. Brown osnaburgs dull and easy. Bleached cottons sell to a fair extent in small quantities. The tone is easy and prices irregular in all grades. Wide sheetings slow, price unaltered. Cotton flannels and blankets steady, with light supplies. Denims dull, but no further decline in prices noticeable. Ticks irregular with a light demand. Plaids quiet and checks and stripes dull at previous prices. White goods and quilts in fair demand for spring. Kid finished cambrics slow and easy. Fancy prints weak, under efforts to clean up stocks. More staple lines in fair demand at unchanged prices. Staple and dress style ginghams steady, with fair sales. Regular print cloths have been neglected this week at 2c. Odd goods have declined 1-16c. with a moderate business.

FOREIGN DRY GOODS.—The business secured so far for spring is much below average in all lines and the outlook unsatisfactory. The demand for fall goods has ruled light and has been met at irregular prices.

Alessandro (Cal.) Irrigation District.—*Bond Litigation.*—A suit has been instituted by Ezra T. Stimson against this district for the recovery of over $3,000 interest due on bonds of the district. Mr. C. B. Bishop, Secretary of the district, writes us that he believes the district's answer has not yet been filed. Mr. Bishop says that they have secured a decision from the Superior Judge of Riverside County declaring the bonds to be null and void. There is also a suit against the validity of the bonds before the United States District Court. The Stimson suit, it is thought, will have to come before the County Court first, and then be taken to the Supreme Court. Mr. Bishop volunteers the information that the property of the district would not sell for enough to pay the accrued interest on the $765,000 issue of bonds now outstanding, and that there will be no compromise made by the district.

Anniston, Ala.—*Adjusting City Debt.*—Upon inquiry we learn from Mayor F. M. Hight that he and W. H. McKleroy, Chairman of the Finance Committee, have been entrusted by the City Council to adjust the city's bonded debt on the basis of a reduction of the interest. Negotiations are now pending, and the city officials hope that the matter may be settled amicably, although the first proposition from the Bondholders' Committee, submitted by Mr. McKleroy to the City Council August 31, was rejected by that body.

Boyertown, Pa.—*Suit to Prevent Issuance of Bonds.*—The Boyertown Water Company on September 12, 1898, filed a bill in equity against the borough to prevent the latter from erecting a water-works system. As stated in the Chronicle August 18, 1898 $35,000 in bonds has been authorized for this purpose by the Borough Council.

Duluth, Minn.—*No New Charter.*—At an election held on September 20, 1898, the question of a new charter for the city was voted down; it lacked over 500 votes of carrying. There was very little interest taken in the election according to the local reports.

Houston, Texas.—*Temporary Injunction.*—On September 22, 1898, Judge D. E. Bryant of the United States District Court granted a temporary injunction restraining the city from delivering the $100,000 5% 40-year street improvement bonds awarded to Rudolph Kleybolte & Co., Cincinnati, on September 18, 1898. The complainants are W. J. Hayes & Sons, Cleveland, who were originally awarded the bonds on August 30, 1898. The city officials claim that the Cleveland firm did not comply with the terms of the purchase and readvertised the bonds, declaring the $2,000 deposited with the bid as forfeited to the city. The hearing in the case took place last Wednesday.

Jefferson County, Wash.—*Reduction in Interest.*—Local papers state that the county has entered into an agreement with its bondholders whereby the interest on bonds outstanding is reduced from 6 to 4 per cent for a period of 10 years, when the old rate will again become operative.

Melrose, Mass.—*Charter Election.*—A special town meeting has been called for October 3, 1898, to vote upon the question of applying for a city charter.

Mount Pleasant, Tenn.—*Election to Incorporate.*—At the election held September, the vote on the question of incorporating this place or not resulted in 216 votes cast in favor and 90 against. As the total registered vote is 402, it is claimed by those against the movement that the proposition was defeated, not receiving two-thirds of the registered vote. The question is still undetermined.

Oregon.—*Special Session of Legislature.*—On September 26, 1898, the Legislature convened in special session. One of the questions that will come up will be that of making appropriations to meet the payment of the outstanding warrants which on September 1, 1898, amounted to $633,000. Funds are in hand to pay this indebtedness but cannot be used until legislative authority is obtained. A United States Senator will also be chosen.

Providence - Johnston.—*Adjustment of Debt.*—The Commissioners appointed to apportion the debt to be assumed by the city of Providence, owing to the annexation of a large portion of the town of Johnston, have made their report. The net debt of the town on June 1, 1898, was $357,895 12, of which $255 720 61 will be assumed by the city of Providence and $101,177 48 by the town of Johnston. The total assessed valuation of the town was $7,037 575 and of that portion recently annexed by Providence $5 035,430. Mr. Herbert C. Calef, Treasurer of Johnstown, writes us that he has paid all the bills of the town which the Commissioners have apportioned to the town. He says the town will pay interest on bonds Nos. 1 to 100, inclusive, and from No. 151 to 191, inclusive. The coupons will be payable at the Union Trust Co., Olneyville, R. I., the same as usual. The total bonded debt retained by the town of Johnston amounts to $141,000, of which $50,000 matures in 1907. Towards the payment of these bonds the town secures the sinking fund amounting to $46,791 55. The city of Providence assumes the remaining bonds outstanding and other indebtedness, but it is understood that they will do nothing in the matter until October 1, 1898.

Tacoma, Wash.—*More Warrant Suits.*—The Tacoma "Times" on September 14, 1898, stated that the Fidelity Trust Company had filed a suit that day to compel the City Treasurer to pay certain warrants amounting to $3,028 80, issued by ex Treasurer Boggs in 1891. This is but another of the many suits growing out of the re-issue of warrants which were once paid by ex-Treasurer Boggs.

Bond Calls and Redemptions.

Aberdeen, S. Dak.—*Bond Call.*—The City Treasurer calls for payment on October 1, 1898, after which time interest will cease, $23,000 city bonds, numbered 297 to 331, inclusive, dated August 1, 1888. Bonds are payable at the Chemical National Bank, New York City.

Aberdeen (S. Dak.) School District.—*Bonds Redeemed.*—The School Board of this district has recently redeemed two of its bonds of $500 each.

Aurora (Town), Mo.—*Bond Call.*—This town has called for payment city hall bond No. 7 for $500, payable at the St. Louis National Bank on October 1, 1898.

Austin, Texas.—*Bonds to be Redeemed.*—At the meeting of the City Council on September 19, 1898, an ordinance was passed providing for the redemption of $10,000 of the city's water and light bonds.

Denver, Col.—*Bond and Warrant Call.*—City Treasurer Paul J. Soura has called for payment Oct. 23, 1898, the following bonds and warrants. Thirteenth Street refunding warrants, Bonds No 100 to 111, both inclusive. Warrants of East Denver Side Walk District Nos. 2, 57, 66, 69, 113, 114, 127, 128, 131, 133, 182, 183, 269, 270, 422, 423, 425, 427, 442, 550, 561, 573, 671, 837, 838, 839, 840, part of 67, 68. Upon request from the holders of any of the above bonds and warrants ten days before the expiration of this call, the City Treasurer will arrange for their payment at the Mercantile Trust Co., New York City, but not otherwise.

Galesburg (Ill.) School District.—*Bonds Redeemed.*—The district recently redeemed $10 000 of its outstanding bonds.

Jefferson County (P. O. Golden) Colo.—*Bond Call.*—J. G. Schall, County Treasurer, calls for payment refunding bonds Nos. 16, 17 and 18, of the series bearing date of June 1, 1883, $1,000 each. Interest will cease on and after October 10, 1898.

Jefferson County (Mo.) School District.—*Bond Call.*—School District No. 8, Township 41, Range 6, of this county has called for payment at the Citizens' Bank of Foster on October 1, 1898, Building Bond No. 2, dated October 1, 1896, with interest at 8%.

Kentucky.—*Warrant Call.*—The State Treasurer, George W. Long, has called for payment September 28, 1898, on which date all interest ceased, all re-issued warrants, the originals of which were dated on or before April 29, 1897.

Lafayette County (Mo.) Township.—*Bond Call.*—The following bonds have been called for payment at the office of the County Treasurer on October 17, 1898:

Freedom Township, $1,000 65 bond No. 14, dated July 23, 1890.
Washington Township, $1,000 65 bond No. 24, dated August 18, 1885.
Lexington Township, $1,000 65 bonds Nos. 52 and 53, dated August 18, 1885.

Lincoln County, Oregon.—*Warrants Paid.*—The County Treasurer has recently paid off $2,700 of warrants. All warrants issued previous to October 11, 1895, have now been paid.

Little Rock, Ark.—*Proposed Purchase of Bonds.*—The City Treasurer acting under instructions issued by the Common Council, will for 30 days from September 1, 1898, receive offers of sale from the holders of $10,000 of the city's funding bonds, issue of 1889, in accordance with Section No. 32 of Digest of Ordinances of city, and Act of General Assembly of State of Arkansas, approved April 6, 1889. S. J. Johnson is the City Treasurer.

Los Animas County (Col.) School District No. 50.—*Bond Call.*—John H. Fox, County Treasurer, recently called for payment Bond No. 4, of this district, value $200. Interest ceased September 24, 1898.

Multnomah County, Ore.—*Warrant Call.*—Ralph W. Hoyt, County Treasurer, has called for payment September 12 1898, all unpaid warrants drawn upon the road fund from September 1, 1897, to October 31, 1897. The County Treasurer has also called for payment county warrants class 35, drawn upon the general fund that were presented and indorsed "Not paid for want of funds," from May 1, 1897, to May 31, 1897, both dates inclusive. Interest on these warrants ceased on September 16, 1898.

Pierce County (P. O. Tacoma), Wash.—*Warrant Call.*—The County Treasurer, Stephen Judson, has called for payment general county fund warrants of this county, Nos. 5537

to 5709, both inclusive, dated 1896. Interest ceased after September 30, 1898.

Pierce County School Districts, Wash.—*Warrant Call.*—The County Treasurer, Stephen Judson (P. O. Tacoma), has called for payment the following school district warrants:

District No. 1—Nos 237 to 239, issued in 1897.
District No. 3—Nos. 306 and 308 to 311, issued in 1897.
District No. 8—Nos. 5 to 62, issued in 1897.
District No. 37—Nos. 48, 49 1, 2, 3, 5 and 6, issued in 1897.
District No 77—No. 26, issued in 1896.
District No. 84—Nos. 26 to 43, issued in 1896.

Interest on above warrants ceased September 30, 1898.

Portland, Ore.—*Warrant Call.*—Frank Hachemeyer, City Treasurer, has called for payment September 13, 1833, general fund warrants, presented but not paid, between July 1, 1897, and August 3 1897, and Fire Department warrants presented but not paid between February 2 and March 31, 1898.

Seattle, Wash.—*Warrant Call*—A. H. Foote, City Treasurer, calls for payment at his office the following warrants, interest on which will cease after October 6, 1898: Boren Avenue et al., Ordinance No 4873 District No. 168, warrants Nos 749, 750, 751, 752, 753; East Jefferson, 21st and 20th avenues, Ordinance No. 4760, District No. 1150, warrants Nos. 599, 600; Twenty-third Avenue South, Ordinance No. 4837, District No. 163, warrants Nos. 725, 726, 727, 728; Fifth Avenue North, Ordinance No. 4799, District No. 157, Warrant No. 545.

Slater, Mo.—*Bond Call.*—This city has called for payment electric-light bonds Nos. 4 and 5, dated October 1, 1890, and payable at the National Bank of Commerce, St. Louis, on October 1.

Bond Proposals and Negotiations this week have been as follows:

Allegheny, Pa.—*Bond Issue.*—In the event of their being authorized, Mr. James Brown, City Comptroller, writes us that it is his intention to place the $10,000 4% 5 year bonds for the improvement of the old Franklin Road in the city sinking fund.

Almond, Wis.—*No Bonds at Present.*—In reply to our inquiry concerning the $20,000 railroad-aid bonds reported as recently authorized, Mr. A. D. Palmer, Town Treasurer, informs us that he has conferred with the Town Chairman and at present they have nothing to say in regard to the bonds.

Athens, Ga.—*No Bond Issue as Yet.*—In regard to the proposed issue of $50,000 paving bonds, we are advised that the Council has taken no action in the matter. The question is one that is simply being discussed by citizens and has not assumed any tangible shape.

Bath, Me.—*Not New Bonds.*—We are advised by Messrs Parkinson & Burr, Boston, that the $133 650 4% bonds awarded to them were not refunding bonds of the city, as has been reported, but the old Penobscot Shore Line Railroad bonds maturing August 1, 1920. As stated in the CHRONICLE September 10, 1898, bids were asked on a refunding issue of city bonds or on Penobscot Shore Line bonds, the latter being held among the city's assets. The bid of the Boston firm at 105·23 for the railroad bonds was the one accepted.

Belmont, Mass.—*Bond Sale.*—E. H Rollins & Sons, Boston, have been awarded $35 000 4% street improvement bonds at 105·78. Following are the bids:

E. H. Rollins & Sons, Boston	105·78	Estabrook & Co., Boston	105·379
Jose, Parker & Co., Boston	105·513	R. L. Day & Co., Boston	10 ·1·9
Blodget, Merritt & Co., Boston	105·52	W. Hillman Cary, Boston	105·09
Adams & Co., Boston	105·51	Geo. A. Fernald & Co., Boston	105·05
Blake Bros. & Co., Boston	105·51	Farson, Leach & Co., N. Y.	101·915
Parkinson & Burr, Boston	105·13	Third Nat. Bank, Boston	101·79

Securities are in denomination of $1,000, dated October 1, 1898. Interest will be payable April 1 and October 1 in Boston, and the principal will mature October 1, 1908.

Bexar County, Texas.—*Bond Proposition Accepted.*—The County Commissioners have accepted the proposition of Rudolph Kleybolte & Co., Cincinnati, to purchase $14,000 4½% 10-40-year (optional) refunding court house and jail bonds at par, accrued interest and other considerations. Interest will be payable April 10 and October 10 in New York City.

Blakely (Borough), Pa.—*Bond Sale.*—On September 26, 1898, the $15,000 5% coupon electric-light bonds were awarded to N. W. Harris & Co., Chicago, at 105·53. Other bidders were Walter Stanton & Co., New York City, 105·10; W. J. Hayes & Sons, Cleveland, 104·633, and S. A. Kean, Chicago, 104 and blank bonds. Bonds mature one half October 1, 1903, and one-half October 1, 1908. For description of them see CHRONICLE of September 17, 1898, p. 601.

Buffalo, N. Y.—*Bonds Defeated.*—The City Council has voted against the issuance of $10,000 bonds for the improvement of Niagara Square.

Bridgeport, Ohio.—*Bond Election.*—At the election to be held in November the proposition to issue $60,000 of street-paving bonds will again be submitted to the people. The City Solicitor has drawn up a new resolution the legality of which he is confident cannot be questioned. As stated in the CHRONICLE of July 16, 1898, these bonds were voted at the election held April 4, 1898, but the resolution calling for that election was found to be illegal.

Bristol County (P. O. Taunton), Mass.—*Bonds not Authorized.*—It has been reported that an issue of $25,000 bonds of this county had been authorized for the purchase of real estate. Upon inquiry we learn that the report is incorrect, no such bonds having been authorized.

Cambridge, Ohio—*Bond Sale.*—On September 24, 1898, the $9,000 4½% sewer bonds and $9,000 4½% paving bonds were awarded to Isaac W. Sherrell, Poughkeepsie, at 108. Following are the bids:

Isaac W. Sherrill, Poughkeepsie	108·00	Denison, Prior & Co., Cleveland	106·87
N. W. Harris & Co., Chicago	108·11	New First Nat. Bank, Columbus	106·87
Farson, Leach & Co., Chicago	107·8	Briggs, Smith & Co., Cincinnati	106·06
Lamprecht Bros. Co., Cleveland	1 7·21	Mason, Lewis & Co., Chicago	106·03
Seasongood & Mayer, Cincinnati	107·03	S. A. Kean, Chicago	105·02
		W. J. Hayes & Sons, Cleveland	101·85

* Received too late to be considered.

Bonds mature September 1, 1933. For further description of bonds see CHRONICLE, August 27, 1898, p. 442.

Carnegie, (Pa.) School District.—*Bond Sale.*—On September 23, 1898, $10,000 4½% school bonds were awarded to W. J. Hayes & Sons, Cleveland, at 111·25. Following are the bids:

	Premium.		Premium.
W. J. Hayes & Sons, Cleveland	$1,500	Mercantile Trust Co., Pittsburg	$2,620
James Carothers, Pittsburg	1,833	Walter Stanton & Co., N. Y.	2,496
Denison, Prior & Co., Cleveland	3,633	S. A. Kean, Chicago	2,400
E. D. Sherman & Co., New York	3,044	R. Kleybolte & Co., Cleveland	2,050
Robinson Bros., Pittsburg	2,801	Seasongood & Mayer, Cincin	1,710
Briggs, Smith & Co., Cincinnati	2,800	Elw. C. Jones Co., New York	1,600

Bonds mature $2,000 in 1918, $2,000 in 1919 and $1,000 yearly from 1920 to 1934, inclusive.

Cass County, Mich.—*Bond Sale.*—On September 23, 1898, the $32,000 4% court house bonds were awarded to the First National Bank of Cassopolis at par. Bonds mature $3,000 yearly on January 15 from 1900 to 1903, inclusive. For further description of bonds see CHRONICLE September 24, 1898, p. 654.

Clay County (P. O. Spencer), Iowa—*Bond Election.*—At the next election the question of issuing $10,000 court-house bonds will be submitted to the people.

Clinton County, Ill.—*Bond Election.*—At the November election the proposition to issue bonds to refund $32,000 5% bonds now outstanding will be submitted to a vote of the people.

Columbia (Town), Pa.—*Temporary Loan.*—A 30-day loan of $1,800 has recently been negotiated to pay current expenses. We are advised that the town has no present intention of increasing its bonded indebtedness.

Conneautville (Borough), Pa.—*No Bonds at Present.*—We are advised that owing to the fact that the land upon which are the springs from which this borough expects to get its water supply is in the hands of the Sheriff, the question of issuing bonds for a water works system "hangs fire." As it is so late in the season it is not probable that much will be done before the spring of 1899.

Cottonwood School District, Riverside County, Cal.—*No Bonds Voted.*—It has been stated that at a recent election $700 bonds of this district were authorized. We are advised by the County Treasurer that the election was held for the purpose of voting a *special tax* and not on the question of issuing *bonds*.

Crookston, Minn.—*Bond Offering.*—Proposals will be received until 8 P. M. October 15, 1898, by William Linctot, City Clerk, for $ 8,000 5% city bonds. Securities will be dated October 1, 1898; interest will be payable semi-annually at Hanover National Bank, New York City, and the principal will mature October 1, 1918. Each bid must be accompanied by a draft or certified check for $100. The bonds were voted at an election held September 20, 1898.

Crystal Springs (Town), Minn.—*Bond Offering.*—Proposals will be received until October 15, 1898, by W. C. Wilkinson, Chairman, for $ 6,000 6% water-works bonds. Interest will be payable annually on July 5, and the principal will mature 20 years from date of issue.

Dayton, Ohio.—*Bond Sale.*—On September 26, 1898, the $150,000 4% levee and $50,000 4% storm water sewer bonds were awarded to Isaac W. Sherrill, Poughkeepsie, at 106·77. Following are the bids:

Isaac W. Sherrill, Poughkeepsie	$213,510 00	N. W. Harris & Co., Chicago	$209,590 00
Seasongood & Mayer, Cin.	212,036 85	E. H. Rollins & Sons, Bost.	209,540 00
Street, Wykes & Co., N. Y.	21 ,551 01	Farson, Leach & Co., Chic.	2 9,200 00
Estabrook & Co., Boston	210,010 00	Adams & Co., Boston	208,840 00
Blake Bros. & Co., N. Y.	209,820 00	German Nat. Bank, Cincin.	208,587 00
Perry, Coffin & Co., Boston	209,-20 00	Mason, Lewis & Co., Chic.	208,458 00
R. Kleybolte & Co., Cincin.	209,302 00	New First National Bank, Columbus	207,133 00
Denison, Prior & Co., Cleve.	209,615 25		

The levee bonds will mature annually on October 1 ($10,000) from 1907 to 1912, inclusive, and $15,000 from 1913 to 1918, inclusive. The sewer bonds will mature $10,000 yearly on October 1 from 1908 to 1912, inclusive. For description of bonds see CHRONICLE of September 10, 1898, p. 518.

Delaware County (P. O. Delaware), Ohio.—*Bond Offering.*—On October 14, 1898, at 1 P. M., the County Commissioners will offer for sale $4,700 5% county improved road bonds. Securities will be in denomination of $870. Bonds are issued under authority of sections 4763 and 4769, and in compliance with Section 22b, Revised Statutes of Ohio; also by a resolution of the Board of County Commissioners.

Proposals will be received at the same time and place for $7,161 5% county ditch bonds, to be issued in denomination of $700, with the exception of the first bond due, which will be for $861.

Interest on all of the above bonds will be payable March 1 and September 1 at the office of the County Treasurer, and the principal will mature one bond each six months from March 1, 1899, to September 1, 1903. Bonds will be dated September 1, 1898. The ditch bonds are issued under and by authority of sections 4480, 4481 and 4482, and in compliance with Section 22b, Revised Statutes of Ohio; also by a resolution of the Board of County Commissioners. It is stated in the official circular that all the proceedings in the construction of said roads and ditches are regular and in compliance with the statutes governing such cases, and that all bonds and interest of Delaware County have always been promptly paid at maturity. The purchaser of each issue will be required to pay $300 on the day of sale. Lyman P. Lewis is the County Auditor.

Delphos, Ohio—*Bond Sale.*—On September 27, 1898, the $5,100 5% water-works bonds were awarded to Spitzer & Co., Toledo, at 112·23. Following are the bids:

Spitzer & Co., Toledo	$5,611 50	Lamprecht Bros. & Co., Cleve	$5,491 00
R. Kleybolte & Co., Cincinnati	5,577 00	H. W. Davies, Delphos	5,476 00
N. W. Harris & Co., Chicago	5,555 00	Denison, Prior & Co., Cleveland	5,473 25
Seasongood & Mayer, Cincin	5,541 50	W. J. Hayes & Sons, Cleveland	5,467 10
I. W. Sherrill, Poughkeepsie	5,534 00	Briggs, Smith & Co., Cincin	5,452 50
Kuhn & Sons, Cincinnati	5,510 00		

Bonds mature $1,000 yearly on October 1 from 1916 to 1920, inclusive. For further description of bonds see CHRONICLE, September 3, 1898, p. 497.

Fayetteville, Tenn.—*Bond Election.*—On October 15, 1898, an election will be held to submit to the people the question of issuing $30,000 water-works bonds. If issued the securities will carry 5% interest and the principal will mature 20 years from date of issue, subject to call after 10 years. R. A. Conger is the City Clerk.

Florence, Col.—*Bond Election.*—There will be an election held in this city on October 11, 1898, to submit to the people the question of issuing $135,000 of water-works bonds.

Fortuna School District, Humboldt County, Cal.—*Bond Sale.*—On September 19, 1898, $10,000 6% gold bonds of this district were awarded to the Oakland Bank of Savings, Oakland, at 105 41. Other bidders were W. J. Hayes & Sons, Cleveland, Ohio, $10,367, and Bank of Eureka, Eureka, Cal., $10,300. Securities will be issued in denomination of $1,000, dated October 1, 1898; interest will be payable annually, and the principal will mature $1,000 yearly on October 1 from 1901 to 1910, inclusive.

Franklin County (P. O. Greenfield), Mass.—*Loan Negotiated.*—This county has borrowed $2,000 on a demand note for bridge purposes The County Treasurer says: "This note is one of several that will be made until such time as the bridge is finished, when commissioners will be appointed to apportion the cost on the towns directly interested."

Franklin (Idaho) School District.—*Bonds Not Sold.*—It has been reported that $8,000 bonds of this district have been sold. We are advised that this report is incorrect; the bonds are not yet disposed of.

Freeport, Ill.—*Bonds Authorized and Sold.*—The Board of Public Improvements has authorized the issuance of bonds for the payment of the paving of Carroll, Williams and Adams streets. The bonds, it is stated, will be taken by the State Bank of Freeport, which advanced the money to carry on the work.

Gallatin, Tenn.—*Bonds Voted.*—At the election held September 24, 1898, the proposition to issue water works bonds was carried by a vote of over 8 to 1. There will be $35,000 of bonds issued, maturing in 20 years.

Gebo (Mont.) School District No. 30.—*Bonds Voted.*—On September 10, 1898, a special election was held to submit to the people the question of issuing bonds for the erection of a new school building. The vote was unanimous for the bond issue.

Great Falls, Mont.—*Bond Sale.*—On September 23, 1898, the $375,000 5% water works bonds were sold at public auction at 108. Bonds mature $125,000 on July 1 in the years 1908, 1913 and 1918 For description of bonds see CHRONICLE August 27, 1898, p. 443.

Hasbrouck Heights (Borough), N. J.—*Bonds Not Legal.*—The $15,000 bonds of this borough which were recently awarded to R. B. Smith & Co., New York City, have been refused by that firm on the advice of their attorney, who decided that the issue was not legal. Another election will be necessary, and we are advised that it will probably be held late in December, 1898.

Herkimer, N. Y.—*Bond Election.*—An election will be held on October 10, 1898, to vote on the question of issuing $13,000 bonds for an electric-light plant.

Holyoke, Mass.—*Bond Sale.*—On September 20, 1898, $90,000 4% gold registered bonds were awarded to Jose, Parker & Co., Boston, at 107·3376. Following are the bids:

Jose, Parker & Co., Boston	107·3376	Adams & Co., Boston	106·89
Blodget, Merritt & Co., Bost	107·027	Blake Bros. & Co., Boston	106·797
Estabrook & Co., Boston	107·071	E. H. Rollins & Sons, Boston	106·53
Third Nat. Bank, Boston	107·07	Parkinson & Burr, Boston	106·53
W. Holman Cary, Boston	107·026	Norman & Co., Boston	105·28

Securities are in denomination of $1,000, dated September 1, 1898. Interest will be payable March 1 and September 1 and the principal will mature September 1, 1908.

Houlton (Town), Me.—*Bond Sale.*—On September 20, 1898, the $10,000 4% refunding bonds were awarded to Woodbury & Moulton, Portland, at 106·87. Following are the bids:

Woodbury & Moulton, Portl'd	106·87	C. H. Pierce, Houlton	103·073
E. H. Rollins & Sons, Boston	106·017	Blake, Barrowe & Brown, Bangor	102·80
Farson, Leach & Co., New York	105·07	Cleveland & Ludwig, Houlton	101·00
Tyler, Fuss & Co., Garland	104·778	Houlton Sav. Bank, Houlton	100·00
Jose, Parker & Co., Boston	103·51		

Principal will mature October 1, 1918. For description of bonds see CHRONICLE September 17, 1898, p. 602.

Hyde Park (Town), Mass.—*No Bond Issue.*—It has been reported that this village was recently authorized to borrow $17,000. We are advised by the Town Treasurer that the money will be raised by direct taxation and that no bonds will be issued.

Idaho Falls (Idaho) School District.—*Bond Offering.*—Proposals will be received between 10 A. M. and 4 P. M. October 10, 1898, by George Kerr, Clerk School Board, for $600 7% 5-10-year bonds.

Irvington (Village), N. Y.—*Bond Election.*—An election will be held in this village October 4, 1898, to submit to the people the question of issuing $30,000 water-works bonds.

Jerseyville, Ill.—*Bonds Authorized.*—The City Council recently authorized the issuance of $5,000 refunding bonds.

Johnstown (City), N. Y.—*Bond Offering.*—Proposals are asked until 10 A. M. to-day (October 1, 1898.) for $50,000 4% water bonds. Securities will be in denomination of $500, dated October 1, 1898. Bonds are authorized by vote of the people. W. W. Cronse is the City Clerk.

Joplin, Mo.—*No Bond Issue.*—We are informed by the City Clerk that the money to pay for the sewers about to be built to extend the sewer system of the city will be raised by a direct tax, and that no bonds will be issued for that purpose.

Kalona (Iowa) Independent School District.—*Bond Sale.*—On September 15, 1898, the $4,000 6% school house bonds were awarded to the Kalona Savings Bank. For description of bonds see CHRONICLE July 16, 1898, p. 138.

Lansdale (Borough), Pa.—*Bond Sale.*—Mr. A. R Place writes us that $7,000 3½% school and $6,300 3½% borough bonds were sold on September 24, 1898. The total issues offered for sale were $20,000 borough and $15,000 school bonds. These bonds mature 30 years from date of issue but are subject to call at any time.

Lansdowne, Pa.—*Bonds Voted.*—We are advised that the vote received at the election held on September 20, to which reference was made last week, was 190 in favor and 50 against the loan of $15,000 for highway improvements. Bids will be asked for the bonds in November of this year.

Laurium, Mich.—*Further Details of Bond Offering.*—As stated in last week's issue of the CHRONICLE, the Village Clerk will receive proposals until 8:30 P. M. October 4, 1898, for $15,000 5% coupon water bonds. We are now advised that the bonds will be issued in denomination of $1,000, and the interest will be payable April 1 and October 1 at the State Savings Bank, Laurium. Principal will mature 20 years from date of issue, subject to call after 10 years. The present entire debt of the village is $7,000 water bonds, due before August 1, 1904. Assessed valuation, $658,775; real valuation, (approximate), $2,000,000. Population about 4,500. Mr. Joseph R Murphy, Village Clerk, writes us that no bonds have been defaulted by this village.

Lexington (Town) Va.—*Loan Authorized.*—The Town Council has authorized the Finance Committee to refund the bonds of the town which will mature October 1, 1898. The new issue will carry interest at a rate not exceeding 4%.

Lincoln (Town), R. I.—*Bond Offering.*—Proposals will be received until 12 M. October 10, 1898, by John D. Turner, Chairman Lincoln Bond Commissioners, Saylesville, R. I., for $125,000 4% gold funding bonds. Securities will be in denomination of $1,000, dated October 15, 1898; interest will be payable April 15 and October 15, and principal will mature October 15, 1928. Loan is authorized by special Act of the General Assembly of the State. Each proposal must be accompanied by a certified check for 2% of the amount of bid. Assessed valuation of the town is $4,148,080. Total debt, $173,070. Population, 8,350.

Lorain County, Ohio.—*Bids.*—As stated in the CHRONICLE of last week, the $175,000 4% bridge bonds were awarded to the Lamprecht Bros. Co., Cleveland, at 102·564. The following is a complete list of bids:

Lamprecht Bros. Co., Cleve.	$179,486 75	Seasongood & Mayer, Cincin.	$178,631 25
N. W. Harris & Co., Chicago	179,235 00	Isaac W. Sherrill, Po'keepsie	178,687 50
Lorain Co. Bnkg. Co., Elyria	179,000 00	Denison, Prior & Co., Cleve.	178,326 25
R. Kleybolte & Co., Cincin	178,807 50	New First Nat. Bk., Col'mbus	177,875 50

As stated last week, bonds were awarded to E. D. Shepard & Co., New York, at 105·25.

Louisville, Ky.—*Loan Authorized.*—The City Council has authorized the Mayor to borrow $300,000 in anticipation of the collection of taxes. The loan is made necessary because of the fact that the fiscal year begins September 1 and there is no income from the taxes until January.

Lufkin, Texas.—*Bond Sale.*—On September 21, 1898, the $10,000 5% water bonds which were authorized in August last were sold to the Noel-Young Bond & Stock Co, St. Louis, at par. Securities are in denomination of $500, dated July, 1898, and are issued pursuant to Texas Laws of 1893, and approved by the Attorney General. Interest will be payable in January and July at the City Treasurer's office; the principal will mature in July, 1938, subject to call after July, 1908. This issue of bonds is the only debt of the city. Assessed valuation, $3 9 0 0; real value, $500,000. Population, 2,000.

McKeesport (Pa.) School District.—*Proposed Bond Issue.*—It is reported that this district will issue about $100,000 of bonds for the purpose of erecting a new High School building.

Madison County (P. O. Richmond), Ky.—*Bond Offering.*—Proposals will be received until October 4, 1898, for $112,000 refunding railroad aid bonds. The county, we are advised, will make the best contract it can on rate of interest—"4% if possible, certainly not more than 4½%."

Marion County, Ohio.—*Bond Sale.*—On September 20, 1898, $6,000 Mud Pike and Caledonia Road bonds were awarded to the Bucyrus City Bank at 104·517. Following are the bids:

Bucyrus City Bank	$6,271 00	Spitzer & Co., Toledo	$6,225 50
Lamprecht Bros. Co., Cleve...	6,277 00	Denison, Prior & Co., Cleve...	0,225 00

Memphis, Tenn.—*Bonds Proposed.*—A bill is being prepared for presentation in the next Legislature authorizing the issuance of $200,0 0 five-year sewer bonds by this city.

Memphis (Tenn.) School District—*Bonds Proposed.*—A resolution was recently introduced in the City Council authorizing the Board of Education to issue $30,000 of bonds for the completion of the high-school building.

Mississippi Levee District—*Loan Authorized.*—At a meeting of the Board of Levee Commissioners recently, the issuance of $29,500 6% certificates of indebtedness was authorized.

Missouri.—*Bonds Registered.*—On September 13, 1898, the State Auditor registered the following bonds:

$700 8% School District No. 1, 50, 13, of Boone County, dated August 6, 1898.
200 8% School District No. 5, 26, 10, of Howell County, dated August 25, 1898.
50 8% School District No. 4, 36, 17, of Laclede County, dated Sept. 1, 1898.
250 8% School District No. 1, 41, 16, of Morgan County, dated April 1, 1898.
500 8% School District No. 3, 32, 16, of Morgan County, dated May 1, 1898.
2,500 6% Joplin School District, dated September 1, 1898.
375 8% School District No. 25, 07, 14, of Schuyler County, dated Aug. 31, 1898.
600 7% School District No. 7, 55 26, of Caldwell County, dated Aug. 22, 1898.
600 6½% School District No. 6, 58 and 31 of Dekalb County, dated Sept. 1, 1898.
4,000 5% School District No. 7, 60 and 30 of Jackson County, dated July 1, 1898.

Monroe County, Iowa.—*Bond Sale.*—The sale of $20,000 4% refunding bonds to Farson, Leach & Co., Chicago, at par, is reported.

Monrovia, Cal.—*Bond Offering.*—Proposals will be received until 7:30 P. M. October 15, 1898, by W. A. Walker, City Clerk, for $25,000 6% gold bonds. Securities are in denomination of $625, dated July 1, 1898; interest will be payable annually on July 1 at the office of the City Treasurer. Principal will mature $625 yearly on July 1 from 1899 to 1938 inclusive. A certified check for 5% of the amount of bid must accompany proposals. A like issue of bonds was awarded on June 18, 1898, to W. J. Hayes & Sons, Cleveland, but we are not informed officially whether they were afterwards refused by that firm and again offered for sale, or whether the above is an additional issue of bonds.

Moscow School District No. 5, Latah County, Idaho.—*Bond Offering.*—Proposals will be received until 8 P. M. October 24, 1898, by the Board of Trustees—L. T. Hammond, Clerk—for $12,000 refunding bonds. Securities will be in denomination of $1,000, dated January 1, 1899. Interest will be at not more than 6%, payable semi-annually. Principal will mature 20 years from date of issue, subject to call after 10 years. A certified check for $500 must accompany proposals.

Nemaha County (P. O. Auburn), Neb.—*No Election Held.*—The County Commissioners refused to call an election to submit to the people the question of issuing $40,000 court-house bonds, although the petition was signed by two-thirds of the voters of the county.

New Kensington (Borough), Pa.—*Bond Offering.*—Proposals will be received until 8 P. M., October 3, 1898, for $45,000 4% street-improvement and $15,000 4% sewer bonds. Securities will be dated October 1, 1898. Interest will be payable semi-annually at the First National Bank, New Kensington. Principal will mature serially from October 1, 1900, to October 1, 1929, inclusive. W. D. Snyder is the Borough Secretary.

Newton, Mass.—*Bond Sale.*—On September 21, 1898, the $50,000 4% sewer bonds were awarded to E. H. Rollins & Sons at 113·599. Following are the bids:

E. H. Rollins & Sons, Boston	113·399	R. L. Day & Co., Boston	113·079
Perry, Coffin & Burr, Boston	113·49	Estabrook & Co., Boston	113·047
Blake Bros. & Co., Boston	113·45	Blodget, Merritt & Co., Boston	112·88
Adams & Co., Boston	113·42	Norman & Co., Boston	112 01
N. W. Harris & Co., Boston	113·337	George A. Fernald & Co., Bost.	111·75
Lee, Higginson & Co., Boston	113·11		

Principal will mature September 1, 1928. For description of bonds see CHRONICLE of last week, p. 656.

No New Bond Issue.—We are advised that the Board of Aldermen has decided not to issue $30,000 bonds for improvements at Bullough's Pond, but that the amount will be included in the taxy levy.

Norfolk, Conn.—*Bond News.*—We are advised that $10,000 sewer bonds recently voted will not be issued until February or March of next year.

Oakland, Md.—*Bonds Authorized.*—The Town Council has determined to issue from time to time $25,000 bonds, as needed, for the purchase of an electric-light plant, to fund floating debt and for the improvement of streets.

Oakmont (Borough), Allegheny County, Pa.—*Bond Offering.*—Proposals will be received until 12 M. October 5, 1898, by John P. Hunter, Borough Solicitor, 410 Grant Street, Pittsburg, for $65,000 4% bonds as follows: $21,000 4% street-improvement bonds in denomination of $1,000 and dated October 1, 1898; interest will be payable April 1 and October 1, free of State tax, and the principal will mature part yearly on October 1 as follows: $1,000 in 1899, $3,000 in the years 1900, 1901, 1903, 1904, 1905, 1906 and 1907 and $2,000 in 1902. Forty-one thousand dollars 4% sewer bonds in denomination of $1,000 and dated October 1, 1898; interest will be payable April 1 and October 1, free of State tax, and the principal will mature part yearly on October 1 as follows: $1,000 in 1908, $3,000 in 1909, $4,000 in 1910, 1911, 1912, 1913, 1914 and 1917; $5,000 in 1915 and 1916. A certified check for $1,000, payable to the Borough Treasurer, must accompany proposals.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Odessa, Mo.—*Bonds Defeated.*—At an election held September 26, 1898, the proposition to issue $10,000 water-works bonds was defeated by a vote of 167 to 25.

Oil City, Pa.—*Bids.*—As stated in the CHRONICLE of last week, the $45,000 4% coupon bonds were awarded on September 15 to John K. Bryden, Franklin, Pa., at 102·701. We are advised that the following bids were received:

	Premium.		Premium.
John K. Bryden, Franklin	$1,215 50	J. R. Mitchell, Winona	$517 50
W. J. Hayes & Sons, Cleve.	*1,612 00	Trowbridge, MacDonald & Niver Co., Chicago	*515 00
Denison, Prior & Co., Cleve.	*1,715 75		
Penn Mut. Life Ins. Co., Phila.	*1,351 50	Lamprecht Bros. Co., Cleve.	87 50

* Bonds to be free of tax.

Omaha, Neb.—*Bonds Proposed.*—At a meeting of the City Council held September 20, 1898, an ordinance was introduced providing for the submission to the people at the next election of a proposition to issue $200,000 market-house bonds.

Bonds Authorized.—The Council has passed ordinances providing for the submission to a vote of the people the question of issuing $50,000 paving bonds and $50,000 sewer bonds.

Peabody, Mass.—*Temporary Loan.*—The town has negotiated a 45 day loan of $10,000 with Goodwin & Thorndike, Boston, at 2⅛% discount.

Phillipsburg, N. J.—*Bond Sale.*—Following are the bids received on September 29, 1898, for the $30,000 4% street-improvement bonds and $9,000 4% sewer bonds:

Phillipsburg Nat. Bank	102·343	W. J. Hayes & Sons, Cleve.	101·16
E. D. Shepard & Co., New York	101·61	Benwell & Everitt, New York	101·07
Griffith & Donnell, New York	101·31	N. W. Harris & Co., New York	101·07
Edw. C. Jones Co., New York	101·285	Walter Stanton (for $30,000)	100·06
Bertron & Storrs, New York	101·27	& Co. (for $9,000)	100·07
Rudolph Kleybolte & Co., N. Y.	101·25	Northampton Nat. Bk. ($25,000)	103·01

There were also 20 local bidders for amounts from $100 to $1,500 at prices ranging from par to 107·79. For description of bonds see CHRONICLE September 17, 1898, p. 603.

Pocomoke City, Md.—*Bond Sale.*—On September 21, 1898, the $25,0 0 5% water and sewer coupon bonds were awarded to the Westminster Deposit & Trust Co. at 110·25. Securities mature October 1, 1928. For further description of bonds see CHRONICLE September 3, 1898, p. 499.

Polk County, Iowa.—*Bond Election.*—At the fall election the question of issuing $100,000 court-house bonds will be voted upon.

Port Chester (Village), N. Y.—*Bond Offering.*—Proposals will be received until 6 P. M. October 10, 1898, by Jerome Alvord Peck, Village Clerk, for $42,000 3½% coupon bonds. Securities will be in denomination of $1,000, dated October 1, 1898; interest will be payable April 1 and October 1. Principal will mature $2,000 yearly on October 1 from 1903 to 1923. Bonds are issued pursuant to Chapter 344, Laws of 1893, and resolutions passed by the Village Trustees September 26, 1898. Bids will be opened at the Corporation rooms in the village at 8 P. M. on the day of sale. Each proposal must be accompanied by certified check for 5% of the amount of the bid.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Powers (Mich.) School District.—*Bond Sale.*—On September 21, 1898, the $3 500 6% school bonds were awarded to M. A. Devitt & Co., Chicago, at 101·142. The same bid was also received from the Trowbridge, MacDonald & Niver Co., Chicago. Interest will be payable annually and the principal will mature ten years from date of issue.

Quincy, Mass.—*Temporary Loan.*—The city has negotiated a loan of $25,000 for six months at 3% and $1 premium with Curtis & Motley and Rogers, Newman & Tolman, both firms of Boston.

Rockland (Me.) School District.—*Bond Sale.*—The city recently sold the $4,500 4% school bonds which were voted September 2, 1898. Securities are in denomination of $900. Interest will be payable in March and September and the principal will mature $900 yearly from 1899 to 1903.

Rockland (Town), N. Y.—*Bonds Defeated.*—At an election held in this town on September 17, 1898, the proposition to issue $5,000 road and bridge bonds was defeated.

San Diego, Cal.—*Proposed Bond Issue.*—We are advised that bonds will probably be issued early in 1899 for the purchase or building of a city hall.

Sandusky, Ohio.—*Proposed Bond Issue.*—The City Council has received a proposition from the Newcastle Asphalt Cement Co. stating that the company would locate in Sandusky provided the city would issue $15,000 bonds for the improvement of the East Battery property and the building of docks. No action has yet been taken.

Seattle, Wash.—*Probable Bond Issue.*—The City Council has under consideration the issuance of $7,390 15 7% bonds for the improvement of Third Avenue. Securities will be issued in denomination of $500, with the exception of the odd bond, which will be $340 15. Interest will be payable annually and the principal will mature one-fifth yearly. These bonds are to be issued to M. Dow & Co., the contractors, at par, in payment for their contract; they are not a general debt of the city, but are payable only out of the local improvement funds created by an assessment upon the property benefited by the improvement for which they are issued. The City Comptroller informs us that the contractors have sold the bonds at par to investors.

Bonds will also be authorized upon First Avenue improvement to the amount of $37,532 24. These bonds are also issued to the contractors at par, in this case Smart & Co.,

and have been sold by them to New England investors. They are similar to the Third Avenue bonds, except that they are 10 year instalment bonds, and are issued in denomination of $1,000, with the exception of the odd bond.

Somerville, Mass.—*Temporary Loan.*—Local reports state that the city recently negotiated a six months' loan of $100,000 at 3%.

South Amboy (Borough), N. J.—*Bond Sale.*—On September 27, 1898 $25,000 5% dock improvement bonds were awarded to Bertron & Storrs, New York City, at 110·335. Following are the bids:

Bertron & Storrs, New York ....110·335	Walter Stanton & Co., N. Y .....106·21
N. W. Harris & Co., New York ..109·17	Wilson & Stephens, New York ...106·18
R. K. Rollin & Co., New York ...108·4	Boswell & Everitt, New York ....106·07
Rudolph Kleybolte & Co., N. Y...108·37	
W. J. Hayes & Sons, Cleveland.108·118	E. D. Shepard & Co., New York 104·15
Watson & Schlesinger, N. Y.... 106·27	

The N.Y. Security & Trust Co. bid for $7,000, 103·10; $8,000 102·10, and $10,000 101·60. Securities will be issued in denomination of $500, dated October 1, 1898. Interest will be payable semi annually, and the principal will mature $1,000 yearly on October 1 from 1899 to 1908, inclusive.

South Bend, Ind.—*Bond Sale.*—On September 19, 1898, $6,500 4% refunding bonds were awarded to W. J. Hayes & Sons, Cleveland, at 101·338. Following are the bids:

W. J. Hayes & Sons, Cleveland. $6,587	Mason, Lewis & Co., Chicago.....$6,521
N. W. Harris & Co., Chicago 6,511	South Bend National Bank, Sp.
Denison, Prior & Co., Cleveland.. 6,501	Bond 6,510

Securities are issued in denomination of $500, dated September 15, 1898. Interest will be payable semi annually at the National Park Bank, New York City, and the principal will mature September 15, 1908.

South Omaha, Neb.—*Bonds Authorized.*—The City Council has an horized the issuance of $21,000 funding bonds to redeem obligations falling due November 1, 1898.

Spokane, Wash.—*Bond Sale.*—Local reports state that the city officials have reconsidered their action in rejecting the bids received on September 15, 1898, for $19,855 6% 10-year paving bonds and have awarded them to James A. Odell of Spokane at 102.

Springfield, Ohio—*Bonds Authorized.*—Local reports state that the Board of Public Affairs has recommended to the City Council an ordinance providing for the issuance of $5,000 street improvement bonds.

Statesville, N. C.—*Bond Sale.*—This city has sold at private sale $52,000 4½% city bonds to F. M. Stafford & Co., Chattanooga, Tenn., at par. Bonds are dated October 15, 1897, and were delivered September 10, 1898. Principal will mature October 15, 1937. The City Treasurer, Eugene Morrison, informs us that "these bonds were put up for sale about a year ago and were bid on by several parties At that time the successful bidder refused to take them, as he claimed to be afraid of all bonds issued under the present laws of this State. The bonds were examined by Judge Wood of Chicago and pronounced by him to be perfectly good." Bonds are for the following purposes: $36,000 for water works and $16,000 for sewerage.

Syracuse, N. Y.—*Bond Sale.*—On September 26, 1893, $20,000 4% local improvement bonds were awarded to the National Savings Bank of Albany at 102·02. Following are the bids:

National Savings Bank, Albany 102·02	Rudolph Kleybolte & Co., N.Y.101·21
Jose, Parker & Co., Boston ...101·811	N. W. Harris & Co., New York 101·141
Blodget, Merritt & Co., Boston..101·69	J. H. Smith & Co., New York..101·09
Joseph E. Gavin, Buffalo .....101·665	Dun-comb & Jennison, N Y....101·03
Boswell & Everitt, New York...101·563	L. W. Morrison, New York ....101·08
Dan'l A. Moran & Co., N. Y.....101·44	Briggs, Smith & Co. Cincin....100·075
Bertron & Storrs, New York....101·33	S. A. Kean, Chicago. ... .100·25

Tekamah, Neb.—*Further Details of Proposed Bonds.*—As mentioned in the CHRONICLE of August 20, 1898, an election will be held in this city to submit to the people the question of issuing $2,000 of water extension bonds. We are now advised that if the proposition is adopted proposals will be received any time after October 11, 1898. Interest will be at the rate of 5%, payable annually at the State Fiscal Agency in New York City. Principal will be payable 20 years from date of issue, subject to call after 10 years.

Temple, Ga.—*Bonds Defeated.*—At the election held September 28, 1898, the question of issuing $5,000 school bonds was defeated.

Toledo, Ohio—*Bonds Proposed.*—Ordinances are being considered in the City Council providing for the following issues of bonds:

$50,000 4% 20 year South Side Levee bonds in denomination of $1,000.
8, 00 Fourth Avenue Improvement bonds.
35,000 bonds for strengthening levee along the Cleveland Cincinnati Chicago & St. Louis Railroad tracks.

Watertown, Mass.—*Bond Sale.*—On September 28, 1898, $40,000 4% coupon school notes were awarded to Jose, Parker & Co., Boston, at 103·311. Following are the bids:

NEW LOANS.

$65,000

CORPORATION NOTICE.

Village of Port Chester.

NOTICE IS HEREBY GIVEN THAT SEALED proposals will be received by the Trustees of the Village of Port Chester for $42,000 5% per cent coupon bonds of said Village, interest payable April 1st and October 1st. Two bonds will be for $1,000 each, payable October 1st, 1903, and two bonds of $1,000 each will be due and payable each year thereafter.

The bonds are issued in conformity to Chapter 344 of the Laws of 1898, and resolutions passed by the Trustees of said Village September 20th, 1898, for the purpose of improving, regulating and paving parts of North Main Street, South Main Street, Westchester Avenue and Liberty Square.

Bids will be received by the Village Clerk at his office in the First National Bank Building, Port Chester, N. Y., until 6 o'clock of the 10th day of October, 1898, and said bids will be opened at the Corporation Rooms in said Village, at 8 o'clock P. M., of said 10th day of October, 1898.

The Trustees reserve the right to reject any or all bids. Bonds will be dated October 1st, 1898, and must be paid for with accrued interest by certified check to the order of the Treasurer of the Village of Port Chester. Each proposal must be accompanied by certified check for five per cent of the amount of the bid. Proposals must be addressed to the Village Clerk and endorsed "Proposals for Village Bonds."

Dated September 23d, 1898.

By order of the Board of Trustees,
JOHN W. McCARTY, President.
JEROME ALVORD PECK, Clerk.

WADLEY, GEORGIA.

Sealed bids will be received until October 1st for the purchase of $7,000 of Town bonds for building a school house. Interest 6%. For further information write S. C. EVANS, Mayor,
Wadley, Ga.

Notes are in denomination of $4,000; interest will be payable semi annually, and the principal will mature one note yearly from 1899 to 1908, inclusive.

Wayne County (P. O. Detroit), Mich.—*No Bonds at Present.*—We are advised that this county will not issue any bonds before April, 1899, when bonds for the completion of the county building may be issued.

Wayne County (P. O. Wooster), Ohio—*Bond Sale.*—On September 22, 1898, $1,350 6% coupon ditch bonds of this county were sold to the Wooster Building & Loan Association at 104·402. Securities bear date of October 1, 1898, and interest will be payable January 1 and July 1. These bonds are in two issues, as follows: $3,600 Newman's Creek Joint Ditch bonds, the principal of which will mature $300 yearly on January 1 from 1900 to 1903, inclusive, and $750 bonds of Jones Ditch, No. 100, the principal of which will mature $250 yearly on January 1 from 1900 to 1903, inclusive. Bonds are issued by the Board of County Commissioners under sections 4479, 4480, 4481 and 4482 of the Revised Statutes of Ohio. The first coupon on each bond will be for one quarter's interest, from October to January.

White Hall, Ill.—*Bond Election.*—An election will be held October 10 1898, to vote on the question of issuing bonds for the building of a water-works system.

Wichita, Kansas.—*Bonds not Sold.*—It has been stated that this city has sold $50,000 refunding bonds. We are advised by the City Clerk that there has been no such sale. The city has that amount in Kansas Midland Railroad aid bonds bearing 6% which they propose to refund with 5% bonds, but the matter has yet assumed no definite shape.

No City Bonds.—We are advised that the *city* does not propose to issue street railway bonds, as has been stated in some of the papers. It has given a franchise to the "Wichita Street Railway & Light Co.," who are offering the bonds for sale.

Woodsville (N. H.) High School District—*No Bond Issue.*—At the election held on August 29, 1898, to submit to the people the question of issuing $15 000 school bonds, there were not enough voters present to make the vote legal. We are advised that nothing further will be done at present towards issuing the bonds.

Worcester, Mass.—*Bond Sale.*—On September 23, 1898, a $160,000 4% school-house loan was awarded to Adams & Co., Boston, at 107·13. Following are the bids:

Adams & Co., Boston.....107·18	Farson, Leach & Co., N.Y.....106·851
W. Holman Cary, Boston.....107·091	Jose, Parker & Co., Boston .....1 6·831
Blodget, Merritt & Co., Boston.107·027	Dunscomb & Jenulson, N. Y....106·83
E. H. Rollins & Sons, Boston....106·946	N. W. Harris & Co., Boston ....106·68
Estabrook & Co., Boston.....106 899	R. L. Day & Co., Boston.....106·639

Securities are issued in denomination of $500 or any multiple thereof, for which sums registered certificates bearing date of September 29, 1898, will be given, payable at the City Treasurer's office July 1, 1908. Interest on these certificates will be payable January 1 and July 1. Mr. William S. Barton, City Treasurer, writes us that no bonds have been issued by this city since he became City Treasurer, in 1872, that contained any provision making the payment of the bonds optional before maturity.

Yonkers, N. Y.—*Bond Sale.*—On September 28, 1898, $19,000 4% assessment bonds were awarded to the Westchester Trust Co., Yonkers, at 102·09. Following are the bids:

Westchester Tr. Co., Yonkers...102·09	Walter Stanton & Co., New York.101·02
Yonkers Sav. Bank, Yonkers.....101·65	D. A. Moran & Co., New York .. 101·02
Jose, Parker & Co., Boston..... 101·371	Thos. Cox ..... 101·00
G. M. Hahn, New York.....101·03	Bonwell & Everett, New York....100·93

Bonds will bear date of October 1, 1898, and will mature February 1, 1901. They are issued under provisions of sections 16 and 36 of Title vii. of the city charter passed May 11, 1895.

Yonkers (N. Y.) School District.—*Bond Sale.*—On Sept. 27, 1898, the $28,500 3½% registered school bonds were awarded to N. W. Harris & Co., New York, at 106·67. Following are the bids:

N. W. Harris & Co., New York..106·67	Seymour Bros. & Co., N. Y .....101·27
Saw. C. Jones Co., New York ...106·032	W. E Scarret. .....101·17

Unusual Opportunity For Manufacturers.

For sale or lease, a manufacturing plant, on the line of a trunk railroad, in Southern Ohio, comprising a number of brick buildings, varying in size from 600 sq. ft. to 15,000 sq. ft. area. The strong and simple construction of the buildings will permit their alteration to suit any business at slight cost. These, with sufficient ground attached, will be disposed of separately or together. Coal and timber in abundance. Tenant houses in adjacent village for rent cheap. Location healthy. 4,000 acres of adjacent land underlaid with coal and fire-clay available for farms and mines. Entire property will be leased or sold in one or more parcels on very favorable terms. For full particulars, address
W. T. McCLINTOCK, Chillicothe, O.

THE Commercial & Financial Chronicle

(Entered according to Act of Congress, in the year 1898, by the WILLIAM B. DANA COMPANY, in the office of the Librarian of Congress.)

VOL. 67. SATURDAY, OCTOBER 8, 1898. NO. 1737.

CLEARING HOUSE RETURNS.

For the month of September the exhibit is less favorable than for preceding months of the current year, thirty seven cities included in our statement recording losses from the like month of 1897, and in the aggregate for the whole country the decrease reaches 1·2 per cent. For the nine months the gain over the same period of a year ago is 21·7 per cent.

☞ For table of clearings by telegraph see p. 716.

The week's total for all cities shows a loss of 4·2 per cent from 1897. The increase over 1896 is 25·5 per cent and the excess over 1895 is 4·1 per cent. Outside of New York the decrease compared with 1897 is 3·4 per cent, the gain over 1896 is 14·6 per cent, and the decrease from 1895 reaches 5·6 p. c

THE FINANCIAL SITUATION.

The centre of interest this week has been the sugar-refining business. Every one knows that for a long time rumors were afloat of a sugar war in prospect between the American Sugar Refining Company on the one hand and the independent refineries, chief among which are the Arbuckle Brothers, on the other. Notwithstanding these reports the price of American Refining Company's stock kept moving up until Friday, August 26, when the common touched 146¾. That figure was the turning-point. Since then the price has been steadily declining. Last week a new development was the drop in refined sugar in the aggregate of about ¼ of a cent per pound. This was at first construed as the actual beginning of the contest, and American Sugar Company's stock consequently touched on Wednesday, September 28, 116¾. From that point a natural reaction set in, it being claimed by some that the decline in raw sugar and other business conditions warranted the lower price for the refined product. But on Wednesday of this week the real situation of the parties was made evident by a further cut of ½ of a cent per pound for granulated sugar by the American Refining Company, and a quick response to that act by the independent companies, they having the same day again cut the price an eighth, bringing granulated sugar in the barrel down to 5 cents per pound, which is said to be below the cost of manufacture—showing obviously that the war between these large interests was at length fully under way.

We mention these details here, although the facts are given in other departments of our paper, because the operations and movements narrated have been for the time being a dominant unsettling influence in the Wall Street security markets. Such a feature in the situation is the more noteworthy since all other conditions are growing day by day more favorable. General trade is no doubt widening. The revival early in September was confined to a few large interests; it now includes almost every industry and is expanding still. Another encouraging feature is that the foreign demand for our wheat continues and the price is further moving upward, not under speculative but under genuine influences. Among these are the large exports of wheat and the reports that the offerings by Russia are growing less. A special demand is likewise apparent for our rye; and with wheat and rye in request for Europe, other food products are advancing. Then, too, railroad gross earnings are affording stronger evidence of the increasing volume of business under way. This has been a conspicuous feature the current week, the Western roads showing large gains in face of a smaller grain movement than a year ago.

An event which has attracted considerable attention has been the closing of the doors of the Tradesmen's National Bank. Being a member of our Clearing House and an old bank it is reasonable that the incident should excite a good deal of attention. Besides those conditions, there are others which give prominence to such an occurrence. Banks, in their character of public institutions, are organized for the purpose of keeping money safely. A bankruptcy among them is consequently a failure in a chief object of their existence and always causes a feeling of surprise much greater than the announcement of insolvency by any mercantile establishment. Then, too, the fact that it was a national organization, belonging to a class which depositors are apt to think have a quasi guaranty of solvency by the Government through the examinations the law provides, has tended further to give to the statement issued by the Clearing House Committee, that "the capital of the bank is *largely* impaired," the character of an wholly unexpected disclosure. Of course it afforded no satisfaction to depositors but rather increased their astonishment to be told that in banking circles it has been known for a considerable time that there was a struggle for existence going on there; a natural thought that suggestion induced was, if banking circles were informed why should not the public examiner have been put on the inquiry and have discovered the defects? A full answer to this last question is that these Government officers are in the nature of the case a protection in much the same way and degree as a watch dog is with a substantial bark but few teeth. The imposing character of a United States official clothed with certain drastic powers serves by his very existence as a deterrent of no little influence against wrong-doing; and yet the most experienced examiner in the United States, with the best of intentions, cannot sufficiently get hold of the affairs of an institution in the time he has to give to any single investigation so as to be able to expose much more than superficial irregularities or deficiencies.

We do not mean to prejudge the Tradesmen's Bank case. As yet the public is without sufficient details with reference to the situation to draw any definite conclusions. We are inclined to think that the affair will prove to be merely an unsuccessful effort to open a wider field, without having the necessary money with which to do it, for an organization that had begun to fall behind. Before the new management went into possession it will be remembered that the Tradesmen's Bank was reporting not only a capital of $750,000, but a surplus of $150,000. Mr. Macnaughtan, when he took control in 1895, immediately marked off the whole of this surplus, stating that it was in good part fictitious, there being many bad debts, and others doubtful, which it represented. This was a bold step, not necessary in its entirety certainly, as subsequent events proved; for very many of the claims were soon collected and the surplus was in large part thereby gradually restored. The bank, however, never fully recovered from the shock of this announcement. Confidence is a more important asset than capital with such an institution, though not appearing on the books. The individual deposits reported by the Tradesmen's Bank October 2, 1894 (the last return we have from the old management) were $1,563,279; the first return in our possession as we write of the new management is dated September 28 1895 and gives the individual deposits at $1,329,526. Here is an immediate net loss of $233,753, or about 15 per cent, in that item, notwithstanding the new management brought to their support quite a number of new clients when they entered into possession. We have no room here to refer to the subsequent increase in the deposits and the false hopes of prosperity which it encouraged. It is sufficient to add that few more risky undertakings in a business way can be named than an attempt to-day, under present laws, to establish a new bank in New York City; we should almost say it would be impossible to make a success of the enterprise unless the organizers brought with them, at the start, an un-

usually large clientage. If that be true, would it not be well-nigh hopeless to put prosperity into an old concern situated as the Tradesmen's Bank was in September 1895 ?

The renomination this week by acclamation of Congressman Charles N. Fowler of New Jersey for another term in the House of Representatives is an event that has a wider interest than the limits of a Congressional District. Mr. Fowler is a staunch and vigorous champion of sound finance. As a member of the Banking and Currency Committee of the House, he has shown himself to be one of the most useful as well as one of the most aggressive of the members of that important body. The divergence of views existing in that committee is well known. Because of this conflict of opinion it is almost impossible to secure concerted action in favor of any scheme of reform. But Mr. Fowler has never ceased urging the necessity for prompt action to place our banking and currency system on a basis where the danger to which it is now subject could be avoided. Moreover, he has not been so wedded to his own plan that he could not see merit in the propositions of others. At the same time he has been so earnest in his pleas that he has won the esteem of even his opponents. Nor has he confined his efforts to the precincts of Congress. On every public occasion where his services have been enlisted, he has taken pains to inculcate correct views of finance and banking. His most recent public utterance was at the Monetary Convention held at Omaha last month on the grounds of the Trans-Mississippi Exposition. His speech on that occasion was at once a capital diagnosis of the situation and an instructive educational effort. The reports in the press regarding his renomination say that every delegate at the Congressional Convention seconded his nomination. This is a well-deserved tribute to an intelligent and faithful representative, and it is pleasing to know that his constituents take the same view of his services as the public at large.

We have referred several times recently to the prosperity and large gains in earnings enjoyed by the Oregon Railroad & Navigation Company during the late fiscal year—a prosperity which has permitted not only the payment of dividends on the preferred shares but also the beginning of dividends on the common shares. The appearance of the annual report (it was printed in our railroad department last week) directs attention to another feature in the company's affairs. We refer to the great improvement that has been wrought in the physical condition of the property. The report adverts to this feature, and indicates some of the ways in which the betterment work has been carried on. Grades have been reduced, curves removed or lessened, bridges filled in, steel structures substituted for wooden ones, heavier rails put in the track, and various other changes of the same nature made. On the main lines the rails laid weigh 75 pounds to the yard. While it is clear that such work tends to increase the speed of trains and also their tonnage, and at the same time promotes safety in operation while reducing cost, no one can fully appreciate the extent of the change effected except those who had occasion to travel over the road before the improvements were made. Because of the road's numerous grades and the instability of the track, it used to be said that a trip over the line would make one sea-sick. All this has now being corrected. The result is seen in the circumstance that in a single year the train-load was increased from 188 tons to 245 tons. Another striking characteristic is that the cost of these improvements, as well as the cost of additional equipment, has been charged to operating expenses and paid for out of earnings. The outlays in this way aggregated altogether $565,027. Moreover, the comparative figures we gave last week showed that the company spent $1,032,677 for Maintenance of Way, etc., in 1897-8, against only $561,002 in 1896-7.

Money on call has been easier this week, influenced by the increased surplus reserves shown by last week's bank statement, and also by further engagements of gold for import, and bankers' balances have loaned on the Stock Exchange at 4 and at 1½ per cent, averaging 2¾ per cent. The extremes were recorded on Monday, the higher rate in the morning and the lower rate just before the close of the day. The range on Tuesday was from 3½ to 2 per cent; on Wednesday and Thursday it was from 3 to 2 per cent, and on Friday it was from 2½ to 2 per cent. Banks and trust companies have marked their loans down to 3 per cent as the minimum. Time contracts are quoted at 2½@3 per cent for sixty to ninety days, and 3@3½ per cent for four to six months, on good Stock Exchange collateral. Commercial paper is increasing in volume, and there is a fair demand, some of the city banks and a few of the trust companies being in the market as buyers. Rates are 3½ per cent for sixty to ninety-day endorsed bills receivable, 3¾@4½ per cent for prime (with sales of very choice at 3½ per cent) and 5@6 per cent for good four to six months single names. The outward movement of currency, not only through the Treasury, but directly by the banks, seems to be increasing again, and though it is chiefly to the South some shipments have this week been made to extreme Northwestern points. The receipts of gold from Europe, however, have more than counterbalanced this drain. Gold payments at the New York Custom-House continue large. The proportion of gold so paid last month was 78 per cent, the highest yet recorded, exceeding that of May by 4·5 per cent.

Though there is no important feature in the European political situation, more or less anxiety is felt regarding affairs in China. The reports of the death of the Emperor have been denied. The foreign embassies at Pekin have been threatened by the populace and the ambassadors have ordered additional guards from their fleets. The Boston and the Petrel have been ordered to proceed to the nearest point possible to Pekin for the protection of American interests. The Powers have sent a collective note to the Sultan demanding the withdrawal of Turkish troops from the island of Crete within thirty days and requiring that the withdrawal must begin within a fortnight. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 2⅝ per cent. The open market rate at Paris is 1¾@2 per cent and at Berlin and Frankfort it is 3¾@4 per cent. According to our special cable from London the Bank of England lost £1,430,022 bullion during the week and held £31,746,942 at the close of the week. Our correspondent further advises us that the loss was due to the shipment of £1,368,000 net to the interior of Great Britain, to the import of £73,000 from

Australia and to the export of £135,000, of which £100,000 was to Egypt, £20,000 to Brazil, £10,000 to Argentine and £5,000 to Calcutta. The Bank of Germany reports the extraordinary loss of 102,600,000 marks since the last statement, due to the quarterly settlement.

The foreign exchange market has been dull and irregular this week, with a firm tone for long sterling, partly in consequence of easier discounts in London, while short sterling has been barely steady. Bankers report increasing offerings of grain and cotton bills for prompt delivery, and also a good supply of futures against these staples, though largest against cotton. There has been evidence within a few days of buying of long sterling for investment, to hold until it ran to short. While such operations do not seem, at the moment, likely to yield a profit, still there may be some advantage to the buyer resulting from the difference between the long and the short bill, provided the long drafts can be carried here at less than 2½ per cent. It is suggested that some of these purchases of long sterling, which appear to be for investment, may be for the purpose of remittance to be made for settlements at the end of the year.

The posted rates for exchange have uniformly ruled during the week at 4 82½ for sixty day and 4 85 for sight, Brown Bros. and the Canadian Bank of Commerce, who last week posted 4 82 for long, advancing their rate on Monday. The rate for actual business in long sterling was also advanced on that day one-quarter of a cent, compared with the close on Friday of last week, to 4 81¾@4 82, while no change was made either in short sterling or cable transfers, these remaining at 4 84@4 84¼ for the former and 4 84½@4 84¾ for the latter. The tone thereafter was firm for long and with an easy tendency for short, and scarcely any business was done in cables. The tone was steady on Friday. The engagements of gold announced this week have amounted to $2,500,000, consigned to Lazard Freres. The arrivals of gold from Europe have been $4,212,550, previously reported $16,500,660, making a total of $20,713,210 on this movement. The following shows daily posted rates for exchange by some of the leading drawers.

		Fri. Sept. 30	Mon. Oct. 2.	Tues. Oct. 4.	Wed. Oct. 5	Thurs. Oct. 6.	Fri. Oct. 7
Brown Bros.	60 days.	82	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85
Baring, Magoun & Co.	60 days.	82¼	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85
Bank British No. America	60 days.	82¼	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85
Bank of Montreal	60 days.	82¼	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85

	Sight.	85	85	85	85	85	85
Lazard Freres	60 days	82¼	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85
Merchants' Bk of Canada	60 days	82¼	82¼	82¼	82¼	82¼	82¼
	Sight.	85	85	85	85	85	85

The market closed steady on Friday. Rates for actual business in long sterling were 4 81¾@4 82; short 4 84@4 84¼ and cable transfers 4 84½@4 84¾. Prime commercial 4 81½@4 81¾ and documentary 4 80½@4 81¼. Cotton for payment, 4 80½@4 80¾, cotton for acceptance 4 81½@4 81¾ and grain for payment 4 81@4 81¼.

The following statement gives the week's movement of money to and from the interior by New York banks.

Week Ending Oct. 7, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$4,171,000	$6,208,000	Loss $2,021,000
Gold	634,000	1,075,000	Loss 441,000
Total gold and legal tenders	$4,801,000	$7,274,000	Loss $2,472,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week Ending Oct. 7, 1897.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$4,801,000	$7,273,000	Loss $2,472,000
Sub-Treasury oper. and gold imp'ts	30,000,000	25,500,000	Gain 4,500,000
Total gold and legal tenders	$34,801,000	$32,773,000	Gain $2,028,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	Oct. 6, 1898.			Oct. 7, 1897.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.

THE RAILROADS AND THE PENDING CANADIAN TREATY.

A Joint High Commission is now in session at Quebec, composed of six Commissioners appointed by Great Britain and six appointed by the United States, who are engaged in the formulation of a treaty in respect to questions heretofore in controversy between the United States and Canada. Four of the English Commissioners are Canadians and one is from Newfoundland. The high character and ability of those engaged on both sides of this negotiation has led to a belief that important results will be reached in the way of definitely settling at least some of the fifteen topics under consideration. Certainly the time is most opportune for attempting these adjustments, and the questions are being approached by the negotiators in a very different spirit from that which has prevailed in the contentions of the past.

One of the subjects under discussion has reference to the so-called bonding privilege enjoyed by Canadian railways in respect to traffic crossing the international border. This privilege affects two classes of freight business, the movement of passenger business being practically free except as to the examination of baggage by custom house officials on either side.

The first class of freight business referred to is that between either country and foreign countries, which passes through the other country en route; for example, traffic between England and Canada, through the ports of Boston, Portland and New York, and traffic between England and our Western cities through the port of Montreal. In each case the cars are sealed and bonded during the transit through the other country, to the end that Customs revenues of the United States and of Canada respectively may be properly protected. Each country welcomes the transaction of this commerce across its boundaries and through its seaports, and no question is made as to the continuance of the privilege in this respect.

The other class of business has given rise to long and severe controversy. It is traffic which originates and terminates in the United States or which originates and terminates in Canada, passing through the other country on its journey. Traffic handled through Canada between points in the United States began with the opening of the old Great Western Railway, between Detroit and Suspension Bridge; it has en-

larged and expanded until at the present time it produces earnings of perhaps $20,000,000 per annum. The traffic through the United States between points in Canada is of more recent origin and of comparatively insignificant volume; it is increasing, however, being principally between the eastern provinces of Canada on the one hand and the northwestern provinces on the other, via Chicago.

Business across the Dominion of Canada from one United States point to another United States point is, as already stated, protected by a bonding-in-transit privilege. But this privilege rests simply upon mutual arrangements between the two countries. It is not protected by any treaty sanction, and hence is subject to termination at any time by executive order or by Congressional action. At first involving only comparatively short distances, it now applies to a large amount of long-distance traffic between New England and New York on the east and Illinois, Minnesota and the Pacific slope on the west. Since the opening of the Canadian Pacific Railway that company has been aggressive in reaching into the United States for this business, and unremitting in its efforts to prevent Canadian business from passing through the United States. Its route via Chicago has taken much traffic from the American trunk lines both east and westbound. as it makes connection at Chicago for all points west and southwest of that city. Its route between St. Paul and New England, via the Soo, has secured a large share of the grain and flour business of Minnesota and the Dakotas. Its trans-Continental line takes through Vancouver a considerable amount of traffic between all points on the Pacific Coast and all points south and east of St. Paul.

This state of affairs has created much feeling among the American roads, not so much by reason of the introduction of a new competing line—for they have become well accustomed to that by long and frequent experience—but chiefly because of the methods employed by the Canadian road in seeking this American business and the conditions under which the competition has been conducted. For example, when the Canadian Pacific opened its trans-Continental line it announced itself a competitor for all traffic within reach, and laid claim to a differential rate on the alleged ground of its longer distance and inferior facilities. This was a great surprise to the American trans-Continental lines, no such thing as a differential on either freight or passenger business being known in western railroad circles. But protests were unavailing; the Canadian road backed up its claim by reducing the through rates, or, in railroad parlance, "taking the differential;" for a time peace was purchased through the payment of a subsidy; when this was abandoned the demand was renewed; a rate-war was announced unless the concession should be made; if engaged in, the Canadian line would lose almost nothing, while all the American trans-Continental lines would be subjected to heavy sacrifices. After a time another peace was reached, conditioned that the American roads should always charge certain fixed sums more than the Canadian road charged on both freight and passenger business. This condition continued for several years, the Canadian Pacific continually improving its line and its facilities, and taking more and more business away from the American roads.

This history relates to only one case of many in which friction has arisen between the American roads and the Canadian Pacific. It is obvious that whatever claim the latter may originally have had to a differential, that claim is measurably weakened now that its facilities are equal to that of the American roads. The Inter-State Commerce Commission in their recent opinion respecting the controversy concerning passenger rates laid great stress on the ability of the road to compete on equal terms. Aside from this, however, United States roads have what may be considered a real grievance in the fact that experience has demonstrated that the competition through Canada can be conducted without being subject to the requirements of the short-haul clause of the Inter-State Commerce law so far as the Canadian portion of the road is concerned. There are also some other legal requirements to which the American roads are subject, but which do not bind the Canadian roads except so far as they voluntarily submit themselves thereto.

The friends of the American roads from time to time have suggested that this situation can be cured by Congress through a withdrawal of the bonding privilege. No determined attempt has yet been made to obtain such action, but the subject has been broached in Congress and a readiness to see justice done has been quite apparent in many influential quarters.

It is now proposed that the new treaty shall establish and provide a continuing right for the roads of either country to do business between points in the other country, under provisions making such traffic throughout its entire course subject to the laws of the country in which it originates; placing such traffic under the control of the Inter-State Commerce Commission as to United States traffic and of the Railroad Committee of the Privy Council as to Canadian traffic; and making it the duty of the Treasury Department of either country to suspend the bonding privilege and collect duties on any particular traffic in case those bodies respectively shall certify that a company fails to conform to the requirements of the treaty in that behalf.

This provision is intended to put the roads of both countries upon an exactly identical basis, and is believed to be in every way conformable to justice, while at the same time preserving the utmost freedom of competition to every line in respect to the making of tariffs and otherwise.

In certain sections of New England a feeling has arisen that those communities have been benefited by the advantages which the Canadian roads have enjoyed over their competitors, and objection is made to changing present conditions. This view is clearly short-sighted, as no part of the country would be more greatly benefited by the permanent establishment of this competition on a fair and legitimate basis than would the New England States. It would be almost as much to their continuing benefit as it would be to the advantage of the Canadian roads themselves; for it is clear that unless a conclusive settlement of this embarrassing question is now reached, it will be made a matter of sectional controversy in Congress for many years to come, with the possibility that at some time the Canadian roads will be absolutely excluded from American traffic in the same manner and for the same reasons as both countries now exclude aliens from their coastwise, lake and river traffic of precisely the same character.

THE LOUISVILLE & NASHVILLE REPORT.

In one particular the reports of all American roads for the fiscal year ending last June—with their gratifying record of improvement—reveal a common feature. They show that the long period of depression, which happily came to an end a twelvemonth ago, had at least an offsetting advantage. It taught our railroads lessons of economy in management and the value of efficiency in operations. Most of all, it taught them sound, conservative methods of financiering. Many of the practices which half a dozen years ago were looked upon as wholly unobjectionable—and which really were not wrong in themselves except so far as they indicated adhesion to an unsound fiscal policy—have now been abandoned, and would indeed no longer be tolerated. Out of the change there have grown some noteworthy results. For one thing the roads find themselves able to move traffic at lower rates than ever before and yet make a profit out of the business. For another thing we find them proceeding cautiously in the matter of the distribution of profits, even when a new era of prosperity has apparently dawned; by which we mean that it is considered wiser and better to secure an improvement in the fiscal and financial condition of the properties than to enter prematurely upon the payment of new or enlarged dividends.

We permit ourselves these reflections because in the Louisville & Nashville we see this departure clearly illustrated and its wisdom plainly exemplified. The L. & N. management may indeed be said to have been one of the first to see the drift of things in the railroad world and to become impressed with the need of abandoning the old, conventional policy and substituting for it a new and enlightened policy more in accord with the needs of the day. For many years it had been paying for betterment outlays through additions to capital account. In this it was no less conservative than the management of other large systems. The practice then was well nigh universal, about the only exceptions being in the case of one or two companies holding a unique position, like the Lake Shore. The objections to the practice are well known and have been often stated in these columns. Charges to capital account in this way mean not only an enlarged debt but they mean (by reason of that fact) a constant addition to the yearly interest requirements. Furthermore, owing to the natural desire to avoid augmentation in the yearly charges, the betterments are apt to be made sparingly rather than with full freedom and liberality. As a consequence, the physical condition of the property suffers and this in turn means impaired efficiency in operations.

If such a policy is objectionable in good years, it is doubly so when the prospect is of declining earnings and revenues. The L. & N. management evidently foresaw that there was a lean period ahead. They understood that a continuation of the old policy under such conditions was like burning the candle at both ends, and if long continued must inevitably result in ruin. They accordingly in 1894 announced the adoption of a new policy. And since then all betterment and improvement outlays have been charged to expenses and been paid for out of earnings. They made some changes in other directions (as, for instance, in the matter of the treatment of sinking fund accounts), the changes being all in the direction of increased conservatism.

That the new policy has been beneficial and advantageous is evident from the creditable way in which the company passed through the trying times following 1893, when so many properties were forced to the wall. It is evident also from the increased efficiency and economy with which it is now possible to operate the road. Lastly, proof to the same effect is found in the improved physical and financial condition of the property and the excellent credit the company enjoys. As far as the finances are concerned, the financial arrangements of the late year have of course also contributed to the improvement and have furnished evidence of it. The company had $7,070,000 of consolidated mortgage 7 per cent bonds falling due in April, and these, as will be remembered, were taken up by an issue of collateral trust 4 per cents. Altogether $12,500,000 of these collateral trust bonds were issued, $7,070,000 being for the purpose named, $3,623,319 to reimburse the company for expenditures on the Paducah & Memphis Division, and the balance to liquidate its floating debt and reinforce cash in the treasury. As a consequence the management is able to make the statement that the company now has "upwards of $2,000,000 in bank and is entirely free from floating debt." At the end of the previous fiscal year the company had over three million dollars of bills payable, outstanding ($3,031,628); now the corresponding item is only $26,568. Moreover, this is the first time in a good many years that the company could report itself practically free from floating debt.

But the most important fact is that notwithstanding the increase in the bonded debt in the late year (for the purposes mentioned) the company's annual fixed charges are actually falling off. The record of the payments for interest and rent has been as follows for the last five years: 1894, $5,065,277; for 1895, $5,013,738; for 1896, $4,983,096; for 1897, $4,981,993; for 1898, $4,972,592. But this does not show the full measure of the reduction that has been effected through refunding and through the policy of not increasing debt for improvement outlays. Up to 1897-8 interest account had been credited with the rent from the Paducah & Memphis Division, amounting to $154,773. In the late year, owing to a change in methods, this rent was credited to another account. On the same basis as in other years, the aggregate of the charge for interest and rent for 1897-8 would have been only $4,817,820, instead of $4,972,592, and on that basis the reduction as compared with 1896 7 is $164,173, and as compared with 1893-4, $247,457. Obviously the showing would be quite different had the company continued the old policy of charging the outlays for improvements to capital account.

The conditions which made necessary the departure are clearly revealed when a study and analysis of the company's traffic and revenue accounts is undertaken. We hear a good deal of the low rates on Western roads and the steady and large decline in these rates that has occurred within recent years. But the fact is generally overlooked that on some of the leading Southern roads, like the Louisville & Nashville, the situation as to rates has been hardly more favorable. It will no doubt be a surprise to the reader to hear that the L. & N. in the late year realized an average of only three-quarters of a cent (7½ mills) per ton per mile on its entire freight tonnage. Any one with only a slight acquaintance with railroad affairs will recognize that this is a low average for a system possessing the kind of traffic which the L. & N. has.

Going back to 1892-3 we find that the average rate then was still close to a cent a ton a mile, the actual figure being 0·932 cent. In other words, in the brief period of five years there has been a decline in this average of almost 20 per cent.

We have selected the year 1892-3 for comparison because that was the year of heaviest earnings in the company's history, both gross and net. The very next year (following the panic of 1893) there was a very notable drop. Since then there has been a steady recovery, the gain in the late year having been particularly marked. Nevertheless, the earnings have not got back to the large totals of 1892-3, the net being nearly a million dollars behind, and the gross about $400,000 behind. The smaller net might not possess much significance, owing to the inclusion of the betterment outlays in expenses now, but the falling off in the gross is entirely due to the lower rate received, and indicates how very much more traffic it is necessary to move now to earn the same amount of money We may say that in the passenger department the decline in average rate has been nearly as marked as in the freight department, this average having been only 2·15 cents per passenger per mile for the late year, against 2·42 cents in 1892-3. In this case, too, the volume of traffic for 1897-8 was not quite equal to that for the earlier year, though the difference is not very great, the road having carried roughly 208 million passengers one mile in 1897-98, against 211⅝ millions in 1892-3. In freight, however, the volume of traffic was very much heavier. In 1898 the road moved 2,011 million tons one mile, in 1893 only 1,595 million tons. Yet this tremendous expansion in tonnage gave only a slight addition to the freight revenues because of the shrinkage in rates—not enough addition to offset the loss in the passenger department. Had the company been able to obtain on the tonnage of 1897-8 the rate realized in 1892-3, both gross and net earnings would have been $3,660,000 greater than they actually were—an amount equal to 7 per cent on the company's stock outstanding.

Such conditions obviously made it desirable to avoid an increase in the yearly call for interest (bearing in mind that mercantile affairs in the United States were going through a period of depression), and we have seen above how well that object has been attained. The same conditions likewise called for increased efficiency in operations, and as one evidence of the progress made in that direction, it is only necessary to say that during these five years the company has increased its train load from an average of 166 tons to an average of 193 tons.

Obviously the policy of paying for improvements out of earnings might be carried too far. But if any one was apprehensive lest the management should pursue an arbitrary course in this respect, he will be reassured by the remarks contained in the present report bearing on that point. The shareholders have had no dividends since 1893. But Mr. August Belmont states that the improvement in the physical condition of the property—its rolling stock, etc.—which has been made in the five years since then will relieve the management from further extraordinary expenditures for improvements. He announces moreover that "it is proposed to consider surplus hereafter earned, over and above operating expenses and fixed charges, for each year, as a basis for dividends for such year, which dividends will be regulated by the amount so earned for that period." He takes pains at the same time to state that "it is not contemplated to use any of the accumulated surplus of the company for the payment of dividends."

This is a definite announcement of policy, and it should be satisfactory to the security holders. The results for the late year will afford some idea as to what dividends the company is likely to be able to pay. The income account shows a surplus of $1,632,901 on the operations of the twelve months, equal to a little over 3 per cent on the stock outstanding. This is after paying out $659,950 for improvements (the amount having been directly charged to expenses), and it is after making contributions of $188,382 on sinking fund and discount account, besides allowing in full for the loss ($175,100) in the operation of the Georgia and other leased roads. It is well enough to point out too that not all the influences bearing on traffic and revenue were favorable during the late twelve months. Business revival of course was a decided advantage. But the fact should not be overlooked that as the road is in the South, and not in the West, there was no such opportunity for expansion as there was in the case of the Western roads. The cotton crop, to be sure, was a large one, but on the other hand there was an offsetting disadvantage in the fact that the price of the staple ruled very low. The yellow fever last autumn also for a time proved an important drawback.

The surplus of $1,632,901 on the operations of the twelve months was transferred to the credit of profit and loss account. As to the disposition to be made of it half a million dollars has been appropriated for couplers and air-brakes (to comply with the law passed by Congress) for equipping the remainder of the company's rolling stock; half a million dollars more has been appropriated for equipment and $248,441 for reductions of grades. Obviously the effect of all this will be to further strengthen and improve the position of the company. It is worth noting that the practice of applying surplus revenue for the purpose of meeting the requirement of the law regarding couplers and air-brakes has found favor in the case of several roads recently. The Illinois Central management, for instance, appropriated $528,000 out of surplus in this way in the late year.

NASHVILLE CHATTANOOGA & ST. LOUIS.

The Nashville Chattanooga & St. Louis, though constituting an important system in itself, is controlled through the ownership of a majority of its stock by the Louisville & Nashville. It is, however, operated separately, and its business is not included in the report and accounts of the L. & N. Major J. W. Thomas, under whose excellent management the property has thriven so long, still remains the executive head of the company.

The property has for many years been in a prosperous state, returning larger or smaller dividends to its shareholders in good times and poor times alike, and the results for the late year show that the company is still enjoying the same even career. The report will perhaps however attract more attention than usual because some considerable additions to the mileage of the system have been made within recent periods, and every one is interested in knowing how far these additions are proving profitable in themselves and what effect they are having upon the fortunes of the parent company. The late year was on the whole a very good one for the road, and an important addition

to its revenues was effected. Indeed the traffic and earnings of the system have been steadily rising in all recent years, and the aggregate amount of this increase reaches important proportions.

As the system is not a large one, the extent of the expansion seems to have escaped notice. To say that gross earnings in the late year were added to in the sum of over half a million dollars ($530,430) may not seem very striking in these days of large gains, and yet in the present case it represents a gain of over 10 per cent, and this on substantially the same mileage, the operations of the Memphis & Paducah Division, to which we shall allude again further below, not being included in the general results. More important still, this gain for the late year followed on top of other gains in the years preceding; if we compare with 1893-4, we find gross of $5,646,549 now, against only $4,521,662 in that year. Things were at a low ebb, to be sure, in 1893-4, but even as compared with 1891-2, which was the best of recent years, there is an improvement of close on to three hundred thousand dollars.

We thus have striking evidence of the way the traffic of the system is being developed. In the net earnings the gains have been comparatively small, the management evidently following the policy of expanding or contracting expenses with a gain or loss in gross—that is, outlays are made with greater freedom and fullness in a year of good business than in a year of poor business. The net at $1,982,723 for 1897-8 compares with $1,911,447 for 1896-7, with $1,850,482 for 1893-4 and with $2,029,008 for 1891-2. At $1,982,723 for the late year, the amount was sufficient to provide for all charges and for the $100,000 required to meet the 4 per cent dividends now being paid on the company's stock and yet leave a balance of $60,524. In the previous year, net earnings having been smaller, the surplus above the dividend requirement was but $3,015.

With reference to the new acquisitions, the Memphis & Paducah Division is the most important of them. This is a consolidation of the former Paducah Tennessee & Alabama and the Tennessee Midland roads, and the road, as is known, is leased from the Louisville & Nashville. It consists of a line from Memphis to Paducah, 229¼ miles, with a branch from Perryville to Lexington, 24 miles, making altogether about 254 miles. It appears that allowing for the rental paid for the line, it was operated at a loss of $49,741. The surplus of $60,524 which the Nashville & Chattanooga showed on its own operations for the late year would be more than sufficient to take care of this deficiency. It is proper to say, though, that the deficiency noted does not indicate the advantages accruing from its operation; as a matter of fact the Nashville & Chattanooga derived $266,964 of revenue on business received from and delivered to the Memphis & Paducah Division. As to the Middle Tennessee & Alabama, which is another new acquisition, the completed portion of that line has only just been opened for operation. In the purchase some years ago of the Rome RR. the Nashville Chattanooga & St. Louis incurred a liability which has ever since been represented by bills payable. In the late year this item was further increased somewhat, and now stands at a little over 1½ million dollars. As concerns the ordinary current liabilities, the offsets in the shape of cash assets are greatly in excess of the same.

Transactions of the Stock Exchange Clearing House.—The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1897 there is an increase in the aggregate of 9·7 per cent. So far as the individual cities are concerned, New York exhibits an increase of 15·6 per cent, and the gains at other points are: Boston 0·8 per cent, New Orleans 3·2 per cent, Philadelphia 7 per cent, Chicago 10·4 per cent, Baltimore 29·9 per cent and St. Louis 16·3 per cent.

CLEARINGS. *Returns by Telegraph.*	*Week Ending October 8.*

Monetary and Commercial English News

[From our own correspondent.]

LONDON, Saturday, Sept. 24.

As the weather continues beautiful, very few people have yet returned to the city, and business in consequence is very slack. Besides there has been some renewal of political anxiety this week. The first cause for uneasiness has been the comments of the Paris Press upon the reported presence of Frenchmen at Fashoda. It was generally assumed here that the French Government would declare that the Marchand expedition was purely scientific. But if the French Press reflects French opinion, and especially Governmental opinion, this will not be the case. So long ago as when Lord Rosebery was Prime Minister, his Under Secretary for Foreign Affairs, Sir E. Grey, declared in the House of Commons that a French advance upon the Upper Nile would be regarded as an unfriendly act—a form of speech which, coming from a British Minister in his place in Parliament, is exceedingly strong. Yet in spite of that, it is now believed that the French Government has sent Captain Marchand with some officers and Senegalese soldiers to Fashoda. The inference is that action hostile to this country is intended, and if it is there will be a period of very strained relations between the two countries; for public opinion here would not tolerate any concession, even the smallest, upon that point.

Another matter that is causing a good deal of uneasiness in the city is the reports that reach here of naval and military preparations both in Chili and Argentina. British investments in both republics are large, but they are very much the largest in Argentina, where they are estimated to amount to something between 160 and 200 millions sterling War between the two republics, therefore, would endanger an immense amount of British property, and the threatened war is about a matter of no real importance to either State. If the facts before the public are correctly stated, Chili is willing to lay the whole matter without reserve before the Queen as arbitrator. Argentina is also willing to arbitrate, but it makes various reservations which Chili will not accept As matters stand, the financial condition of Chili is such that she cannot afford to continue the present naval and military preparations. Happily, private telegrams from both countries were received in the city yesterday saying that the arbitration agreement is signed. The greatest confidence has all along been felt here that General Roca, who will be installed as President on October 12, would take care that he does not inherit an unnecessary war.

Anxiety about Cretan affairs is abating. The Turks have yielded to most of the demands made by the British Admiral, and it seems now as if some kind of order would be restored, although very little hope is entertained that this country, Russia and France can come to any definite agreement as to the future Governor of the Island.

But perhaps the matter which excites the greatest uneasiness here is the internal condition of France. The agitation respecting the Dreyfus case has brought out so much reflecting disgracefully upon the French General Staff that very serious fears are entertained of a military *coup d'etat*. As there is no general in France of any reputation, it is difficult to believe that the general body of officers would make a despot of any existing officer. On the other hand, the desperation of the General Staff is such that nobody knows what to expect next, especially as the executive and the judiciary seem to be completely under the orders of the General Staff. The postponing of Colonel Picquart's trial and the handing him over to his military persecutors have deepened the apprehensions, especially as he thought it necessary for his own safety to declare in court that he had no intention to commit suicide, and if he was found dead it would be a case of murder.

Lastly, the prospect of dearer money has for the moment taken the Stock Exchange completely by surprise, and somewhat disorganized markets. The feeling will, of course, pass away, as very probably rates will not rise unduly high. But added to all the political preoccupations, it increases the unwillingness of the public to engage in new risks. For some time past there has been an increased dealing in American railroad securities, but it has been confined to members of the Stock Exchange and professional operators. The great body of the public are holding quite aloof, not in that market only but in every department. They are reluctant to part with their money so long as there is any danger of political disturbances. On the other hand, there is much to show that if political confidence could be revived there would be a very great increase in business. As a matter of fact business on the Stock Exchange has been better all through the year than it was last year. The Clearing House returns up to the present date show an increase compared with the corresponding period last year of about 115 millions sterling on Stock Exchange pay-days.

The general trade of the country is undoubtedly also much better. The whole increase in the Clearing-House returns is over 450 millions sterling. It ought to be added that of recent months the increase has not been anything like as great as it was in the earlier part of the year. Still trade is good. There is no speculation. The harvest has been better than for a good many years, and it has been got in in excellent condition. The directors of the Bank of England on Thursday raised their rate of discount from 2½ per cent to 3 per cent. The rate was put down to 2½ per cent on the last day of June, exactly 12 weeks ago. Even then the directors very reluctantly lowered it. They had been all through the spring endeavoring to increase their reserve. For that purpose they had borrowed largely in the open market, and thereby got control of the market for many months. Unfortunately, the final payment of the war indemnity made by China to Japan enabled the latter to lend upon an immense scale in the London market, and thereby all the efforts of the Bank were defeated. Now, however, it has become absolutely necessary to strengthen the Bank reserve. The Bank in consequence has again been borrowing in the open market, and has now, as stated, put up its rate to 3 per cent.

The general impression here and upon the Continent is that neither Germany nor Russia, nor Austria-Hungary, will do anything to disturb the London market, and it is certain that Japan will not. Therefore the immediate course of the market depends mainly upon the amount of gold which may be taken by New York. Of course it is certain that the usual autumnal requirements for the interior, Scotland and Ireland, as well as for such countries as Egypt and South America, will have to be provided. But these requirements can fairly well be estimated beforehand, and would not very much disturb the market. A large demand, however, for New York could not be reckoned with beforehand, and might place the Bank in a very inconvenient position.

In India the slack season continues, and consequently the money market is comparatively easy. But the scarcity of rupees is greatly felt, and in consequence the India Council continues to sell its drafts exceptionally well. On Wednesday it offered for tender 35 lacs, and the applications exceeded 103 lacs. The whole amount offered was sold at prices ranging from 1s. 3 15-16d. per rupee to 1s. 4 1-32d. per rupee. Next Wednesday 40 lacs will be offered for tender.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols &c., compared with the last three years:

* September 22. † September 24.

Messrs. Pixley and Abell writes as follows under date of Sept. 22:

Gold—There has been an active market in gold during the week, America being a large buyer; besides taking £300,000 from the market she has withdrawn over one million and a quarter in gold from the Bank. The Bank received £30,000 sovereigns, from Australia, and has lost £245,000 in sovereigns, £463,000 in Eagles and £577,000 in bars, making a net loss of £1,255,000. Arrivals: India, £60,000; Australia, £52,000; Chili, £11,000; South Africa, £191,000; New Zealand, £28,000. Total, £342,000. Shipments: Japan, £5,000.

Silver—There has been a large business in silver during the week. India has been a steady buyer, the price having risen in India to as high as 72¾ rupees, and in addition there has been a fair amount of buying to close September contracts. The price has risen from 24d. to as high as 25 3-16d., and closes dull at 25 1-16d. Arrivals: New York, £288,000; New Zealand, £7,000; Chili, £12,000. Total, £307,000. Shipments: Calcutta, £10,000.

Mexican Dollars—Dollars have been dealt in at about their silver value, and there has been a fair business in them. Arrivals: New York, £34,000. Shipments: Straits, £48,000; Hong Kong, £26,000. Total, £74,000.

The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, OCT. 7, 1898.—5 P. M.

The Money Market and Financial Situation.—While professional traders have been again prominent at the Stock Exchange and have succeeded in effecting wide fluctuations in several speculative issues, there has been a broadening of the security markets and an increase of legitimate business this week in Wall Street. Evidence of this is seen in a more active and firmer market for railway bonds than has existed for several weeks past, in an advance in Government 3s to the highest quotations recorded for them, and in a moderate increase in commission house buying of standard shares. The outside public is evidently again taking an interest in railway securities, stimulated by the excellent traffic reports recently made, by the prospect of a large increase when the grain movement becomes more general and by the easier money market. Perhaps the strongest influence, however, in bringing about a change of sentiment in financial circles is the more promising political outlook and the hope of favorable legislation affecting our financial system during the coming session of Congress.

An investment demand for long sterling bills is a new feature of the foreign exchange market, the natural tendency of which will be to restrict gold imports for a time. The money market has been steadily growing easier during the week and rates are correspondingly lower.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 4 per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper quoted 3½ to 4½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,430,023, and the percentage of reserve to liabilities was 44·20, against 47·53 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 9,475,000 francs in gold and 5,425,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 1 showed an increase in the reserve held of $7,418,000 and a surplus over the required reserve of $15,327,150, against $8,252,875 the previous week.

Foreign Exchange.—The market for foreign exchange has been steady and only moderately active.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 81¾@4 82; demand, 4 81@4 81¼; cables, 4 84¼@4 81¾; prime commercial, sixty days, 4 81¼ @ 4 81½; documentary commercial, sixty days, 4 80½@4 81¼; grain for payment, 4 81@4 81¼; cotton for payment, 4 80½ @4 80¾; cotton for acceptance, 4 81¼@4 81½.

Posted rates of leading bankers follow:

Oct. 7.	Sixty days.	Demand.
Prime bankers' sterling bills on London	4 82½	4 85
Prime commercial	4 81¼@4 81½	.....
Documentary commercial	4 80½@4 81¼	.....
Paris bankers' (francs)	5 23 11/16@23¾	5 22½@2 11/16
Amsterdam (guilders) bankers	39⅞@39 15/16	40 @40 1/16
Frankfort or Bremen (reichsmarks) b'kers	94 1/16@94¼	94⅞@95 1/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 75c. per $1,000 premium; Charleston buying ⅛ discount, selling par; New Orleans, bank, 50c. premium, commercial, $1 25 discount; Chicago, 10@20c. per $1,000 discount; St. Louis, 25c. per $1,000 discount.

United States Bonds.—Sales of Government bonds at the Board include $10,000 4s reg, 1925, at 120⅞; $6,500 4s reg., 1907, at 110¼ to 110⅝; $7,000 4s coup., 1907, at 111; $9 000 5s coup. at 112¾ to 112¼; $1,000 5s reg. at 112⅝; $2,500 3s reg. at 104¼ to 104½; $1,113,600 3s coup. at 105⅛ to 105⅝, and $5,280 ditto (small bonds) at 104¾ to 105⅛.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $62,500 Virginia fund. debt 2-3s of 1991 and $4,000 Tennessee settlement 3s at 93¼.

There has been a better market for railway bonds than we reported last week. At the Exchange the volume of business increased to an average of about $3,250,000 par value per day, and the market was generally firm, with a notable advance in some issues. Wisconsin Central trust receipts lead the list in this respect, closing to day at 59, a gain of nearly 7 points from Monday's opening price. Atchison adjustment 4s, in sympathy with the preferred shares, were active at an advance of about 2 points. Texas & Pacific 2ds were also in request and show a similar gain. Union Pacific 4s, Southern Railway 5s, Missouri Kansas & Texas 1sts and Erie prior 4s are among the issues which advanced a point or less. The active list includes also Northern Pacific, Reading, San Antonio & Aransas Pass and Union Pacific Denver & Gulf bonds.

Stock and Bond Sales.—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales N. Y. Stock Exch.	Week ending Oct. 7. 1898.	1897.	Jan. 1 to Oct. 7. 1898.	1897.

Thursday	42,049	13,599	147,500	10,917	8,396	81,800
Friday	9,900	8,200	105,000	17,748	9,942	189,000
Total	100,923	79,977	565,925	65,196	32,784	683,665

Railroad and Miscellaneous Stocks.—The stock market has been fairly active, transactions at the Exchange averaging nearly 420,000 shares per day. Some of the industrial stocks continued to fluctuate violently during the early part of the week, but the whole market settled into a more normal condition on Wednesday. The railway list was generally firm and quotations advanced between 1 and 2 points in many cases. The grangers were notably strong on St. Paul's excellent traffic report for the fourth week in September and for the entire month. Thursday's market was somewhat irregular. A feature of yesterday and to-day was liberal selling of Northern Pacific common which resulted in a decline of 2¾ points on rumors of new complications. The local traction stocks were most erratic of the railroad list. Brooklyn Rapid Transit advanced over 5 points and Metropolitan Street Railway 8¼ points, while Manhattan Elevated fluctuated over a range of 5¼ points and closes with a small net loss.

Speculative manipulation of the industrials carried American Tobacco down to 113, a decline of 12½ points from our last quotation and of over 40 points within two weeks, from which some recovery has been made. Within the week American Sugar Refining has covered a range of 6½ points, Consolidated Gas 12 points, New York Air Brake 15½ points, Hawaiian Sugar 6 points, American Cotton Oil and United States Rubber nearly 4 points each.
